EPIDEMIC SHORT COURSES HAS HIT STATE COLLEGE

Extension Department Has Been Offering Courses Past Two Weeks; More to Come

JUDGING CONTEST IS HELD

L. R. Brown Wins Silver Loving Cup In Standards of Perfection Contest

State College is enveloped in an epidemic of short courses. For the past two weeks there have been several short courses offered by the Extension Department, and there are several more to be given during the late winter.

Last week a course in poultry was given in which seventy-five students were enrolled, among which were several of the state's most successful poultry raisers. A judging contest was held at the close of the course, in which L. R. Brown, of Pilot Mountain, won the silver loving cup for being the best poultry judge. James Fuqua, of Sanatorium, tied with Brown for high score, but first place was finally awarded to Mr. Brown.

This week a meeting of the North Carolina Beekeepers' Association was held here, and during the convention the members elected R. W. Scott, Jr., as president, and D. D. Chamblee as vice-president. Frank B. Meacham was elected secretary. While in session the members discussed marketing, control of disease, and the kinds of hives to use. According to Mr. Scott, North Carolina is producing honey of the finest quality, and that there is no over-production, because all are able to sell all that they produce. As the closing feature of the meeting, a contest of judging apary products was held, and J. M. Holland, of Mount Olive, won the silver cup.

Beginning Wednesday, January 25, and lasting through Thursday, the 27th, a course on soil fertility and conservation was given by the Department of Agronomy. This program of lectures and demonstrations stressed the use of fertilizers for the crops in 1927, rotation of crops, use of surplus war explosives for clearing of land, properties of fertile soils, use of lime in soil improvement, prevention of soil erosion, and the demonstration of terracing implements. The last day was given to the study of fertilizers, their use, and preparation.

The next course to be offered by the College and School of Agriculture will be on tobacco grading, and will be held on February 8-10. Several of the leading specialists in

Faculty Favors Registration On March 16; Engineers' Day 17th

Another interesting meeting of the Engineers' Council was held in the Ceramic Building last Thursday night. The meeting was given over principally to listening to reports by Dean Riddick and Professor Greaves-Walker.

Dean Riddick told the Council of the action of the Engineering Faculty in passing a resolution approving of the establishment of an annual Engineers' Day, and offering its support in every way possible. He also reported that the faculty acted favorably on the request of the Council that registration day for the third term be moved up to March 16th, and that St. Patrick's Day, March 17th, be made a holiday for all engineers. This matter will be referred to the Faculty Council, where favorable action is anticipated.

Professor Greaves-Walker reported further on the organization of the new engineering honorary society, the Order of St. Patrick. After outlining the organization and aims of the society at other engineering schools, he advised following closely along the same lines. The executive committee was requested to study this matter further and report at the next meeting.

President John Anthony requested the various department heads to call meetings of their entire student body in the near future in order to perfect plans for the parade and Fair. He

Senior Vocationals On Annual Teaching Trip

Friday morning the members of the Senior Class in Vocational Education departed for three weeks of observation and practice of teaching in vocational agricultural high schools of the State.

This will be a great experience for the thirteen members who are taking the work. For most of the men, it will be their first teaching experience, and will prove very valuable in preparing them to teach next year.

The students who will teach are: J. E. Tiddy, C. R. Lambe, W. W. McCulloch, J. R. Herman, B. G. O'Brien, C. A. Leonard, C. M. Allen, T. W. Hayes, G. A. Munn, J. W. Edwards, and W. R. Burnette.

STRAUGHAN TO HEAD STATE FORENSIC BODY

Seven North Carolina Colleges Represented in the 1927 Contest in Raleigh

At a special meeting of the North Carolina Intercollegiate Forensic Association, held Saturday, C. L. Straughan, a junior in the School of Agriculture, was elected president of the association. He will be associated with Professor Cunningham, the secretary-treasurer, and Mr. Henry T. Powell, of Davidson College, the vice-president, on the Executive Committee.

It has been decided to hold the first annual oratorical contest of the association in Raleigh, on March 25, 1927, with the forensic council of State College acting as hosts to the speakers and delegates. A business session will be held in the afternoon, and the contest will take place at night in an auditorium in the city which will be designated later.

Representatives of the following institutions will compete for the honor of being regarded as the champion college orator in North Carolina: Davidson College, Wake Forest College, N. C. State College, Lenoir-Rhyne College, Elon College, Guilford College, and High Point College. A gold medal will be awarded to the winner of the contest and a silver medal to the man who places second. The contest will be judged by a committee of Raleigh citizens, five in number, selected from the following professions: clergymen, attorneys, educators, editors and authors, businessmen. One man will be chosen from each profession.

Steps have already been taken to affiliate the North Carolina State Association with the large Interstate Oratorical Association, whose center

Faculty Favors Registration On March 16; Engineers' Day 17th

Another interesting meeting of the Engineers' Council was held in the Ceramic Building last Thursday night. The meeting was given over principally to listening to reports by Dean Riddick and Professor Greaves-Walker.

Dean Riddick told the Council of the action of the Engineering Faculty in passing a resolution approving of the establishment of an annual Engineers' Day, and offering its support in every way possible. He also reported that the faculty acted favorably on the request of the Council that registration day for the third term be moved up to March 16th, and that St. Patrick's Day, March 17th, be made a holiday for all engineers. This matter will be referred to the Faculty Council, where favorable action is anticipated.

Professor Greaves-Walker reported further on the organization of the new engineering honorary society, the Order of St. Patrick. After outlining the organization and aims of the society at other engineering schools, he advised following closely along the same lines. The executive committee was requested to study this matter further and report at the next meeting.

President John Anthony requested the various department heads to call meetings of their entire student body in the near future in order to perfect plans for the parade and Fair. He

Dr. Seerley Gives Six Talks On Sex To State Student Body

Bringing to a close one of the most successful lecture engagements in the history of State College, Dr. F. N. Seerley, Dean of the Young Men's Christian Association College of Springfield, Massachusetts, spoke to the student body assembled in Pullen Hall last Tuesday evening, January 25, upon the subject of "Womanhood." This was the last of a series of six lectures dealing with Sex Hygiene.

Dr. Seerley opened his engagement with what may be termed a study of the brain, discussing particularly the formation of habits and their permanent relationship to the functions of the brain. As a necessary detail in the introductory address, the speaker explained in detail the connection the brain had with the nervous organs of the human body, making clear that most nervous stimulants were due to certain responses from the brain. Very graphically did Dr. Seerley liken the process of building the brain to that of building a house, into both of which must go the all-essential "building material."

Monday evening Dr. Seerley spoke upon the subject of "Manhood," at which time he stressed the process of becoming a man. Dirty pictures, dirty books, and dirty stories were condemned as the chief agencies in the conveying of dangerously weak building material to the foundation of the human house—the brain.

The long, long struggle and fight back to manhood once the victim has fallen prey to the passionate impressions of dirty pictures, dirty books, and of dirty stories, was impressed upon the mind of every student present.

Not as a condemner, not as a re-

former, not as a propagandist, did Dr. Seerley speak, but instead he was a conveyor of the salient truths of nature, calling a spade a spade and an ace an ace, and leaving his listeners face to face with a truth over which they had often wondered, but little understood. To Dr. Seerley's knowledge of his subject and to his ability to convey his message to his listeners must be attributed the sweeping success of the engagement.

Tuesday at the hours of nine, ten, and eleven, Dr. Seerley went into detail in the more intricate problems of Sex Hygiene. These discussions were conducted in the open forum style at which time the students were at liberty to ask questions of a more personal nature. These forums included a discussion of the problems over which all wonder and many despair. The friendly manner in which Dr. Seerley discussed these problems brought his listeners face to face with the problems of life in a cool and sensible state of mind.

Before the last morning talk began, the students sang "State College Keeps Fighting Along," and gave fifteen raps with a vibrant "Dr. Seerley, Dr. Seerley, Dr. Seerley."

The lecture Tuesday evening in Pullen Hall was a very fitting climax and conclusion of the series of lectures which were given. The subject for the evening being "Womanhood," Dr. Seerley gave a brief history of the woman's place in the lives of men. Then, with the hand of an artist, Dr. Seerley pictured, in the imagination, woman as she really is—that most wonderful of all personalities: that harbinger of love, of patience, of sacrifice, and lastly and ultimately, that of being capable of motherhood.

DRESSER PAYS FINE AS RECKLESS CAR DRIVER

Driver of Car That Struck State Student Relieved of Twenty-five Dollars and Costs

Raleigh, Jan. 22.—R. L. Dresser, local hardwood floor dealer, was fined \$25 and costs Friday by Judge Wiley Barnes in City Court for careless and reckless driving in connection with the injury of Frank Dunlap, State College student, during a celebration of students on the night of November 11.

