

Agromeck Will Be Off the Press By May 1, Says Editor

"The 1928 Agromeck will be off the press by May 1," said J. W. Shuford, editor of the annual, when interviewed upon the matter this week.

The book will be entirely different from previous editions of the annual, according to a statement made by the editor. The art motif, cover, and every section will be entirely different from those in past editions.

Due to the fact that the printers received the copy earlier than in previous years the editor makes the forecast that the printing will be of better quality than last year. Shuford states that it was made possible for him to turn the copy over to the printers due to the fine cooperation of the 1928 staff. Every section has now gone to the press except the athletics which will reach the printers by the first of next month. "Hub" Sullivan is editing this section.

The editors are now doing copy reading of proof material that has already been set up for the 1928 annual. Edwards and Broughton, a Raleigh firm, has the contract this year.

Orders for extra copies of the annual are now being taken at the Agromeck office. These extra books will cost students four dollars each. Names will be engraved on all copies for a charge of fifty cents extra.

Three Professors Are Bid By Sigma Alpha Kappa Frat

It was announced that Professors Heninger, Moen, and Shullinberger accepted bids to the Sigma Alpha Kappa, local honorary scholastic accounting fraternity, at a meeting of its members last Wednesday. These men are prominent in the School of Science and Business and to them goes much of the credit for the revision of the accounting course at the college.

During the meeting the members discussed the problems facing the college graduate in accounting when interviewing prospective employers and the best method to be followed in this. The worksheet used by all certified public accountants and the base of the examinations given by most accounting corporations when examining applications was explained by A. N. Greene and discussed by all members. Arrangements were made for the initiation of the new faculty pledges.

Third Annual High School Tournament Opens Here March 1

(Continued from page 1)

and given sleeping quarters, if the tournament is to be a success," said Mr. Miller, when approached upon the subject.

At a previous tournament held here the first two teams finishing in each class will be awarded trophy cups and eight players from each of the two teams will receive basketball watch charms.

Season tickets for the entire tournament will sell for 50 cents. These tickets will be transferable and can be used at any time during the tournament. General admission will be 25 cents.

Teams representing the following high schools have applied for admission and fifty others are expected by the end of this week:

- Apex; Aulander; Aurora; Anson; ville; Baptist Orphanage, Thomasville; Bala; Matthews; Badin; Bessemer; Greensboro; Broadway; Bragtown; Durham; Brogden; Bladenboro; Bynum; Biscoe; Bailey; Belhaven; Olivia; Benson; Beaufort; Bethel, Woodside; Castalia; Centralia; Corwos, Creedmoor; Cool Springs, Forest City; Gander; Carthage; Clayton; Cary; Denton; Drewry, Manson; Drexel; Doris; Dunn; Edenton; Ellerbe; Erwin; Elizabethtown; Ell Whitney, Saxapahaw; Everett; Eastover, Fayetteville; Farmer; Farmington; Fremont; Farm Life, Williamston; Fuquay Springs; Franklinton, Green Hope; Garner; Goodwin; Garland; Gibson; Grantham, Goldsboro; Greensboro; Huntersville; Haw River; Harmony; Harrisburg; Ingot; Jacksonville; Kitty Hawk; Kings Mountain; Kinston; Kannapolis, La Grange; Linden; Lafayette; Chalybeate Springs; Lumberton; Leicester; Leaksville; Littleton; Lattimore; Lincoln; Mint Hill, Matthews; Mount Olive; Marshville; Monroe; Melham; Millington; Albemarle; Matthews; North Brook, Crouse; Nashville; Perquimans County, Hertford; Peachland, Reach; Plymouth; Pleasant Grove, Burlington; Parkton; Prospect, Monroe; Flatview, Dunn; Rowan County, Landis; Roper Graded School, Roper; Rose Hill; Roanoke Rapids; Rural Hall; Red Springs; Roxboro; Rock Springs, Denver; Ramseur; Reidsville; Red Oak; South River, Goldsboro; Snow Hill; Spring Hope, Wagram; Sylva, Snow Hill; Sylva, Snow Camp; Summer High School, Greensboro; Spencer; Southport; Stonewall; Smithfield; Shelby; South River, Wade; Thomasville; Trenton; Wallburg; Lexington; Washington; Woodland; Welcome, Wingate; Wendell; West Edgecombe, Rocky Mount; Union Grove; and Vance County Farm Life, Middleburg.

Noted Engineer Delivers Address to State Students

(Continued from page 1)

commission on the control of the waters of the river have estimated the cost of construction at \$150,000,000.

