

**V. M. I. MATMEN TOSS STATE FOR A LOSS**

Wrestling fans of State turned out Monday night, February 7, in a large body to see the V. M. I. matmen wrestle a victory of 15 1/2 to 9 1/2 away from the State matmen. There was keen competition in all the matches, but Moore (State) and Woodberry (V. M. I.) were the only ones that secured falls during the meet.

The V. M. I. team scored their points on three time decisions, 1 fall, and 1 draw; while State scored their points on 1 time decision, 1 fall, and 1 draw.

**The results:**  
115-pound class: Mayfield (V. M. I.) won from Smith (N. C. S.). Time advantage, 7:13.

125-pound class: Davis (V. M. I.) won from Ghan (N. C. S.). Time advantage, 4:38. (Two extra periods.)

135-pound class: Wilson (V. M. I.) won from Kellam (N. C. S.). Time advantage, 1:10. (Two extra periods.)

145-pound class: Moore (N. C. S.) threw Moss (V. M. I.), 5:59.

155-pound class: Woodberry (V. M. I.) threw Morris (N. C. S.), 8:19.  
175-pound class: Fields (V. M. I.) and Captain Nicholson (N. C. S.), draw. (Two extra periods.)

Heavyweight: Lamb (N. C. S.) won from Captain Kulp (V. M. I.). Time advantage, 1:24.

**Tobacco Course Proves to Be Quite a Success**

(Continued from page 1.)

short talk about a number of the more common diseases which infest tobacco, such as root knot and sand-drown, sometimes known as magnesium hunger. Various methods of prevention and control were suggested by him.

As this is the first course of its kind to take place at the College, the attendance may be taken as a sign that the farmers think such a course is of great value. There were fifty-nine farmers and other tobacco men registered in the course, besides twenty-nine students. A vote was unanimously registered by these men that the good work be continued. Professor J. B. Cotner was then asked if it would be possible to put on a similar course, beginning September 1 and lasting for two days. Professor Cotner assured them that State College would cooperate with the farmers, and that date was agreed upon.

A tobacco judging contest was held on Thursday afternoon, and this was won by Mr. L. G. Rogers, with Mr. E. H. Floyd as runner-up. These men are both students of State College.

The members of the class, before leaving on Thursday afternoon, expressed their appreciation of being able to meet men whom they considered the best authorities in the United States in their various branches.

The department is to be commended for the work they have started, and special praise is due Professors Cotner and Darst for their hard work and energy, which from the beginning assured the success of the course.

**Constitution Order St. Patrick Complete**

(Continued from page 1.)

year the twelve outstanding Freshmen, two from each department in the Engineering School, will be selected for this honor.

The objects of the Order are set forth as being: (1) to promote a higher standard of scholarship among Engineering students; (2) to promote greater interest in student activities in the School of Engineering, and (3) to promote closer relations between the students of the various departments of the school.

The candidates for initiation this year will be recommended to St. Patrick (John Anthony) by the Engineers' Council about March 1st, and the first initiation ceremonies of the Order will be held as part of the program of the "Grand Brawl" on Engineers' Day.

The Engineers' Council, organizers

of the new Order, expect that it will do a great deal towards creating greater interest in the technical activities among the Engineers in order to merit the honor before graduation.

The Order of St. Patrick has been established at a large number of technical schools throughout the North-East and West, but the organization here is the first one in any of the Southern colleges east of the Mississippi.

**J. Stitt Wilson Has Successful Two Days Here**

(Continued from page 1.)

ing, but more than this," explained Mr. Wilson, "they had character." The speaker advised students not to drift along with the mob and be cheated out of a real education, but to set definite goals toward which to work.

Mr. Wilson feels that athletics and petty organizations on the campus are taking too much of the students' time, money, energy, and interest, and that a revolution in our educational system is needed. He believes in athletics, but also believes the major sports should not have such a predominating influence over college life as they now have.

