## FIRST FORENSIC ORATION CONTEST HELD LAST NIGHT

Four Colleges Are Represented  
First Annual Forensic Oration Contest

### SOLO ADDS TO PROGRAM

Mrs. Finch Sings Popular Songs and Pleases the Large Crowd Present

The North Carolina Forensic Association held its first annual oratorical contest in Pullen Memorial Baptist Church last night at 8 o'clock.

At the time The Technician goes to press the contest was in progress, and therefore the winner cannot be announced at this time.

Four colleges were represented: N. C. State, Wake Forest, Elon, and High Point College. State College was represented by H. J. Oberholzer, Wake Forest by Charles E. Weston, Elon by Wayne E. Snow, and High Point by Keith Harrison.

Mr. Oberholzer's topic was "The American Road." He told that the people of his country had an erroneous belief about the American people. The movies, he said, were in a way responsible for the belief that all Americans "toted" guns, and at the slightest provocation would use them, in that they depicted the peaceable citizens of this land as bloodthirsty gunmen. He went further to say that the American way was not one of bolshevism, but one of peaceful living.

Charles E. Weston, representing Wake Forest, called to the minds of his audience the fact that a man must have character. This was brought out in his oration, "The Science of Living With Men." You should use your imagination, Weston says, as "imagination shortens the hours of labor and sweetens toil." He further went on to say that "God's crowning gift to man was a conscience," one that would make him realize he was doing wrong.

The representative of Elon, Wayne E. Snow, brought on tin his oration, —Continued on page 2.

## THE BIG PARADE NOW A FEATURE STATE MILITARY

Each Thursday To Be Parade Day for R.O.T.C. Unit on Red Field for Rest of Year

From now until the end of school this year the State College R.O.T.C. regiment will parade every Thursday from noon to one o'clock on Red Field, for the benefit of local and State celebrities.

B. F. Brown, dean of the School of Science and Business, was the reviewer of the first parade this week.

Dean Brown was born in Crescent County, Illinois, and entered Northwestern University, where he was graduated with a B.S. degree in 1905.

In 1920 he came to North Carolina as chief of the Division of Markets. Later he became State warehouse superintendent for the North Carolina Cotton Growers' Co-operative Association.

He came to State College as dean of the School of Science and Business when it was formed in 1923.

Dean Brown is a member of the National Committee of Marketing Officials, in collaboration with Dr. C. T. Taylor, he has written a textbook on human relations that is being used here and in many other schools in the country.

Dr. W. C. Riddick will be the next to review the parade, on March 31; Dean Thomas Nelson will follow on April 7, and Dean I. O. Schaub will take his turn April 14.

The schedule is subject to postponement in case of inclement weather or any of the occasions.

After the Easter holidays the regiment will be reviewed by several distinguished North Carolina citizens. Members of the faculty with their families and friends and students not taking military are cordially extended an invitation to be present on parade days.

Ample parking space will be arranged and spectators can review the parades from their cars. The ground around the drill field is well covered with trees, which will afford shade in warm weather.

### Editorial Nominations

At a recent meeting of the Publications Association four men were nominated for editor of The Technician for next year. W. L. ("Rosy") Roberts, S. V. ("Sam") King, C. Z. Bailey, and A. L. Aydtlett were the four men nominated. Aydtlett, who is a sophomore, has asked that his name be withdrawn, as he has agreed to accept a nomination for editor of The Wataugan.

His action leaves a three-cornered race for editor of the weekly. They are now conducting an adventure in editing, prior to the elections. The issue for March was edited by Roberts, this issue by King, and Bailey will edit the issue of April 9.

## HECK SPEAKS ON STARS IN Y. M. C. A. AUDITORIUM

Second Phi Kappa Phi Lecture on Popular Science Packs the Spacious "Y" Auditorium

The second of the Phi Kappa Phi lecture series took place in the Y. M. C. A. auditorium Wednesday night, March 23. Hitherto many students have looked upon lectures on astronomy as something beyond their sphere of intelligence, but Professor Heck revealed many of the wonders of the heavens in such a lucid and interesting manner that even a boy or girl in high school could have enjoyed and understood it.

Beginning with the ancient Greeks, Professor Heck brought his audience right up to modern times. The ancients were not blind to the wonders of the heavens, but it was not until 250 B. C. in the time of Aristotle, that any discovery worthy of comment was made. This noted Greek proved with what we might call an enlarged pair of dividers, that the earth was round, and that the sun was nineteen times further away than the moon.

In 1609 Galileo completed the first telescope and made many startling discoveries. These discoveries were welcomed by one section of the people, but as in all times there were "Doubting Thomases" then—a section not necessarily ignorant, but always afraid of being disturbed out of a particular line of thought.

In 1800 Herchel, the British astronomer, completed a survey of the heavens, a work which took seventy years to complete; thus the first map of the heavens was made.

In summing up, Professor Heck told his audience that there were forty thousand million stars in the heavens, yet each one has its fixed place or course, and that we on earth will be immune from disaster for at least two hundred million years, which is long enough for any of us. Before concluding the speaker declared that he saw no reason why our universe of forty thousand million stars, which is only one of millions of others, should be considered the only one having inhabitants.

Professor Heck's lecture was well attended and his audience packed the auditorium in the Y. M. C. A. to capacity.

## BAND AND QUARTET LEAVE FOR SANATORIUM TODAY

State Highway Commission Co-operating With College in Serving Institutions

The State College Band and Quartet depart today for Sanatorium, N. C., where they will give a concert for the tubercular patients tonight.

The State Highway Commission is furnishing the transportation.

"Daddy" Price has long been anxious to be of service to those unfortunate who are not permitted to enjoy the finer things of life, and he believes that there is no greater opportunity for service than in giving musical programs for the ailing and the orphans of our charitable and semi-charitable institutions.

Early in the school year of 1925-'26 the State Highway Commission proposed to serve jointly with the college musical organizations by furnishing transportation to and from these institutions. Since that time several concerts have been given. This is the second expedition to Sanatorium.

