FELLOWSHIP AND SCHOLARSHIP MEN HAVE BEEN CHOSEN

List of Those Accepted Shows National Reputation of the Graduate School

STATE MEN PREDOMINATE

Four Men of the Present Senior Class Will Continue Work Here Next Year

The Graduate School of the North Carolina State College of Agriculture and Engineering since its establishment three years ago has gained a nation-wide reputation. If one may judge from the list of applicants for graduate fellowships and scholarships in the various departments of the college which has recently been approved by the Graduate Council and ratified by Dr. E. C. Brooks, President of the College. The list includes the names of men from widely separated states, including Utah, Mississippi, Tennessee, and Kentucky, as well as from North Carolina.

In a letter of recent date to Dr. C. C. Taylor, Dean of the Graduate School, Dr. Brooks said that the list of applicants had been approved, and the amount necessary to meet the expense of the fellowships and scholarships would be incorporated into the budget. Dr. Taylor was given authority to notify each of the applicants of the action of the Graduate Council and that each is elected, subject, of course, to the adoption of the budget by the Board of Trustees.

The following men have been elected to the \$450 Graduate Fellowships. Their department and the school from which they were graduated and the year is also given:

- G. K. Middleton, Education and Rural Sociology; N. C. State, 1917.
- H. M. Thompson, Chemistry; Wake Forest, 1924.
- H. W. Taylor, Agri. Extension Work; N. C. State, 1925.
- A. M. Woodside, Zoology; N. C. State, 1926.
- I. Hull, Agri. Economics; Utah Agri. College, 1926.
- R. A. Harrill, Economics; Miss. A. and M., 1926.
- The \$225 graduate scholars are as follows:
 - D. L. Young, Chemistry; Wake Forest and N. C. State, 1925.
 - G. B. Pennabaker, Botany; Univ. of Kentucky, 1926.
 - T. L. Bennett, Highway Engineering; N. C. State, 1926.
 - D. L. Wray, Botany and Zoology; N. C. State, 1926.
 - D. B. Wicker, Chemistry; Elon College, 1926.
 - D. Y. Brannock, Chemistry; Elon College, 1926.
 - C. S. Grave, Chemistry; Lenoir-Rhyne, 1925.
 - E. S. Harrison, Education; V. P. I., 1926.
 - Alternates:
 - H. S. Wilfong, Poultry; N. C. State, 1926.
 - G. V. Warmbrod, Animal Husbandry; Univ. of Tenn., 1926.
 - R. T. Poplin, Science; Wake Forest, 1926.
 - E. G. Morgan, Agronomy; N. C. State, 1921.

J. T. ALEXANDER ELECTED PRESIDENT JUNIOR CLASS

Luther Shaw Be Poet for Third Consecutive Year; Class Spirit Is Good

J. T. Alexander was elected president of next year's Junior Class at the Sophomore Class meeting held in Pullen Hall Tuesday evening, May 18. There was an unusually large crowd present at this meeting.

Other officers elected were as follows: Fred Davis, vice-president; Ralph Brimley, secretary and treasurer; Luther Shaw, poet; C. A. "Peanut" Ridenhour, historian.

Luther Shaw was re-elected class poet for the second time, he being poet for his freshman and sophomore classes.

Other business brought up was that of making plans for giving the freshmen their annual bath, which took place only a few hours later.

WINNER SECOND PLACE IN S. I. ORATORICAL CONTEST

J. EDWIN WILSON

PULLEN SOCIETY WINS YEAR-ROUND CONTEST

Nose Out Leazar to Win Trophy, a Framed Picture Offered by "The Raleigh Times"

The Raleigh Times trophy has been won this year for the first year of its award) by the Pullen Literary Society, as a result of their victory in the year-round contest with Leazar Literary Society which closed last Friday night. The final score of points for the year stood, Pullen 1070, Leazar 1022, giving the winners a margin of 48 points for their victory.

The Raleigh Times trophy is a framed picture, to become the permanent property of the literary society which wins the year-round contest each college year. The picture will be selected each year on the basis of appropriateness for exhibit in a literary society meeting hall. This year the famous painting by the Greek artist, Alma Tedema, entitled, "A Reading from Homer," has been selected. It has been suitably framed and will bear on it an engraved plate with the words:

"The Raleigh Times Trophy"
Won by
Pullen L. S.—1925-'26."

The award of this trophy by *The Raleigh Times* management is but another manifestation of the friendly interest which the owners and publishers of the local evening newspaper have in State College. Thus they not only go on record as being always de-

CONCERT BAND GIVES LAST PROGRAM OXFORD ORPHANS

Many Seniors Have Given Eight Concerts for Appreciative Orphan Children

"Daddy" Price and his concert band played their last concert of the year Monday evening at Oxford, while guests of the Masonic Orphanage.

The program was the same which the band has played at all of their concerts, and was ably presented, as the applause warranted. Rossini's "Inflammatus," a cornet solo played by W. K. Enos, and "Tramp, Tramp, Tramp," a baritone solo by J. A. King, were well rendered and as well received.

If applause means anything, then the State College Quartette, or the "Foolish Four," as they are sometimes called, must have been at their best. "Swing Low, Sweet Chariot," with "Railroad" Fountain singing lead, brought howls of laughter from every one present.

While the trip was enjoyed by all present, it was also responsible for some sorrow. For four years the

NOTICE

All fellows who have not paid the amount due for their subscription to the N. C. State Agriculturist please see either C. B. Brown or J. P. Shaw at once and make remittance. It is necessary that this be done right away in order that we may complete the records for the year.

J. P. SHAW,
Bus. Mgr.

WILSON PLACES AS ALTERNATE IN SOUTH'N ORATORY

Tarrant, Representing the University of Virginia, Chosen for National Contest

CONSTITUTION IS SUBJECT

Joseph Daniels Performs Most Graciously as Chairman and Host to the Southerners

The growing danger to the Constitution of the United States in the centralization of power in the Federal Government was the theme of five of the seven speakers from as many states Monday night in the Southern Interstate Oratorical Contest on the Constitution, which was won by John Garland Tarrant, representing Virginia, from the University of Virginia. Mr. Tarrant will represent the Southern States in the national contest to be held in Los Angeles in June.

W. Edwin Wilson, from the State College of Agriculture and Engineering, representing North Carolina, was named alternate, and will represent the Southern States at the national contest if for any reason Mr. Tarrant cannot take part in it. The contests are under the auspices of the Better America Federation, and are conducted to stimulate interest and a greater loyalty to the Constitution of the United States.

That the contest was very close will be seen by a comparison of the individual scores of the contestants as compiled from the rating given the speakers by each judge. The system of placing the contestants gives the man with the lowest score first place, and so on all down the line. That Wilson, the State College representative, coming from a technical college, should place second is regarded as proof conclusive that State College has one of the best English departments in the South. The score follows: John G. Tarrant, University of Virginia, 6; W. Edwin Wilson, State College, 9; John M. Wilson, Berea College, 11; Edward Carmack Cochran, Vanderbilt University, 13; R. W. McDuffie, Emory University, 14; Joseph Karesh, University of South Carolina, 15; Edmund Robert McGill, University of Florida, 16.

The judges were: The Right Reverend William J. Hefey, Bishop of Raleigh; J. Lloyd Horton, former judge of the Superior Court, and Dr. William Louis Poteat, president of Wake Forest College. Josephus Daniels, editor of the *News and Observer*, presided, and welcomed the speakers.

Other speakers in the order in which they were graded were: John M. Wilson, from Berea College, representing Kentucky; Edward Carmack Cochran, from Vanderbilt University, representing Tennessee; R. W. McDuffie, from

Military Statistical Report Shows Foot-pounds Expended

There are at N. C. State College approximately 483 Freshmen and Sophomores in the R. O. T. C., exclusive of all members of the band. It might be thought by some that these students do very little work to get the one-hour college credit given to them for taking the course, but if he who thinks so will just sit down when there is a little time to spare and start to figuring their real work, a new idea and conception will be formed.

Now every private and corporal is required to carry a rifle and bayonet which weigh 8 3/4 pounds. On one drill day alone, then, the regiment carries in its shoulders a load of 4,226 pounds for a distance of at least a mile—5,280 feet. This is equal to 22,312,280 foot pounds of work per hour, or 371,886 foot pounds per minute.

Now, for comparison, let us turn this mechanical energy into heat energy and see what it is. At every drill period there is generated over 20,000 B.T.U., or more than 5,000,000 calories of heat goes to waste. This great number of calories which go to waste would change more than 9,200 grams of water at 100 degrees Centigrade into steam—enough to cleanse any one though he were dirty enough to be mistaken for an Ethiopian. But no man's brain can stand such

POPULAR R.O.T.C. OFFICER GOES TO FOREIGN SERVICE

TEACHERS AND COACHES WANTED HIGH SCHOOLS

Coaching Class at the Summer School; Elective Course for Upperclassmen Next Year

Quite a number of letters have been received by the Athletic Department from the high schools of the State, asking for recommendations of State men for coaching and teaching positions. The combination that has been asked for most frequently was "teaching science and coaching." Students who are interested in doing some teaching after graduation should bear these inquiries in mind and take advantage of the courses being given by the Physical Education Department.

All students who are planning on coming to Summer School can get courses in coaching of all major sports and physical training. Beginning with next year all Juniors and Seniors will be eligible for the professional courses offered by the Athletic Department. Any students having electives and desiring to take these courses can get credit for it which will count toward graduation. All students starting in their Junior year will receive sufficient training to well qualify them for coaching positions. These combination positions will pay an additional salary.

