## THE GOLDEN CHAIN JUNIOR TAPPINGS TO BE HELD WED.

Appropriate Ceremonies for Initial Selection to be Conducted on Grass by Tower

### CAUSE MUCH SPECULATION

Every Junior Should be There, as Absolutely No One Knows Who Will be Chosen

Selection of members for The Golden Chain, recently organized Senior honor society, will take place on the campus near the Memorial Tower next Wednesday evening at 6:30.

An appropriate tapping ceremony has been planned, and it is hoped to make the occasion one of interest to the entire student-body. The initiation ceremonies will begin after a short talk by Dr. E. C. Brooks, who is an honorary member of the organization. Twelve members of the Junior Class will be "tapped" and as they are brought into the center of the group, the reasons for the selection of each will be given. E. G. Moore, the presiding officer of the society, will make a brief talk to the men who are chosen to become "links" in the endless chain of those who have done most for State College. Efforts will be made to secure the college band to furnish one or two selections.

Speculation has been somewhat freely evidenced for the past few days as to the probable members. Factors which are considered are athletics, literary work, interest in constructive activities, and loyalty to the college and its traditions. There are several outstanding men in the Junior Class, representing every phase of college activity, and friends of these men will anxiously await the outcome of the ceremonies Wednesday evening.

At a recent meeting, nine honorary members were elected to membership. They are: Dr. E. C. Brooks, Dr. C. C. Taylor, Dean Cloyd, Professor Graves, Walker, Professor C. C. Cunningham, E. S. King, Major Price, Tal H. Stafford, and J. F. Miller.

## "DAD'S DAY" BE INSTITUTED AT COLLEGE NEXT OCTOBER

Athletic Council Decides on October 15 as Day for Fathers; Play Davidson

The Athletic Council has decided to adopt October 15 as "Dad's Day." On that date, heretofore, the annual Fair week class was played between State and Carolina, but this year State will play Davidson, at Raleigh.

At the same time the Students' Agricultural Fair will be held, and its officers say that it is going to be a larger and better fair than ever before. The Athletic Council is going to co-operate with the students and make it an enjoyable day for the "Dads." They will be personally invited by the students to come and see State College, and also see how their boys are lined up for the year. There will be a special program for "Dads" on that day and they will be shown a good time. It has not been announced officially, but it is thought that the Fair Ground property will be sold at this time.

The Council also decided to adopt Armistice Day as "Home-coming Day" for all State College men. On this day State will meet Duke University here. It is probable that Carolina will meet State here on "Home-coming Day" the following year.

### GO TO BLUE RIDGE

State College men are going to Blue Ridge? What are they going for?

1. To spend ten glorious days in the "Land of the Sky."
2. To associate with 500 student leaders from the schools of ten Southern States.
3. To study under and confer with national and international figures—J. Stitt Wilson, John R. Mott, and others.

Are you interested? Call by "Y" desk for information.

## Professor Henry K. McIntyre Dies After 17 Years Service

HENRY K. MCINTYRE

### PRELIMINARY SELECTS COMMENCEMENT ORATORS

G. B. Cline, R. J. Peeler and E. G. Moore Will Participate in Contest at Commencement

As a result of a preliminary held Monday afternoon, G. B. Cline, E. G. Moore, and R. J. Peeler were selected to deliver the commencement orations for this year.

Cline is a student in the School of Agriculture, and competed with Phil Hendricks for the honor of representing his school. His oration deals with the tenant farmer in North Carolina and presents a clear-cut picture of the problem. Moore is a student in the School of Science and Business, majoring in Education. His subject is, "The Press as a Factor in Education." He attempts to point out the weaknesses of the press today and how it may be used for the advancement of education. Peeler is also a student in the School of Science and Business, and likewise majoring in Education.

In the course of his oration he calls attention to the large number of boys and girls who are not receiving equal educational opportunities and to the consequent results to the country. A strong plea is made for vocational guidance for the youth. R. B. Winchester was a third contestant from the School of Science and Business.

According to the rules laid down by the faculty committee, each school is entitled to only one representative in the commencement speeches. However, the schools of Engineering and Textiles presented no candidates, so the judges decided to select an extra man in case two were of nearly equal rank, which proved to be the case.

The orations will be delivered on Monday night, June 7, in Pullen Hall, at which time the Valedictory will be given by Herman W. Taylor.

### TAU BETA PI INITIATES 11 JUNIORS AND SENIORS

Vaughan Gives History of Fraternity at Banquet; V.P.I. Professor a Visitor

At the meeting of Tau Beta Pi, National Honor Engineering Fraternity, held in the Y. M. C. A. last Friday night, the annual initiation took place.

A delightful three-course dinner was served to the newly received brothers and the older brothers present.

Several short talks were made, Professor L. L. Vaughan giving a brief history of Tau Beta Pi. Other speakers were Professor W. T. Ellis, Professor of Power Plant Engineering at V. P. I.; Colonel J. W. Harrelson, and Messrs. Hobbs and Hooper of the State Highway Commission. J. D. Conrad and W. E. Wilson responded for the new men.

The new men received were: Seniors—T. C. Dickerson, Jr., J. B. Dotterer, R. A. Isley, Mark Sumner. Juniors—F. M. Chedester, J. D. Conrad, G. F. Hackney, R. A. Kendrick, W. E. Matthews, W. E. Wilson, W. A. Yost.

Firmly Established Professor in Electrical Engineering Dies Sunday Night, May 9

POPULAR IN DEPARTMENT Thoroughly Loved and Respected by Students and Faculty in Engineering

Funeral services for Professor Henry Knox McIntyre, of the Electrical Engineering Department, were held Tuesday afternoon, May 11, at 4:30, at the Church of the Good Shepherd.

Professor McIntyre was taken sick Tuesday, May 4, and was getting better about Friday, but Saturday his condition was such that the doctor sent for him to be carried to the hospital. After a complete examination, all hopes for his recovery were given up. He died Sunday night about 10:30.

Professor McIntyre was born in New York City in 1877, the son of Ewen and Emily Bridgeman McIntyre. He graduated from Columbia University in 1899. He was Transmission Development Engineer in the New York branch of the American Telephone and Telegraph Company; following this, he with other co-workers developed the Gray "Telautograph" for transmitting handwriting electrically. He came to State College in 1909, and, working under great difficulties of lack of equipment, helped to bring the Electrical Engineering Department up to its present high standard. He loved his work and was very conscientious about everything he did. No one could have given himself to his work any more completely than he did.

For the last three years he has been interested in the electrochemical and electrometallurgical development in the State, which had never been developed. There has probably never been a man at State College who was more respected and loved by the students, the faculty, and friends of the College than Professor McIntyre.

Professor McIntyre is survived by his wife and three children, John, Joan, and Alan; four sisters, Mrs. Francis L. Patton, Jr., Mrs. Henry Atterby Smith, Miss Lucy McIntyre, and Mrs. William Shannon, of New York City; three brothers, Ewan McIntyre and John McIntyre, of New York City, and Wilbur McIntyre, of Waterbury, Connecticut.

### SENIORS PLEDGE SECTION FOR MEMORIAL STRUCTURE

\$5,500 To Be Given for Ten More Feet on Tower; Prof. Pate Speaks to Class

The Senior Class had a meeting in the Y. M. C. A. last Monday night for the purpose of deciding upon a memorial to leave in honor of the class of '26. Mr. W. F. Pate, an Alumnus, made a short talk. Mr. Pate was in favor of taking the memorial money that would be given by the class and use it toward the erection of the Memorial Tower on Hillsboro Street.

After Mr. Pate's talk, the class discussed the subject and decided to add a ten-foot section to the tower with a bronze plate on it containing the inscription: "Erected by the Class of '26," or something to that effect. It was decided that each member would pay an equal part of the fifty-five hundred dollars, the approximate cost of a ten-foot section, within the next two years. This payment is to be divided into four quarters, a payment each six months for the next two years.

### DINING HALL IS HOST TO BASEBALL PLAYERS

The baseball squad is on, on a terrible batting rampage this week. Mr. Harris gave the varsity squad a splendid feed Tuesday night because it defeated Carolina.

It is a hard matter to feed a hungry bunch of baseball men after an evening's work-out, but Mr. Harris certainly proved that it could be done. Every member of the squad seemed to appreciate the interest shown in them by Mr. Harris, as it was really a good feed.

Next Thursday night the College Woman's Club is also going to give the baseball squad a supper. It will be given at the Woman's Club, and the entire team is looking forward to it with keen interest.

## 1926 AGROMECK AMONG THE BEST YET PUBLISHED

Review Places Current Annual Second to None Except Great Issues of '21 and '23

### SCORES SPONSOR SECTION

Some Spots of Rare Beauty, But "Flowers of North Carolina" Too Pretentious Name

The 1926 Agromeck, the largest, and, in many respects the best, year-book ever assembled at State College, has just made its debut on the campus.

In cover design the new annual follows the precedent set by the books of '24 and '25 in the use of what now seems to have been made a standard style. The advantages which are offered by such a custom as this, in the case of recognition, are largely swayed by the disadvantage of the loss of originality and individuality, which are the strongest points in the make-up of a college annual.

