## WAR DEPARTMENT ORDERS TRANSFER OF MAJOR EARLY

Head of R. O. T. C. Will  
Leave at End of the  
Spring Term

GOES TO WAR COLLEGE  
IN NATIONAL CAPITAL

Will Be Connected With Historical  
Section of War College—  
Has Improved R. O. T. C. Here  
in Three Years Stay.

The War Department has issued an order directing Major C. C. Early to report to the Historical Section of War College, located at Washington, D. C., immediately at the end of the spring term.

The loss of Major Early not only comes as a blow to the military department, but to the faculty as well. During his services at State College the military department has gone forward with leaps and bounds, and under his leadership and guidance a strong military unit has been perfected, of which the college may well be proud.

Since his graduation at West Point, in 1905, Major Early has seen much active army service. For a time he served in China, the Philippines, and other places in the Far East. During the World War he was stationed at the War Department in Washington. He is a graduate of the army service school at Fort Benning and of the Command and General Staff School at Fort Leavenworth. In June he will complete twenty-seven years of service.

Major Early came to State College from Fort Leavenworth, Kansas, in July, 1925.

Major Early has not strictly centered his interests and influences in the military department alone, for they have been felt and welcomed in other departments of the college as

## McKnight Forced To Leave Because Of Blood-Poisoning

E. A. McKnight, a State College student, was forced last Saturday to leave school and go to Asheville, where he will undergo treatment for blood poison.

During the Christmas vacation McKnight fell down and bruised his ankle. Blood poison set in, and for several days he was in a very critical condition. McKnight recovered sufficiently, however, to come back to school and register January 10, but going to classes proved to be too much of a strain on his weakened constitution, and blood began clotting in the veins of his affected leg. McKnight was a member of the junior class in Textile Manufacturing. He is a resident of McComb, Miss.

McKnight is a popular and well-liked young man among his classmates, and is a brilliant student.

## Curtains Burn In Fifth as a Result Lighting Attempts

After several unsuccessful attempts to light up a darkened dormitory by the setting fire to paper and throwing it out the window from the third floor of Fifth dormitory, a group of careless students succeeded in setting fire to the curtains and shades of a room on the second floor.

Unfortunately, the students over the burning room could not see the leaping blaze beneath them. Upon learning of the fire from an exchange of hundreds of voices from the surrounding dormitories, they entered the blazing room, tearing down and casting out burning shades, curtains, and other fixtures.

The incident was attributed primarily to carelessness. But the open window and the slight wind also added greatly to the spread of the fire. The occupants were out at the time. Luckily enough, they left their door unlocked, thus facilitating immediate entrance to the burning room.

The loss was restricted to window curtains and shades. After all, the incident proved to be one highly exciting but relatively inexpensive.

## IMPERIAL QUARTET WILL APPEAR IN CONCERT HERE

Other Organizations Booked for  
Performances Here in  
Near Future

The Imperial Quartet, of Chicago, known as America's greatest male quartet, will appear here in Pullen Hall, Friday at 8:15, as a part of the entertainment-lecture program that is arranged each year.

This quartet averages over four hundred appearances in its home city, Chicago, each year. It comes to State College recommended very highly by some of the leading newspapers of the country. This is what *The Tribune*, South Bend, Ind., says about the Imperial Quartet: "A more happy combination of four voices could scarcely be found than is heard in this quartet. With the conditions fundamentally so good it is no surprise that result is so satisfying, the intonation so perfect, the detail worked out to such a fine degree, and the blend so harmonious and ideal. The program was almost doubled by the encores, all of which pleased immensely."

The program will be as follows:

PERSONNEL  
Herman Haynes, first tenor.  
Clark Shipp, second tenor.  
Ben Q. Tufts, baritone.  
Oliver Johnson, bass.

I  
Pale Moon (Indian Love Lyric) Logan.  
The Wind in the Chimney, Bret Harte.  
Parks.

The Church Organ (study in imitation) Ernest.

## ANDERSON HIGHLY HONORED BY SOCIOLOGICAL GROUP

Chosen on Executive Committee  
of Rural Sociological Division  
of American Society

W. A. Anderson, professor of Sociology at State College, was recently elected a member of the executive committee of the Rural Sociological Section of American Sociological Society, which met in Washington December 22-30.

This committee has charge of the activities of rural sociological sections of the United States for the coming year. The famous sociologists from all over the United States gathered there for that meeting, which Professor Anderson attended. He was chairman of the meeting when Rural Sociological Research was discussed. During this specific meeting these sociologists outlined the work for rural sociological research.

Some of the noted sociologists who took an active part in this meeting besides Mr. Anderson were: Dr. C. J. Galpin, of the U. S. Department of Agriculture; Dr. J. H. Cole, of the University of Michigan; Dr. Eben Mumford, of Michigan State.

In a recent publication of the *Journal of Social Forces*, the article, "Occupational Attitudes and Choices of College Students," written by Professor Anderson, brought quite a comment from the sociologists. Another article of Mr. Anderson's, "Vocation Choices and College Graduation," appeared in the *Vocational Guidance Magazine*, published by the Graduate School of Harvard University.

## NOTICE, SENIORS!

Senior Class meeting Wednesday night, 6:30 o'clock, in the Y. M. C. A. auditorium. Several important matters are to be brought up at this meeting. Every member of the Senior Class is urged to be there.

PRESIDENT.

## MASTER TEACHER IS HONOR GIVEN GRADUATE OF '22

A. H. Veazey Notified by  
Telegraph Saturday  
of His Selection

ENTITLED TO EXTENSIVE  
TOUR THROUGH SECTION

Won Honor in Competition With  
Vocational Agricultural Teachers  
in Eleven Southern States  
—At Rosewood for the Past  
Five Years.

A. H. Veazey, a graduate of the class of '22, now an instructor in farming in Rosewood High School, Wayne County, received certification by wire Saturday that he had been selected as Master Vocational Agriculture Teacher of the South.

The telegram informing Mr. Veazey that this title, carrying with it such high honors, had been bestowed upon him, was from Director Malby, in charge of the administration of the Smith-Hughes work in the South.

Mr. Veazey won the honor in competition with agricultural teachers of North Carolina, Virginia, Georgia, Alabama, Florida, Mississippi, Louisiana, Tennessee, Oklahoma, Texas, and Arkansas.

His selection as the master teacher entitles him to a free trip to Memphis, Tennessee, a tour through Florida, and a three-day sojourn in Cuba with all expenses paid. Making this tour will be forty people who have in one way or another performed distinguished service for agriculture. The expense of the tour will be paid by the educational bureau of the Chilean Nitrates. Mr. Veazey will leave Goldsboro on January 31 for the tour.

The Rosewood instructor was entered in the southern competition after he had been declared master teacher for North Carolina. This title, together with the broader one awarded Saturday by action of Federal Department of Agriculture officials, is based upon actual records of the work Mr. Veazey has accomplished in Fork Township. His records were studied in comparison with records of other instructors entered in the contest.

Mr. Veazey is a native of Granville County, and was graduated from State College in 1922. He assumed charge of the agricultural classes at Rosewood in 1923 and has remained in this position for the past five years.

## CAR OWNERS AVERAGE ON PAR WITH STUDENT BODY

Survey Conducted by Tucker  
Gives Interesting Data Concerning Students

According to a survey recently completed by C. S. Tucker, president of the student body, automobiles owned by students do not affect their scholastic standing in comparison with the student body average.

