## THREE CUPS AND TWO MEDALS WON BY STATE TEAM

### Horticultural Students Judge at Southern Intercollegiate Fruit Contest

### MADE BEST UNIT RECORD

### Contest Is Fourth Event of Its Kind State College Has Entered This Year

Once again a State College judging team has demonstrated its ability to excel other teams. By winning first place in the Southern Intercollegiate Fruit and Vegetable Contest, held in Atlanta, Wednesday, the State College team will bring back three loving cups and two gold medals. The State team not only made the best record as a unit, but the members were also the highest scoring individuals in the contest, according to information from Professor C. D. Matthews, who accompanied the team to Atlanta.

The State College boys began work early last fall in preparation for the contest, and have been hard at it since that time. No efforts were spared to acquaint them with every fruit and vegetable of economic importance produced in the South. The contest was the first of its kind ever held in this section of the country, and Professor Matthews did much to stimulate interest in its behalf.

T. D. O'Quinn, of Manassas, was the highest scoring individual in the contest, according to the message received here. R. S. Gaston, of Asheville, was second, and R. W. Zimmerman of Lexington, followed closely as third. Gaston won the apple contest and O'Quinn led in the peach contest. This was the first experience in horticultural judging for the local boys, although Zimmerman has taken part in one other intercollegiate contest, and went as alternate to another, so his record thus far is judge of livestock and of horticulture products, and alternate on poultry teams.

The horticultural contest is the fourth intercollegiate event of its kind in which State College has participated during the school year. In two of these, horticulture and poultry, the teams have won first place. In the grain contest which was held in Chicago, the team took third place, and one of its members, W. L. Adams, won individual honors, breaking all previous records. In the livestock contest which was held in Detroit, the team placed sixth, defeating teams from many of the leading dairy States.

## SENIOR SUPERLATIVES ARE CHOSEN BY ENTIRE CLASS

### Many Places Hotly Contested With Several Men in Race to the Finish

The committee in charge of Senior class statistics announced today the results of the ballot cast at the last class meeting. The count of the votes indicated a wide variation of opinion. Henry Weedon and Frank McCoy received the highest number of votes for "Best Business Man," and the latter won by a small number.

E. A. Felmaster and M. E. Comer were close competitors for "The Most Social" senior, but the last few counts put Felmaster in the lead.

John Matheson had little opposition as the "Best All-Round," and John Anderson was conceded the "Best Executive" in the Senior class. Nicholson was almost unanimously elected the "Best Athlete," only two votes being cast against him.

Several men were named as "Best Student," but Plummer won by a large majority.

Most of the voters agreed that "Railroad" Fountain was the "Best Writer," though Ed. Wilson was a close runner-up.

## Norris Trophy Primary Be Held Wednesday, Feb. 9

The primary election for the Norris Athletic Trophy will be held Wednesday, February 9, in the Y. M. C. A. The ballot boxes will be in the "Y" lobby from 8:00 a. m. to 6 p. m.

The awarding of this trophy to their favorite athlete is the greatest privilege that the students have each year, and to win it is the highest annual athletic honor available to the athlete.

The trophy has been given only three years previous to this year. In 1924 it was awarded to Rochelle Johnson; in 1925 to G. C. Lassiter, and in 1926 to the Shuford brothers (Charlie and Walter).

The rules governing the awarding of this trophy are given in full elsewhere in this issue.

## HON. J. STITT WILSON TO DELIVER SIX LECTURES

### "Y" Brings Noted California Teacher to State Campus For Fourth Time

Many State College students and faculty men are looking forward to hearing the series of addresses to be delivered by Hon. J. Stitt Wilson, of Berkeley, California, next Sunday, Monday, and Tuesday. The Freshmen who have not yet made Mr. Wilson's acquaintance have something worth while to look forward to.

Speaking of Mr. Wilson's work here last year, a member of the faculty council expressed his opinion as follows:

"I consider Mr. J. Stitt Wilson the most valuable man that is brought on this campus for the conduct of student meetings. He is so well informed, so exceedingly wholesome, and such a perfect teacher that I consider it worth while to have him return just as often as we possibly can secure him."

Mr. Wilson's schedule will be as follows: Sunday, Y. M. C. A., 1:40 p. m.; Sunday, Pullen Memorial Church, 7:30 p. m.; Monday, Pullen Hall, 12:00 noon; Monday, Pullen Hall, 6:30 p. m.; Tuesday, Pullen Hall, 9:00 a. m.; Tuesday, Pullen Hall, 6:30 p. m.

The four addresses on Monday and Tuesday will constitute a series. Every State College man should plan to hear them all in order not to miss the continuity.

Mr. Wilson's visit will be the high point in the "Y" program for the year.

In bringing men like Dr. F. N. Seerley and Fred B. Smith to the campus, the "Y" Cabinet feel that they are rendering a service to the entire student body. Only with the co-operation of the fraternities, departmental clubs, and other student organizations can the visits of men like these be made a success.

The Cabinet wishes to make a plea through the columns of The Technician for 100 per cent co-operation in making Mr. Wilson's fourth visit the most satisfactory of them all.

## HONEYCUTT'S VISITED BY THIEVES FOR THIRD TIME

### Popular Haberdashery Is Favorite Resort of Those "Who Break In and Steal"

Thieves visited Honeycutt's London Shop for the third time in the last six months, Tuesday morning. The exact time of their unlawful visit cannot be definitely stated, but it is the general opinion of neighbors that entrance was made some time between two and four.

The lawbreakers gained entrance to one of the display windows by breaking the neighborhood, who scared the prowlers off before they had time to break through the thin partition separating the windows from the store proper. The thieves took the articles on display, namely, four hats, and departed in haste.

Mr. Honeycutt informed friends that the windows and their contents are covered by insurance, and he, therefore, suffered no loss.

## 1927 ELECTRICALS SPEND FOUR DAYS IN WESTERN N. C.

### Tour for Purpose of Visiting And Inspecting Large Power Plants

### ACCOMPANIED BY RICKER

### Expedition to Return in Time For Game With V. P. I. in Gymnasium Tonight

Eighteen Electrical Engineering Seniors, accompanied by Professor C. W. Ricker, left early Wednesday morning on a four-day trip through Western North Carolina for the purpose of visiting and inspecting the larger power plants in that section of the State.

Leaving Raleigh the party traveled to the Cape Fear steam plant and from there to Badin. After leaving Badin they went to Rockingham, and while there they visited the Blewett Falls hydro plant and ended their first day by spending the night in Rockingham.

Beginning the second day the tourists traveled to Norwood and inspected the hydro plant there. Their next stop was Badin. There they visited the power plant of the Tallahassee Power Company and the Badin Aluminum Plant. Upon their departure from Badin the travelers journeyed to High Rock and on to Charlotte, where they spent the night.

The third day found the seniors headed towards Mountain Island, and from there they went to Mount Holly. Leaving Mount Holly they traveled to Catawba and from there they traveled to Salisbury, where they spent the third night on the trip.

Homeward Bound! Yuck, the seniors are visiting Buck Plant and they will eat dinner in Greensboro. Leaving Greensboro they go to Eno and from there to Durham, where they will inspect the telephone system and will arrive in Raleigh in time for the game.

The following men are on the trip: J. L. Campbell, B. W. Garvin, J. W. Fagan, A. E. Huggins, G. D. Humphrey, H. C. Hurley, G. V. Keller, B. J. Kopp, M. W. McCulloh, W. E. Matthews, T. A. Morrow, C. A. Phillips, M. L. Rockfield, J. A. Smith, J. G. Smith, M. R. Stewart, P. L. Stuart and W. J. Russell.

## Summer School Plans Work Of Great Benefit to State

Final plans for the State College Summer School have been completed and were given out today by T. E. Browne, director. The policy of the Summer School will remain the same as it has been for the past few years, in that special emphasis will be placed upon secondary education, and the industries of the State for which State College is particularly fitted to offer training. The summer term begins on June 13 and closes July 22.

The new type of summer school developed at State College should appeal especially to high school teachers and principals. Special courses will also be offered in various departments of the College for men and women who are now at work in the industries. Regular college work will be available for those who wish to do work toward a college degree, and in addition there will be held several short courses and conferences of a practical nature, including cotton classing and textile work.

The Department of Education will play an important part in the Summer School. In addition to the regular courses which have been given in the past the following new courses will be given this year: "Methods of Teaching Third-Year Science," "The Supervisory Activities of Education," "Philosophy of Education," "History of Education," and "Child Psychology." Besides the other professional courses there are a number of subject-matter courses which may be elected by high school teachers. These courses carry both college and certificate credit. Courses in Industrial Arts will be given also.

The Textile School, with its enlarged plant and equipment, will be placed at the command of the textile industry in North Carolina, and courses will be offered for those who wish to increase their working knowledge in this field.

## D. H. Hill Library Wins A Coveted Distinction

Three buildings recently constructed in this state and designed by Hobart Upjohn, architect of New York City, won the Diploma of Merit, a much coveted distinction, in the International Exhibit at Turin, Italy, according to a communication recently received by Dr. E. C. Brooks.

The three buildings entered in the exhibit by Mr. Upjohn were the D. H. Hill Library, the recently completed library at State College, the Chapel of the Cross at Chapel Hill, and the Village Chapel at Pinehurst.

Hobart Upjohn is the grandson of Richard M. Upjohn, famous church architect of the nineteenth century, who achieved fame in this state, when he designed the Christ Church, in Raleigh. He has designed all the newer structures at State College and the Christ Church parish house.

## FRED B. SMITH SPEAKS TO STATE COLLEGE MEN

### "Is America a Great Nation?" the Subject of a Talk in Pullen Hall Thursday

Injecting a little sober thought, stimulating a little passive reflection, and even a little doubt, Dr. Fred B. Smith, lecturer, political observer, and world-wide traveler, spoke to a specially assembled student body Thursday in Pullen Hall on the subject: "Is America a Great Nation?"

"Of course," began Dr. Smith, "we have been accustomed to hearing all our lives that America is the greatest nation on earth. Let me call a few witnesses to the stand, you (the students) being the jury. First, we will take the politician, then the business man, and the statistician, and even the nations of the world; ask any of them which is the greatest nation on earth, and they will all reply: 'America, ah, America, is the greatest nation in the world.' And they are all right."

Declaring that America is no greater today than other nations have been in the past, Dr. Smith gave a brief summary of the once great nations that are no more. Starting with China, that nation upon whose

## High Cagers Come March 4th to Second Annual Tournament

## LEAZAR DEBATING TEAM WINS SENIOR CONTEST

### Springer and Pace Uphold the Affirmative to Win for Leazar Colors

### DEBATE EQUALITY SEXES

### Trevathan and Kopp Speak for Pullen on Negative Side of the Question

The year's inter-society debating contest between Pullen and Leazar got off to an excellent start last Friday evening, when the seniors blossomed forth in all their oratorical ability.

Leazar, represented by H. E. Springer and D. R. Pace, put forth such an array of bombardments against Pullen, which was represented by R. R. Trevathan and B. J. Kopp, that the former won the decision of the judges, on the proposition, "Resolved, That this house deprecates the present tendency toward social, political, and economic equality of the sexes."

The judges were Professors C. C. Cunningham, C. M. Heck, and R. W. Henninger.

As there was an unbreakable tie in who should be best speaker, the judges failed to name a best speaker.

W. B. Kilgore, of Pullen, presided in a very satisfactory and efficient manner as chairman.

D. R. Pace, speaking for the affirmative, agreed that woman is fast losing respect today by taking her place beside man in the economic and political world. He also said that women, through strife in these fields, are becoming hard, harsh, and unlovely.

H. E. Springer, the second speaker for the affirmative, declared that we need a home and home influence today more than ever before; but this is being prevented by women going more and more into the economic and business field. "One can raise desirable chickens in an incubator, but not desirable babies."

R. R. Trevathan, the first speaker for the negative, showed the radical changes that have taken place in domestic affairs. How the state has taken charge of the child in education, and the women must go beyond the home to find something to do.

The woman who is merely doing the things her mother or grandmother did is not serving the home to the best advantage.

B. J. Kopp, as second speaker of the negative, argued that woman today has raised the standard of marriage by going out and working, thus making herself independent of being forced to marry merely for a home.

## STATE COLLEGE GLEE CLUB IN SECTIONAL CONTEST

### Other Schools Withdraw From Contest, Leaving Field Open for Locals

State College has been chosen to represent the National Glee Club Association in the sectional contest to be held in Greenville, S. C., February 28. The winner of this sectional contest will enter the national contest, to be held some time later.

There was to be a State contest, but owing to the fact that the other colleges and universities dropped out of the contest, State will be the only North Carolina college represented at the southern contest in Greenville.

The song to be used in the contest is "The Lotus Flower," a difficult selection, upon which the locals have spent much time.

The National Glee Club Association was organized to promote interest in all colleges throughout the United States in glee club work. The national association has been functioning for almost four years. State College has taken part in this work for three years.

### Larger Attendance Expected As Result of Immense Success of First Tournament Last Year; Students and Organizations Must Co-operate If Meet This Season Is to Equal Precedent Established in 1926.

By W. L. ROBERTS

The second annual invitational high school basketball tournament will be held here March 4 and 5. Last year seventy teams from central and eastern Carolina entered the first State-wide tournament ever held at State College. There were about eight hundred high school boys here during the three days of play, but this year the number of entries will be limited to about fifty teams, which means that State College students will have five hundred boys to entertain.

The tournament last year was highly successful, and surpassed even the fondest hopes of its founders as to the number of schools entered and the excellent manner in which the entire scheme was carried out. Although a lot of credit is due to Athletic Director Miller and his staff, the students of State College were, in a large part, responsible for making this first tournament successful. Without the co-operation of the students and various organizations on the campus it would have been utterly impossible to have made it a success. The students here shared their rooms with the high school boys and entertained them while they were here. This is the reason that the students deserve the greater part of the credit for its success.

The same thing confronts the student body as the time for the second tournament draws near. In order to make it again successful each student and organization must help take care of the visitors and entertain them. With three hundred less boys it will be much easier to entertain and give sleeping accommodations to them.

The same system as used last year will be used. Within a week or two boxes will be placed in convenient places for the students. All students, fraternities, and other organizations will be expected to drop a slip in the box stating how many men they can entertain, and their preferences, if they have any. If the students and fraternities will sign up for their friends the high school boys will enjoy it much better and the tournament will be more successful.

## INTERCOLLEGIATE DEBATE MEN HAVE BEEN CHOSEN

### Dunlap, Stott, and Britt To Represent State In High Point-Guilford Debate

As a result of a preliminary contest held Friday afternoon three men were chosen to represent State College in debates to be held this year with Guilford and High Point colleges, as part of the program of the North Carolina Intercollegiate Forensic Association. The men selected were R. H. Dunlap, H. M. Stott, and J. B. Britt. All three men are members of the Junior Class, the first two being enrolled in the School of Science and Business and the third in the School of Agriculture.

Stott will be assigned to work with J. D. Conrad, on the affirmative team; Dunlap and Britt will comprise the negative contingent. The affirmative will meet Guilford College on the home platform, while the negative will journey to High Point for a contest with the representatives of that college.

The men used in their try-outs the proposition which will be discussed in the regular contest: "Resolved, That—Continued on page 2.

## PICTURE ANNOUNCEMENT

The following group pictures were scheduled before Thursday night to have their pictures made Saturday and Sunday. Others scheduled later will be announced:

- Saturday, February 5
  - 12:30. Poultry Science Club.
  - 12:35. Animal Husbandry Club.
  - 1:30. Bible Study Leaders.
  - 1:40. Pan-Hellenic Council.
- Sunday, February 6
  - 1:30. Freshman Class.
  - 1:35. Interstate Club.
  - 1:40. Freshman Friendship.

## HORTICULTURAL TEAM TO JUDGE AT ATLANTA

Gaston, O'Quinn, Zimmerman, and Sloan to Represent State College in Georgia

The Horticultural Judging Team of State College left Tuesday, February 1, for Atlanta, Georgia, where its members competed in the judging feature of the Horticultural Show that was held there Thursday, February 3. This was the first time State College has been represented in an intercollegiate judging contest of this particular kind. The College has, however, entered teams in other contests of a like nature.

Competition for places on the team has been keen since Professor C. D. Matthews, of the Horticultural Department at State College, started training the students for the team at the beginning of the current term. The men finally selected to represent the College as a Horticultural Judging Team were R. S. Gaston of Chandler, T. D. O'Quinn of Manners, R. W. Zimmerman of Lexington, and F. S. Sloan of Franklin. These men were accompanied on their invasion

into Georgian territory by Professor C. D. Matthews and C. B. Williams.

Fred B. Smith Speaker to State College Men

(Continued from page 1.)

breast the infant civilization was nursed; and Rome, whose Imperial Eagle's siren could be heard from the blue waters of the Danube across the plains of Gaul to the lofty peaks of Hispania, and even down to the Germany of 1913, the Germany whose army could not be defeated and whose economic structure was without faltery, he showed how they had fallen. "God pity those nations today," declared the speaker.

"What will America be one hundred years from today?" demanded Dr. Smith, as he pointed out that the things that make a nation great are not the things that will keep her great, and that unless America caught the gleam of that higher, nobler life she must go as have gone the great nations of the past.

Pointing out that America had fifty-four per cent of the world's wealth, one-sixth of the world's land, and one-fifteenth of its total population, Dr. Smith wanted to know what we were going to do with this great heritage. Shall it be hoarded up for the private pleasure of a few,

Kappa Sigma vs. Chi Alpha Sigma	Feb. 25-7:00
Lambda Chi Alpha vs. Chi Alpha Sigma	Feb. 26-3:00

or shall it be made the blessing of all mankind? was the question raised by the speaker.

As a final point Dr. Smith pointed out that in order to continue to be a great nation it was a struggle, a great struggle for "a gleam of those higher things of life." That we must learn the use of democratic principles, that we must be just in our international relations, and that we must ever be true to past traditions, traditions that were made beautiful by a cardinal belief in religion, was emphatically brought out by Dr. Smith.

## Intercollegiate Debate Men Have Been Chosen

(Continued from page 1.)  
the United States should immediately recognize the Soviet government of Russia." Stott spoke on the affirmative and Dunlap and Britt on the negative.

There were seven candidates in all, each delivering a six-minute constructive speech and a two-minute rebuttal. The committee of judges consisted of Professors Clark, Robertson, and Cunningham, of the Department of English. These three faculty members, who have judged many local contests and try-outs, were unanimous in the opinion that the work done in this preliminary was the best yet demonstrated by local speakers.

By qualifying for membership on the

college debate teams these men made themselves eligible to membership in the Pi Kappa Delta, honorary public speaking fraternity, and also scored points for their literary societies in the year-round contest. Dunlap and Britt scoring forty for Leazar, Stott twenty for Pullen.

## Senior Superlatives Are Chosen by Entire Class

(Continued from page 1.)

Most of the voters seemed to agree that E. N. Brackett was the "Ugliest," though a few votes were cast for Burnette and Rockfield.

"Rooster" Beal was named as the "Laziest," and H. K. Plott as "Most Energetic."

From a large field of candidates M. C. Comer received the margin of votes as "Best Looking." Others in the race were Crawford, Habel, Diggs, Weedon, Fields, Harrill, Donnell, and Lambe. Everett Huggins won over C. B. Denison as the most dignified. Twelve others received votes.

George Kohn lost to K. K. Griffin as the "Most Original" by a small majority.

Anthony, Wilson, and Chester received the greatest number for "Best Engineer," with Wilson slightly ahead.

Very few opposed Jock Cassada as the "Best Textile Man," and by a similar vote "Doodle" Sides was named "Best Agricultural Man."

## Over the Rim of Grand Canyon

He Threw This Pen and It Struck Unharmd on the Jagged Rocks a Half Mile Below

Non-breakable Pen Barrel? Dr. F. C. Morse of the National Park-Park Highway Association was unconvinced.

So recently to test the new Parker Duofold barrel, he stood on the rim of Grand Canyon and threw this pen into the rock-lined chasm.

When the pen was recovered amid the jagged rocks a half mile below the canyon's edge, it was scratched a bit, but quite unbroken.

When the cap was removed the point was as good as ever—a point guaranteed for 25 years, not only for mechanical perfection but for wear!

You cannot get Duofold quality in any pen save that stamped "Geo. S. Parker." Look carefully for this. Any good pen counter would like you to try this class.

## And they lived happily ever afterwards!

ONCE UPON A TIME there was a man whose life's ambition was to take unto himself a pipe. Time and again his heart was set on some particular pipe—but poor fellow, his dreams never came true. . .

Until one day a friend, experienced in such affairs, gave him a few pointers. He took his friend's advice; he got some Granger Rough Cut. . . It worked! In a few weeks' time he was solidly wedded to a wonderful pipe. . . sitting pretty, fixed for life!

Indeed, but for Granger many a man would never know the joy and comfort of a pipe! Granger is so mild, so mellow, so cool! Ripe old Burley tobacco, mellowed Wellman's way. And cut in rough flakes that burn slow and smoke cool. . .

Granger's mission in life is to see that no man ever experiences a pipe disappointment. . . Just stick to Granger and your old pipe'll be a perfect pal—right through the years. Forever!

V. P. I.  
Tonight

## Terrors Overcome Poor Start To Defeat The Wildcats 32-20

**First Half Played on Even Terms; Jack McDowall Finds His Old-time Stride in Second Half and Leads His Team-mates in the Best Brand of Basketball Seen on Local Court This Season**

Although the Red Terrors got off to a bad start Wednesday night, when they met the Davidson Wildcats, they showed the form and speed in the last half that won the 1926 championship for them and defeated the Cats by the count of 32-20.

There was a considerable shake-up in State's line-up. Captain Gresham and Watkins were on the bench when the game started, while Holden and Williams performed, but the combination did not seem to work so well, and before the half was over all the regular men were in the fray. McDowall started the scoring, and scored five points before his teammates were able to locate the basket. Time and again the score was knotted for a short time, and at the end of the first half the score was 15-15. The Terrors were unable to locate the basket and were unable to get their system to function properly.

A great change must have taken place during the half, for they uncovered an attack in the second period that bewildered the Wildcats, as they dropped the sphere through the hoop from all angles of the court. The State quint displayed better form and speed in this last half than in any previous game this season. They took on the form that won the 1926 championship for them. Jack McDowall found his stride and ran rings around the Davidsonians. His dribbling was the best seen on the court here this season. He also was high scorer for the evening, with 13 points to his credit, while Brown scored 11 points. The Cats were held to five points in the last half, while the Terrors scored 17 points.

The Wildcats took up the fight at the beginning and fought until the last second in the final period, although outclassed in every department. The Davidsonians solved the Tech system in the first period and succeeded in breaking up their passing, but in the last half the Terrors worked too fast for them. Only in the first half were the Terrors in danger.

Captain Anderson was the stellar performer for the visitors.

The line-up for State was: Williams, F.; Spence (3), F.; Brown (11), C.; Watkins (4), G.; McDowall (13), G. Substitutes: Young (1), Gresham, Holden.

Pete: "In what way are dough and a woman alike?"

Sam: "I don't know, maybe it is both."

Pete: "No, they are both hard to get off your hands."

JACK McDOWALL

McDowall was the stellar performer against the Davidson Wildcats, and was high scorer, with fifteen points.

## TECHS STAND HIGH IN S. I. C. RATINGS

The State College basketball team, while thrice defeated within the State, ranks among the leaders of the Southern Conference with three victories against one defeat in game with Conference teams. This percentage, if maintained, will be amply sufficient to insure State's participation in the Conference tourney at Atlanta.

State's Conference wins resulted from the successful invasion of Virginia, and the lone defeat was inflicted by the University of North Carolina's Southern Champions, who have one other victory to their credit and no defeats.

Georgia Tech is leading the Conference with five wins and no losses. Alabama is runner-up and may depose Tech in their game this week. Other Conference leaders are: Mississippi A. and M., Auburn, University of Mississippi, and Vanderbilt.

## DUKE GRAPPLERS WIN WITH A SINGLE-POINT DECISION

**Lambe's Draw Ends Match 13-12 For Blue Devils; State Freshmen Swamped**

The State-Duke varsity wrestling match, Saturday night, January 29, came to an exciting end when a draw between the heavyweights, Lambe, of State, and Culp, of Duke, resulted in a score of 13 to 12 in Duke's favor.

During the course of the meet Duke matmen obtained two falls and two draws, while State matmen scored their points on three time decisions and two draws.

Four of the matches went two extra periods. This fact alone showed the two teams to be very evenly matched.

The Duke Frosh snuffed the State Frosh under by scoring 28 to 3. However, five of the points won by Duke were on a forfeit, due to State not having a 115-pound class wrestler.

The results of varsity meet:

115-pound—Bonney (State) lost to Applewhite (Duke) on a fall obtained in two minutes and ten seconds.

125-pound—Leary (State) lost to Ervin (Duke) on a time decision of two minutes and twenty-six seconds, after wrestling two extra periods.

135-pound—Kellam (State) and Coltrane (Duke) wrestled two extra periods to a draw.

145-pound—Moore (State) lost to Elmore (Duke) by a fall obtained after wrestling eight minutes and thirty-five seconds.

158-pound—Morris (State) won from McIntosh (Duke) on a time decision of two minutes and fifty-seven seconds, after wrestling two extra periods.

175-pound—Nicholson (State) won from Jones (Duke) on a time decision of five minutes and fifty-five seconds.

Unlimited—Lambe (State) and Culp (Duke) wrestled two extra periods to a draw.

## "FIGHTING COCKS" WIN FROM WAKELON TOSSERS

The Poultry Science Club basketball team of N. C. State College, the Fighting Cocks, defeated Wakelon High School basketballers at Zebulon last Saturday night by the score of 18 to 12.

The Wakelon boys showed a good spirit and gave the visitors a warm reception.

After the game a State College student, who lives at Zebulon, entertained the "Fighting Cocks" at his home.

## White Phantoms Take Big End Of Unexpected 40-20 Score

The White Phantoms of the University of North Carolina gave the Red Terrors their first Conference defeat of the season by defeating them by the score of 40-20 in the University Tin Can last Saturday night.

Led by Vanstory, Tar Heel forward, who scored 14 points, the Phantoms launched an attack on the Terrors that seemed to bewilder them to such an extent that the Tar Heels were able to double the score on the State quint.

The contest was expected to be a hard-fought contest by followers of both teams. In fact, State had the edge on the Heels by comparative scores. Wake Forest defeated the Southern champions by a seven-point margin, while the Deacons defeated State twice by a two-point margin.

Eight minutes elapsed before either team located the basket for a field goal, when Spence, State forward, made a pretty shot to start the scoring. The score was knotted (8-8) at one time during the first period, but only for a short time, for the Tar Heels soon took the lead, and at the end of the half Carolina was leading 16-10.

In the second period the Phantoms simply rained shots through the hoop, and showed a passing game that was almost entirely lacking in the first period. The Terrors were unable to get their system to working enough to give the Tar Heels any competition.

Coach Tebell sent in several substitutes, but in vain. Williams seemed to have the situation better in hand than any of his teammates. He succeeded in making a pretty shot from the middle of the floor. Watkins also contributed to the score by making two pretty shots from difficult angles. Their system was not functioning prop-

## SCHOLARSHIP REQUIREMENTS FOR ATHLETES NEXT TERM

**Athletic Committee Decides Men Must Pass Work To Play In College Games**

Two important scholarship rules for athletes have been adopted by the faculty athletic committee, to become effective at the beginning of the third term, March 17th.

These rules were adopted with no idea of working any hardship on the men who go out for athletics, but rather with an idea of protecting them by keeping them informed of their standing in case there is danger of their failure to pass sufficient work to remain in school. It is expected these rules will be especially helpful to the freshmen in keeping their scholarship up to a point which will assure their remaining for varsity competition. In the past much promising material has been lost, but it is expected that this will be eliminated in the future to a large extent.

The new rules are as follows:

1. To be eligible to represent this institution in any athletic contest each member of a varsity squad must maintain a passing grade on at least sixty per cent of the scholastic work carried, and each member of a freshman squad must maintain a passing grade on at least fifty per cent of his scholastic work. Provided that no student may be barred from any athletic contest for low scholastic standing unless he shall have been officially notified by the dean of students ten days prior to the date of such contest. Provided further, that a student may be restored at any time to the eligibility list upon the written statement of his instructor, or instructors, that his scholarship meets the requirements stated above.

2. The chairman of the faculty athletic committee may inquire as often as may be deemed necessary into the scholastic standing of the members of the several athletic squads and report his findings, for action, to the faculty athletic committee.

The committee shall at all times take cognizance of the reports on scholarship made at stated intervals by the college registrar.

While the rules do not go into effect until the beginning of next term the athletic authorities expect both varsity and freshman athletes to observe them as "unwritten laws" for the balance of the present term.

erly, and the Terrors were outclassed in every department.

In the early stages of the game, Brown, high scorer to date, was taken out of the game on account of personal fouls.

The entire Carolina team worked smooth and showed good team work. Bill Vanstory carried away high scoring honors for the evening, with 14 points to his credit.

State  
Gresham (4) . . . F. . . . Vanstory (14)  
Spence (5) . . . F. . . . R. Hackney (7)  
Brown (1) . . . C. . . . Pursor (9)  
Watkins (5) . . . G. . . . Morris (2)  
McDowall (1) . . . G. . . . Price (2)

Substitutions for State: Williams, Young, Goodwin, Holden.

## BABY TERRORS DEFEAT LITTLE TARHEELIANS

The Little Terrors rang up another victory by defeating the Tar Babies of the University of North Carolina by the count of 28-20.

The game was hard fought from beginning to end, but the Babies were not able to break up the passing attack of the Terrors to such a degree as to stop their scoring. The Junior Terrors, led by Captain Johnson, dropped the ball through the basket from all angles. At times they were off in their shooting ability, but showed good team work. Their passing attack was too much for the Tar Babies to solve.

Johnson and Leeka were the outstanding performers for the State five. Warren and Adams also played the usual good game at the guard posts.

"The Desert's Toll," second Metro-Goldwyn-Mayer starring vehicle for Francis McDonald, which will be the attraction at the Superba Theatre Friday and Saturday, gives that young and clever performer opportunity for the display of his talents such as seldom is offered in a screen story. McDonald is one of the screen's greatest riders, and possesses a most charming personality.

A fortune must have been spent in the filming of "That Model From Paris," which starts at the Palace Theatre next Monday for a two-day run.

The picture tells the story of a little plain, begoggled office worker who is suddenly made beautiful by a few deft twists of her hair and a borrowed dress from the firm she is working for. This brings her to the attention of several men about town, who take an interest in this unsophisticated girl.

The story is fast, holds interest, and is excellent entertainment.

For thrills and suspense we can recall no picture of recent months which compares with "The Man in the Shadow," which shows at the Palace Theatre next Wednesday.

The story is based upon the conviction of a man on the basis of circumstantial evidence and the plot is up to the thrilling climax where the innocent man is being led to his execution while two women, his mother and his sweet heart, are fighting to prove his innocence.

Parents with their first child, a boy with his first pair of long trousers, a girl who has just had her hair bobbed, or a sophomore who has just joined a secret fraternity, experience emotions somewhat akin to that felt by Laura La Plante when "Her Big Night," playing at the Palace Theatre Thursday and Friday, was finished.

For Laura it marked her debut as a full-fledged star. She had been a leading woman before, but it was the first production to be made around her personality. For Brown it was his first directorial effort, although he had been a scenario writer for several years. Both so pleased the Universal Company with their work that they are to make other pictures together.

What would you do if you were a young, attractive—and unprotected—girl in a wild Alaskan town and you were beset by a sullen savage of a man who thought that his money made him all-powerful? See how Dorothy Dwan works out this tense problem in "The Call of the Klondike," which will be shown at the Palace Theatre next Saturday.

Fully a score of women had intrigued the baron during his wicked life—but now for the first time he had come under the spell of an innocent woman. Throwing every resource into the chase, he sets out to win her. Was it money she desired? He possessed countless millions. Position and prominence? The courts of Europe were open to his knock.

And the wife of the young physician did not suspect that his attentions to her were as dangerous as a dagger. She used his money to play roulette. She received him in her home. She finally accepted an invitation to attend a party at his house, at which twelve of his discarded lights-of-love had foregathered for a wild celebration.

Recognized in spite of a mask, thrown on the mercy of the old baron, she realized the folly of her actions. But was it too late?

Such is the thrilling climax of "The Masked Woman," featuring Anna O. Nilson, which opens at the State Theatre Monday for two days.

Samuel Goldwyn paid \$15,000 for the screen rights to Harold Bell Wright's best selling book, "The Winning of Barbara Worth," which comes to the State Theatre in film form next Wednesday for a three-day run. It was the avowed intention of the pioneer film producer, when he purchased the film rights in New York, that the story should lose none of its sweep, none of its dominating power and dramatic appeal in the transfiguring process.

The film version preserves each great incident of the novel.

Even in casting, the tempo of the story played an important part. Ronald Colman plays Willard Holmes, talented young eastern engineer, who came to the desert for money but remained for love.

The role of Barbara is filled by Vilma Banky, whose delicate blonde beauty and versatility are typical of the real American girl she portrays.

It's the old and ever-new story of the moth that would tempt the flame; of the candle that would be a star. Who really knows whether the divine spark burns within until the test is made? Hollywood is the test, and an acid test. For the ones who win its plaudits no gift is too great; for those who fail, it has pity verging on contempt. Hollywood is the world in little. Toward it, as pilgrims to Mecca, tens of thousands bend their way, a

avored few to gain passing success, the many to turn back with broken hearts!

"Broken Hearts of Hollywood," at the Capitol Theatre Monday and Tuesday, is founded upon a vividly exciting story of life in the world's screen capital.

The story concerns a screen star, who deserts her husband and child to return to the scene of her triumph, and who there discovers she is not wanted. She drifts to the depths of Hollywood's underworld, and the climax finds her facing her own daughter in the midst of a sensational murder trial.

Colleen Moore in "We Moderns" comes to the Capitol Wednesday for a two-day run.

The plot is ultra-modern—the acting of Miss Moore superb—the supporting cast best yet—all of which makes "We Moderns" the talk of the movie fan.

Richard Thomas, the Columbia director, is known as "the silent man of the films," because he never uses a megaphone, but directs his players by mixing among them and speaking in conversational tones. With Thomas there is no tearing of the hair, no melodramatic gestures of genius. Instead, there is a calm, a deft sureness of touch and a resultant rhythm that is more noticeable in the finished product.

Thomas' latest work is "The Truthful Sex," a story by Albert Shelby Levine, starring Huntley Gordon and Mae Busch, which is coming to the Superba Theatre Monday for two days.

"Faust," coming to the Superba Theatre Wednesday and Thursday, is said to be one of the most spectacular films ever made. It is based on the famous Goethe legend, and has Emil Jannings in the role of Mephisto, the Spirit of Evil.

## SUPERBA THEATRE PROGRAM

## Borrowed Bits o' Bull

Advertisements speak. "Twenty mule team"—C. F. Shuford's criticisms.—The Tecu Echo.

The unit are sterile enough, except in reproducing their kind.—The Winston-Salem Journal.

China has forty languages, and the impression we get from here is that the resources of most of them are being tried, just now.—The Greensboro Daily News.

The only music permitted during the sessions of the Senate and House of Representatives are swan songs.—Richmond Times-Dispatch.

Dolls are making it possible for western girl to gain education. They have done the same for lots of men in the way of experience.—Wilmington Morning Star.

The great majority of Colorado University students observe the prohibition law, according to the dean of that university. We note those last seven words with a smile.—The Utah Chronicle.

## Paragraphics

The first shall be last. Look out for winter and "gryping" in April.

As per usual the judging team comes back loaded with cups and glory.

Give 'em sighting and aiming exercises, Gus; they are prone to miss the bull's eye.

They tell us that the situation in China is bad, but the whole affair looks like a Chinese puzzle to us.

Our friend J. Stitt Wilson is soon to be with us again. Look out, boys; he always comes "loaded for bear."

Everybody on their toes for the High School Basketball Tournament. It's the greatest opportunity of the year.

The boys in Watauga Hall claim to have the best janitor on the hill. He turns the sheets on their beds the first of each month.

Suggested sign for Huneycutt's London Shop window: "Kind sir, please do not break the glass; the back door is unlocked."

Wonder what has become of Coach Drennan's boxing team? If dead, it should be reorganized and held at a time suitable for most entrants.

There are two reasons for the popularity of Will Rogers. The first is that he "knocks" all constituted authority. The second is that he is Will Rogers.

In a recent co-ed edition of The Tar Heel we find the following headline: "Venereus, Viderunt, Vicierunt" an Exquisite Effulgence of Own Sweetness and Light." We suppose she does.

## SHUFORD'S CONTROVERSY

An old adage advises us that "fools rush in where angels fear to tread." We wish to make no comment concerning the truth of this adage when applied to our college life, but the results of a recent controversy in this paper as to the relative merits and demerits of man versus woman have been anything but negative.

A few weeks ago we picked up a clipping, a humorous "Essay on Man," which we thought might brighten up the gloomy hours of some over-studious young man. It accomplished its purpose, and more.

Our contemporary, Mr. C. F. Shuford, took occasion to resent the careless way in which the dignity of his sex was handled by the essayist, who was evidently of the opposite sex. He immediately girded on his worldly armor and gave, in a single article for publication in these columns, a most caustic and evidently intimate exposé of the hidden, inner character of woman.

This contribution by Mr. Shuford was the signal for a general uprising of the besmirched femininity from all over our fair country. Last week it was necessary to devote three columns to the controversy, giving each side a representation. Even then there were some contributions left out. This further argument only added fuel to the flames, and this week we are flooded with articles, ranging all the way from conciliatory to bitterly denunciatory.

From four states we have received personal letters, both signed and anonymous, and several marked copies of college newspapers with references to the controversy. Some have attacked us personally, but the majority have noted our pliant neutrality, and have concentrated on Shuford.

Nor has Mr. Shuford himself been immune to the poisoned darts of the wronged sex. He has received several personal letters, some of which, he asserts, tend to prove his contentions regarding the sirenish nature of woman. One goes so far as to cast unworthy insinuations regarding his parentage. He has prepared a 1,000-word thesis in defense of his position.

We find it impossible to print the "Shuford" controversy this week for three reasons:

First, because we should have no space for other valuable material.

Second, because we feel sure the printers would refuse to print some of the obscene material.

Third, because we are tired of the whole affair.

## Uncle Dudley's Opinion

### BEING A GENTLEMAN

In last week's issue I tried to show what personality meant and how it could be developed. You think it is hard to have a good personality and that it is something you cannot obtain. It is hard unless you have a willing mind and a will-power to make yourself do things you know you should. Perhaps you think everybody cannot have an outstanding personality, but there is no student on the campus who cannot be a gentleman at all times.

What does it mean to you when some one says, "He is a gentleman"? It should be sufficient to call to your mind a class or standard by which the person is judged. How easy it is to be a gentleman at all times, but there are so many of you who do not even think of what it means.

There is no higher recommendation or praise that one can give you than to speak of you as being a perfect gentleman at all times. Do you know how to be a gentleman? That is quite a rude question to ask, but I really believe there are some students on the campus who are ignorant of its meaning and ignorant of what society expects of them.

You do not have to sacrifice friendship, popularity, or originality to be a gentleman. Instead, you gain these and many other characteristics worthy of praise. Now, I write as though to be a gentleman is something hard and something big. It is something great, for the world itself carries almost a complete description of a man. It is nothing hard, though, to be considered a gentleman by society.

It is not the big things you do that make you a gentleman, but it is the little things that count. The little sarcastic and cutting remarks you make, the little selfish acts you do, the advantage you take of those who are helpless, the respect you have for women. As a whole, it is the small things you can do with little effort that mean so much to others. All of these cost you hardly any effort, yet they mean so much to society. Do you not have any respect for the feelings of other people? How do you like to see your friends or students you know to be guilty of the above things? You notice it and you disapprove of it. There is no student at State College who does not want to be considered a

gentleman, but you are not critical enough of yourself. You spend too much time running your fellow students down and not in correcting your own faults. Why not give a little more thought to how you would feel were you in the other man's shoes when you are running him down, or doing unkind things to hurt him? Watch yourself, and you will soon see your own faults, and why others may have the opportunity to talk about you. Always bring home to yourself the things you do and say, and consider how you would feel as the receiver of such. You will look upon things then in a different light and with a broader view.

## Student Forum

### GUILTY OR NOT?

Men of State College who care about a better college spirit, a better student council, and those things that go to build a better college—to you I appeal. Men, don't allow these gossiping liars to go about poisoning the minds of the freshmen against the court of customs; it is your organization and will be just what you make it.

Men, if the court of customs hasn't been what it should have been, whose fault is it? Have you backed the court of customs or have you been too yellow to play square? Did you gossip and spread lies about the freshman trial not being held or the witnesses not being present? What have you done to help the court of customs hold the place it should hold on the campus?

We have made mistakes, yet let's profit by them and work together for a bigger and better State College. Here are a few don'ts to follow that will help greatly:

- Don't be two-faced—play square.
- Don't gossip—think before you speak.
- Don't be yellow—be real men.
- Don't stop working for a better spirit here at State. J. E. M.

## ORIENT and OCCIDENT

A. Laurance Ayllett

There are three bills to come before the State Legislature some time soon that will require a great deal of careful and straight thinking as to what they mean and what effect they will have upon the people of the State of North Carolina. The members of the legislative body should realize that they were elected to their positions for the benefit of the people and not give them a chance to put into legal effect any ideas which they might hold on the problems of life.

Before this paper comes from the press action will probably have been taken upon at least one, if not more, of these bills. One of these bills reads very indefinite. It is possible, too, that the author of this bill has not given all possible thought to the effect the passage of such a bill would have upon the State. A very great question of modern civilization is that of population, its increase and quality.

We admit the advisability of prohibiting the sale of certain physical appliances said to endanger the morals of the youth of the State in that it would cause more fear of the consequences of certain acts of indiscretion and thus tend, in a way, to lower to some extent the problem of immorality. Granted so much; yet it is to be considered the effect of such prohibition would have upon the people at large.

It is well known that there are certain moral questions that cannot be eliminated at present, and that among these is the problem of immorality. There is practically certain always to remain a trace of it, no matter what steps may be taken towards its elimination. Unless there are means of prevention there are also certain to be great numbers of illegitimate children born from time to time. In this number there is sure to be quite a

few feeble-minded and otherwise unfit offspring who make up another great modern problem.

As the population increases much faster naturally than the food supply of the world there must be some means of birth control to prevent the question of overpopulation. It is our opinion that to overcome this setback to civilization all classes of people should be taught the principles of birth control. Most especially is this true in the lower classes, where the largest families are reared and a number of unfit are brought into the world. The upper classes, not caring for numerous offspring, have learned of ways to prevent the necessity of rearing large families.

Thus we take the stand that although it might be advisable in one respect to prohibit the sale of such appliances, it would on the other hand tend to increase the number of illegitimates and the mentally and physically weak. To us it would seem that the only, and anyway the best, remedy for the situation would be correct education along the right lines that deal with this subject and teach the upwringing generations the danger of promiscuity. Education, education! What the country needs today is more education along unrestricted lines. Were there the correct type of education we believe there would be no need for the bill to regulate the use of public roads by motorists.

If preachers would try to educate their congregations and teach them things which they should know it would be a great deal more effective than trying to legislate against immorality and petting. It had never been brought to our attention that petting was necessary until Dr. Seerley, in a recent lecture at this institution, told of the petting stage in the life of every individual which just precedes the stage of real courtship leading to marriage. When such an eminent physician makes it plain that petting is necessary for either of two individuals to find a true mate and one that would be exactly suited temperamentally and ideally, it makes it necessary for us completely to change our opinions on the subject.

That the main body of the Legislature is awake to the fact that morals cannot be legislated into a public is shown by the unfavorable reports returned on bills having such as their purpose. We believe that they will stick by their decision when the matters are brought to a vote of the House, as has been demanded by the author of the bills under discussion.

We also have an idea that the intelligent members of the State law-making body cannot be bullied by unbridled bigotry into passing a bill which will restrict education in State supported schools. This bill, in our opinion, is hitting at the directly constitutional right of every citizen of this country for freedom of speech in all respects. If expression of opinion is restrained in one subject it can also be done in many others. Even if a restrictive bill should be passed we believe the Supreme Court will hand down a decision that it will be unconstitutional if such be the case.

If the present ministry and ministerial profession cannot hold their congregations and converts by the power of the value of their religious doctrines, but have to resort to legal measures instead, they should be removed from their offices and new ones elected; ones that are capable of teaching the truth and that would not be bound down by dogmatism and creeds that have been aged in the wood of history.

If the present church is not powerful enough intellectually to stand on its own feet, it should be torn aside and a new one built that will satisfy the inherent and inborn instinct and desire of man for a religion and a god to worship and venerate. We think that it will not be long before there grows up two phases of Christianity and all other world religions; one for and to satisfy the intellectual and educated, and the other for and to satisfy those who cannot think deeply in such subjects and who have not been sufficiently educated to see along lines of greater advancement.

After a careful perusal and study of

## Stephenson To Discuss Old Testament Heroes

Gilbert T. Stephenson, teacher of the State College Sunday School class at Pullen Memorial Baptist Church, has made public a complete list of the subjects that he will discuss for his class from now until the end of the school year.

It has long been the practice of Mr. Stephenson to choose some series of related subjects, and follow these through before discussing other subjects, now starting on a discussion of heroes of the Old Testament. The list of topics, and their date, is listed below:

OLD TESTAMENT HEROES			
Date of Lesson	Subject	Time	Scripture
Feb. 6.....	Jacob	1837-1889 B. C.	Gen. 25-50
Feb. 13.....	Joseph	1745-1635 B. C.	Gen. 30-47
Feb. 20.....	Moses	1571-1451 B. C.	Ex. 2, 3, 17, 24, 34; Num. 33
Feb. 27.....	Joshua	1537-1427 B. C.	Num 13-24; Josh. 24; Deut. 32
Mch. 6.....	Ruth	1312 B. C.	Ruth
Mch. 13.....	Gideon	1256-1216 B. C.	Judges 6
Mch. 20.....	Samuel	1171-1060 B. C.	I Sam. 20
Mch. 27.....	Samsun	1120 B. C.	Judges 13-14
Apr. 3.....	David	1085-1015 B. C.	I and II Sam.; I Ch.; I K1.; Psa.
Apr. 10.....	Solomon	1033- 935 B. C.	I K1. 1-11; II Ch. 1-9
Apr. 17.....	Elijah	837 B. C.	I K1. 17-31; II K1. 1-2; II Ch. 21
Apr. 24.....	Elisha	837 B. C.	II K1. 2-9, 13; I K1. 19-16:18
May 8.....	Amos	808 B. C.	Amos
May 15.....	Isaiah	759- 698 B. C.	Isaiah
May 22.....	Jeremiah	629- 587 B. C.	II Ch. 35-36; Ezra 1; Dan. 9-2; Jeremiah
May 29.....	Daniel	606 B. C.	Daniel; Ezekiel 14 and 28
May 29.....	Esther	478 B. C.	Esther

## Professor Zip says--

THE town is filled with heated air—there's not a cool streak anywhere; the halls and domes are filled with steam that issues forth in steady stream; old Borglum's statue reeks with sweat, while Lukeman's stirs from where it's set; George Wash-nun never told a lie, yet blushes while they pass him by; Worth Bagley slouches down in fear because of things he's forced to hear; McIver drops his hand in shame, and tries to shield himself from blame, while Zeb Vance twists his hind mustache, and turns his back on doings rash; hotels with lobbies, wood or stone, are heard to grunt and sigh and moan, at bearing all their useless load that comes on every path and road; John Park and Cephus Dan's fill their columns with each funny bill, and having soiled their daily sheet, they send the newsboys on the street; perhaps you wonder what is here to clog the pleasant atmosphere, and crush your jaded spirits down—THE LEGISLATURE'S HERE IN TOWN!

the bills we have criticized and also of the Blue Law Bill, of which we say nothing at present, we have based these reasons and criticisms on what we have seemed to discover from such study and from contemplation on the effect each would have on the people of the state as a whole. If we are wrong in any or all respects we shall gladly reconsider and change our views accordingly, but if we should happen to be right we should do all that would be possible, were we in a position to do so, to bring about the defeat of these bills in the 1927 General Assembly of the State of North Carolina.

## Rules of Award Norris Athletic Trophy '26-'27

The Norris Athletic Trophy for 1926-1927 will be awarded at commencement, 1927, under the following regulations, to the student who most distinguishes himself in athletics during the scholastic year 1926-1927.

1. The Norris Athletic Trophy Committee, made up of the director of athletics, the chairman of the faculty athletic committee, the graduate manager of athletics, the president of the student body, and the alumni secretary, with Mr. Frank E. Lowenstein, of Atlanta, Ga., as ex-officio chairman, shall have charge of the details of awarding the trophy. In the absence of the ex-officio chairman, the director of athletics shall preside at all meetings of the committee. The alumni secretary shall act as secretary to the committee, and shall keep a record of all proceedings.
2. To be eligible for the trophy the prospective recipient must have attained a passing grade on at least seventy per cent of his scholastic work carried during the year.
3. The winner shall be determined by a popular vote of the student body in a primary election to be held annually during the first week in February and in a final election to be held annually at the same time and place that balloting occurs for the election of officers of the student government.
4. The three men receiving the high-

est number of votes in the primary election shall be considered as candidates for the trophy, and shall enter the final election to be held simultaneously with the election of officers of the student government as above provided.

5. Each regularly enrolled student of the college may vote once for the candidate of his choice in the primary by writing the said candidate's name on the ballot prepared for that purpose and depositing same in the ballot box; but after the field of candidates has been narrowed down to three by the primary, only the three men receiving the highest number of votes shall be considered in the final election.

6. Ballots for the final election shall carry the names of each of the three candidates, and the voter shall indicate his choice by a cross mark (X) after the name of the candidate for whom he elects to vote.

7. Balloting in both the primary and the final election shall be conducted by representatives of the Norris Athletic Trophy Committee. Immediately after the primary the committee shall determine from a count the three candidates to enter the final election. Their names shall be published in the students' newspaper, The Technician, and also be posted on all college bulletin boards.

8. If the three men receiving the highest number of votes in the primary are below the scholarship standard adopted, the committee may substitute the names of the next highest men whose scholastic work meets the requirements. In determining the scholastic standing of a student the committee shall be guided by the records on file in the registrar's office.

9. All expenses incurred in holding both the primary and the final election, such as the cost of printing the ballots, etc., shall be borne by the State College Athletic Association.

10. The name of the winner of the Trophy shall be given to the commencement program committee to be printed in the commencement program and the trophy shall be awarded along with other awards, medals, etc., at the commencement.

## Why this Lather gives smoother shaves

THE trouble with most shaves is that the beard is not completely softened. This means half-cut hairs, "pulling" razors. Williams Shaving Cream corrects this state of affairs by producing a lather simply saturated with moisture. This moisture drenches the beard bristles soft for easy cutting. At all dealers, 35c and 50c.

## Williams Shaving Cream

**WILL ROGERS ENTERTAINS RESIDENTS OF RALEIGH**

**Number of College Students in Audience at City Auditorium Tuesday**

Appearing before a large audience Tuesday night in the City Auditorium at 8:30 o'clock, Will Rogers and the DeRenke Singers presented a most enjoyable program and one which drew considerable applause and laughter from those present. The quartet of singers was first on the program and was followed by the absentee Mayor of Beverly Hills in a humorous discourse on problems of public interest, both domestic and foreign.

Angus W. McLean, Governor of North Carolina, was seated on the first row and directly in front of the performers. He made a brief preliminary speech of introduction to present the self-made diplomat to the people of Raleigh. Rogers walked to the platform steps with the Governor after his speech, shaking hands with him and patting him on the back.

State College was well represented by a delegation of students in the top balcony, which was made available to them through the courtesy of the management at a very reasonable price.

The world-famed funny man had serious competition, as far as State students were concerned, in holding the center of the stage, for a representative group of Meredith dames were banked in one of the first balconies, which, even in this instance, showed some of their usual "pulling" power.

Several of the legislators of the State were present to learn a few points on the methods Will uses in his own brand of diplomacy.

**A. S. M. E. HOLDS MEETING TO DISCUSS PLANS OF FAIR**

The A. S. M. E. held a special meeting Tuesday evening at 6:30 in Paige Hall. This meeting consisted of a general discussion of plans for the part which the mechanical engineering department will have in the engineering show on March 17. Professors L. L. Vaughan and W. J. Dana attended this meeting and Professor Vaughan outlined some plans which had been suggested and which were generally accepted by the society. He also stressed the need of publicity for the engineering show in order to make it successful.

It was decided that the mechanical engineering department will have a float in the parade and that this float will be representative of the different branches in this department. In the afternoon of Engineers' Day, Paige Hall and the Shop Building will be open to the public, where the kind of work done in each branch of the mechanical engineering department can be observed. Students will be assigned to work in the different branches throughout the afternoon.

There will be a meeting on February 15 of all the students registered in mechanical engineering. At this meeting a committee consisting of J. D. Conrad, J. A. Anthony, L. M. Stuart, and W. A. Yost, will present some definite plans concerning Engineers' Day, and it is very important that all mechanical engineering students be at this meeting.

She—May I have a drink of water?  
He—Is your throat tender.  
She—Don't be all.  
He—You see, I get this from the lake and the water's a bit rough.

**Last Week's Best Articles**

The honor for winning first place in the Best Article Contest for last week and the four passes given by the State Theatre goes to T. A. Vernon for his article, "Epidemic Short Courses Has Hit State College." The honor for winning second place and the two tickets goes to E. H. Roberts for his article, "Dr. Seerley Gives Six Talks on Sex to State Student Body."

**R. O. T. C. STAFF SEEKS HOUR AS DRESS-UP PERIOD FOR UNIT**

**Improvement Needed For Higher Rating; Major Early Plans Spring Socials**

An effort is being made by Major Early and other members of the R. O. T. C. staff to get permission from the Faculty Council for an additional hour of drill.

Major Early states that owing to the fact that only two hours are given to drill each week, and since a large part of this time is taken up by lectures during the bad weather, it seems that the extra hour of drill is necessary to make the proper showing when the unit is inspected by Colonel Rowe. It is hoped that the unit will receive the much-desired distinguished rating.

Major Early states that so far as next year is concerned it is already settled that there will be three hours of drill each week. The extra hour of

drill will be, as Major Early explains it, "a dress-up period," which will be devoted to parades and ceremonies.

Major Early further states that the wishes an expression of the R. O. T. C. students in regard to whether or not the three-hour period shall be started the last term of this school year. Votes have been taken on a number of the sophomores military classes, and it is found that there is little or no opposition to the plan.

In order to create more interest in the organization the military department expects to hold certain social functions this spring, involving Meredith, St. Mary's, and Peace girls, and the members of the R. O. T. C. unit.

**ANTHONY SPEAKS AT SIR WALTER ENGINEERS' FEED**

**Tells of Cooperation Efforts For Engineers Being Made At State College**

The Engineers of State College were signally honored on Friday night, January 28th, when John Anthony, president of the Engineers' Council was placed on the speakers' program at the Engineers' banquet, held at the Sir Walter Hotel, in connection with the annual convention of the North Carolina Society of Engineers. The ban-

quet brought together the largest number of North Carolina engineers ever gathered at one time and was a splendid affair.

Mr. Anthony spoke on the subject of "The Student Engineer," and made a very good impression, as was evidenced by the applause received. He called especial attention to the efforts being made at State College to bring about cooperation among the engineering students and to build up an esprit de corps. He also invited those present to visit State College on Engineers'

Day, March 17th, to see what is being done in the State's Engineering School. Among the other speakers on the program were Hon. R. T. Fountain, speaker of the House of Representatives; O. Max Gardner, Dr. W. C. Riddick, W. M. Platt, Theodore Johnson, W. S. Falls, and Sherwood Brockwell, the last five mentioned being among the leaders of the engineering profession in North Carolina.

Mr. E. A. Peterkin, B.S., 1921, is farming at Fort Motte, S. C.

**When the plutarchs start plutarching**

AT THE night sessions, when class philosophers vie with class Merry Andrews in deciding the heavy problems of the world—or burlesquing them—notice the royal guest, Prince Albert. Chiming in with the spirit of the occasion. Filling the air with the finest tobacco-aroma ever.

Do you smoke Prince Albert? It will bring you more pleasure and satisfaction than you ever thought a pipe could give. The instant you throw back the hinged lid and release that wonderful P. A. fragrance, you suspect you are in for some grand smoke-sessions.

The very first pipe-load confirms your suspicions. Cool as a gate-tender. Sweet as the week-end reprieve. Mild as the coffee in Commons—mild, yet with a full body that satisfies your smoke-taste completely. Get yourself a tidy red tin this very day.

**PRINCE ALBERT**  
—no other tobacco is like it!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and punch removed by the Prince Albert process.

**COLLEGIANS**  
WEDNESDAY and THURSDAY

Collegians is not a serial but a series, each complete in itself. Shown at Palace every other Wednesday.

HERE'S sparkle! Here's pep—thrills, laughs—speed—youth—love—jazz—quality! Everything you'd expect in a series titled "The Collegians," with a lot thrown in for a pleasant surprise. The first pictures of real college life! Just packed to the overflowing with joyous entertainment!

### FACULTY MEN AT MEETING OF AGRICULTURAL WORKERS

#### Eleven Professors Have Part In Programs of Atlanta Convention

North Carolina will be well represented at the meeting of the Southern Agricultural Workers, which convenes in Atlanta today. Eleven members of the faculty at State College are on the program for papers and discussions.

Dr. Carl C. Taylor is chairman of the Agricultural Economics and Sociology Division, and Dr. S. G. Lehman is chairman of the Phytopath-

ology group. In the agricultural economics group, Dr. G. W. Forster will present a paper on "Better Organization of Farms as a Method of Eliminating Waste in Southern Agriculture." Professor C. B. Williams will present a paper before the agronomy group on "Factors of Cotton Production." Dr. R. Y. Winters will read a paper on "The Relation of Farm Crops to Livestock," and Professor R. S. Curtis will present a paper on "Experimental Results in Feeding Cottonseed Meal to Dairy Cattle." W. W. Shay, of the Extension Service, will make a talk on the progress of swine extension work in the South, and Professor C. D. Matthews will read a paper on "The Elimination of Waste in the Apple Business."