The charge against Dresser was the result of a mix-up between the defendant and a crowd of college students near the intersection of Morgan and Fayetteville streets. Dresser had trouble in driving his car through a line of boys and words led to rough treatment of the defendant at the hands of a dozen or more boys. After getting free from the

METCALF IS SELECTED ASSOCIATION PRESIDENT

Is First Southern President of American Microscopical Association

Dr. Z. P. Metcalf, Professor of Zoology and Director of Teaching in the Agricultural School of State College, was elected President of the American Microscopical Association at its recent meeting in Washington, D. C.

This organization was made possible in 1878. Since that time meetings have been held yearly, during the Christmas holidays, with the American Association for the Advancement of Science, of which it is a part. Membership in this organization is obtained through invitation only. Today membership is held by various men throughout North Carolina.

Last year Professor Metcalf was second vice-president of the association, but the presidency, which was recently accepted by him, marks the first time that the president of that organization has ever been chosen from the southern members.

In the past years, Dr. Metcalf has contributed a great many articles of interest to the various scientific magazines throughout North America.

Orchestra and Quartet Make Hit At Banquet

Many complimentary remarks were heard from the visitors at the Yellow Cur feed concerning the work of the two musical organizations present, Louis Einwick's "Kampus Kats," and the "Foolish Four."

The orchestra is composed of "Puss" Cathey, "Tom" McLaughlin, and "Pat" Michael, saxophones and clarinet; Harrie Patterson, piano; "Burt" Linville, banjo; "Jimmie" Regan, and "Archie" Lanier, trumpets; "Sleepy" King, trombone; "Bob" McRackan, bass; George McCown, alto, and Louis Einwick, violin.

The quartet is composed of "Bob" McRackan, bass; "Kid" Nesbit, baritone; "Shorty" Strickland, second tenor; and "Slim" Overman, first tenor.

CONCERT BAND TO PLAY AUDITORIUM SUNDAY

To Combine With Sudan Temple Band, Also Under Direction of Major Price

The North Carolina State College R. O. T. C. Concert Band will give its first program of the year Sunday afternoon, January 30, at 3:30. The Sudan Temple Band will also appear with the R. O. T. C. Concert Band, both bands being under the direction of Major P. W. Price.

The program, which has had much time devoted to its perfection, will consist of classics and well-known marches.

Both bands are well known throughout the State. The North Carolina State College Band has won much distinction throughout the South due largely to the nature of its programs, while the Sudan Temple Band is well known throughout Masonic circles. Those who hear the concert can rest assured that, not only will they hear the largest band ever presented in this State, but that they have heard two of the best.

Major Price has devoted much time to both bands, and they clearly show the effects of this talented musician.

The concert, which will start promptly at 3:30, will be given free of admission to the public, and they in turn are heartily invited to attend. The concert is the second of a series, which is being sponsored by the Raleigh Chamber of Commerce.

Yellow Curs Gormandize In Their Annual Drumstick-Smashing Orgy

One hundred and fifty yelping yellow curs of kennel 999, of the National, Imperial, and Effervescent Order of the Yellow Cur, growled contentedly as they licked, masticated, and finally absorbed the meat and bones of countless numbers of tender milk-fed pullets, Thursday night, January 27, in the College Bull Hall.

The Yellow Cur is an organization of fun-loving fanciers of the chicken, (either live or dead chicken, it does not matter which), and is affiliated with the Poultry Science Club.

The occasion was the annual celebration of the return from Madison Square Garden of the State College Poultry Judging team. This year they have great cause for rejoicing, because their four brindled pups, Fort, Barnhardt, Shoffner, and Ginn, have returned laden with medals and cups for having won first prize in the most recent contest.

The affair was thoroughly in keeping with the festive spirit of the curs. Music was furnished by Einwick's N. C. S. Kampus Kats, a local jazz orchestra that is second to none, and the famous State College quartet. Those organizations gave the much-detested Bull Hall quite a Ritz-Carltonish atmosphere.

The assembled curs consisted not only of the students and faculty of the Poultry Department, but many friends from the other schools of the college, and from the State at large.

With such an array of visitors, it was suspected that some might be unnecessarily prolific with their verbs and other parts of speech, therefore the toastmaster, J. L. Fort, chief cur of the kennel, gave notice that only

DR. BROOKS ASKS LEGISLATURE FOR A HOME ON CAMPUS

\$50,000 Appropriated 3 Years Ago Was Used In Construction of New Library

3 LOCATIONS SUGGESTED House Committee Expected to Pass Appropriation of \$30,000 This Year

When the "News and Observer" printed the request for a home, made by Dr. E. C. Brooks before the Senate and House Committees on Appropriations, it came as a surprise to a great many, but to others it was a new issue of an old request.

Three years ago Dr. Brooks included in the budget a request for an appropriation of \$50,000 with which to build himself a home. The appropriation was made, but the building of the home never became a reality.

At this time the D. H. Hill Library was under construction, and funds appropriated to carry out the plans of that building ran low; in fact, so low that it looked as if the construction work might have to be stopped. Then it was that Dr. Brooks proposed that the fund set aside for the building of his home be used for the completion of the new library. The proposal was acted upon, and the conclusion reached was that it would be better to finish the library and build the home for Dr. Brooks the following year.

The plan and intention of building the home the following year were good, but due to a little clause inserted in the budget, which read to this effect, "No funds appropriated shall be used for anything other than items specified above," the chances for building fell, for the home was not among the items mentioned.

All of these obstacles did not deter Dr. Brooks, for only a few days ago he stepped forward and asked for \$30,000 to build himself a home on or near the campus. This amount is decidedly smaller than the first appropriation, but other advantages will compensate the difference.

Up to the present time a location has not been decided upon; however there are three being discussed, one of which is on a piece of N. C. State College property facing the College Court Pharmacy, and practically adjacent to the home of Dr. Brooks.

BREEDERS ASSOCIATION MAN TALKS TO AG. MEN

Leonard Tuft Speaks to Animal Husbandry Students on the Recent Herd Test Plan

Leonard Tuft, an outstanding leader in the National Ayrshire Breeders Association of the United States, spoke to the students in the Animal Husbandry Department on Wednesday, January 19, in Polk Hall. His subject was the herd test plan which has recently been organized by the Ayrshire Breeders Association.

He stated that this test plan would promote a more economical milk production and also promote a more thorough study of animal nutrition.

He stated that the plan would cause development of whole dairy herds in place of developing one individual animal for a national record. In developing this whole herd the management of the herd would become more efficient through better feeding, better breeding, and a thorough study of his herd. He says that this in turn would promote a cheaper and more economical milk production.

In obtaining this efficiency he states that a priceless knowledge of feeds and their value to dairy cows would be obtained. This will acquaint the dairymen with animal nutrition which is very essential in successful dairying.

Mr. Tuft is an outstanding breeder and dairymen in the National Ayrshire Breeders Association of America, and owns several herd of Ayrshire cattle in North Carolina.

Last Week's Best Articles

The honor for winning first place in the Best Article Contest for last week and the four passes given by the State Theatre goes to A. L. Aydtlett for his article "Northwestern University Man Lectures to State Students." The honor for winning second place and two tickets goes to A. M. Greaves-Walker for his article "Engineers' Fair Plans Reviewed by Council Men."

Skilled Designers Great Need In American Furniture World

By D. R. Pace

"Look at that student with the monkey-wrench," said a middle-aged gentleman who was being shown through the College Machine Shop last week. "He is having the time of his life; tormenting a helpless machine that never did him any harm, and would probably continue to be a virtuous and hard-working machine for years if he would quit poking around in its 'inards' with that pesky wrench."

The chief delight of this student was to take a wrench with a handle about two feet long and fasten it firmly on a little inoffensive nut one inch square, brace his feet on the roof beams, lean back, and pull until his eyes bulged out like a toad's eyes. With all the force exerted, the bolt twisted off. Then, with an air of conscious virtue, he took it to the teacher and explained that if he hadn't been keen enough to discover the weak bolt the machine would have burst when operating and probably have killed some one.

Now this student did not know any better than to take a wrench with a two-foot handle or leverage and pull

with all his might on a small bolt. It was not his fault; it was the fault of the teacher in failing to give the student proper instruction.

Just as the student was lacking in instruction about the monkey-wrench, so the worker in the furniture industry today is lacking proper training along the line of artistic furniture designing. A greater need is being felt each year in North Carolina. The manufacturing of furniture has become a great factor in the industrial life of the State. According to the thirty-fourth annual report of the State Department of Labor and Printing, this State, compared with other furniture manufacturing states of the Union, ranks tenth in the number of establishments, eighth in the average number of wage earners, tenth in the amount paid to employees, eighth in cost material, tenth in value added by manufacturers, and ninth in value of products.