The study shows that those who own cars have an average of 78.1, while the student body average is 77.46. This study was based on 667 signed questionnaires of students at State College.

The survey further disclosed that 34.8 per cent of the student body are earning a part of their college expenses, or 39.6 per cent of the freshman class and 31.61 of the upper-classmen. Fifty-five students, who pay all of their college expenses, compose 3.8 per cent of the student body. The survey shows that there are 654 self-help students who have an average of 78.09, which is a little better than the student body average.

The student body was divided into eight groups in order to make a more accurate study of the scholastic standing of the self-help students. The limits within which these groups fell were those who are paying all their expenses while in college to the lowest limit, which was that group paying from 10 to 15 per cent of their college expenses.

According to the report made by

—Continued on page 2.

## Annual Textile Show To Be Held Here in March

The Textile Show, an annual exposition put on by the students of the Textile School, will be held March 27-29, inclusive. This date was decided upon at a meeting of the officers of the exposition and the Textile School faculty held Wednesday afternoon.

The program, under present plans, will be distributed over the three days, with the showing of the textile plant equipment and goods coming on Thursday, the last and what is at present planned as the biggest day. Prominent men and leaders in their field of work will address the students and the mill men that will be assembled here during the three days.

The show that was put on last year by the Textile School was by far the biggest and best that has been held thus far. It is planned this year that it shall go even farther and be better than last year.

The officers of the show are J. C. Cobb, superintendent; J. M. Dunn, assistant superintendent; A. R. Marley, assistant overseer carding and spinning; J. O. Poil, overseer weaving; L. W. Allwood, assistant overseer weaving; C. A. Ridenhour, overseer designing; Bob Shapard, assistant overseer designing; D. A. Gryder, overseer dyeing; with George Howard as assistant.

## DEBATERS SELECTED FOR INTER-COLLEGIATE MEETS

Aydlett, Burroughs, Affirmative  
Speakers; Pearson, Buchanan  
Chosen for Negative

As a result of the debate tryouts which were held in Pullen Hall, Room D, Wednesday, H. H. Burroughs, A. L. Aydlett, R. R. Pearson, and E. W. Buchanan will represent State College in debate this year.

The first debate will be with V. P. I. at Blacksburg, Va., on February 23. Ten students entered the tryouts. The subject, which has been selected for the debates, was: "Resolved, That the United States should cease to protect, by force of arms, capital invested in foreign countries except after formal declaration of war."

The men who acted as judges were Professors Ray, Robinson, and Clark, all of the English department. More than twice as many students as in any previous year entered the competition for membership on the State College debate teams of 1927-28, according to the record kept by Professors Cunningham, coach of the teams. The contestants represented every school and every class in the institution.

It has been decided to employ the squad system for debate work this year. Under this system the group of contestants worked together as a whole, studying the proposition intensively and holding frequent discussions and clashes.

According to Professor Cunningham, the tryouts were successful, both from the knowledge of subject-matter and the experience of participants. Professor Cunningham made the remark, "It was equal to any tryout held in the past and on the whole I am pleased."

After the decision of the judges had been announced, Professor Cunningham arranged the four successful contestants.

## Prof. Grimshaw To Read Paper Before Textile Gathering

Professor Albert H. Grimshaw, the head of the dyeing department of the Textile School, will go to Greensboro, N. C., Saturday, the 21st, to read a paper before the Piedmont Section of the American Association of Textile Chemists and Colorists.

The title of the paper he has prepared is, "Methods of Testing Saturated Castor Oils for the Determination of Their Fatty Content." This subject is of interest to both the makers and users, and should arouse wide interest throughout this section.

For some time Professor Grimshaw has been conducting tests which were made with the aid of Dr. Brown, D. A. Gryder, George Howard, and R. A. Fields. These men will accompany Professor Grimshaw and take part in the discussion.

Many subjects of importance to the textile industry will be discussed at this meeting.

## Religious-Social Topics Discussed by Sherwood Eddy

Dramatic Club  
Organized Here at  
Meet Yesterday

State College students started a movement to further dramatics on the campus in a meeting last Saturday at noon. Yesterday at 12 o'clock the club met in Professor C. C. Cunningham's office and was organized. The movement was first started by members of the Pullen Literary Society, and later Leazar Society was asked to join in the movement. It was decided upon by the two societies to ask the members of the student body to help in the production. The problems facing the organization were discussed.

Professor H. M. Ray, a resident of Raleigh, is to be general supervisor for the club. Professor Ray has had a great deal of experience, both in the production and direction of dramatics at Northwestern University. Professor C. C. Cunningham, head of the Public Speaking department, will be general supervisor.

The club is going to try to get Raleigh girls to take part in the production of plays. The manager of the State Theatre has been kind enough to offer the club the use of their stage settings.

It is probable that the Dramatic Club will make its debut within about eight weeks. The first intentions are to produce one-act plays of well recognized authors, although it is hoped eventually to write original plays.

Officers elected at the meeting yesterday were: President, A. Laurence Aydlett; secretary, A. Spencer; treasurer, V. Hugh Campbell. To suggest a name for the club a committee was appointed, consisting of F. B. Jenkins, J. A. Broadwell, and W. L. Roberts.

A play-reading committee was selected to suggest productions to the club. These are C. L. Straughan, W. H. Campbell, and D. H. Latham. The next meeting will be held Wednesday, January 25, at noon, in the Public Speaking classroom.

The following resolutions were voted upon and accepted by the organization: "Whereas there is a current opinion on the campus that a dramatic

## POULTRY TEAM LEAVES FOR JUDGING CONTEST IN N. Y.

In Competition With Teams  
From the Leading Eastern  
Colleges

Accompanied by Dr. B. F. Kaupp and Prof. W. F. Armstrong, the N. C. State poultry judging team left early this week for New York, where the team will compete in the National Poultry Judging Contest, held in Madison Square Garden last night, January 20.

They competed with teams from Cornell, West Virginia, Massachusetts, and other leading colleges of eastern United States. The contest is divided into three phases: utility judging, standard judging, and a written exam.

The poultry department has made it an annual occasion to train a team to compete in this contest. To make this team is considered one of the highest honors a student can attain while in college. Honor alone is not all that is received from this team; its educational value is great, and offers that which a student cannot get in regular college courses. For the above reasons a group of boys have been training every afternoon since November 1. The men making the trip are W. P. Albright, P. A. Raper, T. C. Andrews, and J. C. Cathey.

The N. C. State team won third place, in 1926 second place, and in 1927 first place by a margin of eight points.

Results of last night's contest were not known here in time for publication of this issue. In 1925 the N. C. State team won third place, in 1926 second place, and in 1927 first place by a margin of eight points.

Lecturer Here Speaks  
on Timely Subjects in  
Series of Talks

AUDIENCE LISTENS WITH  
INTEREST TO WAR VIEWS

Speaker Says His Experiences  
Have Made Him a Pacifist—  
"Am I Getting an Education?"  
Subject of Address to Students.

Departing somewhat from and handling in a different manner the subjects of most Y. M. C. A. speakers, Sherwood Eddy concluded a series of six lectures at State College by adding more fuel to the white flame of controversy upon certain matters that have enveloped some of the members of the State College faculty as well as other personages in and around Raleigh.