The speaker gave interesting accounts of some of his experiences in the beginning of his engineering career. He gave one very interesting story of the discovery in 1863 of the Stevens pass through the Rocky Mountains, in Montana, used by the Great Northern Railroad. This railroad has erected a bronze statue in honor of Mr. Stevens at the western end of the pass.

The point which Mr. Stevens emphasized most strongly was the necessity for an engineer to be able and willing to stand hard work and physical hardships. He brought out this point by giving experiences from his own career as an engineer. He says he started out as an axman at seventy-five cents a day, but by much hard work he reached the heights of the engineering profession.

Mr. Stevens, who is 75 years old, is retiring president of the American Society of Civil Engineers, holder of the Distinguished Service medal, an officer of the Legion of Honor, the Order of the Rising Sun, Order of the Golden Grain, and Order of the Striped Tiger. He is the only engineer in the world who has had a monument erected to him during life.

This was the first address on the program of the Engineer's Council to

bring to State College campus annually a distinguished member of the engineering profession.

Cotton Goods Is Subject of Talk Given By Cox

(Continued from page 1)

ing of the fibre which forms them into a rope form known as sliver. The second film showed the drawing of the sliver into roving, spinning the roving to make yarn, spooling the yarn, drawing the yarn into a warp, the slashing operation of starching the thread and the drawing-in of the thread through the harness eyes. The third film showed the weaving of the threads into cloth and the testing of the cloth for ends per inch, strength, wear, and thickness. The fourth film showed the finishing of the cloth. This operation includes scoring, bleaching, and dyeing.

After explaining the films Mr. Cox addressed a few remarks to the textile students. He said: "The textile industry is the oldest in the world. Little progress has been made in the process, as the process of weaving has always been the same. The textile industry has advanced slower than any other industry. There is a great need today for textile engineers who are thinking men and will work. The mills making the most money today are the ones using the highest scientific improvements. Today the South has the edge on the coarse cotton goods trade. Will she hold it? No. Then who will take it away? A mill or district which has a better management. So we must develop a good management."

In speaking to the mechanical engineers he said that the textile industry offers a great field for the mechanical engineers to make new machinery and equipment. He also said that today business is demanding trained men and everything should be done to produce them.

THREE STUDENTS QUALIFY AS FIRST-AID TEACHERS

Three State students have been awarded certificates qualifying them to teach first aid as representatives of the American Red Cross. These students received their instruction from the Raleigh Y. M. C. A.

In recognition of the high grades attained on the examination taken last Friday night, the following students were awarded certificates qualifying them to teach first aid: J. L. Young, F. B. Crowson, and B. J. Kaston.

Dr. M. J. Shields, of the Medical Reserve Corps, U. S. A., under the auspices of the Raleigh Y. M. C. A., gave eight lectures and recitations of three hours each.

Terrors Beat Duke to Tie For Second Place, Score 37-27

Goodwin High Scorer In Final Home Contest Of Terrors

CAPTAIN McDOWALL AND JOHNSON STARS OF GAME

Duke Freshmen Defeat Little Terrors In Preliminary Game for State Title—Werber Best for Visiting Team.

The Red Terrors, in the final game of the season, defeated the Duke University Blue Devils here Monday night and went into a tie with Duke for second place in the state by a 37-27 win. In a preliminary game the Little Terrors lost to the Duke yearlings by a 43-34 score, giving the Imps the title.

The Devils started things off with a rush in the contest Monday night and took an early lead, after Johnson had broken the scoring ice. Duke ran their lead up to 6-2 before the Techs showed their strength. Goodwin and Young added four points and McDowall added one point to take the lead, but Candler sank one from the field to again take the lead for Duke. Consecutive field goals by Young, McDowall, Goodwin, and Johnson gave the Techs a 7-point lead.

Councillor, of Duke, accounted for one point and Goodwin made three. Coach Tebell sent in Haar for Young, and with two minutes to go Goodwin added two points to bring the total number of points for State up to 20. Werber and Candler made a field goal each to bring the score up to 29-13 at the half time with State on the big end of the score.

Three consecutive field goals in the beginning moments of the second half were made by Goodwin and Haar. Werber, Duke, added one

Mr. Miller tells us that the students have not been signing up to keep one or more of the high school boys for the days of the tournament. This is about the only thing the students can do to make the tournament a success.

You, of the student body, should do that much for State College. By taking in a student to stay with you, you are not helping the department of physical culture, but you are helping the college.

Mr. Miller did not ask us to say anything about this, but we took it upon ourselves to try to remind the students that it was their part to do a little.

