NORTH CAROLINA PICTURED IN THE SCIENCE MONITOR

Issue of November 6th Carries An 18-page "North Carolina Supplement"

SHOWS NATURE'S BEAUTY

Pictures Rare Scenes From Sea to Loftiest Mountain Peaks "In Land of the Sky"

The Christian Science Monitor of November 6th issued an eighteen-page "North Carolina Supplement" of exceedingly high merit from both a general as well as from an advertising and commercial viewpoint.

On the front page and under the alluring title, "From Mountains to Sea," three marvelously beautiful scenes are depicted from the camera of one who certainly has an eye for the beauty of nature; while the last page carries nine pictures so striking and of such elemental beauty as to compare very favorably with that of famously beautiful lands like Switzerland—so much so, that every North Carolinian has the right to indulge and wax poetical over the enchanting scenery of the State of his or her nativity. That this supplement cannot fail to be of great value to North Carolina generally, as well as commercially, becomes evident from a closer study of its pages.

Side by side on the front page are two articles as intensely interesting as they are valuable. "State's Progress Awakens Interest All Over World," from the able pen of Governor McLean, is a happy achievement of the entire gist of the history of North Carolina, from the first attempt to establish a colony by Sir Walter Raleigh at Roanoke Island in 1584, (only to disappear mysteriously behind the veil which sometimes shrouds such things in mystery and romance), down to the present-day matter-of-fact and high—Continued on page 2.

HUNSUCKER AND JOHNSON RELEASED FROM HOSPITAL

Wolfpack Quarterback Has Been on Back Since Furman Game in Early Season

Two State College students, George Hunsucker and Dwight Johnson, who have been confined in Rex Hospital because of operations, have been moved to the College Infirmary.

George Hunsucker has been in the hospital for five weeks, due to a rupture he received during the football game between State and Furman. He has shown the same fighting spirit while a patient, for his side had to be reopened because it was not healing properly. This was done without use of dope to relieve the pain, and caused pain which only the bravest could smile through. It has been reported that ever since George could have visitors, there has been a steady flow of college friends and chums coming and going to his bedside. Regular house parties were held on various occasions, there seeming to be an abundance of the fairer sex who were always there, helping George "play the game."

Hunsucker has expressed his regret at being moved, as he claims that the point was just being reached when he was having a grand and glorious time with the nurses at the hospital.

Dwight Johnson had been at Rex Hospital for two weeks, following an operation for appendicitis. He and Hunsucker were neighbors in the hospital, having rooms across the hall from each other. Johnson was also host to the many friends who came to see him.

Both men appreciate the friendly attitude shown by the students that visited them at the hospital, and also wish to thank the friends that are making their stay in the infirmary a pleasant one.

Hunsucker and Johnson are both doing fine, and while it will be a matter of a few days before they can attend classes, they are allowed to take short walks about the campus to regain the strength that they have lost during their confinement.

NOTICE TO SENIORS!

Many Senior "write-ups" have not yet been turned in to the Agroneck office. They MUST be turned in by December if they are to appear in the 1927 Annual. They should consist of not more than 150 well chosen words.

Additions to Senior records may be made at the office now. See that your record and write-up is given prompt attention.

Office hours: 12:00 to 1:00 and 6:30 to 7:30.

M. L. ROCKAPFELD,
Senior Editor.

R. O. T. C. REGIMENT PARTICIPATES IN ARMISTICE HIKE

Band and Cadets Receive Congratulations on Fine Showing in Line of March

VARIOUS ORGANIZATIONS

War Veterans and Civic Groups Also Commemorate Close of Great World War

The Armistice Day parade, held Tuesday, was by far the best ever held in Raleigh, the parade being composed of the various military organizations of Raleigh, the Kiwanis drum corps, the high school students, the World War veterans, and the Civil War veterans.

The line of march formed as follows: 120th Infantry Band and the 120th Infantry Service Company, mounted police, U. S. Army and Navy officers, Reserve officers, the State College Band, State College R. O. T. C. Regiment, the American Legion, the World War Veterans, the Spanish War veterans, Kiwanis Drum Corps, Raleigh High School students, Gold-Star mothers, Civil War veterans, officers of the Woman's Auxiliary and the War nurses.

The line started at the head of Fayetteville street and marched down to Cabarrus street and east to Wilmington, and from Wilmington to the City Auditorium.

The State College Band and Regiment were the features of the parade. The Cadets displayed their mid-season form in both the drilling and the neat appearance. The Regiment was under the command of the newly appointed cadet officers.

There was a service held in Pullen Hall after the parade. Dr. W. C. Riddick and Dr. J. A. Ellis, pastor of Pullen Memorial Church, were the speakers on the program.

GREAVES-WALKER ON COMMITTEES

Professor A. F. Greaves-Walker, of the Department of Ceramic Engineering, has been advised of his appointment on two important committees of the American Society for Testing Materials: the Industrial Survey Committee of Committee C-8 and the Committee on Ceramic Nomenclature. The Industrial Survey Committee is undertaking a complete survey of the use of Refractories' products in industry, and expects the report to cover a period of ten years.

Professor Greaves-Walker is the official representative of the American Ceramic Society to the American Society for Testing Materials, a society which is developing standards for every known American product.