If North Carolina is to continue to progress along the furniture manufacturing lines she must have designers and draftsmen who make a specialty of this work. They must be trained men from our own ranks. To train these, schools must be established on North Carolina soil. A program similar to the one carried out in Chicago back in 1923 for the establishing of an institute to train furniture designers, should be put on in this State. This Chicago school is the only industrial art institute in America.

North Carolinians need training of this kind. Lack of such training has been felt for many years. The majority of our present wholly inadequate force of designers are foreign-born and receive their training on European soil. It is almost impossible to get a first-class designer without going to Europe for him. It is true that there are a few designers scattered over the United States, but these are only a handful as compared to the number needed to carry this great industry forward.

The need of a school to train furniture designers was brought out by a prominent furniture dealer when he stated: "We recently imported a large quantity of upholstered furniture. As far as workmanship is concerned, there is not a piece of it that could not have been made at home, and its quality improved by artisans in this country. We did not purchase it for its workmanship—what we bought was the design."

"Heretofore practically the entire supply of artists who are trained in the industrial arts have come from abroad," said another furniture man. "The numerous schools of England and Europe have turned out most of the men and women who have applied art to industry here in America."

North Carolina students of industrial art have been largely excluded from the field by force of circumstances. No general courses have been available without costly study abroad. Students with some of the finer art instincts have entered the field and found they were not a success, whereas all the time their impulses and natural instincts might have met great opportunity in the field of art in industry. Suitable training was lacking. Proper training would have been the connecting link between the individual and the industry of the State.

Foreigners and foreign-trained students who found it comparatively easy to study abroad have usurped the field of artistic designing in America. Today they occupy the many places in ceramics, wallpaper designing, furniture designing, and other fields of manufacturing in which, otherwise, American students might justly claim distinction.

Another natural result from the lack of training, and perhaps the most costly of all, is that, because of a dearth of industrial artists in America, millions of dollars worth of raw materials are annually shipped to Europe, where the service of European trained designers add tremendously to the value of the goods which are then resold to America.

This urgent call for American trained designers must be answered. North Carolina must take the place in furnishing adequately trained young men and women to answer the call, and in so doing she will do her part in helping place America first in the world of industrial arts.

Chief of Police—"What! You mean to say this fellow choked a woman to death in a well-lighted cabaret in front of over a hundred and fifty people? Didn't anybody interfere?" Cop—"No, cap, everybody thought they were dancing."

DOAK CALLS ON FRATS FOR REPRESENTATIVES

Coach Doak wishes to meet a representative of the following fraternities, and also any societies that want to enter the fraternity basketball tournament, on Monday, January 31, at 1:30 p. m. at his office in the gymnasium.

Sigma Phi Epsilon, Tau Rho Alpha, Alpha Lambda Tau, Pi Kappa Phi, Kappa Alpha, Chi Tau, Sigma Nu, Pi Kappa Alpha, Sigma Tau Beta, Phi Kappa Tau, Theta Kappa Nu, Alpha Gamma Rho, Kappa Iota Epsilon, Kappa Sigma.

Also the following societies: Poultry Science, Business Club, A. S. C. E., Chemical Society.

Dr. Brooks Asks Legislature for a Home On Campus

(Continued from page 1)

joining Pullen Church. Another location is where the Pillsbury home is now located, west of Patterson Hall. The last proposal is the buying of a home on Hillsboro Street facing the college.

Dr. Brooks' home being near the college will mean a great deal to the college as well as to Dr. Brooks himself. His nearness to the college will provide him with adequate means of keeping close contact with the college at all hours. This service alone will eventually repay all expenditures made for the home.

The appropriation for the home is practically assured. There only remains an approval by the board, which will very likely be made in the next few days.

Straughan To Head State Forensic Body

of activities is Northwestern University, Chicago.

State College will be represented in the State Oratorical Contest by the student who wins the Inter-Society Oratorical Contest, which will be held on Friday, February 11, in the Y. M. C. A. auditorium. The representatives of Leazar Literary Society in this contest will probably be: H. J. Oberholzer, of the Orange Free State, South Africa, and J. B. Britt, of Garner, N. C., both juniors in the School of Agriculture. The Pullen speakers will probably be: A. Laurence Aydtlett, of Elizabeth City, a sophomore in Business Administration, and R. E. Truesdell, Jr., of Charlotte, a freshman in Electrical engineering.

Epidemic Short Courses Has Hit State College

(Continued from page 1)

this field will lecture during the meetings, the most outstanding of whom is Frank B. Wilkerson, of the United States Department of Agriculture. Mr. Wilkerson will give demonstrations of grading, in which actual samples will be used. Considerable interest is expected to be shown in the course, as it is the first tobacco grading course ever offered by a school of agriculture. It is hoped that many of the successful tobacco growers of this section will attend.

Dresser Pays Fine As Reckless Car Driver

(Continued from page 1.)

crowd Dresser drove away hurriedly, struck Dunlap, who was not among the crowd, and then side-swiped an automobile of M. H. Davis, according to the testimony.

Dunlap was badly injured about the spine and was forced to be out of college until after the Christmas holidays. He spent more than a month at his home in Charlotte.

Evidence was conflicting, but the lengthy session of City Court developed quite a bit of testimony which presented circumstances of the trouble from the start to the finish. The defendant did not take the stand to tell his side of the affair, and not one of the witnesses examined were identified as taking part in the mix-up. One witness explained that he acted as peace-maker and separated Dresser from the crowd.

It developed during the trial that Dresser approached the line of students on Morgan Street from the east and asked for space to pass through the line. The students did not open the line at first, but threatened the defendant and then proceeded to tamper with his engine

If you're 'all at sea' about your tobacco...

MAYBE you've sailed the seven seas searching for perfect pipe pleasure... Maybe you've tried oceans of tobacco without running into one you can anchor to... but don't give up the ship. Plenty pipe pilots were once in the same boat...

Just shoot an s. o. s. to G. R. C. . . for Granger Rough Cut is a life-saver to pipes in distress. It's rich and spicy—and mellowed by the old "Wellman Secret" it's so mild you can stoke-up and fire away at full sail!

Then jot this down in the old log: Granger's rough cut flakes smoke as cool as a zippy sea zephyr... Man, your old smokestack'll puff wreath after wreath of perfect pipe pleasure.

And don't wait till your ship comes in to take on a cargo of Granger. The pocket-package is not high-priced... for packed in foil (instead of costly tins) this quality tobacco sells at just ten cents. Load up to-day... and bon voyage!

GRANGER ROUGH CUT

Granger Rough Cut is made by the Liggett & Myers Tobacco Company

and tried to let the air out of his tires. This incident passed off and Dresser drove through the line, only to stop afterward to engage in further argument as the boys crowded around his car. Rough treatment was extended to Dresser after the second stop, and he avoided further trouble by jumping into his automobile and driving off. It was then that the car struck Dunlap, some distance down Morgan Street, and then collided with Davis' car.

State witnesses testified that Dresser drove off very rapidly from the crowd, while two of his witnesses stated they thought he drove off slowly. Davis testified that Dresser had paid the repair bill to the damaged car.

The conviction of Dresser was based on the circumstances of Dunlap's injury rather than an incident which occurred before the young student was struck by Dresser's car. Judge Barnes ruled that Dunlap was not involved in trouble between Dresser and another crowd of students and that the defendant was too careless in driving away from the crowd.—Raleigh Times.

Prof. Clark: Why was Columbus so anxious to discover a new world? Rudyard Semmes: I think he was looking for a place to park.

Resists Corrosion

THIS picture, taken in the salt marshes near Kearny, N. J., shows two lines of 30-inch Cast Iron Pipe replacing pipe made of other material. The alternate exposure to the action of salt water and air is a severe test.

While the pipe shown in the picture is subjected to unusual corrosive influences, all underground pipe must be able to withstand corrosion to a greater or less degree. Cast Iron Pipe has this quality. It does not depend on its coating to resist rust; the material itself is rust-resisting. The first Cast Iron Pipe ever laid is in service today at Versailles, France, after two hundred and sixty years' service.

BY TERRORS DEFEAT OAK RIDGE BY SCORE 44 TO 30

ate Men Drop Ball From All Angles; Cadets Also Show Good Team Work

The Little Terrors added another victory to its list last Friday night when they defeated the Cadets of Oak Ridge by the score of 44 to 30. Led by Leeka, flashy center for the Terrors, the Techs dropped the ball from all angles to defeat them in a very interesting contest. Although Leeka missed many crimps he cased the basket for a total of 20 points, which gave him high scoring honors for the evening. Johnson ranked next to Leeka with 12 points. The Cadets, led by Pierce, showed good team work, but the passing of the junior Terrors was too much for the visitors to check to a very high degree. The Cadets fought hard from beginning to end.