In general excellence of materials and workmanship the new book stands second only to Earnest Constable's '21 Agromeck, which still reigns supreme in these matters, with its genuine leather binding and profuse and costly, though dignified, use of color work. In the matter of size it also competes with the '21 book, being only the second annual in as many years to go above Constable's book in number of pages. This fact, in justice to the '22 and '23 annuals, should be attributed to the custom of putting two Seniors on each page of the Senior section, instead of following the one-man style which had been used in the '20 and '21 books.

Much originality is shown in the first few pages of the new book by the use of colored drawings representing the early steps in the founding and building of the college. While the quality of the drawings and their coloring is not of the highest type, the sentiment, the instructional value, and the individuality in their use, commend the book very highly at the very outset.

Another departure is the use of color in the campus scenes. The sharp contrasts and the lack of blending of—Continued on page 2.

### RALEIGH BE SCENE CONTEST OF CONSTITUTION ORATORS

W. E. Wilson's Win Over Craven, of Duke, Gives State Entry in Southern Event

For the second consecutive year the State of North Carolina will be represented in the Southern Inter-State Oratorical Contest on the Constitution by a student in the North Carolina College of Agriculture and Engineering. This fact is the result of the clear-cut victory which W. E. Wilson, a junior in the School of Engineering, won over W. F. Craven, of Duke University, on Friday, April 30.

By virtue of his victory, Wilson will represent North Carolina in the Southern Inter-State Oratorical Contest, to be held Monday night, at 8:15 o'clock, in the auditorium of the First Christian Church. Here he will compete with the winning speakers from Florida, Georgia, South Carolina, Virginia, Tennessee, and Kentucky for the honor of representing the South in the National Contest, to be held at Los Angeles, California, on June 25. Professor C. C. Cunningham, coach of public speaking at State College, will preside. He is chairman of the Southern oratorical region.

This contest will bring to Raleigh some of the best speakers in the South and should bring out a large audience.

The 1925 State contest was won by H. M. Ray, at that time a junior in the School of Science and Business. The recent State contest was well attended, an audience of 150 being present. The chairman of the contest was Professor C. C. Cunningham, of State College. The judges were A. T. Allen, State Superintendent of Public Instruction; Judge W. C. Harris, of Raleigh municipal court and a candidate for the Superior Court bench, and W. N. Everett, Secretary of State of North Carolina.

As was expected, Craven put up—Continued on page 2.

## First Annual Scholarship Day Observed and Cups Presented

PRINCIPAL SPEAKER SCHOLARSHIP DAY

DR. H. W. CHASE

### A BANQUET FEATURES SCHOLARSHIP PROGRAM

Army and Navy Represented in Usual After-dinner Oratory

A jolly banquet marked the closing of the first annual Scholarship Day exercises of the North Carolina State College of Agriculture and Engineering Wednesday, May 12.

All semblance of dignity and studious reserve were cast aside, and a spirit of good fellowship and jollity prevailed.

The Honorable Josephus Daniels made a short speech in which he evidently sought to give the impression that State College had not been heretofore primarily a place of high scholarship. He said that he had heard much of the athletics at this college, but that he had never before heard of scholarship. He said, with a touch of irony, that the best way to make a college popular is to make the student's parents believe that the college is a place of high scholarship, and to make the students understand that study is of small importance. He closed by saying that since this college was becoming a studious institution, he hoped to spend more time here in order to broaden himself.

General Albert Cox was the next speaker, and he took issue with the idea that the men who attain high scholarship standing are not active in campus activities.

The Rev. Henry G. Lane made a short talk, in which he surprised his audience by stating that he had never attended a college.

Dr. H. W. Chase and other prominent men were present.

About sixty student and faculty members of the Pine Burr Society and Phi Kappa Phi Fraternity were present.

### "AGGIES" SHOW THOUGHTS AT UNIQUE SOCIAL EVENT

Meredith and State Housekeepers and Farmers Have Great Time in Contest

The "Aggies" very forcefully showed what was on their minds last Saturday night when the very creditable program at the Ag social was started off with a contest to show which girl knew the most about domestic affairs. After Miss Margaret Wheeler, president of the Senior Class at Meredith College, had become the winner in the contest, several of the more alert lads proceeded to find out what kind of a chance they stood with her. Others looked for Miss Wheeler's closest competitor.

The social was held in Patterson Hall, amid a profusion of decorations featured by a skillful mixture of the college colors of Meredith and State, along with the Junior and Senior class colors of both institutions. Ice cream for the social was given to the club by the Pine State Creamery of this city.

President H. W. Chase of Carolina Speaks on the Industrial Leadership of Today

### BRITT WINS A. Z. TROPHY

Tau Rho Alpha Wins Social Fraternity Scholarship Award; Awarded Annually

The first annual Scholarship Day of the North Carolina State College of Agriculture and Engineering was held in Pullen Hall, Wednesday, May 12, at 11 o'clock, under the auspices of the Pine Burr and Phi Kappa Phi Scholarship Societies, with Dr. Eugene Clyde Brooks, President of the North Carolina State College, presiding, and Dr. Harry Woodburn Chase, President of the University of North Carolina, delivering the address of the day.

The program of the morning was opened by a selection played by the State College Orchestra, after which came the invocation by the Reverend Henry G. Lane, rector of the Church of the Good Shepherd, Raleigh, N. C. The purpose of Scholarship Day was then given by J. G. Weaver, President of the Pine Burr Society, as a project to bring before the student-body of State College the scholastic achievements of the students of the institution. He then told of the several scholarship fraternities in addition to the Pine Burr and the Phi Kappa Phi Societies.

Dr. Chase in his address spoke of the fact that when a college president is delivering a talk to students outstanding in their studies on a day especially set aside as Scholarship Day, it is somewhat hard to keep from automatically creating an academic atmosphere, yet this atmosphere is what is needed to consider the facts and factors of intellectual leadership in the South today. Speaking of "The New South" in the April number of *Review of Reviews*, Dr. Chase explained that the time has come for the South to measure itself by national standards in other ways than industrially and materially as it has already done. The South should learn to think of intellectual leadership.

One of the best leads in this think—Continued on page 2.

### PUBLICATIONS PETITION FOR FIRST DORMITORY

Offices Downstairs With Rooms on Second Floor is Aim of College Editors

The staffs of the student publications have formally presented a petition to the board of trustees of State College asking that what is now known as First Dormitory be completely remodeled and turned over to the various publications for office space and dormitory accommodations.

For several years the problem of providing suitable office space for these publications has been an annual thorn in the flesh of the administration. With the launching of yet another publication, the *Wataugan*, the problem became even more acute. There is at present no permanent home for the *Wataugan* or the *N. C. State Agriculturist*, and the office space furnished by the Y. M. C. A. for the other publications is both inadequate and unsatisfactory.

It is believed that the petition has met with the approval of the administration. No definite announcement as to their probable action has been made, but it is generally believed that if the finances can be procured the action of the administration will be favorable.

Mr. A. C. (Fish) Ware, of the '25 B. A.'s, has recently been on the campus as the representative of the Brooks Tailoring Company.

### Attention, Sophomores!

There will be an important Sophomore Class meeting in Pullen Hall Tuesday, May 18, at 6:30 o'clock. The purpose of this meeting is to elect officers for next year. All Sophomores, please make it a point to be there in order that we may have efficient officers next year.

U. G. HODGIN, President.

### Textile Seniors Inspect Roanoke Rapids Mills

#### Many State Graduates at Plants Which Are Visited on Third Tour of Year

The seniors of the Textile School have just made their third educational trip of the year. On this trip they visited the Roanoke Manufacturing Co., the Patterson Mills Co., and the Rosemary Manufacturing Co., all three of which are located at Roanoke Rapids.

The Rosemary Manufacturing Co. owns one of the largest jacquard mills in America. This mill makes all kinds of table covers and damask fabrics. The mills of the other two companies make a variety of fabrics, including dress goods and fabrics which are napped. This process of finishing fabrics, which produces a woolly effect on cotton fabrics and is known as napping, was very interesting to the students. These mills also dye their own yarns and fabrics.

S. F. Patterson, president of the Rosemary Manufacturing Co., is a member of the Board of Trustees of State College and chairman of the Textile School Committee.

A number of State College men are connected with these mills. At the Rosemary Manufacturing Co. E. B. Manning is the designer; J. E. McGee, assistant superintendent, and W. T. Manning, agent. W. S. Dean is the cotton buyer for all three mills. F. C. Williams, superintendent, and L. C. Vick of the Roanoke Mills Co., Mill No. 2, are also State College men.

The students were also much interested in the community work carried on by the mills. These mills maintain their own hospital for the benefit of the mill employees. They have also done much in the way of improving the living conditions of their employees.

Skirt: "Do you think my hands show any signs of toil?"  
Flirt: "Yes, this one with the engagement ring on shows you've been working."

### Kollege Kampus Komiks

By "DINKIE"

Flappers do what old maids think.

"Ed," said Mrs. Cloyd to her husband, "I'm really afraid our Junior is lazy. He persuades little Freddy to do all his work."  
"Lazy!" exclaimed Cloyd. "That's executive ability."

Our weather report: Sunday generally fair; probably followed by Monday.

