AGRICULTURAL MEN COMPLETING PLANS FOR ANNUAL FAIR

To Be Held In Connection With
State Fair; Will Last
Three Days

PARADE HELD ON TUESDAY

Keen Competition For the Best
Float; Poultry Department
Winner Three Years

Working overtime now, students and officials are getting things in shape for the greatest Students' Agricultural Fair yet. The fair will be held in the State Fair Grounds this year during the State Fair, and will be observed by all North Carolina.

Agricultural Hill is fairly alive with work on floats and exhibits. Departments are working behind closed doors, and when the great State Fair parade goes down the street it is certain that the Students' Fair section will make apologies to no one.

The Students' Fair and parade have been a thing of beauty and a revelation to the people of Raleigh, and a source of pride to the Agricultural students for many years, but in their efforts to have a greater State College it is felt that all North Carolina should have an opportunity to see what the School of Agriculture is doing for the students and the benefits the State will receive in the future from training Agricultural men.

The premium list is larger this year, which will insure much individual competition, but students are giving unselfishly of their time and labor on departmental exhibits in their greatest effort to "Sell State College to the people of North Carolina."

Brooks Literature Club Reorganized

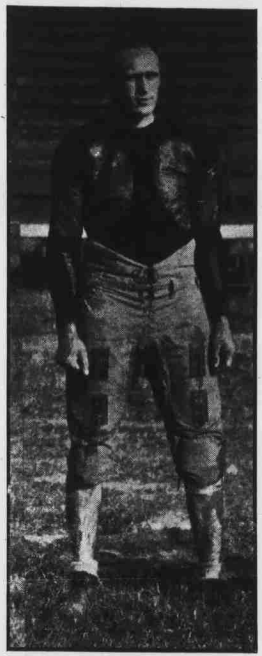

Old Members Will Be Asked To Be-
come Charter Members of the
New Organization

Thirteen old members of the Brooks Literature Club met with Professor Clark, of the English Department, Tuesday night in his classroom for the purpose of reorganizing the club of last year. At this meeting all seemed to be intensely interested in the reorganization of the club, and contended that the club of last year should be placed on a firmer basis by drawing up formal constitution and set of by-laws.

Discussion was freely given the subjects of what the constitution and by-laws should contain. A committee was appointed, headed by M. W. McCulloh, to frame the constitution and by-laws and present them to the club at its next meeting for adoption. The time of the next meeting was set as Monday, October 12th, at 12 o'clock, in Professor Clark's classroom. All members who were present at the meeting Tuesday will be taken in as charter members, as well as those old members from last year who are interested in the welfare of the organization and who present themselves at the next meeting as desiring to be charter members. Those who do not appear at this meeting will have to be taken in as new members later.

Membership this year will be restricted to members of the Sophomore, Junior, and Senior classes who have taken one quarter of literature work in college, or at the time of being taken in are enrolled in one of the present literature courses.

Plans for the coming year were discussed, and the possibility of the club becoming a member of one of the national literary fraternities was brought up.

WALTER SHUFORD

Tech fullback who scored against Duke and played one of the best games of his career last Saturday.

Promotion Force Organized To Aid Y.M.C.A. Program

Currie Anxious to Have All Who
Are Interested Take Part
in Program

The Promotion Force of the Y. M. C. A. was organized Monday evening at 6:30 with thirty charter members. Many of the charter members were former members of the Friendship Council or the Freshmen Friendship Council. The officers of the Y. M. C. A., according to the constitution that was adopted by the Promotion Force, shall be the officers of this new organization.

The purpose of the Promotion Force of the Y. M. C. A., as stated in the constitution that was adopted for this organization, is:

1. To lead students to faith in God through Jesus Christ.
2. To lead them into the membership and service of the Christian church.
3. To promote their growth in faith and character, especially through Bible study and prayer.
4. To influence them to devote themselves with all Christians to making the will of God effective in human society and to extending the kingdom of God throughout the world.

In other words, its purpose is identical with that of the Y. M. C. A.

The Promotion Force is to work and cooperate with the Y. cabinet. The policies of the Y. M. C. A. are, in the future, to be formulated by the Y. cabinet and carried out by the Promotion Force. But this will be done only after the Cabinet and Promotion Force have agreed upon these policies.

This new organization, although very much like the Friendship Council, was named the Promotion Force of the Y. M. C. A. for the following two reasons: First, to avoid confusion between it and the Freshman Friendship Council; second, an organization similar to the one that has just been organized existed and proved to be very successful on the campus five years ago, and it was called the Promotion Force of the Y. M. C. A. If such an organization proved successful under this name several years ago

(Continued on page 5.)

TECH AND TAR HEEL PREPARE FOR ANNUAL FAIR WEEK CLASSIC

Carolina Will Endeavor to Re-
peat Victory of the Past
Three Years

EXPECT A RECORD CROWD

State Supporters Believe Tebell
Has a Machine That Will
Defeat Carolina

When Tech meets Tar Heel, fire is sure to fly. For that reason there should be a real conflagration down on Riddick Field next Thursday.

Carolina, with three successive wins to their credit, will invade the Wolfpack's territory in an endeavor to make it a fourth. State, with three defeats to get revenge for, is determined it shall only be the first of a string of N. C. S. victories. Last year the Chapel Hillians lacked four points of repeating their win of two years ago. Next Thursday they are expected to lack seventeen or more points of getting the score they had in 1924.

Bruises and cuts in the South Carolina scrimmage are said to incapacitate the University backfield at present, and the Duke contest tomorrow will probably bruise them up some more, if Duke plays like they did against State. These men will, however, most likely be in excellent condition by October 15.

Jack McDowell, recently the victim of blood-poisoning in his passing arm, is back in uniform regularly now, and, unless hurt in the contest with the Gamecocks should be in tip-top form for the Fair Week classic. All the rest of the Techmen are in good shape and should be ready to put up the scrap of their lives next week.

Comparative scores, while admitted to be useless, are always quoted when comparing two teams, and plenty of scores can be had by tomorrow night. State clearly showed her superiority over Duke last Saturday, by her 13-0 victory, while Carolina was able to take advantage of a break to win from South Carolina, 7-0. With State and Chapel Hill swapping opponents for this week-end, it is not believed that either team will have an easy time. Duke will give the University a scrap from beginning to end, and the result will not be certain until the last whistle has blown. The Wolfpack and Gamecocks are rated as being evenly matched, and breaks will probably settle the issue, as it did last Saturday for the Tar Heels.

The largest crowd of the season is expected to attend the coming encounter, and seats have already been provided for about 10,000 people.

MRS. MOORES WILL LEAVE "Y" NOV. 1st

Many Friends Among Students;
Will Make Her Home In
Norfolk, Va.

Students here will learn with regret that Mrs. Margaret R. Moores, office secretary of the College Y. M. C. A., is leaving November the first.

Mr. Moores has received a fine position at Norfolk, Virginia, which makes it necessary for them to move there. Mrs. Moores has a host of friends in Raleigh, and especially at State College, where she will be greatly missed. She has always given kind words and helpful advice for every student here, whether he wanted work, information, or was blue and homesick. The student has always left her desk with a better feeling towards every one.

Mrs. Moores has been with the Y. M. C. A. here since September, 1923, the present Junior Class and she being "Freshmen" together.

Although the fellows hate to see Mr. and Mrs. Moores leave, they wish them every success in their new undertaking.

JACK McDOWELL

The tricky young halfback who kept the crowd at Duke guessing last Saturday.

Reporters' Club Be Organized By Technician Staff

Eligibility Rules Based Upon
Ability and Interest of
Candidate

Plans were formulated for the organization of a reporters' club at the regular meeting of THE TECHNICIAN staff held Monday in the Y. M. C. A. For some time the members of the staff have been considering the feasibility of such an organization, and the final plans were laid at the recent meeting. The purpose of the new club will be to stimulate interest in newspaper work on the campus.

Any member of the student-body is eligible to try out for the club. The requirements are that the applicant must have had published three stories of not less than 300 words each this year, these stories to have been selected on a competitive basis. He must also be a regular contributor. A provision will be written into the constitution which will automatically drop any member who ceases to function.

Since there are only three or four men who have qualified up to the present time, it was thought best to defer the actual organization of the club until more men have had time to submit stories. It is expected that within the next two or three weeks several men will have qualified, and the final details will then be worked out.

SAMPSON COUNTY CLUB INITIATES 7 MEMBERS

The Sampson County Club met Tuesday night, September 29, for the purpose of initiating new members. The seven men joining the club were: J. M. Royall, Y. D. Boney, T. N. Cooper, H. G. Talbot, A. C. Williams, A. A. Maynard, and T. L. Carr.

The old members who are back this year are: E. T. Howard, W. T. Eldridge, O. L. West, E. W. Zimmerman, and H. J. Carr. This is the second year of the Sampson County Club, and this year's membership is double that of last year.

ANIMAL HUSBANDRY JUDGING TEAM WINS AT THE VIRGINIA FAIR

Score 2,767 Points to Opponents'
2,746 at Inter-State
Contest

H. M. ADAMS HIGH SCORER

Team Composed of H. M. Adams,
J. E. Foster, J. E. Gibbs, and
G. W. Cline

Scoring 2,767 points against 2,746, the North Carolina State College Dairy Cattle Judging Team defeated V. P. I. in the annual interstate judging contest held at the Virginia State Fair, Richmond.

The North Carolina team, composed of H. M. Adams, J. E. Foster, J. E. Gibbs and G. W. Cline, was coached by Prof. F. M. Haig. Mr. Adams was high man in the contest, winning four first places and scoring 787 points out of a possible 900.

Six classes of cattle, consisting of Holstein bulls, Holstein cows, Guernsey cows, Guernsey heifers, Jersey cows and Jersey heifers, were selected from the fine show herds at the Virginia State Fair for the students to judge.

In addition to placing the above classes of cattle, the contestants were required to give oral reasons for their placings on all cow classes.

Prof. A. O. Borland of Pennsylvania State College was in charge of the contest and conducted it in a most excellent manner.

The State College men composing the winning team representing North Carolina are members of the Senior Class in Animal Husbandry Stock Judging. In the spring of their Junior year the four students who were selected to represent State College made the highest average grades during the course in judging, and have been put through an intensive training period since the beginning of the college year, September 15.

Students Occupy Lower Bleachers

Impossible at Fair Week Game For
Students to Sit Outside Own Area
Without Buying Extra Tickets

A new ruling by the Athletic Committee states that the students will occupy the first six rows on the west side of the field for the Fair-week game. It also states that tickets will be given to students at the entrance to the field. This will make it impossible for anyone to exchange a student ticket for a seat in any other section. This ruling has been criticised somewhat by a few of the boys who wish to sit with friends during the game, but who do not care to sacrifice their student tickets.

Mr. Miller states that the arrangement was made to prevent "scalping" by some individuals, who are always willing to take advantage of such opportunities. Following is the statement given by Mr. Miller:

The section reserved for the student holders of the Coupon Book are the first six rows in the west bleachers. The student will enter the student gate at the north side of the field on presentation of his coupon book. A seat stub will be given him in this section reserved for the student body. The tickets will be distributed from the middle out toward the ends. The first to call for their tickets at the gate will, of course, receive the seats in the middle; those calling late will receive seats toward the ends of the bleachers.

(Signed) J. F. MILLER,
Director of Athletics.

Editorials

The first-year "Devilets" at Duke certainly know how to yell.

"Wright writes right," some one said the other day, speaking of our associate editor.

Down at camp this summer we shot the bull's-eye. Around here we spare the eye.

It is now a matter of history that when the Blue Devils met the Wolf-pack they blew.

Next week is Fair Week! We confess we are eagerly awaiting the red lemonade and sword swallows.

Then there's the horse races and fireworks, the auto polo and the brass bands. We have also heard something about a football game to be played here Thursday.

"P-Leg" Shaw says the reason that he carries so many books around the campus is because it is easier to carry his education in his hands than to carry it in his head.

In the issue of September 18 there appeared a humorous sketch signed "Your Co-ed." On another page of the same issue a news story stated that Miss Martha Andrews of Raleigh, was the only regularly registered co-ed here. The implication was that Miss Andrews wrote the sketch; but such was not the case. The writer, however, is taking one or two courses, so was justified in signing her piece as she did.

A GREAT HELP

Doubtless many of our readers noticed a substantial increase of live news in the issue of last week. This was made possible through the cooperation of the Journalism Department. This department has always shown a willingness to aid the student publications in any way possible. Through a large class of students in Journalism we are able to get many stories of interest about the campus which we would not otherwise get. This is a real contribution to our paper, and we desire to publicly thank the department for this help.

SELLING STATE COLLEGE

A rumor has recently penetrated our sanctum which uncovers a scheme to sell State College to the merchants of Raleigh or elsewhere who care to buy a share of our birthright. The plan is to commercialize the new fence which has recently been built along the south end of our athletic field. Just how far the plans have developed we do not know, but our best information is that it is now before the president for final decision.

Where are we? and whither are we going? Do we understand that the North Carolina State College is not able to build a board fence 80 yards long without selling space on it for advertisements? Will we convert our campus into a motley array of signboards which loudly proclaim the virtues of Chesterfield cigarettes? Where are our landscape architects? Will they allow such a thing to occur under their very eyes and not raise a murmur? A news story recently appeared in the papers stating that a committee from the University and State College had been appointed by Governor McLean to beautify the grounds of the State institutions. We must say that to our minds this is an insult to the governor and his committee.

It is possible that the project has been killed already by our president, in which case we are guilty of undue alarm. However, we have no assurance that such is the case. It is better to lock the stable before the horse is stolen.

FOOD OR DRUGS?

Should the boarding department of State College give us food or drugs? We ask this question in all sincerity. We ask every student. We ask those who have charge of the dining hall. We ask the officials of the institution. Let us not be misunderstood. We are not complaining about the food. The question we wish to raise is regarding the primary functions of a dining hall. Is it a place to eat food without fear, or is it a self-appointed drug store where medicine is handed out to the unsuspecting individual at any time suitable to the proprietor?

This condition has been prevalent here since our entrance. During some years it has been worse than others. From the present outlook this year bids fair to break all records in the consumption of "mess-hall medicine." We are not prepared to name the specific drug or dope which is put in the salads and other foods which are served to us. That is a matter of little consequence. The fact remains that something goes into the food once or twice a week. Because the students have stood for it so long does not lessen the seriousness of the question in the least. It only tends to make the practice more disgusting. If these opinions are ours alone, then the gossip heard in local "bull sessions" does not have any weight, for we have heard several boys discussing this matter.

If our dining hall was operated by a private concern for profit, we would say eat their offerings or move on. However, this is not the case. It is a part of the institution, and is run for the benefit of the students here. With this in mind, we claim that the wishes of the patrons should be given just a little consideration. The dining hall is maintained by the State, and it seems rather unfair to tell a boy to "check out" because he does not care for a dose of "something" once a week, when this boy needs to utilize every possibility to save money. And many are tolerating this state of affairs simply because they feel unable to eat elsewhere.

We do not completely forget the problems of those who have charge of the dining hall. In some cases we complain about the bill of fare, but as a rule we think it as good as other colleges give for the same, and oftentimes a higher price. This is no charge of inefficiency. It is merely a protest against the custom of smuggling certain kinds of medi-

cines into the bodies of some thousand boys, and doing this under cover of salads and fruits.

Fairs are like circuses, they never grow old. "Come right up close and see the wild man" has an appeal for old and young alike.

Evaporated Bull

First Degree Ignorance

Is the rising generation ignorant of what goes on around it? It would seem so. American high school and college students demonstrated only too plainly a rather sketchy knowledge of current history in their answers to a test recently sent out by the Review of Reviews. The general average of intelligence—if such it may be called—was 42 per cent, and many of the less erudite schools with really low marks did not send in their reports. One high school was 14 per cent correct. All this causes the close observer to wonder mildly whether these youths were trying to fool the public or only having an off day.

It develops that some students identify "Ma" Ferguson as the President of Mexico. Others, again, say that "Ma" Ferguson is "Babe" Ruth. The Teapot Dome was thought to be a building in Washington. This is bad. Also it is a grievous mistake to confuse, as some did, Mussolini with "Battling" Siki, Al Jolson and "Billy" Sunday. But when an aspiring student declares himself convinced that the United States has purchased Japan, then it is time to call a halt. This, my dear, Watson, smells like an attempt at humor.

It has been observed—and regretted—that we are a generation of newspaper readers. If so, the Review of Reviews' test would seem to prove that a great many high school pupils—yea, even some few college youths—read the less instructive parts of their newspapers. Too many of them seem to concentrate on that part of the paper dealing with such momentous questions as to whether or not "Babe" Ruth's waist line is expanding. Others devour stories of the bobbed-hair bandit. If students must read newspapers, why wouldn't it be a good idea to read that section of the paper devoted to news and editorials? — From Boston College Heights.

JUNIORS ELECT RING COMMITTEE CHAIRMAN

The Junior Class met on the evening of October fifth for the purpose of selecting a Ring Committee. This committee will have the responsibility of procuring the Senior rings for the class.

The meeting was called by President J. F. Matheson, who stated the purpose of the meeting, mentioning the fact that he as president of the class was receiving bids from several companies who desire to furnish the rings. W. E. Wilson was elected as chairman of the committee. The class voted to have him appoint his assistants, and he immediately appointed J. L. Campbell of the School of Engineering and R. R. Fountain of the School of Agriculture. All three of these men have been identified with many class activities, and it is believed that they will make a capable and efficient ring committee.

This Week's Limerick

by ZIPPY MACK

When we met the Devils of Blue,
They wondered the things we could do;
So we circled the ends
Of our ugly-named friends
For a touchdown, and then made it two.

Student Forum

Are We Getting Our Money's Worth in the Dining Hall?

What is the real cause of the poor fare we are receiving at the dining hall? Is it true that we are getting our money's worth in food? If so, some one should at once get up a petition saying that we are willing to pay at least \$22.50 for board if it will improve conditions. In the long run it would be cheaper for the students if they got board at \$22.50 that would satisfy their hunger than it is under present conditions.

Carelessness in preparation and lowness in quality, especially true with meats, together with a "scanty allowance," has caused quite a few of the students to acquire the habit of eating between meals. This is an expensive and health-destroying habit that is sure to be formed when the victim cannot satisfy himself with wholesome food at the table.

This problem is worthy of the consideration of the entire student-body, and the writer feels sure that a petition gotten up to solve this problem by advancing the board rate would be adopted unanimously.

E. B. CAMERON.

About Student Tickets for State-Carolina Game

To the Editor:

As the Carolina-State game draws nearer and nearer the students are waxing hot with anger over the seating arrangements for this year's game. Many students have gone down to Coke's and requested their student's ticket exchanged for a regular ticket, in order that he could secure two seats together. In reply to his request he is sent back to college to get an exchange for his student's ticket. When this is requested, the student is flatly refused an exchange. Then the trouble starts!

The student faces this problem: He has paid \$10 a year for admission to the athletic contests—forced upon him if he enters college. Of course, this is a greatly reduced price, but one should also consider the many poor games that are uninteresting and unattended by many students during the winter months. When the most important game is to be played, then the student is dealt a gross injustice, in that he must sit with the student body—not near it—otherwise, he forfeits his student's ticket. This necessitates paying \$4 if the student wishes to get two seats together, and his student's ticket goes to waste.

Then the question arises: Why can't I exchange my student's ticket

Red fell—now it's his nurses.

Somebody says the editor would make a good judge. His favorite expression is "Ten dollars, please."

Mr. Siddell says that the only reason some of you fellows haven't broken his camera is because we break you first.

He wants us to have another time to collect money so you won't have such a pained expression on your face when you have your picture made.

Our dates for making pictures were cut a day short, so we were rather rushed toward the end of the week. If you failed to get an appointment, see the editor and he will arrange for you to go to the studio.

Proofs for pictures will be returned all next week at the rate of about 100 per day. The Agromeck office will be open every afternoon from 4:30 to 6, and every night from 6:30 to 8. Please call for your proofs by your proof number.

If you failed to get a questionnaire when your picture was made, please come by the Agromeck office during the next week and fill one out. Those who took the questionnaires with them, please return as soon as possible. You will have another opportunity to add to your list of honors just before the book goes to press. Which reminds us, we are having a double-page questionnaire printed for "Pop" Taylor.

for a regular ticket, so that I may procure another ticket and take a friend? There are between three and four hundred students, today, asking the above question. And it is up to the authorities to answer it "satisfactorily."

When the students of State College contribute between \$12,000 and \$13,000 each year for the support of athletics, then they are due first consideration. And this they have not received this year. We shall be handed this year as if we were a flock of irresponsible, passive sheep.

Another objection has also come up, and it is: How are we going to cheer in volume and unison when we are only five or six deep and strung from one end of the concrete bleachers to the other? Some arrangement, I must say!

Somebody (the ones who are responsible) ought to use a little hard,

NAME OFFICERS STATE REGIMENT

All Cadet Officers Are Named, With Every Senior Getting Recognition

The appointment of all cadet officers at N. C. State College were made last week by the Military Department of the institution, and have been approved by Dr. E. C. Brooks, president of the college.

All members of the Senior Class have been appointed either commissioned or non-commissioned officers for the remainder of the college year, at the end of which time the majority of them will be commissioned as second lieutenants in the Officers' Reserve Corps. Members of the Junior and Sophomore classes have been appointed to the lower non-commissioned officers. All officers will be assigned to their units.

The names of the men who have received commissions are as follows:

For the regimental headquarters and staff: R. T. Green, Oswego, S. C., colonel; F. W. Jones, Rochester, N. Y., lieutenant-colonel; J. B. Dotterer, Charleston, S. C., adjutant, with the rank of captain; G. L. Uzzle, Louisville, Ky., captain of plans and training; C. L. Shuford, Arden, captain and athletic officer; C. A. Davis, Bessemer City, captain of the band; B. L. Vick, Kelford, captain of rifle team; C. M. Stone, Charlotte; first lieutenant of the band; A. S. Davis, Stovall, first lieutenant of the band; C. C. Correll, Mebane, first lieutenant of the band; H. R. Logan, Asheville, second lieutenant of the band; E. G. Moore, New Bern, second lieutenant of the band; W. F. Tew, Dunn, second lieutenant of the band.

For the First Battalion Headquarters: R. M. Shuford, Hickory, major; B. K. Matthes, Wilmington, first lieutenant and adjutant.

For the Second Battalion Headquarters: V. W. Smith, Savannah, Ga., major; E. H. Cranmer, Southport, first lieutenant and adjutant.

For the Third Battalion Headquarters: R. E. Black, Piney Creek, major; W. L. Horne, Mt. Gilead, first lieutenant and adjutant.

The company officers of commissioned rank were announced as follows: A. H. Thomas, Durham, captain; B. F. Potter, Vandemere, captain; R. M. Currin, Oxford, captain; D. M. Bailey, Neuse, first lieutenant; T. L. Bennett, Greensboro, first lieutenant; E. V. Hancock, Scotland-Neck, first lieutenant; McK. McKinnon, Maxton, first lieutenant; C. W. Mason, Raleigh, first lieutenant; W. T. Brown, Charlotte, first lieutenant; W. E. Plott, Canton, second lieutenant; F. S. Pritchard, High Point, second lieutenant; W. P. Shuford, Arden, second lieutenant; J. E. Fletcher, captain; H. W. Taylor, Wilmington, captain; D. O. Proce, captain; W. C. Creary, De Funiac Springs, Fla., first lieutenant; E. R. Thompson, Lake Waccamaw, first lieutenant; H. L. Harris,

Raleigh, first lieutenant; E. E. Hood, Zebulon, first lieutenant; S. H. R. Hassell, Greensboro, first lieutenant; J. E. Griffith, Charlotte, first lieutenant; R. A. Isley, Burlington, second lieutenant; G. B. Cline, Lincolnton, second lieutenant; J. C. Farmer, Bailey, second lieutenant; O. V. Tally, Angier, second lieutenant; T. G. Morton, Oxford, captain; E. O. Moody, Biltmore, captain; H. D. Middleton, Warsaw, captain; J. G. Weaver, Asheville, first lieutenant; W. F. Sanders, Belmont, first lieutenant; L. Picklesimer, Sylva, first lieutenant; B. A. Horne, Monroe, first lieutenant; M. Sumner, Asheville, first lieutenant; F. P. Dickens, Enfield, first lieutenant; C. V. York, Raleigh, first lieutenant; T. W. Church, Ronda, first lieutenant; C. D. Gaddy, Jonesboro, second lieutenant; G. A. Munn, Biscoe, second lieutenant; R. P. Kennedy, Statesville, second lieutenant; J. C. Modlin, Elizabeth City, second lieutenant.

Neither of the two highest ranking student officers in the unit are North Carolinians. The highest officer is from South Carolina, and the second in command is from Rochester, N. Y. The other seniors in the unit who did not receive commissions have been appointed as non-commissioned officers.

AGR. ADMINISTRATION STUDENT LANDS GOOD JOB

M. L. Snipes, a graduate of the Department of Agricultural Administration, is now in the employ of the United States Department of Agriculture, located at Lake Wales, 62 miles from Orlando, according to a letter received by Dr. G. W. Forster. Mr. Snipes receives \$150.00 salary per month and all expenses. He is allowed \$200.00 per month for operating expenses. Mr. Snipes states that Lake Wales is a beautiful town and he is enjoying his work very much.

STUDENT FORUM

(Continued from page 2.)

common, horse sense and see that the students are properly taken care of; and with their friends. Otherwise, State will have few staunch supporters from her coming alumni.

NEILL YARBOROUGH.

Wants More Holidays During Fair Week

The North Carolina State Fair begins next week. A great deal of time and money has been spent in advertising the fair throughout the State. One of the chief points in the advertising program is the educational value of the Fair. It is claimed that one in practically all forms of business will be helped at the Fair. While our newspapers throughout the State are advising people to come to the Fair, I think they have overlooked something. State College, whose student-body is composed of men from every county in the State, is situated directly across from the Fair Grounds. These men will be allowed only one day to be absent from classes during the week of showing. If the Fair does so much good to business men, why wouldn't it help the men who will be doing business in the State in a few years?

Of course the students will get to see a little of the Fair, but the little time they have over they will not spend looking at exhibits.

Down in South Carolina the whole student-body of Clemson College will travel over a hundred miles by rail to spend a week at the fair.

Here we are, only a few hundred yards from the grounds, and will have to meet classes while the Fair is in progress.

A. F. JORDAN.

Wants Permanent Walks

When we returned to school this fall quite a little grass that had been seeded, and some that had been set, during the summer met our eye for our approval. It was and is quite pleasing to the eye. It is quite a contrast to the bare ground and mud that we stared at last winter and spring. Also there is, that was lacking in the spring, a system of walks that are well laid out and have taken care of the ramblings of the students during the past two weeks. But it has been dry. What will happen when it rains? The walks and pathways show great promise of returning again to that great turmoil of mud that last winter caused us so much worry, cost us so many shoes, and lost to those that had it, a great quantity of religion.

It is understood that the walks will some time be made permanent. Now that the pipes are laid, the ditches filled, and the landscape once more in

FACULTYFAX

A department devoted to the problem of acquainting our student body and other readers of THE TECHNICIAN with our faculty—F. H. CRAWFORD, JR.

E. B. OWEN

Mr. E. B. Owen, registrar, was born in 1872 in Davidson County, near Lexington, North Carolina. He received his first education from the local schools in that county. He finished at the old North Carolina A. and M. in 1898. For the next four years he was employed by the college as librarian, and as instructor in the English Department.

In 1903 he entered the University of Chicago. He returned here in 1905 to assume charge of the office he now holds, and which since that time he has held satisfactorily.

Mr. Owen is well known on the campus, and his popularity among the generations of students that attended the old A. and M., A. and E., and N. C. State yet remains to be excelled.

a comparatively normal condition, why isn't now the time? Building permanent walks and paths now would, at the same time, carry out the program to beautify the campus, make it very much easier to go the rounds of the various portions of the campus when winter comes.

B. F. SHELTON, JR.

ROANOKE-CHOWAN CLUB HOLDS ITS FIRST MEETING

The Roanoke-Chowan Club held its first meeting for the year 1925-26 on Monday evening, September 28.

The object of this meeting was to elect officers for the year and to initiate the new members.

The following officers were elected: C. S. Harrell—President. B. L. Vick—Vice-President. A. V. Cobb—Secretary. L. M. Green—Treasurer. W. T. Daughtry—Reporter.

After the election of officers, the following new men were initiated: J. T. Brown, J. D. Shaw, E. P. Story, J. W. Faison, D. C. Mitchell, R. H. Peele, T. C. Peele, H. W. Pantan, A. J. Vinson, R. King, R. White.

The following old members were present and took part in the initiation: T. T. Brown, M. E. Spencer, J. B. Barnes, W. T. Overby, D. T. Rice, W. C. Leary, H. Pruden, C. S. Harrell, B. L. Vick, A. V. Cobb, L. M. Green, W. T. Daughtry.

There was some discussion concerning a camp supper, in which it was suggested that friends from other colleges in the city be invited. The details of the supper will be settled the next meeting of the club.

IREDELL COUNTY CLUB ELECTS NEW OFFICERS

The Iredell County Club held its first meeting Monday night at 6:30. The election of new officers was the main purpose of the meeting.

The results of the election were as follows:

Albright R. Gresham, President. Sam Brown, Vice-President. N. G. Moore, Secretary-Treasurer. Gordon T. Gresham, Reporter.

Several new members attended the meeting and October 21 was set for their initiation. At the next meeting the date for the annual "feed" will also be decided upon.

Through the Department of Ceramic Engineering of State College a good display of North Carolina shells, structural clay products, and chemical ware were shown at the Chemical Exposition at New York City during the past two weeks in connection with the exhibit of North Carolina Department of Conservation and Development. The display of shells and products from the Sanford district were especially interesting and complete.

CROSS-COUNTRY RACE AT FAIR

Participants Must Be Amateurs Who Are Over 18 Years of Age

An event that should be of great interest to all cross-country and track men throughout the State, and more particularly the colleges, will be the annual track race at the State Fair race track on Wednesday, October 14, at 3:30 in the afternoon. This meet is open to all amateurs who are residents of North Carolina and who are not less than 18 years of age. All participants must report in front of the grand stand at the proper time and sign statement as to their amateur standing. The length of the course will be four miles.

Mr. E. V. Walborn, manager of the Fair, states that the Fair Association will award three prizes. The first will be valued at \$10, the second at \$6, and the third at \$4. Under the rules of the Southern Conference, athletes from the colleges cannot compete for money, and for this reason the awards will be other than cash.

It is desired that as many State College students enter this meet as possible, not only for the individual experience, training, and awards that they will get, but also for the benefits that the College as a whole may receive by having a large number of participants in this event.

INTERESTING PROGRAM GIVEN LEAZAR SOCIETY

Leazar Literary Society set a mark that will require much effort in the future to surpass, in grade of work accomplished at the regular meeting of the society Friday evening, October 2. From the opening of the society by the President to the motion to adjourn the proceedings was full of life, vim, and ability.

President R. J. Peeler presented the point system, which was worked out by a committee of the two societies, and it was adopted unanimously when put to a vote.

A debate, "Resolved: That American colleges and universities should abolish all forms of compulsory attendance at classes," was then held, with F. S. Hardee and W. E. Wilson contending for the affirmative, and R. R. Fountain and J. B. Britt volunteering for the negative. The judges, C. B. Brown, R. H. Reel, and J. P. Shaw, rendered a two-to-one decision in favor of the negative.

R. H. Dunlap gave some "Gold Bricks" that really were "Diamond Gems" when he finished polishing them up.

Is life worth living? According to D. R. Pace it is, and based on the applause of those present he must have made it seem so to them.

A humorous story by F. S. McCoy was enlightening, for he gave the formula by which men may have wives galore, and money too.

About one hand of strip poker would send most co-eds home in a barrel.

State Beats Duke University In Thrilling Encounter 13-0

McDOWELL PERFORMS

Game Featured by End Runs of Shuford Brothers and Jeannette

The State Wolfpack cleverly outplayed and outgeneraled the Duke University Blue Devils last Saturday to win State's most thrilling encounter of the season by the score of 13-0. Duke was outclassed in all departments of the game, and there was no doubt as to the outcome after the half.

The Herron-coached Methodists held Tebell's Wolfpack scoreless for the first half, but in the last two quarters State cut loose with an aerial attack that put the game on ice in a few minutes. Charlie Shuford broke loose for two long runs around the ends which put the Techs within easy scoring distance. Then a fake drop-kick, which McDowell cleverly turned into a 25-yard pass to Jeannette, gave the elusive little quarterback a chance to run and twist the few remaining yards to the last white line and six points for State, the first score of the game. The place-kick try for point was grounded.

The second and final score came in the last period, when Walter Shuford snagged an enemy pass out of the air and, with the aid of immediately formed interference, made a beautiful 35-yard run to the Duke one-foot line. The Duke line held wonderfully for three downs, but on the fourth try Walter Shuford completed his work by carrying the ball over for the second touchdown. McDowell passed to Jeannette for the extra point.

In the first and second quarters the ball see-sawed up and down the field with neither side having much of an advantage, except toward the last, when State's superiority began to be evident. In spite of lack of scoring, this half was by no means uninteresting, for it was full, from one end to the other, of brilliant plays of every description.

Jack McDowell and Walter Shuford were the outstanding stars of the game by virtue of their all-round playing, while Charlie Shuford and Johnny Jeannette were by no means unnoticed. The whole line worked to perfection and was right there in every play.

Webb and Caldwell were the high lights for Duke. Webb did his best work in breaking up State plays back of the line, while Caldwell was the chief ground gainer for the Methodists.

Line-up and Summary

State 13	Duke 0

Former State Stars Now In Big Leagues

Accounts of Some of Our Graduates Who Have Won Fame in Baseball

Just in the middle of the world series, when interest of all baseball fans is at fever heat, it is with pride that State College can look at her own graduates who are making good in professional baseball. Quite a number of former State athletes are drawing their checks from baseball clubs. Among these are George Murray, pitcher extraordinary, now playing with Mobile; Joe DeBerry, Murray's teammate, is now pitching for Louisville, champs of the American Association, and is one of their best batters in the present "Little World Series"; Dick Burrus, first baseman on the team with Murray and DeBerry, played for the Boston Braves the past year and turned in an exceptional batting average for a first year player. His mark was around .350 and he was among the first ten hitters. Redfean, who is remembered by present-day students, has just left the Asheville club, where he played the last two seasons for Vernon of the Pacific Coast League. This league is just a step under the majors and we may see "Buck's" name in the box score of a big league game yet. Bobby Correll, who played for State just this past year, has received a promotion in professional ball already. He has been sold by Raleigh, a class C team, to Charlotte, in a class B league. Then Red Johnson, Georgia Tech's nemesis, is catching for Winston-Salem in the Piedmont League and making a good job of it, too. Last but not least, Dave Robertson. Dave played in the time when Harry Hartzell, who all State men have heard of, was playing. Dave played center-field and batted. This last he did so well that on his entrance to the major leagues he was acclaimed the greatest straight-away hitter since Willie Keeler. Dave played good ball in his day, but as the day for most major leaguers is short Dave passed out of the leagues after a number of years of hard service. He is now manager of the Norfolk team in the Virginia league.

That is quite a record for good players to be turned out by one school, and their excellence in the sport is a good reason for the many fine ball clubs State has had.

Sellers, McIntosh for Simons, Porter for Pickens, Moss for Culp.

First downs: State, 9; Duke, 6. Passes completed: State, 5; Duke, 3. Incompleted: State, 3; Duke, 12. Punts: State, 9; Duke, 7. Penalties: State, 55 yards; Duke, 30.

Officials: Magoffin (Columbia), referee; Major (Wofford), head linesman; Gooch (Virginia), umpire. Attendance, 6,000.

STATE COLLEGE HERD REPRESENTED AT FAIR

On exhibition at the North Carolina State Fair there will be fourteen animals from the Dairy Department of State College which are now being prepared by the students of the Animal Husbandry Department.

The greater number of these dairy cattle were winners at the 1924 Fair, while there are yearlings that have not been shown that are equally as good for show purposes.

ON THE SIDELINES

Can "Big Nick" yell? Ask Bill Studdert. —N.C.S.—

Who says Charlie Shuford can't imitate a flying corkscrew? —N.C.S.—

State total 33—opponents, 0. Not so worse, with neither team a set-up. —N.C.S.—

Greetings to "Wally" Parker and his tag-ball league. —N.C.S.—

Watch out, Gamecocks! The Wolfpack is hungry and has tasted blood. —N.C.S.—

State extends her sympathy to Half-back Bullock and Duke University for his loss to the Blue Devils. —N.C.S.—

It's too bad that first half ended before the red-jerseys had time to gain a few more yards. —N.C.S.—

When an irresistible backfield meets an invulnerable line, what happens? Jack tosses it over. —N.C.S.—

How did Wake Forest feel last Saturday? We think as blue as the Blue Devils themselves. —N.C.S.—

Wasn't it a sight for sore eyes, the way Walter Shuford pulled down and knocked down those Dukesters last Saturday? —N.C.S.—

State has a prospective hurdler for next spring. Look how Bill Studdert followed punts down the field the other day. —N.C.S.—

Question: What did Jack's drop-kick? Answer: It kicked up dust when Johnny Jennette touched it to the ground for six points. —N.C.S.—

Only six more days till Carolina comes to pay us a visit. Trust Gus Tebell and his Techs to give them a red-hot reception. —N.C.S.—

Jack McDowell handed us a surprise when he walked on the field, but that was nothing to the ones he handed the Methodists a little later. —N.C.S.—

While rejoicing in the success of the Wolfpack should we forget entirely the minor sports? Take tennis, for instance; about thirteen hundred students and not a decent court to play on. —N.C.S.—

NEW STYLE FOOTBALL NO WPLAYED ON CAMPUS

Punting and running back punts are the spectacular plays of the South End 1911 football league every afternoon from four to six. The teams work hard, getting much fun and valuable exercise.

It is believed that the boys who room in 1911 Dormitory, and particularly those of South End, put on the most enthusiastic athletic program of any on the campus.

Early in the fall term the football season opens, and the varsity on Riddick Field works no more earnestly and conscientiously than the hillside league, vaguely designated as "South End Athletic Association." Two teams are formed. As new men come out they automatically align themselves with the side having the fewer men. The ball is punted. The opposing team catches the ball, if possible. The man who catches it is allowed to advance three steps in the direction of the goal and punt. Needless to say the three steps are usually full length. The team that has the greatest catching ability has the advantage, as the ball must be

punted from the place where it is first touched, if not caught.

In the spring the football gives way to the baseball, and the athletic program is carried on with much enthusiasm.

Horseshoe pitching is also a major sport of this athletic association and reaches full development in the spring.

NEW BLEACHERS FOR USE FAIR-WEEK GAME

The corps of workmen who have recently been employed in razing the old bleachers at the north end of Riddick Field are making good progress. The old structure has been completely torn down and a good start has been made on new bleachers. The authorities are planning to have the new section ready for the Fair Week game with Carolina. In addition, the knock-down bleachers will be taken from the gymnasium and put up on the south end of the field, it is understood.

Here lies the remains of Phineas McBloom. He found the right house, but went in the wrong room.

WOLFPACK READY FOR GAMECOCKS

First Southern Conference Game of Season on Riddick Field Saturday

When the Wolfpack meets the Gamecocks here on Riddick Field tomorrow the Techs will be in a battle for revenge and also their first Southern Conference game of the season.

Junior and Seniors will remember that two years ago an intercepted pass gave State a 7-0 win over the South Carolinians, while last year the tables were turned and State lost by the score of 10-0. This year State has a practically new line-up, while the Roosters have sixteen letter men on the squad. This would seem to give them an advantage, but State's new team is a great improvement over last year's and their defeat of Duke, and South Carolina's loss to U. N. C. goes far to even things up.

The Tech coaches, it is stated, will spare nothing for the Fair week game, so a full show of power will be made here when the two meet.

One of the most favorable results of the Duke game was the excellent showing of Nicholson and Hunsucker, substitutes who bid fair to become regulars, and several other subs who played part or all of the game.

All of the backfield men showed great improvement in their work and will be mighty hard for any team to stop. Jack McDowell, the sophomore star, should be in fine condition again for this contest, and ready to pass and punt and run like in the past two games.

TAG FOOTBALL STARTS NEXT WEEK

The first intramural league to be organized as part of the fall term intramural program will be a dormitory tag football league. Tag football has become extremely popular as an intramural sport in many of the colleges throughout the country, and it is expected to receive an enthusiastic welcome on this campus.

Tag football is a modification of the varsity game, and made possible to play without the use of special equipment. The important changes in the rules are that tackling is done by TAGGING the man with the ball, and blocking can only be done when the blocker is on his feet. These two changes eliminate all possibility of injuries, and so has popularized it as an intramural sport.

Football has been placed in all the dormitories for the use of the players for practice at various times. A list of men having charge of these balls and their room numbers are as follows:

- Seventh Dormitory, L. A. Taylor, room 110.
- 1911 Dormitory, R. H. Bullock, room 133.
- South Dormitory, B. L. Wells, room 202.
- Watauga Dormitory, S. O. Alexander, room 105.
- Fourth Dormitory, Bill Carpenter, room 104.
- Fifth Dormitory, D. F. Ritchie, room 112.
- Sixth Dormitory, "Bull" Harper, room 208.

The freshman field will be reserved for practice next week, as indicated below. Help in organizing the team will be given by Coach Parker, and the league will start the following week.

- Monday, 4:30-5:30, Seventh Dormitory.
- Tuesday, 4:30-5:30, 1911 and Fifth dormitories.
- Wednesday, 4:30-5:30, South and Sixth dormitories.
- Thursday, 4:30-5:30, Watauga and Fourth dormitories.

"Annie," called her mistress, "just come into the dining room a moment. Now look at this. Watch me. I can write my name in the dust on the table."

Annie grinned: "It must be a grand thing," she said, "to have an education."

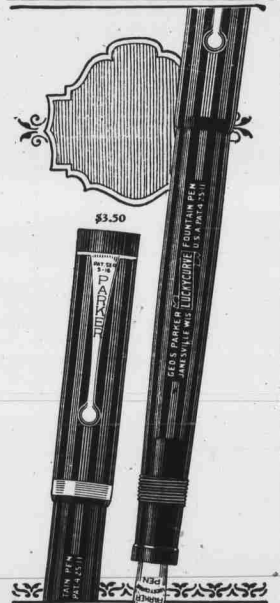

Faculty Members Active At The Fair

Will Take Part In Judging and Other Work Next Week at the State Fair

Members of the faculty of State College will be active at the North Carolina State Fair this year. Dr. Brooks is on the board of directors, while several members of the board of trustees are also serving in this capacity. Prof. R. S. Curtis is superintendent of the beef cattle department; John A. Arey is in charge of the dairy cattle; W. W. Shay is in charge of swine; County Agent George Evans, of Davie County, will judge sheep; A. G. Oliver will have charge of the poultry department; Dr. B. F. Kaupp will have charge of the egg show; W. F. Pate and Dr. R. Y. Winters will assist with the agricultural products, of which department I. O. Schaub will have charge; C. R. Hudson will have charge of the community displays; Prof. W. H. Darst and Roy Thomas will conduct the seed judging and demonstration contest; E. C. Blair and S. J. Kirby will be in charge of the corn contest; P. H. Kime will have charge of the legume exhibits; E. G. Moss will have charge of the tobacco; Prof. R. H. Ruffner will conduct the livestock judging contests; Miss Maude Wallace will be in charge of the club girls' demonstration contests; J. M. Gray will have charge of the agricultural club contests; Prof. C. D. Matthews is in charge of the horticultural department, with his associates in charge of the different classes of horticultural crops; Mrs. Jane S. McKimmon is in charge of the Woman's Building and the various culinary departments, and L. H. McKay will handle the ham and bacon show.

PROF. COOK OBSERVES TEACHING IN SCHOOLS

Mr. Leon E. Cook, Professor of Vocational Education at N. C. State College, returned last week from an observation visit with the agricultural teachers at Pleasant Garden and Alamance. Mr. H. W. Dixon and Mr. A. B. Hunter, of the Class of '25, have charge of the agricultural work at Pleasant Garden. Mr. Hunter divides his time between Pleasant Garden and Alamance. Alamance's school exhibit in agriculture took the first prize, \$200, at the Greensboro Fair. Pleasant Garden School took the second prize, \$100. Mr. Cook reported that he found the work progressing well; that the men had been on the job and working almost day and night to get ready for the State Fair.

TIE WITH WILDCATS HURTS WAKE FOREST

Davidson, not being at all satisfied with the one or two touchdown margin generally accorded Wake Forest before last Saturday's game, went on a little dope-upsetting trip down to Charlotte and gave the Demon Deacons the scare of their young lives and came mighty near to beating them, the final score being 7-7. This game, while not definitely decided either way, will throw a serious cog in Garry's championship claims in case another team, and that team should be the Wolfpack, should go through the season with no defeats and not more than one tie game to its credit. Davidson, while always considered a strong outfit, was not thought strong enough to hold the Baptist in check, and the fact that they did this will make every other team in the state certainly sit up and take notice. State meets Davidson at Davidson on October 31, so this should give some line on our game with Wake Forest, at Raleigh, two weeks later.

SOPHOMORES HOLD TWO IMPORTANT MEETINGS

Within the last week the Sophomore Class has held two important meetings. At the first meeting Jack McDowall was elected vice-president of the class, and George Wallace was elected class reporter. The second meeting was called for the purpose of discussing the present situation which exists between the Freshman and Sophomore classes. H. E. Kendall, president of the Student Council, spoke for a few minutes before the meeting about the conduct of the Freshmen. He made the suggestion that in view of the fact that the Freshmen were not being held down as they should be, that a committee should be appointed to draw up some new Freshmen rules to be added to those now in force. He also said that it would be a good plan if a group of upper-classmen would check up on the Freshmen in their rooms to ascertain whether or not they were living up to the rules, and whether or not they had learned the songs and yells. However, no punishment is to be administered on the part of the Sophomores, but all guilty Freshmen are to be turned up to the Court of Customs. The committee appointed to draw up the new rules is S. V. King, chairman; C. Z. Bailey, L. B. Alexander, and L. C. Einwick. It is expected that this committee will act very promptly and that some new rules will be enforced within the next week.
 G. H. WALLACE.

Ceramic Dept. Has Exhibit At Charlotte Exposition

Not only the department of Textile Manufacturing at the North Carolina State College, but the department of Ceramic Engineering also, had a very

splendid exhibit of structural clay products of North Carolina at the "Made-in-Carolina" Exposition at Charlotte during the past week.

In the exhibit were models of different types of walls showing the entire range of colors and mortar joints. The State's Department of Conservation and Development cooperated in this display, the cost of which was stooed by several of the larger ceramic manufacturers of the state.

PROMOTION FORCE ORGANIZED TO AID Y.M.C.A. PROGRAM

(Continued from page 1.)

There is no reason why a similar organization under the same name cannot prove more successful at the present time.

Any student that is interested in Y. M. C. A. work is cordially invited to attend, as a visitor, any of the regular meetings of the Promotion Force. If, after attending as a visitor one or more of these meetings, this student is in sympathy with the purpose of the organization and agrees to endeavor to live up to the requirements of the organization he may apply for membership in this group.

RUMORED HILLSBORO ST. BE GREATLY IMPROVED

Plans are being made to rebuild Hillsboro Street in front of State College campus. This work is to begin just after the Fair is over. The street will be widened and the street car track will be moved to the middle of the street. By this great improvement on Hillsboro Street the traffic will not be so congested as it has been heretofore.

There is also a new road being built along the opposite side of the campus beyond the Frank Thompson Gymnasium. This will cause the traffic to be less congested, because there will be two roads leading west from Raleigh.

When these two roads are complete, the people of Raleigh will be able to circle State College campus in their cars. This will enable them to get a good view of the new buildings which have been constructed and are being constructed on the back part of the campus.

WILKES COUNTY CLUB SENDS TECHNICIAN TO COUNTY HIGH SCHOOLS

The Wilkes County Club met October 5, at 6 o'clock and elected new officers for the year. James Hauser was chosen president, Tom Church vice-president, and Wayne Eller secretary and treasurer. One of the things the club decided upon was to have THE TECHNICIAN sent to all the high schools in Wilkes County. The purpose of this is to show the high school boys of the county what State College is doing.

FIRE IN OBERLIN CAUSES EXCITEMENT

A fire in the Oberlin section Tuesday night about ten o'clock, two miles northeast of the State College campus, created great interest among the students.

The fire was not serious, and no great damage resulted. The water had to be pumped over two hundred yards as the water line did not go out that far. The firemen were confronted with a problem as the structure on fire was situated between two other houses. However, by the snappy work of the firemen they saved the other houses.

The collegians turned out en masse. Some several hundred students were present, a good number of which had an opportunity for the first time of seeing a real fire department in action.

SPECIAL RATES FAIR GROUNDS TO STUDENTS

The management of the State Fair is offering special tickets to the students of State College this year. Heretofore the students have had to pay the full price for admission, but this year they are indeed glad to know

that they get these special rates. The tickets will admit the owner twice daily, once in the morning and again in the afternoon.

Then they have gone one step further and are letting the agricultural students have tickets that will admit them any time. This is done on account of the individual and departmental exhibits that the students will have there in the students part of the Fair.

Motorist: Wanta ride?
 She Hiker: No, thanks. I'm walking to reduce.
 Motorist: Well, yer lost. This is the road to Waynesboro.

MANY STUDENTS SEND TECHNICIAN TO GIRLS

Tuesday night at supper an announcement was made in the Mess Hall that students could have their TECHNICIAN sent home or elsewhere by calling at the office. This fact had been made public before, but very little response had been received. However, the mailing list was to be closed Tuesday night, so this was an eleventh hour warning, and the usual throng appeared.

The office immediately became filled so that it was necessary to "line up." Many of the papers will go to the homes of the boys, several go to relatives in distant states, but the majority will go to "her." Quite a number of these will find their way to the campus of N. C. W., according to the circulation manager.

The staff is glad to have the boys send their papers to friends and relatives, as this enables a much wider circulation. The announcement holds true, however, and no more changes will be made until the beginning of next term. New subscriptions will be gladly received at any time.

GUILFORD CLUB SENDS TECHNICIAN TO SCHOOLS

The Guilford County Club held its first meeting last week and the following officers were elected:

President—R. B. Winchester.
Vice-President—S. H. Hassell.
Secretary—D. A. Purcell.
Treasurer—C. D. Kirkman.

There are about fifty members of the Guilford Club, which makes it probably the second largest club on the hill. The members represent eleven high schools of the county. In order to increase the interest of these schools in State College, the club voted to subscribe to THE TECHNICIAN, to be sent to each of the following schools: Oak Ridge Institute, Greensboro, High Point, Pleasant Garden, Guilford College, Jamestown, Pomona, Summerfield, Alamance, Gibsonville, Monticello.

ALUMNI NOTES

(Observations and Communications of Zippy Mack)

Tal Stafford says that the Wolfpack has already made more points in football scores than it made during the entire season last year. That isn't so bad, considering the fact that we have played only two games. The game tomorrow with the Gamecocks and the Fair Week argument with Carolina should add several more points to those we already have.

The event of most interest among the alumni this week was the marriage of Mr. William Hawkins Bogart and Miss Eunice Bowen, which was solemnized Wednesday evening at the First Presbyterian Church in Raleigh. Mrs. Bogart is the daughter of Mr. A. F. Bowen, Treasurer of the College, and Mr. Bogart is a member of the Textile Class of '24. The groom had as his attendants his classmates C. R. Hall and J. W. Carpenter, who is his brother-in-law, and T. N. Park and E. A. Feimster, other old State College men.

Mr. and Mrs. William M. Bethune announce the birth of William Murphy, Jr., at Clinton. Mr. Bethune, Senior, is a member of the Textile Class of '23.

Mr. and Mrs. Robert Stuart Collins announce the birth of Robert Stuart, Jr., at Brevard. Mr. Collins, Senior, is a member of the Electrical Class of '21.

Mr. J. F. Baum, of the '23 Chemicals, who was president of the Senior Class at that time, is now Assistant Engineer for the city of Danville, Virginia.

Mr. J. L. Robertson, of the '25 Civils, was on the campus recently. He is now with the United States Public

Health Service, with headquarters at Norfolk.

Among the many old faces we saw at the game with Duke Saturday were those of T. R. McCrea, of the '25 Chemicals; H. B. Curtis, of the '24 Civils, and "Doll Baby" Hodges, of the '25 Electricals, and others we cannot remember.

M. E. SOCIETY HOLDS ELABORATE DINNER

The American Society of Mechanical Engineers held its first annual dinner in the State College "Y" Thursday evening, September 29, at 7:15 p. m.

Mark Sumner, president of the society, acted as toastmaster. In his opening remarks he gave the three purposes of the get-together meeting. The first being to do justice to the excellent dinner served by "Red" Hicks and his cohorts. The other purposes were to acquaint the Juniors with the aims and purposes of the society, and for the Mechanical Engineering Faculty and students to become better acquainted with each other.

Prof. Dana gave a personal reminiscence of what the A. S. M. E. has meant to him and what it should mean to each member.

Prof. Vaughan spoke on the relation of the Student Branch to the Society. He also urged every Junior to join the society, and showed them the benefits to be derived from it.

The Mechanical Engineering Faculty and members of the Junior Mechanical Engineering Class were guests of the Senior members.

Those present were: Professors L. L. Vaughan, W. J. Dana, F. B. Wheeler, E. L. Cloyd, J. M. Foster, H. B. Briggs, Geo. W. Price, T. J. Martin, O. H. Shands; Messrs. J. V. Leonard, D. K. Stewart, D. F. Ritchie, B. V. Woodruff, E. A. Reehl, M. Sumner, R. M. Shuford, S. E. Shepard, W. E. Platt, E. C. Westin, E. L. Franklin, J. D. Conrad, B. K. Jones, C. D. Gaddy, T. C. Dickerson, L. M. Stuart, R. H. Kendrick, F. K. Fogleman, R. L. Wooten, J. H. Rhodes, F. H. Waters, P. M. Sutton, F. W. Jones, C. H. Pruden, Jr., W. A. Yost, J. M. Williamson, and W. C. Williamson.

MILLER GIVES PLANS FOR FAIR WEEK GAME

The Faculty Committee of Intercollegiate Athletics, at its meeting September 28th, approved the following arrangements for handling the Fair Week football game between the University of N. C. and State College on Riddick Field:

The State College student-body and supporters will, in so far as it is possible, occupy the west bleachers. The students and faculty will occupy the first seven tiers, and the alumni and supporters will occupy the upper eight tiers. A block of 3,000 tickets will be sent the Carolina management to care for their student body, faculty and alumni on the east bleachers.