Warren and Adams played the usual good game in the guard positions.

"FIGHTING COCKS" LOSE SMITHFIELD "ARMY MEN"

The Poultry Science Club basketball team of N. C. State College met their first defeat of the season last Tuesday night when they encountered the Smithfield National Guards at Smithfield. The game was a very fast one, the "Army Men" winning by a score of 27 to 21. At the end of the first half the score was tied, 17 to 17. A few minutes after the second half opened, the "Army Men" jumped to a lead which was never overcome.

The "Fighting Cocks" do not feel lttled over the results of the game, even though there was a wide gap between the scores.

Some of the players representing the Smithfield National Guards were: Lexington, a 1926 varsity player of Lake Forest College; Jonette, a 26 varsity player of N. C. State College, and "Slim" Lawrence, a 27 varsity player of N. C. State College.

The "Fighting Cocks" speak highly of the sportsmanship of the Smithfield National Guards and the reception that was given them.

Mr. B. M. Blount, B.E. 1915, is reaman, Hull Fitting and Plant Repair Dept., N. N. S. & D. D. Co., New York News, Va.

STATE MATMEN UNABLE TO COPE WITH OPPONENTS

Gobblers Win by Big Majority While the Cavaliers Are Less Vicious

The Wolf Matmen were not so successful in their competition with the Gobblers of V. P. I. and the Cavaliers of the U. of Va. V. P. I., with a defensive plan of wrestling, scored 19 1-2 points to State's 11-2. Lamb of State and Fussell of V. P. I., in the unlimited class, wrestled two extra periods to a draw, therefore giving State the 11-2 points.

The competition was keener against the University of Virginia, the final score standing at 13 1-2 points to 11 1-2 points in Virginia's favor. The University Matmen scored their points by wrestling defensively, getting a small time advantage and then stalling for time. Nicholson and Lamb of State, by putting their opponents' shoulders to the mat, scored five points each. While Morris of State and Williams of the University, in the 153-pound class, fought fifteen minutes to a draw, thus giving State the 11-2 additional points.

The results:
V. P. I. vs. State
118-pound—Spry (State) lost to Ford (V. P. I.) on a time decision of four minutes and 57 seconds, after going two extra periods.

123-pound—Leary (State) lost to Cuipepper (V. P. I.) by a time decision of five minutes and thirty-two seconds.
135-pound—Kellam (State) lost to "Andes" (V. P. I.) by a time decision of four minutes and fifty-three seconds.

148-pound—Moore (State) lost to Anderson (V. P. I.) on a time decision of two minutes and nine seconds.

158-pound—Morris (State) lost to Mahaney (V. P. I.) on a time decision of two minutes and five seconds.

175-pound—Nicholson (State) lost to Miles (V. P. I.) on a time decision of two minutes and thirty-three seconds.

Unlimited—Lambe (State) and Fussell wrestled to a draw by going two extra periods.

State vs. University of Virginia
118-pound—Spry (State) lost to Graves (U. Va.) on a time decision of two minutes and three seconds, after wrestling two extra periods.

123-pound—Leary (State) lost to Sallee (U. Va.) on a time decision of one minute and fifty-five and one-half seconds, after wrestling two extra periods.

135-pound—Kellam (State) lost to Ferebee (U. Va.) on a time decision of three minutes and five seconds.

148-pound—Moore (State) lost to Paton (U. Va.) on a time decision of one minute and forty-nine seconds.
158-pound—Morris (State) and

Red Terrors Make Clean Sweep On Annual Invasion of Virginia Camps

DOWN V.M.I. QUINT IN FAST CONTEST

Last Friday night, at Lexington, Va., the Red Terrors defeated the Flying Cadets of V. M. I. in the fastest game of the season by the score of 30-24. The Cadets maintained the lead until the last ten minutes of the game. In the first fifteen minutes, Harner and Fulkerson rang up ten points. V. M. I.'s air-tight defense held State scoreless until this stage, when the Red Terrors got under way and hooked in four baskets in a row. V. M. I. led at the half, 14-10.

In the second half the game became faster, with State's bewildering pass attack allowing them to tie the score after ten minutes of resumed play. The Cadets took another spurt and regained the lead, but the Terrors forged ahead in the last five minutes of play and maintained it until the final whistle.

Frost and Mundy starred for the Cadets, while Brown, Spence, and McDowall were the shining lights for the State quintet.

V. M. I. (24)	State (30)
Fulkerson (13)	Williams (4)
Harner (9)	Gresham (5)
Frost (11)	Brown (7)
Mundy	Watkins (3)
Bishop	McDowall (3)

Williams (U. Va.) wrestled two extra periods to a draw.

175-pound—Nicholson (State) won from Paton (U. Va.) by a fall in six minutes and twenty-two seconds.

Unlimited—Lambe (State) won from Phillips (U. Va.) by a fall gained after three minutes and fifty-three seconds of wrestling.

Alumni Notes

Mr. J. S. Howard, B.S. 1915, is Asst. Supervisor of Agr. Edu., Salem, N. C.

Mr. J. B. Pridgen is District Engineer, State Hwy. Com., Charlotte, N. C.

Mr. A. E. Williams, B.S. 1926, is teaching agriculture in Bethesda High School, Durham, N. C., R. 6.

Mr. C. W. Absher, B.E. 1921, is City Engr. and Supt. Water Dept., City Hall, Mount Airy, N. C.

Mr. G. S. Fraps, B.S. 1896, is State Chemist of Texas, College Station, Texas.
Mr. G. B. Cline, B.S. 1926, is Milk Inspector, Winston-Salem, N. C.

W.&L. GAME ENDS IN ANOTHER VICTORY

On Saturday night, at Lexington, Va., a last-minute rally gave State the needed points to take the big end of a 41-to-34 score from the Washington and Lee quintet.

The Terrors took the lead in the early stages of the game by ringing up seven points before the Blue and White were able to sink a basket. At the end of the half the score was tied (23-23), with both teams going strong.

In the second half the Generals came back strong and ran up their score to 29 before State scored. With the score standing 29-31 in favor of the Generals, Gresham made five points to place his team in the lead as the game drew to a close.

After this the Generals were able to score only three points before the game ended, while the Red Terrors were making five and sending their lead to seven points.

A fire, a notorious roadhouse, Helene Chadwick and Harlan Tucker bring things to a climax in "Stolen Pleasures." Perfectly innocent but—appearances are against them.

Don't fail to see "Stolen Pleasures" at the Superba, Monday and Tuesday.

On Wednesday and Thursday we again have W. C. Fields with us. He is appearing at the Superba in "The Potters." He is even funnier, more sarcastic and wittier than ever. Don't fail to see him.

A spy, disguised as a slave, shows Louise Fazenda in "Finger Prints," bringing about the capture and arrest of a band of bank robbers. In this picture taken from the story by Arthur Sommers Roche, Miss Fazenda is supported by John T. Murray and Helene Costello. See it at the Superba, Friday and Saturday.

A family of crooks, ranging from grandma to granddaughter, plays an important part in the development of the plot of Leatrice Joy's latest starring vehicle, "The Wedding Song," a strong melodramatic photoplay, which will be shown at the Capital Theatre for two days, beginning Monday. Robert Ames is featured as leading man.

This hogs family of crooks provide much of the comedy. They are dear, sweet self-sacrificing "Grandma," prim "Auntie," hearty "Father" and good-natured "Brother." There is a dramatic climax which makes this picture one of the most thrilling ever seen here.

Don't fail to see "Tell Me Why" at the Capitol, Wednesday and Thursday. See it as it really is—it deals with the naked truth, spoken in unbiased words.

Be right on hand Wednesday and Thursday nights and see for yourself what others have dared not show you. You have heard about it and read about it—now see it.

Should mothers dance? Some say so and others say no. Conway Tearle, Alice Joyce, Clara Bow and a brilliant cast have decided the matter in "Dancing Mothers." A powerful drama of a forgotten mother, father and daughter had she—but not a companion in the world. She finally lands in fast company and shows the whole crowd that she is nobody's "stay-at-home." It will be at the Capitol, Friday and Saturday.

IT'S A "NUTTY" PICTURE!

"The Lunatic at Large," at the State, shows Leon Errol as a tramp who finds himself tricked into a private sanitarium for the wealthy feeble-minded. From the moment he starts for the asylum to the end of the picture there is a riot of fun and a dozen hearty laughs a minute. To see Errol meeting the "nuts" in the sanitarium is a sight for sore eyes! His famous pair of collapsing legs have something to collapse over and have never collapsed with such a flop as when he discovers where he is.

See this rip-roaring comedy Mon-

VIRGINIA LOSES RAGGED CONTEST

The State quintet added another Old Dominion victory to its string when it defeated Virginia, 13-9, at Charlottesville, Va., last Monday night. This was a hard fought, but ragged contest. Both teams seemed to be unable to locate the basket.

