Sigma fraternity.

The concert featured
music by local favorites The
Stegmonds, The Amateurs and
Indecision.

Although there was a slight mixap when two of the bands thought
they had to play at 9 p.m., the concert actually lasted an hour longer
than scheduled.

"Man" We gigged!" said Joel
McCallough of Kappa Sigma.
Some were disappointed at not
having the show outside, but the
fratternity hopes next year's event
will take place on the Fraternity
Commons as in years pasts.
"It was so much! full when they
had it outside. I loved it this year

The final totals were not available at press-time but early indications were favorable.

Saaaafe!

Junior outfielder Robbie Bark (32) slides safely into home plate in Saturday's game against sixth-ranked Georgia Tech. State has won the first two games in the series 10-6 on Saturday, 9-3 on Sunday. The series continues today at 3 p.m. at Doak Field. Although Bark's performance earned State a point in the game, the umpire's version of the moon-walk fid not.

Feed Raleigh raises 2 tons

Duke law prof to give lecture

Harrelson Lecture is NCSU's most important

News Staff Report

William Van Alstyne, professor of law at Duke University, will deliver N.C. State University, will deliver N.C. State University's Harrelson Lecture Thursday, April 9 at 8 pm. in the Student Center Annex Theatre at the corner of Cates Avenue and Dan Allen Drive on the NCSU campus. Van Alstyne is a nationally recognized authority on constitutional law. He will speak on "Reflections on the World's Oldest Constitution."

Van Alstyne has held the William R. and Thomas C. Perkins law professorship at Duke since 1974 and has been a law professor at Duke since 1974 and has been a law professor at Duke since 1964.

Court.
In 1987, Van Alstyne was selected in a poll of federal judges, lawyers and academics by the New York Law Journal as one of three academics among "the 10 most qualified" persons in the country for appointment to the Supreme Court.
Van Alstyne said his lecture will deal with "what particular features of the U.S. Constitution tend to make such a difference in the manner the Constitution operates in this country in comparison with a number of failed efforts elsewhere."

The John W. Harrelson Lectureship The John W. Harrelson Lectureship was established by a bequest from the late Col. John. W. Harrelson, chancelfor of NCSU from 1934 to 1953, to bring outstanding scholars to the campus to speak. The Harrelson Lecture traditionally has been considered the most important university-wide address given at NCSU each year.

Black Students Board sponsors Pan-African Festival Sunday

The annual Pan-Arican Festival begins Sunday and runs through Saturday. The festival is sponsored by the Black Students Beard and features many programs, most free and all open to the public.

Several leading speakers and performers are on this year's program. Included are a lecture and workshop by race relations expert C.T. Vivian and a Friends of the College series performance by singer Leontyne Price.

Each day offers a program designed to increase cultural and reacial awareness, and some feature N.C. State University student groups. Event scheduled for the festival are:

Apr. 5, 4 p.m.: New Horizons Choir and the

Choir, Stewart Theatre, Admission is free. Apr. 6, 8 p.m.: Lecture and workshop on race leations by C.T. Vivian Admission is free. Apr. 7, 8 p.m.: "The Great Debate," a drama that gives an idea of how a meeting between Marin Luther King and Malcolm X might go. Admission is free.

Admission is free.

Apr. 8, 7:30 p.m.: African-American Recognition Night, University Student Center Ballroom. Entertainment by the Reggie Jeffries Jazz Quartet.

Apr. 10. 8 p.m.: Dancvisions spring recital, Stewart Theatre. Admission is free.

Apr. 10 and 12, 8.p.m.: Leontyne Price, Reynolds Coliseum. Call 515-2835 for ticket information. General admission seating is free to NCSU students.

For more information about festival events, call 515-2451.

Atlantis? N.C. State calling

If you were over by the Dan Allen Parking Deck Thursday morning, you might have noticed a couple of unusual contraptions up on the top level.

unusual contraptions up on the top level.

Looking closer, you would have seen two small groups of people mulling around two antennae ereciation the deck's concrete surface. In the middle of the deck, you would have gazed upward at a 20-toot tall antenna stretching vertically toward the sky. At the edge of he deck you would have gazed upon a 9-foot tall hand-held antennae heing rotated back and forth scross the horizon.

Somewhere in the process, you

Somewhere in the process, you night have wondered what the heck

an attempt by some members of the N.C. State Annateur Radio Club to contact the astronauts currently orbiting the earth on the space shuttle Atlantis. The attempt is part of NASA's new Shuttle Adnateur Radio Experiment (SAREX) designed to promote amateur radio study in schools by providing amateurs with a chance to communicate directly with shuttle astronauts in orbit.

orbit.