NAME OF HUMOR MAGAZINE NOT TO BE "HOWLER"

Theme of First Issue Will Be "Mid-Winter," Instead of "Thanksgiving"

The name of *The Howler*, the much-discussed publication of humor, will be changed, according to a statement from Albert H. Watkins, editor of that publication.

It was only with great difficulty and much pondering on the part of the staff that the name *Howler* was selected, but it appears that their efforts were in vain. However, the editor stated that he fully realized the position in which the name would place the Wake Forest annual and offers all due apologies and expresses his deepest regrets that the error was made. He also stated that when the name *Howler* was chosen he was unaware of that being the name of the Wake Forest annual also.

It will probably be very disappointing to the students and all others to learn that the publishing of the magazine will not take place until later in the year, due mostly to overwhelming difficulties met by its publishers. Therefore, in preference to a "Thanksgiving" number, a mid-winter number will set forth in full array, and will, no doubt, exceed all expectations.

The editors are still hard at work selecting the very best of material to go into the publication and by the time of its debut it will contain the very best of humor and sketches ever put into a magazine.

SENIOR RING ORDERS

A number of Seniors have asked about ring orders for Christmas. By making a special rush order of these rings and miniatures we can secure delivery in time for the Seniors to get them before the holidays. These orders must be placed at the Student Supply Store before November 15 to insure delivery.

W. E. WILSON.

Wolfpack Looses Firm Hold On Cellar By Defeating Devils

ARMISTICE DAY IS OBSERVED AT STATE

Dean W. C. Riddick and Dr. J. A. Ellis Speak to Students in Pullen Hall

The anniversary of the World War Armistice Day was fittingly observed Thursday, November 11, by simple services in Pullen Hall.

W. C. Riddick, dean of the School of Engineering, and president of the College during the war, told briefly of the part taken by State College in that memorable struggle. Dean Riddick said that a total of over two thousand men, or one-third of the total enrollment since the College was established, took an active part in the war. Of this number, more than thirty lost their lives. During the war the College was devoted almost entirely to the preparation of officers for army service.

Dr. J. A. Ellis, a chaplain in the World War, and at present pastor of Pullen Memorial Baptist Church, was the second speaker. He declared that the greatest need in the world today is a spirit of fair play. He compared the world today to a football game, saying that a referee was necessary in each case to insure fair play. We have the referee on the football field, but not in the game of nations. "I long to see the day when we shall have a world court, a league of nations, or some other form of international referee, whose duty it shall be to enforce the rules of the game," said Dr. Ellis.

PROF. SHUNK LECTURES ON "IMMUNITY FROM DISEASE"

"Immunity From Diseases," by Professor L. V. Shunk, Professor of Bacteriology and Botany, was the principal part of the program of the Berzelius Chemical Society Tuesday night, November 9.

Professor Shunk took up in some detail the ways of contraction and means of prevention of Anthrax.

Anthrax is a disease to which nearly all of our common animals are susceptible. It causes great loss in sheep herds. Pasteur, a French scientist, discovered the treatment for the prevention of this disease.

Next, Professor Shunk discussed in detail the development of the Pasteur Treatment for Hydrophobia. It is through the development of this treatment for hydrophobia that Pasteur is best known to the world at large.

Smallpox and the vaccination for prevention of smallpox was discussed briefly.

STATE BE REPRESENTED IN GLEE CLUB CONTEST

Winner State Try-out to Enter Southern Meet; Then On to National Contest

At a recent meeting of the North Carolina Conference of the National Glee Club Association it was decided that the State-wide glee club contest should be held in Durham on December 10th. The clubs that are to take part in this contest are N. C. State College, Wake Forest, Carolina, Duke, Davidson, and Guilford.

The winner of the State contest will go to Birmingham, Alabama, to represent the State in the southern contest of the National Glee Club Association. The winning club of the southern conference then goes to New York City to take part in the national contest.

The selection to be used in the State contest, "The Lotus Flower," is the national contest number which will be used in the final contest in New York.

The officers of the North Carolina division of the National Glee Club Association are composed of the music directors of each college, in the association with the student presidents of each glee club. State College's student member of this association is A. H. Freeman, who is president of the Glee Club. At each state contest student officers are elected for the following year.

Brilliant Running and Passing Attack Too Much for DeHart's Fighting Duke Eleven

MCDOWALL GETS IN STRIDE

State's Star Halfback, Who Has Been Out With Injuries Since the Clemson Game, Rivalled the "Galloping Ghost" in His Brilliant Passing to His Team-mate in Glory, Goodwin, and in His Broken-field Running—Score of Both Teams Large, Game Ending 26 to 19 in Favor of State.

Uncorking an offense that has been lacking in previous games this season, and one that was featured by brilliant runs and a wonderful aerial attack, the Wolfpack gave the dope bucket a severe shake-up and trounced the Blue Devils of Duke University (26-19) in their annual clash on Home-Coming Day here last Thursday.

The most outstanding feature of the game was a 95-yard run by Jack McDowall. In the second quarter he received a Duke punt on the 5-yard line and, by stiff-arming, broken-field running, and good interference, he staggered almost exhausted across the goal line for a touchdown. Red Grange never looked any better than McDowall did to State followers in this game. He, no doubt, played the most brilliant game of his college career. His accurate passing and long runs, combined with the fine work of State's ends, was a determining factor in the victory.