Mr. Eddy, lecturer, student, world traveler, and speaker, was brought to State College by the local Y. M. C. A. Beginning his series of six lectures Monday with a talk upon "The Present World Situation" and concluding the engagement Wednesday evening with a sermon upon the topic of "Adventurous Living," the speaker attempted to touch upon all the religious and social problems confronting the people of today.

Declaring that he was satisfied with the present world situation in spite of the fact that he expected the Dawes Plan to break down in 1929, and that conditions in England, France, and Germany were bad, Mr. Eddy opened his engagement with a brief economic survey of the world. Mr. Eddy had traveled widely and is based from an extensive study in Europe.

The three outstanding impressions which Mr. Eddy brought back with him are: The recovery of Europe economically, but not politically, since the World War; America's new position of enormous and dominant influence which will inevitably play a

—Continued on page 2.

## Dr. Brooks Goes To Battle Creek, Mich. Sanitarium To Rest

Dr. E. C. Brooks, president of State College, left Raleigh last Wednesday night for the sanitarium at Battle Creek, Michigan, to take the rest cure for a few weeks.

The many duties of the president, together with the worries placed upon him by the construction now going on on the campus, so nearly placed him on the verge of a nervous breakdown that his physician advised him to get away from his work for a few weeks and do nothing but rest until he had recovered his former stamina. Dr. Brooks, taking the advice of his physician, has gone to Battle Creek, where he hopes to fully recover his strength in a short time, and then will return to the campus and resume his duties as president.

## Bids Extended To Ten Students By Tau Beta Pi

Ten men from the junior and senior classes have received bids from the local chapter of Tau Beta Pi, honorary engineering fraternity. The men pledged are: J. C. Davis, G. P. Hall, R. L. Hardy, R. J. Hayward, E. W. Kearney, R. J. Morrison, and J. R. Schrest from the senior class, and A. M. Groves-Walker and W. B. Kilgore from the junior class.

The bids were held up for a considerable time because of a misunderstanding which had to be cleared by the national council. At one time it was feared that there would not be time enough to get the new men in the Agromech on the Tau Beta Pi page, but prompt mailing of bids by the corresponding secretary has made it possible, according to officers in the fraternity.

The men who were bid were selected from the upper eight in scholarship from the junior class and from the upper four in the senior class.

## VOCATIONAL SENIORS TO TEACH UNDER NEW SYSTEM

### Teaching Activities Will Be Confined to Three Nearby Communities

The Vocational Agriculture department has announced a change in the system formerly used for sending the seniors out to various agricultural high schools for teaching experience. Beginning this term, the seniors will go to only three high schools—Garner, Apex, and Cary—for their teaching practice and observation.

There are eighteen seniors in this group, and they have been divided into three sections of six each. The three sections will visit each of the schools, one section at each school, until all have been visited. The students will first do observation work and later will do actual teaching. The Education department of the college is requiring more of this kind of work by the students than was formerly the case. The change in the system was designed especially to give the students more work of this nature.

Professor R. W. Cline, of the Department of Education, is district supervisor, and together with Professor L. C. Cook has charge of this work. By keeping close to the college he will be able to supervise the work more thoroughly and thereby expects better results than have been obtained heretofore.

Professor Cline has added to the Education department the part-time and evening classes which have been conducted in communities that have agricultural departments. These classes have been successful and have proved very instructive to the farmers residing in the neighborhood. By including these part-time and evening classes in the scope of the work covered by the Education department, the teachers will become better acquainted with the farmers and will

be enabled to aid them in their difficulties. The Vocational school began their teacher training this week, and will continue this throughout the present term. Under the new plan they will spend a part of each week teaching and will attend their classes at the college while not teaching.

## War Department Orders Transfer of Major Early

(Continued from page 1)

well. He is a member of the State College Faculty Club and of the Raleigh Lions Club. At present he is president of the Faculty Club. He was largely instrumental in the organization of this club a few years ago. By its customs of holding luncheons at the Y. M. C. A. this club has done much toward the promotion of a feeling of cooperation among faculty members of this and other institutions of learning of the state. For these reasons Major Early will be missed on the campus.

## Debaters Selected For Intercollegiate Meets

(Continued from page 1)

ful candidates into teams in the following order: Affirmative, H. H. Burroughs and A. L. Aydielt; negative, R. R. Pearson and E. W. Buchanan. State College debaters are confronted with a heavy schedule this year. It is as follows:

February 23: State, negative, vs. V. P. L. affirmative, at Blacksburg, Virginia.

February 24: State, affirmative, vs. Virginia State Teachers College, negative, at Raleigh.

State, negative, vs. Virginia State Teachers College, affirmative, at Farmville, Va.

March 23 or 24: State, affirmative, vs. Rutgers University, negative, at Raleigh.

March 31: State, affirmative, vs. University of Alabama, negative, at Asheville or Greensboro, N. C.

April 3: State, negative, vs. University of Alabama, affirmative, at Tuscaloosa, Ala.

## TEXTILE DEPARTMENT HAS RECEIVED DONATIONS

### New Machinery for Finishing Hose Has Been Installed in Tompkins Hall

During the present year the Textile School has received a large number of donations which add greatly to the development of the school.

A standard twelve-form table equipped with forms for finishing ladies' hose and men's half hose. This machine is made by the Paramount Textile Machinery Company, Chicago, Ill. This is the best method of finishing hose after they have been knitted, and these forms are used in all knitting mills equipped with modern machinery.

Other donations in addition to those already received are as follows:

Allentown Bobbin Works, Allentown, Pa.—Fibre head silk bobbins.

Blackstone Valley Comb Works, New Bedford, Mass.—New half-laps for comb.

American Yarn and Processing Co., Mount Holly, N. C.—Mercerized yarn.

DuPont Rayon Company, Old Hickory, Tenn.—Rayon yarn.

Emmons Loom Harness Company, Lawrence, Mass.—Twine harness and reeds.

Economy Cone and Tube Company, Rockingham, N. C.—Cleaner rolls.

A. Hoen & Co., Richmond, Va.—Border bands for fabrics.

New York and New Jersey Lubricant Company, New York—Non-fluid oils.

Steel Heddle Mfg. Co., Philadelphia, Pa.—Heddles for weaving.

Standard Coosa-Thatcher Company, Chattanooga, Tenn.—Mercerized yarn.

Rohm & Haas Co., Philadelphia, Pa.—Dyehouse supplies.

Sawyer Belt Hook Company, Pawtucket, R. I.—Belt hook fasteners.

Tubize Artificial Silk Company, Philadelphia, Pa.—Rayon yarns.

Viscose Company, New York—Rayon yarns.

Victor Ring Traveler Company, Providence, R. I.—Ring travelers.

Industrial Fibre Company, Cleveland, Ohio—Rayon exhibit showing stages of manufacture.

J. H. Williams Company, Millbury, Mass.—Harness frames and shuttles.

Sixteen persons were lynched in the United States in 1927, according to the Department of Records and Research of Tuskegee Institute.

## STUDENTS HAVE MAIL DELIVERIES TO ROOMS

### Dormitory Service Now Being Enjoyed by Those Who Have Keys

Mail delivery to the dormitories is now being realized by those who have procured keys.

The first delivery was made Monday and a constant increase in demand for keys proves that the plan is successful.

There will be two deliveries a day, except on Sundays and holidays. If the holiday comes on Sunday and Monday is observed, one delivery will be made on the Monday following the holiday.

