HIGH POINT WINS COLLEGE DEBATE OVER STATE TEAM

Britt and Dunlap Give Battle on Home Site, While Colleagues Pursue Conflict Abroad

LARGE CROWD ATTENDS

United States Should Immediately Recognize Soviet Government of Russia

High Point College defeated N. C. State in both ends of a decision debate Thursday, March 31, and Friday, April 1. J. B. Britt and R. H. Dunlap represented State in the negative at the local Y. M. C. A. auditorium, while H. M. Stott and J. D. Conrad upheld the affirmative at High Point.

The proposition under consideration was, "Resolved, That the United States should immediately recognize the Soviet Government of Russia." Despite the fact that the locals received two stinging defeats in the same place, State College was not without adequate support at both ends of the line.

Although the question under consideration was one that has often been debated in collegiate circles, the fray was not lacking in interest. G. W. Andrew and W. M. Loy, of High Point, pleaded in ministerial tones for the recognition of the would-be-made-believe humble and harmless Russian, while Britt and Dunlap adhered to the republican principle of "no recognition while there is repudiation."

The ministers of High Point were adequately fortified on both ends of the question, for the visitors drubbed the locals here, and the State debaters were probably no less mercifully handled on the other end of the line.

The judges of the local contest were: Hon. Wiley G. Barnes, Rabbi Howard L. Fineberg, and Mr. L. A. Peacock.

These debates were sponsored by the North Carolina Intercollegiate Forensic Association, and would have been a part of a triangular debate had Elon College been able to produce speakers.

RIDDICK REVIEWS SECOND ROTC PARADE ON RED FIELD

Early Hopes Accomplish Improvement in Status of Military at State College

The second of a series of parades being held by the R.O.T.C. was held Thursday, March 31, with Dr. W. C. Riddick acting as chief reviewer.

The parades are creating a great deal of interest among the members of the unit, the faculty, students, and friends of the college. During the past parade a great many automobiles bearing visitors were seen parked around the drill field, and everyone present seemed well pleased with the performance of the R.O.T.C.

These parades are the outgrowth of Major Early's plans to put State College before the eyes of the military leaders in the United States. Although all the plans have not been put into practice, Major Early hopes to accomplish a decided improvement in making the R.O.T.C. an outstanding feature of State College.

Dr. W. C. Riddick, who reviewed the parade along with other members of the engineering faculty, was born in Raleigh, N. C. His college education was received at Wake Forest, University of North Carolina, and Lehigh University. During his post-graduate life he has become a father of engineering in North Carolina. Dr. Riddick has been associated with State College for thirty-five years, in which time he has served as a faculty member, vice-president, and president of the college.

Under Dr. Riddick's administration as president the installation of Student Government was one of the most outstanding steps taken in bettering college life at this institution.

STUDENT ELECTIONS

The polls for the primary election of student government officers will be held April 12 in the front of Pullen Hall. The final election will be April 26 at the same place. Polls will be open from 8 a. m. to 6 p. m.

Every one of us wants certain officers, therefore vote and elect the man you want. This is one of the most important elections of the year, and every student is urged to vote.

Talk your man up; make your friend vote, and let's make the men we elect the choice of the entire student body.

J. F. MATHESON.

DADDY PRICE'S CHARGES MAKE SUCCESSFUL TOUR

Glee Club and Orchestra Make a Six-Day Musical Tour of Western Carolina

Greensboro, April 8.—The Glee Club and Orchestra of North Carolina State College are to complete tonight what has proved to be the most successful tour ever made by the musical students of that institution.

They opened their tour at Raeford on last Monday night, playing and singing to a packed house. Many encores were necessary to satisfy the audience.

Playing at Norwood Tuesday night, the Glee Club and Orchestra again were compelled to return time and again to the stage for other selections.

With an entirely new program for the season, the quartette completely carried away its audience in the packed auditorium at Denver on Wednesday night.

The audience at Mt. Holly Thursday night were exceptionally well.

—Continued on page 2.

MEN AND WOMEN "Y" WORKERS MEET HERE

College "Y" Building To Be the Scene of Three-Day Activity in May

For the first time in history the annual North Carolina students' Y. M. and Y. W. C. A. officers' training conference is to be a joint affair. The joint conference will be held at State College on May 6, 7, and 8. About forty delegates are expected from the college Y. W. C. A.'s of North Carolina. Meredith College will be hostess to the Y. W. C. A. delegates, while State College will entertain about forty Y. M. C. A. representatives that are expected to attend this intensive training school.

The main purpose of the student officers' training conference has been to prepare the new association officers for the tasks that they have assumed for the coming school year. A larger objective and program are considered in detail. This joint conference grows out of the feeling that a more effective work may be done by the college associations if the Y. M. and Y. W. C. A. groups will work together, not only in purpose, but in conference.

A committee with representation from N. C. C. W., Duke, Meredith, Carolina, and State met in Raleigh at the State College Y. M. C. A. building Saturday afternoon and set up the general plan for the conference. Mr. Platt of State College, and Miss Hatcher of N. C. C. W., presidents of the North Carolina students' Y. M. and Y. W. C. A. officers' training conferences, respectively, had charge of the meeting.

Registration for this conference will be handled in the college Y. M. C. A. —Continued on page 2.

EASTER NOTICE

Due to the fact that the Easter holidays begin on Friday, all material for publication in next week's paper must be in the Technician office by 6 o'clock Tuesday.

R. R. FOUNTAIN.

ALL-FOOLS' TECH CONSIDERED BEST SO FAR PRODUCED

Congratulations Have Been Received From Several Outside Newspapers

A FEW ARE DISGRUNTLED

Staff Reports An Abundance of Material For Another Such Issue

If one may judge from the information leaking in from far and near, the All-Fools' Technician was the best yet produced.

Congratulations have already arrived from several out-of-town subscribers, and much favorable comment has been heard on the campus.

There have been a few disgruntled ones who believed that the publicity which was accorded them was quite beside the point, and particularly of the nature of an injustice; but upon further reflection they have, outwardly at least, become reconciled and are pursuing their respective vocations as before.

Perhaps the greatest joke was at the expense of the School of Science and Business. Since each other school in the college had its "day," and a period of publicity, it was decided to dedicate the All-Fools' issue to that school. The News and Observer came out with a very nice and fairly complete criticism of the foolish issue, and closed by remarking that it was put out by the School of Science and Business.

The staff reports that there was an abundance of material for another issue, and claims that the paper was much better because of the variety and amount of material, which necessitated discarding much that was good.

The habit of putting out a fools' issue is becoming widespread. Several papers have come to the office from colleges in all parts of the country, and they are almost universally good.

It would seem that college editors, while preaching decency and law and order, have gradually accumulated a supply of satire that must have an outlet. Probably the date of April 1 provides an ideal safety valve for that purpose.

OWEN TO ATTEND MEET REGISTRARS FIRST TIME

Annual Convention Will Be Held at Atlanta From April 12th to 14th

The Atlanta convention of registrars has sent out notices of its annual convention, which will be held in the Henry Grady Hotel, Atlanta, Tuesday, April 12, through Thursday, April 14.

Mr. E. B. Owen, Registrar of N. C. State College, will attend the convention. He is expected to leave Raleigh about 4 o'clock Monday morning. This will be Mr. Owen's first appearance at the convention, as he has been unable to attend before, on account of its being held so far away. Last year it was in Minneapolis, and the year before at Boulder, Colo.

North Carolina has been represented by Dr. Wilson, of Chapel Hill, and by Dr. Paschal, of Wake Forest.

Mr. Owen is expecting a big time, for one statement he made was, "We do not expect it all to be work, but instead are looking for a pretty enjoyable time." He said they were to be entertained at Agnes Scott and would also go on a few excursions.

This convention is held to discuss the registration and attendance of the colleges.

The representatives attending the convention are separated into groups representing their particular type of school. The Engineering representatives are in one group. The Agricultural representatives are in another, etc.

This annual convention, however, is held for all the colleges.

Usually these conventions are held in or farther west than Chicago. Mr. Owen stated that they expected an attendance of about 250 this year. He expects to return Friday evening.

DR. RICE GIVES THE FOURTH PHI KAPPA PHI TALK

Talks on the Relations Between Chemistry and Various Forms of Life

USES SUGAR AS EXAMPLE

Popular Science Lectures Gain in Popularity as Course Continues

Dr. F. E. Rice, Professor of Biological and Agricultural Chemistry, gave the fourth lecture of a series of scientific lectures in the Y. M. C. A. auditorium Wednesday night. This series of lectures is being sponsored by the Phi Kappa Phi, a national honorary scholastic fraternity.

Dr. Rice's lecture explained the relations existing between chemistry and the various forms of life. He told his audience that the bodies of all plants and animals from the most perfect chemical laboratories and the chemist in charge is "life" itself.

All the tissues of our bodies are made up of substances in no way unique, but the combined effort certainly is unique. Many of the reactions which take place in the body can be made to work in the test tube. When blood is placed in a test tube it can be demonstrated that it takes up oxygen, and becomes poisoned by carbon monoxide. This is exactly what happens in the blood vessels.

When sugar is consumed it produces the same amount of heat and forms the same product as when it is burned under the action of a boiler. The principal foods of the body are fats and sugars, and by experiment it has been possible to determine that athletes do their best work when sugars are being burned by the body. It is said that the Cambridge crew gained a victory over the Oxford crew on one occasion when they had been given brown sugar to eat just before the race.

In many instances the chemist regulates the activities in his laboratories to a marvelous degree. Let us take as an instance of this the apple tree. The chemist protects the immature fruit of this tree by putting glucose into the young apples, much to the pain and chagrin of many enterprising young orchard raiders. As soon as the seeds within the apple are mature —Continued on page 2.

SECOND P. E. SHOW TO BE HELD ON WEDNESDAY

All Students Taking Phys. Ed. Required to Take Part in Demonstration

On Wednesday, April 13th, the Physical Education Department will stage their annual demonstration in the Frank Thompson Gymnasium at 7:30 o'clock. The demonstration will be put on by the students in the various Physical Education classes, and each group will be under the leadership of its director.

Last year the demonstration met with marked success, and the department is planning on making it a larger and better affair than last year. There will be ten feature divisions on the program, the last of which is to decide the intra-mural wrestling championship of the college. All phases of the work will be shown, beginning with marching tactics and ending with boxing and wrestling.

All students taking Physical Education are required to take part in the demonstration, and are also required to be at the practice period to be held in the gymnasium Monday night at 7:30 o'clock. There will be no gym classes on Monday or Tuesday on account of the practice, nor will there be gym classes on Wednesday and Thursday because of the demonstration. Absence from the practice period or from the demonstration will count as regular class absence and will count as such, so says Coach Drennen.

The program is as follows:

1. Marching Tactics — 9 o'clock Monday and Wednesday.
2. Dumb-bell Drill — All 8 o'clock classes.

—Continued on page 5.

Hats In Political Ring For Student Offices Next Year

ANNUAL SQUAD DRILL A COLORFUL AFFAIR

Plan to Give Prizes in Future to Best Drilled and Best Appearing Military Students

The annual squad competition drill of the Cadet Regiment at N. C. State College was held April 7, on Red Field. The drill was a very colorful affair, since the squads participating were composed of the best drilled men in the regiment. Each year these drills take place and year after year the competition becomes stronger and stronger. This year the judges were able to render a decision only after a very careful consideration, since the margin between the three squads was only three points.

Each year the theatres of the city make possible prizes, which are in the form of passes. This year the squad from the second battalion, commanded by Corporal J. H. McKinnon, won first place, and as a result this squad, composed of the following men, L. M. Crawford, A. B. Queen, H. D. Pinkston, H. W. Bell, G. G. Forms, H. E. Pearce, and A. G. Kanipe, will have their choice of the passes which the following theatres have donated: The Grand, the Superba, and the Capitol.

The judges who officiated were Col. J. W. Harrelson, Capt. A. S. Quintard, R. W. Smith, W. E. Vernon, and Cadet Colonel H. G. Lee, commanding officer of the regiment.

The officers who are stationed at N. C. State College and who are associated with Major C. C. Early are the ones who brought about the admirable showing the regiment has made since they took command.

In the future Major Early plans to give prizes to the best drilled men, and to those who show the best military appearance. In this way he hopes to further improve the standard of the regiment.

DERIEUX TALKS ATOMS THIRD LECTURE SERIES

Points Out Importance of Atom and How World Is Dependent on It

The third lecture of the Phi Kappa Phi series was held in the Y. M. C. A. auditorium on Wednesday night, March 30. This lecture was given by Professor J. B. Derieux, professor of Theoretical Physics.

Professor Derieux, in the course of his lecture, pointed out the vital importance of the atom. No matter what substance we may examine, we find that its very existence is dependent on the atom.

The atom has been spoken of for many years, its relative importance has been discussed and rediscussed, but it is only within recent years that anything of any material value has been discovered. At one time it was thought that the atom was the bottom rung on the ladder, as we might say, but since then it has been proved that the atom consists of still smaller bodies. These bodies have been named electrons by our physicists.

Many interesting calculations have been made as to what power could be attained if the atom could only be separated.

At the end of the lecture a film was shown, depicting the probable structural formations of the atoms in various substances.

DUNLAP AND KILGORE TO DEBATE FARMVILLE TEAM

R. H. Dunlap has been selected to represent State College along with W. B. Kilgore, in a debate with Virginia Teachers College, Farmville, Va.

Dunlap, a sophomore in the School of Science and Business, will take the place of R. R. Fountain, who was one of the original team chosen. Fountain has found it impossible to take part in the debate because the date, May 6, conflicts with the date of the State College Press Association, at N. C. C. W. The debate will be held in the auditorium of the high school, Portsmouth, Va.

Candidates Presented to Members Student Body at General Assembly Period in Pullen Wednesday; Election To Be Held Tuesday, April 12, Somewhat Later Than Usual; Norris Athletic Trophy Election To Be Held at Time of Final Balloting.

The lid of the political pot flew open with a bang Wednesday at noon when the candidates for the important student offices for next year were assembled in Pullen Hall and presented before the critical eye of the student body.

The array of candidates represented the nominees for Student Government and Y. M. C. A. officers, and for editors and business managers of The Technician and The Wataugan. The occasion was the weekly assembly period, which was turned over completely to the introduction of candidates.

J. F. Matheson, president of the student body, presided, and explained the importance of the coming elections.

It has been the custom heretofore that the elections should be held late in March and early in April, but this year they are somewhat later. The primary election will be held Tuesday, April 12, and the final election will be held two weeks later, on April 26, according to the time required between the primary and final election.

Because of this lateness, it has been deemed best that the Y. M. C. A. and the publications' final election should be held at the time of the primary Student Government election. This gives the newly-elected men ample time to perfect their organizations before trying their wings later in the year. The Technician's new staff will assume full control of the paper beginning with the first issue in May.

In the primary Student Government elections the object will be to choose the highest scoring men, which will then be run in the finals.

The voter should vote for four seniors for Student Council officers. The two highest will contend in the final election for president, while the next two highest will contend for vice-president, which offices embrace also the presidency of the House of Student Government.

The voter will vote for only two juniors for the places of secretary and treasurer. The two highest will be run off in the final election for secretary, while the two lowest will be run for treasurer.

—Continued on page 2.

EASTER DANCES TO BE HELD IN GYM APRIL 18-19

Three German Club Dances and Annual Pi Kappa Alpha Social Comprise Spring Program

One of the biggest social events of the year at State College will be the Easter dances to be given in the Frank Thompson gymnasium, beginning Easter Monday. The final German Club dance will be on Tuesday night. The morning dances will begin at eleven and last until one o'clock, and the evening dances will begin at nine and last until one o'clock. The German Club will give a dance Monday and Tuesday mornings and Tuesday night. The Pi Kappa Alpha dance will be given Monday night. Naylor's orchestra will furnish the music for these dances.

The Pi Kappa Alpha fraternity will give its twenty-third dance. This, no doubt, will be one of the most outstanding social events of the spring season, and is not only looked forward to by students, but by the entire younger set throughout North Carolina.

The dances will be led by Miss Katherine O'Donnell and E. A. Feimster. The music will be furnished by Oliver Naylor's Seven Aces.

It was in 1904 that the dance was first given and it has been given every Easter Monday since that date. It originated as the result of an agreement made by all the fraternities on the campus at that time to have a dance some time during the year, but the Pi Kappa Alpha dance is the only one that has survived.

Engineering Council Plans An Engineers' Book Store

At a special meeting of the Engineer's Council Thursday evening, Treasurer "Billy" Denton made a report on the expenditures for Engineer's Day.

With only a few unpaid bills the report showed there had been expended to date for parade \$91.77, for the "Grand Brawl" \$209.70, for publications and advertising \$117.50, and for incidentals \$25.86; a total of \$444.83. Denton announced that all committee chairmen had kept within their budget estimate and that the final report would just balance. President John Anthony expressed himself as well pleased with the manner in which the finances had been handled and also that the engineering students had volunteered to pay the fee that made the celebration possible.

A move of considerable importance to engineering students and in fact to all students eventually, was made in the appointment of a committee to investigate and report on the organization of an engineer's book store, to be operated on the cooperative plan. The committee is composed of the four members of the Council remaining in college next year: P. E. Trevathan, chairman; "Mac" Greaves-Walker, G. B. Hall, and Sam Rowe.

It was brought out in the discussion of the subject that there was a growing dissatisfaction among the engineers with the present text-book prices on the campus and considerable objection to members of the faculty interested in the local book store profiting at the students' expense. As the Engineer's Council at a number of other technical schools have been successful in organizing book stores it was thought it could be done here. It was suggested that the committee present plans for starting on a small scale, at least, next year.

President Anthony called the attention of the presidents of the societies to the article in the constitution of the Council requiring members of the new council to be installed in May. This makes it necessary for the six technical societies to elect new members at their April meetings.

PARTICIPANTS IN ORATORICAL CONTEST ARE CALLED FOR

All Seniors Who Wish to Enter Contest Should See Professor Cunningham Now

All Seniors who plan to participate in the Senior Oratorical Contest at Commencement should get in touch with Professor Cunningham at once.

Each of the four schools is entitled to have a representative in the contest, but last year only Agricultural, Science, and Business had candidates for oratorical honors who were ambitious enough to get ready for the contest.

The rules adopted by the Faculty Council are:

1. That only those men who are in residence during the third term of the college year shall be eligible to compete.
2. That there shall be one representative from each of the four undergraduate schools of the college.
3. That each speaker shall deliver an original oration between fifteen and twenty minutes in length, upon a subject preferably pertaining to his vocational major.
4. That instruction in the composition and delivery of this oration shall be under the supervision of the head of the Public Speaking division of the Department of English.
5. That on or before April tenth the instructor in Public Speaking shall submit to the dean of each school the names of those students who have signified their desire to compete for the medal as representative of the school.
6. That on or before April twentieth each dean shall indicate to the instructor in Public Speaking his disapproval of any candidate whom, for any reason, he does not desire to have represent his school.
7. That, in the case of each school which has two or more candidates, a preliminary contest shall be held not later than May tenth, to be judged by three members of the college faculty other than the instructor in Public

Best Articles in Issue of March 26

The honor for having the best article in the issue of March 26, and for winning four passes to the State Theatre, goes to B. A. Sides for his story, "Hampton Quartet Sings in Pullen Hall."

Second honor and two passes goes to F. E. Plummer for the story, "Textile School Follows Suit and Holds Conference."

OBERHOLZER, STRAUGHAN, ROGERS REPRESENT STATE

Pi Kappa Delta Convention at Spartanburg Friday and Saturday Attended by Local Men

State College will be represented in the province convention of Pi Kappa Delta, to be held at Wofford College, Spartanburg, S. C., April 8 and 9, by H. J. Oberholzer, C. L. Straughan, and H. H. Rogers. C. L. Straughan, and Professor Cunningham, province governor of the South Atlantic Province, No. 11.

Friday afternoon the first business session will get under way, while Friday night the province championship debate will be held, at which time State will debate Presbyterian College of South Carolina. Straughan and Rogers will represent State in this debate.

Saturday afternoon the South Carolina Alpha Chapter will conduct the model initiation. Saturday night, in the chapel of Converse College, the province championship oratorical contest will be held. Oberholzer will represent State in this contest.

The participation in this contest will mark the second road trip of the representatives of the local department of public speaking, and it is anticipated by Professor Cunningham that the Spartanburg meeting will prove to be the best held by the province convention in several years.

Speaking, the winner to represent the school involved.

8. That designation as valedictorian shall not debar a student from competing in the contest, but that, in the event that the valedictorian shall qualify for the oratorical contest, he shall deliver the valedictory address on the occasion of the contest after the judges have prepared their ballots, but before the result has been announced.

9. That the final contest for the medal shall be judged by three prominent men chosen by the Commencement Committee.

Men and Women "Y" Workers Meet At State

(Continued from page 1)
The Norris Athletic Trophy election will be held at the time of the final election.

that same evening. David Porter will probably give the opening address on the objective of the association. This will be followed by open forum discussion. The conference will close with the 11:00 o'clock session on Sunday morning.

All concerned consider this joint conference a great step in the right direction. State College is glad to realize that the first combined Y. M. and Y. W. C. A. student officers training conference for North Carolina is to be held here, and it will welcome the entire delegation warmly.

JUDGING FRATERNITY HOLDS INITIATION

Monday night, March 28, the Lambda Gamma Delta, national honorary judging fraternity, held an initiation in Ricks Hall. The initiation was conducted by faculty members who were members of this fraternity. After the formal initiation, sandwiches, fruits, and hot chocolate were served.

The following men were initiated: R. S. Gaston, R. W. Zimmerman, F. S. Sloan, W. M. Ginn, R. W. Shoffner, J. G. Barnhardt, B. A. Sides, D. C. Worth, W. A. Alexander, M. O. Pleasants, W. W. McCulloch.

Dr. Rice Gives Fourth Phi Kappa Phi Talk

(Continued from page 1)
ture, however, many changes take place, undoubtedly designed to attract animals to the end that the seeds may be scattered. The poisonous glucoside is gone, as well as the ill-tasting tannins, and instead of tasteless starch, we have sugar. The peel itself is changed from green to red, or some other glaring color.

All the marvelous instances which we can observe in our everyday life gives indication that there must be some force outside of the mere material bodies that is capable of directing the workings of life's laboratory.

What life actually is we may never know. The chemical laboratory is probably understandable, but not the chemist. That the chemist is greater than his laboratory is evident from the fact that he is not destroyed when reactions cease.

The lecture was attended by a large crowd, including members of the faculty, students, and visitors.

Hats in Political Ring For Student Officers Next Year

(Continued from page 1.)
The names of the nominees follow: For president and vice-president: Sam Rowe, Jeff. C. Davis, Fred C. Davis, C. S. Tucker, J. W. Shuford, O. N. Henley, and Z. B. Mangum.

For secretary and treasurer: J. B. Hips, H. H. Burroughs, W. P. Albright, and C. R. Marley.

Below is given a complete list of all the newly-elected Council and House members:

Council Members
Seniors: Sam Rowe, Eng.; Jeff. C. Davis, Eng.; Fred C. Davis, Eng.; C. S. Tucker, Sci. and Bus.; Joe Shuford, Sci. and Bus.; O. N. Henley, Agr.; Z. B. Mangum, Tex.

Juniors: J. B. Hips, Eng.; H. H. Burroughs, Sci. and Bus.; W. P. Albright, Agr.; C. R. Marley, Tex.
Sophomores: D. E. Jones, Eng.; R. S. Dunham, Sci. and Bus.; E. T. Frisbie, Agr.

House Members
Seniors: C. B. Penny, Eng.; P. E. Trevathan, Eng.; C. W. Jackson, Sci. and Bus.; H. T. Gheesling, Eng.; T. L. Moose, Agr.; C. A. Ridenhour, Tex.; W. P. Phillips, Sci. and Bus.
Juniors: K. P. Haywood, Eng.; Howard Ellis, Eng.; George L. Johnson, Eng.; Augustus Parker, Sci. and Bus.; P. N. Coley, Sci. and Bus.; J. C. Cathy, Agr.; T. R. White, Tex.

Publications Editors and Managers
The names of the publications' editors and business managers are as follows:

For editor of The Technician: C. Z. Bailey, W. L. Roberts, and S. V. King. For business manager: A. N. Greene and G. P. Dickinson.

For editor of The Watchman: J. M. Riley and A. L. Aydtett. For business manager: H. J. Carr and H. H. Burroughs.

The staff of The Agromeck is chosen by the incoming Senior Class. The names of the Y. M. C. A. nominees were carried in the issue of March 26.

"Daddy" Price's Charges Make Successful Tour

(Continued from page 1)

pleased with the yodeling of "Eppie" Debnam and Harry Wescott.

Last night at Siler City the bass solo by McRackan and the piano duet by Henry Sang and John Cole made a big hit.

"The Reunion of the Tramps" by the quartette made the audience rock with laughter and promptly demand more of the same type. This was true of every town visited on the tour.

People throughout the State, who have heard the State College music makers on previous tours, proclaim the spring tour of 1927 to be the best yet.

The Orchestra played "Raymond's Overture," "Egmont," and "Huldigung's March." They were repeatedly encored and in response played many popular numbers.

The trip being made by bus limited the number to thirty. The fortunate members that made the trip were: C. W. Overman, J. M. Britt, R. H. Harrill, F. M. Strickland, J. E. Debnam, W. D. Kendall, Stephen Walsh, J. T. Byrum, E. J. Nesbett, B. S. Linville, A. H. Freeman, H. T. Wescott, W. R. McRackan, E. J. Groves, L. V. Low, O. S. Haynes,

AGRICULTURIST STAFF NAMED

The following men have been nominated for the Agriculturist staff for the coming year:
Editor—F. S. Sloan, J. C. Tomlinson.

Managing Editor—H. H. Wooten, J. B. Britt.

Business Manager—J. D. McColl, C. R. Ammons.

There will be a short meeting of the Agricultural students in the Y. M. C. A. immediately after lunch Monday, April 11, for the purpose of electing the staff. All Agriculturist men are urged to be there.

H. J. Sang, L. W. Haywood, Hymna Shachtman, A. E. Lanier, R. W. Horvell, G. M. McCown, J. A. King, J. C. Matthews, V. L. Taylor, L. C. Enwick, A. C. Hollowell, J. F. Cole.

Tonight the Glee Club and Orchestra are to finish their semi-annual tour at Gibsonville. They are expected to return to Raleigh some time tomorrow.

"Daddy" Price is well pleased with the tour, and is looking forward to an even bigger and better tour next fall.

Doakmen Drop First Major Game to Deacons 2-1 Score

World War Memorial Stadium at Greensboro Scene of State-Wake Forest Clash; Beal and James Engage in Pitching Duel, Each Allowing Six Safeties.

Chick Doak's nine dropped their first major game to the Deacons of Wake Forest last Tuesday by the score of 2 to 1. The game was played in the World War Memorial Stadium in Greensboro. Ralph James, Deacon hurler, dedicated the stadium by knocking the first home run in the new park and won his own game in the fifth inning.

The Deacons established a lead in the third frame when Lassiter walked, stole second, and scored on Holt's long single to right centerfield. James poled a homer in the fifth inning to make the score 2-0. The Doakmen were unable to score until the ninth, when Tommy Harrill doubled to center, took third on an infield out, and scored on a passed ball.

James had a slight edge on Beal. He fanned six State diamond men and showed almost perfect control by walking only one man.

JACK McDOWALL

Jack broke his own State record in the high jump by clearing the bar at 6 feet 1 inch, and also established a new college record in the broad jump, leaping 22 feet and 1 inch, in the meet with Davidson last Saturday.

METCALF ASKS AGS. TO HAVE BETTER SPIRIT

Dr. Z. P. Metcalf, director of teaching in the School of Agriculture, recently called a meeting of all agricultural students to encourage a better spirit in the Agricultural School.

Dr. Metcalf, along with Dean Schaub, made a short talk in which he stressed scholarship and the activities of the students as a whole.

SIGMA TAU BETA WINS TITLE FROM CHI TAU 24-6

Inter-fraternity Basketball Championship Decided After Hot Contest

After a long and hotly contested season the tenacious hardwood quint representing Sigma Tau Beta fraternity annexed the championship inter-fraternity title by defeating the speedy Chi Tau outfit Tuesday night, 24-6.

These lads opened the season with a bang and gained strength and momentum as the season progressed. Their performance on the floor in the championship contest would have done credit to any aggregation of less than A-grade college rank.

The game was speedy from the opening whistle, and the Chi Taus were not able to score during the entire first half.

The whole team of winners were stars, but if there was one of individual brilliance it was the diminutive C. G. Goodman, who was all over the floor, dropping a long-range fire that was destructive to the hopes of his opponents.

Grant and Davis starred for the losers.

SOME DOPE ON PENN STATE BASEBALL TEAM

Penn State baseball candidates have been practicing daily under the direction of P. H. Page, captain and pitcher, since the fifteenth of March.

Coach Hugo Bezdek is laid up with an infected left and hasn't been able to get out to watch the workouts as yet. He hopes to get up to the field before the start of the southern trip, April 11.

Bezdek keeps in touch with the team and its progress by means of Captain Page, members of the squad, and assistant coaches who drop around to see him daily.

The probable first team line-up will be Harrington or Lesko catching; Page, Styborski, Ken Haines, or Van Atta in the box, all men having had at least two years of diamond experience.

Harris, another veteran, on first; Dohbelaar, a likely looking sophomore, at second, and Kent and Cy Lungren at third and short. Both last named men are juniors and played as regulars last year. Lungren is a seven-letter man and played three sports while a freshman.

Delp, Monahan, and Buchanan will be the probable candidates for the outfield positions.

"Y" GIVES FREE SHOW TO STUDENTS ONLY MONDAY

Next Monday night, at 6:30 and 8:00 the Y. M. C. A. will put on a free picture show. Admission is limited to students.

The show will consist of a two-reel F. B. O. comedy, entitled "Egged On," and a five-reel drama, entitled "The End of the Road."

The latter picture is distributed by the American Social Hygiene Association and has been extensively shown in colleges throughout the United States. The following description is given of this picture:

"The aspects of social hygiene which most concern the young and skillfully handled in this dramatic film, which contrasts vividly the home atmosphere and training of two girls, their consequent ideas of love and marriage, and experiences along the 'road' of each. The story at once grips attention and the situations throughout are full of interest and realism. Much information and counsel for conduct are effectively imparted by the picture through being interwoven with the plot and excellent portrayal of character makes a strong appeal to youth's best impulses and aspirations toward the finest manhood and womanhood."

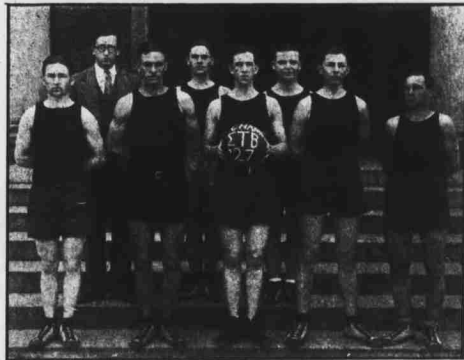

Believing this picture to be worth while, the Y. M. C. A. has gone to considerable trouble and expense to book it.

"It's easy to see that Jones is one of the newly rich."

"How's that?"

"Every time he stays out of his limousine he forgets and looks for the meter."

SIGMA TAU BETA WINNER INTER-FRATERNITY SERIES

These huskies have had a long fight before reaching their place of serene rest on the pinnacle. Left to right, back row, Manager B. C. O'Quinn, H. M. Luck, C. R. Ammons; front row, A. R. Jackson, C. J. Goodman, T. D. O'Quinn, R. G. Johnson, and C. G. Goodman.

Track Team Wins First Set-To-From Davidson By Large Score

McDowall Breaks On Record for High Jump and Also Local Record in the Broad

In the initial track meet of the season "Doc" Sermon's cindermen trimmed the Davidson Wildcats by the score of 51-42. The State men were especially strong in the distance runs, hurdles, and jumps, while Davidson showed up well in the century and twenty.

The Technmen took eleven first places and six seconds, while the Wildcats were held to three first places. Jack McDowall broke the State record in this high jump by bettering his old State record by a quarter of an inch. The record is now six feet and one inch.

Currie, McDowall, and Gorham were the high scorers in the meet, having scored ten points each. Currie, of Davidson, was the outstanding performer for the visitors. He won both the century and 220.

Summary:
100-yard dash—Currie (D), Sides (S), and Goodman (S). Time, 10 $\frac{3}{4}$.
120-yard high hurdle—Gorham (S), Sims (R), and Brown (D). Time, 17 $\frac{3}{4}$.
220-yard dash—Currie (D), Melton (S), and Sides (S). Time, 22 $\frac{3}{4}$.
Two-mile run—Nance (S), Treverton (D), and Kendrick (S). Time 10:50 $\frac{3}{4}$.

QUALIFICATIONS OF "Y" MAN BEEN DETERMINED

Committee on Nominations Has Named Two Men For Each Cabinet Position

As the time for the annual election approaches it may not be amiss to ask, what are the qualities that fit a man to be an officer of the Young Men's Christian Association? Perhaps no two men would make the same list of qualifications. The following list is given in the hope that it will start every voter to thinking. Let every voter who reads this make a list of his own.

- The officers of the Y. M. C. A. should be:
1. Men with a religious passion.
 2. Who will put the Association first among their voluntary activities.
 3. Good students.
 4. They should have leadership.
 5. They should be willing to learn from others more experienced.
 6. If at all possible they should attend the Blue Ridge conference.

A representative nominating committee has nominated two men for each office. The responsibility of saying which four of these men are best fitted to fill the four offices of president, vice-president, secretary, and treasurer rests with the student body.

LAST OF TRIAL ISSUES

This week's sheet is the last of the issues which have been put out by the candidates for editor-in-chief of The Technician in the coming election.

W. L. Roberts acted as editor in publishing the issue of March 19, while S. V. King edited the issue of March 26. This edition was edited by C. Z. Bailey.

Every voter should give careful thought to this matter. The nominations are:

For President—J. B. Britt, C. L. Straughan.

For Vice-President—Jeff C. Davis, H. M. Stott.

For Secretary—E. C. Conrad, R. I. Mintz.

For Treasurer—U. G. Hodgins, A. B. Holden.

The election will be held along with the Student Government election. Members of the faculty, as well as the students, have the privilege of voting for Y. M. C. A. officers.

FROSH WORK FOR BERTHS ON SPRING SPORT TEAM

Fifty Hopefuls Working For Positions on Yearling Nine; Few Places Cinched

For the past three weeks Coach Tebell has been whipping his freshman baseball charges into shape for their first game of the season here Monday, against the Wake Forest "rats."

With a squad of over fifty men to choose from, Tebell has cut the number down to thirty prospects, all of whom have shown that they can produce the goods.

There are five men who are aspiring to do the hurling, among whom are Wicker, Shore, Fred Plonk, Cole, and Smathers. Warren, Zeb Plonk, and Evans are in line to do the receiving, with Barnes, Preeze, and Aderholt trying for the position at the first sack. Hanks, McDaniel, and Upchurch are trying out for second, and Fairley is the only regular aspirant for the hot corner. Adams and Price are contesting for the short-stop place. There are six men who are looking towards the outer gardens for berths on the team. Morgan, Parham, Snipes, Clark, Jackson, and Freeman are the six hopefuls.

The team last year was fairly successful and Coach Tebell plans on making the grade this year. The team is doing well afield, but is weak at the bat. However, with a little more practice the batting is expected to improve.

Kampus Komiks

By DINKIE

We are not pessimistic, but we would much rather hear people use the word "tropical" as a descriptive adjective than "hot."

"Water, please bring me a dish of prunes!"

"Stewed?"

"Shut your mouth and get the prunes."

"May I hold your hand for a second?"

"How will you know when the time is 'Oh'?"

"Give me your order, sir?"

"You remind me of my mother—"

"No!"

"Yes. She told me not to be seen with you."

Doctor—Old man, you drink too much. Why don't you set a limit for yourself?"

Stewed—I do, Doctor, but the trouble is I get drunk before I reach it.

He—Please.

She—No.

He—Oh, please.

She—No.

He—Oh, please do.

She—Positively no.

He—Oh please, just this time!

She—I said no.

He—Oh, Ma! All the boys are going barefooted!

He—I'd like to propose a little toast.

She—Nothing doing, kid; I want a regular meal.

They had quarreled.

"Here are your letters," said the girl, "and here is your ring."

"Give me back my kisses," demanded the youth.

And that ended the quarrel.

Waiter—What's your order, sir?

First College Man—A demitasse, please.

Waiter—And yours?

Jingle this—

Hall

Tall

Miss

Kiss

Second Dumb-bell—I'll take the same thing, and a cup of coffee.

"Say, nigger, is that soot on your collar?"

"G'wan, man; dat's dandruff."

"What is your idea of entirety?"

"Holy Mackerel!"

Some professors have no favorite; they flunk everybody with equal grace.

CERAMICS SOCIETY ELECTS OFFICERS FOR NEXT YEAR

The State College student branch of the American Ceramic Society held a meeting for the election and installation of officers for next year on Tuesday evening, in the ceramics building. As a result of the election A. McK. Greaves-Walker is the new president, W. L. Stafford vice-president, and J. E. Boyd secretary-treasurer. Greaves-Walker and P. E. Trevathan will be the society's representatives on the new Engineers' Council.

The election was followed by a program with P. E. Trevathan as the principal speaker. Trevathan described in a very interesting manner his work last summer at Salina, Pa., where he assisted in the construction of one of the most modern refractory plants in the country. D. L. Stuckey followed with a talk on the formation of coal, calling attention to the fact that in the Dismal Swamp, in the northeastern part of the state, coal beds were in the process of formation at the present time.

The program was followed by the installation of the new officers and the commendation, by Professor Greaves-Walker, of the work of the retiring officers during the past year.

The May meeting, the last of the college year, will be in charge of the seniors.

STATE STUDENTS HEAR LECTURE AT DUKE U.

Twenty-seven State College students, accompanied by Professors Heck, Rogers, and Dixon, journeyed over to Duke University Monday night, March 28, to hear Dr. Frost's lecture on astronomy. Dr. Frost, who is a widely known astronomer from Chicago, delivered a very interesting as well as instructive lecture that was greatly enjoyed by all present. He proved to his hearers, beyond a doubt, that he has wonderful understanding of the heavenly bodies.

The party received a hearty welcome from the Duke men, and were invited to attend anything that might be of interest to them in the future.

Modern smoking pleasure that never fails

THE smokers of this age are the most independent ever known. Accepting no hearsay, they have smoked out the facts. They have learned that the choicest Turkish and Domestic tobaccos grown are rolled into Camels, that here is the incomparable blending for goodness, that Camels simply never tire the taste.

Camel is the cigarette that never fails to please the modern age. Regardless of how often you want the comfort of a smoke, of how steadily you light one after another, Camel

will never fail you, never give you any but the finest thrill of smoking pleasure. This is why Camel's popularity, by far the largest in the modern world, keeps overwhelmingly in the lead. As modern taste becomes more insistent upon choice tobaccos, increasing millions discover Camel's incomparable mildness, smoothness and mellowness.

If you want the cigarette that's good to live with from morn to mid-night, the one that is the choice of the modern age, "Have a Camel!"

RUNNING WOLFLETS SHOW PROSPECTS FOR TEAM

Freshmen Cindermen Round In to Shape by Eve of First Meet; Good Material Discovered

The freshman track squad is rapidly rounding into shape for their first meet of the season this afternoon with the strong Campbell College team. Campbell College has already won three meets, two from Fayetteville and one from Raleigh High.

At present there are around forty men out for the thirteen events, the following of whom have shown up well in the try-outs:

Jordan, Koonce, and Silver are running the century dash, while Jordan, Silver, and Cox are slated to do the 220-yard dash. In the 440 Morgan, Mullinane, and Johnson have won places in the try-outs. Ottinger, Eubanks, and Johnson are scheduled to run in the quarter-mile run. In the two-mile run there is Alexander, Redfern, and Bullard doing the daily grind, with Ford, Yount, and Simerson doing the mile. Swain, Haws, and Griffin are going the 120 low hurdles, and Weltmer, Swain, and Daugherty are running the 220 high hurdles.

White, Patterson, and Cox are throwing the javelin and Ash and two others, whose names could not be learned, are doing the broad jump. Johnson, Vaughn, and Lee are doing the pole-vaulting, with White, Brittain, and Morgan high jumping.

Last year's freshman track team won the State championship and local fans are looking to the team to repeat the performance of last year's team.

Second P. E. Show To Be Held On Wednesday

 10. Boxing and Wrestling.

ANNUAL A.H. FEED TO BE HELD NIGHT OF APRIL 14

The Animal Husbandry Club has decided to have its annual feed on Wednesday night, April 14. This is an annual affair, and is looked forward to by all the members of "The Order of the Scrub Bull" as one of the high lights of the college year.

It is to be a stag affair, so the boys and professors may eat, smoke, chew, and tell jokes to their heart's content.

The A. H. Department is going to furnish the materials and the students are going to put it in edible form. Therefore, the students in farm meats and dairy manufacturing will have the chance to display their

knowledge of changing raw meat and milk products into luscious eats. Plenty of eats, drinks, and smokes are assured, and all members of the club are expected to be there.

TURNER TO LECTURE ON THE SITUATION IN CHINA

Wake Forest Graduate Gained First-Hand Information by 14 Years Residence in East

Mr. Eugene A. Turner, secretary of the Y. M. C. A. in China for fourteen years, will address the College assembly next Wednesday, April 13th.

Mr. Turner is a graduate of Wake Forest and was a star baseball pitcher during his college days.

After graduation he became secretary of the Y. M. C. A. at Georgia Tech, where he carried on a splendid work and became very popular with both students and faculty.

While in China Mr. Turner has been stationed at Honkow and Shanghai. His fourteen years residence in China has given him an intimate acquaintance with conditions there. He knows a number of the Nationalist leaders personally.

At this time when China holds the interest of the entire world, it is very fortunate that State College students will have the privilege of hearing a lecture on "The Chinese Situation" from a North Carolinian who has lived there and who has first-hand information.

Mr. Turner has a host of friends in Raleigh who will be delighted to see him again.

Mr. C. W. Stanford, B.S. 1917, is farming at Teer, N. C.

Alumni Notes

Observations and Communications of
ZIPPY MACK

The Wake County Alumni say that the college is not getting enough publicity. Get out and cut a few more hairs, fellows.

The members of the spring football team and the athletic staff were guests at a banquet last Thursday night given by the Wake Alumni in the college dining hall. Due to the type of guests, the program assumed an athletic character, although the inevitable finance came in for discussion.

Mr. Sidney Hill Hamrick announces the marriage of his daughter, Bernice, to Mr. Clyde Roark Hoey, Jr., Tuesday, April 5, 1927, at Shelby, N. C.

"Cigar" Hoey, son of the Congressman of the same name, is a member of the '25 Mechanicals, and was president of the student body at the time of his graduation. Mrs. Hoey is a member of last spring's graduating class at Meredith College.

Mr. and Mrs. William Hawkins Bogart, of Greensboro, announce the arrival of William Hawkins, Jr., March 25.

Mr. Bogart is a member of the '24 Textile Class, while Mrs. Bogart was formerly Miss Eunice Bowen, daughter of Mr. A. F. Bowen, Bursar of the college.

Mr. G. H. (Buck) Redfern, captain of the '23 baseball team, has been farmed out by the Detroit Tigers to the Fort Worth, Texas, team.

Mr. H. H. Gordon, B.S. 1919, is Extension Farm Engineer, N. C. Extension Service, State College Station, Raleigh, N. C.

The two most popular things in America—baseball and the moving picture—are combined in "Slide, Kelly, Slide," the STATE Theatre's latest contribution to screen entertainment, which is booked for Monday and Tuesday at the State Theatre.

One cannot only see a thrilling screen drama, but also the recent World Series, as the cameras invaded the grandstands at New York and St. Louis, and crucial plays of the nation's baseball classic form dramatic highlights for the new romance of baseball, with William Haines, star of "Brown of Harvard," Sally O'Neil, Harry Carey, Karl Dane, and other famous players.

Corinne Griffith's screen version of May Edington's story, "Three Hours," heralded as one of the strongest dramatic vehicles that has yet been given to the screen beautiful star, will begin an engagement at the STATE Theatre next week, commencing on Wednesday.

The picture was made under the direction of James Flood, with John Bowers playing the male lead opposite the star. Hobart Bosworth and Paul Ellis have important roles in the production.

The supporting cast includes Anna Schaefer and Baby Louise Miller. Paul Bern wrote the continuity for "Three Hours."

Lon Chaney, the man with a thousand faces, takes the famous Chinese love story, written by Miln, for the title and plot of his latest starring vehicle.

The story of "Mr. Wu," which comes to the STATE next Friday and Saturday, is laid in the beautiful rose gardens of China. The story is of the love affair of an Englishman and a beautiful almondeyed maiden of the Orient.

Three of Paramount's junior stars are seen in Edward Sutherland's Paramount picture, "Love's Greatest Mistake," playing at the SUPERBA Theatre Monday and Tuesday. In addition to Josephine Dunn and Iris Gray, who play featured roles with Evelyn Brent and James Hall, the director has assigned to Greg Blackton, another of the school graduates, the role of fellow architect of James Hall, the leading man. The picture is based on Frederic Arnold Kummer's Liberty Magazine serial of the same name.

"The Great Deception," playing at the SUPERBA Theatre Wednesday and Thursday, is a secret service story with the World War for a background. It is from the novel by George Gibbs called "The Yellow Dove."

The conflict from which the drama results is between representatives of the British and German secret service bureaus as played by Ben Lyon and Basil Rathbone, respectively.

These two men oppose each other because of their loyalty to the antagonistic causes which they represent, and are thrown farther apart because of their mutual admiration for the same girl, a wealthy and daring young American as represented by Aileen Pringle.

FIVE FACULTY MEMBERS OFF TO CHEMICAL MEET

American Chemical Society to Hold Meeting in Richmond Throughout Next Week

Five members of the faculty of the Department of Chemistry at State College will attend the meeting of the American Chemical Society in Richmond next week. It is expected that nearly fifteen hundred chemists from all over the country will be in attendance for the meeting, which will last through the week.

Dr. E. F. Rice, professor of Biological Chemistry at this college, will deliver a paper on "The Use of Evaporated Milk in Infant Feeding." He has conducted studies in this field for several years and will give the results of some of his work at this time. Other members of the State College faculty who will go are Dr. L. F. Williams, Dr. A. J. Wilson, Professor W. E. Jordan, and Professor G. H. Satterfield.

The meeting will include several excursions to industrial plants in the vicinity of Richmond, besides the usual presentation of research papers and the public lectures.

PHI PSI UNANIMOUSLY ELECTS COBB PRESIDENT

J. C. Cobb, a member of the Junior Class and a student in the Textile School, was unanimously elected president of Eta Chapter of the Phi Psi Fraternity Thursday evening at a Phi Psi banquet held in the New Tea Room.

Joe Cobb was formerly secretary of this organization. In the performance of the duties of this office he established a splendid record which made him the most suitable man for the presidency of the N. C. State chapter of Phi Psi.

Brooks Entertains Club

The Watauga Club was entertained at a dinner Tuesday afternoon by Dr. E. C. Brooks at his home on North Blount Street. Dr. E. W. Wells, a guest of the club, talked on the peculiarities and the value of the savannah and swamp land in Eastern North Carolina.

S.P.E. Hosts at Reception

The members of Sigma Phi Epsilon fraternity were hosts at an informal reception given in honor of their pledges Saturday evening, March 26, at their home, 216 Chamberlain Street.

The house was decorated with the coat-of-arms and the colors of the fraternity.

Those attending were: Frances Barbee, Nancy Bee Harden, Frances Handy, Katharine Harden, Martha White, Letitia Mason, Annie Moore Parker, Lula Wyan, Elizabeth Yates, Margaret Sherrill, Alma Willis, Estelle Lawson, Annabelle Webb, Bettine Parker, Dr. and Mrs. Lawson, Mrs. Mason, Mr. and Mrs. Wade Pridden, Mr. and Mrs. W. O. Hunnycutt.

Beta Upsilon Reception

Immediately following the twenty-fourth annual initiation of the Beta Upsilon Chapter of Kappa Sigma on Saturday night, April 2, a reception was given at the Kappa Sigma House for the new initiates, the Alumni, their wives, and girl friends of the members of the fraternity.

Those present were: Misses Elizabeth and Virginia Marsh, Emily Storr, Virginia Graham, Louise White, Frances Barbee, Alatacia Mason, Frances Gibson, Adna Howell, Mr. and

Mrs. A. S. Brower, Mr. Thomas Powell, Mrs. H. M. Bonner, Mrs. George Marsh, and Mrs. Kinney, all of this city.

The out-of-town guests were: Messrs. Brink Howell and Bracey Fountain, both of Tarboro; Hugh Neisler, of Kings Mountain; J. B. Siffey and Hugh Mueckenfuss, of Alpha Nu Chapter at Wofford College, and Milford Baun, of Eta Prime Chapter at Duke University.

Dancing and bridge were the chief resources of entertainment, and a delightful evening was enjoyed by all who were present.

WEDDING OF MISS BETTY HILL

A crowning event in the social life at State College was the marriage of Miss Betty Burt Hill and Mr. Marvin Ward Ferrell, which took place Sat-

urday morning at 10 o'clock at the home of Mr. and Mrs. Oscar Ray Sumner in Hayes-Barton. Rev. W. A. Stanbury performed the ceremony, which was attended only by a few friends and relatives.

Immediately after the ceremony Mr. and Mrs. Ferrell left for a short honeymoon, after which they will be at home in Durham. Mrs. Ferrell is a charming daughter of Mr. and Mrs. Kemp P. Hill, of this city, and received her education at Peace Institute and Saint Mary's School here. At State College her pleasant smile and sweet personality will be missed from the office staff of the Registrar's office. Mr. Ferrell is the son of Mrs. W. H. Ferrell, of Durham, and is connected with the Durham Realty and Insurance Company.

He went in for instruments— with a vengeance!

"What's the future with a large organization? That is what college men want to know, first of all. The question is best answered by the accomplishments of others with similar training and like opportunities. This is one of a series of advertisements portraying the progress at Westinghouse of college graduates off the campus some five—eight—ten years. Write for booklet reprinting the entire series."

H. P. SPARKES

WHEN H. P. Sparkes (Alabama Polytechnic '17) finished the Engineering School at Westinghouse he went in for instrument design. His career since then has been punctuated with solid accomplishments.

By the end of his fourth year here he had completed a thesis for his E. E. and had, at the same time, embodied the results of this thesis in an indicating watt meter—one of the largest in size ever built up to that day.

Shortly thereafter, because of his special interest in the instrument field, he was dispatched on an engineering trip abroad, visiting and working in England,

Norway, Sweden, Denmark, and France. Upon his return he entered commercial work and was assigned to the Pittsburgh territory—including such industrial centers as Cleveland, Youngstown, Pittsburgh—as specialist responsible for the sales, service, and operation of watt-hour meters, instruments, and relays in this important district. Here he will be found today, acting as intermediary between the sales force on the one hand and the engineering and factory departments on the other. He backs up the salesmen with a highly specialized knowledge. He advises with the engineers and with the factory in the design and manufacture of apparatus that is best suited to commercial requirements.

His own pioneering spirit has

still found field for play, so that this year he demonstrated to the A. I. E. E. the first advance in the method of calibrating watt-hour meters in thirty years. Some 16,000,000 tests of watt-hour meters are made in this country annually. They cost about 20c apiece. Sparkes has devised a practicable method that chops more than 50% off this bill—a tidy saving. It eliminates the human element; it gives greatly improved accuracy.

Thus his first ten years at Westinghouse—and not unlike that of other college men who bring with them, when they come here, energy, imagination, and the groundwork upon which to build superlative engineering proficiency.