Through forty minutes of closely guarded play the State cagers made five field goals, while Virginia scored four. Harry Brown, center for State, made ten of the thirteen points, and seemed to be the only one that could locate the basket.

Six minutes passed before Brown scored for State, but Cabell immediately retaliated and tied the score. Toward the end of the half, Brown added a basket and Spence made a free throw good, while the Virginia captain caged a second shot to make the score 5 to 4 in State's favor at the end of the first half.

In the second half, Brown made a pair of foul shots, and made his third field goal before Millen scored a foul and then a field goal for the Cavaliers. Brown added one more, and Fayonsky's shot pulled the Virginians up. Watkins' long throw from the side put State four points in the lead. This shot ended the scoring for both teams.

State	Virginia
Gresham	Friedburg
Spence (10)	Cabell (4)
Brown (1)	Millen (3)
Watkins (2)	Mackall
McDowall	Fayonsky (2)

day and Tuesday along with five big acts of Keith's Vaudeville.

"Valencia"—you've heard it—now it can be seen starring Mae Murray, Lloyd Hughes and Roy D'Arcy, in which hundreds of beautiful girls, dressed in gorgeous Spanish costumes, appear in an exact reproduction of the governors fete in Barcelona. It is coming to the State, Wednesday for a two-day run. More captivating than the "Merry Widow." Be sure and see it.

Renee Adoree, heroine of "The Big Parade," will be seen Friday and Saturday at the State Theatre in Cosmopolitan's "The Flaming Forest," a picturization by Metro-Goldwyn-Mayer of James Oliver Coodwood's novel of the same name. Miss Adoree's work in "The Flaming Forest" is said to justify the prophecies of critics who predicted, when they saw her acting in "The Big Parade," that she would become one of the greatest artists of the screen. Renee plays the role of Jeanne Marie white Sergeant Carrigan is played by Antonio Moreno, hero of "The Temptress."

Laura La Plante, one of the most rapidly rising stars in the motion picture firmament at the present time will be seen at the Palace Theater on Monday, in "Butterflies in the Rain," in which she co-stars with James Kirkwood.

Supporting her are: Robert Ober, Dorothy Cummings, Dorothy Stokes, Edwards Davis, Clarence Thompson, and Ruby Lafayette.

"Men of the Night," a crook drama of powerful story and vivid emotions shown in a new way. The younger crook falls in love with an old lady who later redeems him for society. You can't afford to miss this "crook picture." It shows at the Palace on Wednesday only.

Lawford Davidson came by his villainous mustache accidently—it is real—but few would guess it. It is his first appearance with the "soup strainer." Davidson is appearing at the Palace, Thursday and Friday, in "Sin Cargo."

Hoot Gibson, versatile Western cowboy, rope, horse and gun artist, is seen approaching over the horizon in the "Silent Rider." Comedy and News reel at the Palace on Saturday.

ried in this picture, but not to each other. Their presence at the inn is perfectly innocent, but when the fire drives them out with the rest of the guests, appearances are against them.

W. C. Fields appears in "The Potters" at the SUPERBA Theatre Wednesday and Thursday. You remember him in "The Old Army Game."

Louise Fazenda in "Finger Prints," supported by John T. Murray and Helene Costello and an excellent cast, comes to the SUPERBA Theatre Friday and Saturday. This Warner Bros. production is from the story by Arthur Somers Roche, adapted by Graham Baker and Edward Clark, and directed by Lloyd Bacon. "Finger Prints," the story of the pursuit and capture of a gang of bank robbers, is the first starring vehicle of Miss Fazenda, who, in the part of Dora Traynor, a spy disguised as a slave, does the most amusing work of her career.

Borrowed Bits o' Bull

That disagreeable odor you do not locate comes from the Browning-Peaches trial.—News and Observer.

Decision of Shelby David Schneider, probably better known as "Red," not to return to Furman this year was received with sincere regret about the campus. "Red," according to an announcement in Memphis newspapers this week, will probably enter some eastern school next fall. Until then he will be engaged in a sporting goods store, and will also play basketball and probably baseball in Memphis.

Schneider's career at Furman was one of scintillating brightness, brief, but impressive. As a member of the rat squad, his name found the headlines with almost every game as an outstanding performer on the grid-iron. His varsity grid activities were the source of widespread approval. In other branches of sports he was proficient. His place on the Purple Hurricane will be hard to fill, but luckily there are a number of strong aspirants among Laval's proteges.—The Hornet.

For every man who doesn't smoke, there's either a diver or a woman who does.—The O'Collegian.

A pledge to refrain from tobacco and liquor is required of every student entering the new John Wesley College at Cambria, Ill. In addition, athletics, fraternities, student government, and dances are prohibited. And they call that a college.—The Kentucky Colonel.

Paragraphics

Go to it, Terrors! You terrorized the trusty Virginians, now terrorize truly at home.

The busiest student we have heard of is the one who can shine but one shoe each week.

We have heard much about the prevalence of "sex appeal." Wonder if that is what ails C. F. Shuford?

The law prohibiting murder does not work against preachers or millionaires. The Rev. Norris was "Not Guilty."

"Kid" Kellum has broken one man's leg, and twisted another's elbow out of joint in practice. He should use his rough stuff on our opponents.

If any of our professors miss us at roll call they will please not report us absent. We shall be acquiring an education listening to the monkey discussion in the legislative halls.

Excellence has its reward. The military staff was so well pleased at the results of the inspection by Colonel Rowell that all "Bull Ring" sentences for last week were suspended.

Dr. Brooks, we hope that you may soon move your home among us. We believe that if you could be near enough to enter into more of our "sessions" it would be mutually beneficial.

DR. SEERLEY AND SEX

The impossible has happened! A Y. M. C. A. lecturer has appeared among the hardened heathens and agnostics at State College who is able to fill the auditorium with students time after time. Yea, fill it even unto overflowing, and many there are who stood without and clamored for admittance.

Our time in the world has been long, and we have become bowed down with much worry over the hopeless situation of humanity. We were wont to believe that the State College student was so deeply calloused that he could be excited over nothing but athletics, and but mildly and objectively over that form of supposed entertainment. We were just ready to lay down the cudgels of civilization and bid the world bon voyage on its tumultuous journey to the bow-wows, barbarism, perdition, and petting parties.

But since the advent of one Dr. Seerley onto the scene, we are moved to take a firmer grip on life, even as he took a firm grip on the students, and abide yet awhile with our fellow men.

As befitting brilliant students of Forster and Wood's cause and effect in human desires, and of Taylor's Advanced Social Theory, we have tried valiantly to pigeonhole the reasons for this mighty wave of interest in a lecturer. We have reached many and varied conclusions, none of which will give a positive reaction when the final tests are applied.

We have finally come to the conclusion that there are a number of reasons for the near-ovations that he received at the hands of the students.

Not the least of these reasons is the man himself. Although nearly 70 years of age, he is the embodiment of energy and virility. He knows what he wants to say, and says it. He is technical enough for the scientist, and plain-spoken enough for the freshman. He has a free and easy style of delivery that is less mechanical than that of the average lecturer.

But probably the greatest reason for his success in gaining large and appreciative audiences is his choice of a subject—sex. Prehistoric man was a creature dominated by sex instincts, and all the ages of evolution have not removed us from that tendency.

There are two explanations of this sex appeal as expressed in this attendance upon Dr. Seerley's lectures.

The students, many of them, are genuinely interested in knowledge of manhood and womanhood in their purest forms, and welcomed a man who could get the information across to them as Dr. Seerley could get it across.

But we have a growing suspicion that morbid curiosity comes in for its share of the glory in the attendance record. Anything that pertains to sex calls out interest, and we have a curiosity to know "what he will say next."

Whatever the reasons, he got results, and we wish to congratulate the "Y" on producing a highly effective speaker, one that appeals to all types of students.

The mentors at Carolina have started regular football practice. We are heartily in favor of that idea, because great athletes come only from regular training. Then, too, the U. N. C. coaches must have work.

SENIOR WRITE-UPS NOW "TAR HEEL" CONTROVERSY

According to present indications, the lid is off and it's war to the death between C. A. P. ("Al") Moore and a large and influential faction of the senior class. ("Al") says the boys shall not have their customary write-ups in the Yackety-Yack, and the seniors evidently want their write-ups or "Al's" hide.

The pretty kettle of fish first boiled over at the '27 smoker last quarter. The worthy editor rose and laid down the law to his classmates. No such hokum shall contaminate his pet, said Cap. And then the storm broke. The seniors demanded that they considered their traditional dues, and in a vote on the question, only three members voted against write-ups. These were Al himself, a colleague on the Yackety-Yack staff, and Bob Hardee.