"The program's really designed to introduce anateur radio to elementary and high schools, but it also intended for the colleges as well," club member Brian Hammill said, club member Brian Hammill said, "It's designed to use a very visible means to promote amateur radio usage, and what could be more visible than the space shuttle"

"They use a hand-held radar antenna that they stick on a shuttle window, and they use just a small

2.5 watt radio. So you don't have to go through NASA to contact them. It's just you and them."

Unfortunately, despite clearly picking up shuttle conversations Thursday morning, the NCSU claw was unable to establish a direct communication link with Atlants.

"You've got to remember that at any given time Atlantis is open to and receiving messages from about half the country." Hammill said, "It's almost unthinkable the number of people seriously attempting to contact the shuttle. It's almost impossible to get through."

Yet, despite the odds, the NCSU amateur club members consider worthwhile the time spent attempting to establish radio contact with the astronauts.

"We enjoy it and we have fun the serious proportion of the sate of the such as a soul set through."

"We enjoy it and we have fun even if we can't get through," Hammill said. "Of course we would

like to make confact."

The NCSU club's efforts to contact the shuttle began last week as club members used a personal computer program to plot out the flight track of Atlantis and determine the optifium times for radio contact.

Armed with that information, the club then scheduled an attempt for Thursday morning. Arriving at the Dan Allen Deck just before 7 a.m., the club members meticulously assembled their antennas and readied their standard 2-meter, 45-watt band radios for the attempt. The club repeated the procedure twice more Sunday.

"We've gotten pretty good at it now." Hammill said. "We can assemble the equipment in 15 minutes max. It's good practice for emergency situations."

Pack upends sixth-ranked Georgia Tech twice

The N.C. State baseball team exploded for two big conference wins over sixth-ranked Georgia Tech this weekend. The 25th-ranked Wolfpack stands at 26-6 overall and 6-5 in the ACC, while the Yellow Jackets fall to 24-4 overall and 4-3 in the ACC.

The Wolfpack pounded out 13 hits Sunday for a 9-3 victory and decimated Tech with 16 hits Saturday, including eight hits in a 10-run fifth inning in the 10-6 win.

inning in the 10-6 win.

The stars of the weekend were catcher Greg Almond, shortstop Sean Drinkwater and reliever Mark Bogle. Almond went 6-7 with a grand slam, a double, three runs scored and four RBI. Drinkwater went 6-10 with five doubles, three RBI and two runs scored. Bogle provided six key innings of relief Sunday. Sunday.

"[Almond] has been steady for us all year behind the plate. We don't put a lot of pressure on him offen-sively," N.C. State head coach Ray Tanner said. "It's been a big boost for him to swing the bat like he has this series.

this series.

"It makes a tremendous amount of difference having Drink in the middle. Not only is he a great player, he's a quarterback. He runs the defense for us in the middle. I call very few defensive signals because he's such a mature player, he can bandle that," handle that."

Sunday, the Wolfpack came back

from an early two-run deficit to score five runs in the third inning and cruise to a 9-3 victory. Bogle picked up his second win in relief with six strong innings after starter David Allen struggled through 1/3 innings, giving up four hits, two walks and two runs. Bogle worked out of a bases-loaded jam in the second by inducing a 1-2-3 double play from Tech short-stop. Nomar Garciaparra. Bogle then sailed through the Tech order allowing only two bits and one walk while striking out four. Relievers Stacy Betts, Tommy Sports and Jamie Wolkosky finished up the game for the Pack's fifth consecutive win.

"Bogle] kept them off balance, and if you haven't seen him before, he can be very deceiving." Tanner said. "Today, he was able to go a little bit further than usual and that was the difference in the game."

After falling behind 2-0, the Wolfpack tallied five runs in the third inning. First baseman Andy Barkett led off by being hit with a pitch, followed by singles by Almond and second baseman Jeff Meszar. A RBI single by third baseman Paul Borawski scored Barkett, and a bases-clearing triple by center fielder Rob Bark scored Almond, Meszar and Borawski. Drinkwater's double finished the scoring by driving in Bark. scoring by driving in Bark.
State iced the game by adding

WOLKOSKY, Page 4

Gymnasts fall to Tar Heels in season finale

By Anthony Black

The N.C. State gymnastics team went to Chapel Hill Friday looking

for a win. Unfortunately for the Pack, the win never came. North Carolina shocked N.C. State 187.10-186.80.

