### Groups lobby to close bars By James Wilde

The noise and destruction caused by Hillsborough Street's nightime patrons have area residents pressuring the city to be more stringent when it hands out liquor licenses.

the noise stangent when it hands our happen licenses. The bars don't provide enough parking, and their customer parking is pouring over into our neighborhoods," said Mike Reider. It Community Watch president for the West Hillsborough Street area. He said city zoning laws require businesses to provide ample parking to support large crowds and that those laws aren't being followed.

businesses supporting N.C. State University aren't the problem, Reider said. The local bars and clubs have become the

nusances. "This neighborhood has had to fight harder than any other neighborhood to maintain its standard of living," said City Council member Mary Cates from District trict

The community group has contacted the ABC Commission and the Alcohol Law Enforcement Agency and demanded that more stringent standards be implemented

Hard as it may seem to believe, Raleigh Police have declared that during the first few weeks of class, ignorance of the law may indeed be an excuse to break it. This does not mean that you won't be arrested if you choose to throw bricks through Hillsborough Street merchants' windows. It does, however, comprise the philosophy behind the Raleigh Police Department's policy of leniency toward first semester froshman who break Raliegh laws.

By Eric Liebhauser

aliegh laws. According to Raleigh Police chief

Frederick Heinemann, the policy will provide a grace period in which brand new students can become acclimated to the local laws without immediately fac-ing serious repurcussions for breaking

them. "We want to be sure everybody knows the rules before we seek hardcore enforcement." Heinemann said. Heinemann told reporters that RPD will be working in conjunction with NCSU Public Safety to meet this goal. "If we see a student with an open container, we'll initiate [conversation] and inter-act."

act." Casandra Brown of RPD's crime pre-

vention unit said that police will extend the temporary immunity to new Hildstorough Street drivers as well. "We're exploring the possibility of susknowingty park in illegal spaces." Brown said. "If we see someone about to park in a widde spot we will tell them that they will be issued a ticket unless they move, we will try to keep the lines of commu-ication as open as possible." But police were quick to point out that their leniency had distinct bounds. Major partick Brown said "If a car is blocking a readway or a fire hydrant, it will be

towed." "We're somewhat restricted by man-dates." Brown explained. "Warnings may come into play but parking is a chronic problem. We will warn when we can but in many instances our hands are tied, we'll have to ticket or tow." Cassandra Brown said that students should act responsibly and not attempt to take advantage of RPD's good faith. "Parking illegally creates a great deal of tension between neighborhood residents and students. Blocking someone's drive-

Hillsborough Street: the place for students to shop, eat and interact during the day. Some nights, however, the market place can transform into a cauldron of drunken revelry. Homeowners complain about the noise which can accompany the party.

before the commission hands out liquor licenses. "It used to be that anyone could apply for a license, and as long as they paid their fee, they had a license to sell alcohol." Reider said. But Reider and his community have a lot

to accomplish before they make rowdy bar-lined strip as calm as they would like. "It's a stow process." Relider said. "Unfortunately, there are too many bars on Hillsborough Street already, and we'll de anything possible to prevent new bars

University appeals EPA audit result

#### By Dee Henry

N.C. State University's administrators are petitioning the Environmental Protection Agency's decision to cut NCSU's Pollution Prevention Research Center. The decision to axe the center came after allegations that NCSU misued between \$1 million and \$2 million in federal grant more.

million and \$2 million in federal grant money. An EPA audit found that 39 of NCSU's 69 federally funded research projects should not have been billed to the EPA. Of the remain-ing 30 programs, 12 were not reviewed in advance by the EPA and did not fit the pur-pose of the grant, auditor Ken Craiger told the Associated Press. Dation Leonard, auditor for the Southern Audit Division of the Office of the Inspector

General, said NCSU has now filed a response

General, said NCSU has now filed a response to the final audit report. There will be a meeting in Washington, D.C., August 25 between university and FPA officials. By September 30, the FPA will send the university a final determination letter, Dalton said. NCSU administrators insist the EPA's deci-sion to cut funding was unjustified. According to NCSU Provost Franklin Hart, the audit was carried out improperly. "What's unusual is that the agency discon-tinued funds before the audit is complete."