In the third quarter McDowall punted to Tuttle, who fumbled. Goodwin recovered and ran 55 yards for a touchdown. In the first period he caught a pass from McDowall and ran across for a touchdown, but was called back on account of State being off-side. Again, in the third quarter he caught a pass from McDowall and ran ten yards for another marker. Goodwin's ability to catch passes helped to pave the way for the vic—Continued on page 2.

THIEVES RANSACK CAMPUS DURING FOOTBALL GAMES

Two Autos and Valuable Clothing Reported Missing From Dormitories

During the football games Saturday afternoon, numerous thefts were committed in the dormitories and on the campus. It is reported that two Chrysler cars, a roadster and a sedan, were stolen.

On the third floor of Fourth, two overcoats, a suit of clothes, a few ties, and a pocketbook were taken. In several other dormitories thefts have been reported. Most of the articles stolen were clothes. One boy is said to have lost clothes valued at \$150.

There is no clue as to who the thief or thieves were, but it was evidently some person or persons who stole the clothes not for their own use, but to sell.

The students have been advised to lock their rooms during the games.

"BARN WARMING" PLANS COMPLETE

It was announced at the Ag. Club Tuesday night that the Peace students and faculty would be out in full force at the "Barn Warming" to be held in the "gym" Saturday night, November 20th.

The entertainment committee reported that they were hard at work on a lively program, having an old-fashioned corn-shucking and many other numbers on the program.

The refreshment committee reported that all would be amply refreshed by many good things to eat and drink. Professor Saville made a short talk to the club, in which he said he was delighted to see so much spirit, and enthusiasm shown in making the "Barn Warming" an enjoyable evening for all. The entire club evinced much spirit and enthusiasm about the jolly affair which promises to be the most gala occasion of the college year.

SYNTHETIC NITROGEN IS DISCUSSED BY WILLIS

State Soil Chemist Addresses Meeting of the Chemical Senior Class

Last Tuesday, at the Chemistry Seminar, Mr. L. G. Willis, the State soil chemist, discussed the process for the manufacture of synthetic nitrogen products for use in fertilizers and other industries.

"Of the compounds in the soil which are necessary for the growth of our food supply, the compounds of nitrogen and probably the most deficient and at the same time the natural supply of nitrogenous materials is nearer to depletion than are supplies of the other fertilizer elements. And this fact holds in spite of an all but unlimited source of uncombined nitrogen in the earth's atmosphere," said Mr. Willis.

Nitrogen plays a very important part in our civilization, as it is necessary not only in times of peace for fertilizers, dyestuffs, and explosives, but also in wars, for high explosives. The main methods for the synthetic preparation of nitrogen compounds are: the

Birkeland-Eyde process, the Schonbeier process, the Haber process and modifications, and the Bucher process. All of these methods are very inefficient. From this we may see that the making of synthetic nitrogen compounds opens a large field for engineering research.

At this same meeting D. L. Young, a Chinese graduate student in chemistry, described briefly his experiments in bio-chemistry in which he has been studying vitamins. After describing his experiments and discoveries Mr. Young summarized by saying: "There is no certain definition that may be given to vitamins. They are popularly defined as chemical substances; occurring in some foods but not in others, which are required to stimulate our body cells in order that they may function in a normal manner. If we desire to do the best mental and physical work we must have healthy bodies. Intelligent eating will help us to develop healthy bodies. This may be accomplished by eating food which contains the necessary proteins, fats, carbohydrates, mineral salts, and vitamins."

Bob Fletcher visited friends in Hartsville, S. C., during the week-end.

The guinea pig is no shark at long division, but it is said that he multiplies very rapidly.

GENETICS CLASS STUDY LAWS OF INHERITANCE

Breed Four Generations of Fruit Flies to Watch Characters in Transmission

State College has one of the best equipped Genetics Laboratories in the South. Some recent additions have been made and some interesting work is being carried on by the students and professors in Genetics and Eugenics.

"The students are experimenting with fruit-flies, as it takes only about nine days for a generation of fruit-flies to reach maturity, and they have many different varieties with distinctive body characteristics, which makes it easy to use them for breeding. Each pair of students has three cross-breeds to make and carry out during the term. By the time the cross-breeds are completed there will be accurate data on the characteristics of several hundred flies for each cross that is made. The purpose is to determine the ratio in which characters are inherited from one generation to another. The experiments will take in four generations and the laws of inheritance will be clearly shown to the students.

The fruit-flies are kept in a thermostat room in which the temperature is kept constant at all times. The students have their flies in a series of glass bottles which are placed on shelves in the thermostat room and taken out and examined each day. As each fly hatches out a complete record of it is kept.

Dr. L. H. Snyder, who has won national fame in the field of Genetics and Serology, has charge of the course. He is working on several other forms of inheritance, and has several crosses going with rats. He is conducting a series of blood tests with humans. This is a very interesting course and gives a good basis for animal breeding.

tory. He and McDowell were the stars of the game and both share equally in the honor for making State's four touchdowns. Outen, as usual, played a good, steady game throughout, while Bynum, Nicholson, and Vaughn were the outstanding performers in State's line.