"I really didn't think it was possi-ble for us to beat State tonight," Tar Heel head coach Derek Galvin remarked to his team after the sur-prising victory.

A look behind the scenes may be

the largest clue as to why the Wolfpack fell short.

State entered Friday night's meet without the services of junior all-arounder Karen Chester Chester was originally thought to have a pulled Achilles tendon, but it urmed out to be a season-ending tear. Chester underwent surgery Friday and is out for the season.

On the line in Friday's meet was a school-record J8th win and the 100th career victory for head coach Mark Stevenson. The Pack was also going for a casson sweep against the Tar Heels. N.C. State trounced Carolina earlier in the season 190.25-185.45 and 190.35-187.40.

men netters earn split

By Scott Joyner

The N.C. State women's tennis team split weekend matches, winning 5-4 over Virginia Tech and losing 5-4 to Richmond. State's record is now 6-8 overall and 1-3 in the ACC. State dominated the singles action in both meets by scores of 4-2.

gles action in both meets by scores of 4-2.

"I really feel like we played well both days." said State head coach Kelly Key. "We just got squeezed out in doubles against Richmond. I felt really good about the Virginia Tech win. I'm really pleased with the whole group. I can't single out tone player. We lost to both of these teams last year, so a split is better than dropping them both."

State was once again led by senior Jenny Sell. Sell improved her No. I singles record to 11-3 with two wins over the weekend. Against Tech, Sell defeated Shann Cubitt in a tought two-setter 7-6 (7-5), 7-6 (7-

Syricen's No. 2 physics Johnson. Saunders 7-5, 6-4. Margie Zummer at No.3 added another Pack with by defeating Cathy Dixon 6-16-5. State's Michelle Parks Sell to Jennifolded, 7-5 at No.4 Jennifolded, 7-5 at No.5 and Stephanie Davis 3-6, 6-3, 6-2 and Stephanie Davis 3-6, 6-3, 6-2 and Stephanie Davis 3-6, 6-3, 6-3 at No.4 Jennifolded, 7-5 at No.4

6-4.
The Pack looked strong again Sunday but could not get a doubles victory after taking four singles

The Pack took No. 3 singles with Zimmer winning over Jen Stammen 6-0, 6-3. Parks defeated Stephanie Lacovaria at No. 4 singles 6-4, 6-2. Richmond's Pam Erickson defeated Kenny, 6-0, 7-6 (7-5), and Kristian Butts with over the Pack's Donahue at No. 6 singles by a 6-3, 6-1 score.

The Pack could not put the doubles away as Richmond's No. 1 team of Curcuru and Faberty rallou to a 3-6, 6-3, 6-2 victory over Sell and Zimmer. Stammen and Lacoyara of Richmond defeated Saunders and Donahue 3-6, 6-2, 6-1 in No. 2 doubles, and Enckson and Butts took No. 3 doubles over Kenny and Campbell of State by a 6-2, 6-1 score.

Gymnasts

The Wolfpack was also looking to have a strong finish to its historical regular season.

Stevenson, while disappointed, didn't point to any one particular factor for his team's lackluster performence.

didn't point to any one particular factor for his team's lackluster performance. "We came out flat," Stevenson said, "but it was also obvious that we got scored lower on heam and they got scored too high on the floor. I still thought that we could have won despite both factors, but we came up just a little short."

Even though State looked lethar-gic after two rotations, it still led 92.60 to 91.50 with beam and floor remaining. Stevenson imme-diately called his team together for an inspirational talk. He declined to comment on his speech, but it proved to be effec-

tive. The Wolfpack came out and nailed five impressive routines in

nailed five impressive routines in shore exercise rotation. On the beam, the Pack took falls on three of its first four routines. Stevenson again had a meeting with freshman Nicole Herrick and sophomore Nicole Cimato. They responded with a team high 9.50 and 9.65 respectively. "Mark [Stevenson] field us to just go out there and hit our routines, and we did," Cimato said.

When the final score was announced, the team showed very little emotion.

announced, the team showed very little emotion.

"By the end, [the team] knew the scoring had been biased," Stevenson said, "because there is no way that Carolina is only 3-0 of a point behind us on the floor. They don't even have the tricks in their routines to score as high as they did."

Ironcally, the judges who scored Friday's meet were the same judges who scored both teams just one week ago in the Wolfpack's blowout win.

past, and the team son had a vipportant future.