Spar to Vic: "Did you know Monday was color blind?"

Vic: "No; how do you know he is?"  
Spar: "Why, I know he is, for I saw him up street with a black girl."

"Oh, dear," sighed a pretty girl in a restaurant, "I must have forgotten my purse!"  
"Allow me to pay," offered a gallant male.

She looked at him with care, then smiled sweetly.

"No," she said, "you paid for me yesterday. Let some one else do it today."

Irate Housewife: "That fish you sold me yesterday wasn't fresh!"

Vendor: "Well, it's your fault, madam! I been tryin' to git you to buy it for a week!"

She: Why do they put cornmeal on the dance floor?

He: To make chicks feel at home.

A Clew

Policeman (to Prof. Mock, who has witnessed the smash): You say you saw the number of the car that knocked this man down?

Professor: I'm afraid I've forgotten it. But I remember noticing that if it were multiplied by itself, the cube root of the product would be equal to the sum of the digits reversed.

Gus: "Tebell: I rode a sure-footed horse while I was out West."

"Doc" Sermon: "How do you know he was sure-footed?"

"Gus": "I ought to know. He kicked me in the same place three times."

Ode To Sleep

Oh, sleep, it is a gentle thing.  
Just ask most any "prof."  
He'll say it is the usual thing  
To see us dozing off.

I wonder how it feels to rave  
On subjects wise and deep,  
And all the while the class is piled  
On benches fast asleep.

I love their sing-song lectures  
That gently rise and fall;  
But I wish instead of benches  
There were cots enough for all.

It was evening, and several callers were chatting in the parlor, when a patter of little feet was heard at the head of the stairs. Mrs. Hybrow raised her hand for silence. "Hush! the children are going to deliver their good-night message," she said softly. "It always gives me a feeling of reverence to hear them. They are so much nearer to the Creator than we are.

### Would-be Shieks Enjoy Junior-Senior Banquet

#### A Quartet of Seniors Engage in Last Intercollegiate Social Function of Year

Bringing back only fond memories and stringy heads, five road hounds returned Sunday night from a week-end at East Carolina Teachers College at Greenville.

The quintet consisted of "Jumper" Springer, the pilot, "Pop" Taylor, the guide, Marvin Long, the official grouch, E. L. Wick, animal trainer, and "E. Q." Moore, general utility man and side-kick of the party. The Junior-Senior banquet at the sister institution was the excuse for the trip, and it proved to be a very enjoyable excuse. Each of the men claims to have attended the affair on bids from sisters or cousins, but those who know say the half has not been told.

"Jumper" Springer's Ford jumped over the rough road in great style and landed the party safely home. The missing article was the heart of Wick, and he knew exactly where it was. The banquet was successfully negotiated by the boys, and Wick reported excellent control over the garden peas, which were a part of the menu. Moore delivered a toast to the ladies, and succeeded in spilling half a glass of water in true collegiate style. His excellent conduct is attributed to the coaching of one of his "sisters" who sat near by. Taylor sat by the toastmistress and looked as dignified as a judge, after he convinced himself that his tie was sitting straight. Long conducted himself in a Chesterfieldian manner, and after the banquet, had the secretary of the college call the roll of the seven hundred girls so that he might speak to his old friends. Springer did not attend the banquet, as this was his first visit to the fair institution, but he reported good progress in the parlor.

and they speak the love that is in their hearts never so fully as when night has come. Listen!"

There was a moment of tense silence. Then, "Mamma," came the message in a shrill whisper, "Willie found a bed-bug."

### First Annual Scholarship Day Observed and Cups Presented

(Continued from page 1)

ing is to be found in *Who's Who in America*, published every two years, and is a guide not perfect but impersonal. The three hundred and eighty born North Carolinians listed in the latest issue of *Who's Who* compare very favorably with the total number of Southerners listed in the book. Yet, in comparison with some of the older Atlantic seaboard states, this number seems small when it is taken into consideration that Connecticut, for example, with about half the population of North Carolina, has almost twice as many native sons named in *Who's Who*. A grave discount, however, can be made in favor of North Carolina because of the large negro population. Formerly, also, this State was a State of much narrower opportunity as regards attainment of education than it is at present. It is, therefore, certain that a stimulating environment and opportunity do make a difference in the intellectual leadership of any section of the country.

Opportunity for development should be put in reach of the general public. In the fields of public affairs, North Carolina has been very rich; the deficit comes in leadership of definite types in science, literature, art, and other fields. *The American Men of Science*, as safe a guide as *Who's Who in America*, gives only a total of eight per cent of Southern men in the catalog of scientific achievement. The leadership of the South has been superb in nearly all the common fields of life, yet it has been lacking in artists and writers. A balance of everything would show a need for development in intellectual qualities and leadership not only in government and education, but in art and science as well.

The South should think of all this, first of all, for practical reasons. It is a matter of shaping and molding a civilization, and the next chapter of American achievement will be written in the States of the South.  
Dr. W. C. Riddick, President of the Phi Kappa Phi Society and Dean of the School of Engineering, before reading the honor roll of State College, termed by Dr. Brooks the "Who's Who at State College," said that it is perhaps an hallucination of old age and of those whose college days are a memory that the tendency in modern college life is to pay more attention to things "extra-curricula" or outside the chief work of the college. He considered it fitting, occasionally, to stop other activities and pay some attention to others of the students than those who have been carried on the shoulders of their classmates from gridiron, diamond, and hardwood. The honor roll he read was one for each of the first two terms of the year, and each was divided into two classes, the first composed of those who had attained high honors in scholarship or above 90, and the second composed of those who had attained honors in scholarship, or above 85.  
Greetings from Phi Beta Kappa

### Last Week's Best Article

The honor for having the best article in the issue of May 8 goes to L. A. Taylor for his story, "Geology Class is Entombed in Mine."

were brought by Dr. N. I. White of Duke University, and consisted of a greeting sent by the North Carolina Beta Chapter of Phi Beta Kappa Honorary Society.

Professor J. W. Harrelson of the Mathematics Department at State College then presented the certificates of honorary membership of the Pine Burr Society to Dr. Chase and to Dean I. O. Schaub of the School of Agriculture at State College. These men were unanimously elected to honorary membership by the members of Pine Burr, the former because of the addresses he had delivered in giving people a new view of liberal education and his part in stabilizing liberality in education; the latter because of his record of unselfish devotion to the college as an alumnus and because of his scholastic record while a student here, which would have admitted him to the society had it existed at the time.

Dean Schaub then presented the cup offered by the Faculty Fraternity was the Alpha Zeta scholarship fraternity cup, presented to the student making the highest average grade in agriculture during his freshman year. This cup was first offered in 1921, and remains in the hands of the winner for one year, after which time it is passed on to the next winner. This cup was won this year by J. E. Britt, with an average of almost 90.

This presentation marked the conclusion of the program for the day. Benediction was then pronounced by the Reverend Henry G. Lane.

### 1926 Agromeck Among The Best Yet Published

(Continued from page 1.)

colors, necessitated by the scarcity of the number of shades in the plates, detract somewhat from the effect sought, and leaves one doubting whether or not some really good soft-toned photographic scenes would have been better. However, it is original, and it is only through change that progress is made.

The dedication follows exactly in the steps of Constable in the rites of his 21 annual, which he placed at the shrine of the future and imaginative "Greater State College."

The section devoted to the faculty follows the tendency of the past several years, in abbreviating the space taken by this particular phase of college life. Such changes are necessitated by the growing numbers in the faculty, the growing numbers of separate departments and schools, and also the growing demands of the more important sections, those of the classes. Only the four major schools have representation, while the separate departments are scarcely mentioned.

The lion's share of the class space is naturally taken by the Seniors, whose class assemblies the book. Here, again, precedent is followed in the matter itself, with two Seniors, their honors, write-ups, and their cartoons, which have become so much a part of State College annuals, taking up each page. The Senior insignias, the cane and derby, which have been instituted by the out-going class, are also featured, along with the doubtful dignity of the class members themselves. Last year's custom of a non-alphabetical arrangement of the Seniors has been continued. The Juniors get their usual sixth of a page, with alphabetical, as opposed to last year's non-alphabetical, arrangement, with only the usual name and honors. For the first time in the history of State College the Sophomores have individual pictures, some thirty-six or thirty-seven on each page, with the name immediately under each picture. The Freshmen get their usual group scene, and are relegated to their usual place of obscurity by cause of the greater prominence of the other classes. The Class poems and histories are of a rather high standard, with the premier honors going to the Seniors for their unique history.

The Sophomore section, which has been styled the "Flowers of North Carolina," scarcely lives up to its old reputation as a beauty section, and certainly not to the name which the staff has chosen for it. There are, however, several spots of genuine beauty, which are further augmented by the beauty of the sentiment which has prompted the placing of many sisters and mothers as representatives of the activity of their son or brother.

The various campus organizations receive practically the same attention as heretofore, with the exception of

the fraternities, which have been given the usual space, but which have been given individual pictures, instead of the former group arrangement.

Military activities are treated very much as formerly, with the featuring of scenes of the camp last summer. Views of the various parades held during the year are also featured, and, as a special department, scenes featuring the instruction of the recruits are given. Cups and trophies won in camp are also shown.

