Oberholzer Will Compete In National Oratorical Contest

Will Hold Contest in Los Angeles June 23; Win in Southern Contest Last Week in Asheville Entitles Him to Go to National Meet in California

TWO STATE COLLEGE MEN TO COMPETE IN ORATORY

Oberholzer is Southern, South Atlantic, and State Champion in Oratory Work

By winning the Southern Oratorical Contest held in Asheville Friday, H. J. Oberholzer, of Orange, Frodo State, South Atlantic, will represent North Carolina State College in the national contest, which is to be held at Los Angeles on June 23. The title of his oration was "The American Road."

Two N. C. State College men will enter the national contest. There is no other college or university in the United States that can boast of this record.

Last week Hardy M. Ray, of Raleigh, student at Northwestern University, added to the oratorical laurels won by North Carolinians, having won the Central Regional Contest held in Detroit, Mich., which entitles him to enter the national contest in June. "Diddy," a former State College man, won the state championship for Illinois, and entered the contest at Detroit which included seven states. "Diddy" while at State College won the state championship last year and competed in the Southern meet at Nashville, Tenn. Both of these men received their training under Professor Cunningham, head of the Public Speaking Department here.

The Southern contest was unique in some respects. For the first time in the South, women speakers entered and advanced to the interstate contest. Tennessee was represented by Miss Jean Pettit, of the University of Chattanooga, and Miss Mary Frances McDearman, of the Women's College of Alabama, represented "Bama."

The orators that competed in this contest were respective champions of their states, namely: South Carolina, North Carolina, Virginia, Georgia, Alabama, and Tennessee.

Moreover, this was the first time that a similar contest was held in a city in which there was no college to sponsor the event. Professor Cunningham was loud in his praise for the interest the people took in the contest, and especially the royal entertainment given the speakers by the Kiwanis Club.

The judges of the contest were: C. H. Trowbridge, President of Weaver College; Edwin Bjorkman, noted writer and critic; Dr. Ashley Chappell, pastor of the First Methodist Church, South; Judge Carl B. Hyatt, and Thomas J. Harkins.

A. H. SENIORS-JUNIORS SECURE DAIRY POSITIONS

Seven Members of Graduating Class Placed With Plants Throughout State

Seven Seniors and six Juniors of the Animal Husbandry Department have been placed with dairies and dairy manufacturing plants of the State.

One Senior, A. F. Daugherty, will be with the Carolina Ice Cream Company of Asheville. The others will be in the production line. M. C. German is going to the Mountain Park Institute at Wilkes, N. C. He will have charge of the farm and live stock, and will also teach. B. A. Sides will do cow testing work with the cow-testing association at Greensboro. R. Strider will have charge of the farm and will teach at the Farm-Life School at Star, N. C. R. E. Nance will stay with the college swine department. R. W. Zimmerman and O. C. Worth are returning to their homes to take up dairying.

Two Juniors, W. C. Orders and J. F. Lutz, will be in the dairy manufacturing field. Orders will be with the Mooresville Ice Cream Company of Mooresville. Lutz will be with Pine State Creamery Company of Raleigh. R. A. Meares, J. H. Pope, T. L. Moore, and N. L. Hendrix are the Juniors going into the production field. Meares will do cow testing with the Winston-Salem Cow-Testing Association. Pope, Moore, and Hendrix will be with the college dairy.

ENGINEERS ELECT NEW OFFICERS AT BANQUET

G. P. "Spike" Hall Elected President and "St. Pat." for Next Year's Engineers' Day

At an engineers' banquet held in the "Y" dining-room Thursday, May 19, G. P. "Spike" Hall was elected President of the Engineers' Council and "St. Pat." for 1928.

John A. Anthony, "St. Pat." and retiring president, acted as toastmaster for the occasion.

Professor A. F. Groaves-Walker spoke on "The Objects of the Engineers' Council."

He stressed as the principal aims the unifying of the engineering students, the development of an "esprit de corps" among engineering students, the development of combined meetings of the technical societies, and the promotion of Engineers' Day. He also called attention to the necessity of carefully selecting the new "St. Pat." in order to further strengthen the tradition started this year that the office shall be conferred upon the outstanding engineer of the campus.

Dr. W. C. Riddick spoke on "The accomplishments of the retiring council and the program of the new council." Dr. Riddick gave high praise to the men who, without any precedents upon which to work, had so splendidly developed the program for Engineers' Day, and had done so many other things for the good of the School of Engineering in general. He urged the new members to set an even higher mark if that were possible. He also strongly urged the —Continued on page 2.

CERAMIC STUDENTS ACCEPT POSITIONS

The first two graduates in ceramic engineering, L. R. Whitaker and E. N. Brackett, have accepted excellent positions and will report for duty immediately after commencement.

Whitaker will be connected with the Moland-Drysdale Corporation of Hendersonville, N. C., as ceramic engineer. This company operates one of the most modern face-brick plants in the south. Brackett will be assistant to the construction engineer at the plant of Taylor, Smith & Taylor, Chester, W. Va. This company is one of the largest manufacturers of dinner ware in the country, and is spending approximately a half million dollars in the erection of a plant of the latest design. Both men have been promised an excellent opportunity for rapid advancement.

All of the undergraduates in the Department of Ceramic Engineering have been located in plants, principally in North Carolina, for the summer, and will report to their employers soon after examinations have been completed.

DR. MAYER TO TAKE ANDERSON'S PLACE

The vacancy created in the botany department by Dr. Anderson's departure to Austria is to be filled by Dr. F. Mayer of Ohio State University.

Dr. Mayer, who has just received his degree as a doctor, is a personal friend of Dr. Anderson's, and will remain at State College until Dr. Anderson's return.

W. E. WILSON

Represents Engineering School in Oratory

R. R. FOUNTAIN

Commencement Orator for School of Agriculture

Men of National Prominence for Commencement Speakers

The speakers for the thirty-fifth annual commencement exercises at State College will be Rev. M. Ashby Jones, pastor of the Second Baptist Church of St. Louis, and Hon. Robert Archer Cooper, ex-governor of South Carolina. Dr. Jones will deliver the baccalaureate sermon in Pullen Hall on Sunday evening, June 5. Mr. Cooper will deliver the commencement address Tuesday morning, June 7, in Pullen Hall.

Rev. M. Ashby Jones, D.D., who is to preach at 8:30 on the evening of Sunday, June 5, the baccalaureate sermon in Pullen Hall, is pastor of the Second Baptist Church of St. Louis, Missouri.

Dr. Jones, born in Lexington, Virginia, attended Washington and Lee University, the University of Virginia, and the Southern Baptist Theological Seminary. He has served pastorates in Virginia, Kentucky, and Georgia. Before going to St. Louis, about a year ago, he was pastor for nearly ten years of the Ponce de Leon Avenue Church in Atlanta.

Dr. Jones is a son of the late Dr. J. William Jones of Richmond, Virginia, whom hundreds of southern people have heard deliver eloquent lectures on Lee and Jackson.

His church has honored Dr. Jones with membership on several national committees, thus recognizing him as one of the leaders of his denomination. His human sympathies, as well as additional distinctions, are evident

in his being a member of the Kappa Alpha fraternity, Phi Beta Kappa, a Mason, and a Rotarian.

The commencement address, at 11 o'clock on Tuesday morning, June 7, will be made by the Hon. Robert Archer Cooper, ex-governor of South Carolina and commissioner of the Federal Farm Loan Board, Washington, D. C.