The split then seemed to be mending for a while, but rumblings in the inner councils of the seniors foreboded ill for "Al." The split was becoming wider, and has now approached a point where it is expected to burst into an open feud any moment.—The Tar Heel.

Mr. H. O. Clodfelter, B.E. 1921, is Structural Steel Draftsman, Carolina Steel and Iron Co., Greensboro, N. C.

Uncle Dudley's Opinion--

ON PERSONALITY

Many of you think that personality is obtained through birth, and that it is a gift that cannot be acquired. I thought the same thing for a long time, and often wished that I had been gifted with a pleasing personality as some I knew.

I have learned that it is not wholly inherited, but is developed through your own efforts. You can develop a personality if you are willing to sacrifice some of your self-centered traits.

You do not have to be witty to be a pleasing member of a party. Natural wit is a gift, but you can add fun and be agreeable without trying to be witty when you are not capable. How well can you listen when a friend of yours is talking? Some can add their share of gab any time, but cannot listen when a friend has something to say.

How courteous are you to your friends and to all the students you come in contact with? Courtesy is one quality that any of you can have, but very few are thoughtful enough to practice it. Do you think of how others feel when you say things that will hurt them? There are so many of you that never think of what one little bit of courtesy will mean. I have watched State College students on the streets of Raleigh, in public gatherings, and on the street cars, and have seen them do very rude things. Do you ever stop to think what others judge you to be when you are discourteous?

Are you friendly, and do you like to make friends? If you do not value your friends, and like to make new ones, you will have a hard time developing a pleasing personality. How do you speak of your friends when they are not present? I have said little things about some of my best friends that hurt me afterward, and I would have given anything had I never made the remarks. No one likes to hear you criticize others. Perhaps they will listen to you while you are doing it, but you are showing them right then how you value your friendship with others and what kind of a person you are.

How strong are your convictions? Are you neutral on matters you should take a stand on? You must be forceful to have a good personality. I do not ask you to have to take a stand and stick to it, but if you believe a thing is true, you should stick to it. On the other hand, there are so many who will not change their opinions, even if they see they are in the wrong. Be open to conviction, and if your friends can show you new light on a subject, don't be stubborn and radical by holding to your own opinion just because you hate to give over.

Let me summarize these qualities, and ask yourself if you possess them. If you do, you should have a pleasing personality.

- 1. Do you listen attentively?
2. Do you ever change your mind in an argument?
3. Are you able to see your opponent's side in an argument?
4. Do you like people or are you critical?
5. Are you thoughtful of the feelings of others?
If you can answer these in the affirmative, you need not worry about friends, for you have the qualities that go to make a good personality.

PURCELL ELECTED HEAD OF THE TEXTILE SOCIETY

D. A. Purcell, a senior in textile manufacturing, was elected president of the Textile Society Tuesday evening. Purcell, whose home is in Reidsville, came to N. C. State a little over three years ago. Since that time he has made a very good record, has become well known on the campus, and has taken an active part in all of the activities of the Textile School.

The following officers were also elected: G. E. Kohn, vice-president; J. B. Dunn, secretary and treasurer, and F. E. Plummer, reporter. J. B. Dunn was also appointed chairman of the program committee.

At this meeting the members decided to initiate Tuesday evening, February 5, all freshmen registered in the Textile School who wish to join the society. Joe Cobb was elected chairman of the initiation committee, and an initiation much preceding from the ceremonies of the preceding years is expected Tuesday evening. Hereafter freshmen registered in the Textile School may become members of the Textile Society after completing their first term's work.

DR. WELLS LECTURES AT SOUTHERN PINES CHURCH

Dr. B. W. Wells of the Botany Department gave an illustrated lecture on the flora of North Carolina and Smoky Mountain Park Sunday evening at the Church of Good Fellowship, Southern Pines. Dr. Wells has done much work in the study of plant life in this state.

PULLEN SOCIETY HOLDS INTERESTING MEETING

One of the most interesting debates of the year was featured at the regular meeting of Pullen Literary Society, January 21, on the subject: "Resolved, That education is the curse of the age." The affirmative was upheld by J. Broadwell and H. F. Ellis, and the negative by L. M. Stone and E. C. Conrad. The judges decided in favor of the affirmative, with Mr. Broadwell as the best speaker.

Several unique ideas in regard to education were brought up by the debaters on each side, the affirmative especially treating their part of the question in the unusual manner of making a joke of the subject. This was necessary because of the nature of the question.

"The Ideal Age for Happy Brides and Grooms" was the subject of a talk upon a current topic given by J. C. Edwards, and met with considerable favor with the audience. In the absence of the regular critic, J. E. Tiddy served in that capacity at the meeting.

A committee for the purpose of submitting a write-up to the Agromech was suggested by President Trewhatha.

A. L. Aydlett was named as chairman of the committee, and was asked to choose two others to assist him.

The society decided not to have a program on January 28, but to substitute the initiation of new men. An initiation committee was appointed, with Messrs. Person, Eller, and Dillingham as members.

FOURTH AREA RIFLE SHOOT TO BEGIN SOON

Last week the rifle team shot two matches, losing both by overwhelming scores, the matches being with Oklahoma A. and M. and the University of West Virginia. The next match is to be with Michigan State. McKinnon was the high scorer of the team, getting 371 points out of a possible 400.

Since the arrival of the new rifles the team has shown great improvement, having increased on an average of 8 points per man; and after the men have become more used to the rifles, it is expected that they will shoot more accurately.

The shooting for the championship of the 4th Corps Area begins either next week or week after next. There are now twenty-two men shooting for positions on the team, of which the fifteen highest will be chosen. In shooting matches, only the ten highest scores count. Captain Vernon hopes by the time the matches begin that he will have the team in tip-top shape.

1926 MECHANICALS ARE MAKING GOOD IN WORK

Last year's graduates in Mechanical Engineering are already doing great things in their chosen fields, according to the M. E. Society reporter. Every one is employed in some kind of mechanical work. The men are scattered over five states. F. W. Jones is with the Goulds Pump Manufacturing Company of Seneca Falls, N. Y.; E. B. Gaddy is located with the Robinson Furniture Company of Goldsboro, N. C.; J. H. Rhodes, W. E. Plott, and J. H. Leonard are located in Charlotte with the Grinnell Co. (the Grinnell Company makes fire sprinklers, and the officials think very much of State College graduates); T. C. Dickerson is with the Hydraulic Estimating Department of the Newport News Shipbuilding Company. He writes that his State College work is very beneficial to him; saying further that the slide rule and the Carnegie Pocket Companion are the most used.

Mr. E. O. Moody and M. Summers are in Asheville, N. C., with the Asheville Supply and Foundry Company.

R. M. Shuford and E. C. Weston are located in Pennsylvania with the Frick Company, which is one of the leading refrigerator firms of America, and offers a great future for young engineers. These men work in the factory half their time and on the road the remainder. At the end of three years, if their ability has proven such, they are sent out as erecting engineers.

D. P. Ritchie is with the Allis Chalmers Company of Milwaukee, Wisconsin.

E. L. Mountcastle is with the Elliot Company of Pennsylvania.

S. E. Shepard is with a steel company in Greensboro. F. K. Fogleman, who was business manager of "The Technician" last year, is now with the Westinghouse Electric Company. Since going there Mr. Fogleman has been transferred to the publication department.

It is interesting to note that State College mechanical graduates always find such employment if they desire. For the last number of years the demand for these graduates has been greater than the supply.

Mr. J. L. Martin, B.E. 1911, is County Hwy. Engr. for McDowell and Rutherford counties. His address is Marion, N. C.

Professor Zip

says--

OLD Shuford's star has shone again, and spread its beams afar; he views the girls with eyes of men, and calls them what they are. Full many giggles ceased to sprout, that grew in girlish throats, and in their place there sprang a pout, at Shufue's discordant notes. A week before, they laughed in glee, at "Essay on a Man," which told the shameful things that he, in native filth, may plan. They smiled and cynicized at length—recalled his deeds absurd; they scoffed at all his lack of strength, when moral slips occurred. But now, from out our midst there springs, with madly whirling pen, a man whose very manner stings whoever lowers men. Frank Capps has near his office door, some niches yet unfilled, for benefactors, up to four, who helped this place to build. I move the first gray marble bust to take that honored place, to live until his bones are dust, have Charlie Shuford's face.

BROOKS SPEAKS ON BIBLE STUDY

Continuing the Y. M. C. A.'s program of Bible Study, President Brooks spoke to the student body assembled in Pullen Hall Wednesday at the regular chapel hour, using as the theme of his address "The Increasing Purpose." This was the second of a series of lectures inaugurated by the Y. M. C. A. in their program of Bible Study.

