## NCSU enlists help in march toward diversity

Editor's Note: This is the final installment in an eight-part series on diversity at NCSU.

The Diversity Initiative at N.C. State is a frontier-breaking event, compiled with proposals, ideas and strategies to convert the university into a "cultural mecca" of the 21st

university into a "cultural mecca" of the 21st century.

Behind the scenes are dedicated faculty and staff members who have given their misghtful and intellectual aid to the project, creating a blazing trail for the rest of the country, and the world, to follow.

Three groundbreaking scholars shine among a pool of brilliant agents in progressive movements—Joanne Woodard, lyalln Moses and Lathan Turner.

These stellar human beings came from different walks of life, all from distinct locations in southeastern part of the United States. Yet their objective is the same—to continue creating a collage of different reaces and culture at N.C. State.

This trio will the give the NCSU community an evaluation of the current status of diversity, a forecast of the path NCSU can take with the initiative and the means by which it can become a reality.

### Inanne Woodard

"You want a rigorous exchange of ideas," said a very enthusiastic Joanne Woodard, when asked to offer her meaning of diversity. "Diversity means a plurality of differences and ideas when you get people engaged in agazing through her office window with glowing confidence. Woodard is indeed a representative of confidence. She is the assistant provost for equal opportunity, a position she has held since Jan. 1997. Woodard was the replacement at the helm after Lawrence Clark, who left the position after 21 years. "He left administration, and I took over last year," she said.

year," she said.

Woodard is a native North Carolinian.

Having grown up in Charlotte, she went to
Winston-Salem State University where she
earned a degree in history. At the University

of North Carolina at Chapel Hill, Woodard earned masters and doctoral degrees, both in

istory.

Diversity in the university is something that ever ends, but its foundation is crucial, she

never ends, but its foundation is crucial, she said.

"Diversity is what you're looking for in a world-class university," she said. "You're representing a microcsom of the university," Woodard says that NCSU has only just begun its journey for a diverse campus.

"To get where NCSU wants to go, we haven't done enough, but we have grown in numbers over the years."

Woodard recalled the days when NCSU was overwhelmingly white and male.
"We've gone from a white male dominated school to one of people and color in the administrative ranks," she said. "We're not just a group of old white boys anymore.
"You need new blood to stimulate things."
The rise of women in power at NCSU has been remarkable in the last ten years, and Woodard marveled at how fast they are being snagged away by other institutions.
"We've had quite a lot of women. Some of these women are moving up and breaking into administration," said Woodard. "We can't retain them."

The breakdown of diversity in the faculty at Sec Gurus, Page 2.

## Parking redesigns zones

### Same parking situation, new zones.

LEA DELICIO

Assestant News Editor

Parking on campus is about to get easier, but it comes with a price.

With a new set of parking zone assignments, N.C. State transportation hopes to make parking more convenient for both commuters and residents, clarify zone assignments and simplify the traffic flow around campus, said Greg Cain, associate director of the Division of Transportation. But all these changes and combinations will come at the expense of the NCSU community.

The current "C" and "E" zones will be combined to make a new "D" zone. This zone will encompass a large portion of the parking around the residence halls and will be primarily for students living in residence halls.

"This puts all the residents basically on the same playing field in terms of getting a parking permit," said Cain.
"G" and "F" zones will be combined to make one "E" zone. This "T" zone will be combined to make one "E" zone. This "T" zone will be combined to make one "E" zone. This "T" zone will be combined to make one "E" zone. This "T" zone will be combined to make one "E" zone. This "T" zone will be combined to make one "E" zone. This "T" zone will be combined to make one "E" zone. This "T" zone will be combined to make one "E" zone. This "T" zone will be zone.

parking permit," said Cain.
"G" and "F" zones will be combined to
make one "E" zone. This "E" zone will be
primarily commuter parking. Cain hopes
this will allow more parking permits to be
sold to commuters.
The zones' costs were decided by taking

his will allow more parking permits to be sold to commuters.

The zones' costs were decided by taking an average of the total revenue in combined zones. For instance, the total revenue from the "C" and "E" zones was computed and then averaged to decide the price for the new "D" zone. What this resulted in, Cain said, is a \$12 increase in price for those who currently hold "E" permits and a \$12 decrease in price for those who currently hold a "C" permit. The same method was used to compute the price for the new "E" zone formed from the "G" and "F" zones.

In addition, prices will rise for everyone holding an NCSU parking permit. "We 're going to have a 10 percent across-the-board fee increase in all parking permits this fall," Cain said.

According to Cain, this increase was a separate decision from the parking zone changes. The 10 percent increases is due to increases in transit, lighting and lot cleaning costs.

cleaning costs.

The result is that current "E" permit holders see a 14 percent fee increase and current "C" permit holders see a 4 percent increase. When the "G" and "F" zones form the new "E" zone, the fee will be about \$110\$. Parking at Avent Ferry will actually cost less than it does now. Aside from the 10 percent increase, the fees for

cain said the new plan will improve upon the current plan, which was instituted in 1990. Those working on the new plan felt the 1990 plan was flawed. "When it was developed, the concept was looking at Harrelson Hall as the

was looking at Harrelson Hall as the center of campus and basically considering that that's where everyone was trying to get to, which is really not true," Cain said.

It used to be that, the further one parked from Harrelson Hall, the less expensive the parking permit. Cain said changes have been made since 1990 that have made the plan more and more complicated. Like adding "8" parking near Biltmore and Jordan halls for faculty.