State's first touchdown came early in the second quarter, when Goodwin recovered a fumble, and a little later McDowell skirted left end for 23 yards and a touchdown. His try for the extra point went wide. The second marker was made by McDowell, who raced 95 yards for a touchdown late in the second quarter. The next one came as the result of the fumble by Tuttle, which Goodwin recovered and raced 55 yards for the touchdown. Again, late in the third quar-

ter, McDowell completed a 20-yard pass to Goodwin who ran 10 yards for another counter.

Duke's first touchdown came in the second quarter, when the Blue Devils started a drive from State's 5-yard line and ended when Bolick went through line from the two-yard line for a touchdown. Kelly kicked goal. The Blue Devils started a drive early in the last quarter that netted them twelve points. Bolick of Duke gained consistently for the Blue Devils and went over for the second touchdown. Kelly failed to kick goal. Another drive late in the last period netted another marker. Kelly and Bolick were the outstanding performers for Duke.

Duke State
Kelly I. e. Beatty
Thompson I. g. Vaughn
Jones I. t. Bynum
Hunter C. Logan
Eanes R. g. Nicholson
Weatherby R. t. Evans
Grigg R. e. Goodwin
Frank Q. b. Ridenhour
Hollingsworth I. h. McDowell
Tuttle R. e. Hennessa
Bolick I. b. Outen

Score by periods:
State 0 13 14 0—26
Duke 0 7 0 12—19

Scoring: State touchdowns, McDowell (2), Goodwin (2); Duke touchdowns, Bolick (2), Bruton; State extra points, McDowell (2) by dropkick; Duke extra point, Kelly by dropkick.

State substitutions: Donnell for Vaughn, Morris for Ridenhour, Austin for McDowell, Crum for Austin, Vaughn for Donnell, McDowell for Crum, Ridenhour for Hennessa, Ford for Vaughn, Donnell for Ford, Melton for McDowell, Albright for Morris, and Floyd for Bynum.

Duke substitutions: Brummitt for Eanes, Turney for Grigg, Grigg for Turner, Eanes for Brummitt, Weaver for Frank, Brummitt for Eanes, Bruton for Hollingsworth, Bennett for Grigg, Fullford for Bolick, and Swift for Bruton.

Officials: Referee, Major (Auburn); umpire, Gass (Lehigh); head linesman, Gooch (Virginia).

ly successful, business-like administration of the affairs of the State. That Governor McLean is intimately acquainted with every phase of the affairs, past and present, of the State

is equally evident from the material way in which he penetrates the shell to expose to the public eye the healthy kernel which can, with proper attention and efficiently applied cultivation by the citizens of the State, be made to grow into a mighty tree that could in time spread its far-reaching branches of industry and commerce over the major part of the world.

The second article, by Mr. Josephus Daniels, former Secretary of the United States Navy, reads like the "star" story in the Sunday issue of the Chicago Tribune—with this difference, it is void of all fiction and founded on real, hard, true facts that should make every North Carolinian "sit up" and say to himself, "Do I live in such a great State?" and realizing that he does, it should act as a spur, relentlessly driving him on, with his shoulder to the wheel, to reach those heights of achievement which a state with possibilities like North Carolina can achieve.

This article embodies matters of commerce, industry, education, and

the possibilities of each so concisely stated that it is a valuable piece of penmanship—even to such a paper as The Christian Science Monitor, which boasts subscribers in all four corners of the globe.

Turn on the sunshine

WHEN Greek or calculus gets you into a tight corner, tie a tin to trouble—a tidy red tin of Prince Albert! Tamp a load of this really friendly tobacco into the bowl of your jimmy-pipe and light up. Watch the sun crash through the clouds with every puff!

P. A. can't bite your tongue or parch your throat, no matter how fast you feed it, because the Prince Albert process gave Bite and Parch, the air at the start. Cool as a Laplander's lap. Sweet as apple cider. Fragrant as spring blossoms. That's Prince Albert!

One pipe-load invites another. And . . . you can hit P. A. from morning till midnight and it won't hit back. Don't put off to tomorrow what you can smoke today. Get a tidy red tin of P. A. and turn on the sunshine . . . now!

PRINCE ALBERT

—no other tobacco is like it!

P. A. is sold everywhere in tidy red tins, round and flat, round tin humidors, and round crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

NOT SO BAD, WOLFPACK!

Tebell's Wolves Shake Off Jinx; Defeat Gurley's Bears

Lenoir-Rhylanders Enter Game Favorites Because of An Uncrossed Goal Line During Season; Pack Only Able to Cross for One Touchdown—Bears Fail to Score.

The Wolfpack shook off the slump which it has been in for the past five games and turned in a 6-0 victory at the expense of the undefeated Bears of Lenoir-Rhyne last Saturday on Riddick Field.

Having made a splendid showing this season, although against lighter teams than State, the Bears were the favorites, but they failed to uncork any of the attacking power attributed to them.

Taking the ball on its own 38-yard line State carried the ball to Lenoir's 1-yard line, featured by 10- and 15-yard runs by Outen, but the Bears' line held and State lost the ball on downs.

STORY OF DUKE-STATE TOLD IN STATISTICS

Score: State 26, Duke 19. First downs: State 7, Duke 17. Passes tried: State 11, Duke 12. Passes incomplete: State 3, Duke 6. Passes made: State 6 for 78 yards, Duke 5 for 67 yards. Passes intercepted: By State 1, by Duke 2. Punts: By State 9 for 317 yards, Duke 6 for 203 yards.