"We are going to regionals, and Carrolina is staying home this year," Wolfpack senior Jill Bishop said. "What's important for us to do now is focus on regionals. We've had a great season, and we need to regroup from all of this adversity so we can finish strong." "I think we'll be fine by regionals." sernor Michelle Ingham said. "We have been competing for five consecutive weeks, so, this break before regionals will be a great time for us to rest up and prepare for it."

time for us to rest up also pospore for it."

In the individual competition, North Carolina saphomore Shannon Stacy won the meet with a 38.25 in the all-around, while a State's Bishop tinished second with a 37.50. Herrick captured the vault title scoring a 9 60 and the Tar Heels's Stacy went 9.70 on the bars to capture the win. North Carolina sophomore Dana Silvio's 9.75 was the high on the beam,

Wolkosky racks up the saves

ACC record of 14 saves set by Wake Forest's Buddy Jenkins last year. Next on the list is the school career-save record of 20 set by Bark from 1987-90. Also within reach is the national single-season save record of 22 set by Mark Wendel of Cal-State Fullerton in 1984.

Wendel of Cal-State Fullerton in 1984. Wolkosky's other numbers are aimpressive as his 11 saves. In his 20 outings, he has two wins and has yet to blow a save. He has allowed only nine hits, six walks and one run in 25 2/3 innings while striking out 2.6.

out 26.
"It's obvious with the number of saves he has that he's had a great impact on this team," Tanner said. "He gives us tremendous confidence when he's in the game. We feel like this guy can close it up for us if we make the plays behind them. He's picked us up tremendously." What make We

them. He's picked us up tremendously."
What makes Wofkosky so effective is a slider that explodes away from right-handed hitters, Good hiters know its coming and still can't hit it. In his toughest outing at Florida State, he struck out one of the top candidates for player-of-theyar. Chris Roberts, with the base loaded to end the game. His slider is one of the best in the country, "I've been throwing the slider since I was six years old," Wolkosky said, "I have four brothers who used to play ball, and I used to run and get the ball for them. When I'd throw it back, I'd put a spin on it, and ever since that I've been throwing it the same "was".

put a spin on it, and ever since that I've been throwing it the same way."

Wolkoosky's baseball background is a bit unusual. Growing up in Canada limited his chances to play America's game.

"It was cold, very cold. We had some pretty good programs up there. It's just difficult because the weather's not the greatest, so it's hard to get outside and get a lot of our practicing indoors, and when the weather was good enough, we'd jump outside for however long we could."

Wolkoosky wanted to go to the University of Mamir's baseball factory. When Miami coach Ron Fraser directed him to Middle Georgia Junior College, he met current Wolfpack stars Greg Almond and Matt Donahue.
"Miami was a lot of fun," Wolkosky said. "They have a really good program down there. It's always competitive. They treated ne well, but it was just time to leave. They couldn't guarantee me the innings! I wanted as a senior all I talked to Greg and Matt, and they said they needed a closer here at N.C. State. That's basically what made up my mind."

"Jamie asked his coaches if he could talk to us and ask us if were interested, and of course we were." Tanner said. "When I harie would get an opportunity to pitch a little more at N.C. State than Miami, so he gave us the opportunity to get him."

Wolkosky's experience has been one of the major factors in his suc-

Wolkosky's experience has been one of the major factors in his success at State. Pitching at Middle Georgia, one of the premier junior college programs in the country, and at Miami has given him an edge in the rugged ACC. "He works hard, but the thing about Jamie more than anything else is that he's been around the block a little bit." Tanner said.

"He's very intelligent. He understands the game, and he understands the game, and he understands what gets people out. He keeps his composure. He's probably as mentally prepared to pitch as anybody who goes out there." Wolkosky has made such an impact here that the Canadian National Team has contacted him about being on the team. "I played with the Canadian Olympic team two summers ago, They didn't make the Olympics in Barcelona this year, but they're going to try in '96. I got a letter asking me to come to training camp at Ortawa this summer and for the next couple of summers. And hopefully we'll make it in '96." Right now Wolkosky keeps his focus on the Wolfpack in its attempt to win the ACC title. He views himself as only one ingredient in a winning N.C. State team

Beware when car deals seem too good

So you're about to graduate, and you've got to have a new set of wheels before you set out into the real world?

It may not be as easy as it sounds. Financing a car requires planning, searching and, more important, money. There are several different avenues a recent graduate can pursue in finding an affordable means of transportant.

avenues a recent graduate can pursue in finding an affordable means of transportation.