"Every time there seemed to be a

"Every time there seemed to be a problem or something new developed, we'd just create a new letter or create a new subset of a letter or add some sort of restriction," Cain said.

The plan became more and more

complicated for DOT staff to understand, let alone explain to others.

The new plan uses what Cain calls a "home-base" concept. This concept assumes that students are eventually trying to get to their residence halls and faculty are trying to get to their offices.

"For commuting students, that's a little more difficult because they're trying to get to where their classes are located." Cain said.

The Reynolds Coliseum and Dan Allen parking decks will remain CC and CD and be used primarily by faculty, staff and commuters. Cain said CD parking will eventually be filtered out because no new CD permits will be sold.

Zone changes will also affect the Avent Ferry Complex, E.S. King Village and Fraternity Court, all of which will be included in an "F" parking zone. This will be the only permit that people living in these areas can obtain. Cain said the hope is that people in these areas and their residences and take the

## Troublesome corner to feature helpful traffic light

### A new speed bump will make a dangerous crosswalk a little safer.

JACK DALY

For all those who have either waited endlessly to take a left-turn onto Western Boulevard from Dan Allen Drive or have nearly been hit by a car crossing Dan Allen in front of Bragaw Residence Hall, the Department of Transportation has a solution.

The Department of Transportation in as solution.

The Department of Transportation is planning to add a left-turn arrow for traffic turning southbound (towards downtown Raleigh) not Western Blvd. from Dan Allen. Transportation also has plans to place a speed bump in front of Bragaw Residence Hall on Dan Allen, identical to the speed bump in front of the Dan Allen parking deck.

For the addition of a left-turn signal, getting the state's approval is the final hurdle, according to Cathy Reve, director of transportation. The city of Raleigh has already agreed that heavy traffic in the area warrants a left-hand turn arrow.

We have talked with the city of

"We have talked with the city of Raleigh," Reeve said. "The city did a

study and agreed that there was a need for left-turn signal. And have sent the proposal to the state, and we are waiting for their response. We will know in the middle of Pebruary if it has been approved."

The only thing that could prevent the turn signal from becoming a reality is the state rejecting the plan. Reeve does not think that will happen in this case.

"The state usually goes along with what the clty says," Reeve said. "The city is optimistic of getting it in by May." If approved, the turn signal will cost between \$5,000 and \$7,000 to install. Jeff Mann, associate vice-chancellor for business, and consequently the Department of Transportation, has offered to pay that fee, according to Reeve. NCSU transportation also hopes to add a speed bump in front of Bragaw on Dan Allen. The proposed speed bump is identical in design to the one that is in front of the Dan Allen patking deck near University Towers.

According to Reeve, the installation of the bump is contingent upon funding. The cost of constructing the bump is an eye-popping \$50,000.

If transportation receives the funding, it hopes to have the speed bump in place by the summer of 1999.

If transportation receives the funding, it hopes to have the speed bump in place by the summer of 1999.

## Dean goes abroad to create support

### ■ The NCSU Alumni Association may soon be expanding overseas.

VIVIAN HOWARD

The newest branch of N.C. State's Alumni Association likely will not be in some remote area of the United States but in distant Asia.

This is due in large part to the efforts of NCSU's dean of graduate studies, Debra Stewart, who recently traveled halfway around the world to meet with NCSU

alumni.

The main purpose of her journey was to familiarize graduates in Taiwan and Hong Kong with recent events surrounding the NCSU campus, as well as general

happenings within North Carolina.

Dean Stewart spent most of her time at the National Taiwan University in Taiwan, but she also visited and conversed with alumni at the Chinese University of Hong Kong. She not only spoke to the group about new innovations at Centennial Campus but also labored to establish better inter-institutional linkages between three far east universities: the National Taiwan University, the Chinese University of Hong Kong and NCSU.

By visiting with these graduates, Dean

of Hong Kong and NCSU.

By visiting with these graduates, Dean Stewart learned that no matter the distance, a graduate always harbors a special interest in his orher alma mater. She sensed a great deal of loyalty and interest in NCSU.

One of the most common questions she fielded concerned the success of the men's

basketball team.
Most of the Asian alumni received their masters at NCSU and studied in predominately science-oriented fields. Stewart proudly reports that NCSU alumni are highly placed in government as well as industry within their native countries. They feel American research universities are the best in the world and that NCSU ranks among them.

Them Stewart alone with many other.

Dean Stewart, along with many other NCSU officials, hopes the action in Asia will eventually blossom into a thriving alumni association, one which will serve as a model for groups of overseas alumni all over the world. They want the interest in Taiwan and Hong Kong to mark the beginning of a global community for NCSU graduates.

# Friday IN BRIEF

### Wolfpack falls to Florida State

N.C. State was unable to hang on to a five-point halftime lead on Wed. night in Tallahassee dropping their sixth conference game, 64-52 to the Florida State Seminoles. The 'Noles held the Pack to just 19 second-half points, forcing a total of 13 State turnovers

half points, forcing a total of 13 State turnovers in the game.

Archie Miller, named the conference's Rookie of the Week last week, led the Pack with 18 points in 38 minutes of play.

Ishua Benjamin scored 12 points, and added four assists and four steals.

Terrell Baker scored a game-high 20 points for the Seminoles. Baker was one of four players to score in double figures for Florida State.