Hart said. Hart said. The funds were cut in August 1991, and as a result the center is struggling to function with funding from other sources, said William Klarman, NCSU's vice chancellor of

Research. But EPA auditors say they were right to cut

the cash flow. They questioned the amount of time Michael Overcash, the center director, devoted to his position. The agreement called for Overcash to work full time at the center and forego teaching classes while acting as center director. Auditors claim that Overcash did not honor this agreement and was teach-ing classes at the same time he was running the center. Klarman disputed this claim, stating that Overcash was not teaching at the same time he was center director. Leonard said NCSU administrators must owg othrough a judical process if they wish

Leonard said NCSU administrators must now go through a judical process if they wish to disprove the claims. He said the university has taken the proper steps by asking the Inspector General's auditing division to do a financial and compliance audit of NCSU's

"This new concentration is important because students receive natural resource training while attaining a perspective on the business world. [The new curriculum] gets students a little bit more focused on business skills," Gustle said. Gutthe acid the new ninese complete with the

skills," Gustke said. Gustke said the new minor coupled with the old majors will form a perfect synthesis. "We've married the tourism and commercial recreation to natural management." According to Gustke, the course work now focuses on tourist management. This curricu-lum provides prospective amusement park managers with the skills they need. "It is coursework which focuses on attrac-tion managements," Gustke said.

According to Gustke, this training is espe-cially important to the student who wishes to work in North Carolina. "Trourism industry in North Carolina is] doing very well," Gustke said, In 1992, tourism was a \$7.3 billion industry in the state. Statistics from the National Park Service show that 6.5 percent of all tourists to North Carolina visit national parks. By virtue of this fact, North Carolina is second only to California in the number of visitors to nation-al parks. "North Carolina depends on natural resources," Gustke said. The major also offers a chance for students to participate in a co-op program.

Nige Alana Craft has battled back from injury to become a 1992 co-captain.

# A resurrected career

#### Craft named co-captain two years after ACL tear By Jeff Drev

For most athletes, the memory of a torn anterior cruciate ligament would bring images of pain, denial, inactivity and frustration. For N C State women's soccer player Alana Craft, however, the memory of her injury brings back visions of awak-enings, renewal, enthusiasm and hope. "When I got injured before my third season. it really made me

"When I got injured before my third season, it really made me want to play," said Craft, a fifth-year semior who tore her ACL after her sophomore year and could not play the next season. "The injury] intensified the way I play. It was the first time that I've ever had to sit out for that long. It made me realized how privileged I am to be able to play.

realized how privileged 1 am to be able to play. The share of the set of the set of the set of the years, and 1 think 1 was just kind of out there playing. Now, I don't take it for granted." In many ways, Craft's injury stands as the peak of a hill — a divider between the two halves of her career. Before her injury, she

Captalin two years was a significant contributor to the only two Final Four appearances in State's history. As a highly touted freshman from Desoto, Fexas, she started in all 24 games while help-norm of the part of the two starts and the interpret of the two starts and the promotion of the two starts and the four assists to help State return to the national semifinals. But though her statistics were import was ebbing. She was losing her sintex 'strial four match against North Carolina. By the time her sophomore season. Closed, Craft was facing an uphil battle with enerself. "It think I was in a slump during my sophome season. Clarf said." When Craft returned to the wascer field last year. Hat attitude had shifted 180 degrees. Like a bicy-clist peddling down an incline.

August 21, 1992

tum she developed during her niac-month rehabilitation to motivate her return to action. "That summer before practice, I worked for two months in a soccer emp." Craft said. "It was great because 1 got to play and coach soccer every day, and 1 also got to train because we trained every morning. By the time I went to practice, I was ready." Upon her return. Craft celebrated her return by stepping in as the Pack's new center haltback. Providing State with a strong mid-field presence, Craft scored six goals and added an assist as the squad won its first 14 games and tournament. Along the way, she also provided inspiration for her teamnates."