One box is assigned to each room. Keys are obtained at T. T. Wellons' office for a deposit of fifty cents.

In connection with the delivery system to dormitories collection boxes have been placed on the campus. Mail will be taken from these twice each week-day and once on Sunday.

The cooperation of every State College student is asked by Postmaster Duncan in a notice placed on each mail box section. This notice reads as follows:

"This receptacle is in the custody of the United States Postal Service, and attention is requested to the following section, *Section 1000*, of the Postal Laws and Regulations:

"Whoever shall wilfully or maliciously injure, tear down, any letter box or other receptacle intended or used for the receipt or delivery of mail on any mail route, or shall break open the same, or shall wilfully or maliciously injure, deface, or destroy any mail deposited therein, or shall wilfully take or steal such mail from or out of such letter box or other receptacle, or shall wilfully aid or assist in any of the aforementioned offenses, shall for every such offense be punished by a fine of not more than one thousand dollars or by imprisonment for not more than three years."

"Delivery service to the college buildings has been arranged for your convenience, and your cooperation is earnestly solicited. Particularly will it prove helpful, and advance the delivery of your mail if you will arrange, so far as may be practicable, for it to bear the address, the name of your dormitory, and the number of your mail receptacle."

O, Wert Thou in the Cauld Blast, Mendelssohn.

My Lady Chloe (Negro love song), Clough-Leigh (Victor Record).

IV

Tenor Solo—Calm as the Night, Carl Bohm. Mr. Shipp.

Intermission.

V

"John Peel" (Old English hunting song), Arr. Mark Andrews.

I Dream That I Dwell in Marble Halls, Balle. (From "The Bohemian Girl").

VI

Negro Spirituals:

Swing Low, Sweet Chariot, Arr. Fred Huntley.

Steal Away to Jesus, Arr. Herman Haynes.

VII

Sylvia (piano accompaniment), Speaks. Evening Song, Franz Abt.

The second program for this term will be given by Fiecht's Tyrolese Yodlers on February 7.

The original Fiecht's Tyrolese Company was organized in Innsbruck, Tyrol, one of the most picturesque places in the Alps, and the very heart and cradle of the music-loving, music-loving Tyroleans. The Fiechts have for generations been known as the leading folk singers and yodlers among their people, holding unquestioned rank as master artists in their craft, having won a six-day yodel and song contest in Innsbruck. This company is under the Redpath Bureau.

On March 7, at noon, the Hampton Institute Quartet will give a program of negro spirituals. Many will remember this quartet by their program last year.

Religious, Social Topic

Discussed by Sherwood Eddy

(Continued from page 1)

large part in the history of Europe; and the bright spot of the League of Nations, no longer a league of victorious Allies, but a great cooperative federation that with or without America, in his opinion, has come to stay. The speaker further stated that, in his opinion, the fourteen republics of Europe had come to stay, and that the ten dictatorships today found in Europe will pass.

Monday evening Mr. Eddy addressed the students on "Am I Getting an Education?" "Education is not putting something into the student," said the speaker, "but drawing something out."

The speech was built around seven questions which he asked the students to ask themselves:

"Am I learning to study and learning to think?"

"Am I learning the true, aesthetic values of life, its beauty and its culture?"

"Am I learning what are the great problems of life and how to solve them?"

"Am I building character by gaining the vital experience of God?"

"Am I getting an education in the three dimensions of life: its material length, its intellectual breadth, and its spiritual depth?"

"Am I getting an education through the shared experiences of two generations?"

Mr. Eddy concluded by stating that education "is a mutual sharing of experience between faculty and students."

Turning to the question of youth, Mr. Eddy discussed the revolt of

"If anybody wants to lie, let them lie. I can survive it," he said. "But I do ask one thing. Have we still the right of free speech in America? Are we afraid to hear both sides of a question stated? Or are we content to have a militaristic control and restraint of free speech and to be left to second-hand, distorted propaganda and a campaign of abuse, vilification, and wild rumor for our knowledge of the other side of these questions?"

In concluding his engagement Wednesday evening Mr. Eddy was generous in his praise of Dr. Brooks, a man who no doubt differed with him on many subjects, but who possessed a broad spirit of toleration. He also stated that he felt he had a new but a true friend in Major Early, a man who certainly differed with him on one subject. He stated that nowhere had he had a more appreciative audience and nowhere had he found a wider spirit of toleration.

The speaker has been attacked in various sections of the country because of his views upon military subjects.

"If anybody wants to lie, let them lie. I can survive it," he said. "But I do ask one thing. Have we still the right of free speech in America? Are we afraid to hear both sides of a question stated? The speaker has been attacked in various sections of the country because of his views upon military subjects.

"If anybody wants to lie, let them lie. I can survive it," he said. "But I do ask one thing. Have we still the right of free speech in America? Are we afraid to hear both sides of a question stated? Or are we content to have a militaristic control and restraint of free speech and to be left to second-hand, distorted propaganda and a campaign of abuse, vilification, and wild rumor for our knowledge of the other side of these questions?"

In concluding his engagement Wednesday evening Mr. Eddy was generous in his praise of Dr. Brooks, a man who no doubt differed with him on many subjects, but who possessed a broad spirit of toleration. He also stated that he felt he had a new but a true friend in Major Early, a man who certainly differed with him on one subject. He stated that nowhere had he had a more appreciative audience and nowhere had he found a wider spirit of toleration.

## Enjoys Can of Tobacco 16 Years Old

Waxahachie, Texas

May 18, 1926

Larus & Bro. Co. Richmond, Va.

Gentlemen:

The agent while going through his plunder stored in our baggage room came across a can of your tobacco, and account of his not using a pipe he made me a present of this tobacco.

You will note the revenue stamp and your memo which was inclosed. The tobacco was put up in 1910, sixteen years ago. But it was in good shape, of remarkable flavor, and was greatly enjoyed by me.

Thought you would be interested in knowing how your tobacco held out in these days of fast living.

Yours very truly,

(signed) Gordon McDonald

# TERRORS BEAT WAKE FOREST 48-41

## Beat Demon Deacon Cagers in Second Meet This Season

### Deacons Stage a Great Comeback in Last Period

SCORE SHOWS GOODWIN HIGH SCORER WITH 13

Thirty-four Personal Fouls Made During Game; Two State Men and Two Wake Forest Men Put Out for Fouling; Young Stars for State and Owen for Wake Forest.

For the second time this year Terrors of N. C. State avenged defeats of last year, and won over the Wake Forest five by a score of 48-41 in the city auditorium Thursday night.

State opened the scoring when Haar dropped in a ringer from near the side line. State ran the score up to 7-3, but the Deacons came back strong and leveled the score 7-11. The score wavered between the teams four times. State was at one time in the lead with a margin of one point and then Wake Forest with a one-point lead. When the score reached 15-14 in State's favor they were never headed from then to the final gun, although the Deacons came within 2 points.

Near the middle of the second half the Baptists rallied strongly and drew uncomfortably near the danger point, but the State offense got working and scored 13 points while the Demons were gathering 7.

The game was a repetition of the Duke-State game along the lines of fouling. There were 34 personal fouls made during the evening, sixteen by State and 18 by the Deacons. Referee Steiner came in for a lot of razzing from the supporters of both sides, although he was a great improvement over the official at the last State-Wake Forest tilt. He called some that were not fouls and some that were fouls he called not at all.