Some dealers offer special carfinancing plans for recent graduates who already have a job.

"GMAC offers a college-grad program to students who can present a letter of intent and a diploma," says whichael Bardaxis of Al Smith Buick.

Bardaxis says that GMAC charges only 2-9 percent interest. That's about the best deal you'll find if you have already been hired and have your degree.

"The GMAC college finance program also offers a rebate and a reduced rate to students in graduate school and up to one year after graduation," says Bill Mitchell of Bobby Murray Chevrolet.

signet and maxing pay it off.
However, interest rates can be considerably higher, depending on the car model.
Joey Graves of Leith Honda says his company's college-grad program allows students to buy without making a down payment or having prior credit history. To do this, seniors graduating in six months who already have a job must present a letter of intent from their employer stating their starting salary.

their employer stating their starting salary.

Another way to finance an automobile is through on-1 of dealers.
Some advertise interest-free financing. This, however, may not be such a good idea.

Beware of hidden fees and charges. These dealers have to make their money somewhere. To make up for the interest, they often have strict payment plans with severe penalties for late payments. It is possible to buy a car after you raduate. If you have little experience with automobiles, it may be wise to take a knowledgeable person to help chose the right plan for you.

Rest in peace, dead week

Rest in peace, dead week

In the past, the week before final exams has been anything but a "dead week" for many N.C. State University students. Often their workload during the week before exams is heavier than at any other time of the semester. Recently, the Student Senate passed a resolution ealling for the ban of major tests, quizzes and papers during the last week of classes. NCSU students should be active in their support of the Senate's proposal. There is an existing "dead week" policy, but the language of the policy is very vague, and teachers have easily circumvented the policy. Naturally, teachers with any common sense have to know why the policy exists and what it means. Unfortunately, some teachers obviously don't care and continue to give assignments that are due during dead week.

It is senseless for a professor to assign a major paper, quiz or test to be due the week before exam week.— the most important week of the semester. Some students have a full schedule of classes, part-time work and extracurricular activities, and they simply don't have the time to get ready for exams if they are swamped with assignments during "dead week."

The Senate resolution calls for more specific language that will not allow teachers to fudge the policy and violate the rights of students. The resolution would give students the opportunity to expose any violation of "dead week." This question would give students fill out at the end of each semester should have a question asking if any work was due during "dead week." This question would give students fill out at the end of each semester should have a question asking if any work was due during "dead week." This question would give students fill out at the end of each semester should have a question asking if any work was due during "dead week." This question would give students the opportunity to officially complain about teachers that are not concerned about their students' best interests at heart. Of course, such professors are a minority; most understand that the en

Many NGSU instructors just can be trusted to keep their students best interests at heart. Of course, such professors are a minority; most understand that the end of the semester is a stressful time for students for many reasons, both academic and non-academic. But those professors that continue to violate "dead week" are a problem, and they must be dealt with. The Senate resolution is an attempt to do just that. If you would like the "dead week" policy clearer and more easily enforced, now is the time for you to act. Be vocal: let faculty and administrators know how you feel. Make "dead week" dead completely.

Scandalous past is history

ecently, students of N.C. State University have become reacquainted with the past mistakes of the athletics department.

The Poole Commission report initiated by the UNC-System recently became available to the media, and the seedy details of alleged wrongdoings under former basketball coach and athletics director Jim Valvano are once again in the public eye.

Naturally, Technician believes that the people have a right to know what the report says. It is unfortunate, though, that this has once again become a front-page news itself.

page news item.

is time to let the information in the report become history rather that

While Technician regrets any violations that occurred under Valvano, thos

While Technician regrets any violations that occurred under Valvano, those violations are too far in the past to have any bearing on the current state of the Wolfpack basketball program. Head coach Les Robinson has already signed his third recruiting class and has established high standards for academic achievement and integrity among the players on his team.

Make no mistake — the program has been adequately punished for the mistakes of the past. The black cloud only now clearing over Raleigh kept away a number of top recruits, and we have seen the results in this season's 12-18 record.

12-18 record.

12-18 record.

It is time to allow the program's healing process to be completed, and there is no better man for the job than Robinson.

He has proven that he can bring in players with academic talents to go along with their athletic ability, even in a time when the university's name was sullied by probation. All of his recruits thus far have easily qualified academically. One was valedictorian of his high school class, another was recruited by Yale and several were Beta Club members in high school.

That type of leadership in the program will feed on itself as word gets out.