Every available seat on Riddick Field will be marked off and reserved. This will mean that 9,460 people can make reservation and be insured a seat at the game. These tickets will be distributed at \$2 each, with all general admissions at the same price. The ticket sale will open Monday morning, October 5th, at 9 o'clock. Local reservations can be made only at Coke's Cigar Store, Fayetteville Street. All mail orders from out of the city should be made through J. F. Miller, Director of Athletics, State College. Twelve cents in stamps must be enclosed with these applications to insure safe delivery of tickets. No applications will be accepted after October 12th.

All holders of State College Season Complimentaries and all holders of the Faculty Activity Book must make their reservations through the gymnasium office. A block of tickets will be set off to care for all holders of the Student Activity Book. In case the holders of this book desire to sit outside of this section, they will have to secure tickets at Coke's Cigar Store. No tickets will be sold at the gymnasium office, but will have to be purchased either at Coke's Cigar Store or at the gates the day of the game.

The old wooden bleachers along the north end of Riddick field have been torn down and new ones will be erected. The knockdown bleachers used in basketball will be placed along the south end of the field. Notice should be taken by all those who have been used to getting their reserved seats on the railroad track in the past that these seats are no more, because of a fourteen-foot board fence which has been erected. All holders of tickets in the east and south bleachers will

A Protein Feed That Pays

Corn Gluten Feed—23% Protein
"Almost Wholly Digestible"

Corn Gluten Feed is a profitable protein ingredient for every ration. Successful feeders in 32 States are feeding it regularly. These practical men know its value. It pays them to feed it.

One or more feeding experiments with Corn Gluten Feed in the ration will make your school work more interesting and profitable to you. There are several good reasons why this is so.

Corn is grown in all the States. It is worth more than any other farm crop. We need corn more than anything else grown on the farm, and without it we would almost starve.

The product of corn most needed by the farmer and feeder is Corn Gluten Feed. A ton of it contains as much protein as 2½ tons of corn and also the natural salts of five tons of the whole grain.

Corn Gluten Feed is palatable and safe. It is never given as medicine nor has it ever caused abortion or blindness. Some dairymen feed it straight for high production tests.

You are going to help the farmer get the most out of his corn crop. This Research Bureau can be of great service to you, and we want to tell you about it.

Write us today and we will send you our bulletins and show what we are doing in our nation-wide campaign for better feeding.

Associated Corn Products Manufacturers

No. 12

enter through the east gate. All holders of tickets in the north and west bleachers will enter through the north gate. Cars will not be permitted to enter the road leading by the College Mess Hall and Y. M. C. A.

Especial attention will be given this year to taking care of the attendance in the most fair way possible to handle it. The distribution of tickets will be made in order in which the applications are made. An equal division of the best seats will be made between the student bodies and the alumni and fans of the two institutions. A record attendance is looked for at this game, and it would be advisable for those expecting to attend to secure your ticket as early as possible to be sure that you have a seat reserved for the game.

Father—Goodness! what's the matter? The house is filled with smoke.
Mother—I just heard—say he had Pittsburg on the radio.

HOORAY FOR SCOREBOARD!

The sound of busy workmen at the southeast corner of the bleachers last week stirred up our active curiosity, and we were much delighted with the result of their labors when we first cast our eyes upon the large new scoreboard. Such a board has long been a need of Riddick Field, and we hope it is there to stay.

Besides telling the score itself, it takes on the duty of telling the number of downs on a team and the yards which must be gained to make the number of downs start all over again with a one.

Another, and by no means unimportant, function of this board is to give to the strong-minded a relief from excessive heat by suggesting the coolness of Pine State ice cream.

All in all, this seems to be a very useful and welcome addition to State's athletic equipment, and again we say, "Hooray for the new scoreboard!"

Do You Know? "HOW TO STUDY"

The Students' Hand-Book of Practical Hints on the Technique of Effective Study

by WILLIAM ALLAN BROOKS

A GUIDE containing hundreds of practical hints and short cuts in the economy of learning, to assist students in securing MAXIMUM SCHOLASTIC RESULTS at a minimum cost of time, energy, and fatigue.

ESPECIALLY RECOMMENDED for overworked students and athletes engaged in extra curriculum activities and for average and honor students who are working for high scholastic achievement.

Some of the Topics Covered

- Scientific Shortcuts in Effective Study.
- Preparing for Examinations.
- Writing Good Examinations.
- Brain and Digestion in Relation to Study.
- How to Take Lecture and Reading Notes.
- Advantages and Disadvantages of Cramping.
- The Athlete and His Studies.
- Diet During Athletic Training.
- How to Study Modern Languages.
- How to Study Science, Literature, etc.
- Why Go to College? After College, What?
- Developing Concentration and Efficiency.
- etc., etc., etc., etc., etc.

Why You Need This Guide

"It is safe to say that failure to guide and direct study is the weak point in the whole educational machine."—Prof. G. M. Whipple, U. of Michigan.

"The successful men in college do not seem to be very happy. Most of them, especially the athletes, are overworked."—Prof. H. S. Canby, Yale.

"Misdirected labor, though honest and well intentioned, may lead to naught. Among the most important things for the student to learn is how to study. Without knowledge of this his labor may be largely in vain."—Prof. G. F. Swain, M. I. T.

"To students who have never learned 'How to Study,' work is very often a chastisement, a flagellation, and an insuperable obstacle to contentment."—Prof. A. Inglis, Harvard.

"HOW TO STUDY" will show you how to avoid all misdirected effort.

Get a good start and make this year a highly successful one by sending for this hand-book and guide NOW.

Manufacture Of Silk Explained To Students By Mrs. Randor Lewis

Thursday afternoon at the State Theater Mrs. Randor Lewis, of the Mallison Silk Mills, in her speech to the Textile students of N. C. State and the students of Peace and Meredith, gave a detailed account of the manufacture of silk.

Mrs. Randor Lewis began her speech with the metamorphosis of the silk-worm, how the silk was taken from the cocoon, how it was spun and shipped to America, how the plain cloth was woven and the fancy cloth with the aid of the Jacquard machine, and ended her speech by displaying models in clothes made of Mallison's silk. The speech was accompanied by moving pictures which were explained by Mrs. Randor-Lewis and which showed the manufacture of silk from the worm to the fine silk gowns.

Mrs. Lewis is noted for having given the name of Rayon to artificial silk. She was brought here through the courtesy of Boylan-Pearce Co., and her talk was thoroughly enjoyed.

TOOLEY OPERA CO. AT PULLEN HALL SATURDAY NIGHT

Beginning Series Entertainments of Lyceum Course

The lecture and entertainment course for the season of 1925-'26 at State College will open Saturday night, October 10, with the Opera Pinafore presented by the Tooley Opera Company.

The Tooley Opera Company will long be remembered at State College because of their splendid presentation of the comic-opera "Mikado," two years ago.

Other numbers scheduled for this season are Ralph Bingham, humorist, who will speak in Pullen Hall, October 24; the DeJen Company, magicians; the Cleveland Symphonic Quartette, and Lorado Taft, sculptor, artist, lecturer. Mr. Taft has been secured jointly by State College and Meredith College, and will appear some time in January.

In addition to these numbers the committee is endeavoring to secure other outstanding lecturers.

Biology

"George," said the Titian-haired school marm, "is there any connecting link between the animal and the vegetable kingdom?"

"Yeth, ma'am," answered George promptly. "Hash."

"Why does she wear arrows in her stockings?"

"To go with her bow-legs."

She: "Can you read lips?"

He: "Yes, by the touch system."

Some men get ten thousand miles and more out of a set of tires—and some men tell the truth.

Flirtation may be defined as attention without intention.

Be Reasonable

Irate-Papa: "What do you mean by coming home at 4 p. m.?"

Flapper: "For heaven's sake, pop, I have to patronize the old roost some time, don't I?"

One of Our Old Favorites

"Rastus, what am dat dat is flyin' 'round mah haid?"

"Dat am a horse fly; dey fly 'roun chickens and hosses and jackasses."

"Does you-all mean to 'sinuate dat I'm a jackass?"

"No, I don't mean to 'sinute nothin', but you can't fool a horse fly."

When You Take the Children Along

"What was the name of the last station we stopped at, mother?"

"I don't know. Be quiet, I'm working out a cross-word puzzle."

"It's a pity you don't know the name, mother, because little Oscar got off the train there!"

Dumb: Each night before I go to bed I write my thoughts down in my diary. It's so interesting, don't you think?

Cutting: Indeed, and how long have you been doing that?

Oh, about three years.

Then you must have the first page nearly filled.

Interesting conversation between two sheep:

First Sheep: Blaanaa!

Second Sheep: Blaanaa!

They met on the bridge at midnight. They never shall meet again; One was the eastbound special, The other was the westbound train.

"Seidel ought to be right good in geology."

"So?"

"I hear he's been studying quarts for years."

"Why don't you have a mirror in your vanity case, dearie?"

"Don't need one. I carry one of my photographs in it."

Philology

"Papa, what does heredity mean?"

"Something which descends from father to son."

"Is a spanking hereditary?"

"I think we met in this cafe last winter; your overcoat is familiar to me."

"But I didn't own it then."

"No, but I did."

BIBLE STUDY CLASSES BE HELD SECOND TERM

Bible study classes, conducted by the Y. M. C. A., in the dormitories will not begin until next term.

R. J. Peeler, chairman of the Bible Study Committee, after carefully considering the work of this committee, and after discussing this matter with the other members of the Y cabinet, decided that it would be unwise to try to start Bible Study classes in the dormitories until after Christmas.

Peeler and the entire Y cabinet feel that much better work can be done in the Bible Study classes if these classes are not started until January.