The Pack takes its act on the road this weekend, traveling to Clemson, South Carolina to take on the Tigers. The Tigers picked up their fifth conference loss against UNC-Chapel Hill. They committed an ACC record of 41 fouls in the 88-79 loss.

### Pi Kappa Pi announces nominee requirements

N.C. State's chapter of the National Honor Society, Pi Kappa Phi, which recognizes and promotes academic achievement in all disciplines, has announced its requirements for spring nomination. Seniors: Top 10 percent of graduating class, 1997 minimum GPA of 3.805, completed at least 45 NCSU hours, enrolled for at least three full semesters. Juniors: Top 3 percent of class, 1997 minimum GPA of 3.946, completed at least 45 NCSU hours, with minimum 75 hours overall. Graduate students: 1997 GPA of 4.0, at least 18 NCSU graduate hours of "A", grade, must have no grades of "U" or "NR."

For more listings and information, please contact Carolyn Maidon at 515-7160, Dr. Gerald Hawkins at 515-3151 or Dr. Grace Finkle at 515-2423. Concerning graduate students, contact Dr. Robert Sowell at 515-7052.

### Baseball season kicks off again

N.C. State will kick off the 1998 baseball season today, taking on Tennessee in the ACC Walt Disney World Baseball Blast in Orlando, Florida. The NCSU Wolfpack will take on the University of Tennessee Volunteers at 11 a.m. in the first of three games that Coach Elliot Avent has his team ready for this weekend.

On Sat. at 7 p.m., the Pack faces off against Notre Dame, and then will take on Ohio State at 3 p.m.

3 p.m.

The NCSU team is anchored by strength on the mound provided by the junior quartet of Kurt Blackmon, Bubba Scarce, Dustin Baker and Rodney Ormond.

NCSU's lineup will feature all-conference performers Jake Weber and Brad Piercy.

State is one win and no losses all-time against the Volunteers, and will see Notre Dame and Ohio State for the first time in the sport's 94-year history.

## OUTSIDE DAD

10 34 HI 55

NCSU is revealing. African Americans and Native Americans represent a small fraction of the faculty.

faculty.

"The second largest group tenure-wise to whites in the faculty is Asian. The slowest growing faculty group would be Native Americans." Woodard said. "We try to do a good job in recruiting African American women."

Woodard said. "We try to do a good job in recruiting African American women."

For diversity at NCSU to take the road into the 21st Century, Woodard hopes a chancellor will be hired who can promote diversity to the ability that retiring Chancellor Larry K. Monteith has.

"You want to hire people who will take you into the 21st Century. Monteith's retirement is a wake-up call," she said.

Debra Stewart, the dean of graduate studies, is a prime candidate to replace Monteith in Woodard's eyes.

"Debra is a top candidate for the position of chancellor. She's got the experience," said Woodard. Stewart seved as the interim dean at the UNC-Greensboro, and is constantly being recruited from all over the country.

"It think she's very committed to NCSU, especially graduate students," Woodard said with authority. "She's high-caliber and quite impressive."

Getting the idea about the advantages of diversity to the public is a laborious task at NCSU, and can be witnessed when viewing events sponsored by the African-American Cultural Center (AACC). On most occasions, there are little or no whites, asians or other non-black races at these events.

Such is the case for events sponsored by the Asian Students' Association, or any other minority group, Races tend to stick with each other.

"If we can somehow disseminate information about diversity,

"If we can somehow disseminate information about diversity,

different cultures will come out. Action has to be taken by the individual," Woodard said

individual." Woodard said
Woodard used an example of a
student about to study abroad in a
foreign country and how beneficial
it would be for that student to spend
some time with an individual from
that perspective country.
"Why not eat lunch with
somebody from a foreign country?
"What can that person tell me?"
she said. "That's appreciating
diversity."

diversity."
For diversity to flourish, Woodard emphasized the need for affirmative action. She reviewed exactly what

emphasized the need for affirmative action. She reviewed exactly what affirmative action is.

"Its original intent was to take positive steps or action and recruit qualified minorities widely," said Woodard.

Woodard went on to say that affirmative action is an adventishing less-qualified individuals to fill race quotas.

"That is not what affirmative action is all about. They're going to meet your qualifications," she said.

"Why not give somebody the job who might bring some diversity to the job, and race shouldn't be the only factor. But the bottom line is that they should be qualified."

Another ACC school is on the same road to diversity as NCSU. The University of Maryland at College Park has a diversity initiative well underway.

"They are fairly comprable "initiative well underway.

"They are fairly comprable "in size," said Woodard. "The University of Maryland is very successful in mapping out the plan on their campus.
"Their plan is a model for others to follow."

Joanne Woodard attempts to teach HI 372 and HI 373 every other

Joanne Woodard attempts to tea HI 372 and HI 373 every oth

semester.

"It keeps me current with literature and up-to-date with the history profession," she said. "But it's very difficult time-wise."

Looking down the road, Woodard said there were two things she would love to do in the future.

"I would love to treach history and

"I would love to teach history and travel," laughed Woodard, "but not necessarily in that order."

### Ivailu Moses

Iyailu Moses, the director of the African American Cultural Center, is the cardinal example of

"I'm a first-generation college graduate, and the first doctor in the family," said Moses, in a powerful

tone.

Moses' history is nothing short of prowess. A native of Fort Pierce, Florida, Moses graduated from high school at the uncanny age of 16. She then moved to New York City, living in both Brooklyn and Manhattan.