She came out really strong in the re-season last season," sophomore midfielder Suzanne Gerrior said, "She always is very intense in prac-tice, and she showed us that you have to have your intensity in prac-

A paper that is entirely the product of the student body becomes at once the official organ through which the thoughts, the activity and in fact the very life of the campus tre registered. College life without its journal is blank. Technician, vol. 1, no. 1, February 1, 1920

# Get a good speaker

aul A. Tucker Jr., appoint-ed as current chairperson for the 1992-1993 Commencement Committee, has the distinction of

presiding over the body that will Chancellor ecommend to Monteith a speaker for this year's exercises

The individual chosen to speak before the assembled graduates of this university should not only be endowed with the ability to impart gems of wisdom but should also be able to enthrall the crowd with the vibrancy of the quintessential statesman.

As a major international univer-, N.C. State University also needs to attract an orator of a caliber that will further establish its credentials as a world player in the field of education.

Using recent history as a guide Tucker should easily be able to better the choices of his predeces-

Not to cast a pall upon those previous speakers, but three out of the past five years the commencement address has been delivered by people of local or, at

best, regional fame. The exceptions have been 1990's speaker, Maya Angelou,

one of the eminent voices of contemporary black literature, and 1988's speaker, Edwin Newman, the widely respected journalist.

But as notable as these two are. they nonetheless peak the inter-ests of a rather narrow spectrum

of NCSU's academic society. With the wide respect of NCSU's aerospace engineering program, shouldn't NCSU be able to attract the likes of Neil Armstrong or Chuck Yeager, rather than former Chancellor John Caldwell, as it did in 1992?

Based on the strengths of NCSU's department of poultry science, how about choosing a dynamic personality and speaker such as Frank Perdue, rather than stay in-system with former UNC-System president Bill Friday, as NCSU did in 1991? The depth of NCSU's political

science faculty should be able to yield a Jesse Jackson or a John Sununu, instead of Governor Jim Martin, who spoke in 1989. And doesn't NCSU's computer science department warrant the

attention of someone like Steven Jobs, co-founder of Apple

Computers? Do you get the point yet?

# **Be grateful for TRACS**

f you have used N.C. State University's TRACS sys-tem at peak-use times such as the first day of a registra-tion period or the first several

days of classes, you probably experienced repeated busy signals as you tried to get through Likewise, you probably felt frustration as you realized that some (or all) of the classes you called to register for were already full. You may have even slammed the phone down, cursing the "damn' TRACS system.

But as you sit in the comfort of your home, in close proximity to your refrigerator and television, don't be too quick to gripe. Students who have been here for more than four years can tell you horror stories about how it used

to be if you needed to change sche dule.

Back then, if you wanted to drop/add, you had to stand in line outside of Reynolds Coliseum for hours waiting to get in the teem-ing madhouse. Inside, you lined up again, this time waiting to get to the table of the academic department you needed. If you stood in one line for 30 minutes. got to the table and found out that the section you wanted was closed, that was your tough luck. Some students left Reynolds with a look of pure disbelief; some left really angry. So count your blessings as you

sit on your couch, talking to the "TRACS man", trying to get the class you want. At least you're not standing in a three-hour line

Hey ... Have you guys read Chapter 11??? Oooooh Yeah ... 2 ź WANG PROCOPIO 92 CHAPTER IN RUTTEY TP ANOT TWAT

## Vendors in tunnel cause rainy chaos

How many of you had the misfort How many of you had the misfortune to use the free-expression tunnel Thursday moring? If you managed to avoid doing so, consider yourself blessed with good sense or good timing. You see, on this rainy morning, good sense collided with enterprise, and resulted

I specifically refer to the abrupt appe

I specifically refer to the abrupt appear-ance of a particular group of people in the business of selling various visual expres-sions otherwise known as posters. There is no denying that there is a consid-erable market for this particular medium of expression, particularly among those of col-lege age, and the ability of a business con-cernt to "set up shop" and sell their wares among such an audience is distinctly advan-tuments in our concerned tageous to all concerned.

tageous to all concerned. The vendors get the opportunity to bring their product directly to the intended con-sumer and any inconvenience to a potential buyer is mitgated by the proximity of the goods in question to the normal travels of said buyer. For this reason, many vendors are permit-ted to assemble their appoint at a rations

For this reason, many vendors are permit-ted to assemble their goods at various places on campus, most notably at the semester's beginning.