That type of leadership in the program will feed on itself as word gets out that pride and honor are back in Reynolds Coliseum.

Quote of the Day

"There's never been a good government." - Emma Goldman

TECHNICIAN

rts Editor

Student Senate makes little difference

stapted to me standartes for Student Government.

We've all seen them before. They're usually on colored paper and normally include a photograph, identification and occasionally some sort of slogan. Not much to base a vote on, I'd say.

We don't even have convenient party affiliations to help us choose between two guys we don't know. All we have is a grainy photo.

At the time, I didn't know when the elections were going to be held. Now, after reading Technician's "Student Body Election Special" in Wednesday's paper. I know that voting takes place today and tomorrow. Unfortunately, despite cartinizing the campaign flyers and the candidate statements, I still have no idea who I will vote for, if I actually vote this year.

who I will vote too, a re-year. I've decided to give my analysis of each candidate, based solely on what I've seen from them in public forams: Candidate 8'l (alphabetically) — Imran Haque. Through no fault of his own. Haque's comments did not appear in Wednesday's paper. Also, I haven't seen a flyer from him. There is nothing at all to vote on other than a name and photo in the

paper.

Candidate #2 — Chris Jones, Jones has no photo in the paper, only a black rectangle. He also doesn't have a flyer, at least not note that I've seen. His comments in the paper are, however, more interesting and detailed than those of any of his rivals.

Jordan

Opinion Columnist

Candidate #3 — Robert Lipon, Ligon's photo in Wednesday's paper definitely stands out from the others. His comments mention a "two-fold plan" to improve students' situations, which apparently involves opposing plus/minus and lobbying for increased scholarship money. (As if any candidate would oppose either of those things.) He had no flyter in my English class, though.

Candidate #4 — Tom Staats, Early on, I was impressed by his flyer with the posed portrait and the cleverly worded slogari. "Elect Tom Staats Student Body President." His photo and comments in Wednesday's paper portray him as the ultimate Student Government insider who is bassing his campaign on experience.

Government insider who is basing his campaign on experience.
Candidate #5 — Bob Starzynski, "Vote for someone who shares your concerns. Vote for Bob" is his slogan. He looks normal enough in his Technican photo, and his comments include a laundry list of accomplishments similar to Staats's. He does, though, have the best flyers I've seen. One of them has a posed outdoor picture and lists a number of experiences and qualities that Starzynski hopes will sway voters.

voters.

My choice, if I vote, will be Starzynski,
He seems competent, has a good flyer and
seems to have a sense of humor.

My prediction on the election's outcome, though, is that Staats will win. Several factors work to his advantage. He's photogenic, has a brilliantly thought-out logan "Elect Tom Staats Student Body President" and his last name is similar to current SBP Ed Stack.

For those who think I've focused too much on trivial things, I ask what else there is to consider. The things I've described are all that students have to go by when voting. These candidates, in their comments and on their flyers, seem to treat votes as favors, and with good reason. We wouldn't be able to tell a difference between any of the five if they were to take turns as SBP. It really doesn't matter to anyone, other than the five candidates, who wins the election. That's why there is so much so called "apathy" regarding the elections — It just doesn't make any difference who wins.

Don't get me wrong. The SBP job is an excellent experience for someone hoping to work in business or government, and it looks great on a resume. Also, all of the Student Government people I've met while working at Technician have been professional and courteous, particularly current SBP Ed Stack.

Still, it makes little difference to the students who wins the election, because the

professional and coureous, particularly current SBP Ed Stack.

Still, it makes little difference to the students who wins the election, because the only important thing the SBP does is build goodwill within the university and between the university and the community.

Those students who decide that they don't want to vote shouldn't be accused of apathy just because they don't take time to do something that won't affect them.

J. Keith Jordan is a junior majoring in English.

Brady Bill helps end handgun crime

Guns don't kill people — people kill people. But three out of five people kill people with guns, according to the FBI. With the alarming rate of violent crimes committed in this country, how could anyone object to the Brady Bill. named after James Brady, the former White House press secretary who was crippled in the attempted assassination of President Reagan in 1981, calls for a seven-day waiting period before the purchase of a handgun. The purpose of the waiting period is to allow time to check the purchase 's criminal and mental health records. Furthermore, the wait will provide a coding-off period to reduce 'crimes of passion.'

a cooling-off period to reduce "crimes of passion."