Governor Cooper was born in Laurens, South Carolina. He was admitted to the bar in 1898, and began the practice of law in his native city. Successively a magistrate, member of the state legislature, and for several terms solicitor of his circuit, he was elected, in 1919, governor, and served two terms. Before the end of his second term he was appointed a member of the Federal Farm Loan Board, and, in 1923, a commissioner of this board.

Governor Cooper's interest in education, as well as the high esteem in which he is held at home, is attested by his being a trustee of Furman University and of Anderson College, Baptist institutions of South Carolina.

He is a distinguished lawyer, a statesman with a high and worthy record, a national figure in his work in the interest of farmers, a most valuable public citizen. State College and the community will look forward with interest and pleasure to hearing the messages of these two national figures.

COMMISSIONS PRESENTED SENIORS AFTER PARADE

Dr. Brooks Reviews Final Parade of Year; Forty-four Get Commissions

The annual president's parade was held Tuesday at noon on Red Field. Forty-four members of the senior class of the R. O. T. C. unit filed past Dr. Brooks and received his congratulations and then received from the hand of Col. J. W. Harnelson the papers which make them officers in the Reserve Army of the United States.

The final parade of the year was reviewed by Dr. Brooks and Captain Newgard, acting in the capacity of Major Early, who has been forced to get about on crutches for the past few days. At the conclusion of the parade the seniors who were to receive commissions as second lieutenants of the reserve army gathered about in a semi-circle and were addressed briefly by Colonel Harnelson and Dr. Brooks.

A beautiful cup was presented to Frank J. Williams, of Monroe, for the proficiency of his company during the year. Williams has served during the past year as captain of Company "H," and won the distinction for the best drilled company at the recent competition. He is a senior in the school of engineering. The cup was donated by Mr. C. E. Bowman, of the Bowman Jewelry Company, and was presented by Major Early.

The men who received commissions were: F. M. Chedester, Asheville; E. C. Clark, Clarkton; M. C. Comer, Greensboro; C. M. Cooper, Dunn; M. L. Crawford, Kingston; C. B. Jensen, Raleigh; W. N. Denton, Raleigh; W. K. Enos, Lexington; M. F. Fairchild, Mooresville; E. A. Feimster, Norfolk; R. H. Fentress, Woffordville; E. L. Franklin, Altamont; B. W. Garvin, Wagoner, S. C.; C. J. Goodman, Oakboro; P. T. Green, Cerro Gordo; T. C. Harrell, Shelby; J. R. Herman, —Continued on page 2.

DEMAND FOR MECHANICAL SENIORS EXCEEDS SUPPLY

More Positions Offered to Graduates Than the Department Can Fill

The demand for the graduates of the Mechanical Engineering Department of North Carolina State College again exceeds the supply. For the past several years this department has not had enough graduates to fill all of the positions which have been offered. The same condition applies this year.

Mr. John A. Anthony, Jr., of Shelby, N. C., will go with the Westinghouse Electric and Manufacturing Company at East Pittsburgh, Pa.

Mr. J. D. Conrad, of Lexington, N. C., will go with the same company, but will enter their employ at the South Philadelphia branch. The South Philadelphia works of this company specialize in steam turbines and automatic stokers.

Mr. W. C. Williamson, of Raleigh, goes with the Bell Telephone Company of Philadelphia, Pa. He is the first man from the Mechanical Department to go with this company at this place. He will enter their construction division.

Mr. W. A. Yost, of Raleigh, goes with the Elliott Company at Jeanette, Pa. This company makes a wide variety of products, including condensers and dehydrators.

Mr. Locke M. Stuart, of Jackson Springs, N. C., goes with the Frick Company at Waynesboro, Pa.

Mr. R. A. Kendrick, of Fallston, N. C., goes with the Frick Company at Waynesboro.

The Frick Company has never failed, for the past several years, to request graduates of the Mechanical Engineering Department from this institution. All of the men who have gone from here with the Frick Company are still in the employ of this —Continued on page 2.

1927 Agromeck Said to Be An Agreeable Surprise Annual

H. E. SPRINGER

Orator for School of Science and Business

ALL CHEMICAL SENIORS GET GOOD POSITIONS

Number of Juniors and Sophomores Also Get Work for the Summer

All of the ten members of the senior class in Chemical Engineering have been given positions of responsibility and opportunity. Most of the men will be located in North Carolina, although some of them have accepted work in other states.

W. H. Barkley will be doing control work in paper manufacturing in the Champion Fiber Company. D. Y. Brannock, who completed the work for his degree in March, is now at work with the International Health Board. C. O. Butler will be in charge of the water purification plant at Southern Pines. The Aluminum Company of America has offered a position to W. K. Enos in the reduction works at Badin. C. B. Deason has accepted a position in the varnish and lacquer plant of DuPont Company in New Jersey. C. S. Grove will be assistant to his father in the Hickory Manufacturing Company.

Since last summer E. F. Monroe has been employed by the Carolina Power and Light Company in its gas division. At graduation he will be sent by this company to Boston for two months to study the details of gas manufacturing by the Metropolitan Gas Company. On his return he will take active charge of the gas manufacture of the company's plant in Raleigh.

J. W. Perry has been granted a research fellowship at State College. The Buckeye Cotton Seed Oil Company, a subsidiary of the Proctor-Gamble Company, will have F. L. Snipes in charge of a unit of its manufacturing division. D. B. Wickler will be with the American Rolling Mill Steel Company in their Middletown, Ohio, plant.

A number of undergraduates are accepting positions for summer employment. Of the Junior Class, P. M. Smith, L. T. Richardson, and P. J. Smith will be employed by the American Rolling Mill Company at its Ashland, Kentucky, steel plant. The other Juniors and some sophomores will attend the R. O. T. C. camp. The Champion Fiber Company has called for four freshmen and sophomores to work with them during the summer.

A number of good positions have been available for the graduating class which could not be filled for the lack of a sufficient number of men.

MISS BETTY SUTTLE

F. G. "Tubby" Logan, captain of the 1926 Wolfpack, has been given the honor of having the most beautiful sponsor in the 1927 Agromeck, "Tubby's" sponsor was Miss Betty Suttle, of Shelby. The honor of having the best snapshot goes to M. L. Rockfield. The snapshot was of Miss Virginia Rogers, of Raleigh. While the honor of composing the best senior write-up goes to W. E. Wilson.

The above honors were decided by Edwards & Broughton, printers of the Agromeck, who will give a copy of the Agromeck with the winner's name on it.

Binding Uniform With That of Yearbooks Past Three Years, Although Not as Thick

"EVERY IDEA ORIGINAL" AND ALL NEW THROUGHOUT

Book Is Dedicated to the "Young Womanhood of North Carolina—the College Man's Inspiration Today, His Guiding Spirit Tomorrow"; Full Color Picture of Miss Annette Boney, Goldsboro, Used as Representative of Women of the State.

"Every idea in the book is original; every page has been placed in its position for a reason. The book is new from cover to cover." So said The Technician of May 7, while the 1927 Agromeck was on the press.

A good-natured public is used to assuming that a forthcoming college annual, like a circus or a state fair, is to be "the best ever." If the claims made are fulfilled, the public is agreeably surprised; if they are not, it is indulgent.

The 1927 Agromeck is of the "agreeable surprise" type. It fulfills in a gratifying literal manner the claims which have been made for it. This reviewer is not qualified to compare this Agromeck with Agromecks of earlier years, but judging it solely upon its own merits, he can readily appreciate the opinion of printing experts who say that it is "the best annual that has been seen in the South this year." In its luxurious format, in its freedom from slips of editing and proof-reading, and in its originality, the 1927 Agromeck reaches a high plane of excellence as a college yearbook.

In binding it is uniform with the Agromecks of 1924, 1925, and 1926. Although not quite as thick as that of 1926, it has well over four hundred pages.