Dr. Brooks read several passages from the "Sermon on the Mount," interpreting them into the two thoughts of: "forces that preserve," and "the light that guides." "Is your purpose traveling with the increasing purpose which runs through the ages?" asked Dr. Brooks. Contrasting the society of today with that of yesterday, Dr. Brooks made clear the fact that the society of today held responsible certain individuals for their failure to live up to certain standards. "Doctors, lawyers, engineers, and men of other professions are required by society at large to live up to certain standards of skill and moral conduct," declared Dr. Brooks.

SECTION FOR STATE AT WILL ROGERS LECTURE

The management of the Will Rogers lecture program at the City Auditorium for Tuesday night has set aside a complete section of seats for State College students. Tickets for these seats are on sale at the College Y. M. C. A. Will Rogers is considered to be the leading humorist in the country, and the management believes that the students will desire to hear him. The price to students is 50 cents.

Mr. J. J. Chamberlain, B.E. 1924, is Asst. Mgr. Nantucket and Lily Mills and Carolina Cotton and Woolen Mills Co., Spray, N. C.

After-shaving comfort

HOW do you fit your newly-shaven face for the rigors of an academic day? Some men just wash off the lather with water. Others in growing numbers use Aqua Velva, Williams new scientific after-shaving liquid. It helps the skin retain its needed natural moisture—keeps the comfort of a Williams shave all day long. Big 5-ounce bottles, 50c.

Williams Aqua Velva

Kampus Komiks

By DINKIE

(By Dinkie's Best Girl)

Twinkle, twinkle, little hair,
How I wonder what you air.
Up above your lips so brave—
Why in the devil don't you shave?

People who live in glass houses shouldn't.
"My, but Sarah Hall is self-important."
"How so?"
"She even thinks the ocean is waving at her."

Got a couple of good songs for you this week:
The Arthur Song: "Arthur any more at home like you?"
The Leaping Song: "I just can't get over a girl like you."

"You say you attended the wedding? Who gave the bride away?"
"Nobody said a word."—Sans Gene.

"Has your suit two pair of trousers?"
"You bet; one pair for me and one pair for the wife."—Judge.

"How's your wife, Mack?"
"She's terrible sick."
"Is she dangerous?"
"Now, she's too weak now to be dangerous."

Take it from me fellows! When better dates are made they won't be blind ones.

If the folks who dictate women's fashions aren't careful, they'll work themselves out of a job some day.

Rat Pipkin: "Yes, love-making is the same as it used to be."
Wylie: "How do you know?"
Pipkin: "I just read about a Greek maiden who sat and listened to a lyre all night long."

Here's to the doughboy and his arms,
Fall in, men, fall in;
Here's to woman and her arms,
Fall in, men, fall in.

Louis: What do you do for exercise?
Hazel: Oh, I let my flesh creep.

She: Are you a freshman?
Rat Little: No, I just wear the hat because it is becoming.—College Humor.

"At this writing" the question is: Are knot holes holes, or are they not holes?

Dr. Tommy: "How long can a person live without any sense?"
Frosh: "I don't know. How old are you?"

Rat Miami: "Did I make myself plain?"
Upper Classwoman: "No, God did that."

Harrell: "I hear that Baynes has given up smoking. It was ruining his nerves."
Hunt: "Indeed?"
Harrell: "Yes, he worried so much over the possibility of some one asking him for a match."

In recorder's court, with a cross-eyed judge, three negroes are brought in for gambling.
Judge (to first negro): "What is your name?"
Second Negro: "John Brown."
Judge: "I was not talking to you."
Third Negro: "I did not say anything."

If Queen Bess and Sir Walter were to pull their act today:
Walter (sweetly): "Bess, dear, your feet are getting wet."
Bess (the true co-ed): "So's your old mantle."

"And what did the dean do when you threw your arms around his neck."
"He put me on prohibition."
—Williams Purple Cow.

"I'll knock you for a rho."
"Phi on you! Beta dime you can't."—Louisville Satyr.

THE OUTLINE OF LOVE

Grade School
Roses 1th red,
Violets 1th blue,
Sugar 1th sweet
And tho—1th—ooo.

High School
Chrysanthemums are beautiful,
And so is marmalade;
Without you, darling Gwendolyn
My life's a dead night shade.

University
The moon is silver sheathed,
As you, my golden symphony,
'Tis you I crave to wed,
My agonizing ecstasy!

Ten Years Wed
I have a knife,
It's blade is true;
For 30 cents
I'd murder you!

—Dirge.

Shuford's Opinion of Women Draws Fire From the Weaker Sex at Meredith and the City of Raleigh

CAN'T SWALLOW STUFF SLUNG BY C. F. SHUFORD

Mr. R. R. Fountain,
Editor of the Technician.

Dear Sir:—As girls we have to swallow some things and keep quiet, but I'll declare it is hard to take in all that Mr. C. F. Shuford slung at us in last week's Technician.

I'm sorry I didn't have the pleasure of reading the "Essay on Man," to which Mr. Shuford replied. Yet, personally, I think some girl "did" Mr. Shuford, which has resulted in his case of "sour grapes." But, Mr. Editor, I beg to differ slightly with Mr. Shuford on his opinion of women.

This so-called weaker sex happens to be strong enough to force Mr. Shuford, of the high and mighty sex, into such an idea of girls. When you take the handsome college youth from the presence of his so-called weaker sex and put him at home among sisters, brothers, ma's and pa's, we see our hero as he really is—the perfect son, always in a cheerful mood, never slinging furniture at the smaller children. Take the handsome youth and put him in overalls out in the cornfield, and there we see our hero, instead of hanging around the "Caly," gazing intently at the peaked-nose flimflams that men would simply be lost without.

Oh, yes, you can call us horrible names; but why do you always seek us? In your bull sessions the girls are discussed; at the games the girls are half the attraction; if not why do you put on your Sunday best clothes and take hours to prepare yourself for an athletic contest?

If you want to take a woman out she doesn't want to go—at least where you do. Huh! It's such a rare thing that gents give us the chance to go, we at least should be allowed our choice. After all, you asked her to go. Why can't she suggest the place, and then, if you don't want to go, be a sport for once—and do go. The next time go where you want to—alone.

After all, men are just as big fools as the women; so why argue over it? You men are just as crazy over flattery as we are; you buy a loud necktie, hanky, and sox to attract the girl's attention so she'll think you look sporty. You let your hose be rolled, and adopt the flapper slouch so you will look like the ideal college dude.

And why are you called liars? Simply because none can come up to you—you do lie! You go see a girl and rave about her beauty, charm, etc., and all the while you're longing for the girl back home. You're perfectly willing to have dates with the Raleigh girls during school term, but just let a dance come along and the mails are rushed with invites to the girls back home.

So, Mr. Editor, I humbly suggest that you and some of your editorial staff call upon Mr. Shuford to try

SHUFORD GIVEN ADVICE BY FAIR MEREDITHONIAN

"Thou fool! instead of removing the beam from your own eye, you spend your time hunting the mote in your sister's eye." Such was the text of the sermon some young darsel, in that great seat of learning better known as Dr. Charlie's Country Club, preached to me through the mail in response to what I thought a logical "comeback" to the "Essay on Man."

"Is it possible that a mere woman could be more disgusting than those drug store-Charleston dancing-jump ing jacks who, when they are perfumed and powdered, are known as 'Cake Eaters'?" "The narrowest thing about him being his mind and the broadest being his balloon trousers."

"May I suggest that you inaugurate a 'World Clean-Up Campaign,' and be a true martyr to the cause."
"The powder-puff and paint have never degraded civilization to the extent that man's unnecessary article—namely, liquor—has."

"If cosmetics have made the world brighter, why should you object?" Here the writer became so frustrated that she wrote three ands before light dawned upon her clouded brain (?) and she flashed forth with this bright sentence: "Keep your conceited influence for some cause that really needs it."

"Men are the Chinese puzzle of modern civilization, while women bear the brunt of the struggle. Perhaps women do change their mind, but that is a privilege." "Some men get into such a deep rut that to change their mind is as much of an impossibility as Jonah swallowing the whale. Men are so STUBBORN."

"When you, as a man, grow to typical manhood, then and only then let your criticism of the opposite sex be aimed in a constructive manner."
"Women may be the weaker sex, but they've been pursued since the time of Adam." "Beware! lest you become one of his followers."

Fellow students, all of this goes to show the truth of the old axiom that things equal to the same things are equal to each other. Sherman said that war was hell; and, since women are worse than war, draw your own conclusion.

C. F. SHUFORD.

to comfort him and persuade him to discontinue throwing bric-a-brac at the girls; for, after all, it's a great old world, and what would we do without each other? Such an article as he wrote is childish and foolish, and not at all up to the dignity of a junior at State College.