Indeed, many students have not only Indeed, many students have not only become accustomed to the appearance of the vendors, but actively await their arrival. The folks selling the posters have every right do so. They have acquired the proper vendor's permission through the Office of Student Development, who, presumably,

are reasonably assured of the vendors legal and ethical status in the business communi

ty. The vendors have even negotiated with the same campus authorities about the proper location in which to set up their goods for our perusal. For several days, these poster pushers have amiably established their presence at the south end of the tunnel; their posters were conveniently displayed in a wide area of the brick court

of the brick court

of the brick court. It appears though, that the impending rain dashed their hopes of a successful day of business Thursday. So they did what any other savy business person would do in the same situation. Apparently not in posses-sion of a tent, they petitioned Student Development to allow the continued sale of their posters under cover of the tunnel. Arain, this was a wise devision on their.

Again, this was a wise decision on their part. Without protection from the elements, their posters would have turned into a pile of recyclable pulp.

their posters would nave of recyclable pulp. But which wonderfully insightful individ-ual at Student Development granted them individual to set up "in" the tunnel.

Throughout the morning, Public Safety reported that there were numerous com-plaints concerning the situation. All inquires into the matter were dutifully and properly referred to Student Development Student Development, for their part, extended the poster people permission to vend in the tunnel, provided they did not block the passage of said tunnel. The fnasco which some viewed Thursday morning apparently cance under the heading of "fair passage" according to Student Development. Throughout the morning, Public Safety

st 24, 1992

Development. Oh, for those of you who did not personal-ly witness this abrogation of responsibility, allow me to paint the picture. Imagine the tunnel at peak usage. Now imagine the same tunnel at peak usage with fully half of the passage completely biomed. blocked.

How incompetent does an individual have How incompetent does an individual have to be not to recognize that any obstruction of the free-expression tunnel will result in a jam of mammoth proportions and possibly cause physical harm to those who use it. Yet they found that the resulting blockage, constructed through their own permission, did not warrant a radical and swift alter-tion.

ation

Sometime between 11 a.m. and 4 p.m. this situation was fortunately corrected, but I must wonder how long it takes around here to figure out that a mistake has been made? And, further, how long does it take

### Bush could be the Carter of the 1990s

Money has always been and always will

Money has always been and always will be the guiding factor in the everyday lives of everyday people. Money is why we spend four years of our lives in school and then go to work five days a week for the next 45 years. When the economy is good, the masses are happy and content. When the economy goes bad, we are a bunch of pissed-off devils looking for blood. Right now, we sem to be pissed-off devi-ls looking for blood. The blood in question is that of George Bush. It is e usy to slam him for the high unemploymet. rate. slow growth, uneven trade and a host of other economic aliments. Some of them he deserves, some he doesn't. But that is not a matter of concern for us — the broken and downtrodden wondering where the money will come from to make our next BMW payment.

This kind of anger has happened once This kind of anger has happened office before in our lives. In the summer of 1980, Jimmy Carter was fighting high unemploy-ment, high gas prices, slow growth and the Iran hostage crisis. The people looked to him for guidance and leadership, and he could not deliver.

ould not deliver. Bush had the Gulf War to help him along, but that ended, as did his high ratings. Now he hovers around a 30-percent approval rat-ing that seems in jeopardy of falling even lower, regardless of what he does. Like

#### Russell Deatherage

Opinion Columnist

Carter, it is happening to him at the worst possible time — re-election time. Many insist that Bush cannot stand on his

Many insist that Bush cannot stand on his economic policy as a way to woo voters, that he must find another way to kill Clinton — marital infidelity is the one presently being used. Carter could not stand on his economic policy so he portrayed Reagan as a warmonger set on destroying life as we knew it. This prediction came true but not in the spectacular way a nuclear war would have war would have.