The book is dedicated to "The Young Womanhood of North Carolina—the college man's inspiration today, his guiding spirit tomorrow." Opposite the dedication, in full color, is a picture of Miss Annette Boney, of Goldsboro, "chosen by her fellow—Continued on page 2.

W. B. COBB SPEAKS TO GREENSBORO KIWANIS

Plans Made For International Soil Congress Meet in Greensboro, June Twenty-third

Professor W. B. Cobb of the Department of Geology and Soils was the principal speaker at the Greensboro Kiwanis Club luncheon on May 19. The Kiwanis Club had as its guests the farmers of Guilford County.

Professor Cobb spoke on the importance of co-operation between the business men of the county and the city. He pointed out that the problem of soil fertility was one of the first and greatest problems these men must solve in the country.

Plans were also started at this meeting for entertaining the International Congress of Soil Scientists which will visit Greensboro June 23. This congress meets for the first time in Washington, D. C., June 13-22. The officials will then make a tour of the United States to study the main soil types found in this country.

Greensboro will be the first stop, and is the only all-day stop on the entire tour. The day will be spent walking over the Piedmont section and inspecting the Piedmont soils. These soils are rapidly becoming known the world over for their unusual and peculiar qualities.

Professor Cobb will attend the meeting in Washington, and will read a paper before the congress dealing with the work of his department. North Carolina is leading the world in the study of soil types and the fertilizer needs of each particular type.

L. G. Willis, Soil Chemist with the State Extension Department, and F. O. Bartel, Associate Drainage Engineer of the United States Department of Agriculture, connected with the North Carolina Extension Department, will also present papers at the meeting. These papers will give the Congress first-hand information of the work being done in North Carolina.

State Students Will Attend 'Y' Conference at Blue Ridge

E. S. KING

The Southern Student Conference of the Young Men's Christian Association will be held this year June 17-26, on the splendid conference grounds at Blue Ridge, N. C.

State College is always represented at this conference and plans are now being made to send a good delegation. The conference is not restricted to cabinet members. Any student or faculty man is eligible. It is especially desirable that the campus leaders at State, such as the president of the student body, the editor of The Technician, the editor of the Agromeck, the editor of The Wataugan, and captains of athletic teams should go. In addition to getting the benefit of the program our campus leaders have the opportunity of mingling with campus leaders from the colleges of the Southern states.

State College has been sending delegates to this conference for 20 years and as far as it is known not a single one regrets going. On the other hand there are many who say they count the ten days spent there among the best in their lives.

Program

The program of this conference is not cut and dried. The delegates themselves will say what the problems are that they are facing in their personal lives, on the campus and in their communities. The process by which these problems will be dealt with is as follows:

1. After the morning sessions are over the (student) discussion group leaders will meet with the executive committee to determine what interest, subject, project, should be treated next.
2. After supper, 7 o'clock, the conference will meet in small fellowship groups for 30 minutes to break open the problem which has been decided upon.
3. From 7:30 to 8:30 there will be a hillside address at which the speaker

will speak on "Jesus' Attitude Toward This Problem."

4. At 8:30 next morning there will be a brief devotional period.

5. At 9:00 o'clock there will be a forum at which at least two persons will speak briefly (15 minutes) on "Helps From Science on This Problem" and "Helps From Experience on This Problem," after which there will be a 30-minute question and answer forum period.

6. At 10 o'clock is a 45-minute unscheduled period for personal conference and fellowship.

7. From 10:45 to 12:00 the conference divides into the real discussion groups, under student leaders who have been trained in the technique of leading groups. The topic for discussion will be, "How does all this affect us in our personal lives, on our campus, or in our community?"

Here ends the day. The program is under the direction of Dr. W. E. Uphaus, who is one of the best educational experts in the South. Men of wide information and experience will be there to present "the attitude of Jesus" toward the problems and to bring help from "Experience and Science."

Other features of the program will be training in technique of association work, and college singing. Time will be allowed for editors of college papers, presidents of student bodies, and other campus leaders to get together.

Recreation

The work of the conference all comes in the morning and at night. The entire afternoon is left free for recreation and sport. The Blue Ridge grounds comprise about 1,500 acres in the most beautiful part of Western North Carolina. On these grounds there are plenty of tennis courts, a volleyball court, basketball court, baseball diamond, a swimming pool, and a lake. Daily hikes are arranged to nearby mountain peaks and points of interest. After the close of the confer-

ence a trip is arranged to Mount Mitchell, the highest peak this side of the Rockies.

Expense

The conference registration fee is seven dollars and the hotel bill for the ten days is twenty-five dollars. The railroad gives summer rates, but many delegates prefer to catch a ride and save this expense.

State Must Be Adequately Represented

Carolina has already signed up fifteen men to go and expects to get at least twenty more. It is time for State to get busy. Those interested in going should see W. F. Albright, the chairman of the conference committee, J. B. Britt, or H. K. Platt.

If any man is in doubt as to the value of the conference let him talk to some of the men who have been. Among these are Dean Cloyd, "Railroad" Fountain, J. E. Tiddy, Dr. J. A. Ellis, J. E. Moore, David Worth, and "Bappy Mack."

Engineers Elect New Officers at Banquet

(Continued from page 1)

graduating members to strengthen their profession by making their motto "Service to Our Fellowmen."

Following the speeches the retiring treasurer, "Billy" Denton, reported the receipt and expenditure of \$524 during the year.

President Anthony then called for the election of officers, the result being as follows:
President—"St. Pat."—G. P. Hall, Arch. E., '28.
Vice-President—P. E. Trevathan, Cer. E., '28.

Secretary—Jeff. Davis, E. E., '28.
Treasurer—A. McK. Greaves-Walker, Cer. E., '29.

The members of the 1927-'28 council are:

- Electrical Engineering—J. M. Kilgore, Jeff Davis.
- Mechanical Engineering—R. M. Rothgeb, B. A. Preslar.
- Civil Engineering—E. D. Hubbard, H. L. Davenport.
- Ceramic Engineering—P. E. Trevathan, A. McK. Greaves-Walker.
- Chemical Engineering—R. W. Hayward, Jr., J. W. Norman, Jr.
- Architectural Engineering—G. P. Hall, D. N. Bordner.

The council unanimously elected the retiring faculty advisers to serve another year. These advisers are Dr. W. C. Riddick, Professors Harry Tucker, A. F. Greaves-Walker, W. J. Dana, and C. W. Ricker.

Commissions Presented Seniors After Parade

(Continued from page 1)

Newton; L. R. Humbert, Polkton; H. G. Lee, Lexington; G. M. McCown, Florence, S. C.; D. M. McMillan, Wade; E. W. Matthews, Laurinburg; G. E. Mitchell, Kernersville; L. B. Mills, Scotland Neck; E. F. Monroe, Biscoe; C. G. Montgomery, Haw River; J. G. Moss, Durham; C. H. Pruden, Windsor; D. A. Purcell, Wentworth; H. W. Regan, Greensboro; C. G. Rice, Raleigh; L. E. Robbins, Raleigh; W. F. 1927 Agromeck Said To Be An "Agreeable Surprise" Annual

(Continued from page 1.)

students at the North Carolina College for Women as typical of North Carolina's Young Womanhood."

The contents are divided into six major sections: the college; sponsors; athletics; military; organizations; college life. At the end are the usual advertising section and index.

At the beginning of each of the six sections is a page bearing a reproduction of the cover design, with—instead of "The Agromeck, 1927"—the name of the section to follow. On each of these pages is an appropriate eight-line poem by A. M. Fountain. Unfortunately, the backgrounds are so dark that the poems are almost illegible.