Manhattan.

She did her undergraduate work at The City College of New York, earning a degree in English, with aninor in education. Moses also earned her master's in education at City College.

Moses arrived at NCSU in 1982, where she earned her doctorate in curriculum and instruction.

The definition of diversity to

The definition of diversity to Moses is intriguing.
"I guess I could say that it is various human lifeforms," she said Moses has a unique roll at NCSU in the trajectory of the diversity initiative.

initiative.
"I've been asked to look at work that has already gone on to committees," Moses said. "and have some input into their plans.
"My name has been offered for participation and activities."
To enhance the diversity initiative, Moses mentioned how useful discussions and forums are.
"Probably the greatest thing is to have discussions," she said. "The C.T. Vivian Racial Awareness Series was an example."

C.T. Vivian Racial Awareness Series was an example."

The C.T. Vivian Racial Awareness Series was at one time a prominent activity here at NCSU, but faded out of existence in the last few years. C.T. Vivian is a well-known and prominent civil rights activist, who marched with Martin Luther King Hr. Luther King Jr

Moses also added that race must be the primary issue in the

foremost," said Moses. "That's what's holding us back to be the kind of people we need to be."

Besides involvement with the diversity initiative and her responsibilities as AACC director, Moses has many other obligations. She coordinates a freshman advancement seminar, which is geared towards African American students. Moses is also an active member of the Association for Black Culture.

In an attempt to promote the diversity initiative to any close-minded people in the community, Moses would ask the cynics to look at other people for who they are. "I would ask them to consider that minorities are living human beings, just with different customs and lifestyles;" Moses said.
"What makes it hard for them to accent other people when they can

accept other people when they can accept themselves?" she added Wanting to know about

similarities and differences between

cultures is motivation for Moses to attend different events targeting a certain race. She looked back on her experience in New York. "If Native Americans were having a pow-wow, I wanted to go," said Moses. "If my Jewish neighbors were celebrating a holiday, I wanted to go."

to go."
"It leads back to the question of

"It leads back to the question of 'who others are?"

Moses' first name, Iyailu, is derived from the Yoruba people of Nigeria, which means "The Mother Drum."

There can be no doubt that Iyailu Moses will lead the diversity initiative with the conquering sound of a drum into the 21st Century.

"A lot of what I add to this story will hopefully be the end result of that evaluation," said Lathan Turner, when asked what the diversity initiative can do for NCSU in the future.

in the future.

Turner is a strong advocate of results, and his record shows that. He is the coordinator of African-American student affairs at NCSU, and has been here for eight years. A native of Ninety-Six, South Carolina, which is near Greenville, Turner earned his undergraduate degree from South Carolina State University in business, and earned a masters in business education there as well.

masters in business education there as well.

This past year, Turner earned a doctorate from NCSU in adult and community college education. He teaches ECO 220, a resident advisor class that is coordinated by University Housing.

Turner's definition of diversity borders brilliance, going into specific detail and touching all races.

"Diversity is an opportunity for persons from across a wide and broad perspective of cultures to take a real good look at what they are," he said, "and what persons will gain in an appreciation of everyone."

Clemson in an ACC rivalry meet CHIP SOUCY Staff Writer

with the Gym Dawgs at 7:00 p.m. in Reynolds Coliseum as they host their second — and perhaps biggest — home meet of the season. It's perhaps impossible to quantify just how good Georgia is . Just three meets into the 1998 season, they've handily defeated three-time national champion Alabama (another squad the Pack will face this season) on the Crimson Tide's floor by a score of 196.550 to 195.650, a significant margin of nine-tenths of a point.

Less than a week later, they traveled to Florida and beat a solid Gator squad by more than a full point, 196.175 to 195.150.

Then after one days rest, they posted their best team score of the year

point, 196.175 to 195.150.

Then after one days rest, they posted their best team score of the year (196.950) at a home meet against the teams of Arizona (193.650) and Michigan (194.150). It's no wonder

why they are currently THE top squad in the country at this point.

But while most athletic teams might ower in the face of such opposition, he Pack has made a habit of thriving

puts together his team's puts together his team's schedule, the toughest teams in the country consistently find their way onto it. Last year's schedule was one of the program's toughest, as State battled

## **Wrestlers** face Commonwealth

from the state of Virginia this

BETH HERRMAN

N.C. State will defend its 2-0 ACC record this weekend when it hosts Virginia Tech Fri. at 8 p.m. and University of Virginia on Sat. at 1:30 p.m. at Weisiger-Brown Athleic Facility.

"These are both very formidable teams," Head Coach Bob Guzzo said. "We will be hard-pressed to win, but I believe we have the opportunity to do it."

State will be

opportunity to do it."
State will be
suffering with the
loss of freshman
Pierre Pryor at
142, but returning
to the lineup at
167 will be
freshman Kevin
Boross, who did
not wrestle last
week due to an
ankle injury.
"Not lining up Pryor
will hart us, but having Kevin back
will be like a shot in the arm."
Giuzzo said.
Pryor, who is having knee

of Virginia Tech and the University
of Virginia will present challenging
opposition for the Wolfpack We're all so close; you can hardly predict who's going to win." - Bob Guzzo, Pack wrestling head coach

opposition for the Grapplers. Junior James Kocher, who is undefeated so far this season, will

match up at 134 with two powerhouses, Sean Grey from Virginia Tech and defending ACC Champion Tony Muterelli of UVA.