Bush finds himself in the unenviable pos Bush finds himself in the unenviable posi-tion of telling us Clinton will destroy family ralues and the American way. Bush is push-ing his war efforts as a sign of divine intelli-gence, while Carter could only brag about bringing peace to the Middle East. Peace didn't work for Carter, and it will be a sad commentary if war works for Bush. The feds during Carter's administration raised the interest rates in an effort to con-trol inflation. It worked, but not until

Reagan had gained office and able to Reagan had gained office and was able to claim an economic victory off of a strategy he condemned during the campaign. The feds have helped Bush by cutting the inter-est rates in an effort to simulate business. Some economists feel that this will work but not before November. Clinton may well be able to use an old Republican trick. A big number that gets thrown around a lot is the federal deficit, which currently stands at \$317.9 billion. During the final months of Carter's administration it was

months of Carter's administration it was months of Carter's administration it was \$48.1 billion — over 6.5 times smaller. Bush is having a hard time explaining that one while selling Reaganomics to the peo-ple. The masses are tired of the same rhetoric that is spewing forth from politi-cians. They want jobs, more encouraging numbers, a better outlook and, most of all, characterized and the same second second second second features. change

Both Clinton and Bush are promising Both Clinton and Bush are promising change. Unfortunately, Bush, like Carter, has a record that is not going to help much. Clinton, like Reagan, has no record of note that will hinder him, so he has only to con-vince the people that he can do the job. This is what got Reagan elected and may well get Willy elected. It is Bush's job right now to convince the American people that he can create the

American people that he can create the desired change. If he can, he will remain president

### Schweitzer ready and willing for role as the underdog

Wolfpack defender Scott Schweitzer figures to be a key for the depleted men's soccer team, which won yon 13 games a year ago.

### By Anthony Black

Stoff Writer George Tarantini has always tught his players to play soccer in one direction — forward. His men-tality has always been if you don't score, you can't win, and for the past six years he has had the fire-power to back up his theory. This season, however, N.C. State's offensive soccer cupboard has been empide with the losses of all-stars. Henry Gutierrez, Dario Brose, Roy Lassiter and Alex Sanchez. Now more than ever, Tarantini will have to count on the leadership of senior sweeper Scott Schweitzer to clear the ball from deep in his own territory and to get it into the hands of the new-look offense.

It into the hands of the new-look offense. "We are not going to change our style any this year because of the losses," Schweitzer said, "Our goal has always been to attack, and regardless of the makeup of our front line, we are going to continue to do that this season."

Schweitzer knows this, because he has seen the Wolfpack struggle

<text><text><text><text><text><text><text><text><text><text><text>

simultaneously enthralled and

Fielder in a sweeper's body, had lit-tle problem making the transition after his sophomore season. "Coach Tarantini needed me to move from midfielder to sweeper, so I moved, "Schweitzer said. "It wasn't a big deal." "Scotty is a very versatile player for us." Tarantini said. "When he holds the ball, he has the responsi-bility and ability to control the game."

bility and ability to control the game." After this season, Schweitzer has aspirations of playing professional seccer or maybe making his mark on the 1994 World Cup team. "After school, I really would hove to play in Italy or Spain." Schweitzer said. "And playing for the National B team. I'm just one step away from playing in the '94 Cup. But that will all wait unti-after this season." It's Schweitzer's high expecta-tions and low-key attitude that may spell the difference for a team that enters the 1992 season with a huge question mark over its head, but if his teammates catch the spirit, it may be an another unforgettable may be an another unforgettable year for the Wolfpack.