Athletics receive scarcely the prominent place they have received in the past, and certainly not the place given in some college annuals. This is especially true of the football section, whose short, non-detailed, write-ups, and odd-sized and irregularly-spaced pictures of the players give the whole section an impression of rambling arrangement and lack of planning. The space devoted to basketball at least mentions the fact that we had a state championship team, which is better than last year's book did with reference to the great baseball team which we had the previous spring.

The feature section is made up largely of kodak scenes among the Seniors, and on the campus, with the addition of a full portion of the inevitable jokes, ironical and satirical organizations, wise-cracks, and cartoons on those of the students who lend themselves to caricature.

Taking into consideration everything which goes to make up the '26 Agromeck, we find that it is a very creditable production, with at least its proportion of innovations. It should, for general excellence, run the Agromeck of '23 a close race for its place as second only to the Lucky Bag of the Naval Academy in colleges of our size.

### Raleigh Be Scene Contest Of Constitution Orations

(Continued from page 1)

strong opposition. The fact that he had won the State Peace Contest last year made some people believe that he was a sure winner this year. His speech was a fine example of eulogistic

oratory. He paid tribute to the constitution as a set of living principles of government and showed that it was as strong today as in the beginning of our nation.

Wilson took an entirely different point of view, in a style that exhibited much concreteness, figurative language, direct discourse, energy, variety, and movement. He contended that we have departed from the fundamental basic principles of our Constitution. He pointed out that the fifteenth, nineteenth, and sixteenth amendments tend to weaken state's rights. Wilson argued that the seventeenth amendment tends to make our government less truly a republic and warned against other tendencies in this direction. He pointed out that both State and National governments are violating the most important part of the Constitution, namely, the American bill of rights, which guarantees personal liberty. He closed with an appeal for loyalty to the Constitution.

### HOT-WEATHER Suits

They're here for you, and extend you a most cordial invitation to stop in our Yarroworth Hotel Store and try on a few.

## When They Go On Grass? — What Then?

### Grass Alone Won't Make Milk

Very soon your cows will go to fresh pasture. They like it and it stimulates them. It is good as far it goes, but they cannot eat enough to maintain their condition and their full flow of milk on grass alone.

In 100 pounds of average pasture grass there is 3.7 pounds of digestible protein, but only 15.9 pounds of total digestible feed. That is not enough. Your cows would have to eat 170 to 190 pounds of grass a day. They cannot graze or hold 100 pounds.

**The Voice of Authority**

By Prof. W. J. Fraser, Illinois Experiment Station: "It would require 30 acres of pasture to support an ordinary cow. To graze this area she would have to travel 30 miles a day and have a muzzle two feet wide."

By Prof. Hooper, Kentucky Experiment Station: "I clipped 100 pounds of bluegrass and it filled three penny sacks. A cow cannot hold this much grass."

Your cows will go right on making milk, but they will not make it all out of grass. They will draw protein, fat and mineral matter from their own bodies to fill the milk pail. They will get poor, exhaust themselves, become unprofitable and go dry weeks or months before they should.

Give your cows a balanced grain mixture with their grass. Feed three to eight pounds daily per cow according to yield. Grass is laxative, therefore you should avoid laxative concentrates. The following ration is one of the best you can feed:

Corn Gluten Feed 300 pounds; ground corn 300 pounds; ground oats 200 pounds; wheat bran 200 pounds. Start this ration when cows go to pasture and they will go through the summer and into the fall—in fine condition and full production.

**This Valuable Book Free**

"The Gospel of Good Feeding" is a brand new book of 64 pages. It gives you the newest ideas on feeding. It will help you to make more money—day in and day out—summer and winter. It contains 28 rations for dairy cows, steers, hogs, sheep and poultry.

### Still in Service after 250 Years

A HUNDRED years before Napoleon was born, before his wars scourged Europe, before the French Revolution raged, this Cast Iron Pipe was laid, in the reign of Louis XIV, to supply water to the fountains of Versailles.

A report from the Director of the Water Service says: "From their equal state of preservation, which is excellent, excepting the assembly iron bolts, these conduits seem to be able to furnish service for a very considerable time longer."

The high resistance of this Cast Iron Pipe to corrosion may be judged from the clearness of the fine "parting line" produced by the old horizontal method of casting.

## Lone Run Spells Defeat For Techs vs. Lutherans

Beal Allows Only Three Hits for Eight Innings, Then Weakens and Loses Out

By overcoming a three-point lead in the eighth inning, and scoring the winning run in the ninth, Dick Gurley's Lutherans were able to defeat "Chick" Doak's nine, 3-7, in a very interesting game which was played at Lenoir-Rhyne last Friday.

"Rooster" Beal held the Lutherans at his mercy until the eighth frame by allowing only three hits, but in the eighth they gathered five singles, four of them in succession, which enabled them to tie the score.

In the ninth, Moore, star pitcher for the Lutherans, won his last college game by connecting with one of "Rooster's" twisters for a three-bagger, and scored on a sacrifice fly to center field.

Kidd of State and Hodge of Lenoir knocked homers.

## WIN OVER STATE FROSH PUTS DEACONS ON TOP

By overcoming a five-point lead in the fourth inning, the Baby Deacons of Wake Forest downed Coach Tebell's Yearlings, 9-7, at Wake Forest last Monday. By winning this game the Little Deacons have virtually clinched the State Championship. They have been defeated only twice this year, and have defeated every other team in the State.

It was an uphill affair for the Deacons, but their consistent hitting and good ball playing won the game for them.

Coach Tebell used three pitchers—Burris, Burdette, and Harris—who were all ineffective.

Biltmore Walter: Want soup? Bill Rogers: Is it good soup? Walter: Sure; fourteen carrot.

## SPORT COMMENT

Chick Doak's nine will meet the Demon Deacons at Wake Forest today. Remember that it is possible for the old dope bucket to be upset.

—N.C.S.—

For the first time in several years State will have a one-mile relay team entered in the Southern meet today, and if it makes a good showing it will become a regular event here. We hope that it makes a good showing.

—N.C.S.—

Captain Brown will represent State for the last time in the Conference meet today. Good luck to you, Brownie.

—N.C.S.—

You will have to hand it to "Doc" Sermon that he has put out a good track team this year.

—N.C.S.—

The baseball championship is in such a muddle that we wonder who stands at the top.

—N.C.S.—

Bremer has taken first place or tied for first in every track meet this year. Good work, Bremer. Keep it up, old boy.

—N.C.S.—

"Doc" Sermon's cindermen will go to Carolina today to enter the Southern meet. We wish you the best of luck, "Doc."

—N.C.S.—

The Baby Deacons of Wake Forest have virtually clinched the State Championship. Congratulations, Baby Deacons.

## Tar Heels Defeat State 82 to 44 on Cinder Path

Conference Records Surpassed in Unusually Fast Meet on Carolina Oval

The fast-stepping Tar Heel track team downed State's cindermen, 82-44, in a dual meet which was held at Chapel Hill last Saturday. Carolina took 11 first places in the 14 events, and took all three places in the half-mile and low hurdles.

"Doc" Sermon entered thirty men in this meet in order that they might get some experience on the track on which the Southern Conference meet will be held Friday and Saturday, May 14-15.

Gus McPherson, Tar Heel sprinter, after equaling the State record in the century dash, came back and ran the twenty-two in 21.5 seconds, which bettered the Southern Conference record by one-tenth of a second. Watt, also of Carolina, ran the low hurdles in 24.9 seconds, which bettered the Southern Conference record by one-tenth of a second. Woodruff won the broad jump, 21 feet and 11 1/2 inches, while the old record by a quarter of an inch.

Sides, flashy century man for State, won the four-forty by clipping it off in 52.3. McDowell and Matthews of State tied for first place in the high jump.

Hundred-yard Dash: McPherson, Carolina; Sides, State; Woodard, Carolina. Time: 9.9 seconds.

Pole Vault: Bremer, State; Corbett and McFayden, Carolina, tied for second. Height: 11 feet.

One-hundred-yard High Hurdles: Watt, Carolina; Ambrose, Carolina; Satterfield, State. Time: 15.6 seconds.

One-Mile Run: Elliott, Carolina; Wright, State; Underwood, Carolina. Time: 4 minutes 30.8 seconds.

Four-forty-yard Dash: Sides, State; Edwards, Carolina; Brown and Moye, State, tied for third. Time: 52.2 seconds.

High Jump: McDowell and Matthews, State, tied for first; Pursler, Carolina. Height: 5 feet 8 inches.

Shot-put: Williams, Carolina; Rush, State; Fordham, Carolina. Distance: 40 feet 7 1/2 inches.

220-Yard Dash: McPherson, Carolina; Sides, State; Woodard, Carolina. Time: 21.5 seconds.

220-Yard Low Hurdles: Wyatt, Carolina; Giersch, Carolina; Huggins, Carolina. Time: 24.9 seconds.

Discus Throw: Newcombe, Carolina; King, State; Lamb, State. Distance: 122 feet 3 3/4 inches.

880-Yard Run: Henley, Carolina; Jones and Rhinehart, Carolina, tied for second.