"I believe that Kocher will really pull through for us this week like he did last week." Guzzo said.

When State defented Maryland last weekend, it was Kocher's win in overtime that sealed the win for the Wolfpack.

"He really is having an excellent season, and I feel that he is just going to keep getting better," Guzzo said.

Freshmen Tommy Davis (126) and Billy Bluth (heavyweight) have both been giving outstanding performances this season and are contributing

this season and are contributing heavily to the success of the team.

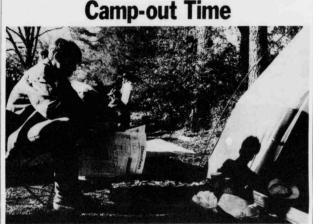

The Wahoos were chosen to finish as the ACC Champion in the preseason polls, yet Guzzo puts hittle stock in these numbers.

these numbers.

"We're all so close; you close; he said, "Carolina beat Virginia and we beat Carolina, but all that says is that it is anybody's championship."

Coach Guzzo believes that his team is not where he intends for it be by the end of the season.

"We're still not at full strength," he said, "but we are progressing well and we aren't giving up any extra points this weekend."

Camp-out fever is upon us once again, this time for Duke and Wake Forest tickets. For answers to any questions you might have, pick up a ticket distribution policy from Student Government.

## **Track readies for Navy games**

■ The track team heads to the Navy

JONATHAN NOEL

As the N.C. State track team prepares to invade Annapolis, Md. for this weekend's Nauy Games, the Wolfpack is continuing to view its early indoor meets as an opportunity for training and preparing itself for the ACC championships and outdoor season.

championships and outdoor season.
State will join the William and
Mary, UNC-Wilmington and
Mount Saint Mary's teams at Navy
this weekend in a meet that should
be challenging but not quite to the
level of last week's Virginia Tech
Indoor Invitational.

Chip SOUCY
Staff wither

Losing is a part of every sport, but when you have a team with Olympians, All-Americans and ACC champions it can become every frustrating. The Pack swim team will look to put a stop to a two-meet skid and upend Clemson in the meet this weekend.

The meet will not be an easy victory for the Pack by any means. The Tigers' women's team finished the 1997 season as the ACC champions and look as if they are just as strong this season.

"I think they are even better this year," junior Captain Carmen Baker said. "It is really going to be tough competting against such a high-ranked team in the ACC, but we are going to try to hold our own against them."

The Clemson men, although not as highly ranked as the women, will also pose a tough challenge to the Pack. The past two years, State has really had their way with the Tigers. But with the way things are in the ACC, one can never tell who will come up with the victory. Clemson finished the "97 season ranked fifth, only two slots behind the Wolfpack men, and will be ready for a little revenge. The men will have to be careful and come ready to a sour control and come ready to a good meet. "They [the early meets] just get us in shape for the ACC meet and for See TIGERS, Page 4

spring track," 5000-meter runner
Amy Beykirch said, "We want to get
in the fast heats at the ACC meet."
While the distance team must
simply learn to transfer its crosscountry success to the track, the
sprints and jumps teams face more
difficult challenges, particularly in
the area of depth.
Both teams have some talent but
suffer from depth, placing pressure on
the teams' upper class leaders.
Lashawnda McKinnon, the school
record holder in the 100, 200 and 400
events and Sheriane Armstrong, a
NCAA qualifier in the long jump, lead
the women's sprint and jump teams.
Two ACC champions lead the
men's team: 100 and 200 ACC
record-holder Alvis Whitted and
long-jump champion, Cordell Smith.
"The women's team is young,"
field events Coach Gail Olson said.
"The men's team has some

Schools that are able provide talent throughout the events gain a tremendous advantage in track and field.

tremendous advantage in track and held.

"A school like Navy is going to be good in a small competition because, although they don't have scholarships in the conventional sense, they all get go to school for free, so they can diversify things," distance runner Robbie Howell said.

"You'll get guys from all different kind of events. They'll be solid all the way through the events."

Despite the team competition this.

Despite the team competition, this weekend's meet will be focused on mproving individual performances.

improving individual performances.

"The first couple meets, you're just trying to figure out what people are doing and what they're not doing and then get back to practice and try to work on some things," Olson said.

The Pack goes head-to-head withUva and Va. Tech this weekend

## Filmfest starts this Sunday

■ The UAB and Campus Cinema focuses on African American women in film this weekend.

ROBERT GREENE

February is Black History Month, and, continuing a yearly tradition, the Union Activities Board Films Committee is spending the first week of the month celebrating it with a film festival. The past few years have seen the festival concentrate on both entertaining and disclosing slices of African Americana, such as the prolifice blaxplotation genre inhat thrived in the seventies and a showcase of black comediums—last year's focus. This vear, however, the festival will pay tribute to what seems to be the statest tissing force in the entertainment industry today. African American women.

The big influence and reason why we chose this subject, explains assistant director of the Student Center, Larry Campbell, was basically the shear number of films now available. African American women are getting into areas that they have not been in previous years.

So it seemed like the perfect time to pay tribute to this emerging power. From Foxy Brown, to "Jackie Brown," Jada Pinkett to "Tackie Brown," Jada Pinkett to "Tackie Grown," Jada Pinkett to make their presence fully felt on both the commercial and artistic sides of show business. Actresses are finally breaking free from the serectopyes and typecasts that have in the past hanted the few who could even get a chance. And behind the scenes, Dunye is just each of the media of the medi

Actresses like Lynn Whitfield, seen here in 'Eve's Bayou,' are fueling the rising force of African American women in film. 'Eve's Bayou' is scheduled to show at the campus cinema next Wed,

## Help needed

Calling for help from NCSU students.