TOWER SCAFFOLD FAILS AND ELEVATOR TUMBLES

The elevator used in hoisting the stone for the Memorial Tower broke and fell Friday morning. Several feet of new scaffolding had been added to the shaft to get the desired height. This new scaffolding could not stand the heavy strain and gave way, causing the elevator to fall.

No one was injured, due to the precautions used in this type of construction.

First Golden Chain Tapping Ceremonies Very Impressive

COMPANY "I" HONORED AT PRESIDENT'S REVIEW

Freshman Company Under Command of Upshur Is Declared Best Drilled in Regiment

When Captain Currin's charges marched upon the drill field at the President's review Tuesday, May 17, there arose a feeling of pride among the cadets. This was because of the machine-like precision with which they executed the orders of the commandant. But for some reason the machine-like precision of this company was either overlooked or completely overshadowed when Company I, of the Third Battalion, came on the field and gave their spectacular exhibition of close-order drill.

Under command of Captain J. B. Upshur, the freshman cadets of Company I were able to take the honors as being the best-drilled company of the entire regiment. Credit must also be given to the other commissioned officers of State College's military machine. These cadet officers are: Mark Sumner, first lieutenant; F. P. Dickens, first lieutenant, and R. P. Kennedy, second lieutenant.

After the best-drilled company had been chosen, the whole R. O. T. C. unit lined up in regimental front. The regiment executed "present arms" while the band played "The Star Spangled Banner." Each battalion commander then gave his report. After the reports had been given, the graduating officers executed "Officers Front and Center" and entered the reviewing stand. The non-coms took charge of the unit at this time, and marched them by the reviewing stand in columns of platoons. As each platoon passed the stand the customary "Eyes Right" was given.

The entire program, in which the regiment took part, was in honor of Dr. Brooks, President of State College. Dr. Brooks also acted as one of the judges in the competitive drill. He expressed himself as well pleased with the showing made by the regiment in its annual President's Review.

This was the last time that the present commissioned officers will represent State College on the drill field, for this year marks the end of their fourth year as cadets. After graduation they will receive commissions as

ALPHA ZETA FRATERNITY STAGES A SQUARE DANCE

All Present Declare One of Most Enjoyable Occasions of a Festive year

You can get a boy out of the country, but you cannot get the country out of the boy. The truthfulness of this saying was well borne out last Tuesday night when an old-fashioned country square dance was given by the members of Alpha Zeta, an honorary agricultural fraternity.

The large lecture room in Patterson Hall, the center of agricultural activities at State College, was decorated with marigolds, ferns, and other green plants from the greenhouse. The "Barnyard Ramblers" made music that would have delighted the soul of Henry Ford or Barney Google, and while Black and Britt called the "figgers," everybody entered gaily into the spirit of Colonial times and tripped merrily through all the intricate parts of the old-time square dance. The

Commencement Brings Men of Note to State

The 1926 Commencement exercises will begin Sunday, June 3, and continue through Tuesday, June 8. The list of speakers includes the Honorable James B. Aswell, Congressman from Louisiana; Dr. Edwin Mims, head of the Department of English at Vanderbilt University; Bishop William Frazer McDowell, of Washington, and O. Max Gardner, of Shelby. A complete program of the exercises will be carried in the next issue of THE TECHNICIAN.

Juniors Nervously and Expectantly Await Tap at Weird and Solemn Ceremony

TWELVE MEN ARE TAPPED

New Members Represent Almost Every Phase of College Student Activity

The first annual "Link Day" was observed at State College Wednesday evening at 6:30, with the student-body grouped around the sun dial on the campus as twelve members of the Junior Class were "tapped" to denote their election to the Golden Chain, newly organized Senior honor society.

The initiation ceremony began after Dr. E. C. Brooks, an honorary member of the organization, made a short talk on the merits of such an organization.

The juniors were "tapped" by a hooded member and were brought into the endless chain. The reasons for the selection of each were given. Those selected to keep alive the traditions of State College were: B. A. Sides, of Concord, star track man and a student of high ability in scholarship as well as taking an active part in the literary work of the campus. W. E. Wilson, of Asheville, another link, was selected because of his high scholarship, his ability as an orator, who recently won second place in the Southern Oratorical Contest, and an editor of the first State College literary magazine.

R. R. Fountain, of Catherine Lake, Editor of THE TECHNICIAN, an outstanding debater, and obtaining honors in scholarship.

F. M. Chedester, of Asheville, a student of mental ability and an active worker on THE TECHNICIAN.

T. C. Harrill, of Shelby, first sacker on the Tech nine, president of the Sophomore Class.

J. D. Conrad, Lexington, a student of high scholarship and an intercollegiate debater.

H. K. Plott, Canton, President of the Y. M. C. A., Business Manager of the literary magazine.

J. F. Matheson, Cheraw, S. C., president of the student-body, managing editor of the 1926 *Agromeck*, President Junior Class, high honors in scholarship.

H. L. Brown, Charlotte, star center on the State Champion basketball team, an active member on the student government.

J. E. Tiddy, Red Springs, an intercollegiate debater with high scholarship.

J. R. Anderson, Jr., Rutherfordton, a member of the three publications and Editor-in-Chief of the 1927 *Agromeck*.

J. L. Campbell, Asheville, obtaining high honors in scholarship, making a monogram in tennis, active worker on THE TECHNICIAN.

After the ceremonies, the newly-elected members of the Golden Chain chose J. E. Tiddy, regent of the society; H. K. Plott, vice-regent; H. L. Brown, treasurer, and F. M. Chedester, secretary.

The purpose of the organization was set forth in the constitution is to foster prevailing traditions and promote new traditions at such time as they are needed. Citizenship in its broadest terms is the determining factor in selecting members, and includes such items as better athletics, higher standards of scholarship and government, clearer expression, and fidelity to expression.

FRESHMEN RECEIVE THEIR ANNUAL SPRING CLEANING

First-Year Men Called Out at an Early Hour to Partake of Efficient Hose Bath

Freshmen out! came the cry, amid the banging and knocking of sticks and paddles against doors of freshmen at the dreadful hour of one, Wednesday morning, to awaken the slumbering freshmen as they slept so soundly. It meant that they must receive their annual bath.

At the blast of the whistle at the power plant every sophomore, who had assembled in front of his dormitory, made it his duty to see that every freshman be awakened. Some, of course, were astounded at such seemingly rude treatment after enjoying a most pleasant year, with the exception of the first two weeks of the opening of school. Others seemed to get a great deal of pleasure out of it.

Tau Beta Pi Elects
W. E. Wilson President
 Prominent Orator and Writer Is Chosen to Lead Engineering Fraternity

The local chapter of the national honorary engineering fraternity, Tau Beta Pi, held a very important meeting last Tuesday evening in Page Hall. At this meeting was discussed the plans for the coming year. The election of officers to guide the organization through the coming year was made.

Mr. W. E. Wilson, a Junior in Electrical Engineering, was chosen president. Mr. Wilson is a man who well deserves the honor of this office, and has shown his executive ability in many other offices on the campus. At present he is the president of Pi Kappa Delta, national forensic fraternity, and is editor-in-chief of the *Wataugan*, the new literary magazine which is just completing its first successful year at this college. He has held offices in the Leazar Literary Society, where he is an active member, has represented the college in both debate and oratory, taking fifth place in a national oratorical contest, and ranking second in the Southern oratorical contest held in Raleigh, May 17.

The other officers chosen were: Vice-president, W. A. Yost, a Junior in the School of Mechanical Engineering; corresponding secretary, R. A. Hendrick; recording secretary, J. D. Conrad. These men are also from the School of Mechanical Engineering and have stood out as being leaders in both scholarship and campus activities. Under the guidance of these competent officers, it is hoped that the second year of the chapter's existence at this college will prove very successful.

A charter of Tau Beta Pi was granted this college last fall, this being the Alpha Chapter in North Carolina. For some years members of the faculty have been bending their efforts toward securing a charter for this college. These efforts were rewarded, and we now have the best of the Tau Beta Pi on our campus along with the other leading engineering schools of the United States.

Freshmen Receive Their Annual Spring Cleaning

(Continued from page 1.)

The freshmen were lined up in snake-dance formation in front of each dormitory, and were made, by the proud sophomores, "to march to the dining hall where they were greeted by a delightful and refreshing (?) stream of water from a fire hose. After a genuine soaking the freshmen were given the command, "Run!" Every one of them was more than glad to obey this sophomore command. From the dining hall back to their rooms the ill-treated freshmen, dripping and shivering, returned to find dry clothing.

For several hours afterward the nationally known and justly famous "Bull Sessions" were held, each telling the other of his experiences. Now what has been looked forward to with regret and fear by the freshmen, and as a pleasure and a last chance to get revenge from last year by the sophomores, is over.

Company "I" Is Honored At President's Review

second lieutenants in the Reserve Corps. The regiment has shown a marked improvement over last year. Some give this credit to the "bull-ring," which was introduced by Major Early this year.

Some freshman wants to know if State had some airplanes would Winston-Salem.

Kollege Kampus Komiks
 By "DINKIE"

Pop Taylor: "Who was that lady I seen you with last night?"
 E. G. Moore: "That won't no lady. That was a co-ed."

And the Tom Cat said to the Pole Cat, "What a whale of a difference Scents make."

"Who are you?"
 "I'm the new justice."
 "Justice who?"
 "Justice good as you are."

"Do all the women of your intellectual advancement organization make speeches?"
 "Oh, no; the more useful ones make tea and sandwiches."

Roses are red,
 Violets are blue;
 But they're too expensive
 For a girl like you.

Pat: "How did you get that medal?"
 Mike: "For bravery."
 Pat: "What did you do that was brave?"
 Mike: "Married a widow with seven children."