FIVE FALLS IN VARSITY FROSH WRESTLING MATCH

Morris, Moore, Kerr, Bullock and Humphrey Win Bout

By Falls

Five falls were registered in the first formal varsity-freshman wrestling meet Tuesday afternoon in the gymnasium.

The first event was between two varsity men, Bell and McFayden. Bell won on time advantage of 1 minute and 30 seconds.

Stovall, varsity, won from Williams with time advantage of 2 minutes.

Clark, freshman, and Frisbie fought to a draw.

Hobbs, varsity, won from Eason with time advantage of 1 minute and 5 seconds in two extra periods.

Keer, freshman, won on a fall from Perry in 6 minutes.

Moore, varsity, won on a fall from Dameron in 3 minutes.

Morris, varsity, won by fall from Stout in 4 minutes 3 seconds.

Bullock, varsity, won on a fall from Stone in 7 minutes and 30 seconds.

The final event of the evening, between Tyler and Humphrey, both freshmen, was won by Humphrey by a fall in 2 minutes and 30 seconds.

point on a foul, and then the State forwards registered two more from the field. Jankoski made one point, Werber followed with a field goal, and State contributed a pair of field goals. Duke added one more goal.

There was two minutes to go and the Duke team was trying hard to overtake the fifteen-point lead held by the Terrors, but it failed to register a point until the last few moments. Warren and Williams made one each for State and then Jankoski added one. Werber sank through the cords just as the final whistle sounded, but he was fouled. He was allowed two throws at the basket and made both good, bringing the score up to 37-27.

The main cog in the Tech offensive was Frank Goodwin, lanky center, who scored 16 of his team's points. Werber accounted for 9 points to take second place. Hank Young, State forward, who was only in the game for a few minutes at the first and last, accounted for 5 points.

Werber was the leading light for the visiting Duke team. He was ever a threat and it was only by the constant guarding of the pair of State men, Warren and McDowall, that he was kept in check.

Jack McDowall, along with Johnny Johnson, took off high honors for the State five. Goodwin carried off the high scoring honors, but Johnson and McDowall did both shooting and guarding. Guarding here, following up the next shot, and then shooting, Johnson was literally all over the floor.

Captain McDowall and Williams played their last games in Raleigh for State College.

Line-up and Summary
Duke (27) State (37)

INDOOR TRACK LATEST SPORT FOR N. C. STATE

Four State Students Sent to the South Atlantic Meet Held at U. of Richmond

(By Ralph Brimley)

State's first indoor track team made itself known to the world last Saturday night at Richmond at the South Atlantic Indoor Track Meet, staged by the University of Richmond.

The freshman team won third place, while the varsity was only able to get seventh. The team was made up of Spurlock and Johnson. The varsity team was composed of Patterson, a sophomore; Hoyle, a Junior, and Brimley, a senior.

Spurlock brought first place to State in the shot-put. Patterson won fifth place in the varsity shot-put. Johnson won the mile race. Hoyle won fifth place in the varsity half-mile run. Brimley won fourth place in the two-mile race. Brimley led the field for the first twenty-six laps but was outdistanced in the last four laps.

The team paid its own way to Richmond to enter the track meet. Indoor track has not yet been made an official sport at State College. This same team plus several more are planning to enter the Southern Conference indoor meet held at the University of Virginia today.

TECHLETS END SEASON BY WIN OVER CATAWBA

The Little Terrors brought their season to a close here Wednesday night in the Frank Thompson gymnasium by a win over the Catawba College five by the score of 37 to 32.

The Tech mentor ran in his entire second string at the first of the game and it was not until after ten minutes had gone that he put in the first-string men. The action until that time was slow, but the first-stringers soon had things going and ran up a good score on the visitors. Coach Sermon used 15 men during the game.

After the Techlets had taken a lead the coach sent in the reserves and at the close of the game the Catawba lads were slowly overtaking the Techlets. Feeler, Catawba forward, was high scorer of the game with 16 points. Elliott, State, was second with 8 points.

"Look, papa, Able's cold is cured and we still have left a box of cough drops!"

"Oo, vot extravaganze! Tell Her-man to go out and get his feet wet."

INTRAMURAL ATHLETICS

Alpha Lambda Tau, 23; Pi Kappa Alpha, 16. Lambda Chi Alpha, 20; Phi Kappa Tau, 17. Chi Alpha Sigma, 25; Sigma Xi, 6. Sigma Tau Beta, 29; Delta Sigma Phi, 12. Kappa Sigma, 20; Phi Pi Phi, 8. Sigma Pi forfeited to Kappa Alpha.