In the college section are eight pictures in color of college buildings and campus scenes. Accompanying these pictures are borders in light brown representing the memorial tower at left and right and underneath a panorama of the college. In this connection it might be said that the art work of the entire book is especially worthy of attention. Striking borders of several designs, especially drawn for The Agromeck, are effectively used throughout. There are also a number of characteristic cartoons, notable among them being those which precede each of the four class divisions.

Some ninety pages are devoted to the senior class. One page is allotted to two seniors. It is noticeable that the senior pictures are not up to the standard of excellence that prevails in the book as a whole.

Accompanying each senior's picture is a snapshot of a young lady. An exception—a snapshot of a young man—is to be found with the picture of the "co-ed" of the class. Two

NOTICE, JUNIORS!

There are only a few more days in which orders will be taken for rings for delivery next fall. After this order you will not be able to secure your ring until late next term. Stop by the Student Supply Store and order your ring now, and save being disappointed when you return. The deposit will be larger on all late orders.

1928 RING COMMITTEE.

W. E. Wilson's Work As Wataugan Head Lauded By Faculty Committee

A committee composed of Professors Ladu, Keeble, and Marshall has reported that W. E. Wilson, editor of the Wataugan, made the most outstanding contribution to the magazine throughout the year. The editorials which he contributed show a high degree of skill in writing and a marked degree of courage in attacking problems—local and otherwise.

The second rank of merit in making general contributions in the estimation of the committee is held by E. H. Roberts.

The best single contribution made to this college publication is "Moon Madness," written by A. J. Clarke, and published in the March issue.

The committee of judges were especially impressed by the improvement which Volume II of the Wataugan shows over Volume I. It is their opinion that the magazine already possesses elements of note, and they predict that greater advancement in its composition and thought will be made on the basis of the efforts of the staff and contributors during the past year and a quarter.

pages are given to picturing the class superlatives.

The juniors are pictured individually, and seven to a page. Seven pages are given to individual pictures of the sophomores. The freshmen are microscoped into a single group. With each of the classes a page is given over to the class officers.

In the sponsor section are twenty-four full-page pictures. Upon the last page of the section are these apt words: "North Carolina's Young Womanhood, the art theme and inspiration of this volume, is well represented by reproductions in the foregoing pages."

The athletics section gives in both picture and prose a comprehensive summary of the year's activities in athletics. The freshmen, be it said, are here given a due share of attention.

The thirty-page military section is almost altogether pictorial. A unique feature is "Evolution, or the Military Ladder," six pages of snapshots which represent many phases of student-soldier life.

The fifth section, covering a wider range of activities than any of the others, is that for organizations. It includes clubs, publications, and fraternities. The great number and varied character of the organizations treated within these one hundred and twenty pages prohibit an adequate review here.

The college life section touches upon some of the social functions of the year and brings out—by means of snapshots, cartoons, and bits of humor—some of the lighter aspects of college life.

The last page is one of appreciation for the services of persons who aided the staff in preparing the book. This appreciation is signed by John Anderson, editor-in-chief; Henry Weedon, business manager, and Joe Shuford, managing editor—to whom, in turn, will go a great measure of the appreciation of The Agromeck's readers.

Demand for Mechanical Seniors Exceeds Supply

(Continued from page 1)

company. Some of them are now located in the South. This speaks well for the company and for our graduates.

Mr. B. K. Jones, of Raleigh, goes with the International Motor Company at Allentown, Pa. The International Motor Company manufactures the Mack truck. Mr. Jones is particularly interested in automobile work.

Mr. C. H. Pruden, of Windsor, N. C., has accepted a position with the Newport News Shipbuilding and Dry Dock Company at Newport News, Va.

A large number of our graduates are employed by this company. These constitute the Tidewater Alumni Association of North Carolina State College, which is one of our strong alumni organizations. The Newport News Shipbuilding and Dry Dock Company was desirous of securing some other men from this year's class.

Mr. J. M. Williamson, of Raleigh, goes with the Allis-Chalmers Company of Milwaukee, Wis.

Mr. R. L. Wooten, of Kinston, N. C., will continue his work at North Carolina State College.

Mr. D. R. Pace goes with his father in Hendersonville, N. C.

Edgeworth is always good on the draw

Dr. Forster Attending Agricultural Meetings To Get Research Data

Dr. G. W. Forster, chief of the Department of Agricultural Economics, left Raleigh last Friday for the purpose of attending a series of meetings, together with other leading agricultural economists.

The object of the trip is to gather certain data required by the Department of Research, Washington, D. C.

Dr. Forster will visit the following places: Kentucky, Tennessee, West Virginia, Virginia, Washington, and Maryland. At each of these places

meetings will be held at various federal and state institutions. Each research project will be studied in detail, and a comprehensive report will be prepared for each institution.

A final meeting will be held at Hanover, New Hampshire, on August 15, together with other members who have carried on similar work in other sections of the country.

At this meeting all the reports of the various states and state institutions will be compiled into one official report, as required by the United States Department of Research.

Track Season Very Good As Is Shown By Resume of the Meets

Only to Duke and Carolina Out of Five Scholastic Meets; Washington and Lee Meet Held Out; Win Both on Trip to South Carolina; State Men Hold New Records; Third in State Meet and Fifth in South Atlantic Meet.

The N. C. State College track team went through one of the most successful seasons that they have had during the past few years. While the team did not make as good showing as it did last year, they lost only two dual meets. One of the dual meets was to Carolina and the other to Duke University. Duke is rapidly advancing to the front among the state's athletic circles.

Beat Davidson
The team opened the season with meet against Davidson. The Wildcats were left with the small end of the 82-44 score to hold. The Techs took eleven first places and six seconds and several thirds. Jack McDowell was in rare form and broke his own record in the high jump, jumping over six feet. Currie Davidson, McDowell and Gorham (State) were the high scorers with 22 points each.

Tigers Met
The next team to be met was the Clemson "Tigers." They likewise went down in defeat, losing by the score of 67 to 59. Odell (Clemson) was high scorer with 12 2-3 points to his credit. Goodman (State) was second with 22 points.

Gamecocks Overwhelmed
The State team was far superior to the University of South Carolina

BRUCE GORHAM ELECTED LEAD 1928 TRACK TEAM; SUCCEEDS DOODLE SIDES

Bruce Gorham, of Rocky Mount, was elected to the captaincy of the 1928 Tech track team at the meeting of the letter men held last week.

Gorham runs the dashes and has been State's main standby in those events for the past two years. He is a junior in the engineering school. Gamecocks and licked them. State took all places but one third place in the dashes. Sides was high scorer of the meet with 15 markers on his side of the sheet.

Lose to Heels
The first upset of the season was handed the State team by the University of North Carolina Tar Heels. They bested the Sermonites 77 1-3 to 48 2-3. The Heels showed complete superiority in the distance runs. State battled the Heels on even terms in the other events.

Second Defeat
The second upset of the season was at the hands of the Duke University cindermen. They won, 76 1-3 to 49 2-3. The State dash men showed up well, taking several places in those events, the most exciting of which was the 440-yard dash. Sides made his usual last curve pull for home, and dashed over the tape in the lead. Melton and Goodman were pushing him for honors, taking second and third places.

Third in State
The next meet was the State Championship meet at Greensboro. This meet was the fastest ever held in North Carolina. There were new records established in all events except the javelin and the discus. Sides broke the state record in the 440-yard dash, and McDowell took first in the high jump to break his own record in that event. State finished third.

Fifth in South Atlantic
With only two men at the South Atlantic meet in Richmond they placed fifth in that meet. Despite the loss of two out of the five scheduled meets, the State team outscored her opponents with 337 points to their 289.