## '27 COMMENCEMENT MARSHALS NAMED BY SENIOR CLASS

Shuford and Jackson, Juniors; Moore and Aydtlett, Sophs; Harden, Fresh, Chosen

### SHUFORD CHIEF MARSHAL

All Five Have Been Prominent in Other Activities; Considered High Honor To Be Chosen

J. W. Shuford, of Hickory, a junior in the School of Science and Business, was elected chief commencement marshal at a meeting of the Senior Class in the "Y" auditorium Wednesday, March 23d.

At the same meeting four other men were chosen to act as marshals at the 1927 commencement, as follows: C. W. Jackson, of Middleburg, a junior in Agriculture; J. E. Moore, of Hickory, a sophomore in the School of Science and Business; A. L. Aydtlett, of Elizabeth City, sophomore, and J. W. Harden, of Graham, freshman, both of the School of Science and Business, also.

To be elected as a commencement marshal is counted as one of the highest honors that the seniors can bestow upon the individuals of the lower classes each year.

A glance at the records of these men, however, will tend to show that honor is new to none of them. Shuford is managing editor of The Agromeck, and has done a commendable amount of work with that senior publication during the present college year.

Jackson has run the whole gamut of scholarship organizations, is on the Y. M. C. A. Cabinet, is secretary-elect of the Agricultural Students' Fair, and is a member of the Fighting Cocks basketball team.

Moore is president of the Sophomore Class, a member of the "Y" Cabinet, of the football squad, and the wrestling team.

Aydtlett is an outstanding journalist, having held important positions on all three of the student publications during the present year. It is understood that he is a favorite for editor of The Wataugan next year.

Harden is president of the Freshman Class and a member of the 1926 freshman football State champions.

These men will do the dress-parading at the cap-and-gown convention in June, and it is expected that their presence will add dignity to the occasion.

## POTEAT TALKS TO MEN OF RALEIGH DeMOLAY

Dr. Hubert M. Poteat, of Wake Forest College, addressed the Raleigh Chapter of the Order of DeMolay at their meeting on Tuesday night.

Dr. Poteat took as his subject The Seven Cardinal Principles of the DeMolay, which are, Cleanliness, Filial Love, Comradeship, Fidelity, Courtesy, Patriotism, and Reverence.

He especially stressed patriotism because of its being a very much misunderstood word. It not only means loyalty to one's country, but also the taking of interest in its upkeep socially.

Courtesy is another very important custom, handed down by the knights of old. Courtesy is one thing that marks a gentleman. Comradeship and fidelity, he said, would conquer the world.

Short talks were also made by A. E. Bing, "Dad" Grimshaw, Dr. W. D. Parry, F. S. Hardee, A. B. Wester, and M. Pakula.

## April 22 Selected As Time of Annual Scholarship Day

The annual Scholarship Day will be observed on April 22, according to a recent announcement given out by the joint committee representing the three national honorary scholarship fraternities, Phi Kappa Phi, Tau Beta Pi, and Alpha Zeta, and the local scholarship society, Pine Burr.

The day will be the culmination of the scholarship activities of the year. Several cups and medals will be presented, the high honor roll will be read, and there will be a prominent

### Just Give Way To Nature

The staff of The Technician, in co-operation with the four moving picture theatres of Raleigh, will give ten dollars worth of theatre tickets as prizes for the best contribution to the April Fool issue of the campus newspaper.

Four individual prizes will be given, consisting of tickets to the different theatres, according to the following amounts: First prize, \$4.00; second prize, \$3.00; third prize, \$2.00, and fourth prize, \$1.00.

The contest is open to any and all, except the staff, whether members of the college community or not.

The issue comes out April 1. All copy must be in by noon Wednesday, March 30.

## CEMENT SHORT COURSE GIVEN HERE BY COMPANY

Portland Cement Association Holds Sway at State College for Three Days

A short course in the design and control of concrete mixtures was given at N. C. State College, March 22, 23, and 24, under the auspices of the Portland Cement Association.

The classes were held in Winston Hall during the hours of 7:30 to 10:30 p.m.

On March 22 requirements of good concrete, relation of general quality to strength, the fundamental water-cement ratio law, elements of design of concrete mixtures, and a trial method of designing mixtures were among the subjects discussed.

Wednesday, March 23, the following subjects were taken up: water-cement ratio specification for concrete, selection of materials, standard tests and measurements of aggregates, design of mixture by the calculation method, and the bulking of aggregate.

The course was brought to a close Thursday, March 24, when the control of concrete in the field, the effect of age, curing and other factors on quality of concrete in structures, and high early strength were discussed.

The meetings were well attended.

## WATAUGAN NOMINATION HAS BEEN ANNOUNCED

Aydtlett and Riley Nominated Editor-in-Chief Literary Magazine

A. L. Aydtlett and J. M. Riley have been nominated by The Wataugan staff for editor-in-chief of the magazine next year. These men have been actively connected with the present staff. Aydtlett as copy reader and Riley as book reviewer. Besides being on the staff both have made worthy contributions to the magazine from time to time. Aydtlett will be remembered particularly for his interesting short stories. His ability as a writer is recognized by members of the English faculty as being of the highest.

Nominations for business manager have gone to H. H. Burroughs, present advertising manager, and H. J. Carr, present assistant advertising manager. These men will be chosen for the respective offices at the regular student body election to be held early in April.

Mr. Paul T. Long, B.S. 1919, M.S. 1922, is Voc. Agr. teacher, West Edgecombe High School, Rocky Mount, N. C.

## Textile School Follows Suit By Giving Annual Exposition

### HAMPTON QUARTETTE SINGS CHAPEL PERIOD

Deep Bass is Featured in Negro Folk Songs and Spirituals by Negro Quartette

A goodly number of State students and visitors thrilled to the harmonious rendition of a number of Negro melodies, folk songs, and spirituals rendered Monday at 12 when the Hampton Institute Quartet sang at chapel.

The program opened with "My Lord What A Morning." It was a sort of chant and a responsive chord in every white breast was struck because of the complete mastery of the colored gentry in their interpretation of such music.

A number of other spirituals, such as "Go Down, Moses" and "Roll Jordan Roll" were sung, and they truly satisfied the white's liking for Negro music. The interpretation these colored folk put into their songs is something the whites can't get, a sort of inherited ability, if you please, seemed to dominate in these songs.