Ed: What is it that has four legs and flies in the air?
 Co-ed: I give up. What?
 Ed: Two canary birds.

As Van Dyke would say it:
 Early to bed, and early to rise,
 Makes one salubrious, opulent, and sagacious.

Concert Band Gives Last Program Oxford Orphans

(Continued from page 1.)

seniors have been going to Oxford, and for the same number of years have always looked forward to the occasion, and as they came to the last trip that they will ever make with the band there was evidence of real sorrow.

Among the seniors whose hard work has helped to make the organization what it is and whose faces will not be seen again in the ranks are: C. C. Correll, "Tubby" Stone, William Tew, E. G. Moore, E. W. Zimmerman, Fred Pritchard, Lex Davis, and Harry Logan.

Before the concert, the faculty and students of the Orphanage were hosts at a delightful dinner, which is also a regular event on these occasions.

Alpha Zeta Fraternity Stages a Square Dance

(Continued from page 1.)

last number was the Virginia Reel. Delicious punch was served.

At 11:45 p. m. the curtain was rung down on what was declared by all to have been a most enjoyable occasion. The ladies present were: Misses Myrtle Stanley, Mammie Cutler, Stella Howell, Frankie Bridges, Stella Barnett, Vivian Shaw, Pearl Marshburn, Mabel Boysworth, Nell Seawell, Elizabeth Adams, Virginia Anderson, Olive Pittman, and Katherine Pittman.

The men present were: Dr. R. Y. Winters, Messrs. J. E. Tiddy, C. B. Brown, T. T. Brown, J. O. Gaither, R. B. Winchester, B. A. Sides, E. G. Moore, E. B. Morrow, G. O. Randall, R. E. Black, J. P. Shaw, J. L. Fort, E. R. Thompson, J. E. Foster, A. M. Woodside, J. B. Britt, C. J. Goodman, H. K. Gilreath, C. W. Jackson, H. G.

Shelton, J. M. Whittendon, R. R. Fountain, F. S. Sloan, and H. W. Taylor. Members of the "Barnyard Ramblers" were: Messrs. H. K. Gilreath, J. M. Whittendon, J. O. Gaither, C. J. Goodman, R. E. Black, B. A. Sides. The chaperones were: Dr. and Mrs. R. Y. Winters, and Miss Stella Barnett.

Pullen Society Wins Year-Round Contest

(Continued from page 1.)

siuous of giving State a square deal on their news and sporting pages, but they also show themselves to be actively interested in stimulating a worth-while activity among State College students—the work of the literary societies.

This year-round contest was inaugurated last fall at the suggestion of Professor Cunningham, the supervisor of the societies, for the purpose of stimulating interest in and improving the regular work of Pullen and Leazar societies. A point system was drawn up, under the terms of which each society was awarded a certain number of points for various activities and accomplishments. Each member present at a regular meeting scored one point. Each member assigned to a place on a regular program who failed to put in an appearance to perform his part caused a deduction of five points. Points were scored for placing first and second in the declamation and oratorical contests, and for each judge's decision and the award of best speaker in the inter-society debates.

An analysis of the points accumulated by the two societies in this their first year of competition is interesting. At the end of the first term, Leazar had 276 points, Pullen 213. At the end of the second term Pullen had cut down the lead, so that the score stood, Leazar 785, Pullen 777. At the end of the third term Pullen and Leazar by a margin of 48 points. For members present at regular meetings throughout the year Leazar scored 881 points, Pullen 954 points, although the membership of the two societies is practically the same, averaging 62 members each term for Pullen and 60 each term for Leazar. Points deducted as penalties: Leazar 35, Pullen 65. New members taken in during first and second terms: Leazar 28 points, Pullen 19 points. Points scored in inter-society debates and public speaking contests: Leazar 120, Pullen 160.

The trophy of victory was formally presented to Pullen Literary Society on Friday, May 21, at the final "get-together" of the year. This joint meeting was featured by speeches and a "feed," the latter paid for by the losing society, Leazar. The feature of the year-round contest was also agreed upon for next year.

Wilson Places as Alternate in Southern Oratory

(Continued from page 1.)

Emory University, representing Georgia; Joseph Karesch, from the University of South Carolina, representing South Carolina, and Edmund Robert McGill, from the University of Florida, representing Florida. The speakers were judged on the theme or content of the address, its style, and the delivery.

The contribution of Marshall John Marshall in interpreting the Constitution of the United States at a time when neither the courts nor the Constitution was regarded with the same dignity and vested with the power that they now have, was the theme of Mr. Tarrant's address. He praised the insight of Judge Marshall in discerning the ultimate balance wheel of the Government in the Supreme Court.

Specific instances of cases in which Judge Marshall had declared that the rights of the individual citizen were inalienable and supreme, his decision that commerce was a Federal matter, thereby making possible the railway, telephone and telegraph systems, and his decision which made reciprocal destruction of State and Nation through taxation impossible, were cited as some of his contributions to the country.

"John Marshall was engaged in engraving the principles of the Constitution on the Nation," declared the speaker. Since that time the Congress has repeatedly tried to encroach on rights of the individuals as set forth in the Constitution, but famous decisions of John Marshall have held against these attempts, and laws contrary to the tenets of the Constitution have been declared null and void.

In closing, the speaker urged that the present generation live up to the principles which Judge Marshall stood for, and the Constitution, which he declared was the greatest that the world has ever known.

North Carolina Representative An almost complete reversal of the Constitution was seen by Mr. Wilson, representing North Carolina, in the 15th, 17th, and 19th amendments. These were, he declared, directly opposed to the Constitution as conceived and written by our forefathers.

In a centralization of the government, in which the State and National governments were not maintained as was originally intended, but in which the national was absorbing the power of the states, and in the overlapping of power seized by the three primary branches of the Government, Mr. Wilson declared that the time had come

Last Week's Best Article

The honor for having the best article in the issue of May 15 goes to A. L. Aydlett for his story, "First Annual Scholarship Day Observed and Cups Presented."

to get back to the Constitution in spirit if it were to be maintained as any more than a hollow mockery.

Practically every item of the Bill of Rights had been broken, and the Constitution was held in hollow mockery when prohibition was enforced, he declared.

Other Speakers Edward Cochran, from Vanderbilt University, first examined the basis of this country's freedom and liberty, which has endured while the world as a whole was in turmoil. Briefly describing our Government as it was set up and the Constitution, he declared there was a growing tendency in the Federal Government for every kind of regulation. This movement toward centralization if carried to a culmination would result in no power for the sovereign states, he said. As citizenship is valued, so must the Constitution be cherished and protected, he concluded.

Early settlers were strong for liberty, said John M. Wilson, who represented Kentucky, and this love of liberty has run through all of American history. The Civil War was a test on which the Constitution was not wrecked, and that was in part a proof of its great strength, he averred. He cited two dangers which appear on the horizon today, and threaten to engulf the nation: First, the disrespect for local and municipal laws, which throws the responsibility on the national laws, and finally, disrespect for these laws. Secondly, he called attention to the group which credits all wrongs to the Constitution, and would have complete revolution.

There is a spirit abroad subservient to the Constitution of the United States, and one which looks toward a paternalistic and bureaucratic and centralized government, said R. W. McDuffie, from Georgia. This socialistic movement must not succeed, he declared, as it is a sinister attempt to strike at the heart of our government. This pseudo-political cult proposes Fed-

eral control of education, marriage, divorce, child and adult labor, agriculture, maternity, and various other problems. When the Constitution fails, America fails, he warned.

Hailing the Government of this nation as a miracle which God wrought in transforming 13 separated states into a united nation, Joseph Karesch from South Carolina turned the eyes of his audience to the present and future, and to those who seek to break down the fundamental basis of its government. It is the task of the present generation to hand down the Constitution inviolate, he declared.

Edmund Robert McGill, from Florida, pictured the Constitution as the rudder for the ship of state, and called on the citizens of today to live up to the Constitution as their forefathers have done in the years since it was adopted. It is given to this generation, he maintained, to wrench from the still, dead hands of Flanders fields the flaming torch and carry it aloft. Preceding the orations, vocal solos were rendered by William Puckett and Mrs. Hallie Siddell.

Daniels Welcomes Speakers

In welcoming the contestants to Raleigh, Mr. Daniels said: "Privileged to speak for it, I wish to say that Raleigh feels honored to welcome representatives of Southern institutions of learning who come here to exalt the Constitution. They will doubtless tell us how and by whom it was fashioned, and approve Gladstone's and Bryce's encomiums upon it as a monumental work of a period of which it might well be said:

"There were giants in those days." "Some of them will doubtless warn us of the dangers to that sheet-anchor from the forces described as Bolshevist and some from the forces known as privilege. From both we should pray, 'Good Lord, deliver us.' The Constitution, great in its spirit and declarations, keeps its freshness and usefulness, not alone from the original articles, but chiefly from its amend-

ments. The best part of the instrument is the amendments, particularly those adopted under the Jeffersonian inspiration guaranteeing freedom of religion, freedom of the press, and the blessings guaranteed in the Bill of Rights. Without these it would be invaluable, but would lack the light-giving quality of protection in the personal and sacred rights of the individual.

"We hear much these days of propaganda against 'tampering with the Constitution,' as if it was some sacrosanct piece of stone that could easily be broken. Such people wish 'kept static. Bryce advised against 'adding to the letter of the Constitution when the welfare of the country, for whose sake the Constitution exists, is at stake. That would be like seeking to preserve life at the cost of all that makes life worth living."

Ohio Bell Telephone Company, Cleveland, Ohio. Hubbell & Benes Co., Architects.