HEEL NINE BEATS STATE FIRST TIME SINCE 1923

Ellison Hurls an Excellent Game and Gives Heels Top of 6-2 Score

The University of North Carolina Tar Heels won their first game over the State College nine in the last four years last Saturday on Riddick Field by the score of 6 to 2.

Allgood started the game for the locals and was driven from the mound in the third inning after the Heels had collected enough hits to score four runs. Captain Beal relieved the weakening moundman and pitched creditable ball for the rest of the fray.

Ellison was on the mound for Carolina and held the Techs at his mercy during the opening stanzas of the game. It was not until the fifth that State could collect hits enough to send a run across the plate. The other run came in the lucky eighth. Satterfield, Heel shortstop, played a nice game in the field, handling seven chances nicely. He was the middle man in the double killing by Ellison, himself, and Young.

Regan and Outen tied for hitting honors for the Tech nine with two each. Young and Jonas led the hitters with three hits each.

State meets Carolina at Chapel Hill next Saturday in the first of the so-called post-season games. On Monday the Heels travel to West Raleigh to meet the Techs in the return meet. The occasion is the Alumni Homecoming Day that is celebrated by both institutions.

STATE PROFESSOR PLACED ON RESEARCH COMMITTEE

Prof. C. B. Williams, Head of the Agronomy Dept., Selected in Recognition of His Work

Prof. C. B. Williams, vice-director of the North Carolina Experiment Station and head of the Department of Agronomy at State College, has been appointed on a special committee by the American Society of Agronomy to consider ways and means of awarding a donation of \$5,000 given by the Chilean Nitrate of Soda Educational Bureau for research work in crop production.

The award is to be made for the outstanding piece of research made by investigators in the United States in the relation of commercial nitrogen to economic crop production.

To serve with Professor Williams on this committee are Dr. M. F. Miller, of the University of Missouri; A. T. Wiancko, of Purdue University; F. J. Alway, of the University of Minnesota; Director L. B. Hartwell, of the Rhode Island Experiment Station; Dr. Oswald Schriener, of the United States Department of Agriculture; F. D. Gardner, of the Pennsylvania State University; T. L. Lyon, of Cornell University; and Dr. J. R. Fain, of the University of Georgia.

The selection of Professor Williams by the Society of Agronomy is in recognition of his work in research with soil fertility problems. More work in the study of fertilizers as plant food has been done in North Carolina than in any other southern state, and all of this research has been under the direction of Professor Williams as head of the Department of Agronomy.

FRESH NINE WINS FROM CAROLINA TEAM TO END BEST SEASON IN YEARS

Chapel Hill, May 20.—With Wicker, State's lanky portsider, on the mound, the State College freshman nine ended their season here today with the Carolina Tar Babies, winning 7-4. Wicker held the Babies to six hits and fanned thirteen batters. Bost started the game for the Tar Babies, but gave way to Stewart in the fifth, who allowed the Techlets but two hits in the four innings that he pitched.

Fairley led the State hitters, getting a triple and a single out of five times at the plate, with Stewart getting two hits out of five times at bat, leading the Tar Babies. W. Wall, Carolina second sacker, furnished the fielding sensation of the day when he scooped up a hot grounder and tagged the runner out on the base line and threw to first for a double play.

W. A. "CHINK" OUTEN

At the meeting on Monday night of the letter men of the 1927 State College baseball team W. C. "Chink" Outen was elected captain of the 1928 Tech nine. Outen, although a sophomore, has been one of the most consistent players on the team, having led it in hitting.

Outen is from Mount Holly and came to State in the fall of 1925 and made the freshman football team. In the spring he played on the freshman nine.

His first varsity sport was in football, where he made a very creditable record, having been named on several all-state teams as a running mate to Jack McDowell.

This year he has been named on practically all the all-state nines picked by the experienced coaches and newspaper writers.

SECOND BATTALION WINS THEATRE PASSES AS PRIZE

One Month's Free Entrance to the Superba Given as Reward in Competitive Drill

The Second Battalion of the R. O. T. C. unit won the competitive drill, which carries with it passes to the Superba Theatre for one month.

The Third Battalion carried off second honors, and the First Battalion came in for third place. Each of the wins carried with them passes to the Capitol and Grand theatres, respectively. In all cases the battalions were represented by squads, and each member of the squad will receive the passes donated by the theatres.

Prizes were also given to the best companies and best platoons. The best company commander, F. J. Williams, received a cap donated by Bowman's Jewelry Store, while the first sergeant, W. P. Owen, received three pairs of socks donated by Students Supply Store. Company H was judged the best company.

Company F was chosen second best company and the commander, C. B. Denson, received a three-dollar meal ticket donated by the College Court Cafe. The first sergeant received a student's dictionary, given by Alfred Williams Company.

Company B took third honors and the commander, B. W. Gareros, was presented three dollars in trade by the College Laundry. The first sergeant, W. McKnight, received a pearl-handled knife, given by Boone-Iseley Drug Company.

The first platoon in Company A was chosen the best, and the platoon leader, D. A. Purcell, received a Parker fountain pen, donated by Jas. E. Theim. The platoon sergeant, T. L. Moose, received a two-pound box of candy, given by the College Court Drug Store.

The first platoon in Company H won second honors and the leader, F. T. Green, was given a Knox cap, donated by McGee-Linahan Company. The sergeant, T. S. Harris, was given a two-pound box of candy by the California Fruit Store.

The first platoon in Company F was judged third best, and the leader, E. M. Cooper, received a slip-over sweater, donated by Huneycutt's London Shop. The sergeant, E. L. McCorry, was given three dollars in trade by the College Court Barber Shop.

The junior or senior who had done most for the band was R. W. Haywood, and he received a Gillette razor offered by Eckerd's Pharmacy. L. C. Einwick received the second prize, which was a pair of breeches and leggings given by the Army Store.

COACHES ANGLING FOR HIGH SCHOOL PLAYERS

Abundance of Good Material in Prep Circles Being Sought by Various Colleges

The different college coaches in North Carolina are now looking about for available material for their yearling football teams of next year. Many high school boys have received letters of inducement from these coaches and athletic directors. Football, although it is somewhat before the season starts, must have the course of action outlined long before it takes form, in order to be a success.

There is an abundance of fairly capable men in the high schools of today, but the prime object of the coaches now is to get the best material possible. The high schools for the past year showed a very creditable record and it is thought that this record will be a great help to the college next year. It is a question now of who will get the best men.

Football is the greatest sport in all the world and to enjoy a football game one must understand the rudiments of the game and some inkling as to the ability of the individual players.

The colleges are now producing the rarest specimen of true athletes and in doing this the public is satisfied. To build up a reputation for a college it must have clean and wholesome athletics and that is why they are picking out the material early.

A. E. LANIER ELECTED PRESIDENT MU BETA PSI

The local chapter Mu Beta Psi, honorary musical fraternity, held its annual meeting Friday evening, May 6th, for the purpose of electing officers for the coming year. At this time the following men were elected:

A. E. Lanier, President.
J. A. King, Vice-President.
J. C. Matthews, Secretary-Treasurer.
G. P. Dickerson, Reporter.

This chapter of Mu Beta Psi was organized by the Senior Class of 1925 for the purpose of promoting better music at State College and throughout the State.

The members are taken each year from the different musical organizations on the campus—the band, glee club, orchestra, and quartette.

At this meeting a committee was appointed to work out a petition to Phi Mu Alpha, national musical fraternity.