C. State students have always been ready and available to lend their support and most importantly, a helping hand. Throughout the Hurricane Fran crisis, students were ready and willing to participate were ready and willing to the support that the NCSU community has shown in the search for Kristen Modaferri. Students, staff and faculty have worn ribbons, hung flyers and most of all, prayed. With help of NCSU students, staff and across the US.

NCSU students are known for Kristen were ready and most of all, prayed. With help of NCSU students, the hope for Kristen's return has spread all across the US.

NCSU students are known for helir support and willingness to help whenever situations arise. It's time for students to show their support again.

support again.
The NCSU Women's Center is in The NCSU Women's Center is in need of volunteers who are willing to help with the 24-hour Rape and Sexual Assault Emergency Line. Volunteers will participate in an orientation that will educate and familiarize them with information necessary for the intervention of rape and sexual assault.

help those who have been victimized. Men can obtain a better understanding of rape and the effects that it has on a victim and their family and friends. It is also a great opportunity for men who would like to provide positive male support to victims of rape. The most needed are women who can relate to other women. Not necessarily by experience, but by being able to listen and interact comfortably with the victim. Rape happens every day — every hour. It is a reality. Women need to work together to help alleviate the issue of sexual violation. No one can better understand a woman than another woman. Eighteen volunteers gave their time last semester, and this semester the NCSU Women's Center needs more. The emergency line is not limited to students; faculty and staff are also being asked to participate. It takes compassionate, understanding and sympathetic people to work with and understand rape victims. If you are a good listener, and feel that you would like to help those who have been victimized, call 515-2012 or stop by the Women's Center located in Nelson Hall. If you have been a victim of rape and sexual assault, contact (919) 218-9102. When people work together, they accomplish more. More can be

218-9102. When people work together, they accomplish more. More can be alleviated with the help of another person. NCSU students are being asked to participate in the 24-hour holine. This is another chance for students to help their fellows in a time of need.

## Parking stinks

■ Transportation hands down the new parking increases.

Students may not be facing a tuition hike this year, but they are facing a number of fee increase headaches, courtesy of the N.C. State Department of Transportation, that will drain their

oank accounts.

A student with an "E" parking permit will have to pay an extra \$37.42 to park his or her car on campus next year. Other students with different permits won't fare much better.

with different permits won't fare much better.

That's right, students are going to be shelling out extra cash. And for what, you ask? Cleaner parking lots and a few extra lights. Let us say that again: cleaner parking lots and a few extra lights.

Don't get us wrong, we realize that there has been a huge student outcry against dirty parking lots. So, hey, let's just go ahead and approve every request for money the DOT sends down the tumpike.

Oh...wait...we've already done that.

Transportation already has or soon

will receive everything they have asked for, including a \$16 student fee increase for the upkeep of the sterling Wolfline service, a 10 percent parking permit increase to eliminate dirf from our sacred lots and a zone reconfiguration that will bleed students even more. Here's how the latest DOT trick works: as reported today, students parking in "C" and "F" lots will not see an increase quite as big as the folks in "G" and "E" lots next year when the increases come rolling down.

In other words, those folks in "G" and "E" lots light tax increase their counterparts in "F" and "C" will receive.

This will actually deny many

and "C will receive.

This will actually deny many students of the parking they need and/or were hoping to get, as well as raising fees for less desirable

as faising fees for less uestratile parking.
So the question for the DOT is, Where's the beef? Where are all the improvements students are shelling out extra cash for?
And where did the idea that students care that much about cleaner parking lots come from?

## Quit playing romance games

KELLY MARKS

I'm tired of games. I'm not talking about Trivial Pursuit, Twister, or Hungry, Hungry Hippos. I've got nothing against people playing with boards, cards or even little plastic animals that consume marbles (although I do worry if it's in excess). It's when people start playing with other people's minds that I get a little perturbed.

perturbed.

Lately, I've been thinking about the nature of relationships.

("Lately" my friends might ask in mock-disbelief. "Isn't that the sole thought of your every waking minute?" they quip snidely. Yes, lately — and no, it's not! have schoolwork to think about, 100.)

lately — and no, it's not.1 mass eschoolwork to think about, too.)

I've been forced into thinking about it, really. It seems that everywhere I look, people are bumbling through various different relationships, and along the way problems arise — you know, those nasty little speed bumps on the road to love. However, as I move from one tormented conversation to the next, I can't help but notice that everyone's problem lies in trying to second-guess what his or her significant other is thinking. All I hear is general queries about whermy friends stand with the other person, how can they be sure, what did this action mean, or what was the underlying message when

RYAN KELLOGG

Play this? What's to play? Love should not be a game. Love is not

The nature of a game implies that there are winners and losers. One person must come out on top. That's no way to run a relationship. Besides, who really wants to think that their involvement with another person is owed entirely to some grand scheme they pulled off? You don't want somebody to be will you because you tricked them, you coerced them or, in your amazing super smoothness, you conned them

you because you tricked them, you correct them or, in your amazing super smoothness, you conned them into being with you. You don't want them to be there on the basis of anything you've said or done. You want them to be there because you're there, and that's all that should really matter — you alone should be reason enough. And I hope that they alone would be enough of an enticement in return. In an ideal relationship, it's a winwin situation. You like them, they like you, you hang out together and you both win. It's like recreation basketball for little kids — the kind where no one knows how many points have been scored by either team, and everybody walks out of the gym with bragging rights. Everybody wins. And if in an ideal situation the point is for both of you to win, why bother keeping score in the first place?