Another group of songs, such as "Oh Lord Have Mercy On Me," were sung; this type is heard at Negro revivals and as such they bring a holiness Negro to his feet a-dancing. A more congregational intonation was put into these songs and a concept as to what puts a revival spirit into the black man was more readily understood when they had finished with the group.

Then a number of Negro comical and folk songs, such as "Why Adam Sins," were sung and the rising-fall intonation was so real that a mental picture of Negro cotton choppers was brought before the minds of the listeners.

Still another group of songs were sung in which the different types were contrasted, so that a rather complete idea was to be had of the type of songs Negroes do really sing.

From the deepest throated bass to an echo high tenor these singers from Hampton, Va., sang and they put into a pleasing effect the much loved Negro songs as can only be sung by a Negro. The program was a treat and those who heard them are heartily in favor of hearing them again at the next opportunity.

### MOORE TALKS RALEIGH HI

The students of Raleigh High School were well pleased with the interesting talk given by E. G. Moore yesterday afternoon.

Because of the type of talk Moore made The Technician has decided not to publish a full account of it until next week—the April Fool issue.

## MAROON AND BLACK WILL BE WORN BY CLASS OF '28

Blazers of Class Colors With White Felt Block NCS and '28 To Be the Style

The juniors at State College met last Monday night to decide on the proposed blazer to be worn during their senior year as an emblem of their rank and dignity.

They decided to have the blazer made up in class colors of maroon and black. They decided to also have on the left pocket an NCS, to be made of white felt in block letters. The class numeral, '28, will appear under the letters, which are to be arranged in an arc.

The coats are being ordered now because of Dr. Brooks' refusal to let the juniors get their senior class flags until the opening of school next fall.

Several of the class expressed their intention of getting their blazers as soon as they could, and for this reason have already placed orders to insure delivery before Easter.

Last year the senior class wore derbies and carried canes as emblems of their dignity. The blazers adopted by next year's seniors will be even more conspicuous than the derbies.

It is the hope of the Junior Class that each succeeding class will follow their lead and make the blazer a tradition of the College.

Youngest School of College Invites All Students and Textile Mill Men From Over the State to Join in Three Days of Conference for Mutual Benefit; Several Speakers From Leading Commercial Textile Organizations; Textile Show Displays the Finest Fabrics That Have Been Produced in the South; Conference Pronounced a Decided Success.

The Textile School of N. C. State College conducted a textile conference Thursday, Friday, and Saturday, to which all students of the Textile School and mill men of the State were invited. The program for the conference included lectures on rayon, Calanese knitting, bleaching and finishing of cotton fabrics, the development of the textile industry in North Carolina, and a series of lectures on cost accounting in the textile mills.

Friday, March 25, was Textile Day. A textile exposition, to which the public was invited, was held in the textile building that afternoon. At that time fabrics designed and woven by students of the Textile School were on display, and the machinery of the School was in operation. By the use of this machinery the various processes through which cotton passed, from the bale to the woven fabric, were demonstrated to the public. The fine display of fancy fabrics and processes used in their production proved to be of great interest to all visitors.

Work done by N. C. State textile graduates in the various mills of the South was displayed at the Textile exposition. This display covered a wide range of fabrics from cotton bagging to the finest and fanciest fabrics made in the South. This exhibit also included an excellent display of hosiery. A special feature of the exposition was an exhibit in manufacture of Viscose Rayon. Beginning with wood pulp the exhibit showed clearly the steps in the manufacture of this new textile material.

The Textile Conference, held Thursday, —Continued on page 2.

## GLEE CLUB WILL BEGIN SPRING TOUR IN APRIL

A Full Week To Be Devoted To Most Promising Trip Yet Undertaken

"The best glee club that has represented State College will take its annual spring tour April 4-9," stated Major P. W. Price, Director of Music, when questioned concerning the future activities of that organization.

A full week will be devoted to this, the last road trip of the year, and it is altogether the most promising trip that has yet been undertaken.

During the first years of its existence the glee club found rough sledding in booking dates and in securing attendance when the dates had been secured.

But the big problem now is to choose between the many applicants for engagements with these song birds and their co-workers, the orchestra. Towns that have been visited are asking for the club's return, and several new places have applied.

The places chosen for the concerts are small towns, in keeping with the results of past experiences, when it has been found that larger and more appreciative audiences can be had where there is not so much competition from commercial organizations.

The itinerary for the spring trip will include, in order: Raeford, Norwood, Denver, Mount Holly, Siler City, and Gibsonville.

### NOTICE TO SENIORS

Mr. Senior, did you get your card about the caps and gowns? If you did, please fill it out and return it immediately, as it is very important that we obtain this information.

(Signed) H. L. BROWN,  
Chairman Cap and Gown Committee.

### NOMINATING COMMITTEE NAMES 'Y' CANDIDATES

#### Considers Each Qualified to Serve Acceptably and Each Is Willing to Run

For the last two weeks the Nominating Committee of the Y. M. C. A., composed of J. E. Tiddy, chairman, H. K. Platt, Dean E. L. Cloyd, W. N. Hicks, and E. S. King, has been making a careful study of the men eligible for nomination. Last night the committee reported to the Cabinet and the report was unanimously accepted.

The following nominations were made:  
For President: J. B. Britt and C. L. Straughan.

For Vice-President: Jeff. C. Davis and H. M. Stott.  
For Secretary: E. C. Conrad and R. I. Mintz.  
For Treasurer: A. B. Holden and U. G. Hodgkin.

In the estimation of the committee, each of these men are qualified to serve acceptably in the office for which he has been nominated. Each one of them has been interviewed by a representative of the committee and has indicated his willingness to

run for office and to serve to the best of his ability if elected.

The election will be held at the same time the student body election is held. Every member of the student body and every member of the faculty is entitled to vote.

It seems fitting at this time to say a word about each of the candidates, and it is hoped that every voter will inform himself fully about each of these men before the election.

J. B. Britt comes from the town of Garner and is a junior in the School of Agriculture. He has been active in "Y" work for two years. During his sophomore year he was a Bible Study leader, and this year he has served as treasurer of the Association. Last summer he took the six weeks' training course for Y. M. C. A. officers at Blue Ridge and was a delegate to the National Christian Student Assembly at Milwaukee, held during the last Christmas holidays.