Ceramic Students Will Send Pottery to Art Exhibition in Atlanta

The Department of Ceramic Engineering has been honored by an invitation to exhibit the work of the students at the annual exhibition of the High Museum of Art in Atlanta, which opens May 25. This ranks as the outstanding art exhibition of the South.

The ceramic students have developed some very pleasing and artistic pieces by Martha Andrews, E. R. Walsh, E. N. Brackett, L. R. Whitaker, and Joe Parsons.

Through the efforts of the Atlanta chapter of the North Carolina State College Alumni Association, a silver trophy will be presented to the student exhibiting the best piece of work.

FOR RENT

FOR RENT—Next September, to an instructor, single room with connecting bath, hot water always available, in a new steam-heated house. Apply to Telephone 1669.

Ceramics Fraternity Elects Officers For Next College Year

Beta Pi Kappa, professional Ceramic Engineering Fraternity, held its annual election in the Ceramics building Tuesday evening, the following officers being elected for the next college year: D. B. Hall, '28; John A. Boren, '28; "Mac" Greaves-Walker, '29; F. S. Hardee, '28, and J. T. Dick, '29.

Three men were pledged and will be initiated before commencement. They are: J. E. Boyd, '28, Middleburg; W. L. Stafford, '28, Mooresville, and Joe Parsons, '29, Hendersonville.

Paragraphics

One more payment, and the diploma is your'n!

We wish the class of '27 a bon voyage on the "Sea of Life."

A chip on the shoulder oftentimes advertises that there is more wood higher up.—The Bessemer.

There is no kick in it and that is what most of the old soaks are kicking about.—The Bessemer.

Since Lindbergh has crossed the Atlantic in an airplane we think the next thing in order will be collegiate bumming to Paris, via air.

This is our final issue for the year. We hope you will bear in mind that our pens, as well as our minds, will be rusty next fall.

The following is an extract from a news story that came in from the Journalism Class this week: "Walking about the campus could be heard the following remarks:"

Another college editor under fire! The editor of the Old Gold and Black has been attacked through the columns of his paper for writing an editorial about "Machine Politics."

Statistics show that bathtubs are the cause of many deaths in the United States every year. We are glad that most colleges provide showers.

It has been a tendency here of late for students in several of the leading colleges to commit suicide. We hope that approaching examinations will have no demoralizing effect on our student body.

A Chicago newspaper recently stated that Peaches Cinderella Browning is about to undergo quite an extensive surgical operation which will consist chiefly of the removal of superfluous flesh from her anatomy, as she is preparing to appear on the stage in a little sketch entitled "Sliced Peaches."

AFTER GRADUATION

After graduation, then what? That is the question that every college graduate must face when he leaves college. In a few days one hundred and thirty men will be graduating from North Carolina State College. Some will go into the field of engineering, some into agricultural work, and others into the field of commerce and industry. Whatever field of work these men intend to go into, they must realize at the beginning that the real test

has begun and that the first few years out of college may determine their future. The eyes of the world today are keenly observing the college graduate. If he is successful, nothing is said about it, but let him fail and the whole outside world is down on the college for graduating such a man.

In one of the leading magazines of the country a mother of a senior in one of the largest and oldest Eastern universities says that the typical college graduate of the approaching commencement season is a snob, a loafer, and a waster.

"He has an equally inflated notion of his present economic value. He is a dawdler and shrinks from hustle. I cannot imagine his plunging into a job and working his head off to make good, yet that is the average employer's acid test for an ambitious young man. He has a conformed habit of academic leisure," said the writer of this story.

Yes, the public may expect a few men from the colleges and universities of this type, but take a similar group of normal men who have not attended college and compare the two groups. This is an example of only one man out of many thousands who graduate from college each year, yet the public holds him up as a typical college graduate.

This case only goes to prove the theory that the colleges get some men who are not fitted for college. It seems that in this particular case this graduate went to college for the social life and with the purpose of getting a diploma which would put him on "Easy Street" without another effort. A college diploma is almost worthless unless the owner has the knowledge that the diploma certifies. It does not take the average business man very long to determine whether or not the diploma is misleading.

The class of '27 has no doubt been one of the most outstanding that has ever graduated from State College. This class has had men who have been outstanding in every phase of college activities, but the supreme test will begin when its members assume the role of business men. It is hoped, and we have reason to believe, that this class will do as great things outside of college as it has for the past four years.

Student Forum

MORE ABOUT BASEBALL

It seems as though the members of State College are anything but satisfied with the record of the baseball team this year. The following seemed to be the burden of all the ball sessions: "It looks like they could win more than one game," "They sure looked sick against Carolina on Saturday," "I wish we had a team like the one we had in 1924." Carolina won last Saturday, but it did not hurt any one more than it did the members of the team themselves. One of the big reasons for the victory of Carolina was because the State team did not have the support of the student body.

No team can go out and win a game mechanically. They must have support. If you are not on the team, then do your part on the bleachers. Two years ago it was the custom here at State to yell, and yell like hell for the team—win or lose. It was customary then to stand in the bleachers after the game while the team filed off the field, whilst the band played "State College Keep Fighting Along." Why is that spirit missing now? One of the reasons is that the freshmen have not been properly managed this year; pep meetings and snake dances have grown fewer and fewer; the freshmen were not made to stay in the bleachers until the end of the game. How can we expect the freshmen to have the right spirit if we fail to show it ourselves?

At one of our baseball games this season some of the State boys even went so far as to jeer at some of our own players. You know if you did this; if you didn't, then this article doesn't apply to you. Could anything show poorer spirit than this?

Let's try next year to start the football season off right with a spirit that will make the Wolfpack win; and let's carry this spirit straight through the year.

J. C. KINLOCH.

PINE BURR INITIATES NEW MEN INTO SOCIETY

The Pine Burr Society held its initiation last Friday afternoon. Colonel Harrelson, faculty member, made a short talk, after which the new members were initiated. The new men to receive this honor are: J. L. Fort, a senior and cross-country man; of Charlotte; J. W. Shuford, Jr., editor-elect of The Agronomer, of Hickory; and W. F. Owen, Jr., of Salisbury.

Mr. G. M. Parker, B.E. 1919, is Asst. Engr. for U. S. Engr., Fort Norfolk, Norfolk, Va.

WISE AND OTHERWISE

A FAILURE

Some time back it was decided by the Junior Class that they would order their jackets early enough to have them for wear this year. Committees were appointed to take orders for and order the jackets. Every one expected to have the jackets by the first of May.

But such was not the case. The committees hummed and hawed around in a manner that is characteristic of most committees. Some accused one of the committeemen of getting a "rake-off." Dissension broke out in the class and as a result things were thrown into such a state of confusion that it was not possible to get matters "cooled off" until only a short time ago, much too late to have the jackets here in time for wear this year.

This was bad enough within itself, but the results of this mismanagement were not confined to this year alone. Due to the fact that the committees got up functioning so late in the year, coupled with the fact that at this particular time of the year most students are "pushed" for money, it will be possible for only a small percentage of the members of the Junior Class to have the jackets for wear next year.

We are not attempting to place the blame for this untimely situation upon any pair or pairs of shoulders, but that something is wrong is obvious. The management of class affairs of this nature is of the utmost importance, and requires the time and energy of those entrusted with it. The members of the Junior Class have just cause for complaint. It is just another case of dissension on the part of a few Juniors. It is to be sincerely hoped that something can be done to enable at least a goodly part of the class to wear the jackets next year. The wearing of jackets was something of an innovation, and it is discouraging to see the results of such a venture.

RECEIVE REQUESTS FOR COTTON CLASS

Professor Darst, head of the department of Agronomy, reports that applications are coming in rapidly for the special six-weeks course in cotton classing which is given in connection with the regular summer school. This work will again be under the direction of Mr. Haise, who is a representative of the U. S. Department of Agriculture, and is also a member of the International committee which establishes cotton grades and passes on all official samples sent out.

Men taking this course may prepare themselves for becoming expert, certified cotton graders and staplers. This prepares them for positions with the government, with cotton associations, with large textile mills, or as private buyers. The course was very popular last summer, and the indications are that it will be even more popular this year. There will be a large number of special students who will take this course alone, but the course is also open to college students.

The number who can be accommodated in the course is limited to thirty or forty. Over half this number have already been registered. Students desiring the course should get their application in at once and not wait until summer school opens, because there will likely be more applications than can be accepted.

CURTIS TO SPEAK AT NEW ORLEANS MEETING

Professor R. S. Curtis, State College, has been invited by the Interstate Cottonseed Crushers Association to deliver an address on "New Facts in Feeding Livestock" at its next annual convention to be held at New Orleans, June 22, 23, and 24. This convention was to be held May 11, 12, and 13, but has been postponed until June because of the flood.

Professor Curtis has conducted many experiments on the use of cottonseed meal in feeding livestock, and his satisfactory results have been recognized and used by livestock feeders over the entire United States.

His address to be delivered at the Interstate Cottonseed Crushers Association will be based upon research work that he has done in feeding cottonseed meal to dairy cattle, beef cattle, horses, and mules.

PROF. GREAVES-WALKER ELECTED TO S. A. M. E.

Prof. A. F. Greaves-Walker has been notified of his election to the Society of American Military Engineers as a military engineer member. This is the highest honor obtainable in the society, and is conferred only upon engineers who have become outstanding in the profession and who have served in some branch of the army or navy.

Professor Greaves-Walker served in the Naval Reserve in 1898 and during the World War was a consulting engineer to the Chemical Warfare Service and the U. S. Navy.

AMONG THE COLLEGES

By BILL

The only students to receive all "A" grades in Ohio State University were two boys who are working their way through college.

The records of the University of California show that a number of students have been forced to withdraw because of the scarcity of part-time work. This situation has caused the authorities to warn prospective students against coming to the university without an emergency fund in case they are unable to secure work.

The dean of women at Kansas State Agricultural College has warned the co-eds that an exposure of bare legs will not be countenanced. Cloaks must be worn over bathing suits while en route to and from the swimming pool.

Princeton University has decided to become co-ed, and in 1929 will have quarters ready to accommodate 400 women students.

The Junior Prom at the University of Kansas is informal, and the tickets sell for only \$2 each.

The students of McGill University have formed a society for the suppression of vice in and around the college. Among other things, they demand the abolition of all college dances.

Indiana University has established a "blues" department whose purpose is to lend mental aid to despondent students.—North Eastern News.

Roller Skating Forbidden at Illinois University

Urbana, Ill.—Because of the increased danger to students as a result of the roller skating craze at the University of Illinois, the mayor of Urbana has issued a decree forbidding any one to skate in the streets. The mayor declared that his action is taken to protect the rights of motorists as well as the lives of the skaters.—Utah Chronicle.

A new type of college entrance exam is being considered at Washington and Lee University. The exam is merely a test of a preparatory school graduate's fitness for life, and has no reference to scholastic attainment or brightness.

Mountaineers who send their children to Mountain Home College of Evening Shade, Arkansas, often pay a portion of their tuition in buckets of sorghum molasses, slabs of home-cured, hickory-smoked bacon, ham, butter, and eggs.

More individuals are now receiving instruction from the University of Wisconsin than from any other university or college in the United States. With its 32,130 extension students and 8,220 full-time resident members, the university this year has an enrollment of 40,350 students.

A moustache contest has been in progress at the University of Arkansas. A year's subscription to the Arkansas Traveler, the university paper, was given to the student who grew the longest moustache within a month.

The color scheme for the Junior Prom at Purdue University this year will be old gold and black. Parents who are receiving frantic calls these days for the price of rented dress suits, corsages, and taxicab fares are wondering what the black is supposed to symbolize.

If a proposed amendment to the student constitution of the University of Oregon is passed, the Daily Emerald editor will take his orders hereafter from the Student Council. A committee on publications elected by that body will determine the policy of the paper.—Purple and Gold.

TAU BETA PI INITIATES SIX NEW MEN THURSDAY

The local chapter of Tau Beta Pi, honorary engineering fraternity, held its annual spring initiation last Thursday. Six juniors and one graduate member, W. L. Trevathan, of the '24 Civils, were taken in. The juniors initiated into the fraternity were C. Z. Bailey, W. A. Cox, T. E. Browne, Jr., T. C. Farmer, B. A. Preslar, and L. D. Stephenson.

Following the initiation ceremony the chapter, with its faculty members, journeyed to the First Christian Church for a delightful three-course dinner. W. E. Wilson, president, acting as toastmaster. In a short business session following the banquet officers for the coming year were elected. C. Z. Bailey, one of the most active and best known Juniors in engineering, was chosen for president. He will represent the chapter in the national convention to be held in Ohio next October. The other officers elected were: Vice-president, J. M. Kilgore; recording secretary, P. E. Trevathan; corresponding secretary, B. A. Preslar.

Professor Zip says-- Then let the Old Year die the death That died his parents, each in turn, And let his smould'ring ashes burn His errors like a parting breath. Let distant hopes absorb our view And leave the by-gones dead behind; Let ghosts of Old come forth and find For us the choicest of the New.

PROF. CLARK HAS PICTURE GALLERY Lack of Funds Makes Remodeling of 1911 Dormitory Uncertain Amount Set Aside for Renovation Falls Short of Former Expectation It is uncertain that 1911 Dormitory will be remodeled this summer on account of the shortage of funds. Students who applied for rooms in this dormitory for the coming year are giving up the new assignment and returning to their old rooms. Dr. Brooks stated in chapel a few months ago that a portion of the building funds appropriated by the Legislature would go towards rebuilding the interior of 1911 and possibly South dormitories. Mr. T. T. Wellons says that the amount of money for this purpose is going to fall short of their expectations; and it is doubtful that 1911 will even be touched this summer. If any portion is remodeled it will probably be just the north end and the section joining it. This spring when it became time to apply for next year's rooms a great many men were eager to get into 1911, but since it has become doubtful that the dormitory would be remodeled they are returning to the opposite side of the campus.

STATE COLLEGE OUTFITTERS"

Dedicate 1927 Agromeck

Elaborate in every detail was the banquet given at King Cotton Hotel in Greensboro in honor of Miss Annette Boney, beautiful Goldsboro girl, a student at the North Carolina College for Women, who represents "Womanhood" in the 1927 Agromeck, State College annual.

The hosts were John Anderson, editor, and Henry Weedon, business manager of the publication.

The dedication of the State College annual to womanhood is believed to be unique in college circles in the South, if not elsewhere. Miss Boney was the honor guest at the banquet in Greensboro, which was also a celebration of the arrival of the Agromeck from the press.

The first copy of the Agromeck, splendidly edited and attractively bound, was presented to Mr. Anderson, the editor, by Mr. Beck, manager of the college annual department of Edwards & Broughton, the publishers. Mr. Anderson, in turn, presented the copy to Miss Boney. Each guest was then presented with a copy by Mr. Weedon, business manager of the Agromeck. Names of the guests receiving copies were engraved on the covers of the latter.

"On the Campus"

ing along" as you have," he said. He urged the boys to keep up their courage and do their best for the remaining games as their part toward keeping alive the famous "State College spirit."

The Doak children then presented to each guest a little picture of Coach Doak bearing the inscription: "Had one seen him returning from a victory he would by his silence have suspected that he had lost the day; and had he beheld him in defeat he would have deemed him a conqueror by his cheerfulness of spirit."

The guests assembled in front of the home, and gave such lusty yells for "Mister Charley," Mrs. Doak, and the little Doaks as to bring forth a head from each window of St. Mary's dormitory opposite the Doak home. These, of course, were also given the tribute of a State yell.

Those who enjoyed this annual hospitality of Coach and Mrs. Doak were: Captain Beal, Messrs. Coley, Rowe, White, Matheson, Cobb, Vick, Austin, Regan, Foley, Hoovis, Silver, Harris, Kidd, Griffin, Dillingham, Outen, Dedmon, Shepard, Howard, Mast, Exum, Maynard, Shelton, Adams, Alston, J. B. Griffin, Harrill, Allgood, Seal, Kinloch, McDowall, Kendall, Rice, Matthews, and Manager Hadley.

Alpha Zeta Banquet

The annual spring banquet of the Alpha Zeta Fraternity at State College was held Monday in the New Tea Room. A delicious four-course dinner was enjoyed by the members and their ladies. Short talks were made by Dean Schaub, Dr. Metcalf, and J. B. Britt. After the dinner the party attended the State Theatre.

Active members and their ladies present were: F. S. Sloan with Miss Madeline Barnes; H. G. Shelton with Miss Mary Alice Harding; R. R. Fountain with Miss Olive Webb; Hillton Pope with Miss Margaret Levering; J. D. McCall with Miss Eleanor Lane; B. A. Sides with Miss Virginia Woodard; Jack Morgan with Miss Peggy George; J. L. Fort with Miss Vivian Shaw; B. F. Shelton with Miss Mary Morgan; C. W. Jackson with Miss Juliet Faircloth; J. E. Britt with Miss Vera Sanders; J. E. Tidy with Miss Elizabeth Adams; W. A. Alexander with Miss Frances Uzle; P. H. Mast with Miss Mary Lee Sears; D. C. Worth with Miss Olive Pittman.

Faculty members present were: Dean and Mrs. I. O. Schaub, Dr. and Mrs. Z. P. Metcalf, Mr. and Mrs. S. J. Kirby, Mr. and Mrs. L. O. Armstrong, Mr. and Mrs. J. M. Grey, Mr. and Mrs. H. B. Mann, E. B. Morrow and Miss Ann Peay, G. O. Randall and Miss Harriet Uzle, L. R. Harrill and Miss Esther Moody, Mr. and Mrs. F. H. Jeter.

Fraternity Banquet

Members of the Tau Rho Alpha Fraternity held their annual banquet for alumni at the Yarbrough Hotel Saturday night.

Many of the alumni were back, and several were called upon for short talks. Toastmaster Perry called on the following to speak: W. T. Harden, Jr., W. O. Honeycutt, C. E. Vick, Charlie Faucette, and Bruce Crater. The long-distance record was given to C. E. Vick, who came from Fort Oglethorpe, Fla., to feast with his brothers.

The banquet room was beautifully decorated with the fraternity colors of purple and green, the decorations centering around a lighted Tau Rho Alpha escutcheon which hung at the end of the hall. The tables were also beautifully decorated, and violet bouquets, the fraternity flower, were to be found at each plate.

Finals

The final dances will be given in the following order: June 3, Friday afternoon from 4 to 6, Friday night from 9 to 1; May 4, Saturday morning from 11 till 2, Saturday night from 9 till 12; May 6, Monday morning from 11 till 2, and the final dance Monday night from 9 till 1.

Mr. A. F. Daugherty and Miss Carolyn Wooten will lead the grand march on Friday night, Mr. Tommy Harrill and Miss Margaret Sherrill on Saturday night, and Mr. John Matheson and Miss Lyall Wannamaker on Monday night.

The features of the finals will be the attractive favors bearing the seal of N. C. State College in gold, and Weidmeyer and his orchestra.

Delta Sigma Phi Dance

The N. C. State, Duke University, and University of North Carolina chapters of the Delta Sigma Phi fraternity entertained at a dance in the ballroom of the Washington-Duke Hotel in Durham Friday evening, May 20. The ballroom was decorated in the fraternity colors of green and white and the fraternity flower of white carnations.

The Duke University chapter gave a house party and entertained their guests at a delightful tea dansant on Saturday.

Those attending from the N. C. State chapter were H. W. Rogers, C. H. Green, C. D. Folley, J. G. Harris, J. R. Lane, J. A. Westbrook, C. Cannon, and J. A. Boren.

Mr. Vernon Merritt spent the weekend in Winston-Salem.

DRAMATICS PLANNED BY PULLEN FOR NEXT YEAR

Aid of English Dept. and Literary Societies Asked in Forming Organization at State

Initial steps in the founding of a dramatic drafting and producing organization at State College were taken by Pullen Literary Society in its final meeting of the term on Friday, May 13.

Believing that the spirit and other necessary conditions for such an organization here were favorable, the society decided to take the leading step in launching the program for next year.

In a brief talk before the members of the society, A. L. Ayldett, editor of The Wataugan for next year, told of the success of a play-producing company at the State University and voiced the opinion that a similar organization would add a great deal to literary spirit on State College campus.

R. R. Trevathan made a motion that the president of the society appoint a committee to investigate the matter, and the motion was endorsed wholeheartedly by the society members.

It is planned to get the co-operation of the English department in carrying out this scheme, and the department members have expressed their sympathy and offered to do all in their power.

Professor Cunningham, of the public speaking department, will remain at State College next year, and it is said he will have an assistant to aid in the forensic work. The assistant will be one capable of coaching plays and experienced in their production, Professor Cunningham said.

The literature department will be asked to help in the drafting of original plays by members of the organization.

The program for next year is to join both literary societies in the movement for a successful dramatic club on the campus. The club will in all probability be separated from the societies after it has been recognized and has become able to stand without support.

The committee is at work to formulate plans during the summer and was ordered to make a report at the first of the year. Members of the committee are: A. L. Ayldett, chairman; C. L. Straughan and A. B. Holden.

Tea Dansant

The Chi Alpha Sigma fraternity entertained a number of guests at a tea dansant Thursday, May 19, at their home on Enterprise Street.

Theta Tau Initiates Prof. Tucker

Theta Tau, an engineering fraternity, initiated Prof. Harry Tucker of the civil school last Tuesday evening as an honorary member.

NOTICE

The Agromeck staff wishes to express its regret that through an error in printing, the division sheet poems, written by A. M. Fountain for the '27 Agromeck, were rendered almost illegible, and that through an oversight no mention was made of the fact that the titles under the pictures in the scenic section were written by the same author. Our apologies are hereby rendered.

1927 AGROMECK STAFF.

McCown, president; W. R. McCracken, secretary-treasurer; R. W. Howell, reporter, and H. Shachtman, librarian. The new officers have shown a great interest in the orchestra during the past year and promise greater things in the future.

Mr. and Mrs. John M. Rush announce the marriage of their daughter, Alta Gertrude, to Mr. J. Leslie Andrews, Saturday, June 18, High Point, N. C.

Leslie ("High Pockets") Andrews, a member of the Electrical Class of '24, spent several months with the General Electric Company after his graduation. For the past year or two he has been in the employ of the Carolina Power and Light Company at its steam plant at Moncure, where he and Mrs. Andrews will make their home.

It's rumored that girls who wear cotton stockings these days are either over-confident or just don't give a darn.

ORCHESTRA ELECTS NEW OFFICERS FOR NEXT YEAR

At a regular meeting of the concert orchestra on Friday, May 20, the following officers were elected: G. M.