Javelin Throw: Fordham, Carolina; Kilgore, State; Griffin, State. Distance: 173 feet 7 3/4 inches.

Two-Mile Run: Pritchett, Carolina; Henderson, Carolina; Brimley, State. Time: 10 minutes 17.8 seconds.

Broad Jump: Woodard, Carolina; McDowell, State; Giersch, Carolina. Distance: 21 feet 11 1/2 inches.

Team score: Carolina, 82; State, 44.

## Series Mistakes Causes Ball Team Go To Races

Use of Slang Expression Leads Men to Believe Holiday Last Monday

No can do classes all day Monday. Good luck. (Signed) WARREN.

The above telegram, sent by Warren Hadley in answer to "Rip" Sumner's "wire" concerning a probable holiday on Monday, the 10th, resulted in several members of the baseball squad, and also other students who accompanied the team, missing a whole day of classes.

On Friday, the 7th, Rip and his baseball team were in Hickory, where they had just lost a hard-luck game to Lenoir-Rhyne. Among several players arose the question of where they were going to be classes on the following Monday; and if not, why they shouldn't go directly from Hickory to the Charlotte Speedway. Rip, who has every member of the team at heart and as a willing and dutiful manager, sent Warren a telegram (collected) in answer to their question.

Warren received the telegram immediately composed the fatal message and had it cabled to "Rip." The first mistake made was by Rip, in the fact that he sent his message to Warren. The second mistake was made by Warren, in the fact that he used a dumb and pet expression often used by Rip (no can do) in sending the return message. The third mistake was made by the Western Union Telegraph Company, in failing to put in any punctuation; and the fourth was made by Rip when he interpreted the message as meaning no classes on Monday, when he knew perfectly well that this school doesn't believe in holidays.

## INTRAMURAL BASEBALL

Monday, May 17

  - 220-yard dash.
  - 440-yard dash.
  - 880-yard dash.
  - One-mile.
  - Two-hundred-yard low hurdles.
  - One-hundred-yard high hurdles.
  - Pole vault.
  - High jump.
  - Broad jump.
  - Shot-put.
  - Discus throw.
  - Javelin throw.
  - Fraternity 100-yard dash.
  - Fraternity 440-yard dash.

## MANY ENTER S.I.C. TRACK AND FIELD MEET AT CAROLINA

18 Men Represent State College in Conference Events; Others Well Championed

The fourth annual Southern Conference track and field meet will be held at Carolina today on one of the best tracks in the South. It will be the first time that the meet has been held in the northern section of the conference. All except one of the twenty-two members of the Southern Conference have entered representatives.

Louisiana State University and the Mississippi Aggies are bringing large teams with the purpose of repeating their previous successes. The Aggies have won the meet for the last three consecutive years, while Louisiana won it four years ago and has been close runner-up since. Carolina will also have a large team of thirty or more men.

Owing to the keen competition and the good condition of the track, several records will probably be broken. The Tar Heels will enter four men who will probably set new Conference records. Gus McPherson placed second in both the century and the twenty-two in the 1925 meet at Sewanee. Fordham broke the State record by heaving the javelin 181 feet 11 inches. Jones' record for the half-mile is better than the Conference record, and Watt has established a record in the quarter-mile hurdles in winning at the Georgia Tech Relay Carnival.

State will be represented by eighteen men who placed in the State meet. Coach Sermon's hopes will be centered around Sides, Bremer, and McDowell. Sides will give somebody some keen competition in the century and the four-forty. McDowell will probably break the Conference record in the high jump. He cleared the bar at 6 ft. 5 1/2 in. in the State meet, establishing a new State record.

"Big" Lund of V. P. I. has thrown the discus 100 feet further than the present record.

"Windy" White of V. M. I. can toss the shot over forty-five feet, and a bet on him for first place would be fairly safe.

Carolina will have the advantage of other teams, as they are competing on home ground.

## Here's A Way to Make Money After Graduation In Your Own College Town

TAKE this Flower Shop at Wellesley, Mass., for example. It is located handy by, just outside the college grounds.

It wasn't so long ago that all there was to it was a plain little frame building, with some rather diminutive green-houses hitched to it.

Now the shop is a most attractive brick building, with up to date greenhouses, and this show house opening right off it.

You should see the way the college girls come here and buy flowers! Christmas and Easter week, the Western Union brings a private wire right into the shop, and has an operator on the job to take the Florist Telegraph Delivery orders that come from parents and friends, for flowers to the girls.

From one of his rose-houses alone, this man took \$9,000 last year.

Doesn't all this start you thinking?

Man alive, where is there a business as healthy, fun-filled and profit yielding?

Just the kind that to be-wife-of yours would like.

Had you ever stopped to think how many graduates are going into the greenhouse flower growing or shop business?

Hadn't we better start in getting acquainted so you can have the facts. Write us.

Ask us the hundred and one questions you have on your mind.

If interested, write to the Manager of our Service Department, 30 East 42d Street, New York City, who will give you his personal attention.

Paragraphics

Commander Byrd has established his position as one of the F. F. V.

State and county politics is warming up. Campus politics is cooling off.

It's a busy life when we can only spare one half-hour in honor of the funeral of one of our most widely known professors.

Those young soldiers from the Major's Army who received free passes to "The Grand" are already suffering from eye-strain.

Dr. Chase states that there is a deep religious sentiment among the students of his university. Why keep it so deep? Let it come to the surface occasionally.

The members of the Senior Class have voted to give \$550 to the memorial tower. We sympathize with those whose duty it will be to collect the "dollar down and a dollar a year."

We notice in the "Queen's Blues" that Emily Frazer, who has been president of her class for the past three years, was unanimously re-elected. Sounds like a "one-gal college."

"Dick" Dickerson, who is attempting to sell Agromecks, remarks that the faculty are in worse condition financially than the students. Here is indeed a worthy work for the Associated Charities.

Guilford has instituted a course in manners, table and otherwise. We have no need for such a course here. By the time Freshmen have been here one term they can gobble up their food as greedily as any Senior.

The Seniors have made their way laboriously from base to base, and are now sliding in home. Umpire Bowen congratulates them, and demands \$5 in advance for the certificate of excellence that they are soon to be given.

A wild turkey flew through a window and hid under a victrola in the city of New Bern. Later some boys captured two bear cubs near that venerable community. We are informed that a certain species of tiger is thriving in that vicinity, also.

All those who have been associated with any of the past staffs of THE TECHNICIAN and the Agromeck will appreciate the movement now on foot to move the offices of these publications away from the Y. M. C. A. lobby, where the Edison has been known to play the same record fifty-nine times in one day.

WHAT WE HOPE TO DO

While we are still young in the business of putting out a college newspaper, it is perhaps well that we should discuss our probable editorial policy. We say "probable" advisedly, because we may be brought to see the error of our way and change tactics without warning.

We believe that the editorials of a college newspaper should be, on the whole, of a lighter and less serious nature than those of the average daily newspaper. A large part of the intellectual food that is set before us daily in the form of textbooks is necessarily of a very dry nature. The lectures also must take a rather serious attitude in most cases. In the daily papers the student gets a serious discourse on what is going on in the world, and what it means to the rest of the world. He has a right to demand that his college paper shall not also attempt to cater only to the highly intellectual half of him.

Nor do we believe that college editorials should be entirely of the flippant variety, vying with such publications as "Life" and "Judge" for excellence in wit and humor.

We believe, rather, that the middle road should be taken, and that the discussions in these columns should have variety. If an idea can be advanced equally as effectively in an entertaining manner as in a dry, ministerial manner, we believe that it will be much more satisfactory. Unless the editorials are read they are worthless, regardless of the sound reasoning that may be contained in them. We believe that the average college student will refuse to read long, serious, and tedious editorials.

There are those that believe the editorial page should be a model of dignity at all times. We do not agree with that conception of the ideal editorial page. We would try to discuss in each issue problems that should be interesting as well as instructive to the readers. There will be many subjects discussed that will necessarily be serious and somewhat uninteresting. Because of that fact, we shall try to use others in the same issues that are written in lighter vein, but which will probably carry as much food for thought as the former type.

In the paragraphics we hope to use a variety of subject material in a way that will bring out side-lights and unnoticed points in the doings of the day. We shall use in the paragraphics also several subjects that are worthy of serious attention. We find that we are wont to reduce everything to the ridiculous, therefore we shall use the paragraphics as a safety valve for this tendency, discussing more serious problems in the editorials.

WE WISH TO DISAGREE

A stranger, hearing the opening remarks of Dr. W. C. Riddick when he read the scholarship honor roll at the exercises in Pullen Hall Wednesday, would have been led to believe that the men who have attained high scholastic standing have done nothing since coming to college except ponder studiously over their academic duties. We do not believe that such an impression was his intention, because he tried to straighten the matter out at the end of his reading. He was only partly successful, however.

We were struck with the number of men called who have given much to the advancement of worth-while college activities at the same time they were making good in a scholastic way.

It was an interesting study in human psychology to watch the reaction of the various faculty leaders of campus activities when the names of their favorite apostles were proudly pronounced. As name after name of "Daddy" Price's star Glee Club and Orchestra members were read out, his countenance beamed brighter and brighter until he finally broke into a chuckle, the chuckle that in "Daddy" means happiness.