"Hank" Young was the big cog in the State machine. The thrilling playing of Young gave the audience many thrills. Bob Warren put up a good game at guard for State, as did McDowell. Both McDowell and Warren were sent out for too many fouls. Frank Goodwin was the leading scorer for the Techs, with 13 points.

Bob Owen was the shining light for the Baptist team. Time after time he dribbled down through the entire State team and got an open toss at the basket. He tied Goodwin for high scoring honors. Captain James was good for the "home team" also. Al Dowlin, star center for the Deacons, was given the air by Referee Steiner in the first half for too many fouls. Ralph James was ejected near the end of the second half.

Line-up and summary:

N. C. State	Wake Forest
Haar (11)	James (11)
Right Forward	
Young (10)	Paschal (4)
Left Forward	
Goodwin (13)	Dowlin (5)
Center	
McDowell (7)	Owen (11)
Right Guard	
Warren (5)	Carter (8)
Left Guard	

Substitutions—State: Johnson (2) for Haar; Haar for Johnson; Holden for McDowell; Johnson for Warren. Wake Forest: Poust (2) for Dowlin; Allen for James.

Referee: Steiner (Syracuse). Score at half: State 23, Wake Forest 16.

### HAD ODD ACCOMPLISHMENT

Earl Ausell has this anecdote in his book, "My Life and Reminiscences."

"My grandmother, Lady John Russell, was a great favorite with Queen Victoria throughout her life. Not alone, of course, because she had the peculiar and unusual capacity of wagging her ears like a dog. But the accomplishment intrigued the queen and she suddenly called on Lady John to show it off to an ambassador. My grandmother was so taken back that she lost for a time the power to move either ear, and only ultimately regained her power to move one, which she occasionally did for my education."

Bright went to a movie once and upon returning was asked if the villain was stabbed in the abdomen (advertisements of the show pictured a man being stabbed). "No," said Bright, "I think it was between the back yard and the kitchen."

## SPORT STUFF

By T. AVERNOR

Dear Reader:—The editor cautioned me to write more sports in this column. This is primarily a personal column. Editors do not, as a usual thing, ask the columnist to stick to one certain subject. So why should Editor Roberts?

That was a shame the way the Duke University Blue Devils treated us last week. Let's hope they have thirty-nine little devils and all of them brown.

That was a shame that we had to whip Wake Forest the first time by two points and then turn around and do like the Red Terrors did Wednesday night.

We (the Red Terrorians) play the University of Georgia quint here tonight in the Frank Thompson Gymnasium and the game will start at 8 o'clock, unless Dr. Sermon's freshmen play someone.

Wake Forest and Carolina are playing in the auditorium down town tonight. It will be a heck of a note having two big games right here in Raleigh on the same night. But, boys, support State.

Say, did you see that cartoon Mr. Reynolds wrote about Rosy? Boy! that was a true tale. Did you notice that typewriter table? It was like the one I used to have over in my room and somehow Pete found out about it.

Coach Drennen and eight of his wrestlers, led by Captain Leary, went to Lexington, Va., where they met the Washington and Lee grapplers last night.

Coach Doak was well pleased with the story I had in the *News and Observer* about him one day last week, but wanted to know where that picture came from. But, that is not getting a name for the State College baseball team. Let's not have outsiders try to put some name off on the team which we do not like.

Yours until next time,  
A. T. VERNON.

Check—Why does a stork stand on one foot?

Peggy—I'll bite. Why does it?

Check—Because if he lifted the other foot he would fall down.

## HIGH SCHOOL TOURNAMENT HERE ON MARCH 2 AND 3

Director Miller Expecting Large Number of Basketeers to Compete

The Physical Education Department of N. C. State College will conduct its Third Invitational Basketball Tournament for the High School teams of the State Friday and Saturday, March 2 and 3.

Any special chartered or rural high school may enter a team consisting of eight players. The rules of the state association govern the eligibility of players. If a school is not a member of the association its players are governed by the rules printed on the back of the entry blank.

The college retains the privilege of limiting to Class C should it become necessary. A special committee will choose the teams participating according to their season's record.

There will be three classes, as follows:

Class A—Special chartered schools with enrollment of 300 or over in the senior department.

Class B—Special chartered schools with enrollment of less than 300 in the senior department.

Class C—Rural high schools.

Trophy cups will be awarded to the first two teams finishing in each class. In addition the eight players of these two teams will be given individual gold and silver basketball charms.

The A. G. Spaulding championship cup will be presented to the winner of Class A for a period of one year and will carry with it the championship of the tournament. However, any school wishing to compete for the championship cup may enter Class A. A Class B or Class C team entering Class A may not compete in its own class.

The games will be held in the Frank Thompson Gymnasium beginning at 9 o'clock Friday morning. Two games will be played simultaneously on courts approximately 35x45.

In 1926 seventy-three teams entered, in 1927 one hundred and forty teams entered, and it looks as if it will be larger still this year. The students of State College have made this tournament possible by taking members of the visiting teams in their rooms. Many members of the present freshman and sophomore classes came here as a result of seeing the college while here on this tournament. State College has derived much benefit and advertisement from this tournament. These tournaments have been very successful and all indications point to a big high school tournament this year.

## Blue Devils Down Terrors By Rally In Second Half

A second-half rally spelled defeat for the Red Terrors last Saturday night at Durham at the hands of the Duke University Blue Devils by the score 32-29.

Bob Farley led the victorious Blue Devils in their second-half attack, scoring six points at long range near the close of the game.

The game lost seven players by personal fouls, four State men and three Duke men. All save Haar of the starting State line-up were ejected, and all save Jankoski and Farley for Duke.

The State quint started off in a speedy fashion and throughout the entire first half showed superiority over the Duke five. The Techs were leading by seven points at the first half, but were trailing by three at the close of the game.

It was the first defeat for the State team this season. Duke left her slate clean. State had formerly defeated Wake Forest among the big five and three smaller teams.

In a preliminary game the State freshmen won their first game of the season from the Duke Imps by the score of 37-33. Wright, State, led the scoring with 13 points.

## WRESTLERS ON TRIP TO VIRGINIA FOR TWO MEETS

Coach Drennen, Manager Parrish, and eight men entrained Friday morning for Lexington, Va. These men will meet the Washington and Lee wrestling team Saturday night and the V. M. I. wrestlers on Monday night. This is the hardest pair of matches the team has on its calendar. All of the men have been hard at work and should bring home the bacon. The following men compose the team: 115 lbs., Hobb; 125 lbs., Leary (Captain); 135 lbs., Frisbie; 145 lbs., Moore; 155 lbs., Morris and Choplin; 175 lbs., Bullock; heavyweight, Fred Crowson.

Visitor—Do you know if any big men have ever been born in this city? Native—No, sir; just little babies.

## Paragraphics

America's new diplomatic slogan:  
"Say it with flyers."—New York Sun.

—N.C.S.—

The homes are said to be failing in their greatest duty, but at least they keep places open where the children can come home to sleep.—Newark (Ohio) Advocate.

—N.C.S.—

All economists advise the buying public to buy their supply of maple sugar early, since the Vermont "sap" does not choose to run.

—N.C.S.—

Judging by the audiences that Sherwood Eddy drew at each of his six lectures this week he evidently made a hit with the students of this college and the people of Raleigh.

—N.C.S.—

Since the editor has "a mean disposition," according to the cartoon in Sunday's News and Observer, the public need not be surprised to hear of many radical doings henceforth.