# Bird's retirement induces Boston memories of yesteryear

Another piece of my childhood came to ane dWednesday when I heard that Larry Bird had announced his retirement from bas-ketball at a press conference in Boston. The three-time NBA cham-pion and recent Olympic gold medalist ended his career in typical fashion by simply saying that his chronic back injury had caused too much trouble and that another NBA season wasn't worth all that pain and suffering. Thad been expecting and even hoping for this amouncement since I had watched Bird hobble through the Barcelona games. Nevertheless, I was stunned by the decision. The realization that my favorite player would never again grace us with his presence on the court overcame my

desire to see his career end on a high note. Like an addict suddenly deprived of his favorie drug. I immediately attempted to fill the void by search-ing for a replacement. But after scouring in vain through the rosters of all 27 NBA teams, I realized once again what I had always known to be true: There is only one Larry Bird. My first memories of Bird go way back to before the 1978-79 college

Ralph

basketball season when I discovered his name heading the list of the top returning scorers in the nation. Enamored by statistics and fascinat-ed with the typically goody picture of Bird that accompanied the list. I instantly became a Bird fan. About four months later. I discovered I had made a very good choice.

made a very good choice. Bird's undefeated Indiana State Sycamore team was batting DePaul in the semifinals of the Final Four, and I had a front-row television sear for my second look at "Bird Basketball". I had watched Bird lead ISU past Arkansas in the Midwest region final just the week before, and, as a result. I studied his game against DePaul with an atten-tion level previously unattained by my nine-year-old mind. I was

Continued from Page 5

Kraft

simultaneously enthralled and amazed. The Larry Bird who played that day was the perfect role model for semi-coordinated, funny-looking, non-athletes like me. He thew up off-balance fall-away shots, he stumbled over tables diving for errant passes. In the end, he did looke balls, he lunged and dove for errant passes. In the end, he did verything to win the game except look good. I really liked that.

Thirteen years later, I still like that. The complete game that Larry and his partner-in-precision Magic Johnson brought to the NBA has improved the sport immensely. The indifference and one-on-one play that plagued pro-basketball in the O's has been replaced by the enthu-siasm and team basketball that has

spurred the NBA to the popularity it spurred the NBA to the popularity it enjoys today. And Bird has influenced the game opt of the spotlight as well. His unmatched work ethic and practice habits have been irritated by the next generation of NBA superstars, and his discipline and attention to detail has also made an impact.

detail has also made an impact. But Bird's biggest contribution to the sport is one that is not so easily imitated or duplicated. It is an inherent girt that sets Bird apart from other players and allows him to stride in that special sphere reserved for only the truly elite in sport. It is his feel for the game. With the exception of Magic, no player that I have ever seen play has been blessed with the extraordinary on-the-court awareness that Bird

leadership in the midfield is crucial to our team this year." As her last season approaches, Craft is trying to use her influence on and off the field to help unity State's large and talented freshman class with the rest of the squad. If she is successful, her squad may have a legitimate chance to recap-ture the ACC title and win that clu-

enjoyed. Bird's ability to read and adjust to the flow of a game allowed him to blend into the action allowed him to blend into the action and manipulate the outcome. Whatever ISU or the Celtics needed to have in a particular game, Bird would almost always deliver. It iddn't matter if i was a shot, pass, rebound or a steal, Bird instinctive-ly provided what was necessary at that moment.

In the end, the overriding result of Larry Bird's participation in basket-ball was a more exciting and enjoy-able game. And though we will not be witness to his marvelous skills anymore, we will have our memo-ries to remind us of when he played the game. For that, I am forever thankful.

sive national crown. "My main goal is to get us to work as a team, not as 11 individuals." Craft said. "I want to see everyone give their best effort. "Eventually, the goal is to win. I would love to finish my career by getting the two biggest wins — the ACC tride and the national title. "That's my highest goal."

Says: tice so you will have it in games." Craft's teammates showed their appreciation for her efforts by electto rot do drugs or go will end up really stupid. ing her as a team captain in the spring. According to Coach Larry Gross, Craft's new leadership role is one she's adjusted to very well. "Alana Craft is a fifth-year senior who shows more improvement, more competitiveness and more leadership in every practice," Gross adi "She can be one of the most dynamic players on our team. Her