WOLFPACK MEETS GATORS NEXT YEAR

The University of Florida has been added to the 1927 schedule of the Wolfpack. This game will take the place of the V. M. I. game, and will be played in Gainesville, Florida, on the 22d of October.

For several years Florida has been on the schedule of a North Carolina eleven. The "Gators" have met the Demon Deacons several times, and have defeated them by decisive scores.

While this may seem to some people unwise, it gives State a wider reputation than she has had in previous years, and statistics have proven that a team with a heavy schedule makes a more creditable showing than a team with a light schedule.

ENGINEERS' COUNCIL APPOINTS COMMITTEES

The second meeting of the Engineers Council was held November 4th in the Ceramic Engineering building. At this meeting the following faculty members were elected as advisory members of the council: Dean Riddick, Professor Graves-Walker, Tucker, Ricker, and Dana.

"ALL AMERICANS" LOSE TO WILMINGTON SOLDIERS 12-0

Offside Penalty and Intercepted Pass Give Victory to the Infantrymen

State's "All American" football team journeyed to the ocean last Saturday and was drowned under a 12-0 score washed over them by the Wilmington Light Infantry eleven.

A large crowd was on hand to witness the game, and remained to see two evenly-matched teams stage a hard fight for victory. The first half started fast, and was a heated affair throughout.

The second half opened with W. L. I. receiving. They uncorked a drive that took them to the 8-yard line. Here the scrubs held for three downs, but an off-side penalty cost them a touchdown.

The whole scrub team played a good game, considering the very short time they have been training. Metz, Wood, Hef, and Pollock were the outstanding players for the "A. A.'s."

SYNTHETIC PROCESS HAS CREATED ANOTHER CLUB

Lo and behold! The Winston-Salem flowers bloomed forth Thursday night, November 4, when a meeting was held at 108 Seventh Dormitory. The room was crowded with boisterous, laughing boys until some dignified Winstonian called the meeting to order.

This able crowd is now swinging into action under the leadership of C. C. Todd, President; W. F. Fowler, Vice-President; C. R. Taylor, Secretary and Treasurer, and M. A. Holjes, Reporter.

Following a heated argument, "To Be Or Not To Be" was selected as the motto. Having some brilliant Latin students in their midst who had to display their knowledge, which was hammered into their ivory domes by their all-knowing Latin instructor, E. K. McKnew, they decided that the motto translated into Latin would add dignity to the club, hence, "Esse vel non esse."

When the matter of a flower was brought up, the red, red rose quickly flashed upon every one's mind just as the red, red caps flashed upon their heads.

Then attention was turned to the selection of a color, and, with thoughts of their alma mater in mind, black and gold was selected.

This noisy, talkative band was composed of the following charter members: R. L. Carlton, J. P. Choplin, A. L. Cooke, W. F. Fowler, E. Harwood, M. A. Holjes, E. L. Jordan, F. C. Perry, M. H. Phillips, H. J. Pinkston, E. C. Rochelle, W. D. Settle, H. Schachtman, D. P. Stimson, C. R. Taylor, C. C. Todd, G. S. Turner, E. W. Tysor.

"FLUNK SLIP" TIME IS HAILED WITH TREMBLING

There was much of the proverbial wailing and gnashing of teeth by a number of the upper element of the student body on last Tuesday morning. There was reason for this, as this was the time when "flunk slips" were being presented to the students by the college.

Long lines of students were sadly disappointed when, after standing in line for possibly an hour or more, they were handed the thin envelopes, which were quickly concealed in a book or about some part of the clothing until a more secluded spot was reached.

But that isn't the half of it. The flunk slips are sent home, also, and that means— No doubt there were many new resolutions made, to be broken, as this is a good time of the year to do it. But they will have to be made again at Christmas.

The grade of a co-ed's exam paper will approach zero as the number of dates she has approaches seven.—Rice Owl.

JACK McDOWALL

WOLFLETS DEFEAT TAR BABIES BY SCORE 14-6

Close Game Featured by Fumbles and Spectacular Work of Both Teams

Two touchdowns in the second quarter were sufficient to stem the invasion of the Tar Babies last Saturday on Riddick Field and the Wolflets emerged victorious by a 14-6 score.

In the first quarter both teams engaged in a punting and passing duel, but in the second period State settled down to business and scored two touchdowns.

The Yearlings kicked off and the Tar Babies returned the ball to the 30-yard line. Two plays netted Carolina a first down, but unable to gain, they were forced to punt.

The Tar Babies' only score came in the last period when a pass by Ward netted 39 yards. With the ball on the 15-yard line Ward attempted a pass, but State's line broke through and was rushing him when he threw a pass apparently to keep from being thrown for a loss.

Snider, Whisman, and Bullard were the outstanding performers for the visitors. Ward is to be praised for the manner in which he handled the ball on passes, while Childress and Latimer, ends for State, showed up well in getting down on punts.

Table with columns for State and Childress, listing names like Snider, Evans, Ruth, B. Jackson, Wolf, Koenig, Fenner, Maus, Ward, Whisman, Bullard.

NEWSPAPER MAN SPEAKS TO PSEUDO JOURNALISTS

J. E. Baskerville, Raleigh newspaper correspondent for twenty North Carolina afternoon dailies, addressed the class in Elementary Journalism Thursday morning on "The Importance of Accuracy and Verification in Newspaper Work."

E. E. AND PHYSICS BUILDING BE OCCUPIED NEXT JANUARY

First Half Expected to Be Ready Then; Rest Completed by Following Quarter

Students taking either Electrical Engineering or Physics will be glad to hear that half of the new Electrical and Physics building will be ready for use after the Christmas holidays.

Because it is more economical to erect one large building instead of two or more smaller buildings it was decided to have the departmental offices and class rooms of both Physics and Electrical Engineering in the one building.

In the section of the building devoted to Physics there are four lecture rooms, each with a seating capacity of fifty students. There are also large laboratories on each corner of the new building which are well lighted by windows on two sides.

The Electrical Engineering Department will occupy the south end of the building. There is a large machine shop on the southeast wing, and many other labs such as the measurement lab, the meter lab, and a lab for the use of Sophomore students of E. E.

With the completion of the other half of the building many more labs and class rooms will be available.

MAJOR PHILLIPS VISITS CLASS IN JOURNALISM

Major Wade H. Phillips, head of the State Bureau of Conservation and Development, and the new publicity director of the department, and Paul Kelly, of Miami, Fla., visited the elementary class in Journalism Thursday morning of this week.

DISTANCE RUNNERS LOSE TO CAROLINA

Last Saturday afternoon, between the halves of the Carolina-V. M. I. game, the freshman and varsity Cross-country Wolves clashed with the Tar Heel Harriers. The race started just before the end of the first half and ended on the field between the halves.

Both State teams ran well, but were unable to overcome the strong opposition of the Tar Heels. Six of the Carolina Varsity men finished before Captain Nance, who led the State team, finished.

The course was long and hard, being four and a quarter miles long and over exceedingly rough and hilly ground. In this race the University team had a decided advantage in that they knew the course and how to set the pace.

DUNLAP RUN DOWN BY INTOXICATED AUTOIST

While the State College students were celebrating their victory over Duke Thursday night, R. H. Dunlap, of Charlotte, was run over by an auto with an intoxicated man at the wheel. The driver objected to being delayed for a moment, and after some strong words with the students he started his car and shot through the crowd at full speed.

As Dunlap was unable to get out of the way, he was knocked down and both wheels passed over his body. He was rushed to Rex Hospital, and the latest report is that he was shaken up and bruised, but was not seriously injured. The driver was soon overtaken by the police, taken into custody, and consigned to jail.

HENNINGER ADDRESSES THE BUSINESS CLUB

Tells Students That Harmony With Associates is Necessary For Success in Business

The State College Business Club held its regular meeting Thursday night in Pullen Literary Society hall. F. S. McCoy, the president, presided over a short business session, after which the meeting was turned over to Harvey Dawson, chairman of the program committee.

The program consisted of two talks, one by a student and one by a professor. H. E. Springer, senior

in Business Administration, gave a short talk on "How I Am Preparing Myself for the Business World." He gave his idea of what the business world was, and then told what he was doing on the campus in preparation for taking his place in it. Professor Henninger, who has charge of the placement of Business students after graduation, spoke on "What Constitutes Success in the Business World."

Mr. Henninger said: "A man is a success if he likes his job, if he is liked by his employer, if he is a respected person in his community, if he saves a dollar for a rainy day, if he votes and takes an interest in public affairs, if he supports some church and some schools, and if he is respected by his children." In speaking of who builds your career, Mr. Henninger said: "Many of us think that it is a personal affair, that we build it alone. But it is not; it is a family and society affair. We will not have a successful career

Last Week's Best Article

The honor for having the best article in the issue of November 3d goes to R. H. Crisp for his article, "Report of Registrar Shows Plummer Is Scholastic Head."

"This Week's Ads"

By G. P. DICKINSON

Every State College man has the desire to be well dressed, and to know that when he makes a purchase that he is getting the worth of his money.

When you trade with our advertisers you can rest assured that you are not only getting the latest in style, but that you are getting the worth of your money, for THE TECHNICIAN solicits advertising only from reliable firms.

So when you desire to make a purchase make a note of the firm which carries the article, and pay them a visit. You will gain by so doing.

Below is a list of our advertisers.

"We should all have a hobby," he said, "in order that we do not run around in circles, something to take our minds off of our worries and everyday tasks. Most important of all, however, is for us to build a character."

MEN TRAIN FOR POULTRY TEAM

The men trying for the poultry judging team, which is coached by Prof. W. F. Armstrong, are working hard as the time of the contest draws near. Of the twelve candidates, the four making the highest average score will be selected for the team, one of which is alternate.

The three methods of scoring are utility judging, standard judging, and examination on standard requirement. Intensive training is now being done on all three, and of their own accord the candidates have formed a quiz section, which meets every night. One member is appointed quiz master, and conducts the class for about an hour.

The contest is held annually at Madison Square Garden, New York City, in connection with the National Poultry Show, which is the largest in this country if not in the world. N. C. State has always made a good record, in the past, having never been lower than fifth place.

The Sidewalks of New York

HAVE become for most of us that very short space between going up and going down. We do not travel much on the surface these days. If our minds were a reflection of our trip through a modern city, we should be at once the most profound and the most ethereal race in the world.

The escalator and elevator carry us from the subway to the surface, from the surface to the elevated subway. The baggage hoist lifts our trunks from level to level. We enter a building and mount to the fiftieth story. Indeed, we have almost abandoned the horizontal, and the force of gravity seems just a bit old fashioned. The Otis Elevator Company has placed at our disposal an entirely new direction.

The OTIS ELEVATOR must accept a great deal of the responsibility for the crowding of New York's sidewalks in the congested district. This seems fanciful but nevertheless it is true. Newspapers and magazines continually deplore the increasingly over-crowded condition of these sidewalks, due to the ever-increasing height of buildings. If it were not for the developments in the elevator industry made by the Otis Elevator Company as a pioneer, it would not have been possible to erect buildings of the stupendous heights which are now in vogue. It is the high speed Gearless Elevator, now culminating in the 800 ft. speed automatic signal control elevator, which has made the fiftieth floor almost as available in point of time as the twentieth floor, and that has, therefore, made it feasible to pile office on office high into the air.

STUDENT FORUM
(Continued from page 4.)

sophomore he has acquired the attitude of the student body as a whole. He probably spends most of his time doing nearly everything but study. He will go out nights on a date, to a movie, or to a dance, when he ought to be in his room studying. At least two-thirds of his spare time is spent for his own pleasure. Even when he stays in nights he doesn't study much, if any. He will run across the hall to a friend's room and indulge in a "bull session" for hours. During his freshman year he wouldn't think about "cutting" a class, but now he doesn't mind it at all.

If the upper-classes would continue their studying during their college career, State College would graduate more educated men.
T. E. WHITE, JR.

SHOULD WEAR OVERALLS

I agree with the one that wrote the article in a recent issue of THE TECHNICIAN that it is not very proper to wear overalls to a public meeting, and have a dirty skin besides. But the writer seems to cast a reflection on the boys that have to wear these garments, and it is this factor which I wish to criticize. A pair of overalls is no disgrace anywhere, and instead of condemning a person for wearing them, I will sympathize with him and do all I can to help him along.

Wearing overalls and laboring is nothing but a perfectly sound principle. Call back the "boys" who finished here years ago who wore overalls, turned their hands over and worked, and who used their heads for something besides a hat-rack. Compare them with the ones that wore knickers, brushed the dust off the post before he would rest against it, cast reflections on the ones that wore these overalls, and see which type has succeeded in life.

Another statement I wish to correct. The boys who work at the barn absolutely change clothes before going to work and again when they have finished, so the boy who wears overalls in public is not from the barn. Furthermore, I had rather be the boy who works and buys his overalls than be the boy who wears his "Dad's" clothes.

STUNT NIGHT PROGRAM IS SHORT BUT SNAPPY AFFAIR

Ag Club Stunt Judged Best; Alpha Zeta and Alpha Lambda Tau Have Fine Shows

Before an audience of nearly seven hundred people, the first Stunt Night for State College was staged Wednesday evening at 8:00 in the College Gymnasium. R. R. Fountain, master of ceremonies of the evening, explained the purpose of Stunt Night and expressed the hope of the organizations fostering the movement that this be made an annual affair. Home-Coming Day for the alumni of this institution.

The program called for stunts by eight organizations and fraternities who had expressed their willingness to take a part in the entertainment. Of this number only three groups appeared to present their stunts.

Alpha Lambda Tau, social fraternity, led off with an excellent imitation of a modern jazz orchestra, directed by its leader using a long house brush as a baton. By special request from the audience, they reappeared after the other stunts had

ATTENTION, ALUMNI!

The Alumni Athletic Association will hold a business meeting in the State College "Y" on the evening of Thanksgiving Day. Every Alumnus of the College is urged to attend the Wake Forest game in the afternoon and stay over for the meeting in the evening.

J. A. HIGGS, JR., '06,
President.

been given for an encore performance.

The Agricultural Club followed with a flowery oration of witticisms and wise-cracks, with the orator attired in a full-dress suit of overalls.

The last stunt was a radio number by Alpha Zeta, honorary agricultural fraternity. After duly tuning the set by twisting the ears and noses of the two men holding the loud speaker, news was broadcasted concerning the whereabouts and the whyfores of some of our most prominent faculty members.

Dean Cloyd, Tal Stafford, and Johnnie Miller, acting as judges, awarded first place to the Ag. Club and the second to "The Black Cat Orchestra" of Alpha Lambda Tau.

Between acts and following the program the meeting was converted into a pep meeting and the walls of the gymnasium echoed with the shouts of "Beat Duke." Everybody present went away with the feeling that they had profited by going to the meeting and that the student body was prepared to give the Blue Devils a fight from the bleachers next day.

The only criticism of the program was its brevity, caused by the organizations who had promised stunts failing to come across with the goods at the last minute.

Alumni Notes

Observations and Communications of
ZIPPY MACK

Mr. Moses Kiser and Miss Ethel Stewart were married Wednesday morning at Edenton Street Methodist Church, Raleigh.

Mrs. Kiser is a native of Buies Creek but has lived in Raleigh for several years. Mr. Kiser is a member of the Agricultural Class of '23, and since his graduation has been connected with the Pine State Creamery, of which he is now assistant manager.

Whether Dick Gurley thought too much of his old college to give it a licking, or whether that same institution is stronger in football than he thought, are matters of little import. The victory's the thing.

"Tiny" Jimeson, erstwhile member of the Wolfpack, and of the Agricultural Class of '25, was on the campus recently. He is now doing milk inspection work for the towns of Scotland Neck and Weldon.

The Class of '24 was well represented by visitors during the week-end, "Sid" Workman, "Sam" Redfern, and "Bruce" Mewborn having been among those present.

Mr. J. B. (Shylock) Slack, of the '26 Poultry Class, was a recent visitor to his old roommates and fraternity brothers during the last of the week.

Mr. J. S. Moore, of the '26 Poultry Class, writes in to get his name on the mailing list of The Technician, and tells us he is now with the Poultry Department of the University of Georgia, where he is doing instruction.

"Tom" McCree was a recent visitor. He says he has been down in God's country (Onslow County), and likes it very much. He is still with the Fisheries Commission. They haven't found him out yet.

We have just received a breezy little note from F. K. (Francis) Fogleman, of last spring's Mechanicals and Business Manager of The Technician. He is with the Westinghouse folks at Moore, Pennsylvania, and says that Ira Short, '11, and R. A. Coughenour, '21, are there, also. Fogleman is Assistant Technical Writer for the South Philadelphia works of his company. He may be reached at 908 11th Avenue, Moore, Pennsylvania.

Messrs. J. H. (Jimmie) Rhodes and J. V. (Sheik) Leonard, of the '26 Mechanicals, who are now with the Grinnell Company, of Charlotte, were campus visitors during the week-end.

The first annual Home-coming Day for the "Old Grads" was much of a success, as many of the old fellows were back, and the Duke game was all that could be desired. We shall see more of them back for future home-comings.

S-O-C-I-E-T-Y

All Social and Personal News turned in to The Technician office will be appreciated

Mr. Edwin Roachelle went to Durham Saturday to see friends at Duke University.

Mr. Henry Kendall, alumnus of this college, spent the week-end on the campus.

Mr. Henry Bynum spent the week-end with his parents at Pittsboro.

Messrs. "Dunk" DeVane, Mount Wilson, and Linwood Pridgen, all alumni of this college, spent the week-end with friends on the campus.

Mr. Frank Hoyle spent the past week-end at Chapel Hill, where he visited friends.

Carter Hudgins visited at Spartanburg, S. C., and Converse College the past week-end.

COTILLION CLUB DANCE

The Cotillion Club dance, given Friday night in the Frank Thompson Gymnasium, was one of the most brilliant affairs of the social season at State College. This was one of a series of dances given annually by the Cotillion Club. Music was furnished by Charley Stephenson and his orchestra.

The Cotillion Club is composed of between sixty and sixty-five fraternity men, organized in order to give formal dances on the campus. This organization has been in existence for several years and has been very successful in promoting dances. Carter Hudgins, Kappa Sigma, is president of the club.

PLEDGE DANCES

The pledge dances will be given this year November 24 and 25, in the Frank Thompson Gymnasium. Naylor's orchestra, from Birmingham, Ala., will furnish the music for the occasion.

There will be two dances instead of three this year, due to the fact that the Wake Forest-State game comes the afternoon of the 25th. The Faculty Council will not permit a dance Thanksgiving morning.

Naylor's orchestra is well known throughout the South, and has played for the University of North Carolina on several occasions. This is their first appearance at State.

The scheme of decoration will be carried out similar to that of the pledge dances given last year.

NEW HANOVER ALUMNI BANQUET

The annual banquet of the New Hanover County Alumni Association of State College was held in the banquet hall of the Wilmington Hotel, Thursday evening, October 27, 1926, at 7:30 p.m.

The president requested a report from the Executive Committee. It reported that a local high school graduate was very desirous of entering State College, but was handicapped by lack of finances. Mr. Foster spoke in behalf of this young man, stating that he had known him for several years and that it was a very worthy case. Coach R. L. Black also endorsed Mr. Foster's statement, stating that he had known him while in high school. After various members had expressed themselves relative to furnishing a scholarship to a New Hanover County boy it was voted and unanimously carried.

Mr. H. A. Huggins told of his recent visit to State College on "Dad's Day," and suggested that members of our chapter visit the college more often, assuring them that they would be given a good time.

The feature address of the evening was made by Professor L. E. Wooten, of State College. Mr. Wooten spoke about the modernizing of the college in the various departments, and of the employment of a business manager for the college, his duties being to look after all college property. He paid high tribute to Mr. A. S. Brower, who is at present occupying this position.

Professor Wooten briefly outlined the program and the various committee activities that are being carried on by the Wake County Alumni Association. Afterwards he dwelt on athletics, spoke of the coaching system and the department of physical education. His last thought was that of modern college life.

The following officers for 1926 were elected:

Lewis Merritt, president; T. J. Hewitt, vice-president; H. R. Cavanaugh, secretary-treasurer.

H. A. Huggins was elected to serve on the Executive Committee, filling the vacancy made by the retirement of T. J. Hewitt.