The bill does not attempt to bar a citizen from owning guns. It only assures that guns are not being sold to people who legally cannot have guns. Yet the National Rifle Association is running around the country screaming that rights are being violated. The NRA is pushing for a national computerized data bank allowing for immediate checks. While this may seem like a better plan, the NRA forgets to inform the people that not only would it take years to put such a data bank into action but it would cost hundreds of

Brewer

Opinion Columnist

millions of dollars to execute. The plan is little more than an attempt to halt an effective and much needed Brady Bill from passing. The NRA was beaten when the House approved the Brady Bill 239 votes to 186. The giant lobby of the NRA, which has 2.7 million members and an S86 million budget, was beaten by a gun-control group with a mere 1 million members and a S6.5 million budget.

Even Roaald Reagan, a life-time NRA member, supports the Brady Bill. The police departments have long been advocates of such a plan. Captain Bill Edison of the Houston homicide division is one of many top police officials around the country supporting the Brady Bill. He says, "I can't sit out here amongst the carnage I see on the streets and not support a waiting see on the streets and not support a waiting bill. A waiting bill will save X number of

lives. How many, we argue about forever."
Most important, American citizens are supporting the Brady Bill. In a March 1991 poll, 87 percent of Americans favored a waiting period.
If you doubt a waiting period would save lives, then take a look at Maryland. In 1990, Maryland implemented a waiting period before the purchase of firearms. The system allowed Maryland police to prevent more than 1.300 people from illegally buying guns from legitimate gun dealers. Maryland's rate of crimes committed with handguns was reduced by six percent. While six percent does not sound like a huge amount, remember that people could still go to neighboring states and purchase handguns.

The Brady Bill is limited legislation The Brady Bill is limited legislation because it does not require identity checks and does not attempt to remove guns already in the hands of criminals. So while the Brady Bill may not be the end to all violent crimes committed with handguns, it is a start.

Scott Brewer is a continuing education student studying English.

Do not choose sins to support your hatred

This letter is in response to letters from James Leonard and Jason Geier printed Monday, March 23. The two addressed issues are religious and social succepted sersion of the Bible is from King James, who was not a "good Christian." What was written was written by man and left up to interpretation by man. As for the most-quoted book, Leviticus, if you adhere to the stated chapters by Geier and Leonard, you must also adhere to the other.

other.
For example, 15:19-28 says: "Whenever a woman menstruates, she shall be in a state of ceremonial time; anyone touching her shall be defiled." In [9:19 it is strated: "Obey my laws: Do not mate your cattle with a different kind" (sorry Vet School), "don't wear clothes made of half-wool and half-linen:" (sorry Textile School) and

Technician

ampus

"don't sow your field with two kinds of seed" (sorry Agriculture). In addition, 19-27-28 states: "You must not trim off your hair on your temples or clip the edges of your beard" (boy, is our military in trouble!) In other places, sins include eating shellfish as well as marrying more than once

once.

My point is that we should not selectively enforce "sins" to support our hate, discrimination or simple misunderstanding. If one throws out a sentence of the Bible to follow, then don't cut your hair, eat lobster or eat beef.

The second issue to address is social. Statistics prove that 10 percent of our population is homosexual. This 10 percent includes your family, friends, fraternity brothers, professors and sorority sisters. Granted, the majority do not publicly admit it, but would you in North Carolina?

Nevertheless, the 10 percent are here.

I have a number of gay/lesbian friends that include doctors, lawyers, students, engineers and managers, and they have as wide a variety of interests as any other sector of society.

wide a variety of interests as any other sector of society.

Some get as wild as Barry's on Hillsborough Street Saturday nights, while others are as reserved as Aunt Bee.

Some have had a monogamous relationship for more then 10 years, while others enjoy the typical single life. My point is that the "gay lifestyle" is no different than any other "lifestyle".

Why spend so much effort, time and tax dollars hating, discussing, having laws, etc., on this truly mute issue when others such as education, the environment, homelessness and unemployment are so much more important?

all unbeaten. Intramural badminton is reaching the end of its season. Sig Ep plays Sigma Alpha Mu and Pika squares off against Sigma Chi in

Alexander. Alexander takes on Alpha Phi in the residence/sorority finals. The intramural track meet Luesday. Bowen, Metcalf and Phi Delt are looking to defend their championships. Big Four Sports Day takes place at UNC this year April 8. Big Four is an extramural competition between State, UNC. Duke and Wake Forest. The only event still open for registration is bowling. Registration closes Tuesday, Tryouts will take place Tuesday at 9 p.m. at Western Lanes Bowling Center.