FOR many years, thinkers who watch mechanical progress with a friendly eye have asserted that the goal of machinery is to set mankind free from routine tasks, to give him time and opportunity for those tasks of the mind for which evolution has particularly fitted him.

In two of our most important industries there have been recent developments which may be truthfully said to have ushered in a new epoch. The dial telephone system, after years of experiment, has proved itself a practical and efficient servant of man. And the Otis Signal Control Elevator, also a product of untiring effort and experiment, marks a revolutionary step forward.

The transportation system of a modern building requires fewer elevators of this new type, than were heretofore required of other types. Control is entirely automatic, the car being operated by the pressing of car or hall button.

This type of control automatically brings the elevator to a stop within an exactness of level which eliminates the delays of readjustment experienced under the old system, and also automatically opens the doors as the car stops. This accuracy of landing greatly eliminates the possibility of accident.

In view of these epoch-making developments in the telephone and elevator industries, it is most appropriate that the four new monumental telephone buildings stretching across the country, and located in New York, Cleveland, St. Louis and San Francisco, should be equipped with the latest type of Otis Signal Control Elevators.

DUKE BLUE DEVILS TAKE CLOSE GAME

"Skeet" Green Pitches a Good Game, Only To Be Nosed Out in the Final Frame

The Blue Devils of Duke University won the last game of their season by defeating Coach Doak's nine, 3-2, at Duke last Thursday. This was one of the most hard-fought and most exciting games of the season, as indicated by the score.

"Skeet" Green pitched one of the best games of the season for State, although the Blue Devils collected nine hits. The score was tied for six innings, and the winning run was made in the ninth by Weaver of Duke.

State scored in the first frame when Charlie Shuford made first on an error by Broom. Matheson sent a long fly to Bunting in the outfield, and Gilbert was robbed of a hit when Pearce, Duke's centerfielder, took a deep drive of the outfield wall. Tommy Harrill cracked out a hot liner which was good for a two-base hit, scoring Charlie Shuford. Duke scored two runs in the same inning.

Score by innings:
State 110 000 000-2
Duke 200 000 001-3

Summary: Two-base hits, W. Green, Cranford, Saunders, Harrill. Sacrifice hits, Austin, McDaris, Broom. Bases on balls, off Thomas 3, off Green 1. Struck out, by Thomas 2, by Green 1. Double plays, Matheson to Harrill. Hit by pitcher, Weaver. Earned runs, State 1, Duke 2. Passed balls, McDaris, Carson.

On Wednesday, May 26, at the regular assembly period, all those men who have been awarded monograms or numerals will be given a certificate. This certificate will show the sport or sports in which they have made a monogram or numeral. Dr. Brooks will present these certificates, and will also speak on "The Relation of Athletics to a College."

It is hoped that every student will be present at this meeting, especially the men who have been given monograms or numerals.

Monday, May 24, 4:30 p.m.—Tau Rho Alpha vs. Alpha Gamma Rho. Pi Kappa Alpha vs. S. P. E.
Tuesday, May 25, 4:30 p.m.—Sigma

BAPTISTS DOWN TECHS SECOND TIME THIS YEAR

Demon Deacons Entertain State Nine on Gore Field; Score 5-0

The Demon Deacons of Wake Forest sewed up the State championship last Saturday by defeating "Chick" Doak's nine, 5-0, at Wake Forest. The Baptists have lost only two games during the season and have only one more to play, while all other teams have lost four or more games.

James, the Deacon twirler, worked out a good game for the Baptists by allowing only three hits during the entire game.

"Rooster" Beal started the mound work for State, but was driven to the showers in the fifth inning, when two errors and a two-base hit netted two runs. "Skeet" Green, who relieved Beal, proved to be the master of the situation by allowing no runs after he went on the mound.

Baucum, Baptist outfielder, hit his third homer in as many games when he drove the ball to center field with two men on in the fourth.

Greason and Timberlake, of Wake Forest, made their last appearance in college baseball. The latter collected three hits out of an equal number of trips to the bat, while the former played errorless ball.

SPORT COMMENT

We are glad to hear that the tennis courts will be finished this summer.

By winning the Southern Conference track meet last Saturday, the Tar Heels annexed their second Southern title this year. Congratulations, Tar Heels.

N. C. State scored more points in the Southern meet last Saturday than ever before.

Today's game with the Tar Heels will close the season for Chick's nine, and the Doakmen will be out for the Tar Heels' scalp.

The Yearling baseball team seems to be having some hard luck.

Dick Gurley's All-State baseball team looks good to us.

There is some talk of scheduling two baseball games with Carolina next year to be played during commencement. If this is done, one game will be played here and one at Carolina. This will give the alumni of both colleges a chance to see two good games during commencement. We hope that these games can be scheduled.

CAPT. BROWN
A fast sprinter, has led the Track Team to much success this year.

YEARLINGS DEFEAT CAROLINA BABIES

Frosh Cindermen Win 67 Points; Melton High Scorer and Grubbs Next

Sammie Homewood's Freshman team closed the track season here Thursday, May 13, on Riddick Field by defeating the Tar Babies 67-59. The first-year men of Carolina took first place in eight of the fourteen events by a surprising display of strength. The Yearlings showed their greatest strength in the dashes, javelin throw, and the high jump. Melton, of State, won first place in the century and the two-twenty. Waring, Young, and Vinson, of State, won all three places in the javelin, and Vinson, Goodwin, and Young won an equal number of places in the high jump.

The two-mile run developed into one of the best races of the afternoon, with James, of Carolina, beating Loman by a step to the tape in the last lap, which was run at a fast pace. Melton, of State, was high scorer with 13 points.

Summary of Events
100 yards: Melton (S.), Grubbs (S.), Smith (C.). Time, 10 3/5 secs.
220 yards: Melton (S.), Grubbs (S.), Sandlin (C.). Time, 23 3/5 secs.
440 yards: Grubbs (S.), Melton (S.), Sandlin (C.). Time, 54 4/5 secs.
Half-mile: Moore (C.), Buford (C.), Greaves-Walker (S.). Time, 2 mins. 14 4/5 secs.
One-mile: Brown (C.), Greaves-Walker (S.), Williams (S.). Time, 4 mins. 5 1/2 secs.
Two-mile: James (C.), Loman (S.), Brown (C.). Time, 10 mins. 57 secs.
Low hurdles: Franklin (C.), Thomas (C.), Mintz (S.). Time, 28 4/5 secs.
High hurdles: Smith (C.), Franklin (C.), McCaskill (S.). Time, 19 secs.
Pole vault: Cowper (C.), Vinson (S.), Gaston (S.). Height, 10 ft.
Shot-put: Burton (C.), Morris (S.), Harper (C.). Distance, 36 ft. 2 1/2 in.
High jump: Vinson (S.), Goodwin (S.), Young (S.). Height, 5 ft. 6 in.
Discus: Coburn (C.), Harper (C.), Thomas (C.). Distance, 118 ft. 6 1/2 in.
Broad jump: Young (S.), Vinson (S.), Sandlin (C.). Distance, 20 ft. 10 1/2 in.
Javelin: Waring (S.), Young (S.), Vinson (S.). Distance, 147 ft.

J. J. WRIGHT
Who took fourth place in the mile at the Southern meet last Saturday, has been one of State's high scorers in Track this year.

RIFLE TEAM ENDS SEASON'S MATCHES

Captain Vick High Scorer for Second Consecutive Year; Griffin Next Highest

Under the leadership of B. L. Vick, the N. C. State College R.O.T.C. Rifle Team has completed another successful year.

Vick is truly a captain, being high-scoring man. He made a score this year of 6,516 out of a possible 7,000. The next highest man was F. J. Griffin, with a score of 6,469 out of a possible 7,000. Vick has for the past two years been the high-scoring man of the team.

The rifle team has this season shot matches with the following colleges: Rhode Island State, Virginia Military Institute, Michigan State, Connecticut Agricultural College, University of Delaware, W. R. Hearst College, Fourth Corps Area, University of Cincinnati, University of Missouri, University of Illinois, University of Maryland, New York State University, Johns Hopkins University, Massachusetts Institute of Technology, University of Kentucky, and the National Intercollegiate Association.

The members of this year's team are: B. L. Vick, F. J. Griffin, M. L. Barnhardt, P. M. Coley, L. M. Green, E. E. Hood, C. J. McConnell, J. H. McKinnon, P. H. Mast, S. C. Oliver, A. R. Reeves, A. J. Vinson, B. F. Walton, and J. B. Wooten.

Fraternity houses at the University of Colorado have been the victims of an epidemic of dog poisonings. A number of valuable mascots, including a police dog, have been killed by parties unknown. The university chemistry department has examined the bodies in an effort to obtain evidence of the kind of poison used.

JACK McDOWALL
Has broken the State record in the high jump this year and tied for first in this event at the Southern Conference meet.

MCDOWALL, MATTHEWS, AND WRIGHT SCORE IN MEET

Wet Take-off Probably Prevented New High-Jump Record; Mile Run Is Very Fast

Jack McDowall, Matthews, and Wright represented State in the finals of the Southern Conference field and track meet which was held at Carolina last Saturday. These three men accounted for the 6 1-2 points that a State scored, and the tie with Georgia Tech for seventh place.

"Jack" was probably kept from breaking the Southern record in the high jump by Jupiter Pluvius, for it was impossible to jump after the rain on account of the heavy condition of the field, and the height attained was only 5 feet 10 3/4 inches. Matthews did some good jumping and tied for third place.

J. J. Wright ran a thrilling race in the mile, and at the finish was beaten out of third place by only a few inches, but placed fourth. The Southern record was lowered from 4 min. 25.4 sec. to 4 min. 21.5 sec. in this event. Wright's time was 4 min. 28 seconds.

The chief of police in Los Angeles intends to send to college all policemen who show less intelligence than a high school flapper. In the near future there will be no arrests for disturbing the peace, for the cops will merely look stern and plead, "Gentlemen, we must have silence."

BASEBALL MEN APPEAR FOR LAST TIME TODAY

Class of '26 Has Clean Slate for Diamond Games With University Teams

Saturday will mark the last appearance of several of State College's best athletes in college athletics, and the Class of '26 should be proud of the fact that Carolina has never beaten N. C. State in a game of baseball when the Class of '26 had players on the team. If State wins today this class will have a perfect record in baseball with Carolina.

In Freshman baseball the Class of '26 won three games from the Tar Babies. The following year State took State honors in baseball, and in doing so defeated the Tar Heel nine twice. Last year the baseball team continued winning from Carolina by defeating them twice more, and this year State won the first game by the score of 8-6.

There has been some discussion about scheduling an extra game with Carolina this year, and if scheduled will be played at Carolina on June 5. Probably next year there will be two scheduled games with Carolina to be played during commencement. If this is done, one game will be played here and one at Carolina. This will give the alumni of the two colleges a chance to see a good college game of baseball while attending commencement. The students and alumni of both colleges will look forward to these games as being the season's best.

There has been some discussion about scheduling an extra game with Carolina this year, and if scheduled will be played at Carolina on June 5. The students and alumni of both colleges will look forward to these games as being the season's best.

TAR HEELS WIN S. I. C. TRACK AND FIELD MEET

State Ties for Seventh With 6 1/2 Points; Clemson Trio Win Honor

The Tar Heels of the University of North Carolina won the fifth Southern Conference field and track meet which was held at Carolina last Saturday. The Tar Heel squad, led by Elliot, a great distance runner, and Watt, a fast timber-topper, piled up 22 points, and led their nearest competitor by 3 1-2 points. Virginia took second place with 18 1-2 points.

The meet proved to be a very keenly contested one from the first event to the last.

Although the meet was held up several times by showers which made the track and runways heavy, record after record fell before the flying track stars. Clemson, with only three men entered, made a splendid showing, and carried away three firsts, two new records, and placed fourth in the meet.

Snider, of Auburn, and Cummings, of Virginia, shared the sprints with first and second each. They also carried away high point honors with eight points each.

Jack McDowall, of State, tied with East, of L. S. U., in the high jump, and Matthews, of State, tied with Wadsworth, of Tennessee, for third place in the same event. Wright, of State, took fourth place in the mile. The team score for State was 6 1-2 points.

Paragraphics

To flunk or not to flunk, that is the question.

The Alpha Zeta seemed to feel perfectly at home at their square dance Tuesday evening. The same can be said of the girls.

We are enthusiastic over the great success of the polar explorers, and are tempted to join the throng, but we fear that it might cool off our enthusiasm too much.

The linotype operator took pity on the Senior Class last week and changed their Memorial Tower pledge from \$5,500 to \$550. He must know the Seniors.

The board of trustees of the University of South Carolina are looking for a man to be president of that institution. And yet our Seniors complain that there are no jobs!

The Golden Chain tapping ceremony was very impressive. We believe that it will become increasingly impressive from year to year as the organization grows older and more honored.

We notice in several college newspapers a final report of the activities of the Student Councils during the year. We believe that too much secrecy is observed in the case of Student Council activities here.

We find the following in a recent issue of The Chronicle: "The editor of THE TECHNICIAN, in advising his readers how to act whenever 'some important event didn't get written up,' tells them very emphatically 'to back up behind a mule and pull his tail' After all, farmers will be farmers."

In order that our fellow wisecracker might have reasoned that we were also engineers, we should probably have added, "or try to crank a collegiate Ford."

One of our first attempts at a paragraft for this column contained the following information: "The girls at N. C. C. W. criticize the old staff for showing partiality towards the girls at E. C. T. C. We wish to announce that we are broad-minded, and have unbounded capacity for love, brotherly and otherwise."

In the next issue of the Carolinian we find this reply: "For State College Only.—Due to the impecunious vocabularies of the seventeen hundred students registered at the North Carolina College for Women, it is impossible for us to reciprocate satisfactorily the amorous vociferations of our fraternal compeers at the North Carolina State College of Agriculture and Engineering. To make it still more melodramatic, we end with encore." Women never fail to get in the last word.

ON STUDENT GOVERNMENT

In a recent issue of this sheet we carried an editorial discussing the stand taken by Dr. Binford of Guilford College against student government in our colleges. We are probably prejudiced in favor of student government, especially the ideals of that form of government, and perhaps used rather strong language in expressing our views on the subject.

Dr. Binford wrote the former editor of this paper, stating that he had misinterpreted his remarks. We had his communication not been in the nature of a personal letter we should have printed it in these columns. Dr. Binford states that while he does not believe in student government, neither does he believe in faculty government, but that a system should be worked out whereby there would be closer co-operation between the two bodies. As we remember Dr. Binford's speech, when he got to this point he said, "I confess I do not know how this is to be accomplished." This confession, and his failure to advance anything more democratic to take the place of our system of student government, was the basis of our assertion that he was "hopelessly at sea" when he tried to explain his opposition to student government on the ground that it was not democratic. Perhaps there is but little difference in our ideals and those of Dr. Binford, and the only difficulty lies in the definition of terms. He is prejudiced against student government, we are prejudiced in favor of it, and thereby hinges the controversy.

ABOUT WATER-FIGHTS

Only last week we heard a remark on the campus to the effect that the friendly spirit prevailing among the students was nothing short of phenomenal. We did some thinking on the subject and came to the conclusion that the "give and take" spirit of the campus is better now than at any time since we have been here.

Since that time we have been forced to admit that the situation is not yet perfect. Each year as we near the end of the spring term an odd kind of "sport" breaks out spontaneously in several dormitories. This sport starts in a healthy spirit of fun, to which we have no objection. But it is a thing that gains momentum as the days go by, until it becomes a nuisance to those who do not engage in the sport. At the same time it seems to become almost an obsession with those who seem to get so much pleasure out of it. We allude to the daily water-fights that take place in and around some of the dormitories. This seemingly "harmless pastime" yearly causes a loss in college property that amounts to more than the average student would believe. Already the floors, walls, and the windows of the dormitories, that were at the first of the year the pride of their occupants, are beginning to show the weathering effects of water and stones. But this property loss, great as it is, is small as compared with the tendency of this guerrilla warfare to breed hostility between groups and between individuals. Three times in as many days, each on a different part of the campus, we have been eye-witnesses to affairs that were, to say the least, very unpleasant.

But when we reach a stage in this distinctly childish game in which we find team-mates on our athletic teams, men who have borne nobly their share of the task of upholding our athletic standard against all opponents—when we reach a stage of the game that causes open hostilities to develop between these "buddies," then it is time for us to stop and take stock of ourselves. We value, or should value, the complete unity of our teams more than we value the passing whim for a joke, and more than we value "getting even" in a fit of anger. And those students who would encourage this dissension among friends and athletes would be the first to declare their complete loyalty to our athletic teams. But since today is today, and next college year is next college year, they do not take the trouble to look into the future and see that what we shall be tomorrow is the direct result of what we are today. It is the duty of every loyal State College man to forget petty individual differences and to lend his strength to the united cause of a greater State College in true comradeship in athletics and all branches of college activities.

Student Forum

THE MILITARY BAND

There has been quite a bit of adverse criticism of the showing made by the R. O. T. C. Band at the president's review of the regiment Tuesday morning. It was well deserved. But I think that it is only just that the other side of the question be heard. If the band has not shown up well on this or other occasions, there must be a reason for it.

Only a few years ago the military band was the pride of the college. But it was the only musical organization that State College boasted. With the various musical organizations that we have at present, it is impossible that we should have as good a military band as formerly.

The band gets no practice in passing in review. The only times that the band is ever asked to go on the field is when it is to perform. Suppose that the regiment were not called out except on special occasions? Would they perform creditably? No! Neither does the band. It is all very nice for the band to sit in the band room every drill day and practice their music, but when they are called on the field, conditions are different.

As I remember it, the recent review was the third that the band has performed in during the year. At the first, the Drum Major was given certain directions as to the procedure to follow. He was green at the job, and wasn't even taking Military. He started off according to directions. An officer came up and commanded that it be done otherwise. It was done accordingly. At a later review, another officer appeared on the scene and changed the whole system again. At the last attempt to perform, none knew what to expect when they arrived on the field.

Unless there is some unified system of control at such occasions, unless there is a systematic field practice period, and unless a Drum Major is secured who is taking Military, there is getting academic credit and nine dollars a month as an incentive to put some time on his job and learn his duties—unless all these things are done, no one has a right to expect a good concert band to be a good military band.

R. R. FOUNTAIN.

TALES VIRGINIA TRIP

ENLIVEN A.S.M.E. MEET

The A. S. M. E. held their last meeting of the year in Page Hall on Tuesday evening. It proved a most interesting meeting. After the usual business was cleared up, the Seniors proceeded to tell of their trip to Newport News. From their enthusiasm it must have been a most enjoyable time as well as an instructive tour. Their reports indicated that the place contains some real State College boosters. Believing only half of their tales, the present M. E. Juniors are already looking forward with a good deal of interest to another such trip next year.

This last meeting of the year marked the closing of one of the most successful seasons of the local branch. The programs this year have been of a most interesting and instructive nature. The Juniors are looking forward to even a more successful program next year.

TEBELL'S YEARLINGS

SWAMPED BY BABIES

The Carolina Tar Babies defeated Coach Tebell's Yearlings, 13-7, in a slugging contest last Tuesday afternoon on Riddick Field. The Tar Babies had the edge on the Yearlings during the entire game. The all-around slugging of both aggregations was the feature of the game, with Beam leading for the Tar Babies, and Melton, Hovis, and Albright leading for State.

The first-year men of Carolina collected thirteen hits off Avera and Burrus, who were not only wild, but were poorly supported. Friday the Yearlings closed their season by playing the Tar Babies at Carolina.

The University of Florida has ordered a stop to the wholesale collection of cars by fraternity pledges in the process of initiation. This action is due to the numerous complaints that have come in from the different owners.

From year to year track records are lowered. The Southern Meet at Carolina broke seven on a muddy field. Freshman Zimmerman unofficially lowered the 220 as he ran away from the annual Freshman spring cleaning Tuesday night.

We wish to commend Coach John F. Miller for the manner in which he immediately answers any and all attacks made upon his policies through the "Student Forum." In each case where such an attack has been made he has taken the time to carefully answer each argument advanced against him. If more of those in authority would do likewise there would be better understanding between the faculty and students.

UNCLE DUDLEY

"Uncle Dudley" has requested of the department that he be quoted verbatim. He says that the department takes things down too much and does not say what he wants it to. Here is what he says this week:

Boys, you should have heard the "big dogs" talking over at the "Y" luncheon on scholarship day. From the way they talk you would think that State College was everything to them, and I'll bet you they will not think about the college until they are asked to come out again. Of course, all of us like to hear them brag, but I like for a person to say less and mean it by sticking to what he says, don't you?

Hon. Josephus Daniels said that he was glad to see the college set aside one day to scholarship, for most of the time has been devoted to football or such. That is the truth; scholarship is about squeezed out around here; but, boys, I don't blame you for not wanting to study. How can you do it when there is some dog-gone meeting every night? You will hear an announcement in the mess hall which will say that there will be a very important meeting of such and such a club, society, or some organization at the "Y" right after supper. You boys will go to the "Y" and rush through it to be at some other meeting by seven-thirty. After these two, conflicting with another, perhaps, you go to your rooms and by the time you have run out the bull sessions and settled down to study it is too late, for you must get up for an eight o'clock class.

Well, boys, you cannot help it very much, for if you don't take part in your college activities you will amount to very little on the campus. You just have to pick out the best, and do all you can to crowd in your studying, it seems.

I was talking about scholarship day, but drifted off the track somewhat. You know that idea of observing scholarship day is good, and it is a rank forward on the old "whiffle-tree," as Hon. J. Stitt Wilson would say.

The activities, such as athletics, etc., have the "old tree" in about the same position as science has in Mr. Wilson's theory.

I believe that scholarship idea is good, but if the faculty wants you boys to really enjoy it and to look forward to it, they must slide in a holiday or two. I know how college boys are, for I was one once. I used to wish that there were more Thanksgivings and such occasions.

As I said above, there are too many organizations for you boys, and some of them are unnecessary. Of course, this new frat that I noticed in your annual by the name of Alpha Sigma is an excellent organization, and you can tell these men when you see them on the campus in their place of distinction. They are outstanding in some qualities which allow them the privilege of belonging to this honorary fraternity.

The Golden Chain, which has been established recently, is one of the greatest assets in the way of organizations. Organizations with a purpose and those that carry it out should live, but there are many that never have any object worthy of maintaining existence.

Boys, it is up to you to set standards for organizations and squeeze out the ones that are worthless. Unless they stand for a progressive cause and amount to something, they should be destroyed, for valuable time is being taken up, and it cannot be brought back to a better advantage later.

POULTRY SCIENCE CLUB

MAKES GINN PRESIDENT

Officers for the fall term were elected Thursday night at the last meeting of the year of the Poultry Science Club. W. M. "Peter" Ginn was elected to head the organization as president and steer its course during the fall term of 1928.

"Peter" has shown himself to be a consistent worker. During preparation of the departmental report last fall, he was ready whenever called.

J. L. Fort was selected to assist "Peter" as his vice-president. M. E. Evans was elected to the office of secretary and treasurer. J. J. Barnhardt has been exposed to S. Robertson's journalism, so he was elected reporter to give publicity to the club.

H. S. "Herman II" Wilfong was elected to find fault with the work. He is especially fitted for the place, so he was unanimously elected. Criticism will be in the Graduate School next year. He likes to juggle test tubes, egg bottles, etc., so well that he cannot leave.

After the election of officers, the three graduate students, C. O. Dossin, T. T. Braune, and H. C. Kennett, spoke a few words of farewell, and gave encouragement and advice to those who are not leaving yet.

The Geology Department of Princeton University will give what is believed to be the first university course ever offered on "wheels" next summer. A party of 22 professors and undergraduates will travel about 10,000 miles in a Pullman car, making a study of the geology and natural resources of the United States.

This Week's Limerick by ZIPPY MACK. It's a wonder they didn't start scrapping. There was once a big Golden Chain tapping. What with snapping and rapping. And flapping and clapping, Which was made of shoulder blade slapping;

CROAKER AT THE BAT. The outlook wasn't brilliant for the Morehead pine that day; The score was four to two with but one inning more to play. And so when Cooney died at first and Barrows did the same, A sickly silence fell upon the patrons of the game. A straggling few got up to go in deep despair. The rest Clung to the hope which springs eternal in the human breast; They thought if only Croaker could but get a whack at that— We'd put up even money now with Croaker at the bat.

ENGINEERING FACULTY GIVE FORMAL SYMPATHY

The members of the faculty of the Engineering School of the North Carolina State College feel a deep loss in the death of Prof. Henry Knox McIntyre, which occurred on May 11, 1928.

Professor McIntyre had been connected with State College for seventeen years, and during that time had impressed students and co-workers with his knowledge, earnestness, and conscientious service in his work. He was an electrical engineer of outstanding ability, a scientist always searching for new methods and truths, an able and sympathetic teacher, and a true Christian citizen.

In his death the College has lost one of its most valuable teachers, and the students a real friend. His co-workers in the Engineering faculty, knowing what his death means to them, realize how serious is the blow to his family and his immediate associates, and hereby extend to them their heartfelt sympathy in their bereavement.

The Engineering faculty, by unanimous vote, has ordered copies of this resolution to be sent to The Technician, the local papers, the family of Professor McIntyre, and that a copy be spread on the minutes of this body.

C. B. PARK, WM. HAND BROWNE, HARRY TUCKER, Committee.

"Papa, you buy me a drum" asked a little lad of his father. "But, my boy," answered papa, "I am afraid you will disturb me very much with it." "Oh, no, I won't," said the little chap; "I'll play it when you're asleep."

Why Should State College Men Go To Blue Ridge?

WHAT BLUE RIDGE IS

Some Questions
Do military tactics and drill in our colleges and high schools have anything to do with the League of Nations in 1926?

How does "Education for a well-paying job" affect the draft law in the next world war?

How do the highway police (and closed cars) influence divorces?

Who is a human being?

What is the difference between the white race and the human race?

Is prayer "the bunk," or does it work?

What is the difference between God and gravity?

Is the church a "living" organism—like a disease germ—or is it a solidly founded (immovable) institution?

Is fundamentalism or modernism right? How can I be sure? Do I have to be sure? If I have doubts about any of the formerly unquestioned tenets in religion, am I therefore on dangerous ground?

Am I Christian in America if I say about the recent events in China, "That's government business, and not my concern"?

Hunting for the Answer

What would the average student whom you know give if he could be sure that the questions which have crowded in on him in the last two years are the same questions bothering almost all other earnest students? Would he (and you) be interested in taking some deliberate time—without anything else that "had to be done" crowding him—to begin thinking some of these things through, in the hope that you may find some pointers to a solution?

Good Company

Most of us don't have the occasion nor the time to do this while in college, nor during vacations. Too many other things crowd in. There's only one place and one occasion where this is possible, and that is the Student Conference at Blue Ridge. Here is the "Ideal Company"—500 of the most respected undergraduate leaders in the South.

Here are the ideal facilities: A veritable student shrine in the bosom of the friendly Blue Ridge Mountains, comfortable quarters, good food, nature's seclusion within a stone's throw of all these comforts, where you alone or you and your friend can sit and

talk things through without disturbance.

Enough Time

Here's time enough to get somewhere. Ten whole days—the mornings given to contact with world leaders—to formal discussion groups—to forums—when facts will be marshaled. The afternoons free for personal conversations, private study, wholesome recreation. The evenings to fellowship with groups from your state or groups from ten states with common interests.

Your Convictions Wanted

Bring your intimate friend—the fellow who understands your deepest feelings best, with whom you have often discussed such questions as you dare not discuss with the average student, because he does not know how in earnest you are.

There'll be no handing out of "ready-made conclusions." Every address will be subjected to cross-fire from any one in the audience, then and there. There'll be no sloppy sentimentalism, no claptrap sensationalism, but there'll be a "going to the bottom" of things. You'll be doing the digging yourself, and what you find will be considered as sincerely as what any speaker has found. What you say—and do will "make a difference."

Thirty delegates expected from State College.

One and one-half fare on railroads. (Cheaper in Florida. See Jumper.)

Only Expenses

Hotel bill, \$25 for ten days Registration and program fees, \$7.