When the names of quite a collection of football, baseball, and track men were called, Athletic Director "Johnnie" Miller looked pardonably proud. Had he been near those athletic and scholarly students, it is a safe bet that he would have patted them on the back in much the same manner as if they had just won from an adversary on a competitive athletic field.

Professor C. C. Cunningham had an exultant look on his expressive face that was in itself oratorical, as the names of many of his best speakers were impressively pronounced by Dr. Riddick.

Professor Stewart Robertson

PROF. H. K. MCINTYRE

In the death of Professor H. K. McIntyre the State College community has lost a true friend and counsellor. A man who was ever attentive to duty, unassuming and modest, he had the complete trust and friendship of all with whom he came in contact. As an earnest student in the study of electricity, he has created a name of national repute. As a man, he was the same upright Christian gentleman under all conditions and at all times. His noble personality was well attested by the fact that he had the full confidence of the faculty and the faith and respect of the students in his classes. The student-body extends most heartfelt sympathy to his family, to his relatives, and to his friends.

placed his feet just a little higher on the chair in front of him and assumed his most complacent air as the names of over half his leading journalists and literary aspirants were made public.

Major C. C. Early sat straighter and straighter as one by one the leaders in his military command were proclaimed to be honor students.

The coaches of judging teams nodded approval as the names of their high-scoring men were read to the assembly.

Dean Cloyd had a look of faith in the future, as almost the entire roll of the Student Council was called.

E. S. King had reason to believe that the thinking element of the student-body was still ready to assume responsibility in advancing the work of Christianity, as the names of some of his leading men were called.

We mention all these incidents merely as a method of proving our contention that men are not necessarily bookworms because they are good students.

It was pathetic to watch the haggard faces of the few remaining Civil War veterans as they tried bravely to do honor to their departed comrades. They could not fail to realize that they were only the rear guard of an army that is rapidly disappearing over the horizon.

The State College Woman's Club demonstrated in a most effective manner the universal mother-love of woman Sunday morning by giving the students great baskets of Mother's Day flowers. The gift was small to each individual student, but it is such thoughtful kindnesses that makes humanity love humankind.

Those students who have worked diligently during the term will have no fear or apprehension of examination week. Our knees, however, smite in unison with 1,200 other pairs of hinged pelvic appendages.

"You were caught with the cranes, and you must die with them," said "Red" Beam, as he refused to issue Agromecks to those students whose organizations have not paid their dues.

MILLER MAKES STATEMENT

There has been a general discussion among the student-body as to whether the Rifle Team should be recognized as a minor sport or not. The following is a copy of the letter which was sent to Captain Vernon by Director of Athletics J. F. Miller:

My dear Capt. Vernon: Official action was taken yesterday by the Faculty Committee of Athletics regarding recognizing the Rifle Team as a minor sport and part of the athletic program of the college.

It was found that only one school, and that a military school, out of eight colleges written, recognized the rifle team of college as a minor sport. The placing of the rifle team on the athletic program of the college would also mean that every student in college would be eligible to compete for this team. In this case the college could not enter into the matches of the National Rifle Association, which would be quite a sacrifice to the schedule of the college. It was also found that the Government, who furnish the rifles and the ammunition for the shooting of the matches, furnish these only to members of R. O. T. C. units.

With this information at hand, the committee voted that the Rifle Team would not be recognized as a minor sport of the athletic program of the college; that it was a purely military affair, under their jurisdiction. The Physical Education Department is ready to co-operate with the Military Department in putting on any of its program as it has always done in the past, and we know that we can expect the same ready co-operation

that we have always received from you. I am sure that we can work out this matter to your satisfaction by following up the idea for next year that we were discussing.

Cordially, J. F. MILLER, Director of Department.

UNCLE DUDLEY

As the editorial department was busy in the heated office, Uncle Dudley came in and wanted to know what was causing so much discussion about the faculty now. He was told that the students feel that some of the faculty are unjust in their method of grading, also that they are not devoting their time to the class work.

Uncle Dudley says that in his day the students had no say so at all as to what the faculty did in the way of instructing, but, on the other hand, the instructors were right there at all times. He says that the students are to be complimented for having so much interest in their work and wanting the professors to be there at all times, but he shook his head when he was asked if he thought it was the student's interest and ambition to catch all classes and say, "Teacher, I am here," at every roll call.

He says that perhaps some of the students are vitally interested to that extent in all class work, but that in all his days at college he never saw a boy come out of a classroom yet with a tear in his eye or a frown on his face when a professor did not catch class.

Uncle Dudley says that there may be some good derived from the articles and opinions that are aroused by some of the boys, for the faculty will take notice, but as far as the students causing an instructor to flunk, that is the work of more modern college boys, perhaps our sons.

Uncle Dudley says that he believes firmly that there are instructors who are lenient to boys that are very agreeable on class. What some term as legging, he says, is winning the good will and friendship of the professor, which does affect their grading in some cases. He does not believe, though, that the entire benefit of the classroom time comes from the book. He says that personality, character, understanding, and many other qualities of a boy are as important to develop as the pure memory, any how. As far as placing a definite grade on each individual, it is a hard job for any professor of long experience. Liberal knowledge and education cannot be graded in terms of dollars and cents or in terms of figures. Truth, freedom, and knowledge are jewels that cannot be restrained to any definite system of figures or letters.

BROOKS TO REVIEW R. O. T. C. REGIMENT

Junior Officers to Man Units; Best-Company Contest at Same Time

Brooks will review the State College R. O. T. C. Regiment on Riddick Field on Tuesday, May 18. At this ceremony, which is to be the most pretentious of the year, the senior commissioned officers will take their place behind the reviewing stand and turn the Regiment over to the junior non-commissioned officers. At the same time the best company in the Regiment will be chosen. This ceremony will be held at noon, and the public is cordially invited to attend.

On Tuesday, May 11, General Albert Cox reviewed the Regiment and then acted as chief judge in picking out the best platoon in the unit. The 2d platoon of Company "I," commanded by Lieutenant R. P. Kennedy, received this honor, with Lieut. C. W. Mason and the 2d platoon of Company "C" second, and Lieut. G. B. Cline with the 2d platoon of "E" Company third. General Cox expressed himself as well pleased with the showing of the Regiment.

SENDS LETTER OF THANKS

My dear Captain Price: Will you please express to the members of the State College Band and the State College Firing Squad the grateful appreciation of the Daughters of the Confederacy for the help given us on Memorial Day? A number of the veterans feel that it was the Memorial Day they have ever had, and your courteous co-operation was in large measure responsible. Very sincerely yours, MARY L. McMILLAN, President.

FACULTY MEMBER IS ON WAY TO RECOVERY

Mr. W. S. Bridges, Professor of Auto Engineering, has been ill at Rex Hospital for the past week. He is now well on the way to recovery. His malady is not fully determined, but it is thought that it is on the order of appendicitis. Mr. Bridges was a member of the class of 1919. He is well known about the campus and vicinity.

This Week's Limerick

by ZIPPY MACK

There was once a big Scholarship Day, When the pompous intellects made array; But with all of their bunk Of the students who flunk, They're as poor as the rest—so they say.

Theta Tau Holds First All-Engineering Dance

Small But Enjoyable Affair in Gym is First of Kind at State College

The Theta Tau Fraternity held its first engineering dance in the Frank Thompson Gymnasium Saturday night, May 8, from 9 till 12 o'clock.

There were about fifteen couples dancing, but, though the attendance was small, this dance was voted by all present as one of the most enjoyable of the season.

The Dixie Serenaders furnished excellent music throughout the evening. The chaperones were: Dr. and Mrs. W. J. Dana, Dean and Mrs. E. L. Cloyd, Professor and Mrs. J. M. Foster, and Professor and Mrs. A. F. Greaves-Walker.

This was the first engineering dance held at State College. It is to be an annual event with the Engineers.

GEOLOGY FIELD TRIP PART SUMMER SCHOOL

Field courses in soils and geology will be conducted by Professor Wm. B. Cobb, in connection with the State College Summer School this summer. These courses are Agronomy s291 and Geology s291. Each course carries nine term credits. Agronomy s291 is elective for students who have completed the course in Soil Management or its equivalent. Any student who has completed a general course in geology is eligible for Geology s291.

After registering and receiving a few preliminary instructions at the College, the classes will set out by bus

for the western part of North Carolina, and will spend five weeks in the field, returning to Raleigh three or four days before the end of the term for the purpose of completing reports on the field work.

The party will go southwest by way of Sanford and Charlotte, continuing along the southern border of the State to Murphy. From Murphy, the route will pass northeast through the mountain counties bordering Tennessee, and will continue east to Raleigh through the northern section of the State.

Those students especially interested in soils will have an opportunity to study all of the important soil types of the Piedmont and Mountain regions, and possibly some of the limestone valley soils of eastern Tennessee.

A number of mines and mineral deposits will be examined. These will include deposits of coal, iron, talc, kaolin, feldspar, barite, corundum, mica, garnet, copper, etc., as well as rock quarries of various kinds.

The expenses of the trip will be approximately \$100, which will include registration, tuition, board, and transportation. The number of students permitted to take the trip will be limited to fifteen.