—N.C.S.—

Reports are circulating around the campus that one cadet officer in the R.O.T.C. unit has a stride that is within one-thousandth of an inch of being perfect. Congratulations to Rufus Person.

—N.C.S.—

We were surely sorry to learn that Major Early will not return to State College next fall. He has done much to improve the military unit of this college and his loss on the faculty will be keenly felt.

—N.C.S.—

With a little more statesmanship on the part of our librarian a plan might be worked out whereby Boston would trade all the objectionable novels to Chicago for all the objectionable histories.—Detroit News.

—N.C.S.—

Duke University has a plan that the student council thinks will have a tendency to decrease cheating on examinations. All men caught and convicted will have their names published in the college paper. Not a bad idea.

—N.C.S.—

Will the time ever come when referees, who are agreed upon by both institutions, are satisfactory to both student bodies? We are afraid not. At least that is the impression a person would form from the conduct of the student bodies at the last two of our contests.

—N.C.S.—

The survey that C. S. Tucker, president of the student body, has recently completed shows that the scholarship average of those owning automobiles is above that of the student body. We are confident that students at Princeton, who are not allowed to own cars, would cherish the idea of having their deans see this report.

—N.C.S.—

"Sleuth" Vernon has one photograph, and one only, on his office desk in Pullen Hall. No, girls, you're wrong. It is the picture of a man—to be exact, that of "Railroad" Fountain. When asked why this photograph, Vernon's answer was, "Well, it was the only one I could find that would fit my picture frame."

## A DRAMATIC CLUB

Within the past year there has been considerable discussion on the campus as to whether there should be a dramatic club organized at this institution. Last year some favored the movement and others voiced their opinion against it, due, principally, to the fact that this is a technical school. The question has arisen again this year. Headed by the two literary societies and the Wataugan with the aid of the public speaking professors, the movement for such an organization seems to be growing. Several students have stated they should like to see such an organization on the campus. Now is the time to act on this matter, either favorably or otherwise.

Every man knows something of the success of such an organization at our contemporary institution—Carolina. The Playmakers have been of inestimable value to that university. The Playmakers have furnished a medium for advertising that has spread the name of the University of North Carolina throughout the United States. We believe that the time is ripe to make some effort to form a similar group here at this college.

Although our institution is considered technical, from year to year it is broadening and offering courses that appeal to students other than those interested in agriculture and engineering. As we broaden our curricula at this educational institution, why not broaden in activities?

Great success at the outset in this undertaking cannot reasonably be expected; it will have to be a gradual process. Beginning on a small scale, with the aid of the faculty, and the cooperation of the student body, there is no reason why a dramatic club should not soon become a leading activity on this campus.

The faculty in the English department have already planned to have the students in literature write plays, the best of which will appear in the Wataugan.

We feel that State College has the potential talent to produce a dramatic club that will be worth while. If the student body desires to see this movement for dramatics go forward it should act collectively in fostering this movement. In order to be abreast of the times we believe that dramatics should be one of the leading extra-curricular activities at this college.

## CHOOSING A VOCATION

The choosing of a life's vocation is one of the most serious undertakings that a human being has to settle. In fact it is the turning point in the individual's life. Whether men or women are successful depends on the decision that is made at this critical period, which everyone must pass through some time or other. Students in college may drift along for four years in a course which they have no particular desire to follow as a life's work, but as time for graduation begins to approach they must individually answer the question, "What am I going to do?"

The solving of this question at an early stage in life is of utmost importance, since the utilization of time toward a definite goal is essential for success. As college men it would be well for every man to stop and analyze himself in order that he may see what qualifications he possesses and select a type of work as near as possible in accordance with those qualifications. It does not pay to spend time and money on something that will be cast aside as soon as the college days are over. Such an education will develop mentality, but that may be obtained by directing the individual's energies in channels that will be followed after graduation.

The other day a representative of a large corporation told a group of students that a career is the expression of one's personality through some medium—through men, ideas, things, and symbols. He stated that men were generally qualified with the ability to express themselves through two of these media, and advised that every man find as near as possible the two that suited his own particular needs best and follow the line of work that took him into them. He warned his audience against selecting a vocation that was not liked.

"Select a type of work that is properly balanced in the two divisions—individual and collective," he said. The former consists of study, creation, mental routines, and physical routines, while the latter consists of human contacts with superiors, equals, and inferiors.

The fact of so many failures today is due, to a large extent, to man's failing to analyze himself and select a vocation that meets the qualities that he possesses. When man fails to derive pleasure from

work which he is doing, the worker cannot show the interest and accomplishment as much as the person who is fitted for the position and takes a delight in seeing things move on his particular job.

Have you decided on your life's work? Do you know what your qualifications are—the type of work that best suits you? Even though you are taking an engineering course, do you know what branch you intend to enter? These are important questions which should be answered as early in the college career as possible, in order that the student may direct his energies in the right channels. With a goal in view, success is easier than by haphazard means and methods.

## A MASQUERADE BALL

State College has established a commendable reputation for itself through its social functions, as well as in athletics and various other accomplishments. The dances at this institution are considered by many people in this state as the best in North Carolina. In fact this truth has been demonstrated by the attendance of the younger set from all over the state and also neighboring states at dances here. But there is one dance that is lacking on the social calendar, and that is a masquerade ball.

The masquerade ball in the North is very popular. It was formerly a custom to give a dance of this type at this college, but for some unknown reason it was discontinued a few years ago. According to all the information that we can gather this was one of the most enjoyable social functions of the year.

We are heartily in favor of seeing this ball revived and made an annual affair. It has been brought to our attention by several students who seem to be interested in having a masquerade ball this year, and we should like to see some students who have taken an active part in arranging dances heretofore get behind this movement. We believe that the student body will be sufficiently interested in such an event to make it a success, financially and socially.

Houston is going to spend a half million dollars in entertaining the 1928 Democratic Convention. The delegates should have a royal time.

## Student Forum

## THANKS, ADMINISTRATION

Thanks to the college administration, State College students found a bright and shining "Y" building when they returned to the campus after the holidays. For several weeks before Christmas the plasterers and painters had been working on the second floor. Everywhere one could smell fresh paint and see cans, benches, and rubbish. Some wondered what it was all about. But behold, Santa Claus worked hard all during Christmas, and the result is a nice new home for all.

The "Y" building had needed some repair work and refinishing for quite a while, but such work requires money, and as usual there was red tape to unwind. In the face of these difficulties the work had to go undone for a while. But there is always a way out when the right man or the right men get at a job. Three heads seem to have gotten together in this instance and worked as one. Mr. King first stretched the red tape by making a personal request for repairs. Mr. Brower promptly broke the already tight tape by ordering a complete refinishing of the building. Mr. Kennedy made a clean sweep of the whole thing by starting the work at once and rushing it through to completion.

The entire student body owes a sincere vote of thanks to the college administration for this fine work. The bright new paint, along with the new rugs, curtains, pictures, plants, and furniture, put in by the "Y" officials, has transformed the place into a real home where any student will not be ashamed to take any of his guests. The students are already showing their appreciation by the increased use of the building.

H. M. STOTT.

## WISE AND OTHERWISE

One of the ugliest words in the English language is "pacifism." A few years ago this word was little in use, few people understood what it meant. Since the World War, however, "pacifism" has come in for much discussion. It has taken its place as a topic of discussion and debate along with the word "disarmament" and "preparedness."