DO NOT READ THIS

and get the details. If you have read the above through, then you must be the kind of fellow who will at least go to the "V" desk. If you are read the above through, are ideal. (Hikes, Raffles, Sports, Fellowship Spot-Sweeney, Chimes, Flamingo, Eastern American's Sports Beauty Like em. W. E. Upham, and a host of others. Eddy, J. Sitt Wilson, Mortimer Johnson, W. D. Weatherford, Tom Graham, W. E. Upham, and a host of others. Groups with them privately and in colleges. Associate ten days with the 500 most earnest students from 100 Southern States. Go to Blue Ridge June 15 to 24. HOW TO SPEED UP NEXT YEAR

Jeter Talks To Class On Agricultural Writings

Articles for Farmers Must Be Accurate, Short, and Clear, Says Extension Editor

"The direct route is better than circumlocution," said F. H. Jeter Tuesday, when he was speaking to the class in Agricultural and Industrial Journalism. He was speaking in regard to the writing of articles that would interest farmers, and he declared that articles prepared for them must be simple, direct, and accurate.

The farmer knows his crops, his livestock, and his land, and the man that makes a mistake in writing will be called when he is least expecting to be. For an article to have the desired effect, the writer must be observed. These are: Accuracy, Brevity, and Clearness. Names and addresses should be spelled correctly, and the conversational tone should be used in writing for the country weekly.

Agricultural articles are written for two types of papers, namely, the regular agricultural paper and the country weekly. In both these papers the material set forth should consist of the absolute facts, presented in a readable manner. Mr. Jeter stressed the fact that teachers in Smith-Hughes schools should write things to enable rural people to enjoy life more fully. He stated that one picture is worth ten thousand printed words. This means that illustrations should accompany articles. In a survey conducted by the U. S. Department of Agriculture, it was found that 25 percent of the improved farm practices are learned from the printed page. An instance of this was cited in Transylvania County. A farmer there found an improved method of grinding sorghum and published an article in the Progressive Farmer. He received more than 1,000 inquiries in regard to the article. Also, farmers like to follow a good person. Mr. Jeter says that in his wanderings over the State he hears more men quoting Professor Massey than any other writer. Professor Massey wrote things in a manner that made them easily understood.

There are 165 rural weeklies in North Carolina and 26 semi-weeklies. It is through these that the North Carolina Extension Service does most of its publicity work. The dailies are creeping into the rural communities, and the rural weeklies must confine their news to things that are local and rural. Everybody likes to read the weekly from back home, because it is like making a visit there—to read about the births, deaths, weddings, and other small-town gossip.

The North Carolina Agricultural Publicity Force is very active, and for the past two years their syndicated news articles to the weeklies have won second place among the colleges of the nation. For the past three years their feature articles have been accorded first place among the colleges of the United States.

CERAMIC STUDENTS ARE ASSIGNED SUMMER WORK
All of the students of the Department of Ceramic Engineering who desired to get practical experience by working in ceramic plants during the coming vacation have been assigned by Prof. A. F. Greaves-Walker, head of the department.

These students have been assigned to the following plants:
P. E. Trevathan and R. B. Stamey—Kier Fire Brick Company, Pittsburgh, Pa.
W. L. Stafford—Moland-Drysdale Brick Co., Henderson, N. C.
F. S. Hardee—J. C. Steele & Sons, Statesville, N. C.
P. C. Collette—North State Feldspar Company, Micaeville, N. C.
J. E. Boyd—Selma Brick Company, Selma, N. C.
T. R. Dean—North State Feldspar Company, Micaeville, N. C.
Robert Tyson—Sanford Brick and Tile Co., Sanford, N. C.
J. T. Dick—Pomona Terra Cotta Co., Greensboro, N. C.

Several of the students of the department have decided to remain at State College or go elsewhere for summer school.

GRAD STUDENT WILSON WINS M.S. IN BIOLOGY
F. W. Wilson, a graduate student in the Biology Department, successfully stood his examination for the Master's degree Tuesday afternoon, May 18. He left for his home in Villa Rica, Ga., Friday.

Wilson appeared on the campus in the fall of 1924. Since that time many of the Agricultural students have had the chance to meet him in the Zoology laboratory.

During the two years Wilson spent at State College he has worked out his thesis for his Master's degree on "The Coccinellidae of North Carolina."

Wilson completed his work for the Bachelor's degree at Clemson College, S. C. He received his Master's degree at State. It is generally understood that his friends will soon have to say "Doctor" when speaking to him, for he intends to get his Doctor's degree from some other institution.

DR. KAUPP IN OTTAWA FOR POULTRY MEETING

A meeting of the program committee of the World's Poultry Congress was held Monday and Tuesday, May 17 and 18, at Ottawa, Canada. Dr. B. F. Kaupp, pathologist and poultry investigator of the College Poultry Department, attended this meeting.

Dr. Kaupp left Friday night, May 14. He is a member of the program committee for the Third World's Poultry Congress, which is to be held in Ottawa during the summer of 1927. The last World's Poultry Congress was held in Spain in 1923. Dr. Kaupp is expected back today.

FRATERNITY HOUSE FIRE CAUSE OF EXCITEMENT

On returning to the Phi Kappa Tau house about 11:00 o'clock Saturday night "Mike" Eckersoo found his room filled with smoke. A thorough investigation disclosed that a mattress was on fire.

Although there was no flame, practically two-thirds of the mattress was burned. After a vain attempt to extinguish the smoldering fire by pouring water on it, the mattress was soaked by placing it under a faucet. Later it was thrown into the yard for safety. Except for the loss of sheets and blankets and having the room badly smoked, little damage was done. The origin of the fire is unknown, but it is supposed that a burning cigarette was the cause.

PROW OF H.M.S. PIEDMONT POINTS TO GREENSBORO

Last Sunday, May 16, the "Piedmont" made its first trip to Greensboro since being taken over by a new skipper. The boat embarked at eleven o'clock in the morning with Jeff Davis on the bridge and D. B. Branch, Otis Peterson, J. J. Wright, and Bill Daily as first-class passengers. True to its reputation, the boat carried the crew to N. C. C. W. without mishap.

In Greensboro, the conspicuous car attracted much attention and was recognized by many. As it was dark when the time came to leave the college town, two able seamen, J. M. (Joe) Kilgore and S. E. Shepherd, were added to the crew, making a total of seven for the return voyage. The boat moored at the dock behind Fifth Dormitory at two-fifteen, three hours after the anchor was weighed for the return trip.

V.P.I. NON-GRADUATES STAGE COMMENCEMENT

About fifty members of the class of 1926, who are positive that they will not graduate this June, will hold non-graduating exercises on the morning of June 8th at the hour of the real exercises. These non-graduating exercises are creating much interest, for they will be the first of their kind in the history of V. P. I.

Mr. R. C. Whitsett, of Plank and Whitsett, Inc., will deliver the address of the occasion and give diplomas which state that the holders of the pseudo-sheepskins have not graduated without honors, but have managed to hang on for four long and strenuous years. Sidney Kelly was charged by the non-grads with the salutation, while Joe Watkins will review the past history of the chosen group at Tech. The valedictory address will be delivered by Charles Pumphrey, who states that he has been on probation more than once, and has maintained an exceedingly low average.

The non-graduating exercises are not intended to reflect on the regular exercises, but were originated with the view of relieving a depressing two hours for the non-grads who must hear the cheers that might have been for them.

All that glitters is not gold. 'Tis true of the "links" I've been told, New members "glitter" as of gold. I'll call some "brass" if not too bold. —Hales Wrecks.

CRAVEN COUNTY CLUB ELECTS NEW OFFICERS

An important meeting of Craven County Club was held Monday, May 10, 1926. The purpose of the meeting, was to elect officers for the year 1926-1927. President E. G. Moore presided, and a few matters were discussed before the election of officers was held.

The final outcome of the election is as follows:

President—W. L. Adams. Vice-President—J. C. Davis. Secretary—G. R. Scott. Treasurer—C. E. Hibbard.

ADAMS NEW PRESIDENT CRAVEN COUNTY CLUB
The Craven County Club met Monday, May 10, to elect officers for the year 1926-27.
Before the election, a motion was made and carried that Craven County students who did not pay their dues would not be eligible for membership until they had paid in full.
The officers elected for next year are: W. L. Adams, president; J. C. Davis, vice-president; T. R. Scott, secretary; and C. E. Hibbard, treasurer.
This meeting concludes a very successful year under the leadership of E. G. Moore. Plans for next year are to make 1926-27 the best year in the life of the club.

When old grads drop in—and around the fire experiences of then are fondly retold. —have a Camel!

WHEN famed men return. And by dancing firelight they relate their stories of old—have a Camel!
For Camel helps all men who rise proudly to rise higher and more jauntily. Camels never harm or tire your taste, no matter how plentifully you smoke them. You'll never find more friendly flavor than you get in Camels.
So this night when those from long ago return to think of the roads that join. As you see in their past your future unfold, then zestfully taste the smoke that's prized by the world's experienced.
Have a Camel!

Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and Domestic tobaccos. The most skillful blending. The most scientific packages. No other cigarette made is like Camels. No better cigarette can be made. Camels are the overwhelming choice of experienced smokers.

METCALF EXPERIMENTING WITH HARMFUL INSECTS

Works With Corn Plants and Tobacco Fleas; To Visit Washington Library

Dr. Z. P. Metcalf visited the experimental test farm at Willard, N. C., Saturday, May 15.

Dr. Metcalf is supervising some experiments on the corn root worm. Certain plants of ground are treated a certain way, while others are left as checks. In that manner the insect is being studied by Dr. Metcalf and control measures are being tested out.

On Monday he visited the test farm at Oxford, N. C. The experiments there are being run on the tobacco flea beetle. The system of tests are conducted here the same as at Willard.

