Our coeds are perhaps the most admired of all types of women. Day by day, week by week, month by month, she is finding new ways to enhance her beauty and charm. Here are a few tips on how to keep your skin looking its best.

**Paragaphs**

This is probably the last Techniclist until next year.

**Approaching the examinations are being held with much turmoil and the breakdown after it.**

This hailing business has been threatened by the appearance of the new edition of the Adventure magazine. As always, it is time for action.

A substitute for debate has been instituted at Grindell College. The contest will be held on the campus and is advertised by the forensics department. They will discuss the present problems and current topics.

The press has been brailing at Raleigh about politics and millitary matters. For instance, this page, itself, was not printed at the University, due to the action taken by the president and military department.

Since the closing of the football season, the student body has been busy with barbecues and banquets for receptions. The college will soon meet at the State Theatre this week. We will not be surprised to hear of movie contracts being signed by some of them.

**All this talk about the young folks going to the dogs and drinking themselves to death, according to "Pamphlet" Johnson. His name is not on the books of the public that there is much danger to college students. He has written a newspaper article that has the interest of the students. They are drinking when probably only a few men have been caught in the act.**

**Championships**

State College has been signaling highly to the outside world this year, each field is different fields of competition. The football team, made by our football and crop-judging team is in state and college and student body.

Our football team has made a name in the realm of that sport that this past year the defending state and good eleven that it does not expect out, is in good shape for anything. The Wolfpack was the state championship, and its ranks forth in the ranking of the State University.

Upon winning the title state championship, our basie team was not given unnecessary congratulations, saying that we de-

**Student Forum**

The article of H. C. Green, under the title "Presidentialism," in Ten years, a national magazine, contains some very interesting incidents. A discussion centering on the welfare of the student in the colleges is coming of every state in the nation. If the story is true, the student should be a part of the system that is being dealt with. In this article, H. C. Green, a well-known teacher who served as principal of the Grindell College, states that it is the only way to maintain the shape and integrity of the college.

**SPAKERS AT DETROIT**

Among speakers at the 15th Annual Convention of the Southern Wolfpack College, made a statement that some of the men and many writers favor the idea of the "Presidentialism," that the system should be abolished. He further stated, that the way in which the college is run, is a reflection of that system.

This out of the hot spot of the national college, in the South, is not an exception. The student has not been able to express his own views in the discussions that have taken place.

In the past they have not been able to express their opinion, because of the influence of the officials of their families. They have been without the benefit of the official views of the officials who are responsible for the school. Today we should not be without the benefit of the views of the officials who are responsible for the school.

Many students believe that the time is ripe for a change in the administrative policies of the college. They believe that the college should be administered by the students, and that the students should have an equal voice in the management of the institution.

Many good men become bankrupts in the efforts to change the current system. When the college is in need of funds, the student body and the faculty are in conflict. The college is in need of funds, and the faculty are not able to make the necessary contributions. The student body is in need of funds, and the faculty are not able to make the necessary contributions.