C. L. Straughan comes from the town of Siler City, and is a junior in the School of Agriculture. He was a member of the Freshman Friendship Council during his freshman year and has been active in "Y" work ever since. He has been a Bible Study leader for two years and chairman of the Religious Meetings Committee this year. He was also a delegate to the Milwaukee conference.

Jeff. C. Davis comes from New Bern and is a junior in the Electrical Department of the School of Engi-

### Last Week's Best Articles

The honor for winning first place and the four passes given by the State Theatre goes to F. M. Chedester for his article, "Engineers' Exhibits Display Wares Unto People of State." The honor for winning second place and the two passes goes to F. E. Plummer for his article, "Textile Men to Have Exposition Friday, March 25."

neering. Jeff. was active in Hi-Y work before coming to college and has taken an active part in the Association work during his three years at State College. This year he served very acceptably as recording secretary.

H. M. Stott is a junior in the Vocational Department of the School of Agriculture. Stott has been a "Y" worker ever since he entered State College. This year he has lived off the campus and so is not known by many of the students, but next year he expects to live on the campus again. Those who know him rate him as one of the most genuine Christian men at State.

E. C. Conrad comes from the town of Lexington. He is a sophomore in the Textile School. During his two years at State Conrad has shown himself to be a Christian gentleman and a willing worker.

R. I. Mintz is a sophomore in the Civil Engineering Department. His home is at Charlotte, North Carolina. Mintz has been a faithful and dependable "Y" worker ever since he entered State College.

A. B. Holden comes from Wilmington. He is a sophomore in the School of Science and Business. During his freshman year "A. B." was president of the Freshman Friendship Council. This year he was chairman of the New Student Committee. In both of these positions he served faithfully.

U. G. Hodgkin, known to his friends as "Joe," comes from Greensboro and is a junior in the School of Science and Business. He was very active in Hi-Y work before coming to State. While he has never held an office in the Y. M. C. A., Hodgkin has given the "Y" both financial and moral support, and helped in the finance campaign last fall. He has the personal qualities and the energy that qualify him for making a good "Y" officer.

"Have you any invisible hair nets?"  
"Let me see one, please."

plained the difference between rayon and Celanese.

David Clark, publisher of the Southern Textile Bulletin, Charlotte, spoke on the "Development and Future of the Textile Industry of North Carolina." Frederick Moore, past president of the North Carolina Association of Certified Public Accountants, Charlotte, gave an interesting talk on the "New Conception of Cost Accounting." By the use of lantern slides he made his talk very interesting and effective.

### MAGAZINE AND PRODUCER TO CONDUCT MOVIE TEST

If college men really were like some of the so-called "collegians" now in the movies—thirty-year-olds in wide pants and con coats, with a passion for racing cars and all-night parties—college days indeed would be happy days. And think of those glorious dips in sunken pools and then the four-course breakfast served in true hotel style that we see now and then in some flashing, sparkling college picture.

If folks who never went to college got their ideas of college life from a few far-fetched college pictures their views would be subject to considerable correction. College men are men; wide pants are on the decline, and breakfasts, even at fraternity houses, consist of grape-fruit, toast, and coffee. In fact, the cash rate for city men eating at the house at some fraternities is twenty-five cents for breakfast, forty cents for lunch, and sixty cents for dinner. And sunken gardens and swimming pools are an exception.

With all the thousands of stars now behind the klieg lights, few are college men, fewer still of the directors are college men, so here's the opportunity

for ten representative college men to star in the movies, to help make college pictures real college pictures. First National Pictures and College Humor will send an advance man to April to visit the colleges in March and fraternities and eating places to interview as many men as possible, and a few weeks later a camera man, a make-up man, and competent judge of photographic personality and studio requirements will arrive to make the actual screen tests. These three men will be right from the lot at Burbank, and as soon as they have screened ten men the film will be sent direct to California for immediate inspection. By the first of June the Judges will be ready to announce the names of the ten men who will make the trip to California—College Humor.

A man in a hospital for the insane sat dangling a stick with a piece of string attached over a flower bed. A visitor approached, and, wishing to be affable, remarked:

"How many have you caught?"  
"You're the ninth," was the reply.

### Textile School Follows Suit By Giving Annual Exposition

(Continued from page 1.)

day, Friday, and Saturday, proved to be interesting and instructive to the textile students and the mill men of the State who had the opportunity of being present. I. L. Langley, cost accountant for the Consolidated Textile Corporation, Lynchburg, Va., delivered a series of five lectures on "Cost Accounting in Cotton Mills." He not only presented the principles of cost finding as applied to textile work, but also emphasized the great need of cost accounting in this industry. He stated that one of the aims of the Textile Institute at present is to establish a more uniform and adequate cost accounting system for textile mills.

R. W. Arrington, superintendent of the Union Bleachery, Greenville, S. C., gave a talk on "Modern Bleaching and Finishing of Cotton Fabrics." He discussed briefly the history and development of the bleaching and finishing business, and then described the modern bleaching and finishing plant, with its improved processes and time and labor-saving devices.

W. A. Hart, of the sales department of the Du Pont Rayon Co., in discussing "Rayon and Its Possibilities," stated that rayon has come to stay and will find its place in combinations with cotton, wool, and silk. He also discussed the processes used in the manufacture of this new textile fibre, and traced the wonderful progress that has been made in the development of this new material.

"Knitting of True Ribbed Fabrics" was the subject used by W. Larken, representative of the Fidelity Machine Company, Philadelphia. He told of the invention of the first knitting machine and how the earliest machines of this kind were smuggled into this country because of the objection to labor-saving machinery. He traced the development of knitting machinery from 1589, when the first knitting machine was made, to the present day, in which we have the new multi-design machine that can put in as many as 90 colors vertically and four horizontally in the same fabric.

Tod B. Meisenheimer, a graduate of N. C. State Textile School, now representative of the American Cellulose and Chemical Company, New York, gave an interesting talk on "The Adaptability of Celanese for General Types of Fabrics and Various New Novelty Finishes." He explained the peculiar properties of Celanese and how these properties give great value to this new textile fibre. He also ex-

## Springfield College Nine Win From Doakmen In Initial Game

**Cold Weather Slows Up Game As Spectators Shiver on Cold Bleachers**

(By T. A. Vernon.)  
A slow field, cold weather, and eleven representatives of Springfield College were too much for Coach Chick Doak's baseball team, the visitors winning easily by the score of 5 to 3.