ELLIOT COMPANY OF PA. TAKES E. L. MOUNTCASTLE

E. L. Mountcastle of the Senior Mechanics has accepted a position with the Elliot Company, manufacturers of condensers and de-aerators, of Jeanette, Pa. Mountcastle will report for work about June 20. He will take a year's study in the various departments of the plant, after which he will enter the sales engineering department.

# The Super-Sagacious Priestess Predicts Golden Chain Juniors

By J. T. Barr

Attune ye your ears, ye Juniors and others, to the prognostication of the Delphic Priestess in the coming selection of the second forging of the never-ending, newly-formed Golden Chain.

After having incense more rare and priceless than the treasures possessed by the seven princes of the East burned before her as an offering, the Delphic has come forth in clouds of smoke and words of wisdom, and has spoken the following prophecy concerning the selection of the next twelve men in the Golden Chain:

W. E. Wilson, says the priestess, will be a link in the chain, due to his high scholastic work that has been used for excellent results in campus activities. He is an orator that causes the verbose senator to hide in humiliation because of the excess words used. As a debater he gives to State boosters great joy in his Calhounic qualities. He is an efficient editor of the best literary magazine ever published at State. An all-round quality to perform the difficult tasks on the campus has this man.

B. A. Sides will be another link in

the chain; a little bit of physicality that clips off grades faster than he steps off the hundred, two-hundred, and four-hundred on the cinder path; a mental agility that finds time to do the arduous tasks of the agricultural student activities, and does them so efficiently that he is called upon to perform other tasks. Lack of work is the only thing that is disconcerting to Sides.

J. R. Anderson, a student who has acquired and applied the principles of business so efficiently that to separate him from the student activities requiring business judgment would be like separating John D. from Standard Oil.

J. E. Tiddy, a link who has used his scholastic ability for numerous student activities; a Websterian debater who has been the bane of intercollegiate and society debaters on many occasions; an agricultural journalist of ability and performer of Y. M. C. A. work with an ease and effectiveness that comes only from sterling worth.

J. A. Matherson, a student who has so used his scholastic ability that he is not satisfied unless there is something difficult to accomplish. From getting the hot ones at second on Chick's roster team to managing the unruly editors of the *Agromack* and keeping a steady pilot's hand on the student-body is no more than a normal day to him.

F. M. Chedester, a student of mental ability that quietly and efficiently performs the many tasks assigned him; a journalist of ability that amply repays for the confidence given.

H. L. Brown, an athlete who is not satisfied unless he is shooting at something high, whether it be grades or goals, and who always casts a ringer in either case.

H. K. Platt, a Christian unhappy unless buried deep in some difficult task that adds value to life by the accomplishment; a task performed through the Y. M. C. A. that adds value to all student life.

F. S. McCoy, a man small in stature but big in mind, who unassumingly

and efficiently performs the difficult with a cheerfulness that wins all to his side.

R. R. Fountain, a student who manipulates his scholastic ability to acquire all there is to accumulate in grades and positions on the campus. From the editor's desk to the quartet, from his *Caracas* voice drives away the cares of his fellow students, is no more than donning boxing gloves, or perhaps he takes his silvery voice onto the rostrum and calmly walks away with more scalps than a Cherokee Indian after the battle of Bull Run.

H. M. Weedon, a business man who has the ability to make all who come before him think that he lives only for their financial benefit, and that he would rather starve than to take undue advantage of any man.

One more link yet remains to be placed in the chain. There is much gold for the welding, and it will be taken from among the following:

C. R. Lambe, a wolf in sheep's clothing, who makes an impression on all heavyweight opponents.

D. C. Worth, a student of high scholastic standing that efficiently performs duties that prepare him for a link of quality.

T. C. Harrill, one who is amidst the fight of campus life and comes out with a smile and victory.

G. T. Gresham, a shooting star with unfailing brilliancy that brings dismay to his opponents.

R. R. Trevathan, one who has scholastic ability and uses it in the efficient performance of student activities.

## ROOM APPLICATION SCHEDULE ANNOUNCED

Word has been received from the Superintendent of Grounds that applications for rooms for 1926-27 will be received as follows:

Men wishing to retain the rooms they now occupy—May 10 to May 15, inclusive.

Present Junior Class—May 17 to 19, inclusive.

Present Sophomore Class—May 20 to 22, inclusive.

Present Freshman Class—May 24 to 26, inclusive.

After May 26, the remaining rooms will be assigned prospective students. Read carefully before applying for room.

1. Room rents will be as follows: First Dormitory—\$45 per school year.

Fourth Dormitory—\$60 per school year.

Fifth Dormitory—\$51 per school year.

Sixth Dormitory—\$51 per school year.

Seventh Dormitory—\$60 per school year.

Watauga Dormitory—\$60 per school year.

South Dormitory (three top floors)—\$51 per school year.

South Dormitory (lower floor)—\$45 per school year.

1911 Dormitory—\$45 per school year.

Holladay Hall—\$45 per school year.

2. Rents will be payable as follows: One-third annual rent on or before August 15, prior to the opening of school in September; one-third annual rent on the first day of registration for the second term; one-third on the first day of the registration for the third term.

3. Room assignments will be made in the order applications are received.

4. Assignment card will be issued when first term's room rent is paid. In case of failure to pay room rent by the time specified, the assignment will be declared void, and the room given to the next applicant in turn.

5. A room cannot be held for only one applicant. Two men must apply for each room.

6. A place in a given room cannot be reserved for freshmen entering next September. Students now in college who know a freshman who expects to enter in September and who wish to room with him may state that on their applications, and wherever possible this arrangement will be made, but no guarantee can be made that the freshman will be given that room.

7. All room leases expire when the present term closes, and no verbal agreement between students as to a room for next year can be considered at all in making assignments.

8. Each applicant must fill out his own room application, completely.

9. Do not depend on any one else to apply for your room for you. Make application yourself. This will avoid all chance of misunderstanding.

10. In order to retain their chapter rooms, two members of each fraternity must apply and be responsible for the chapter rooms.

11. Fraternities wishing to rent their chapter rooms during the summer must make special arrangements with the Superintendent of Buildings before leaving college for the summer.

T. T. WELLONS,  
Supt. of Buildings.

WHERE THEY GO  
NORTH TO ENTER G.E.

Mr. C. M. (Tubby) Stone of the Senior Electricals has accepted a position with the General Electric Manufacturing Co. at Schenectady, N. Y., and will report there for work immediately after the close of camp, which will be about July 25th.

# Noted Speakers Will Address College Students Blue Ridge

The State College men who are fortunate enough to be able to attend the Southern Student Conference at Blue Ridge will have the privilege of hearing some really great men speak, and will also have the privilege of talking with them personally.

share his rich experience with the students of the South.

EDDY

The Conference will be in charge of J. W. Berghthold, Regional Student "Y" Secretary for the South. Mr. Berghthold was at one time Secretary of the State College "Y."

WEATHERFORD

Dr. W. D. Weatherford, the founder of Blue Ridge and one of the leaders the South has produced, will be one of these.

BERGTHOLD

The State College delegation is now

being made up. Any one interested in going should talk to H. K. Platt, H. E. Springer, or one of the secretaries. State must be adequately represented!

## TEXTILE SENIOR GETS WORK IN THOMASVILLE

F. W. "Skinny" Warrington, who graduates this year from the Textile School, has accepted a position in Thomasville, N. C.

Warrington will return to his home in New Bern after graduation to spend a short time, reporting in Thomasville the latter part of June.

### State Students Heroes In Late Burglar Chase

Catch Negro in Act of Attempting to Enter Home on North McDowell Street

Three State College students had the opportunity of proving themselves heroes Saturday night after leaving the Engineering dance and taking their lady friends to their homes.

John Hinton, a negro of 434 South Haywood Street, was caught by the boys as he tried to enter a room at 115 1/2 North McDowell Street in which Mrs. C. T. Brown, mother of one of the young ladies, was sleeping.

According to J. E. Griffith, Morgan Polk, and W. K. Enos, all of State College, and L. J. Dall, '24, a roomer at Mrs. Brown's, the negro attempted to gain entrance into Mrs. Brown's room through a window. Mrs. Brown heard the noise and immediately called to the young men, who were at that time just returning from the dance. Some of them ran to the back of the house, some to the front. They discovered the negro sitting just outside the window, but as soon as he realized that he was being pursued he began using what any negro will use for protection—his feet. The negro was overtaken after a chase lasting for about two blocks, Dale being the first to lay hands on the dark boy and down him, the others arriving at the scene at different intervals, according to the kind of track men they proved to be in the two-block dash. Mr. Polk held the gun that one of the ladies gave him until the police arrived on the scene.

Officers who took charge of Hinton stated that there is a strong chance of the negro being charged with first-degree burglary, which is a capital crime in this State. A hearing in city court was held Tuesday morning, and the negro was bound over to the Superior Court.

Raleigh citizens have been troubled with many recent burglaries, and the catching of this one may help put an end to this local crime wave.

Guest: "Seem to know your face; met you here before, I fancy."  
Host: "Very likely. This is my house!"