The lack of a sufficiently large number of trained leaders to conduct these meetings in the dormitories is the chief cause for the beginning of Bible study to be placed at such a late date. Before January 1 the Y. M. C. A. hopes and expects to have more than the needed number of interested and well trained leaders for this important work.

The fact that this term will be considerably broken up by holidays has some weight in this decision concerning the time when this religious program shall begin. In nearly every case holidays cause some break in the regularity of such programs.

The beautiful weather of this season of the year makes it doubly hard to secure a large attendance at these religious meetings. During the winter months a much larger per centage of the students spend their evenings in the dormitories. It is during these winter months that the Y. M. C. A. expects to present to this institution a Bible Study program that is not only interesting and instructive, but one that has never been surpassed by a similar religious program on this campus.

COUNTY EXHIBITS FEATURE AT FAIR

North Carolina will have a real agricultural show at the State Fair this year. Quite a number of the county agents will bring a number of exhibits which will have a great tendency to influence other communities and individual farmers to send in displays also.

The exhibits this year will be judged according to a score card which has been prepared. A certain number of points will be given to field crops, to garden crops, to fruits, and home in-

dustry. Then the exhibit will be scored on its educational value and artistic arrangement. Copies of these score cards were sent to county agents, so they will know exactly how the exhibits will be judged.

Prof. F. B. Hutchison, of the Virginia Polytechnic Institute, at Blacksburg, will judge the county and community exhibits. Professor Hutchison is a veteran fair man and will be of value in showing the exhibitors the reason for his decisions. The individual entries will be judged by G. M. Garren, of the State College staff, and C. L. Newman, of the Progressive Farmer.

We have a complete line of **The NUNN BURK OXFORDS** for College men. Look them over.

Give me a pipe
... and
P. A.!

WHEN Comp. Lit. and Physics 3-B are crowding for attention; when I've just received an over-cut notice from the Dean; when my allowance is a month off and the stub of my check-book confesses a balance of \$9.32, give me a pipe and Prince Albert. I want to be happy!

Trouble's a bubble, they say. And I can prove it . . . with my jimmy-pipe and P. A. Just never was a friend like Prince Albert. Cool and sweet and soothing, P. A.'s true-blue smoke zooms up the stem, knocking troubles for a row of test-tubes.

Never a tongue-bite or throat-parch. Just cool contentment, no matter how hard you hit it up. Give me a grate fire to chase the chill of winter nights, an easy chair and my jimmy-pipe packed with P. A. Nearby, a tidy red tin for frequent refills. I know, Brother, I know!

PRINCE ALBERT
—no other tobacco is like it!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

Look at the U. S. revenue stamp—there are TWO full ounces in every tin.

To The Virgins, To Make Much Of Time

Gather ye rosebuds while ye may,
Old Time is still a-flying;
And this same flower that smiles to-day,
Tomorrow will be dying.

The glorious lamp of heaven, the sun,
The higher he's a-getting,
The sooner will his race be run,
And nearer he's to setting.

That age is best which is the first,
When youth and blood are warmer;
But being spent, the worse and worst
Times still succeed the former.

Then be not coy, but use your time,
And while ye may, go marry;
For, having lost but once your prime,
You may forever tarry.
—Robert Herrick.

R. P. Broadwell spent the week-end with his parents at Fuquay Springs, N. C.

D. D. Barber, Jr., spent the week-end at Duke University, attending the Duke-State game with his friend, W. J. Hobbs, of Wilmington, N. C.

George Holloman ('26), en route to Fort Benning, Ga., where he is stationed, was on the campus a few days last week with fraternity brothers.

Moore Bryson of Carolina was visiting friends on the campus this past week-end.

Ed Lewis was visiting on the campus a few days ago.

Phi Kappa Tau Banquet

Chi Chapter of the Phi Kappa Tau Fraternity of the North Carolina State College were hosts at a banquet held at the Peacock Alley Team Room yesterday evening.

The menu consisted of four courses as follows: Fruit cocktail, fried chicken, candied yams, green peas, hot rolls, iced tea, olives, pickles, celery and tipsy cake.

The guests were: Messrs. Henry Clay Edwards, Jr., of Greenville; Truman Clute, of Fayetteville; Francis Little, of Marion; Floyd Isom and Edwin Hadley, of Charlotte; Bob Holmes, of Mount Olive; F. G. Whitner and Buster Fennel, of Hickory; James Little, of Cheraw, S. C.; L. W. Stancil, of Smithfield; Richard Little, of Wadesboro; Ed. Croxton, of Lancaster, S. C.; W. A. Cox, of Greenville, S. C.; George Howard and Stokes White, of Concord; "Doc" Elam, of Statesville; "Lefty" Edwards, of Greenville, S. C.

The members of the alumni attending were: Messrs. A. L. Monroe, W. F. Freeman, J. W. Carpenter, of Raleigh; Dean E. L. Cloyd and Dean Thomas Nelson, of the N. C. State College, and Tyler B. Dunlap, Duke University, Durham.

The members of the active chapter are: Messrs. Louis Carpenter, John Jeanette, Ben Horne, Nelson Hartl, Warren Hadley, "Mike" Eckerson,

CAROLINA IMPROVING

Carolina's 7-0 victory over South Carolina last Saturday seems to show that the Southern team is weaker than last year's, when they defeated the Chapel Hill boys by a field-goal margin. The statistics of the game say that luck rather than drive won, though, for Carolina scored on a blocked punt back of the goal line, while the Gamecocks made six more first downs than the winners.

Several of the Carolina players are said to have been bruised and cut in the contest, but they are expected to be in good condition to meet Duke this Saturday and State the following Thursday.

The improved playing of the University team last week seemed to show some results of hard coaching since the Wake Forest game, and still further improvement may be shown against the Blue Devils at Durham tomorrow.

MEREDITH NEWS

It has been popularly supposed that we are to have no holiday for the Fair this year because none was named in the catalogue. This is a mistake; the date of the holiday was omitted only because it was not yet known when the Fair was to be. Since that information has been obtained, the faculty has decided upon the usual Thursday for our holiday.

Siddell's has been busy over a week taking the pictures for our annual, the Oak Leaves. Until now the work has been unusually good, and so far as we can tell, every one has received her due of beauty.

All the basket-ball teams have begun to practice. Freshmen have been having preliminary practices in order to select the members of their team.

On the evening of September 26 the old members of the faculty entertained in the Y room in honor of the new members. Our reporter was not present, so we did not learn the full particulars, but from what we hear, the occasion was a complete success.

Saturday evening, October 10, the

installation service of the Philaretian Literary Society and the initiation of the Astrotekton Literary Society will be held in their respective halls. The new girls who have decided to become Astros are waiting with fear and trembling to make the acquaintance of the Astro goat and to be told the dark secrets of the organization. The Phi installation is of quite a different character. All the members, both old and new, dressed in white, assemble in the society hall, which is lighted with a candle for every year the society has existed. The taking of the membership pledge by the new girls is a very beautiful ceremony.

Our annual Stunt Night is scheduled for Saturday night, November 7. It is rumored that practice has already begun. The affair is sure to be a pleasant one, and we extend a cordial

invitation to State to be present in as large a body as possible.

A great number of tickets for the series of concerts to be given at the Woman's Club have been sold among the students of Meredith. The first of these concerts is to be a violin recital by Florence Stern, and is to be given October 17. We are looking forward to it with much pleasure.

Just a Slip of a Girl

A banana peel.
A flash of hose,
A little squeal,
And down she goes.

Teacher (showing the class a picture of Washington crossing the Delaware): "Now, can any little boy or girl tell me the name of this picture?"
Small voice in the rear: "Sure, 'Sit down, you're rocking the boat.'"

Q The question is sometimes asked: *Where do young men get when they enter a large industrial organization? Have they opportunity to exercise creative talents? Or are they forced into narrow grooves?*

This series of advertisements throws light on these questions. Each advertisement takes up the record of a college man who came with the Westinghouse Company within the past ten years, immediately after graduation from his university.

This Graduating Thesis Bore Fruit

G. E. LUKE

BACK in 1917, G. E. LUKE, a Princeton student, wrote a thesis on heat flow in electrical apparatus. The world was not fired upon receipt of this opus; it went on, in fact, very much as it had gone before. But Luke came to Westinghouse, where his interest was encouraged. Today, although less than ten years off the steps of Old Nassau, he has completed researches that have improved the motor-and generator-building arts.

An interesting problem that came to him here was the development of an analytical or

mathematical method of pre-determining the temperature of a motor or a generator under a given power cycle. Nothing so comprehensive had been undertaken before. When developed, however, the method would permit a more scientific application of motors and generators to practical requirements. Safety factors could be cut down. Smaller apparatus could be used, with resulting economies.

The work was exacting and the researches not spectacular. In the end, however, there emerged a formula that is now the property of the industry and that stands as an important addition to the field of engineering information.

This incident shows the op-

portunities which the electrical industry affords the research engineer of genuine endowments. Today this young man has charge of the insulation section of the research department, with an organization of three physicists and five assistant physicists.

His work calls for the broadest kind of experience, for it relates to every kind of electrical apparatus in which heat flow occurs. Half the problems of his section are referred to it by other departments of the Westinghouse business—they are in the nature of emergency calls. The other half are of the department's own initiating. From these come many of the most revolutionary developments in the electrical art.

Westinghouse