Taking advantage of the game, Coach Doak used fourteen men in the fray, seeing several of them in action for the first time.

H. G. Shelton started the mound work for State. He should have held the visitors scoreless in the three innings that he twirled, but Jenkins got to first on a pass, a hit by Wright, and his wild throw of Mesar's sacrifice gave the Yankees a two-run advantage. The hit by Jenkins and Carson's misplay of Craig's pop-up were the only two hits of Shelton. George Dedmon entered the fray at the beginning of the fourth and fared badly at the hands of the Bay State team. They mixed their hits for runs, and the fifth inning found Rooster Beal on the mound for the locals.

Beal entered the game with men on the bases and one hit by the opposition gave them two runs. Only one man reached first base during Beal's time on the mound. He fanned four men and walked none, hitting Mesar on the arm in the seventh.

In the seventh Erickson gave way to Bech, for Springfield, and McDowall, playing his first varsity game for State, beat a roller to first, and singles by Carson and Beal gave Jack a score. State rallied again in the ninth, putting over another score. Singles by Matheson, Harrill, and Mayfield scored Matheson. Outen, next man up, was called out on strikes by Umpire Henderson, to end the game.

The hitting of McDowall and the felding of Kendall were the features

for State, while Erickson, Springfield pitcher, and Mahnen, first baseman, turned in the best game for the Massachusetts lads. The visitors turned in an errorless game.

Detailed Score					
Springfield	Ab.	R.	H.	O.	A. E.
Jenkins, lf.	4	1	0	0	0

Struck out by Shelton 1, Erickson 3, Beal 4, Beach 5. Stolen base, Mayfield. Hit by pitcher, Mesar (by Beal). Hits, off Shelton 2 in 3 innings, off Dedmon 5 in 1-1-3, off Beal 4 in 4-2-3. Winning pitcher, Erickson. Losing pitcher, Shelton. Left on bases, Springfield 10, State 11. Time, 2:20. Umpire, Henderson.

### 1927 TRACK SCHEDULE

April 2—Davidson at Raleigh.  
April 9—Washington and Lee at Raleigh.  
April 23—Clemson at Clemson.  
April 29—U. N. C. at Raleigh.  
May 3—Duke at Raleigh.  
May 6-7—State meet at Greensboro.  
May 13-14—Southern Conference meet at Baton Rouge, La.

### TRACK YEAR OPENS HERE APRIL FIRST

State College opens its 1927 track season April 1, on Riddick Field, with a meet with Clemson College. The team is being put through some strenuous workouts at this time.

Captain Sides is clipping the hundred yards in ten seconds flat and is expected to break the State record in the State meet at Greensboro in May. Several others on the team are making good records and are expected to make better ones before the season has gone very far. The Coach, Dr. Seamon, says that there is a good possibility of a State championship team.

### Plonk Receives Injury In Football Scrimmage Monday

Monday afternoon as the Wolf Pack was going through a light scrimmage, Plonk, one of the outstanding men of last fall's freshmen team, had the misfortune of getting his shoulder knocked out of place. He is resting easily at present and is expected to be well again in a few days.

### U. OF MINN. GIVES JOURNALISM TOURS

The Department of Journalism of the University of Minnesota is, this year, conducting a series of tours of the European countries, with the view of teaching European journalism. The tours are a regular part of the University program.

The tour is divided into three sections for those who find it impossible to stay the required length of time. The longest tour will last for 68 days, the next 47 days, and the last for 54 days.

The work done on the tour will count for credit the same as in the regular sessions.

The features of the tours are that a daily newspaper is printed from reports received by radio and special library facilities will make the instruction on shipboard as effective as in the regular classroom.

Among the courses that will be given on the trip is the writing of special feature articles. Lectures will be the form of instruction on the east-bound trip and on the return trip the class-work will be used for studying the articles prepared by the students. Foreign news sources, a course consisting of the study of the English and Continental news and European history; political, social, and economical conditions.

### ALSTON'S DREAMS SHARED BY SPARROW BEDFELLOW

A most pleasant night's slumber was enjoyed last Sunday night by Mr. "June" Alston, being accompanied in his dreams by an English sparrow, which found a bed in his pajamas. On awakening the next morning "June" was very much surprised and not at all pleased with his bedfellow. Although he did not like the sparrow as a bedfellow the sparrow seemed to have enjoyed his night's free lodging very much, and when aroused flitted happily away to freedom.

Much hilarity was enjoyed by the students rooming near him when the sparrow was discovered. It is not generally known whether Mr. Alston took the sparrow to bed with him or whether it was placed there while he was peacefully asleep.

### Leary Wrestling Captain

At a special meeting of the wrestling team recently, W. C. Leary, a junior in Electrical Engineering, was elected captain of the 1928 team.

Wrestling was introduced as a minor sport here three years ago, and has been gaining headway each year. This year, under the able leadership of Captain Nicholson and the coaching of Drennen, the team had a fairly successful season.

When Marie Prevost as Gertie Darling learns that her jeweled garter is hidden in a haymow she seeks to climb a ladder in order to recover the bauble. She loses her footing and calls despairingly for the man she loves. Does he respond? See the answer in "Getting Gertie's Garter" at the State Theatre Monday and Tuesday.

Clara Bow plays her first mother's role in "Children of Divorce," which will be at the State Theatre Wednesday and Thursday. She found the part fascinating and was very much impressed by the opportunities for dramatic expression it offered.

"Here is my chance for something different," the cyclonic little red-head earnestly states. "I'm not tired of being the flapper of the screen. I always want to remain young and full of life and laughs, but I also want to show the audiences that Clara Bow isn't stereotyped—that she can sigh as well as smile."

In the screen story of "Ben Hur," showing at the State next Friday and Saturday, Ramon Navarro as a Jewish nobleman, a gallery slave living for hate, an adopted son of a Roman admiral in search of his lost sweetheart, a chariot racer riding for revenge, a leader of an army for the support of the Savior, and finally as the fully converted Christian, reaches his greatest heights as an actor.

A sea battle and a chariot race furnish the thrills of this great production.

Should a young man wait until he has saved a small fortune before seeking the hand of the girl of his choice? Should an ordinary bank teller permit himself to be scared stiff by the blatant vapors of a fussy but well-meaning mother who is trying to marry her daughter to the best possible advantage? Such are the problems which Allen Simpson, as Charles Grant, had to answer in "The Family Upstairs," which is showing at the Palace Monday and Tuesday.

An American showgirl, stranded in Singapore, and forced to become a hostess in a cafe; a proprietor who over-stepped his rights as an employer, and a young man, broken by war and jilted by women, who fights for the girl's honor, are the principle characters of "The Half-Way Girl," which comes to the Palace Wednesday.

Seats on Sale Wed., Mar. 30, 10 a.m.

fun begins, and continues at a terrific pace.

What happens when a girl of the London slums is suddenly transported to beautiful Mayfair and a life of ease? No longer need she wonder where the next meal is coming from; whether there'll be a bed to sleep in; or if she'll have any clothes to wear on the morrow. Instead, she finds herself in a land where fashionable restaurants and night clubs are "all the rage"; a soft downy bed is hers; servants galore; and as for clothes, only Parisian modistes will do. Is she happy? Does she find contentment or love? See the answer in "London," when it comes to the Superba Wednesday and Thursday.

"Wolf's Clothing," starring Patsy Ruth Miller and Monte Blue, which shows at the Superba Friday and Saturday, deals with the adventures of a subway guard on a wild New Year's eve in New York.

Ezra—What became of that hired hand you got from the city?

Cyrus—Ah, he used to be a chauffeur and the doggone idiot crawled under a mule to see why she wouldn't go.

**"SOCIAL VISITS" CAUSE  
LOSS OF FREE TELEPHONE**

**Telephone Company to Remove  
Free Instrument From "Y"  
and Install Pay Phone**

The Southern Bell Telephone Company has ruled that the Y. M. C. A. can no longer keep a free telephone in the booth. This ruling has been brought about because students use the telephone for "social visits." Therefore, telephone 558 will be moved to the Y. M. C. A. office. The telephone company is perfectly willing for students to use this telephone for business calls, but they insist that those who wish to carry on extended conversations use the coin telephone in the booth. Both the business manager of the college and the secretary of the Y. M. C. A. have protested against this change, but to no avail.

The following letter has been re-

ceived from the Telephone Company which sets forth their position:

Mr. E. S. King, Secty.,  
State College Y. M. C. A.  
Raleigh, N. C.

DEAR MR. KING:—  
In accordance with our conversation and signed application we are arranging to replace the present flat rate telephone now located in booth with an additional coin box public telephone, for the use of the students.

Following is an excerpt from our Exchange Tariffs as filed with the Corporation Commission of the State of North Carolina.

"Telephone equipment and facilities are furnished for the use of the subscriber, employees, agents or representatives of the subscriber."

In all fairness to the Telephone Company and to the students themselves the present excessive use of the flat rate telephone by students is unjust, and these calls should be paid for by the individual students as they are used, through the public telephones.

We are therefore moving the present flat rate telephone to a location where its use will be restricted to the business uses of the Y. M. C. A. This change will be effected at once and will permit you to use your telephone service as intended, for the proper conduct of affairs of the Y. M. C. A.

Yours very truly,  
G. C. CAUTHEN,  
District Manager.  
By W. S. BARLOW,  
Commercial Representative.

**Mild Epidemic of Colds  
And Flu Fills Infirmary**

For the past few weeks there has been a mild epidemic of colds and influenza on the campus. Several men have been confined in the infirmary for treatment.

W. B. "Rat" Austin has been confined to the infirmary with scarlet fever since Wednesday. As a result of this, the baseball squad was called to the infirmary to have their throats gargled.

Porter—Miss, your train is in.  
Lady—My man, why do you say my train when you know it belongs to the company?

Porter—Why do you say "my man" when you know I belong to my wife?

**Kampus Komiks**

By DINKIE

"Say, Pop, what is an echo?"  
"An echo, my son, is the only thing that keeps a woman from having the last word."

Sinner—Do you believe I'll recognize my loved ones in heaven?  
Saint—Not at the distance you'll have to look at them from.

A doctor fell into a well  
And broke his collar bone.  
A doctor should attend the sick  
And leave the well alone.

He—Is there an art in kissing?  
She—The only art is, art thou willing.

The young married couple entered the furniture store.

The Young Hubby (bashfully)—We want to look at a bedroom suite for our new home.

The Clerk—Yes, sir. Do you want twin beds?

The Young Wife (blushing)—Oh, heavens no. Just a small cradle.

I have asked everyone I know what could possibly make a man write a poem like "The Deserted Village," and today an enterprising book agent enlightened me when saying: "Oliver Goldsmith was inspired to write 'The Deserted Village' while in Glasgow, Scotland, on a tag day."

"Then, we're engaged?"  
"Of course."  
"And a mf the first girl you ever loved?"

"No, dear; but I'm harder to suit now than I used to be."

He had studied the correspondence course at home at her earnest request—just as the advertisements say. Now his salary had been raised \$50.00 per month—also like the advertisements say, and he had come home to clasp her in his arms and tell her the good news, just as the advertisements say.

"Nell, my darling, I owe it all to you," he exclaimed.

"Yes, my dear," she replied, "but you went after the next pay day"—which is the point the advertisement failed to mention.

Solomon, the wise man, said: "Beware, my son, of she that taketh an interest in the manner thy necktie hangs, or the way thy shirts are mended, or the lint on thy coat sleeve—for in her own heart, my son, she hath already committed matrimony."

Almost bald—Can you tell me what I can do to avoid falling hair?  
Manicurist—Jump out of the way.

Thrilled Spinster—Oh, he just rushed right up to me, clasped me to his bosom and kissed me! It's certainly lucky you were here, Mr. Policeman.

Man in Uniform—Yeah, only I ain't no policeman. I'm his keeper.

With some of them like this ( ) and some of 'em looking like this ( ), they still wear short skirts—Brackety-Ack.

**HUNNYCUTT INSTALLS A  
SODA FOUNTAIN IN SHOP**

Hunnycutt's London Shop, situated in the College Court, has installed a soda fountain during the past week, for the convenience of State College men.

The shop, which is owned and managed by W. O. Hunnycutt, a graduate of this institution, was opened in the fall of 1925. At this time a brand of smart college clothes was put in to meet the demand of the men on the campus. Since then several good lines of hats, shoes, and other accessories have been added to the stock.

The fountain is ten feet long, giving ample space for the soda dispensary. All standard flavors of ice cream will be served, along with many confectioneries.

**FIFTH DORM CLAIMS BIG  
EATER IN JOE KILGORE**

Fifth Dormitory claims to have the biggest eater that has ever trod the campus of North Carolina State. This man is known in Fifth Dormitory as "Big Joe," but probably better known over the campus by the name Kilgore.

It was reported by an eye witness that "Big Joe" entered the college mess hall on a bright sunny day to partake of a regular meal. For this particular meal it happened that five of the men supposed to be at his table were absent, leaving Joe alone. The witness declares that Kilgore ate everything on the table, which was set for six, and left the mess hall, headed for Frank's Cafe, saying that he must have something to eat.

It is said that Joe decided once to try the cafeteria, so at the breakfast meal he bought a five-dollar book of tickets, with which to eat. That night for supper he had to borrow enough tickets to complete the meal.

From son to Dad: No mon, no fun. Your son.  
From Dad to son: How sad, too bad. Your dad.

**Camels add the charm of living**

WHETHER through the tasks of every day, or in life's moments of crisis and great reward, the comfort and understanding of Camel cheers us on our way. For no other cigarette was ever so friendly, so loyal as Camel. The unfathomed goodness, the deep underlying quality of Camel tobaccos is ever-dependable.

The world's largest tobacco organization buys the best of everything for Camels. The choicest Turkish and Domestic tobaccos

grown. The kind of blending that only such a group of experts could give. Regardless of what you are willing to pay, there is no other cigarette like Camel; there can be no better cigarette made than Camels. Camels never tire the taste, no matter how indefatigably you smoke them, never leave a cigarette after-taste.

If you don't yet know Camel enjoyment, just sample the most exquisite fragrance that ever came from a cigarette. *Have a Camel!*

**Resists Corrosion**

THIS picture, taken in the salt marshes near Kearny, N. J., shows two lines of 30-inch Cast Iron Pipe replacing pipe made of other material. The alternate exposure to the action of salt water and air is a severe test.

While the pipe shown in the picture is subjected to unusual corrosive influences, all underground pipe must be able to withstand corrosion to a greater or less degree. Cast Iron Pipe has this quality. It does not depend on its coating to resist rust; the material itself is rust-resisting. The first Cast Iron Pipe ever laid is in service today at Versailles, France, after two hundred and sixty years' service.

**ENGLISH MOST USEFUL SUBJECT, BY YALE VOTE**

When the Yale seniors, in their recent balloting, finished paying pretty compliments to each other and began to express their preferences about things in general, the results, to say the least of it, were surprising. The most useful subject which the academic seniors had studied was English; the least useful, psychology. This will be a blow to certain of our pedagogues who have spent several years trying to persuade us that psychology, in spite of the quackery that seems to hang over it, is really important, especially in life insurance. The Yale seniors were exposed to it, and their opinion is certainly worth something.

Again, the vote was 240 to 55 against Prohibition, which is oddly at variance with Prof. Irving Fisher's statements that students, and especially Yale students, are overwhelmingly dry. Again, as to the biggest world figure of today, the vote was almost unanimous for Mussolini. Mr. Coolidge received but 21 votes, barely nosing out H. G. Wells, who was in third place with 17.

Things equally surprising are to be found in the vote of the Sheffield Scientific School seniors. Here again Mussolini leads as the biggest world figure, Mr. Coolidge coming in as a bad third, not being able to defeat Venus, who ran second. The most useful subject, these boys thought, was business law, although English was only one vote behind. The favorite prose writers were Conrad, Dumas, and Galsworthy, which seems to dispose of the notion that H. L. Mencken has become the god of the college generation, and that in consequence the ruination of the country may be expected at any time. To judge from the way these seniors voted, the ruination of the country is still a long way off. They showed plenty of good hard horse sense, a capacity to think for themselves that must come as a shock to some other critics.—New York World.

Why do we need to die?  
Interest in this age-old question has been renewed with the discovery, by Professor Max Hartmann, of Berlin, of a microscopic one-cell creature which apparently can be made to live forever by careful treatment, which includes pruning off portions of the creature's body at intervals. Professor Hartmann claims to have kept it alive for many times the length of its normal life. If the same results could be obtained with human beings, our lifetime could be extended indefinitely.

**SAINT MARY'S, LARGEST EPISCOPAL SCHOOL FOR GIRLS IN THE SOUTH**

St. Mary's was established by Rev. Aldert Smedes, D.D., in 1842, and since 1897 it has been the property of the Episcopal church in the two Carolinas. In 1877 Dr. Smedes died and was succeeded by his son, Rev. Bennett Smedes, who proposed to the Diocese of North Carolina at its annual convention that the church take charge of

the school which had been the life work of his distinguished father and himself.

St. Mary's is the largest Episcopal school for young women in the South. It is situated on Hillsboro street, which is one of the most beautiful residential streets in the city. The site is all that can be desired for health and beauty. In the rear is a fine garden of five acres. There are seven buildings, which are up-to-date in every respect, with modern appointments.

## STATE MEN INVITED TO LOUISBURG RECEPTION

Annual Junior-Senior Banquet to Take Place Friday, March 25th

Invitations to the Junior-Senior banquet at Louisburg College on Friday evening, March 25, have been extended to a great many students at State College.

For the past few years some of the State College students have been included in the mailing list, made up by the members of the Junior and Senior classes at Louisburg College, but this year the number receiving invitations has reached huge proportions.

The banquet is given annually by the members of the Junior and Senior classes and is fast becoming one of the outstanding social events of the college year. Those who have attended the banquets during previous years speak very laudingly about the welcome given State College students by the students and faculty of Louisburg College.

## S-O-C-I-E-T-Y

All Social and Personal News turned in to The Technician office will be appreciated

### Women's Club Meets

The State College Woman's Club held a very interesting meeting in the Y. M. C. A. Friday at 3 o'clock. After the business was finished, Prof. J. L. Stuckey, director of Geology Department at State College, gave an illustrated lecture on the "Story of the Earth." After listening to several selections rendered by the Meredith College Sextette, composed of Miss Mildred Brockwell, Miss Elise Mathews, soprano; Miss Margaret Harrison, Miss Sarah Thomas, second soprano; Miss Mary Brockwell and Miss Mary Ayres, contralto, light refreshments of ice cream and cake were served. The hall was decorated with fresh-cut spring flowers.

### Entertained at Y.M.C.A.

The "newly formed" State High School Press Association and their friends were entertained at the State College Y. M. C. A. at a luncheon at 5 o'clock Friday afternoon, under the auspices of the Journalism Department of State College.

R. R. Fountain, editor of The Technician, was toastmaster. Brief talks were made by Miss Nell Battle Lewis, a prominent newspaper woman; Dr. C. C. Taylor, Director B. F. Brown, Prof. T. E. Browne, director of Summer School, and H. F. Srygley, superintendent of Raleigh Public Schools. The State College Quartet sang several selections which were very happily received.

### Pi Kappa Delta Social

Members of the Pi Kappa Delta, a national honorary forensic fraternity, were entertained at a bridge party at the home of Henry H. Rogers on March 12th. Those present to enjoy this social affair were Prof. A. M. Fountain, J. D. Conrad, W. E. Wilson, C. L. Straughan, H. H. Rog-

ers, H. J. Oberholzer, and W. B. Kilgore. After several rubbers of bridge had been played the guests were served with light refreshments.

## SENIOR VOCATIONALS ENJOY SOCIAL EVENING

Last Saturday evening, March 19, the Senior Class in Vocational Education was delightfully entertained by Professor and Mrs. Leon E. Cook, at their home on Brooks avenue.

With the exception of one man the entire class of thirteen was present. Those present were J. J. Barnhardt, R. M. Morris, J. W. Edwards, C. M. Allen, T. W. Hayes, W. R. Burnette, J. E. Tiddy, W. W. McCulloch, C. R. Lambe, C. A. Leonard, B. G. Gibson, and G. A. Munn.

The party was greatly enlivened by the sudden and unexpected appearance of thirteen well-known young ladies of Raleigh, who marched into the room singing "State College Keep Fighting Along."

Late in the evening the guests departed, each declaring that they had had a very enjoyable time.

## HECK TO GIVE FIVE TALKS ON "THE LIFE OF CHRIST"

The big feature in the program of the State College Y. M. C. A. for the third quarter will be a series of five lectures on the "Life of Christ," which will be delivered by Prof. C. M. Heck.

Professor Heck is, perhaps, better qualified to present this subject than any man connected with N. C. State College. For twenty years he has been studying and teaching this subject. His treatment of the subject will be from a historical standpoint.

The lectures will be given in the Y. M. C. A. on Wednesday evenings at seven o'clock and will last for forty minutes. The first one will be given next Wednesday night, March 30th.

These lectures should be of interest to every State College man, and especially to those who desire to fit themselves for leadership.

The subjects of the addresses are as follows:

1. The Atmosphere in Which Jesus Grew.
2. From Carpenter to Baptizer.
3. Facing a World's Misery.
4. The Disciples' School.
5. Death and Triumph.

The Young men's Christian Association extends a hearty invitation to all State College students and members of the faculty to hear these lectures.

## Alumni Notes

Observations and Communications of ZIPPY MACK

The weather during these days of transition reminds us of our financial condition. It is up and down, the latter condition being in the ascendancy just now.

Mr. Franklin Simmons Trantham and Miss Martha Lois Livermon were married at the home of the bride in Norfolk Thursday afternoon, March 17. Mrs. Trantham is a graduate of Meredith of the Class of '26, and is known by a host of friends in Raleigh, while Trantham is a member of the Civil Engineering Class of '24 at State. He is at present located in Savannah, where they will make their home.

Mr. I. L. (Lewis) Langley, of the '23 Textiles, who is now in the accounting department of the Consolidated Textile Corporation in Lynchburg, gave a series of lectures on Textile Cost Accounting for the textile exhibition this week.

Among the recent visitors to the campus we have seen "Bill" Carpenter, who left us last year for the University of West Virginia; "Ollie" Bradshaw, now located in Durham; "Mount" Wilson, and "Pete" Blum, who is doing radio sales work in Winston-Salem.

Mr. S. E. (Sam) Holt, of the '26 Electricians, is now with an electrical establishment in High Point.

Mr. H. W. Bullard, B.S. 1914, is teaching Voc. Agri. at Orrum, N. C.

Mr. F. V. H. Smith, B.S. 1925, is Sales Engr. for Carbide Carbon Chem. Corp., Tulsa, Okla.

Mr. G. W. Gillette is Capt. Corps of Engrs., U. S. A., Kansas City, Mo.

## CULLINS CHAIN ADDS NEW PLANT

The Cullins Laundry Company, of which the college laundry is a part, has recently acquired Munn's French Dry Cleaning Company, located at 308 East Pace street, Raleigh. It will be operated under the name of the Cullins Dry Cleaning and Dye Works.

The Cullins chain, headed by J. B. Cullins, manager of the local plant, has had a most successful and healthy growth for the past ten years. Operated entirely by the Cullins brothers, they have grown until they now own five plants, in four cities: one in Henderson, one in Oxford, one in Goldsboro, and two in Raleigh.

Each of these plants has modern equipment in every detail, and continues to grow in strength and popularity.

The local laundry has done a greater volume of business during the present year than at any time previous. This would seem to testify that the service has shown a proportionate improvement.

## WESTINGHOUSE WORK TO HAVE COLLEGE CREDIT

The University of Pittsburgh has agreed to give full academic recognition to certain educational activities carried on by the Westinghouse Electric and Manufacturing Company.

This action, significant of a new kind of cooperation between industry and the classroom, is revealed through an agreement, made public recently, whereby certain features of the Westinghouse educational program are to be identified with the Graduate School of the University, and certain Westinghouse engineers given regular university appointments as lecturers in the Graduate School.

Mr. W. J. Carter is Asst. Supt. Aurora Cotton Mills, Burlington, N. C.