What is a pacifist? Is he a man who desires peace in preference to war? Is he a man opposed to imperialism and

## Peace

By ROBERT WHITTIER

God of the nations, rise;  
Oh, bring the age of peace;  
Make Thou our cruel battle cries,  
Our wicked wars, to cease.

Teach us a kinder mood  
Than patriotic pride,  
Since once for men of every blood  
The Man of Calvary died.

Teach us a larger love  
Than land of flag may give,  
Our banner be the blue above,  
Our fellows all who live.

Teach us a wiser skill,  
A luster not of arms,  
Teach us the wisdom of good will,  
And its unfading charms.

Give us real conquest, Lord,  
Let this our triumph be:  
To conquer self in deed and word,  
And in Thy truth be free.

"dollar diplomacy," and who would resort to only as a last resort? Or is he a man who would take no destructive part in war under any circumstances?

Pacifism is a word of degree. I doubt if anyone can give an iron-clad definition of its present-day meaning. It is as misleading as the word "radical." Fundamentally, a pacifist is a peace lover. We all are peace lovers. But should we desire peace, or rather maintain peace under any circumstances? Impossible. Our very meekness would make us subject to conflict.

To take no destructive part in war under any circumstances is an extreme application of any motive or principle. A camp of this sort would endanger the peace of the world to a greater extent than would a camp of the most ardent imperialists. Both are extremes, however, and we cannot help but believe that both will give way to a "sensible medium."

An extreme pacifist cannot command dignity and respect any more than can a schoolboy who runs from all his playmates. A nation that has not the respect or the fear of its neighbors cannot endure.

The historical method of commanding respect was through fear. This method is waning, however. Waning for a number of reasons: It costs too much; it is too dangerous. The world is seeking a new method of commanding respect—of keeping its dignity. It might be found in the League of Nations or in efficient disarmament conferences. One thing is certain, however, it cannot be found in the realm of extreme pacifism.

## HERD OF SIXTY PURE-BRED JERSEY COWS KEPT BY A. H. DEPARTMENT

A herd of sixty head of pure-bred Jersey cows is maintained at the college dairy. These animals are a part of the animal husbandry and dairy department and serve the important purpose of supplying the institution with fresh milk, all of which is delivered to the college dining hall for student consumption.

Besides supplying the students with milk, the dairy serves the dual purpose of being a laboratory for college students who are specializing in dairy husbandry, and as a means to enable some of the students to partially pay their way through college by working in the barn during their spare hours. In fact, about three-fourths of this work is conducted by students.

The barn which houses this herd is of a most modern type. It is thoroughly equipped with all apparatus essential in carrying on the production of milk in the most up to date and sanitary methods. The dairy milk house is also thoroughly equipped with sterilizing and cooling apparatus, and everything is kept in a sanitary condition.

The herd is examined once each year to see if any of the animals are afflicted with any kind of disease. All precautions possible are taken so as to produce sanitary and wholesome milk for the students.

## ARCHITECTS INITIATE MEN

One junior and four sophomore architects were initiated into the Architectural Club Friday night, January 13, in Page Hall.

The following men were taken into the club: J. F. Williams, a junior; S. H. Hassen, J. Regan, J. W. Workman, and C. D. Hadison, sophomores.

Because of the absence of several of the sophomores, another initiation was planned for a later date. After the initiation the meeting was brought to order and President "Hub" Sullivan outlined briefly in a short talk the plans for the following year.

Immediate action is to be taken to begin work on the float for Engineering Day. With the thoughts of a prize-winning float last year, the architects are eager to begin the actual construction work.

Committees were appointed to begin work on the exhibit. With the help of the sophomore and freshman architects, the department expects to put out an exhibit that will be entertaining, instructive, and educational, as it was last year.

## Seniors In E. E. Make Inspection Tour of Plants

The senior electrical class made its annual inspection tour of the large hydro-electric plants and steam-electric plants in this State, and one hydro-electric plant in South Carolina, during the latter part of last week. Professor J. S. Arbuckle was in charge of the trip.

The first plant visited was the Cape Fear steam plant, which is part of the Carolina Power and Light system and has an output of 40,000 horsepower. The first night was spent in Albemarle. The following day the class visited the Norwood hydro-electric plant, also being a part of the Carolina Power and Light system and having an output of 70,000 kilowatts. The class was the guest of the young engineers to Salisbury: On Saturday the Monrovia steam plant of the Southern Power Company was visited.

The class returned to Raleigh Saturday afternoon, having derived much benefit from seeing the several phases of electric production and transmission under actual conditions.

STUDENTS CATCH COLD

It has been noticed that during the past few days many students have been falling prey to the various germs which cause colds.

The infirmary has had many calls for pills and other medicine with which suffering students have endeavored to ward off the unpleasant effects which are the result of this time-worn malady.

A physician has disclosed the information that although colds are many times brought about by inclement weather, improper care of the body, sitting in drafts, etc., the vast majority of colds are passed from one to another.

It seems that students do not exercise the proper care in sneezing, coughing, expectorating, etc., and the germs readily become lodged in new throats and the spread continues.

## Cotillion Club Dance

Under the auspices of the Cotillion Club, one of the most enjoyable dances of the season was given at the gym last Friday night.

There were a large number of chaperones as well as younger people present, and everyone who attended seemed thoroughly to enjoy the occasion. Among the chaperones present were Dean and Mrs. E. L. Cloyd, and Major and Mrs. C. C. Early.

The exceptionally good music was rendered by "Jelly" Lettich's orchestra. This is his first appearance at State College.

The Cotillion Club, which sponsored the dance, is composed of several representatives from each of the fraternities on the campus. This group of men give dances at the Frank Thompson Gymnasium at frequent intervals during each college year.

## Alpha Gamma Rho Dance

Nu Chapter of Alpha Gamma Rho gave a very enjoyable dance Friday night, January 13, at their home on Hillsboro Street. Despite the fact that it was "Friday the thirteenth,"

everyone was in high spirits and nothing happened to mar the evening.

Dancing began at 9 o'clock and continued until 11, at which time refreshments were served in the form of ice cream and cake. Just at this time "Puny" Upchurch thought it appropriate to play the new song hit, "I Scream." Dancing was then resumed and continued until after 12 o'clock.

Those present were: Professor and Mrs. "Bill" Armstrong, Mr. and Mrs. A. M. Beck, Homer Davis with Miss Virginia Rogers, Dave Beaver with Miss Mary Rogers, "Pete" Roberts with Miss Sara Denson, Louie Watkins with Miss Jewel Sandlin, Joe Algood with Miss Madeline Barnes, Fred Sloan with Miss "Sonny Boy" Graham, Reynolds Allen with Miss Etta McBain, Ken Badgett with Miss Marie Jones, Bill Evans, Hubert Floyd, Horace Campbell, Ralph Brimley, Joe Shuford, Albert Allwood, Andy Vinson, Grover F. Booker, John Anderson, C. W. Sheffield, and "Puny" Upchurch.

## Attend Bridge Party

Miss Margaret Harrington was hostess to several of her friends at a bridge party at her home on Glenwood Avenue, Friday, January 13. Among those present were Stanton Hardee, John Henry Highsmith, John Webb, and Frank Fletcher.

Five tables were arranged for bridge in the front room, with the sun-parlor and living-room for dancing. In the dining-room, under a beautiful bunch of mistletoe, sat a large bowl of punch, from which the guests frequently refreshed themselves.