In his Tuesday morning address on education and life, Mr. Wilson centered his discussion largely around two topics, namely: finding your life work, and finding your mate. Finding your life work is, according to Mr. Wilson, one of the most important and most fundamental things on earth for the individual. The speaker does not feel that a man can be successful in finding his life work unless he develops a deep sense of goodness, honor, reality, beauty, and love, and considers these when he selects his life work. In commenting upon his second topic, finding your mate, Mr. Wilson said he knew of nothing fraught with more happiness or woe than marriage and home. The speaker emphasized the necessity of a high regard for womanhood, for without this high regard, and without a highly developed sense of honor and love, a man may never recognize his mate.

The Tuesday evening address brought to a close the series of four addresses delivered by Stitt Wilson. In this address he presented the following points: first, make a decision that you are going to make your moral and spiritual life what it should be regardless of what other people say; second, nothing can defeat the man who prays every day; third, students need a time which to read great pieces of literature; fourth, students should become familiar with the lives of great men; fifth, develop a love for beauty and a love for the higher things of life.

**State College Team Makes Outstanding Contest Record**

(Continued from page 1.)

making the highest score. They also won three cups and one individual medal in addition. The team won first place in apples and the cup awarded by the Chilean Nitrate of Soda Education Bureau. They won first place for judging pecans and the cup awarded by the Southern Agricultural magazine. T. D. O'Quinn made the highest individual score and won the cup awarded by the French Potash Society. Mr. O'Quinn also won the gold medal presented by the National Pecan Growers' Association for highest score in judging pecans. R. S. Gaston made the highest score in apple judging and won the gold medal awarded by the International Agricultural Corporation. Clemson College won the sweet potato contest and the cup awarded by the Progressive Farmer. A member of the Clemson College team won the gold medal presented by Farm and Fireside for highest score in judging sweet potatoes.

The North Carolina team was coached by C. D. Matthews, Chairman of the Department of Horticulture, North Carolina State College.

A new type of college spirit far more constructive of worth-while results than is developed by athletics is seen in the making by members of the North Carolina State College Fruit and Vegetable Judging Team. This new spirit they believe is being developed from intercollegiate contests, based on proficiency in the things that the colleges are teaching, such as the contests in judging apples, sweet potatoes, and pecans.

"Although such contests lack sadly in fanfare, they apply the collegiate spirit of the individual participants to things which are genuinely constructive and practical," said R. S. Gaston, champion Southern intercollegiate apple judge. "College spirit which demonstrates itself in athletics develops the body, of course, but we see now an opportunity to harness it for the development of the intellect as well. There have always been intercollegiate debating contests, but in no form of competition between schools is the work more useful to the individual participants in later life than are judging contests."

The entire team agreed that the competitive spirit is responsible for what they know about apples, pecans, and sweet potatoes.

"We had to fight first to make the team," said O'Quinn, champion Southern intercollegiate fruit and vegetable judge, "and then we had to fight to win first place. The benefit to us will last longer than the most vociferous yells of a packed grandstand."

**Let old Squire Pipe be the judge...**

His HONOR, old Squire Pipe is unquestionably the world's ablest judge of pipe tobaccos. Who else is by nature, training and experience so well-qualified to try a tobacco and hand down a decision on it? . . . So, in the case of Granger Rough Cut, the plea is that Judge Pipe's verdict be accepted as FINAL!

To make a long brief brief: Character witnesses everywhere have sworn to Granger's sterling quality. Experts have vouched for the superiority of its rough cut. Chemists have testified that the new "glassine-sealed" foil-pouch keeps the tobacco in perfect condition.

Finally, it has been shown that by using this foil-pouch (instead of a costly tin) it is possible to sell Granger at just ten cents. On these arguments Granger rests its case! A couple of pipefuls will convince Squire Pipe that it is the world's greatest pipe tobacco . . . and any good judge of tobaccos will confirm the decision!

- do they use brick pavements?

Here are 30 out of the many communities which are today using brick pavements 30 years old or better.

No other paving material can approach this list in age and mileage.