Men's 400-relay paces Pack efforts

The competition was stiff and the wind was gusting, but the N.C. State track and field team still found a way to muster a few impressive performances at the 20th annual Raleigh Relays this weekend.

Laurie Gomez-Henes led the way for the Pack with a second-place finish in the women's 3,000 meters at the Relays that showcased performance.

mances by 700 attletes from seshools.

The Wolfpack senior fell behind Geraldine Hendricken of Providence College in the final lap of the race and notched a time of 9;19.00. Gomez-Henes, last year's champion in the 5,000 meters, became a provisional qualifier for the NCAA Championships.

The Pack men's 400-relay combination of Mike Williams, Thomas Daye, Tyrell Taitt and Reggie

Barnes-Smith finished first in a time of 41.06 seconds. Todd to widence College in the final lap he race and notched a time of 40.06 seconds. Todd Lopman, a 1992 indoor track all Lopman, a 1

finish solo-style Friday before his relay performance Saturday. The 5-foot-11 freshman captured the triple jump competition with a leap of 48 feet and 9 inches. Sea no Garland and J.B. Christian finished in ties for third and fifth place respectively in the high jump. In the long jump. Frank Bailey came up with a jump of 22 feet and 10 inches to leap into fourth place.

three runs in the fifth inning Drinkwater's lead-off double was

Drinkwater's lead-off double was followed by a Vinny Hugher grounder that was booted by Tech third baseman Reggie Johnson, scoring Drinkwater. After a Pat Clougherty sacrifice, right fielder Rob Winkler ripped a two-run home run to left. "I thought we had a very solid game today all the way around." Tanner said. "For the most part, we played good defense. We got some timely hitting, and our pitching was real good out of the bullpen again. I've been encouraged the last couple days about how our team is playing."

ple days about how our team is playing."
Saturday, the Wolfpack erupted for 10 runs in the fifth inning to come back from a 6-0 deficit for the victory before 1,112 fans at Doak Field.
Starter Matt Donahue struggled but pitched seven innings to up his record to 7-0 on the season. He allowed II hits, six runs (only two earned) and two walks while striking out six.

record to 7-0 on the season. The allowed II hits, six runs (only two earned) and two walks while striking out six.

With the victory, Donahue becomes the fifth pitcher in school history with 20 wins in his career. His career record at State is now 20-5. He also moved into sixth place on the career-strikeout list with his 202nd strikeout. Former Wolfpack star pitcher Mike Caldwell set the standards with 32 wins and 296 strikeouts during his 1908-71 career.

"Donahue wasn't extremely sharp, but he hung in there," Tanner said. "He kept us alive. That's the kind of pitcher he is."

Wolkosky, the ace of the bullpen. Stammed the door on the Yellow Jackets, pitching the last two innings and striking out three while allowing only one baserunner. Tech catcher Jason Varitek, who Wolkosky his with a pitch.

The Pack scored all 10 runs in the fifth inning. Consecutive singles by Barkett, Almond, Meszar and Borawski plated one run. A field-r's choice grounder by Bark scored another, and Drinkwater's double drove in two more. Hughes was then hit with a pitch. Clougherty singled in a run. Almond then connected for the grand slam, closing the door on the Yellow Jackets.

The series concludes Monday with a 3 p.m. start.

How Many More Will Die Before You Say "No!" To The Animal Rights Movement?

The cure for AIDS will come like every cure before it, through animal research

And yet, there is a growing movement of animal rights activists who oppose any use of animals in biomedical research. As one of their leaders. Ingrid Newkirk. stated: "Even if animal research resulted in a cure for

AIDS .. we'd be against it."

Although a tiny minority in our society, the animal rights movement will stop at nothing to achieve its aims. Their methods range from disinformation, to intimidation, to outright terror. Their efforts must be stopped, or all medical research may one day come to a dead halt

Americans for Medical Progress salutes the dedicated scientists who continue working against AIDS and other

diseases, despite fear and intimidation More importantly, we've formed the

Americans for Medical Progress Educational Foundation to spearhead the critical effort to educate American opinion

leaders and citizens about the necessity for animal research, if new cures are to be found.

You are invited to support the Americans for Medical Progress Educational Foundation. Your contribution will send a clear and unequivocal message to caring people everywhere that human life and the quality of human life are the number one priority of every sane, sensitive and thinking individual.

YES! I support the right of scientists to tax-deductible contribution to the Americans for Medical Progress Educational Foundation for:
