## Combined 'Y' Conference Is Being Held Here This Week

Object of the Meetings to Train New Officers for Their Duties Through Experience of Retiring Students and Acquaint Them With Phases of Work.

DELEGATES PRESENT FROM ALL N. C. COLLEGES

Meetings in "Y" Building May 6 to 8; Noted Speakers Feature Program

State College is the scene this week of the first combined men and women training conferences for the newly-elected officers of student association work being carried on in this state.

Meetings are being held in the college Y. M. C. A. building, May 6 to 8. Girls attending the conference are being entertained by the Meredith College organization; boys are taken care of by the local institution.

Formerly the conferences were held separately and this meeting is the first combined one in North Carolina. The session was begun yesterday at 4 p.m., when registration was started. At 7:30 Professor M. T. Workman led the devotional exercises. These were followed by an address by J. W. Bergthold, executive student secretary for the southern region, on "Objective and Present Tendencies in the Christian Student Movement." An open forum discussion was held at 8:30.

Various meetings and forum discussions were on the program for the work this morning. Technical phases of the work were considered.

A special feature of the conference is the supper and discussion tonight at 6:30. E. S. Turner, Hangchow, China, will speak on "Foreign Work in the Light of Changing Conditions." Open forum discussion will follow the address.

Sunday morning Dr. Le Sourd, Duke University, will speak to the delegates on "The Church and the Student."

Professor Workman will give the final address at 11 a.m. with his subject as "The Religious Worker's Personal Life and Equipment for Leadership."

The purpose of the combined conference is to train the new officers through the experience of the older representatives and to acquaint them with different phases of the work through discussion on the relative merits of the projects.

Among the speakers at the convention are Miss Margaret Sheppard, N. C. C. W.; J. W. Bergthold, Professor Workman, Dr. Le Sourd, and Harry F. Comer, U. N. C.

Delegates to the convention are present from all colleges in the state.

## PULLEN BESTS LEAZAR IN FRESHMAN DEBATE

Last of Intersociety Contests Divided Equally, as Leazar Has Best Speaker

The freshman inter-society debate was held in the "Y" auditorium on Friday night, April 29. The two societies shared equal honors in this clash, which was the last of the intersociety contests for the year. Pullen won a two-to-one decision on the debate, but E. W. Buchanan from Leazar was selected as best speaker of the evening.

The question debated was: "Resolved, That the proposed twentieth amendment to the Constitution should be adopted." This amendment would give Congress power to limit, regulate, and prohibit the labor of children under 18 years of age. The subject was ably argued from both sides. In fact, the freshmen put up a debate that would compare favorably with the upper-class debates held earlier in the year. The Leazar men had the edge in delivery of speeches, but the Pullen men had somewhat the easier side of the question, and they capitalized on this slight advantage by making their arguments clear-cut and to the point.

The debate was opened by E. P. Bass from Leazar. Mr. Bass contended that the proposed amendment is necessary because of the serious condition of child labor, and that this amendment does not interfere with states' rights.

The first speaker of the negative was written many plays that have won for him the honor of being the fore-

## ORATORICAL CONTEST WON BY H. J. OBERHOLZER

State College To Be Represented at Southern Regional Meet For Second Year

H. J. Oberholzer has again added to his honors as an orator by winning the third annual state oratorical contest which was held in the auditorium of the college Y. M. C. A. Friday night. He won a unanimous decision over R. B. Setzer, of Lenoir-Rhyne, the only other man that entered the State contest.

By winning the contest, N. C. State will be represented by Mr. Oberholzer in the Southern Regional Contest that will be held in Asheville on May 20. The winner of this meet will represent his college in the national contest, which is to be held in Los Angeles, California, in the near future.

State College was very fortunate in having W. E. Wilson entered in this national meet last year. This contest is sponsored by the Better America Federation of California, whose purpose is to arouse interest in the Federal Government.

Oberholzer, a native of Orange Free State, South Africa, told rather elegantly of the false impressions and erroneous concepts that he had of the American people and their customs before coming to the United States. He gave a colorful portrayal of the existing conditions in other countries, and contrasted them with the American government of today. He stated that the one way to make our Constitution an instrument of salvation is to show the unfortunate ones that are foundering in the morass of Bolshevism that we have the type of government that they desire.

R. B. Setzer, of Lenoir-Rhyne, spoke of the wonderful Constitution that our forefathers founded, and the great respect in which they held it. He contrasted the conditions existing then and now. He stated that there was much lawlessness and corrupt politics which are tending to break down these ideals that our forefathers fought and died for in the Revolution.

Prof. C. C. Cunningham, of the Public Speaking Department, acted as chairman. The judges were: Postmaster W. B. Duncan, Raleigh; R. L. McMillan, and A. M. Beck of Edwards and Broughton Printing Co.

## O. MAX GARDNER REVIEWS MILITARY DRESS PARADE

Prominent Alumnus is Guest of Honor at a Banquet With Alumni-Faculty

Last Thursday O. Max Gardner, of Shelby, was a guest of honor at State College. A regimental dress parade was given in his honor between 12 and 1 o'clock and Mr. Gardner addressed the faculty club at 1 o'clock. At 7:30 he attended a meeting of the local alumni chapter, held in the assembly room of the State Highway Commission.

Prof. L. E. Wooten, of the State College Civil Engineering staff, and local president, spoke at this meeting. Harry Hartsell, 1912 alumnus, also gave a talk. Mr. Hartsell has been one of the most active workers in securing endowment policy funds for the \$100,000 memorial tower for World War heroes. He gave a very interesting talk on this subject.

Members of the local chapter formed ten committees to carry on the various alumni activities and unprecedented alumni activity here is anticipated. That the State College graduates are preferring Raleigh as a home or else Raleigh is showing a strong liking for State College men, is evident by the fact that about 300 alumni of the institution reside in Wake County.

## NOTICE TO JUNIORS

Orders are now being taken at the Student Supply Store for 1928 rings. Orders placed now will be ready for delivery during registration next fall. All Juniors should place their order now to be sure of having their rings at the opening of school.

1928 Ring Committee.

## WADE H. PHILLIPS PREDICTS A DAY OF SPECIALISTS

Greatest Cry in North Carolina Today is For Experts in Particular Fields

IS CONSERVATION LEADER

Purpose of Board is to Preserve Minerals, Power, and Even Birds of the Air

"The greatest cry in North Carolina today is for more technical and scientific men who are experts in the particular field of work," said Major Wade Phillips, head of the State Conservation Board, in an address to the student body Wednesday in Pullen Hall.

He stated that North Carolina is as different today from what it was twenty-five years ago as there is difference between Abyssinia and Louisiana. "Twenty-five years from now its population will be five-fold and its natural resources will be developed extensively. Steam power will be a thing of the past. Everything will be electrified and North Carolina will harness the 800,000 horse-power that is now going to waste. A six-hour day will take the place of the present eight-hour day, which will give the laborer some leisure time," he said.

Major Phillips stated that the purpose of the Conservation Board, broadly interpreted, was to preserve the minerals, power, and even the birds of the air. Also it was for the purpose of collecting statistics to be published in order to awaken the people of North Carolina to the wonderful possibilities for industry. "We have good lands, forests, and climate. This state has the finest clay and granite for building purposes that can be found anywhere in the country. Vital statistics show that people live longer, are more efficient here than in any other state in the Union," said Major Phillips. He stated that of all these man-power is the greatest resource in the state, but that we are just beginning to realize this fact.

He thinks that we are going too fast for the educational program that we have now started, that we have neglected the cultivation of the mind and soul, and have produced machines faster than cultivated men. He stated that North Carolina is lacking in general culture among men.

In conclusion he pointed out that if we have shorter hours man will have time to spend in trying to better himself, and at the same time cultivate himself so that he may become a better citizen of the United States.

## AGROMECK IS ON PRESS; TO BE RELEASED MAY 20

Fifty Copies Ordered by the Printers for Their Own Personal Use

The 1927 Agromeck is now on the press and will be ready for delivery by May 20.

The Agromeck has been declared by representatives of various printing companies to be the best annual that has been seen in the south this year. To confirm this statement Edwards & Broughton Printing Company, printers of the book, have ordered fifty copies for their own personal use. These copies are to be used for advertising purposes.

It is an honor to any company to have printed such a book, and a greater honor to a student body that has cooperated with the staff as wholeheartedly as the present student body.

The new annual, with its unique style and artistic design, holds many pleasant surprises for every student. Never before has any staff undertaken to break loose from every method used by previous staffs in assembling the annual. Every idea in the book is original; every page has been placed in its position for a reason. The book is new from cover to cover. Delivery will start May 20. There will be a class fee of \$2.00 for members of the freshman class. The other three classes have previously paid their fees. The Agromeck staff hopes that every student will assist in every way to help distribute the 1,400 books as quickly as possible.

## RETIRING HEAD STUDENTS

J. F. MATHESON

## GOLDEN CHAIN TAP DAY BE HELD NEAR FUTURE

Impressive Ceremonies Will Be Held at Choosing of Seniors for Honor Society

Plans have nearly been completed for the second annual tap-day ceremonies of Golden Chain, senior honor society. Tentative dates under consideration are May 17 and 18.

The exercises will be held at sunset, on the grass by the Memorial Tower. The usual excitement and mystery will be in evidence, as no one will know who will be "tapped" until the moment he is chosen and led away from his fellows.

There will be more than the normal amount of interest in the ceremonies this year. A prominent man of the state will open the exercises, the band will play selections suitable to the occasion, and there will be great solemnity.

The present junior class is unique in that it has many worthy members, but very few who really stand out above their comrades in their qualifications. Because of this fact it is impossible to predict with any degree of certainty over half of the men who will be chosen.

But one thing is certain: twelve men will be picked from the junior class to receive the highest honor that is within the gift of the present members.

Golden Chain has only been in existence slightly over one year, but its influence has been felt in many instances, although it has worked with much quietness. It is predicted that the Golden Chain will in a few years become the greatest influence for good in the student body, because its members are picked for their high type of citizenship.

## PLAYMAKERS TO APPEAR AT MEREDITH TONIGHT

Three Plays To Be Presented, Including One by Winner of Pulitzer Prize

The Carolina Playmakers of the University of North Carolina will give a performance tonight, May 7th, in the Meredith College auditorium. The Playmakers are making their first appearance this season in Raleigh under the auspices of the Senior Class of Meredith. Three short plays will be presented by the University actors, including Paul Green's play entitled, "Quare Medecise." "Lighted Candles," by Miss Margaret Bland, and "The Marvellous Romance of Wen Chun Chin," by a Chinese student, Cheng-Chi Hsiung, are the other presentations.

"Quare Medecise," written by Mr. Paul Green, is one of his outstanding plays of the year. It is now being run in one of the larger Broadway theatres in New York City. Mr. Green is a member of the faculty of the University of North Carolina, and has

Continued on page 2.

## Attention, Sophomores;

Election of Junior class officers will be held Tuesday, May 10th, 6:30 p. m., in Pullen Hall. Every member come and vote for the best man, so we can have efficient class officers.

J. E. MOORE, Pres. Soph. Class.

## New Student Government Men Sworn Into Office May Second

## CHAPTER OF PHI PI PHI INSTALLED AT STATE

Sigma Delta Local Fraternity Becomes Fourteenth Chapter of National Organization

The Sigma Delta local fraternity, 2232 Hillsboro Street, was installed on Friday, April 29, as the fourteenth chapter of the Phi Pi Phi national fraternity. Sigma Delta was founded at State College on December 4, 1920, by L. L. Parker, L. U. Bailey, C. E. Harris, W. E. Braswell, and C. W. Rhodes.

Phi Pi Phi was founded at Chicago in November, 1915, by the alumni of the several universities of the region bordering the Great Lakes. Prior to the Great War the organization was strictly confined to graduate students who came to Chicago for advanced work in the universities located there. Many of the original members entered the service in 1917, and after the war it was decided to become an undergraduate society in answer to the appeals of the Interfraternity Conference, college and university officials, as well as those of eligible local societies for more national fraternities. It was felt that Phi Pi Phi could contribute more to the welfare of young men in becoming an undergraduate organization than by administering to the graduates only.

With this policy determined, Phi Pi Phi established during its first year chapters at Northwestern University, University of Chicago, Armour Institute of Technology, and the University of Illinois. Later chapters have been established at Washington College, University of Wisconsin, University of Utah, University of California, Washington and Jefferson, Case School of Applied Science, Baldwin-Wallace College, Westminster College, and lastly, at North Carolina State College.

The policy of expansion has been conservative in that only colleges and universities having high scholastic standing and satisfactory means of maintaining present standards have received chapters. Nearly half of the chapters own their homes, which have a total value of \$170,000.

The following men of the local were initiated into Phi Pi Phi: W. K. Enos, G. F. Hackney, C. M. Cooper, C. K. Little, W. V. Eller, O. N. Hendley, Luther Shaw, J. Polk, E. A. Wright, W. A. Hood, C. G. Taylor, P. F. Winkler, H. H. Culler, E. W. Weant, and Prof. Stewart Robertson, honorary member.

The alumni initiated were: Geo. H. Everett, Jr., Edenton, N. C.; S. E. Shepherd, Greensboro, N. C.; L. J. Dale, Raleigh, N. C.; and J. L. Hegins, New Bern, N. C.

The installation ceremonies were held in the temple of the Raleigh Elks Club. The following members of the national council of Phi Pi Phi directed the ceremonies: Fred M. Clarke, president; Victor B. Scott, counselor; and Arnold C. VanZandt, secretary and treasurer, all of Chicago.

## COMMENCEMENT ORATORS HAVE BEEN SELECTED

Fountain, Wilson, and Springer Will Represent Respective Schools in Contest

The senior addresses, a part of the thirty-eighth commencement of North Carolina State College, will be held Monday morning, June 6, in Pullen Hall. The speeches will be delivered by R. R. Fountain, W. E. Wilson, and H. E. Springer.

Each of these men represent different schools. Fountain, who is to represent the School of Agriculture, will speak on "The Fallacy of the 'Back to the Farm' Agitation." Wilson, of the School of Engineering, who won the state contest on Constitution and won second place in the southern interstate competition, will talk on "Some Aspects of Constitutional Government."

Springer, of the School of Science and Business, has selected his subject in the field of food, chemistry, and proper eating habits.

All of these men are members of the Leazar Literary Society and Phi Kappa Delta Forensic Fraternity.

Retiring Head of Student Body Presides at Installation Services in Pullen Hall; Quartet Sings for Opening Exercises.

TUCKER PLEDGES EVERY SUPPORT TO STUDENTS

Tells of Duties Incumbent on the Officers; Pays Tribute to Outgoing Men

New student government officials and members were given the oath of office in Pullen Hall Monday, May 2, by John Anthony, vice-president of the student government during the past year.

J. F. Matheson, president of student government during 1926-27, presided over the installation exercises and submitted several speakers for the occasion. The college quartet rendered music for the opening exercises.

While Raleigh was experiencing the most enthusiastic election ever witnessed here, the most enthusiastic election ever held at State College died in all of its glory when the chapel exercises were opened by the college quartet.

Following the music J. F. Matheson made a short talk in which he reviewed the activities of student government during the past year and offered suggestions to the newly-elected officers and members of student government.

Mr. Matheson stressed the importance of the promotion of student government, adding that the most important phases of it could be summed up under two heads: cooperation, and a better predominating spirit between government and the students. His last words to the student body expressed the pleasure he had received while fulfilling his office and the regrets that he felt in giving up the administration.

John Anthony was then called upon to administer the oath to the newly-elected men. After this ceremony was completed several speeches were made relating to student government.

J. D. Clark, professor in the Department of English, made a talk on "Honor," in which he stated that the very basis of any government must rest upon honor.

Fred C. Davis, newly-elected vice-president, also made a short talk to acquaint the students with his ideas of a successful student government.

The meeting was brought to a close with a speech by C. S. Tucker, president of the student body. Mr. Tucker explained the duty of student government men and in what capacity they would be expected to act during the coming year. He also paid tribute to the success thus far encountered by student government at State College. His pledge to render every effort available to the support of student government was received with applause by the members of the student body.

## 1927 AGRICULTURAL FAIR BE HELD OCTOBER 11-13

Plan to Bring Club Boys Here From All Parts of North Carolina

The 1927 Students' Agricultural Fair will be held October 11, 12, and 13. The judging contests between college students will be held the 11th; the parade, exhibits, and midway the 12th, and vocational high school judging contests the morning of the 13th.

The vocational high school judging contests are not a new thing, except that the Students' Fair is sponsoring it this year, instead of the State Fair. It is thought that to get the high school boys here at that time, so they can see the many phases of college life in one or two days, will play a great part in influencing them to enter this school.

There is a plan being worked out now that if it completed will bring the club boys here from various parts of the State to participate in judging contests the same as vocational high school boys. If both plans work out as they should, there will be a large number of high school boys here who will be entertained by the college and college boys.

The night of October 13 there will be a banquet given for the vocational and club boys, at which time the results of the judging contests will be announced and prizes awarded.

## MECHANICAL SENIORS RETURN FROM TRIP

State Alumni Act as Hosts to  
Seniors on Inspection Trip  
at Newport News

The entire Senior Class in Mechanical Engineering, accompanied by professors, returned Sunday from a week-end inspection trip to Newport News, Va., where they were guests of the State College alumni of the Newport News Shipbuilding and Dry Dock Company.

The inspection of the whole plant of the Shipbuilding and Dry Dock

company started at 8:00 o'clock Saturday morning. The State alumni acted as guides throughout the entire trip.

The pattern shop and foundry were first visited; from there to the machinery and installation department on the south side, and then through the hull-fitting and plant repair department, and then to the north-side hull and installation, and then returning through the engineering departments.

The four hours spent there were entirely too short to even partly cover the vast plant. Only a passing glimpse could be caught of the tremendous plant in operation.

In the afternoon the Hampton Power Plant was first visited. From there to Langley Field, where the laboratories and experimental de-

### State-Virginia Debate

W. B. Kilgore and R. H. Dunlap represented North Carolina State College in a debate with the Virginia Teachers College in Portsmouth Friday. The subject is: "Resolved, That this house deprecates the tendency toward social, economic, and political equality of the sexes."

The outcome of this debate will not be known until after this paper has gone to press.

partments were inspected. The hangars of the dirigibles and airplanes were visited last.

The closing feature of the day was the banquet given at the Warrick Hotel by the State alumni in honor of the visitors from State College. An inspection program was presented.

The following men made the trip: Faculty members, L. L. Vaughan, John M. Foster, F. B. Wheeler; students, John Anthony, J. D. Conrad, L. M. Stuart, R. A. Kendrick, B. K. Jones, E. L. Franklin, F. H. Waters, J. M. Williamson, W. C. Williamson, W. A. Yost, D. R. Pace, C. H. Pruden, P. M. Sutton, W. C. Park.

### SOPHOMORES ASSURED OF SUMMER ENCAMPMENT

Sophomores that elect the advanced course in military and who wish to attend camp this summer are almost assured of the fact that they will be allowed to go.

Lieutenant Passafiume was in Washington, D. C., during the Easter holidays and received the information from officials there. With Major Early's efforts he believes that the quota for the Fourth Corps Area will include all R. O. T. C. sophomores. The tie-up was due to the fact that the appropriation for the maintenance of the Army was cut down this year.

Examinations will begin as follows:

Seniors: Monday, May 25, 9 a. m.

Juniors, Sophomores, Freshmen:

Saturday, May 28, 9 a. m.

Examinations will be held in the

rooms where the classes have their

recitations.

Examinations not provided for in

this schedule will be arranged within

the examination week, subject to the

approval of the Schedule Committee.

No examinations will be scheduled

before Monday, May 23.

No request for changes in this

schedule will be considered after

Thursday, May 19th, 5 p. m.

Rules for Senior Examinations

1. All seniors will be given their

examinations during the period from

May 25 to May 31, inclusive.

2. All classes which have seniors in

them will be considered senior courses.

3. In such courses having five or

fewer men below the senior class, the

examinations will be held with the

seniors according to the schedule for

senior examinations.

4. In such courses having more than

five men in them below the senior

class, the seniors will be examined

separately, the class continued, and

the other members of the class ex-

amined according to the schedule of

examinations for Freshmen, Sopho-

mores, and Juniors.

L. E. HINKLE,

Chairman, Schedule Com.

### Pullen Bests Leazar In Freshman Debate

(Continued from page 1)

D. E. Jones from Pullen. Mr. Jones argued that the states had been successful in dealing with the situation, and also that Federal control was impractical because the conditions were not the same in all states, and the same law would not be suited to all conditions.

The third speaker was E. W. Buchanan, who won honor and points to his society by winning the distinction of best speaker. Mr. Buchanan argued that child labor is a national menace, and that national action is the only remedy. Mr. Buchanan exhibited qualities and talent that if developed will bring him even greater honors in public speaking.

The debate was closed by J. A. Broadwell, from Pullen. Mr. Broadwell proved to be the most entertaining speaker of the evening because of his natural tendency to be humorous. He helped his team to get the decision by his ability to refute the arguments of his opponents and by challenging them to prove their statements. In his first speech he contended that it would be dangerous to give such unlimited power to Congress, and that eighteen years was entirely too high an age limit for any child labor law.

This was the last of the inter-society class debates and the records show that Leazar has the best record, with two decisions and two best speakers, while Pullen won two decisions and one best speaker. There was no best speaker selected in the senior debate because of a tie in the judges' decision. The Leazar society was also fortunate to have as one of their members State's famous orator, H. J. Oberholzer, who won both the oratorical and declamation contests for his society.

### Playmakers to Appear At Meredith Tonight

(Continued from page 1.)

most playwright of the South. His work with the Carolina Playmakers is very commendable, and much of its success is brought about through the presentation of his plays. Announcement has just been received from Dr. Nicholas Murray Butler, of Columbia University, that the School of Journalism of Columbia have awarded the Pulitzer prize for the best play of the year to Mr. Paul Green for his play, "In Abraham's Bosom."

"Lighted Candles," written by Miss

Pet your  
pipe  
with  
Edgeworth

Margaret Bland of Charlotte, is a tragedy of mountain life in western North Carolina. The play is a bitter struggle ensuing within the heart of a young girl who has been forced into a second marriage after her first husband had gone away—thought to be lost by all except the young girl. Upon realizing her love for her first husband, and the thought of being married to a man she does not love, her life was thrown into turmoil. She placed candles in her window each night, hoping for the return of her lover. At last her second husband finds a girl that he loves, therefore relieving our heroine to return to her first lover. Much comedy is fur-

nished by the funny gossip of two old mountain women and an old mountain preacher.

"The Marvellous Romance of Wen Chun Chin" was written by a Chinese student in one of our American Universities. It is a story of life in China.

For the convenience of State College students, the Meredith girls have placed tickets at Honeycutt's London Shop.

Recently a vanity case 4,000 years old was found in the ruins of the ancient city of Babylon. If the owner will call at the office, we will see what we can do about it.

RALEIGH, N. C.

## Commencement isn't the end— It's just the Beginning!

IT'S mighty easy to think of Commencement as the end of everything that's care-free and pleasant. But don't make that mistake.

The cold, gray world after college isn't so cold and gray to the fellow that tackles it in the right spirit.

Of course, it isn't going to pay you a fat salary right at the start-off. That isn't the way it does things. Instead, it is going to put you through a testing and seasoning process which will measure your grit and your stamina and find out whether you're a dependable performer.

Once you've proved your dependability, you'll get responsibility and with responsibility comes income. And remember this—you'll consider yourself an experienced and dependable engineer long before the world admits it. It's that waiting period which will try your pluck.

In the meantime build your reputation of top-quality materials. Team up with the best in every job you handle. Stand for, fight for the best materials, the best designs, the best construction methods. Don't let your name get associated with second-bests, make-shifts and could-have-been-betters.

It's a great world. I've seen something more than a century of it and I know. And it wants you to make good.

Sincerely yours,

Vitrified Paving

## Harrill Hits Homer in Eighth and Doakmen Defeat Davidson

The State College nine defeated the Davidson Wildcats in Salisbury Wednesday afternoon by the score of 4-3. Harrill's home run in the eighth gave State the necessary run to break the tie and to win the game.

Outen, State second sacker, hit a homer over the right field fence in the first inning with McDowall and Austin on to give State a three-run lead. Davidson scored in the second inning on Littlejohn's triple. Two runs were added in the third frame to tie the score at three all.

Allgood (State) pitched the best game of ball during his college career, his deceptive drop working in good fashion. Meadows pitched a good game for Davidson, and held State in check until the eighth.

Matheson starred in the field for State, while the work of Harrison and Littlejohn featured for Davidson.

Score by innings: R. H. E.  
Davidson 102 000 000—3 6 0  
State 300 000 01X—4 7 3

## SPORT STUFF

By T. AVERNON

We see by the Flat Hat that the co-eds of that institution have turned to intra-mural baseball. We wonder if the co-eds at State couldn't get up a team and sort of revive the national sport here?

Jack McDowall and Hank Young certainly are the jumping boys. Both tried their best to see just how much they could defy the law of gravity. McDowall broke his own record in the high jump and Young went twenty-two feet to establish a new college record in the broad jump.

While Mr. Doak and his men are off on their trip Coach Drennen and his intra-mural baseballers are holding the centre of interest, except when Tebell and his rats are strutting their stuff. There was right much interest in the games that were played before we went to press.

We extend congratulations to Freshman Wicker. He did his level best to win the Baby Deacon contest, but the erroring bug had the team and his hitless contest went for naught. Still there is always hopes of turning the black cloud inside-out and seeing the silver lining.

Before we come out again the varsity track team will know their relative standing in state and southern circles. For they are at Greensboro today and they will be in Baton Rouge, La., that is, if the flood does not wash the tracks away—we mean the railroad tracks and the cinder tracks, too.

Congratulations to the Outen, Harrill, Allgood Company. Chink and Tommie knocked out a homer apiece over the right-field fence, and—well, Allgood dropped it off on the Cats. They could not get under his drops, and therefore they were left behind.

Discus: King (S), Brummitt (D), Lamb (S), Distance 114.  
Broad jump: Young (S), Cliff (D), Brantley (D), Distance 22.33.  
Javelin: Bennett (D), Young (S), Kilgore (S), Distance 169.83.

## BLUE DEVILS NOW BOAST TWO WINS OVER DOAKMEN

Duke University Blue Devils defeated the local team here last Saturday, coming off on the top-side of the 7 to 4 score.

State put up the best brand of ball they have played this year, but were outplayed from beginning to end. The game went errorless until Outen juggled a hard-hit grounder. Hits were fairly divided, Duke getting ten and State eight.

Chink Outen, State's "play anywhere" baseball player, put up the best game for the locals. He starred in the field and his drive to the left-field fence went for a home run. Jack McDowall played a good game in the field and counted two hits.

Broome and Saunders led the Devils in the field, with Wyrick taking the batting honors with two hits out of three times at bat.

State rallied in the eighth and scored three runs, but failed to score in the ninth after Kendall had singled to right field.

Score by innings— R. H. E.  
Duke 010 030 300—7 10 6  
State 001 000 020—4 8 1

Batteries: Thomas and Wyrick, Bealand, Allgood, Carson.

## BLUE DEVIL FRESH ROMP ON STATE FRESH TO WIN

Duke University freshman baseball team defeated the State fresh at Durham last Saturday by the large score of 11 to 1. Duke got next to Shore for eleven hits, and several errors by the State nine gave the Devillets the advantage on the top side of the score. Beale pitched good ball for the Duke nine, allowing the State team only two hits.

## LORDLY SOPHS PRY LID OFF LEAGUE WITH A WIN

The lid was pried off intra-mural baseball Tuesday when the luckless Frosh bowed before the deadly onslaughts of the Sophs. The class of '29 took the lead early in the game and held it throughout.

The Frosh played good ball, but couldn't buy their life to the best advantage and were forced to take the small end of the 9-12 score.

Batteries—Frosh: Hall, Van, and Hodges. Sophs: Ballance and More-dith.

## SPORT CALENDAR

Baseball  
May 9—Clemson at Clemson.  
May 10—Lenoir-Rhyne at Hick-ory.  
May 13—Wake Forest at Wake Forest.  
Fresh Baseball

May 13—Catawba at Salisbury.  
Varsity Track  
May 13-14—Southern Conference Meet at Baton Rouge, Louisiana.  
Fresh Track  
May 14—State Meet at Chapel Hill.

## The First Ten Hitters

McDowall	466
Regan	416
Hovis	391
Austin	333
Outen	300
Beal	242
Kendall	232
Mayfield	222
Harrill	222
Vick	186
Total ave.	378

(Note.—This list was compiled having ten times at bat the smallest amount necessary to place in the list. Records were filed from official score book. These ten were the highest on the list.)

## CAROLINA TRACK MEN DEFEAT STATE TEAM

### Tar Heels Boast String of Wins Over Four-Year Period in Dual Meets

The University of North Carolina track team continued its winning streak last Friday on Riddick Field when they met Doc Sernon's cinder artists. The score was 77½ to 48½.

McPherson, Raleigh lad, won the hundred after he had passed Sides (State), in the last few yards, to lead him to the tape. Melton took third. The same three men won the 220-yard dash in the same order. Sides won the 440 dash when he passed Harrison on the last curve and led him to the tape. Melton was running hard and crossed the line one step ahead, to take second place.

Carolina showed superiority in the distance races, taking all three places in each of the three events. Jack McDowall, although injured, won the high jump easily at 5 feet 11 inches. Bremer won the pole vault when he cleared the bar at 11 feet 3 inches.

The summary:  
100-yard dash: McPherson (C), Sides (S), Melton (S). Time, 10.1 seconds.  
150-yard dash: McPherson (C), Sides (S), Melton (S). Time, 16.3 seconds.

220-yard dash: McPherson (C), Sides (S), Melton (S). Time, 22.3 seconds.  
440-yard dash: Sides (S), Melton (S), Harrison (C). Time 51 2-5 sec.

2-mile run: Pritchett (C), Cox (C), Tilley (C). Time 10:35.  
220 low hurdles: Giersch (C), Clark (S), Pearson (C). Time, 26½.

880-yard run: Rhinehart (C), Evans (C), Henley (C). Height, 11 feet 3 inches.  
Pole vault: Bremer (S), McFaden (C), Henley (C). Height, 11:3.

Shot-put: Williams (C), Rush (S), Lamb and Vaughn (S). Distance, 38 feet 6 inches.  
High jump: McDowall (S), Purser (C), Pearson (C), Matthews and Young (S). Height, 5 feet 11 inches.

Discus throw: Harper (C), Colburn (C), King (S). Distance, 124 feet 10 inches.  
Broad jump: Young (S), Vincent (S), Sandlin (C). Distance, 21 feet 8 inches.

Javelin: Myers (C), Young (S), Sandlin (C). Distance, 160 feet.

## DOAKMEN OFF ON WEEK'S TRIP IN THREE STATES

Coach "Chick" Doak, Manager Hadley, and fourteen men left Wednesday morning for a week's trip through North Carolina, South Carolina, and into Georgia.

The first game of the trip was at Salisbury with the Davidson College Wild Cats, and the next game was with the same team at Davidson. From Davidson the team went to Atlanta, where they met the "Yellow" team from Georgia Tech in a two-game series.

On Monday the team will engage the Clemson Tigers at the latter's field and on Tuesday the Doakmen will engage the Lenoir-Rhyne team in Hickory, and will return home Wednesday morning and meet the Wake Forest team at Wake Forest on Friday, 13th.

The following men made the trip: Austin, Matheson, Outen, Harrill, Kendall, Hovis, McDowall, Regan, Allgood, Beal, Shelton, Kid, Mayfield, and Griffin.

McDowall will return in time to go to Greensboro to the state track meet.

Mr. Frank J. Haight is Tidal Mathematician with U. S. Coast and Geodetic Survey, Washington, D. C.

## BABY DEACONS BEAT TECHLETS

Tebell's Freshman nine met defeat at the hands of the Baby Deacons on Gore Field at Wake Forest. Although Wicker, the carrot-topped, Fresh pitcher, hurled a no-hit game, the erratic playing of his teammates gave the game to Wake Forest. Too many free tickets to the initial sack were responsible for a great part of the defeat. In the ninth inning the Deacon Yearlings came back strong and put the game on ice to the tune of 5-4.

Three of the five runs garnered by the Deacons came by way of free trips to first and beautiful hunting and sacrificing in the pinches. This, coupled with errors by the visitors, was responsible for the victory. Meador, Deacon hurler, pitched a good game, giving only seven scattered bingles. To Wicker goes the original hard-luck trophy. He pitched a no-hit game, and lost it.

Score by innings: R. H. E.  
State Fresh 201 001 009—4 7 5  
W. F. Fresh 021 010 001—5 0 0

## Paragraphics

"It won't be long now," yelled several Davidson students, as they organized "The Suicide Club."

Again THE TECHNICIAN office has become business-like. The business manager of The Twig visited us the other day.

Since this is our first issue we thought we had better leave town before it gets off the press.

The law of averages must have automatically stopped when State opened its baseball season.

It has been reported that R. R. Fountain has a "Sea-Going" scholarship on a "Floating University."

Go see the Carolina Playmakers tonight at Meredith. You may feel assured, from reports, that you will have a good time.

Tomorrow is Mother's Day. Do something to make your mother happy on this day which was set aside by Congress for that purpose.

Fourth dormitory will henceforth be known as Varsity Hall. It will be an exclusive residence for the Wolves next fall.

We wish to congratulate the members of the Xi chapter of Phi Pi Phi which was installed here last week with appropriate ceremonies.

The newly-elected student body officers have been congratulated quite often of late. We wonder if it wouldn't be a better idea to sympathize with them.

We have received no less than six or eight articles from the Journalism Class concerning Mr. Owen's new car. At least they are learning to detect news.

Judging by the pictures on the front page of the News and Observer recently, somebody must have been hunting for black scandal in politics. We hope that this did not happen in the student body election.

## MOTHERS' DAY

Tomorrow is Mothers' Day. America with its millions of people will celebrate in honor of the greatest of all human beings—Mother. Do you suppose that the majority of the nation really knows the full significance of this day, and is able to enjoy and appreciate it to the fullest extent? There are many thousands who do not know the real significance of it. They let it pass without any serious thought, but for those millions that are able to understand and appreciate, their minds will travel back to their youth when mother was so loving and kind. Of course they did not realize what Mother really meant to them. It is only that group whose mothers have gone beyond that

realize what mother means to the fullest extent.

Let us go back to the time when the movement was begun for a Mothers' Day. Miss Anna Jarvis, Philadelphia, was the first woman that started such a movement which later became a national day. Several cities celebrated this day in 1910, but it was not until 1913 that it became a national event.

By a resolution of Congress in 1913, the observance of a day under the title of Mothers' Day was instituted. President Wilson issued a proclamation for the first national Mothers' Day on May 9, 1914, and fixed the second Sunday in May for its annual date. Its object was the well-being and honor of the home; its observance demanded some act of kindness, gift, or tribute in remembrance of mother—and father, also—to whom grateful attention is due. Its purpose is to recall memories of mothers who have gone; to brighten the lives of those that remain, and encourage men, women, and children to honor home and parents.

It is observed by some act of kindness to mother and father, by services in the churches of all creeds.

The white carnation is an emblem of purity, beauty, and peace of a mother's love. Custom has varied, and on the morrow as you go to church you will see red and white flowers. Red signifies that the mother is living, while white means that she has passed beyond.

Let us as college students give more thought to this day and make our mothers feel happy and proud of their sons, and when the day has gone be able to say that we have done some good deed, and brightened the mother's life to whom we are so greatly indebted.

## "ELMER GENTRY"

From time to time, as we read the newspapers and magazines, we continually see something about Sinclair Lewis's recent book called "Elmer Gentry." This book has shocked the whole ministerial world, and has aroused a storm of criticism from the American ministers.

"Elmer Gentry" is a story of a Baptist minister who was a hypocrite, and a sensualist who was a gallant lover, and a man that used his religion as a stepping-stone toward worldly advancement. He could not understand men who shrank from blood, who did not casually seduce every possible seducible girl. "Hellcat," which was Elmer's nickname, played football while in college. Although he was a minister, he was more concerned with the lusts of flesh than with spiritual and mental education.

He made love to an innocent girl, and dropped her on an innocent man. He was thrown out of the Baptist ministry on account of his red-hot sermons about vice, something in which he indulged secretly. He was in the ministry for the sole purpose of becoming rich. Elmer transferred from denomination to denomination in order to get a large audience and a big collection.

He fell in love with a woman evangelist, and went from town to town helping her spread the gospel, but their purpose was to make money and make Elmer the emperor of America. In a few words, he was a leper in society acting under the disguise of an American minister spreading the gospel to all people.

We are sure that no good can come from a book of this type. Is it uplifting? No. It is not typical of ministers who try to spread the Christian faith. "Somewhere indeed," observes the Pittsburgh Sun, "there may be such a monstrous man of the cloth as Lewis has drawn. No walk of life is free of such lepers. But to suppose they are representative is a fatuity to be indulged by depraved imaginations." His book is a gross exaggeration, we think, and has no purpose or plan except to besmirch those men who are trying to spread the Christian religion.

At the time that he wrote the book, Lewis was in Kansas City. The ministers of that town showed him the inside and the outside of the churches and homes which, says Dr. Stridger, "were clean, pure, hospitable, and friendly." Why didn't he give the American people something of the better side? But instead it was all of the worst type, and grossly exaggerated at that.

There can only be one purpose of such a book, and that is to gain notoriety for the author. Apply a little psychology and you will readily see why people want such a book. It is human nature for man to want to read something that is different, non-typical, and scandalizing in its content.

We absolutely can see no good to

be derived from such a book, but we do see great harm in it. For those that are prone to believe that everything they read is typical, their minds will forever be poisoned with this gross misrepresentation of ministerial life. It will give them a chance to ridicule the ministers and their work. We believe that this book will soon be buried in the libraries among other books of its type. We heartily agree with Dr. John Roach Straton, who says that the book has no purpose or plan "save the putrid purpose of besmirching God's prophets and de-mean all holy things."

## OUR POLICY

As we—the new staff—assume our duties, we feel that it is an opportune time to give the student body an idea of our policy for the coming year.

The past editors of the Technician have set a very high standard for the staff to maintain. Last year our paper was picked as the best college newspaper in North Carolina, and we feel confident that history will repeat itself this year.

In order for any college paper to be a success it must have the support of the student body. It should be the voice of the students, and in order for it to be such they must take an interest in their college paper and support the staff morally. If we can make it the voice of the student body as a whole next year, the staff will feel that it has had a successful year.

Although we realize the Technician has been good in the past, we believe that improvements can be made next year. The society column has not been as good as it should have been. Although the society editor was a hard worker, he did not have the support from the fraternities that is necessary to have a good society column. Beginning with this issue we will have a two-column society head. Now, in order for this column to be a success, the fraternities especially must co-operate with Karl Koontz, who is the new society editor.

We have a plan in mind that will no doubt help us to get news from the various departments on the campus. If every department head will appoint a publicity man for that department, and one that will get all the news going, we can then expect to have equal publicity, and one of the best papers in the South. You can very readily see how utterly impossible it will be for the staff to go to every department each week for news. The one thing that we want is news. We will feel at the end of next year that the Technician has been successful if equal publicity has been given to each school.

In our editorials we shall discuss things that are relative mainly to college life, giving constructive criticism and commendatory as well. In the paragraphs we hope to be able to be humorous and serious-minded enough to present the college topics in a pleasing and interesting manner.

We trust that the student body and faculty will co-operate heartily with the staff for the coming year. Let us work together in harmony for the purpose of making the Technician one of the best college papers in the South.

## Student Forum

## SUMMER SCHOOL

State College students and students from other colleges who want to get off college credits should look into the opportunities offered by State College Summer School. Practically all the courses offered during the regular college year are given during the summer school, provided the registration justifies it. This is quite an advantage to the college student who has an unusually heavy schedule and wants to lighten his student load.

There may be many students who enter well advanced and desire to get through college as quickly as possible. By attending summer school they can reduce the time required for graduation. There are perhaps some students who have failed courses and would like to make these up, so as to enter in the fall with a regular schedule.

Let me urge the students to look into the possibilities of getting work in the summer school. Catalogs may be secured from the registrar's office.

T. E. BROWNE,  
Director Summer School.

## LOST!

Pair of tortoise-shell glasses on the campus. If found, please return to B. J. Kopp, 226 South, or leave at the desk in Dining Hall or Y. M. C. A.

WISE  
AND  
OTHERWISE

The other day I was talking to a graduate student who is completing his fifth year as a student at State College. We were discussing, in a rather informal manner, the progress being made on the campus in all departments. "Sometimes I get discouraged and dissatisfied with things in general. I think that this, that, and the other is not what it should be. But when I go back and compare State College of five years ago with the State College of today my fears and doubts are greatly lessened. For, whether you know it or not, this place has certainly gone forward in the past four or five years." Such were this student's words during my conversation with him. Of course there is an underlying point in that piece of conversation, but I consider it obvious enough to pass on. However, on approaching the end of the year I consider it an opportune time to point out a few sure signs of progress that are presenting themselves on the campus.

For the benefit of the campus in general I consider the announcement by President Brooks of the beginning of the construction of the so-called "cultural center" centering around the projected Science and Business building, Pullen and Holladay halls, to be the greatest single movement of the year. This "cultural center" seems to be a hobby of President Brooks's, and is almost certain to be pushed to completion. The success of such a project as this will supply an essential element to the general atmosphere of the campus.

The remodeling of several of the older buildings and the addition of another story to the Engineering building, improvements which are to be made this year, will add to the beauty of the campus and lend to the more efficient functioning of those departments affected. The removal of several branches of engineering from Winston Hall into the Engineering Building, giving more space to the greatly crowded Chemical Department, will greatly augment the efficiency of those departments concerned. The spirit of optimism that is prevalent among both faculty and students is a healthy sign too promising to overlook. The several achievements of faculty and students in their respective fields has added prestige and given confidence to the entire school.

A healthy, steady growth is a process which must come about by degrees. The final attainment is reached only after a period of skillful planning and endeavor. The college, probably as no other undertaking, requires a degree of coordination that at times taxes the skill of its best experts. It is observed, however, that all roads are leading in the right direction, and that the student body is conscious of the factors working towards a greater State College.

AMONG  
THE COLLEGES

By BILL

The University of Washington has purchased a 22-acre tract of land in order to provide athletic facilities for all students. A 27-hole golf course and a 63,000 capacity stadium will be among the facilities added.

A sex war is on at Oxford, competent observers declare. From time to time the men's journal, comes out with an indictment of the policy of harboring women in the ancient citadel of men. Ever since women have been admitted to the University the men have been hostile.

Jealousy is the motive of the men, the women declare. Every woman at the college is an honor student. So rigid is the examination system that none but the most intellectual girls pass the gauntlet. One Somerville girl recently said that for the eighty vacancies at her college last autumn there were 240 applicants. It is extremely irritating to the men, many of whom are content with merely the pass degree, that they should be outshone intellectually by mere women.—New Student.

A class at George Washington University recently waited fifteen minutes for an instructor and then dispersed. The next day the instructor claimed to have been in the class because he had left his hat on the desk. On the following day upon entering the classroom he was greeted with rows of chairs occupied only by hats, but not one student. Our informant does not state whether or not the instructor left his hat and went home.—New Student.

Twenty-two students at the University of Minnesota were recently penalized for cheating in the fall quarter psychological exams, as a result of investigation by a student committee. Penalties imposed ranged from failure in a course to suspension from the university for two quarters.

What to do to prevent cheating?

## Still--

Distance miles or leagues may measure,  
Though it separate us afar;  
Though the stretch of hidden treasure  
May have clutched our lives to mar  
All our youthful hope and vision  
Which from cradled beds we brought,  
Or to hail them with derision,  
Still—we have our mother's thought.

Though a mad world races 'round us  
With its cold, unfeeling speech,  
Though its pitfalls may have found us  
In their bonds, or easy reach;  
Though grim shame may hide our faces  
Till we dare not look above,  
Nor to flee embittered places,  
Still—we have our mother's love.

Though from Right we may have drifted  
Far down Wrong's crime-billowed stream,  
Nor with hands or voices lifted  
Up against the tempter's scheme;  
Though our souls within us perish,  
Crushed by pond'rous care,  
Yet there's one who'll ever cherish,  
Still—we have our mother's prayer.

ALVIN M. FOUNTAIN.

(Today's N. C. Poem, News and Observer, Mother's Day, 1924.)

The State College Times, San Jose, California, offers these solutions:

1. Students will march to examinations in columns or squads, and halt at the door of the classroom, where they will be searched for contraband notes.
2. Before entering classroom, each student will submit to psychological test to determine whether or not he has any idea of cheating.
3. Classrooms will be decorated with mottoes such as, "Honesty is the Best Policy," and "Think Before You Cheat."
4. Each student will be required to wear blinders.
5. If student has suspicious look, he will be gagged to prevent communication.
6. Students and professors will enter together, and the doors will be locked, barred, and hermetically sealed.
7. Students will sit two seats apart, with a professor standing between each two students. Professors will be armed with blackjacks to inspire additional respect.
8. Additional professors on the outside will watch through peepholes in the wall.
9. Highly tuned dictaphones will be attached behind the pictures to catch the slightest whisper.
10. When the student has finished examination, a lie detector will be brought out, and he will be asked if he has cheated.
11. In marking the papers, professors will discount ten points from each paper, on the possibility that the student has cheated.

A breathing space just before examinations will be given Harvard students by a plan recently passed upon by the university authorities. Any department may discontinue lectures and other classroom work for two and one-

half weeks between the Christmas vacation and midyear examinations, and for a period of about three and a half weeks prior to the final examinations.

These intervals will remain part of the term, and neither students nor instructors may absent themselves from college without reason.—New Student.

RE-ELECTION OF MAYOR  
CAUSES CELEBRATION

Sirens break the silence of the night!

Some one turned in a false alarm Monday night about 10:30 to celebrate the re-election of Mayor Culbreth. The fire engines came out to the corner of Maiden Lane and Hillsboro Street before they discovered their mistake. They turned back down Hillsboro Street with their sirens going at full blast.

## SELECT STAFF TO HAVE CHARGE OF Y HANDBOOK

Expect to Have It From Printer  
in Time to Send Out to In-  
coming Freshman Class

The staff in charge of the publication of the new Y. M. C. A. handbook has been selected, and report that the handbook will leave the printers in time to send to next year's freshmen before they arrive here in the fall.

This booklet is a great aid to those new men who are not familiar with the campus and its various institutions, clubs, and societies. It is not only the freshman who finds it a valuable source of information. It is a book which has settled many arguments concerning results in the various

## ROBERTS WINS MEDAL

W. L. Roberts is declared the winner of the medal offered by J. A. Park and the Raleigh Times, through Professor Stewart Robertson, for the student getting the largest number of best articles during the year.

The selection of the winner of the best article in the paper of April 23 was accidentally omitted from the paper.

ous athletic contests, as the results of all the contests are recorded in it. Despite the fact that this book has been considered one of the best of its type in the South, the present staff intends to put out an even better one for the ensuing year.

The new staff is as follows: T. C. Davis, Editor; R. I. Mintz, I. G. Smith, Assistant Editors; D. B. Branch, Jr., Business Manager; C. E. Hibbard, Assistant Business Manager.

Doctah, I've jest been bit by a dog. Well, well! Was he a rabid dog. Nassah, Doc! He was jest a plain ole bird dog.—Mountain Goat.

For the first time in her screen career Bebe Daniels will be seen in the guise of a dashing caballero of South America when her latest Paramount picture, "Senorita," comes to the State Theatre Monday and Tuesday.

Not only does Miss Daniels assume masculine disguise in this romantic comedy-drama of a girl who masquerades as a boy, but she completes the disguise by wearing, of all things for Bebe Daniels, a moustache.

Hailed as one of the mile-a-minute type of comedies that established Raymond Griffith as a star, "Wedding Bills," his new Paramount picture, comes to the State Theatre Monday and Tuesday.

The story opens up with Griffith sound asleep at a friend's wedding, but from that point on little sleeping is done, as Griffith labors furiously and uproariously to save his best pal from the machinations of a blonde vamp and to win a charmer of the same preferred coloring for himself.

"Knockout Reilly," Richard Dix's latest starring vehicle, coming Friday to the State Theatre, is the highly exciting cinema record of the hectic adventures of a young steel puffer, who almost overnight finds himself on the verge of pugilistic fame, and whose career is as suddenly blasted by a combination of circumstances that land him in prison convicted of a crime of which he is innocent.

Episode piles on exciting episode as Dix struggles to retrieve his good name. A smashing denouement results in Dix's emerging a pugilistic champion. The thread of the story carries a strong love theme, with Mary Brian as the object of Reilly's affections.

Florence Vidor as a comedienne is the rare treat offered in "Afraid to Love," coming to the SUPERBA Theatre Monday and Tuesday, in which she is starred. Always anxious to demonstrate to the public that she is extremely versatile, Miss Vidor has suddenly switched from powerfully dramatic and emotional roles to light comedy, in which, it is declared, she is a sensation.

Monte Blue, as the valorous young husband who wins through to the love of a woman who married him for the purpose of torturing him for a crime of which he was innocent, is cast superbly. He is called upon to traverse all the heights and depths of feeling, haunted by remembrance of his father's dishonesty, obsessed by the thought that drink must be his escape as it had been his father's, he meets and is wooed by a woman who wins him but to torture him. Then begins the story which is terrific, rollicking, sharp with the tang of the sea, and—see "Bitter Apples" at the SUPERBA Theatre Wednesday and Thursday.

Johnny Hines evidently decided that his latest picture, "All Aboard!" which comes to the SUPERBA Theatre Friday and Saturday, should live up to its title, so he put on his sea legs and filmed an ocean-going sequence, which is said to be one of the most hilarious episodes in the offering. The comedian's supporting cast boarded the Steamship Yale at San Diego and went through considerable bounding on the bounding main to make "All Aboard!" as salty as possible.

The full co-operation of the United States Navy officials at the San Diego and San Francisco bases was given Emory Johnson when he filmed his epic melodrama of navy life and aviation, "The Non-Stop Flight," which comes to the CAPITOL Theatre Monday and Tuesday. The story is the work of the young producer's mother, Emilie Johnson, herself born to the sea and with a long line of Viking ancestors.

George Irving, whose work as the father in Paramount's "The Goose Hangs High," won film signal fame, plays a role as the father of Robert Frazer in "Desert Gold," which comes to the CAPITOL Theatre on Wednesday and Thursday.

The featured players in this production of Zane Grey's story are Shirley Mason, Nell Hamilton, Robert Frazer, and William Powell.

The movies have put another phrase into the English language. This time it is "A Social Celebrity." The casual reader on seeing this may ask: "And, pray, tell me just what is 'A Social Celebrity'?" The answer would seem to be found in Adolphe Menjou's newly completed Paramount production of the same name, which shows at the CAPITOL on Friday.

"A Social Celebrity" presents the star in the role of a barber. Our dictionary gives forth the information that "A Social Celebrity" would be "a renowned member of society." But if we look at the Menjou film we find it's the story of a barber who posed as a foreign count and succeeded in becoming a real success.

## These moderns demand Camels

MODERN smokers are the most critical ever known, and Camel is their favorite. Why?

Camel is the one cigarette that will stand up all day and as far into the night as you care to go.

Modern, experienced smokers know that they can smoke one or a million Camels with never a tired taste or a cigarettey after-taste. Present-day smokers

demand goodness, and find it in Camels—the choicest tobaccos grown and matchless blending. That is why Camel is favorite in the modern world.

If you want the choice of the hardest-to-please smokers of all time, if you yearn for the mildest mildness that ever came from a cigarette—

"Have a Camel!"

R. J. REYNOLDS TOBACCO COMPANY, WINSTON-SALEM, N. C.

## NEW STUDENT GOVERNMENT MEMBERS HOLD FIRST MEET

All Procedure To Be Made Public  
Is New Ruling of Student  
Government

The first Student Government meeting of the newly elected members was held Wednesday night in the Y. M. C. A. building. Several officers were elected and new policies instituted.

Mr. C. W. Jackson was elected to the office of vice-chairman and G. L. Johnson secretary. Both young men have served as members of the house in the past years, and are well qualified to assume their new duties.

Since Student Government became a part of State College, the business

conducted at the meetings has been kept from the public, but upon a suggestion from C. S. Tucker, president, it was decided that all business conducted by the House of Student Government will be made public. The Council will retain its secrecy. C. Z. Bailey was elected Publicity Agent, and all matters discussed by the House will be made public through his writings.

A few words from Tucker regarding

honor on examinations made possible a better idea of duty in the classrooms. Honor shall predominate on examinations in the future more so than ever before.

At the next meeting on Tuesday, May 17, men will be elected to act on the Court of Customs for next year.

Mr. Fred C. Davis presided over the session, which was made up of enough members to constitute a quorum.

## Sigma Nu Dance

The Sigma Nu Alumni of Raleigh honored the Psi Chapter of University of North Carolina and the Beta Tau Chapter of North Carolina State at a dance given Friday evening in the Virginia Dare ballroom of the Sir Walter Hotel.

The dance presented one of the most brilliant and colorful affairs of the social season, with Kite Kyper's playing, which is known throughout the south, with many of North Carolina's most leading social set present, and with the Virginia Dare ballroom as a most beautiful setting, which is pretty within itself with its heavy draperies and crystal chandeliers. A large reproduction of the Sigma Nu badge, with frosted and lighted bulbs representing jewels, extended a welcome to the Sigma Nu guests.

Members of the fraternity formed the Greek letters of Sigma Nu in a figure that was led by Mr. Everett

Huggins and Miss Lattitia Mason, assisted by Mr. Dave Blanton and Miss Isabelle Dunn. During the figure favors, which were attractive jewel boxes, were presented to each Sigma Nu girl.

The members of the Sigma Nu Fraternity and the Sigma Nu girls who attended were: Mr. Frank Williams and Miss Isabelle Dunn, Mr. Karl Kountz and Miss Dorothy Wall, Mr. Claude Matthews and Miss Margaret Sherrill, Mr. Hubert Jones and Miss Anne Elizabeth Houston, Mr. Murray Crawford and Miss Dorris Wooten, Mr. George Towler and Miss Elizabeth Barber, Mr. Bynum and Miss Landrum Norris, Mr. Robert Warren and Miss Jean Wolfe, Mr. Fred Forbes and Miss Ray Anderson, Mr. Fred Latimer and Miss Louise White, Mr. Robert Fenner and Miss Anne Vaughan, Mr. J. Gynre and Miss Adelaide McAllister, Mr. Charles Forbes and Miss Anne Miller, Mr. William Marshall and Miss Fran-

cis Pearson, Mr. Buchanan Carr and Miss Alice York, Mr. Charles Price and Miss Alice White, Mr. Lewis Mann and Miss Merry Clark, Mr. John Crawford and Miss Alice White, Mr. Burke Moyer and Miss Margaret Henderson, Mr. Archie Allen and Miss Lucille Gibson, Mr. Jesse Moyer and Miss Anne Cannon, Mr. Walter Creech and Miss Bruce Tucker, and Mr. Blanton and Miss Elizabeth Thornton.

The Sigma Nu Fraternity will entertain their guests at a banquet tonight at 7:30 o'clock in the Peacock Alley Tea Room.

## Alpha Zeta Pledges

Alpha Zeta, national honorary agricultural fraternity, announces the pledging and initiation of W. P. Albright, of Greensboro; P. H. Mast, of Valle Crucis, and J. J. Morgan, of Spring Hope.

## Stag Weiner Roast a Success

The Freshman Friendship Council stepped aside from its regular routine program and had a weiner roast at Lassiter's Mill Saturday evening, May 30th.

Although there was a strong wind, increasing the danger of forest fires, it did not take long to get a bed of red coals to roast the "dogs" and toast the marshmallows.

After the cooking was dispensed with, Mr. King briefly summarized the work ahead of the council next fall, and in this he said that the work of setting the new men accustomed to college life and making them feel at home as much as possible the first few days was up to the Freshman Friendship Council. At the conclusion of Mr. King's remarks, a hasty departure was made because of the impending storm.

## Terpsichorean Dance

The Terpsichorean Club entertained at a dance last Saturday evening at nine o'clock at the Woman's Club. It was an unusually enjoyable occasion, with "Ig" Hunter's Black Diamond Band featuring.

Mr. Allen Watkins is attending the dances and May Day of Sweetbriar College at Lynchburg, Va.

Mr. Nick Ayers has returned to the campus after attending several dances in Charlotte during the week.

Mr. Gus Bailey, an alumnus of State College, is spending a few days with fraternity brothers while on his way

home from a hunting expedition in South America.

Mr. George Fowler, a former State College student, has arrived in the city to attend the Sigma Nu dance.

Mr. "Moco" Byrum, a former State College athlete, has located in Raleigh permanently after working in Georgia.

There will be a Terpsichorean Club dance Saturday afternoon from 3 to 6:30 o'clock at the Woman's Club in honor of the visiting guests. Shan Johnson and his Floridian Orchestra from Tampa, Florida, will play.

W. E. Schrader, of Chicago, has been visiting his fraternity brothers at the Pi Kappa Alpha House, 1910 Hillsboro Street, for the past two weeks.

W. L. Roberts, R. R. Fountain, F. S. Sloan, R. S. Gaston, A. L. Aydtett, W. E. Wilson, John Anderson, and J. Shuford are attending the N. C. Collegiate Press Association Convention at N. C. C. W. in Greensboro.

## Phi Pi Phi Installation

The new Xi chapter of Phi Pi Phi celebrated its installation at N. C. State College by a banquet held at the Woman's Club Friday evening at 7 o'clock, which was followed by a dance the same night in the Frank Thompson Gymnasium from 9 to 12, and then a theatre party at the State Theatre Saturday night.

The dining-room of the Woman's Club was lovely in its decorations of brightly colored flowers and the fraternity colors of turquoise blue and black. Attractive silver compacts bearing the coat-of-arms were presented as favors to the girls who were guests of the fraternity.

W. K. Enos acted as toastmaster for the evening, and speeches were made by Fred M. Clarke, Victor B. Scott, of Chicago, and Stewart Robertson. A delicious four-course dinner was served.

The guests were: Miss Elise Partin with W. K. Enos; Miss Carrie Bell Kernode, of Burlington, with G. F. Hackney; Miss Eula Beth Warner with W. V. Eller; Miss Hannah Flint with W. A. Hood; Miss Anna Andrews with P. F. Winkler; Miss Catherine Sharpe, of Florence, S. C., with Bert Flowers; Miss Sarah Robinson, of Charlotte, with J. T. Alexander; Miss Frances Oates, of Charlotte, with J. E. Alexander; Miss Virginia Andrews with S. E. Shepherd; Miss Dorothy Franklin, of High Point, with M. J. Polk; Miss Evelyn Crater, of High Point, with H. H. Culler; Miss Virginia Harden, of Elon College, with O. N. Henley; Miss Louise Guess with J. J. Dale; Miss Frances Buse with C. M. Cooper; Miss Peggy Suggs with C. K. Little; Miss Daniel Woodson with Sammy Holt; Miss Augusta Hobbs with E. A. Wright; Mr. and Mrs. Stewart Robertson; C. G. Taylor, Luther Shaw, and E. W. Weant. The following members from the national chapter: Fred M. Clarke, Arnold C. Van Zandt, Victor B. Scott, all of Chicago.

Following the banquet the members of the fraternity and their guests journeyed to the Frank Thompson Gymnasium where a most enjoyable ball was held.

Never has the gymnasium appeared more attractive than it did in its decorations of Phi Pi Phi colors of turquoise blue and black, which were artistically arranged from the center of the ball room to the sides. An electrical reproduction of the fraternity pin was at the far end of the ball room welcoming each one as they entered, and the banner was at the other end.

A feature of the evening was the grand march, led by W. K. Enos and Miss Elise Partin. Confetti and serpentine were given to the dancers. A no-break Phi Pi Phi dance was given for the members of the fraternity and their escorts. The Carolina Buccaneers furnished music for the occasion.

The chaperones were President and Mrs. E. C. Brooks, Dean and Mrs. E. L. Cloyd, Dean and Mrs. B. F. Brown, Major and Mrs. C. C. Early, Mr. and Mrs. Stewart Robertson, Mr. and Mrs. Smythers, and Mr. and Mrs. J. F. Miller.

## State College Woman's Club

The State College Woman's Club met April the 29th at the College Y. M. C. A. with Mrs. T. M. Gray, president, presiding.

The regular program was omitted, and the annual election of officers was held. Mrs. Greaves-Walker was elected president; Mrs. E. W. Boshart, secretary; Mrs. E. L. Cloyd, treasurer, and Mrs. Tal Stafford, auditor. The constitution of the club was read and several changes made.

Mr. Miller of the department of athletics presented the club with complimentary tickets to the Duke-State baseball game which was played on Riddick Field April the 30th.

Mr. Edward Ruffy, Mr. Hub Sullivan, Mr. Henry Coley, and Mr. Red Dabbs attended the initiation of the Governor of Virginia into the Sigma Phi Epsilon fraternity. The initiation was at Richmond, Va., last Saturday.

Mr. Fred Forbes and Mr. William Taft spent last week-end in Greenville with their parents.

Mr. Harry McCall is spending the week-end with his people in Marion, N. C.

Mr. T. Norman Smithwick, of La-Grange, spent the week-end at the Pi Kappa Phi House on Hillsboro Street.

Mr. Charles (Buck) Carr of the University of North Carolina is spending the week-end at the Pi Kappa Phi House while attending the Sigma Nu and Alpha Gamma Rho dances.

Mr. C. Z. Bailey is spending the week-end in Louisburg visiting friends.

## VISITORS THINK WELL OF STATE

Messrs. Fred M. Clarke, Victor B. Scott, and Arnold C. Van Zandt, officers of the national fraternity Phi Pi Phi, which installed a chapter at State College last Friday, were very much pleased with State College and Raleigh.

"You may think of me hereafter as North Carolina's chief booster in Chicago," said Mr. Scott, who is a corporation lawyer in that city. "I have enjoyed my visit here tremendously."

"The extensive and practical research conducted at State College in the various schools of Agriculture, Engineering, and Textile elevates this institution to a high peak of service in the life of the State, it seems to

me. I wish I could have met your president to tell him this, but I am told he is absent from the campus on a very important mission," said Fred M. Clarke, president of the fraternity. Mr. Van Zandt spoke glowingly of the charm and beauty of the campus just now, and of the cordial welcome extended them by the members of the college community and of Raleigh.

## Alpha Gamma Rho Dance

The Alpha Gamma Rho Fraternity will give its annual Founders' Day dance tonight, in the Frank Thompson Gymnasium from 9 o'clock to 12.

## K.I.E. House Party

The Kappa Iota Epsilon, the oldest local fraternity on the campus, are entertaining the guests of the Sigma Nu Fraternity at their home on Hillsboro Street to a house-party during the Sigma Nu, Alpha Gamma Rho, and Terpsichorean dances.

Mrs. Freeman and Mrs. Radford, the chaperones, served punch and sandwiches to the guests, following the Sigma Nu dance. The guests are Misses Alice York, Lib Thornton, Annette Boney, Anne Miller, Francis Person, Alice White, Lucille Gibson, Anne Cannon, John Balk, Bruce Tucker, Sarah Horton, Doris Wooten, Jean Wolfe, Isabelle Dunn, Margaret Henderson, and Dorothy Wall.

Carolina Power & Light Company

**Duplex-a-lite**  
"The light to live with"

More than 60 per cent of the mechanical power used by American industry is applied through electric motors. But the electrification of the tasks performed by man power has hardly begun. Electric power not only saves dollars; it conserves human energy for better purposes and raises standards of living. College men and women may well consider how electricity can lessen the burdens of industry and of farm and home life.

You will find this monogram on all kinds of electric equipment. It is a symbol of quality and a mark of service.