- Adel, Iowa
- Alton, Ill.
- Biloxi, Miss.
- Bucyrus, Ohio
- Buffalo, N. Y.
- Butler, Pa.
- Canton, Ohio
- Carlinville, Ill.
- Cleveland, Ohio
- Clinton, Iowa
- Columbus, O.
- Danville, Ill.
- Davenport, Iowa
- Des Moines, Iowa
- East St. Louis, Ill.
- Jacksonville, Fla.
- Joliet, Ill.
- Lancaster, O.
- Lincoln, Neb.
- New Cumberland, W. Va.
- Norwalk, Ohio
- Pennacola, Fla.
- St. Paul, Minn.
- Sewickley, Pa.
- Springfield, Ill.
- Steubenville, Ohio
- Sunbury, Pa.
- Tonawanda, N. Y.
- Williamsport, Pa.
- Winona, Minn.

DOWN the side of this page are listed 30 fortunate communities which know from practical, first-hand experience the amazing endurance of vitrified brick pavements. The pavements in question were built before you were born—they were built for horse-drawn traffic—the five-ton and ten-ton trucks of today were still far in the future—and yet these veteran pavements have stood the gaff of time, traffic and the elements for an average of 33 years.

When it comes your turn to specify paving materials, remember that

HIGH SCHOOL TOURNAMENT HERE MARCH 4th

## Red Terrors Defeat Gobblers By 29-24 Score on Home Court

**Early Lead Unsurpassed by Rally of Opposing Team in Second Half of Saturday Night Game in Frank Thompson Gymnasium; Childress Becomes Eligible for Varsity and Runs With McDowall.**

By taking an early lead, the Red Terrors were able to withstand a V. P. I. rally in the second half, and defeated the Gobblers by the count of 29-24, in the Frank Thompson gymnasium Saturday night. Although State outplayed the visitors in the first half, and had an eight-point lead at the end of the first half, the Gobblers came back strong in the second half and threatened to overcome State's lead.

State started the scoring when Childress made a pretty shot from the right side of the court. This was the first varsity basketball game for the big fellow whom we heard so much of last fall in freshman football. He became eligible last Friday for varsity basketball, and was a running-mate for McDowall at guard. He handled the situation so well that Watkins did not get into the fray. The Terrors had the better end of the bargain during the first half, but it was different in the second period.

Led by Dear, flashily forward for V. P. I., whose dribbling and shooting ability was exceptionally good, the Gobblers launched an attack in the second period that looked dangerous for State in the last few minutes of the game, but the early lead that the Terrors took in the first half enabled them to withstand the Gobbler threat. Dear scored eight points in the second period and three in the first, but McDowall bettered Dear's record, and carried away high scoring honors with twelve points to his credit. Looney showed up next best for the visitors, having scored six points.

This victory kept State's slate clean in competition with Virginia teams, having previously defeated V. M. I.

Harry has been a consistent player at center this season.

Virginia, and Washington and Lee on an invasion in Virginia recently.

State	Williams (4)
Rice	Forward
Dear	Spence
Payne (6)	Forward
Looney (6)	Center
McEver (1)	Guard
	McDowall (12)
	Guard
Referee:	Steiner.

### COCKS ARE AGAIN VICTORIOUS

The Poultry Science Club basketball team played a fast game against the Business Club cagers last Monday night in the gym. It was an easy win for the Cocks as indicated by the final score, 28 to 11.

This was the first of the intersociety series, and marks the fourth victory of the season for the Poultry Club.

## INTRAMURAL ATHLETICS

### RESULTS OF GAMES

### SCHEDULE 11-17

Sigma Phi Epsilon vs. Kappa Alpha.  
Chi Tau vs. Kappa Alpha.  
Tau Rho Alpha vs. Phi Kappa Tau.  
Sigma Nu vs. Alpha Gamma Rho.  
Pi Kappa Phi vs. Sigma Pi.  
Alpha Lambda Tau vs. Lambda Chi Alpha.

### COMMENT

Phi Kappa Tau won the Frat championship last year. We wonder who will win it this year. From the looks of things, it seems as if S. P. E. is going to give somebody a hard fight. Tau Rho Alpha presented a good-looking bunch Thursday night. Chi Tau showed up well in their 35-4 victory. About the dumbest thing we have seen is that a player scored a goal for the opponents.  
Go to it boys, we are with you!

## Tebell Announces Spring Football Will Begin Monday

Several Medals and Loving Cup Will Be Awarded at End of Five Weeks Spring Practice. Fundamentals First Taught; Last Two Weeks Reserved for Games. Basketball Practice Shifted to Night.

Coach Tebell has announced that spring football will begin next Monday, February 14. Every man that has the least desire to learn the fundamentals of football is urged to come out, and help win the 1927 championship. Coaches Tebell, Drennan, and Sermon will coach the spring gridders. Basketball practice will be shifted from the afternoons to night. This spring practice will be started by teaching the men the fundamentals of football, and during the last two weeks the squad will be divided, and regular games will be played.  
There are several medals and a lov-

ing cup to be awarded at the end of the spring practice, which will last five weeks. R. H. Merritt, of Raleigh, offers a medal to the freshman who is the best punter and drop-kicker.

R. R. Eagle, New Bern, offers a loving cup to the man that is the most valuable to the squad during spring practice. Other medals will be given to the best passer, pass receiver, kicker, tackler, blocker, and the man who shows the most improvement.

At the close of the spring practice, the Raleigh alumni have promised the squad a banquet.

This is an opportunity for every man at State College to learn something about football. A fellow never knows what he can do until he tries. Some good football players have been discovered during these early practices that would have otherwise never been found. Everybody is urged to come out. Let's have a championship team in 1927.

## BABY TERRORS WHIP WILD KITTENS 45-9 HOME GYM

Local Team Makes Slow Fight in First Half, But Finds Stride Later in the Game

The Baby Terrors ran rings around the Wild Kittens from Davidson Tuesday night on the local court, and defeated them 45 to 9.

The Tech yearlings made a slow fight in the first half, but the local players found their stride in the latter part of the first half, and rolled up a score of seventeen points. The Davidson yearlings found the basket for 4 points by free shots.

In the second half the home team scored from all angles of the court, and held the visitors scoreless until "Doc" Sermon sent in his entire second squad. Two field goals and a free shot by Pritchett ran the visitors' score up to 9 points.

Leeka of State showed up well at center, and held high honors, scoring 16 points. Haar and Captain Johnson held second and third places with 14 and 9 points, respectively. Pritchett of Davidson held scoring honors for his team with 4 foul shots. Adams and Warren, guards on the home team, showed up well in floor work. Pritchett and Johnson starred for the visitors.

## DEMOLAY GRAND COUNCIL MEETS IN LOUISVILLE

The Grand Council of the Order of DeMolay will meet in Louisville, Kentucky, on March 15, 1927. Grand Master Councilor Cochran will be the presiding officer at the meeting.

Frank S. Land, the founder of the Order, will attend, as will other important persons connected with the Order of DeMolay.

## RALEIGH BE SCENE DEACON-PHANTOM BATTLE TUESDAY

Final Championship Game Will Be Played in City Auditorium On February 15

The two strongest contenders for the State Championship in basketball will lock horns on February 15 at the City Auditorium.

This promises to be a real game, as the Deacons conquered the Flying Phantoms in the latter's own lair not many weeks ago.

The Deacons have two victories to their credit over last year's champions, while the boys from the Hill have only one, with another game scheduled for tonight in the State College gym.

The Deacons were to have played the game on their own court, but owing to the size of the expected crowd, the game was moved to Raleigh.

## RIFLE TEAM WINS AND LOSES IN LATE SHOTS

During the last two weeks the rifle team won one match and lost one, and there is one match yet to be heard from. The first match was with Michigan Agricultural College, the score being 3,645 to 3,557, in State's favor. C. J. McConnell was high scorer with 354 out of 400. The team as a whole showed a gain of 62 points. The match with V. M. I. was lost by the score of 3,700 to 3,653. McConnell was again high scorer with 376.

The first stage of the Co-Area match begins next week, and the State team shoots with Mississippi A. and M. and Western Maryland College.

Mr. H. L. Joslyn, B.S. 1913, M.S. 1916, is Supt. Morehead City Graded Schools, Morehead City, N. C.

## University Phantoms Stage Double Show at Gym Tonight

Tech Terriers and Carolina Varsity Enter Arena With Scoring Edge on Opponents; Tebell Has Been Driving Terrors Hard for All-important Struggle.

The White Phantoms of the University of North Carolina will visit the lair of the Red Terrors tonight in a double bill. The Tar Babies will meet the Little Terrors in a curtain-raiser for the varsity game. The Junior Terrors have the edge over the Babies, since they defeated them in the Tin Can two weeks ago to the count of 28-20.

The Tar Heels come with an edge on the State quint played rings around the Tar Heels, and defeated them to the count of 17-8. Student hopes are high that the Terrors will make history repeat itself, but even a victory for the Terrors would not give them the 1927 championship, since they

have lost three games in the State already.  
Three more games at home will end the season for the Terrors. They meet the Blue Devils next Wednesday. Maryland and Elon will ring down the curtain. There has been no official announcement by athletic officials, but the Terrors will probably get an invitation to the Southern Conference Tournament to be held at Atlanta, February 25.

## BOXING TEAM PLAN IS NOW ABANDONED

An announcement has been made by the Physical Education Department that plans for a proposed boxing team for the college have been dropped.

It had been the intention of supporters of the project to organize boxing as an intramural sport, and later put it on an intercollegiate basis. Director Drennan, of Physical Education staff, who was to have been coach of the sport, declared that lack of response to the call for competitors was the reason for abandoning the proposal.

Boxing as an intercollegiate sport has attained a rising degree of popularity at other colleges, and occupies a prominent place among winter sports. It had been favorably discussed by many students here who wished to see it established as a competitive sport.

**COCKS WIN AND LOSE ON TOUR**

The Poultry Club basketeers had a very successful trip last Friday and Saturday when they met teams from two of the leading high schools of Eastern Carolina. Both of these games were hotly contested. The Poultry Team won from New Bern, but lost to Washington by a narrow margin.

The game with New Bern High School, which took place Friday night at New Bern, got off to a slow start, but the tide of the game soon changed. The half ended with the Poultrymen in the lead by a score of 25 to 7. The New Bernians came back in full force, and scored 17 points during the last period, while the Cocks scored only 5 points, making a final score of 30 to 24 in favor of the Fighting Cocks.

The game with Washington High School Saturday night at Washington was fast from the beginning, and it was a question as to which team would be winner until the last whistle had blown. In the last few minutes of play, Johnson and Graham each made a lucky shot from the center of the court, and ran the final score up to 26 to 23 in favor of the high school tonners. Johnson and Graham are old college varsity players, and are on the faculty of Washington High School.

Zimmerman was star in both games for the Poultry Team. He scored 11 points against New Bern and 12 points against Washington, making a total of 23 points out of a total of 53 points for the entire team.

The line-up for both games was about as follows: Zimmerman, forward; Raper, forward; Patterson, center; Bullock, guard; Nicholson, guard.

Substitutes: Hennessie, Jackson, and Hendrix. This was the first trip of its kind, and it was a great advertisement for State College. The boys of each of these high schools are looking forward to the tournament to be held here in March, and some of these boys are expecting to become students at this college in the near future. The Poultry Team is anticipating another trip of this nature.

**TEXTILE SOCIETY HOLDS INITIATION TUESDAY**

The Textile Society initiated the following students Tuesday evening: E. Purcell, O. J. Mullaney, J. B. Boyd, W. R. Shore, S. M. Purcell, J. R. Rankin, S. L. Parkerson, M. Roberson, C. D. Lucas, A. F. Manning, F. B. Singletary, G. N. Owen, D. M. Liles.

**Last Week's Best Articles**

The honor for winning first place and the four passes given by the State Theatre in the Best Article Contest last week goes to W. L. Roberts for his article "High Cagers Come March 4th to Second Annual Tournament." The honor for winning second place and the two tickets goes to E. H. Roberts for his article "Fred B. Smith Speaks to State College Men."