The high-score prize was won by Miss Nancy Beddingfield, of Peace, and the consolation prize was awarded to Miss Selma Davis, of Meredith. Miss Billie Broughton, of St. Mary's, won the handclap for making the most noise and adding the most to the enjoyment of the evening.

## Freshman-Varsity Cross-Country Banquet

The freshman and Varsity cross-country teams had a joint banquet and theatre party Wednesday night.

The boys met at the Old Rose Delicatessen for a very enjoyable supper, after which there were several speeches. Alex Redfearn was toastmaster. Huck Johnson, the freshman captain, expressed his appreciation of the good work of his team-

mates during the season and said that he hoped that they would all be back and out for the varsity next fall.

Ralph Brimley, captain and coach of the varsity, thanked the boys for their support, and told them that the Athletic Department has promised a regular coach for cross-country next year. He expressed his congratulations and best wishes to Captain-elect "Tick" Hoyle and Ed Story, manager.

Manager Moose gave a short summary of the season, pointing out that, considering the disadvantages under which the team worked, it was a very successful season.

By courtesy of the management of the Superba Theatre, the team then enjoyed a good show, and topped off the evening with soft drinks on Captain-elect Hoyle.

## Y.M.C.A. Entertains Eddy

Sherwood Eddy was honored at a banquet given by the State College Y. M. C. A. last Monday evening in the banquet hall of the Y. M. C. A. Mr. Eddy gave an informal talk about religious conditions existing in Russia to the fifty representative members of the student body that attended.

Mr. Bruce Gorham and Sheery Gardner visited N. C. C. W. last Saturday.

Mr. Vardell Williamson was in Bliscoe, N. C., last week.

Mr. Ansel Cox is spending a few days in Norfolk, Va.

Messrs. John McNair, George Fowler, and George Trash spent the past week-end in Richmond, Va.

Mr. John Anderson left today for Washington, D. C.

Mr. Karl Koontz will leave for Norfolk, Va., the first part of the week-end business.

R. V. (Bob) Davis, class of 1916, now with the Southern Bell Telephone and Telegraph Company, has had a recent boost. He may be reached at Charlotte, N. C.

## Engineering Grads to Meet

Plans were discussed for an alumni meeting of the engineering graduates March 17, at a meeting of the Engineers' Council, Friday night.

The purpose of this meeting is to bring together on Engineers' Day the old engineering graduates all over the country.

This policy is sponsored by the council and is being handled by Mr. Rotheb, a professor and member of the council.

Definite methods of handling the situation are not yet known. A suggestion was made that a chairman be appointed in each locality where there are a few "grads," for the purpose of calling them together to discuss plans for their get-together meeting March 17.

Short talks were made by Professors A. F. Greaves-Walker, W. J. Dana, and C. W. Ricker on methods of handling these meetings to the best advantage.

This policy is carried on in all the large universities throughout the country. This will be the first year for North Carolina State graduates, but if it is a success the same policy will be carried out in the future.

## R.O.T.C. To Be Reviewed

According to information received by Major C. C. Early, H. J. Malony, acting R. O. T. C. officer of Fourth Corps Area, will visit State College this week-end.

The purpose of the visit is to make the annual inspection of the R. O. T. C. unit on Saturday and Monday, January 21 and 23.

## Not Perfect

House Agent—You say you have no children, phonograph, radio, or dog. You seem to be the quiet tenant the owner insists upon.

Prospective Tenant—Well, I ought to tell you that my fountain pen squeaks a bit.

## A Finished Fish

Particular Customer—This fish, young woman—

Waitress (promptly)—Was killed this morning.

Particular Customer (approvingly)—You did right to kill it.

Waitress (inquiringly)—Yes, sir?

Particular Customer (firmly)—Because, from the time it has been ashore, it might have forgotten how to swim, and would have drowned if ever it went to sea again.

## No Rest

A man whose whole life had been spent in active business passed to the spirit world.

On arriving there he thought, "Now for some rest and perfect peace."

After quite a short time a spirit tapped him on the shoulder and said, "Excuse me, sir; you are wanted on the outlay board."

## Fiction

The husband, obliged to remain in town owing to business pressure, was seeing his wife off for a few days' holiday.

"Maggie, dear," he said, "hadn't you better take some fiction with you to while away the time?"

"Oh, no, Jack," she said, "there's no need of that—you will be sending me some letters."

## Kampus Komics

Prof. Forster (in Economics)—The packing houses do not waste any part of a cow. The hide goes to the shoemaker, the meat to the butcher, the hoofs to the glue factory, and—

Soph—The horns to General Motors.

Prof.—(to dazed student)—Does my question embarrass you?

Mary—Not at all, sir. The question is perfectly clear; it's the answer that's puzzling me.

Jane—Do you think my hands show any signs of toil?

Janet—The one with the engagement ring on it shows that you have been working.

Bobby—What's the date?

Prof.—That isn't important; busy yourself answering the questions.

Bobby—Well, I wanted to have something right on the paper.

"Whither goest thou, little flea?"

"To the dogs."

Polly—What's become of that football player who used to come to see you so much?

Dolly—I had to penalize him five nights for holding.

Fresh—I wonder why they sing Amen and not Awomen?

Soph—Because they sing hymns and not hers.—Exchange.

Office Boy—Here's a lady that insists on seein' you, sir. She's awful excited.

Editor—Then escort her to the composing room, my lad.

It was prom. time. Fifty couples were dancing to the strains of mad music. It began to rain. A hundred and fifty couples were dancing.

Ed—Get my mail at the postoffice.

Fresh—What's the number of your box?

Ed—Look on it and see.

"You don't see as many intoxicated people on the street since prohibition."

"The stuff kills them before they get out of the door."

Prof.—Well, young man, I suppose you have come to college to make something of yourself.

Fresh—No, sir! My dad just sent

me up here to prove to my ma that every guy that graduates from college is ruined for life.

Ship's Captain—We are out of fuel. Riley—Why not burn the ship's log?

"Did you know Lincoln's Gettysburg address?"

"Yes, but he moved from there."

"I think there is company down stairs."

"Why?"

"I just heard mamma laugh at one of pop's jokes."

## Dillingham-Smith Win Debate

E. L. Dillingham and G. R. Smith won the unanimous decision of the judges on a debate held Friday, January 13, in the Pullen Literary Society hall.

The subject was: "Resolved, That the United States should adopt the short-ballot system."

The winners, supporting the negative side of the question, won over John Broadwell and L. M. Stowe. Of the affirmative, E. L. Dillingham was chosen best speaker.

The affirmative stressed the time element and simplicity of the issue, while the negative told of the advantages of the present system and of the possible evils advocated by the opposing men.

Brown: "Say, Black, what are you doing with those funny looking clothes? Are you going to make a Hallowe'en costume for next year?"

Black: "Hallowe'en costume nothing. I've just got these clothes back from the laundry."

# suits my taste

# like nobody's business

I KNOW what I like in a pipe, and what I like is good old Prince Albert. Fragrant as can be. Cool and mild and long-burning, right to the bottom of the bowl. Welcome as the week-end reprieve. Welcome . . . and satisfying!

No matter how often I load up and light up, I never tire of good old P.A. Always friendly. Always companionable. P.A. suits my taste. I'll say it does. Take my tip, Fellows, and load up from a tidy red tin.