Say, Mr. Shuford, aren't you sorry? Be a sport; a true confession is good for the soul! Don't you feel better?
A HAYES BARTON GIRL.

CAMPUS GIRL HITS BACK AT JUNIOR WOMAN HATER

Dear Mr. Editor:

Please ask Mr. Shuford to be original if he must "down" the ladies. His latest article was published originally last May in one of the numerous college magazines of the country, and I am enclosing reply as was published in the same magazine later. You may publish it or not, just as you wish, but please inform Mr. Shuford that it is tiresome to read an article so behind times as the one published last week.

ONE OF THE CAMPUS OLD MAIDS.

The article follows:
"After having read the articles entitled 'Oh, You Women' in the May issue of 'Bottles,' and being a member of the so-called gentle sex, I feel it my duty to reply with my idea of the 1926 model of Asphalt Arabs."

If you flatter a man you need your head examined, for he already considers himself perfect. If you don't, you know what it's like to be the 'kind of a girl that Men forget.' If you permit him to make love to you, carry a stop signal—in which case you'll know what it means to be lonesome.

If you believe him in anything, it won't be long before he'll tell you nothing but lies, and expect you to like it and if you argue or discuss any topic with him, he suspects you

Thomas H. Briggs & Sons, Inc.
RALEIGH, N. C.

"The Big Hardware Men"

what the boys use—
We Keep IT!
BOYS, COME IN!

of having brains, which any well-meaning girl must keep under cover in order to be popular.
If you wear long dresses he goes around gazing at every other pair of legs, and in time begins to follow the other legs; but if you wear short skirts, he feels it's his duty to tell you that you are the cause of leading men astray.

If you smoke and drink, he thinks you do everything else; and if you don't, he calls you a 'spare tire,' and parks you in the most convenient spot and forgets you exist until, perhaps, he feels the urge for a nice quiet date. Then you may expect a call, girls.

If you are a 'brainless wonder,' he talks by the hour of the girls who understand him perfectly, and are possessed with almost human intelligence; but if you have brains, he tells you his type is, and always has been, the 'clinging vine' variety. If you are popular, he's sure there is a reason; and if not, he's convinced that you have halitosis.

I remain your idea of a puzzle,
WOMAN.
"What kind music is snoring?"
"Sheet Music."

DR. CIASTER DECLARES LIPSTICK IS GERM TRAP

Dr. Charles V. Ciaster, health officer of New Jersey, declared that a lipstick is nothing else than a breeding place for germs.

When the bacteriologist wishes to collect a few specimens of the germs floating about in the air, he exposes a little gelatin, and immediately the germs or bacteria flock to it. This is exactly what happens when "Polly" or "Mabel" deck themselves up in their war paint and saunter down the street.
Moral: "If you must kiss, boys, take your kissing straight."

Soph: What would a cannibal be who ate his mother's sister?
Frosh: I'll bite on that; what?
Soph: An aunt-eater, of course.

You are an experienced smoker and you know your brand!

YOU'RE an experienced smoker. You know good tobaccos. You know taste and fragrance. And you insist on the best—that's Camels. Only the primest tobaccos grown are good enough for you—the experienced smoker. Whatever you do you are going to do right, if you know it. If Camels weren't the best, they would not be far and away the first. If Camels weren't quality supreme, they would not be the overwhelming preference of smokers who have tried every brand. Your taste tells you the tobacco difference in cigarettes and you're going to smoke the best. Your advice to others is—"Have a Camel!"

R. J. REYNOLDS TOBACCO COMPANY, WINSTON-SALEM, N. C.

FROSH ATHLETES TAKEN TO COURT OF CUSTOMS

No Plaintiff Appears to Uphold Charge Not Wearing Caps; Men Are Released

Interest was high on the campus Tuesday night due to the fact that several first-year men were called before the court of customs on a charge of not wearing freshman caps. The men called up were all prominent in freshman athletics, namely: Adams, Warren, Lepo, Leek and Lattimer.

The opinion on the campus seemed to be that it was too late now to do anything as the year was half over and since the men had not been wearing them it would be better to let it go than to cause ill-feelings on the campus.

The original plaintiff evidently decided to follow public opinion, for last night when the court met to try the case, there was no one to appear against them. The case was dropped.

"Harvey Pate and Rat Green are always fortunate in catching rides." "They ought" to be. Their faces would stop a train."

Alumni Notes

Observations and Communications of ZIPPY MACK

A hundred per cent trip through Virginia is not such a bad showing for the basketball fellows. Congratulations.

Mr. and Mrs. Charles F. Long announce the engagement of their daughter, Mary Elizabeth, to Mr. Joseph Daniels Pell, the wedding to take place February 19.

Mr. Pell is the son of Judge Pell, of Raleigh, and is a member of the Textile Class of '21. Since graduation he has been with the Hillcrest Silk Mill in High Point, where he is now manager.

Mr. and Mrs. Karl B. Glenn announce the arrival of a daughter, Francis Belle, January 23, 1927, Brooksville, Fla.

Mr. Glenn is a member of the '23 Electricals, which class he joined after a year at Valparaiso.

Mr. C. E. (Charlie) Glenn, of the '25 Agriculturals, has recently found it necessary to go to the Government hospital in Lake City, Florida, for

treatment of various disabilities brought about by participation in the World War. Glenn will be remembered as the great bass singer of the quartette in his senior year, and will also be remembered by a host of friends in Raleigh, where he has made his home. All of those friends wish him a speedy recovery.

Mr. G. H. (George, Buck, Howard) Redfean, famous shortstop on the teams of '21, '22, and '23, has been signed by the Detroit Americans. After his graduation, Buck signed with the New York Yankees, and in addition to his playing for them, has seen service with Pittsfield, Asheville and Nashville.

Professor Browne, of the Electrical Department, has a very good position to offer to an Electrical graduate of good mixing qualities who is not under five feet seven in height, nor under a hundred and sixty in weight. If we had a little more than our pitiful portion of pleasing personality, and ten extra pounds of paunch, you'd have to fight for that place. The line forms on the left.

Mr. W. F. (Bill) Shipman, of the classes of '20 to '23 inclusive, is now with the Carolina Motor Club, with headquarters in Greensboro. He is now working in the western part of the State, where he travels from town to town, organizing local motor clubs.

Among the recent visitors on the campus have been J. P. Hughes and J. E. Griffith, of the '26 Textiles and Civils, respectively, and L. L. Hedgepeth and J. M. Potter, editors of the '25 and '26 Agromock, respectively.

F. W. Warrington, class of '26, has been transferred from the Martel Mills, Asheville, to the Mercury Mills, Charlotte, N. C.

E. C. Mitchner, class of '26, has been appointed assistant superintendent of the Greenville Cotton Mills, Greenville, N. C.

H. B. Curtis, a member of the class of '23, and well remembered as a baseball pitcher in his college days, visited the Textile School a few days ago. Mr. Curtis represents the towel department of the Marshall Field & Co., New York.

Mr. E. P. Welch, B.S. 1920, is County Agricultural Agt., Washington, N. C.

Mr. James M. Peden, B.E. 1920, is Engr. Sales, care Raleigh Iron Works Co., Raleigh, N. C.

Mr. J. G. Paschal, B.E. 1909, is Mgr. Lumber Plant, Goldston, N. C.

Mr. J. W. Hendricks, B.S. 1917, is County Agri. Agt., Newton, N. C.

Mr. C. B. Brown, B.S. 1926, is living at Harmony, N. C.

Mr. D. R. Sawyer, B.S. 1918, is living at 3 Bank St., New York City.

20% FLUNK!

20% of students were dropped last year because of poor scholarship. N. Y. U. had the highest mortality with 30%—Yale the lowest with 12%.

Misdirected effort is responsible for this condition. Overcome it! Don't waste so many hours taking notes in longhand. Use the A. B. C. shorthand system, based on Prof. E. L. Thorndike's Foundation Vocabulary.

Easy to learn, written with A. B. C.'s, not a strange symbol, mastered in about one week—enables you to take notes 3 times as fast—a great asset for scholastic success. Practical in Journalism, business, court notes, sermons, lectures, research, etc.

Don't waste precious time. Send for a complete course TODAY! Only \$2.00.

INDUSTRIAL SOCIOLOGY COURSE OFFERED 1928

To Deal With Industrial Problems From Sociological Standpoint

An unofficial announcement made this morning stating that a course in Industrial Sociology is to be offered next year in the School of Science and Business, marked another step in the remarkable progress of a department which has enjoyed marked popularity since its initiation a few years ago.

This course will deal with industrial problems from a sociological standpoint in their relation to everyday business and commerce.

It is of interest primarily because it fills a gap in the curriculum of the school. The institution of this course has added significance in that the students of State College are again assured that every effort is being made to furnish them a thoroughly modern and well-rounded education.