When we practice to deceive

that we play games with each other — we're covering our backs. If you don't take the initiative to express how you truly feel, you've got lose. However, the instant you express interest in another person, you've put yourself on the line. The only other place to go besides up in the wonderful gushiness of requited love is down, where you land—almost ineviably— flat on you face. So we play. We drop little hints. We flirt. We tell a friend of a friend of their friend to "make us look good" and "find out if they're interested." We never ever approach the person ourselves. We gust sit around and wait and hope that something will happen, Or, for those of us who are bolder, we follow the unwritten guidelines for pursuing the object of our affections.

These guidelines fave never made any sense. Take the whole calling then you will be fore calling't Let me get this straight: you meet someone at a party, you have fun fogether, you shay numbers and then.... you wait? Why? Life is too short to sit waiting out some sort of unofficial code of conduct. Why put someone

wait? Why? Life is too short to sit waiting out some sort of unofficial code of conduct. Why put someone else through the torture? Why put yourself through it?

And then there are always those secret signals that everyone is continually trying to figure out. He said "hi" to me today — was that a

"hi-l-know-you-so-l'm-going-to-be-friendly-hi" or a "hi-l-am-secretly-vearning-for-you-every-night-hij" We put so much significance in little gestures, assuming that the slightest change in tone or the smallest brush on the arm is significant of some burning passion inside. And yet, sometimes, it is. Why be so subtle? If when you ask someone to get together for homework what you really mean is "let's get together, period," then why not come out and say it? Because we're afraid. Because we don't want to get hurt. Because Cosmo says that's not the way it's done.

Because we don't want to get hurt. Because Cosmo says that's not the way it's done. Forget about all the rules and stop basing your interaction with other people on what some planets would do on a date. Sound harsh? I can't help it — I just don't buy into the whole self-help system. There is no magical answer that exists out there for why someone likes someone else — and there's definitely no formula in print that can guarantee a happy and blissful union. People don't figure into neal little mathematical equations. People, unlike numbers, can't always be counted on. And I'm sorry, but men are no from Mars and women aren't from Venus — no matter how much each sex would like to blame their misunderstandings of the other on some kind of cosmic misalignment. People are people, each one different and unique, and although

323 Witherspoon Student Cente Box 8608, NCSU Campus Raleigh, NC 27695-8608

Bill, Bill, what a tangled web we weave. As I sit here listening to your State of the Union address with its lofty claims and accomplishments, I can't help but laugh. Sure enough, the union is in a rarified state. The economy is booming, providing the lowest deficit since 1974. Crime is a record low with New York City, the one-time number one hellhole in America, standing as a beacon of livability.

Since the end of the Cold War, democracy and free market capitalism have flourished, further strengthening our role as leader of the world. Mr. President, the hard working people of this great country handed you all the political gold pieces you could possibly want. But what have you done except spit lies and scandals into our faces? our faces?

I remember the days when you first appeared on the scene, a little known governor from Arkansas. You were an outside hope for your party going into the primaries, hounded even then by stories of your exploits in Little Rock. You admitted that your time as governor hadn't been squeaky clean but you

promised you had changed. When Gennifer Flowers came out with her claims of a 14-year affair, you vehemently denied a FOURTEEN-year affair and we the people believed you, so much so that we elected you president in 1992.

whether you, so much so that 1992.
What a folly that turned out to be because your personal shortcomings still haunted you in Washington. The names Travelgate. Whitewater, Paula Jones and Vince Foster all came to be synonymous with the corruption in the Clinton White House. But what did it matter? You were the Teffon president with a group of PR spin-doctors who could take any malady and turn it into a virtue. It's all right, you thought, the people don't care about morality just as long as the economy is good. Sure enough, we didn't care so much so that we elected you president again in 1996.
Your policies while in

president again in 1996.

Your policies while in Washington were of a similarly flaky nature. Coming into the presidency you and your rabble were determined to continue the failed policies of socialism. With the First Lady at helm, you were determined to nationalize health care, strengthen the welfare state and bring about a renewed Great Society. But the backlash against

those actions was severe: costing your party the control of Congress for the first time in 40 years. They may have gone down, but you managed to hang on by changing your views every other day to suit the latest polls. Whatever vision you had for the country was soon tossed aside in favor of maintaining that grasp on power.

In the end this waffling from left to right on issues would just be the final thread to complete your personality. Your personal life was a le, and now your public life was one as well. But still, nobody cared because the economy was booming and unemployment was at record lows. Why, you no doubt looked forward to your place in history as the brave captain who led America into the 21st century; that is, until last week. You see, Mr. President, last week all the slick dealings and clintonspeak caught up with you. That snottly intern. Monica Lewinsky, let on to your secret affair and the alleged plot to cover it up. The mainstream media, finally sick of your lies, jumped on it like sharks at the sight of blood. Shell-shocked, you and your Px team attempted damage control by holing up and promising to answer questions at a later date. Perhaps the

State of the Union or bombing Iraq would quell things over, you must have pondered.