Dr. Metcalf left for Washington, D. C., on Wednesday night. While there he will look through the U. S. Congressional Library and the U. S. Department of Agriculture for publications relating to those particular types of insects on which he is doing research work.

From Washington he will go to Philadelphia to seek more information relative to insects that he is studying here. He is expected to return the first of next week.

STATE REPRESENTED AT COLLEGE DAY EXERCISES

A. M. Fountain, of the English Department, made a short speech on the importance of higher education at the "College Day" program held by the Parent-Teachers Association for the members of the senior class at Lexington last Wednesday. Besides this talk from a State man, students from Carolina and N. C. C. W. were also on the program.

LOVE AND LIFE

The shining day that passes on and under,
The night that rushes out in Black and Wonder,
The night that with a single star does still the soul
With its maze of mysteries that wash and roll!
The myriad lights that shoot deep down in beaming glory,
The silent plains, and star-lit woods, and mountains lean
And gaunt and hoary;
Or be it the bright eyes of Beauty, or the joy they bring,
Or the curly leaves that wind in spring,
Or the worlds around the sun that swing,
There is Spell and Wonder in everything!
As a child intent who scales a wall's bare height
And with bursting, trembling wonder and delight
Feasts eager eyes. So at the infinite dreamy hues that Life does wear,
I look with hushed breath—and wonder, wonder everywhere!

MARY BLAND SILER.

Nick Avery and Tincy Mitchell were visitors in Oxford Sunday.

Burk Parker was on the campus last week-end, visiting friends and fraternity brothers.

E. A. Feimster was a visitor at the Kappa Sigma house in Chapel Hill last week-end.

F. S. Hardee and R. M. Hardee of the University spent the week-end at White Lake.

Henry Roan and Doug Scales were on the campus last week-end, visiting friends and fraternity brothers.

Henry Kendall left Sunday for Wolford College to investigate a local fraternity there.

Monte Wilkes was a visitor in Greensboro Sunday.

Mr. T. C. Hartle, of Winston-Salem, spent last week on the campus with F. K. Fogleman.

J. J. Wright and Jeff Davis spent last week-end in Greensboro.

Freshman George Thomas, R. V. Brice, and A. E. Rook drove to Richmond, Virginia, over the week-end.

S. V. Blanchard and R. J. Albright spent the week-end on the campus.

George Hackney motored to Greensboro last week-end.

H. H. Burroughs, H. Phillips, and W. F. Bell spent the week-end in Greensboro.

Freshman Dick Bogette spent the week-end in Dunn, N. C.

J. B. Edwards, who graduated in Chemistry last term, was a visitor on the campus Sunday.

MAY DAY FETE TAKES BOYS TO SAINT MARY'S

Many of the State College students were present at the May Day Fete, given on the St. Mary's campus by the St. Mary's girls Monday, May 17, at 11 a. m.

This was a very unusual opportunity for the boys, because it is very hard for them to get on the campus. The short program was nicely carried out and was enjoyed by every one present. The attendance was not what it would have been had the boys been off of classes. Some of the State College men, however, made it a point to be there, regardless of classes.

C.E. SOCIETY HOLDS BANQUET TUES. NIGHT

The Civil Engineering Society held a banquet Tuesday night, May 11th, at New Tea Room, at which time officers for next fall were elected.

Dr. Riddick, Professor Mann, Professor Tucker, and Professor Jamison were present, and all made talks in which they gave advice and their best wishes to those of the boys who are graduating this year. Several of the Seniors also had a few interesting words to say. "Red" Beam was foremost among those who cracked the jokes, and Professor Mann, who is generally serious, surely did his share of the laughing.

After that, officers for next fall were elected. K. V. Wainwright was elected president; R. R. Trevathan, vice-president; F. M. Chedester, secretary and treasurer; J. P. Clifford, reporter, and F. T. Green, sergeant-at-arms.

The senior member to represent the society in the Engineering Council is President Wainwright. It was decided to put off the election of the junior member until next year.

Sigma Nu House Party Dance At Chapel Hill

Tri-Chapter Banquet and Festivities of Fraternity Are Great Success

Last Friday night, at the Carolina Inn in Chapel Hill, Beta Tau Chapter, N. C. State, and Psi Chapter, Carolina, of Sigma Nu Fraternity, entertained at one of the most delightful dances of the season. The girls—a ballroom full of them—were the outstanding feature of the dance. The Tarsonians from the University played from 9:00 till 1:00, hours filled with enjoyment for all present.

Girls from far and near graced the occasion with their presence. About fifty were guests at the Sigma Nu house, and many others were visiting in town.

The decorations were simple and dignified. A large Sigma Nu badge, four feet in diameter, built especially for the occasion by Murray Crawford of State, was illuminated and given the most prominent position in the ballroom; this was the feature of the decoration scheme.

The figures, led by Joe Moyer with Devries Davis and Everett Huggins with Elizabeth Barber, was one of the most original ever executed at a local dance. The couples filed down the steps at the entrance to the ballroom and divided, half going to the right and the other half to the left; after circling the room the couples met at the end and glided snake-like over the floor, finally ending by the formation of the Greek letters, Sigma and Nu. During the figure the girls were presented with beautiful butterfly purses of white kid, with the seal of the fraternity in gold mounted on the strap.

There were two no-break dances for Sigma Nus during the evening while the orchestra played songs of the fraternity.

The choice collection of girls and the festive spirit of the occasion made up overwhelmingly for the crowded condition of the floor, and the dance, throughout, was thoroughly enjoyable. Delicious refreshments were served to the dancers during the evening.

A Sigma Nu banquet was held in the Carolina Inn, Saturday night, in honor of girls who were house guests during the week-end. Mr. Archibald Henderson served as toastmaster. There were several short speeches after the banquet, featured by a speech

ALUMNI NOTES

(Observations and Communications of Zippy Mack)

The review of the State College regiment last Tuesday and the closing remarks of Captain Lee to the Seniors, in which he promised that they should be called out no more this year for military formation, recalled once more to our minds that the year is about done, and that another bunch of alumni are just about completed. The sadness that comes to the students at your loss is more than made up by the gladness of the alumni in having you with them.

Mr. and Mrs. E. W. Simpkins announce the marriage of their daughter, Sadie, to Mr. George Luther Winchester, New Bern, North Carolina, Saturday, May 15, 1926.

Mrs. Winchester is a graduate of E. C. T. C. and since her graduation has been in public school work in Craven County. She was at State Summer School in 1923.

Mr. Winchester is a member of the Vocational Class of '22, and since his graduation has been with the college, till this year, when he has had charge of the agricultural instruction at Stanfield High School. He had as his best man his brother, Robert B. Winchester, State College senior. Mr. and Mrs. Winchester will make their home in Stanfield.

Mr. E. D. Cody, of the '25 Vocationals, was a visitor during the week-end. Cody is now doing farm demonstration and club work in one of the western counties, and is having great success.

Mr. F. B. (Bruce) Mewborn, of the '24 Textiles, was on the campus recently visiting friends and fraternity brothers.

Mr. H. H. (Red) Weaver, of the '22 Civils, was seen Wednesday in Lexington. He spends most of his time in his paving business in the Sand Hill section of the State.

Mr. J. G. (Guy) Stuart, of the '20 Agriculturals, was on the campus Thursday visiting his two brothers, Messrs. L. M. and P. L. Stuart, of the Junior Class.

By Dr. Chase, President of the University, and a humorous speech by "Kyke" Kyser.

Washington Duke Scene Of Kappa Alpha Dance

Enjoyable Occasion Well Attended by Raleigh Girls; Local K.A.'s Present

The Carolina, Duke, and N. C. State chapters of the Kappa Alpha Fraternity were hosts at a delightful dance Friday evening, from 9:00 until 2:00 o'clock. The dance was given in the Washington Duke Hotel, in Durham. The Washington Duke orchestra furnished good music.

There were a number of Raleigh guests present, among whom were the Misses Mary B. Wilson, Margaret York, Elizabeth Barber, Letitia Mason, Caro Fish, Anne Elizabeth Houston, Betty Rose Phillips, Margaret Crowder, and Lulu Wynne.

MR. BRIDGES IMPROVED

Mr. W. S. Bridges, Instructor in Automobile Mechanics, who has been ill at Rex Hospital for the past ten days with a slight case of appendicitis, is able to be out again.

Mr. Bridges was a member of the class of 1919. He is well known about the campus, and his many friends are glad to see him out again.

Chi Tau Fraternity Dance At Greensboro

Club Scene of Brilliant Social Function; State College Well Represented

The North Carolina Chapter of the Chi Tau Fraternity gave their annual dance Friday evening, May 14, at The Jefferson Standard Country Club in Greensboro. There were about 400 guests attending from all over the State. Something like 100 of these were from State College.

The club was beautifully decorated with cut flowers, most of these being red and white roses, the fraternity flowers. Both rooms of the club were thrown open to the guests, which furnished a delightful place for dancing.

Music was furnished by Charlie Broghman's orchestra of Greensboro.

Wife: "I'm sick of being married."
Hubby: "So's your old man."

Rings the beauty of the Scarlet Tanager

Costliest Point to Make
Most Economical to Buy
For it's Guaranteed if not misused for 25 years
We pay \$2,340 a pound for the Tipaloe—selected Iridium—hardest metal known.
We fuse it by hand into a point of Gold, and polish it to jewel-like smoothness.
We skillfully temper the point to yield to any hand, yet resume its original shape, so no style of writing can distort it.
It is magnified many diameters, and five times inspected by Parker experts.
Barrel of Rich Black and Gold, or Black-tipped Lacquer-red—handsome to own, hard to mislay.
Try the Parker Duofold at any good pen counter.