F. J. Sparger, G. H. Jobe, R. F. Caldwell, D. A. Grider, and L. F. Harr.

After the initiation ceremony was completed, a short business meeting of the society was held. Following the discussion of problems concerning the society and the Textile School, one or two of the older members of the society made short talks in which they welcomed the new members, and encouraged them to take an active part in the work of the society. Several new members responded in short talks, in which they signified their appreciation of membership in this organization.

The last part of the meeting proved to be the most enjoyable, for at that time Mrs. Nelson, Miss Mary Nelson, and Mrs. Grimshaw served refreshments. All the members enjoyed the touch of social atmosphere, and the new members especially felt more at home because of this entertainment.

**"DOODLE" SIDES GIVES OYSTER STEW SATURDAY**

B. A. Sides showed his housewifely instincts last Saturday night when he made a pot of oyster soup that caused the mouths of six students to water for three days.

The event occurred at his new home, which is near the Southern Railroad track, about five hundred yards from the power plant. The home was beau-

tifully decorated with nine pairs of shoes, some shirts, slickers, and all kinds of wearing paraphernalia.

The guests showed, on their part, the very latest styles. W. Evans turned out in a full dress suit. R. E. Nance narrowly escaped spilling his white vest when a large oyster jumped out of his hand and fell splashing into his bowl of soup.

The oyster stew was enjoyed by all present, and each one left saying that when better soup is made, Doodle Sides will make it.

**C. I. POST SPEAKS TO TEXTILE MEN THURSDAY**

C. I. Post, Southern Representative of the National Oil Products Co., Harrison, N. J., gave an interesting talk to the Textile seniors Thursday afternoon on the subject, "Textile Oils and Their Uses." Mr. Post explained how these oils are made, and how they are used in applying finishes to various yarns and fabrics made of cotton, rayon, and silk.

F. W. Warrington, T. W. Church, J. P. Hughes, and Wm. Guyas visited the Textile School last week to see the new equipment that has been installed.

The Textile School has received donations of celanese yarn from the American Cellulose and Chemical Co., and rayon from the Viscose Co., Du-

Pont Rayon Co., and Tubise Artificial Silk Co. These different rayons and celanese yarns will be used for research into the effect of moisture on the strength and elasticity of these yarns.

**ANIMAL HUSBANDRY CLUB HOLDS REGULAR MEETING**

The Animal Husbandry Club held its regular meeting last Thursday night in Polk Hall. After a short program, the officers for the spring term were elected in order that their names could be entered in the 1927 Agromeck. The following were elected to office: D. C. Worth, President; E. V. Vestal, Vice-President; W. P. Albright, Secretary and Treasurer, and F. L. Moore, Reporter.

Mr. J. O. Anthony, B.S. 1924, is Voc. Agr. Instructor, Lillington, N. C.

**Major Abandons Idea of Extra Military Drill**

(Continued from page 1) girls would be invited, and other parties for the Meredith and Peace students. The extra hour, it is said, was to be devoted to working for parades and parties.

No extra credit was to be given for the added work, either the rest of this year or during the session of

1927-28. The plan is to go into effect in September of next year, and will continue throughout the school session.

The Military Department is doing its best to elevate the R. O. T. C. standing of State College, and to bring it to a par with other colleges

that have a three-hour drill period a week. The students did not feel later that the voting was properly handled and their petition was the result. Rather than have dissension in the military unit, Major Early consented to withdraw his plan before the council.

**Get Ready for Rainy Weather**

**Top in quality—first in popularity**

EXPERIENCED smokers have proved it. Discriminating tobacco lovers by the million rediscover it each day and every evening as the friendly Camels are lighted. There simply is no better cigarette made. The choicest Turkish and Domestic tobaccos grown are bought for Camels—and such blending for taste and fragrance! Only the largest tobacco organization in the world could produce a cigarette like Camel.

In terms of popularity, Camel quality has reflected itself in the greatest preference ever given a cigarette. There

never was a tobacco word so famous, or a cigarette so good. First in popularity, because the best—that is the story of Camel, the biggest cigarette success ever known.

If you want such smoking enjoyment as you never hoped to find, just try Camels. Smooth, fragrant and mellow mild, from the first touch of the flame to the final puff, Camel will mean a revelation to you of tobacco goodness. For pleasure unalloyed, for the best that's made regardless of price, "Have a Camel!"

R. J. REYNOLDS TOBACCO COMPANY, WINSTON-SALEM, N. C.

**DEMOLAY HOLDS SECOND INITIATION WEDNESDAY**

The Raleigh Chapter, Order of DeMolay, held its second initiation Wednesday night, February 9. At this time five new men were taken in. They were: Noel O. Branson, Percy D. Thomas, John R. Watson, Jr., N. C. Crowson, and Robert B. Mellon. Quite a few Masons and DeMolays witnessed the initiation.

Two weeks from Wednesday night the DeMolays degree will be given the new men.

The degree team has been working hard, and it is hoped that it will soon be the best team in the State. All Masons and DeMolays are invited to attend.

Observations and Communications of ZIPPY MACK

Last Thursday was Monkey Day in the Legislature, and next Monday is Valentine Day. Both are calculated to make a fellow feel foolish.

Mr. and Mrs. Charles Franklin Long announce the marriage of their daughter, Mary Elizabeth, to Mr. Joseph Daniels Pell, 8:30 p. m. Saturday, February 19, High Point, North Carolina.

Mr. Pell is a member of the Textile Class of '21. Since his graduation he has been with a silk mill at that place. Since he is a native of Raleigh, he has a host of friends here.

Mr. and Mrs. H. M. Wiggs announce the marriage of their daughter, Lena Elizabeth, to Mr. Joseph L. Mason, February 2, Raleigh, N. C.

Mr. Mason is a member of the Senior Class, and will continue his studies here. Mrs. Mason is a well-known and popular member of Raleigh's younger set.

Mr. and Mrs. Theodore Bunyan Davis announce the marriage of their daughter, Crystal Louanne, to Mr. James McConnell Potter, Burlington, Saturday, February 8.

Mr. Potter is a member of last spring's Civil Class, and was editor of the Agromock at that time. Mrs. Potter finished at Meredith at the same time. Both of them are well known in Raleigh.

Mrs. George W. Livermon, of Norfolk, announces the engagement of her daughter, Martha Lois, to Mr. Franklin Simmons Trantham, of Savannah, the wedding to take place in March.

Mr. Trantham is a member of the '24 Civils, and was editor of the annual of that year. Miss Livermon finished at Meredith last spring, and was also editor of their year-book.

Mr. D. W. Thorp, Jr., B.E. 1914, is City Manager, Auburndale, Fla.

Dolores Costello, radiant film star, has her most dramatic role in "The Third Degree," directed by Michael Curtiz, and coming to the State Theatre Monday and Tuesday, with five big vaudeville acts.

The story tells of the strange intermingling of two families—one listed prominently in the social register of New York, and the other the almost nameless carnival folk. Young romance, mysterious murder, the carefree joys of the circus tent, blackmail, and the grilling of "the third degree," all figure prominently in Miss Costello's fifth screen appearance since her memorable debut in "The Sea Beast."

The supporting cast includes Louise Dresser, Jason Robards, Rockliffe Fellowes, Kate Price and Tom Santchi.

A distinguished cast, as befits the portrayal of characters created by the illustrious Gene Stratton Porter, has been chosen to play in "The Magic Garden," which is coming to the CAPITOL Theatre next Monday for a two-day run. Margaret Morris lends her ethereal loveliness to the role of Tmaryllis Minton, while her childhood is portrayed by little Joyce Coad. Phillippe de Lacey is John Guido as a boy, and Raymond Keane as John as a man. These brilliant feature stars are further enhanced by the presence of Walter Wilkinson, Alfred Allen, Cesare Gravina, Paulette Duval, and Hedda Hopper. Every member seems to be the veritable embodiment of the character he plays.

The SUPERBA Theatre is featuring "The Wreck" on Friday and Sat-

urday. Dorothy Howell, author of "Wandering Girls," also wrote this breath-taking melodrama, and William Craft directed.

Shirley Mason and Malcolm McGregor head the notable cast in this story of a girl, whose leap into matrimony led her into such an entanglement of adventures that she had to be helped into romance and happiness by the handsome and lovable hero. They are said to make an admirable team of young lovers.

Belle Bennett's latest triumph is to be seen in "The Fourth Commandment," a Universal production, which opens at the PALACE Theatre Wednesday for three big days run.

In the big film drama Miss Bennett achieves a mother role even greater than that of "Stella Dallas," and "The Fourth Commandment" is being heralded as one of the outstanding film dramas of the year.

Vividly enacted, the story of "The Fourth Commandment" has a personal appeal in that its characters are those of every-day life, real, human, and interesting.

Dedicated particularly to wives and mothers the world over, it has been acclaimed the film 'epic of mother love.

**PHI KAPPA TAU PARTY**

The Phi Kappa Tau fraternity gave a theatre party Tuesday evening at the State Theatre and afterwards a buffet supper at the Oriental Restaurant. Those who enjoyed the hospitality of the fraternity were: Misses Louise White, Margaret Tillery, Lula Wynne, Margaret Crowder, Bettie Rose Phillips, Lettia Mason, Sarah Whitaker, and Jean Roberts; Messrs. John Wooten, Herbert Jenkins, Ed Tull, John Warrick, James Summey, Gordon Thomas, James Little, and Ed Hadley.

Mr. W. C. Hopkins, B.E. 1913, is Bridge Engr., Baltimore, Md.

Mr. Frank Porter Huskin, of the '21 Electricals, paid the campus a visit recently. For a time after graduation, Huskin worked with the American Telephone Company, but for the last four years has been with the Carolina

Power and Light Company of Asheville. He admits that he is still single and living with his mother.

Mr. Kit Bryan, B.E. 1911, is Asst. City Engr., Lakeland, Fla.

His text-book was a freight-car

CORLISS A. BERCAW

WHEN Corliss A. Bercaw went down to the tracks to get facts for his thesis in 1918, he was only following a lifelong habit.

From the time he was old enough to delight in the shrill whistle of a locomotive, through his student days at California Institute of Technology, the most fascinating thing in the world to him was a railroad train.

It isn't just happy chance that, at 29, he is a Sales Engineer in the Transportation Division of the Westinghouse Company, at Philadelphia. And it was quite natural that Bercaw should have an important share in the negotiations involving one of the most revolutionary transportation developments of the century—the development of the gas-electric rail car.

This design provides locomotion within the passenger car

"What's the future with a large organization?" That is what college men want to know first of all. That question is best answered by the accomplishments of others with similar training and like opportunities. This is one of a series of advertisements portraying the progress at Westinghouse of college graduates, of the campus some five—eight—ten years.

now he is engaged in selling, among other things, these cars, representing the newest idea in railroad transportation.

When Bercaw entered the Graduate Students' Course at East Pittsburgh in May, 1919, he was fresh from college—and naval aviation. His enthusiasm for railroading was not allowed to cool—he wasn't shunted into unfamiliar lines. For thirteen months he was a student in the Railway Shops. Then for six months in the General Engineering Department he learned how to apply Westinghouse Equipment to railroad needs. It was a logical step next to the Heavy Traction Division of the Sales Department at East Pittsburgh. And two and a-half years there landed him in his important work in Philadelphia.

To men who find a railroad train fascinating, Westinghouse opens a field that has unlimited opportunities for success.

itself. So on many branch lines locomotives can be discarded with great saving to railroad companies and with increased convenience to passengers.

But to perfect this new car required thorough cooperation between the Westinghouse and Brill Companies, whose engineers supplied, respectively, the electric generator and gas engine which, combined, give this car its practical advantages. Bercaw acted as a liaison man during this development stage, and