Poor Mr. Clinton. If only you had learned earlier in life that character really does count. If only you realized that the everyday decisions we make in life define who we really are. Mr. President, there is no separation between public and private life. You can't be corrupt and immoral in one and be honest and virtuous in another. Everyday we fight temptations in life: not to cheat on a test, not to lie on our taxes, not to go over the speed limit or, in your case, not to commit adultery. These things may not seem so bad, but they add up to give us a set of rules that we apply to all aspects of life.

Mr. Clinton, you are an

o all aspects of life.

Mr. Clinton, you are an embarrassment to the presidency, to the United States and to the world. You may very well weasel out of this scandal, but the scars this time will run deep. You've proven yourself to be completely devoid of the integrity, morals or decency fitting the leader of the free world. History will realize that the United States would have been just as prosperous with Buddy running the White House as you, at least the dog would have head more dignity.

## **Marks**

there are times when all guys can be grouped under the single moniker of "pigs" or all girls seem to be in some secret male-bashing sisterhood governed by the phases of the moon, you can't judge one person on some trait that's supposed to be inherent in their sex. There is no such thing, whether your chromosomes are X's or Y's has very little to do with your likes, dislikes, ambitions or pet peeves. So what am I saying? Say what you mean, do what you intend to and follow your heart. Fine advice coming from a girl who overnallyzes every word or touch, who has been known to read more than a few advice columns, and who is basically just as scared as everyone ele is of rejection. Do as I say and not as I do. I think we'd all be better off if we'd just stop playing the game.

## Scandel spurs crackdown in Japan

After a week of disasters, and possibly more en route, the Ministry of Finance is now feeling pressure to

MARY JORDAN AND KEVIN SULLIVAN

TOKYO - So far this week, the top two officials of the Finance Ministry have resigned because of a corruption scandal, two others have

corruption scandal, two others have been arrested, and one committed suicide before he was to be questioned by prosecutors about subordinates.

The scandal is still unfolding, but it appears that Japan is in the midst of the most serious effort in 50 years to curb the common business practice here of bribing government officials.

The latest easualty, the resignation

officials.

The latest casualty, the resignation under pressure Thursday of the Finance Ministry's top career bureaucrat, is viewed as a signal that the crackdown, as one analyst said, 'is not simply firing warning shots at the feet of government, but going for its heart."

"This will have neditical falls."

going for its heart."
"This will have political fallout because it is the first major corruption raid of the Ministry of Finance, which since World War II

has become the most powerful bureaucracy in Japan," said political consultant Takayoshi Miyagawa. "That ministry controls the money, and therefore the government, and therefore the nation."

The two finance officials arrested this week were not high-ranking, and the resignation of Finance Minister Hiroshi Mitsuzuka, a political appointee, was almost ritualistic, because the head of an organization is almost always organization is almost always expected to take the fall for the ongdoing of those he supervises

wrongdoing of those he supervises. But Thursday's resignation of senior bureaucrat Takeshi Komura means the scandal has claimed one of the "untouchables," the elite career bureaucrats who hold the most power.

These so-called "armchair emperors" can dictate a private bank's hours of operation, threaten an annoying politician with a tax audit and slice away 10 percent of another agency's budget on a whim. Despite small government salaries and apartments, many of these bureaucrats live lavishly, thanks to extrawagant dinners, overeass trips and gifts from private companies.

Koichi Kato, one of the most

influential politicians in Japan, said Wednesday night that in the future,

"we will look back and think that this is a moment when fundamental change took place between Japanese bureaucracy and private

Japanese bureaucracy and private sectors.

One of the arrested bureaucrats is said to have demanded not only that banks take him to an expensive eatery in exchange for the confidential government information and lax oversight he offered, but also that it be a favorite haunt: a restaurant where the waitresses wear no underpants.

That establishment in the Shinjuku section of Tokyo, where the menu lists the hearty favorite called shabu-shabu and the attraction is "no pant" waitresses, is fast gaining notoriety at the expense of the elieninistry.

It was also reported Thursday that hank inspectors who could have uncovered irregularities in 1994 at the Daiwa Bank branch in New York, where a trader lost an astonishing \$1 billion, were entertained handsomely by Daiwa. The inspectors donline a taxpayer expense.

Komura's resignation - apparently

Vegas for a good time - at taxpayer expense.

Komura's resignation - apparently forced by Prime Minister Ryutaro Hashimoto - comes as disillusionment with the ministry is

ballooning. The ministry is being blamed for many of Japan's economic problems and its snail-like pace in solving them. Some newspapers Thursday night.

like pace in solving them.

Some newspapers Thursday night
said the scandal marks "the
beginning of the end of the
powerful ministry's long reign over
government." One headline blared:
"Sunset for MOF," as the Finance
Ministry is called.

While voters can turn a politician
out of office, they have little say
about the tenure of a bureaucrat.

But many now are calling for new

out of office, they have little say about the tenure of a bureaucrat. But many now are calling for new laws along the lines of those that govern U.S. officials, who are reported here to be able to lawfully accept gifts valued at less than \$20 and "doughnusts with their coffee" - not overseas trips and a \$40,000 discount on a home, as Japanese public servants are charged with taking. Many are also reviving calls for the ministry to be broken up to diffuse its power, and for elected officials to assume responsibilities that now fall to bureaucrats. Kato - the highest-ranking official, after the prime minister, in the ruling Liberal Democratic Party said, "It is now the duty and responsibility of politicians to be really in charge of this nation."