In the discussion groups, Professor W. A. Anderson will discuss the standard of living of southern farmers. Dr. G. W. Forster will discuss the problem of farm management as related to better returns for the farmer. R. S. Curtis will give results of feeding experiments on horses and mules, and Dr. R. Y. Winters will discuss the spinning quality of the cotton produced in the Southern States. J. A. Arey will make a talk on membership before the Dairy Husbandry section. P. H. Kime, of the Agronomy Department at State, is secretary of the agronomy division.

### 20% FLUNK!

20% of students were dropped last year because of poor scholarship. N. Y. U. had the highest mortality with 30%—Yale the lowest with 12%.  
Misdirected effort is responsible for this condition. Overcomes it! Don't waste so many hours taking notes in longhand. Use the A. B. C. shorthand system, based on Prof. E. L. Thorndike's Foundation Vocabulary.  
Easy to learn, written with A. B. C.'s, not a strange symbol, mastered in about one week—enables you to take notes 3 times as fast—a great asset for scholastic success. Practical in journalism, business, court notes, sermons, lectures, research, etc.  
Don't waste precious time. Send for a complete course TODAY! Only \$2.00.  
A. B. C. Shorthand System  
158 West 44th St., N. Y.  
Free Descriptive Booklet on Request

### Alumni Notes

Observations and Communications of ZIPPY MACK

The editor tells us that he is devoting no more space to the Stamford-woman controversy. And yet there are those among you who will say that the world is not growing better.

Mr. J. E. (Johnnie) Foster, of the '26 Agriculturals, and champion crop judge of America last year, is now doing graduate work at Kansas State College. He is continuing his work in crops, and is also taking work in beef cattle and sheep.

Mr. P. M. (Phil) Hendricks, who finished last spring after a rather eventful scholastic and football career, is now doing farm demonstration work in Catawba County, where he is pushing the use of purebred dairy cattle.

Mr. George Wray, of the '25 Electrics and business manager of the Agromech of that year, was on the campus recently, visiting his brother.

Mr. David Starr Owen, of the Class of '03, was a recent visitor to the campus. Since his graduation he has been engaged in the turpentine business at Sycamore, Georgia, where he has done unusually well. Mr. Owen is a classmate of Max Gardner, Mayor Culbreth, George Stradley, and other celebrities. Mr. Owen has no family, having no children, and recently having lost his wife. His mother, whose home is in Cleveland county, was with him at the time of his visit.

Mr. Parker Royal (Bus) Rand of the Agricultural Class of '16, was also a recent visitor. Bus is now engaged in the business of farming and cotton ginning on the old Rand homestead where his family has lived for over a hundred years, near Garner, just outside of Raleigh. The old Rand Mill on his property is mentioned as a new source of water for the city.

Mr. J. L. Andrews, of the '24 Electrics, stopped by the office this week to pay his compliments to the staff, and to put in his order for a bound volume of The Technician at the end of the year. Andrews is with the Carolina Power and Light Company at Moncure.

### FORSTER GIVES OUTLOOK FARM PRODUCTS IN '27

#### Tobacco and Cotton Will Not Be As High As Before, With Livestock Higher

According to Dr. G. W. Forster, agricultural economist of State College, the outlook for the crop farmers of the South is poor, but the livestock man is destined to be in better circumstances. As usual, cotton will be the governing factor, and its price will not rise, nor its acreage be substantially decreased.

He states that, while there is sure to be a considerable acreage reduction in the eastern part of the cotton belt, the economy of production and harvesting in Oklahoma will cause an increase in acreage there. Dr. Forster has just returned from the Outlook Convention in Washington, D. C., where economists from all over the country reported for their sections.

The price outlook for early potatoes and tobacco is fair, unless there is over-production. The same can be said for poultry, swine, and dairy cattle.

Indications are that peaches and other fruits and vegetables will again be low in price. The agricultural economists have studied their problems from year to year, until they have become almost uncanny in their ability to foretell the future, except in cases of unusual weather conditions.

#### INTRAMURAL GAMES TO BEGIN ON FEBRUARY 10

The first of the series of basketball games to be held between the various fraternities and societies on the campus will be held Thursday night, February 10.

Three years ago, after a reorganization of the athletic staff, Mr. W. C. Parker was chosen as physical education director of N. C. State College. He immediately began to sponsor athletic contests among the organizations on the campus. As a result of this, championship teams were chosen by a method of elimination, and awarded silver cups. The first series was a great success, and since that time much interest has been manifested by all who take part in them.

The Kappa Sigma Fraternity has the distinction of being the first to win the fraternity basketball championship. Last year the Phi Kappa Tau Fraternity won the silver cup which was offered.

The games scheduled for Thursday night are Chi Tau vs. Sigma Pi, Epsilon and Sigma Nu vs. Tau Rho Alpha.

#### "WESSON OIL" DISCOVERER VISITS COLLEGE FEB. 9

Dr. David Wesson, of New York City, chief chemist of the Southern Cotton Oil Company, will deliver an address in Polk Hall Wednesday evening, February 9, at 7:30. His lecture, discussing the feeding of cottonseed products to livestock, will be the fourth in a series of livestock lectures arranged by Prof. E. S. Curtis.

Dr. Wesson graduated from the Massachusetts Institute of Technology in 1883. Since that time he has held high positions in industrial chemistry, and was also president of the American Institute of Chemical Engineers for two terms. Mr. Wesson is one of the most successful men of the country in industrial chemistry. He discovered the Wesson cooking oil which bears his name.

#### PROF. GREAVES-WALKER AT NORTHERN CONVENTION

Professor A. F. Greaves-Walker, of the Department of Ceramic Engineering, will leave Saturday night, February 5th, for a trip which will include Toronto, Canada; Cleveland, Ohio, and Detroit, Michigan.

While in Toronto Professor Greaves-Walker will deliver the principal address at the Silver Jubilee Convention of the Canadian National Clay Products Association and will also deliver a series of lectures at the University of Toronto. At Detroit he will attend the annual meeting of the American Ceramic Society, delivering an address before the Heavy Clay Products Division. As chairman of the Committee on Research he will also preside over the session of the society to be devoted to a discussion of the formation of a Ceramic Research Institute. Professor Greaves-Walker is a past president of both organizations.

#### MECHANICALS PLAN PART ENGINEERS' DAY PROGRAM

Plans for the part the A. S. M. E. will have in the first Engineers' Day to be held here March 17 were the main topic before the society at their last weekly meeting, which was held Tuesday night.

Professor Vaughan in a brief talk outlined the main objectives. He expressed the feelings of the other faculty members and told what they were willing to do at the students' request.

### Kampus Komics

By DINKIE

Sheep—Teaching is great stuff! Nick—How is that? Sheep—Well, the first morning one of the little girls fainted and I caught her in my arms, and before night nearly every girl in school had fainted.

Head of Firm (interviewing new stenographer)—And what salary do you expect? Stenog.—One hundred dollars a month.

H. of F.—Fine! You're engaged. I'll give you one hundred a month with pleasure. Stenog.—With pleasure I shall have to ask one hundred and fifty.

She—Did I ever show you the place where I hurt my hip? He—N-no.

She—All right; we'll drive over there.

Ruth—Did you know that the Norfolk Southern train is mentioned in the Bible? Louanna—No, it is not.

Ruth—Yes, it is mentioned in Genesis, where it speaks of "all creeping things."

When your hair is henna, And you do not want to dye, Smear on lots of blondeine And illuminate the sky.

FORT-ADAMS "BULL" OF TRIPS; AG CLUB ELECTS

At the Agriculture Club meeting Tuesday night, February 1, J. L. Fort and W. L. Adams gave interesting reports on trips made by judging teams. J. L. Fort told about the trip made to New York by the Poultry Judging Team, and the value of making the team. W. L. Adams gave a report on

the Crop Judging Team's trip to Chicago, and the training he received in preparing himself for the team.

The following officers were elected for the spring term: President, W. A. Alexander; Vice-President, D. C. Worth; Secretary, C. W. Jackson; Assistant Secretary, P. H. Mast; Treasurer, M. C. German; Assistant Treasurer, R. Strider; Reporter, J. C. Tomlinson; Corresponding Secretary, W. P. Phillips; Critic, J. B. Britt; Chairman of Program Committee, J. L. Fort.