### S-O-C-I-E-T-Y

All Social and Personal News turned in to The Technician office will be appreciated

Freshman Sam Oliver was in Wake Forest last week-end.

Henry Kendall, Charlie Eskridge, "Nuts" Pendleton, and Jimmy Campbell motored to Shelby last week-end.

Mr. E. H. Weiking, of Washington, D. C., was a guest at the Alpha Gamma Rho house last week-end. He came down to inspect the chapter.

Among those attending the automobile races at Charlotte Monday were: R. B. Jordan, E. M. Pendleton, J. B. Baker, and J. L. Campbell.

E. M. Pendleton, of Shelby, N. C., was initiated into the K. I. E. Fraternity last Thursday.

J. G. Weaver and M. W. Long motored to Greensboro last week-end. Weaver continued by rail to Columbia, S. C.

#### Entertains Fraternity

On last Saturday evening, at the home of Professor and Mrs. A. F. Greaves-Walker, Forest Road, the active members of the Rho Chapter of Sigma Pi Fraternity entertained at a delightful party a number of the members of the upper classes of Peace and St. Mary's.

The home was prettily decorated with flowers and the fraternity insignia, the color scheme being in the fraternity colors, orchid and white. A buffet supper was served during the evening.

The Peace girls present were: Misses Lona Martin, Elizabeth Wooten, Madge Rynor, Ruby Mitchell, Essie Mizelle, Lucy Garrison, Hattie Regan, Christine Howard, Katherine Parsons, Martha Birkhead, Dorothy Truaxe, Wilma Kirby, and Victoria Edwards.

The St. Mary's girls present were: Misses Martha Galloway, Henrietta Love, and Stacie Womble.

The chaperones were: Miss Laylor, of Peace Institute; Mrs. Hugh Love, and Professor and Mrs. Greaves-Walker.

#### ARCHITECTURAL CLUB ENTERTAINS FRESHMEN

The Architectural Club entertained the freshmen Architectural students Wednesday night, May 5, in Page Hall.

At this meeting the freshmen had the opportunity to meet the upper-classmen who are taking Architecture, and to see what their work would consist of during the coming years at State College.

A rather frivolous program was given. The program consisted of several readings, "Dar ain't no news," in negro dialect, a few card tricks, and a talk by Professor Shumaker. Cold drinks, sandwiches, peanuts, ice cream, cigars, and cigarettes were served.

The freshmen present were: J. C. McCaskill, A. E. Rook, R. E. Kimball, E. C. Vickers, Y. D. Boney, T. McLaughlin, L. B. Bunney, J. M. Brown, J. R. Parsons, H. A. Phillips, Jr., D. B. Bordiner, and R. U. Bell.

#### BAND PLAYS IN HONOR CONFEDERATE SOLDIERS

The State College Band gave a concert at the Memorial Day service held Monday afternoon, May 10, at which Governor McLean praised the Confederate soldiers for what they did in the Civil War and for the good they have brought to the country since the war.

"They are largely responsible for the great progress that has come to our country from the Civil War to the present time," said Governor McLean. The Daughters of the Confederacy were in charge of the services. People from all over the State attended this ceremony. After short speeches from several prominent people that were present, Confederate flags were placed on the graves. A file solo was played by a "weaver of the grey." His two selections were "Dixie" and "Auld Lang Syne." The State College Band played several selections. After the band, the children from the Raleigh High School sang several songs.

Governor McLean's address was next on the program, after which the firing squad from State College fired a salute to the Confederate dead. The service was held in Oakwood Cemetery.

#### MARS HILLIANS PICK NEW ADMINISTRATORS

The Mars Hill Club met Monday evening, May 10, in the Y. M. C. A. The main purpose of this meeting was to discuss the plans for the coming year and to elect the officers to carry those plans to completion.

The men to take charge of the organization for the year 1926-27 are: Thomas H. Nelson, Jr., president; N. P. Matthews, vice-president, and B. G. Groves, secretary and treasurer.

Under the administration of these men the entire membership is looking toward a bigger and better year in 1926-27.

### Plott Now Heads State 'Y' Officers' Conference

Large Attendance Shows an Increased Interest in Y.M.C.A. Work in Colleges

The second annual Student Y. M. C. A. Officers' Training Conference of North Carolina, which was held at Carolina, May 7 and 8, was attended by fifty delegates from six institutions of higher education. The institutions represented were: Duke University, University of North Carolina, N. C. State College, Davidson College, Guilford College, and Mt. Pleasant Collegiate Institute.

H. K. Plott, president of the State College "Y," was unanimously elected president of the conference. Because of a change in the rules concerning the organization for such conferences, it was decided that Mr. Plott shall continue to serve as president until the end of the next annual conference, at which time another election of officers will be held.

The other officers elected were: Galen Elliott, Carolina, vice-president; H. L. Stoner, Mt. Pleasant, secretary, and Frazier Glenn, Carolina, treasurer. These men will also serve during the next annual conference, which will be held at State College.

Leaders of the conference were well pleased with the results obtained. An increased interest in religion on the campuses represented aroused the optimism of every leader. The attendance, which was more than twice as large as last year, shows an increased amount of student interest in "Y" work.

At the closing session of the conference, the delegates passed a resolution unanimously endorsing the action taken by the Duke University students who, at a mass meeting last week, went on record as opposing any movement tending to hamper free speech or freedom in teaching.

#### BURNETTE PRESIDENT OF LITERATURE CLUB

W. R. Burnette was elected president of the Brooks Literature Club at a special meeting in the Library Tuesday night, May 11.

The other officers chosen were: J. D. Conrad, vice-president; R. E. Nance, the near-famous author of "I'll Love You 'Till I Die," secretary and treasurer, and R. W. Haywood, reporter and general publicity agent.

Before the election of officers, there

### ALUMNI NOTES

(Observations and Communications of Stumpy Mack)

After having followed the funny turns of the wrist which Tom McCrea gave us last week, it will doubtless be tiresome for most of you to come back to this stale bread and water. However, we shall try to have Tom with us again soon, with some more of his choice wit. He is now located in Raleigh for a few weeks, and all who can stand it can see him as often as they desire.

Mr. Mason Page Thomas and Miss Jane Grimes were married in Raleigh, Saturday, May 1, 1926.

Mr. Thomas is a member of the Textile Class of '23, and is now located in Charlottesville, Virginia, which is his native town.

Mr. Samuel Allen Cooper and Miss Mary Elizabeth Scott were married in Raleigh, Saturday, May 1, 1926.

Mr. Cooper is a member of the Agricultural Class of '20. Since his graduation he has been in charge of the Department of Agriculture in the High School at Sasapahaw, where he and Mrs. Cooper will reside.

Messrs. J. O. (Joe) Anthony, and S. R. (Sid) Workman, of the '24 Agricultural and Textiles, respectively, have been on the campus recently as visitors among their many friends.

Mr. T. R. (Ted) Causey, of the '24 Electricals, was on the campus a few minutes recently, while waiting for train connections. He was returning to his home after a sojourn in camp as a Reserve Officer. All this was being done while on a vacation from his work with the General Electrical Company at Schenectady.

Mr. L. L. (Levi) Hedgepeth, Editor of the '25 Agromock, was a campus visitor last Sunday.

was a motion brought before the house to the effect that the club should bring at least one prominent speaker to the campus next year to speak to the club and the entire student-body on some literary subject. The motion was unanimously carried, but the selection of the speaker was left for some future meeting.

A girl today to be popular must powder her face and neck.

### Trevathan New Leader Of Ceramic Engineers

Illustrated Lecture Gives Idea of What Future Holds For Students

The local student branch of the American Society of Ceramic Engineers held a very important meeting Tuesday, May 4, at which the officers for 1926-27 were elected. The men chosen to fill the offices of the society were: P. E. Trevathan, President; A. McK. Greaves-Walker, Vice-President; W. L. Stafford, Secretary and Treasurer. The new officers were presented to the society by the retiring president, and each made a short talk.

The question of the three-months work which each engineering student is required to do in his particular line of work was then taken up. Professor Greaves-Walker stated that he had written to the heads of a number of plants and had already secured positions for most of the students in Ceramic Engineering.

A number of slides of some of the most up-to-date ceramic plants in the country were then shown, and Professor Greaves-Walker pointed out the things of most importance to the student engineer. The most impressive thing shown was the new type of kiln, known as the tunnel kiln, which has

reduced the time of burning ware by more than 100 per cent. A very hearty vote of thanks was extended to Professor and Mrs. Greaves-Walker for the very pleasant evening which they gave at their home April 17 for the members of the society.

### CHEMICAL FRATERNITY INITIATES FIVE MEMBERS

The Gamma Sigma Epsilon Chemical Fraternity initiated the following men from the Textile Chemistry and Dyeing Division: J. F. Byrd, Vass, N. C.; H. L. Harris, Raleigh, N. C.

The following Chemical Engineering students were also taken in at this time: J. R. Schreest, Robert Haywood, and O. J. Williams, all of Raleigh, N. C.

The Gamma Sigma Epsilon is a National Chemical Fraternity having a chapter here since 1919. Only those students primarily interested in chemistry are eligible to membership, and those students must have a high average of scholarship in chemistry.