Standing of the teams in sections:

Section 5—
Chi Alpha Sigma..... 2 0
Sigma Nu..... 1 1
Sigma Pi..... 0 2

The semi-finals will be played Wednesday night at 8 o'clock in the gym. These games will be well worth coming to see.

Red Terrors In Atlanta For Sou. Conference Tourney

Eight Players, Coaches, and Manager Make Trip; Played Ole Miss Yesterday; Brief Résumé of Season Shows Techs Winner in Conference Three Times and Loser Six.

Coach Gus Tebell, Dr. Sermon, Manager Darden, and eight Red Terrors went to Atlanta Thursday afternoon to enter the Southern Conference Basketball Tournament in the first game against the strong University of Mississippi five.

The Red Terrors who went on the trip are: Captain McDowall, Johnson, Warren, Haar, Mason, Holden, Goodwin, and Young.

If the Terrors won the game yesterday afternoon, there is one member of the team who played his last game for State College, and that one, Jack McDowall. Bill Williams played his last on Monday night against Duke. Hank Young has one more year, as does Goodwin, Mason, Holden, Taylor, and Griffin.

The Red Terrors got off to a good start in the first game of the season. The first four games were handily won. Then the Terrors went to Duke University and lost to the Devils by three points. Wake Forest again went down in defeat. Georgia University won in a loosely played game. The Terrors and the Gamecocks of South Carolina divided a double bill.

In the third conference game of the year the Techs went down by a ten-point margin before the Tar Heels. Wake Forest went down for the third time of the year.

The Terrors took to the road for

a six-day invasion of Maryland and Virginia. They lost to the Old Liners in the first game, beat the Virginia team the second night, and in the third game lost to V. M. I. The fourth game ended in State's favor over Washington and Lee.

Last Friday night the Terrors went to Carolina and lost again by a ten-point margin. To finish the season the Tebellmen whipped Duke University in Raleigh and went into a tie with the latter team for second place.

Now the Terrors are in Atlanta at the tournament.

TERRORS LOSE GAME TO TAR HEEL CAGERS

In Carolina's tin can gymnasium last Friday night the Red Terrors went down in defeat before the Tar Heels by the score of 31-21. The freshman team lost to the Tar Babies by the score of 16-13.

The Heels hopped into the lead in the opening moments of the game with the score 8-1. Cathey made two

Paraphratics

"Reporter Marries Heiress." The sub-head should have been "How to Make Money in Newspaper Work."

Seniors are beginning to have serious thoughts as the time for graduation approaches.

In the opinion of our hi-jackers, Charles W. Tillett, "Battling" Nell Lewis, and others who have burst into print recently on this subject are persons in whom the milk of human kindness has soured.

Dean Cloyd has been appointed by the Faculty Council to make a report on the number of class absences over week-ends as compared to other times during the week.

A report showing that the number is high will, in all probability, cause the council to place a penalty of two-thirds of a point for each class absence beginning with morning classes on Friday and lasting through Monday of each week.

A member of the student council says that such a position automatically makes him a cop for the student body.

LACK OF ETIQUETTE

There is an evil existing in our college life at this institution that should be eradicated before much more time elapses and that is the lack of etiquette shown before entering the dining hall and the demonstration of eating that takes place after students reach their table and sit down.

Students begin to assemble in front of the dining hall at the first call for a meal and when the last whistle blows a "grand rush" is made for one of the two doors which afford entrance to the dining hall.

resorted to in order to obtain food, namely: reaching across the table which in all probability is the least of the breaches of etiquette made at every meal.

This is a matter which deserves some thought by each student and members of the administration in order that a plan may be worked out whereby this evil may be eliminated.

College is a place where knowledge is acquired, so that it may be applied during later life, not a place for the accumulation of habits and facts that will have to be broken after college days are over.

Steps should be taken to guard against the possibility of stunting this part of every individual's education.

It may be that by placing the whole system on a cafeteria basis will be the only remedy for this evil, however, with some study on the part of the proper authorities and the cooperation of the students some plan other than the above may be worked out and put into operation at this college.

IN DEFENSE OF FREE PRESS

The question of whether or not college papers should have faculty supervision again comes to the foreground.

A few days ago an editorial, clipped from the Nashville Banner, appeared in the local evening paper.

The editor of the Arkansas paper had criticized the faculty for taking no action upon the matter of trying to stop drinking on the campus and also stated that the faculty would not allow the student body to take the matter into their hands.

Place faculty supervision over student publications and no opportunity for the college editor to reveal the evils that may exist in any college or university will be offered.

outlet for individual expressions and convictions are afforded. On the other hand, it is true that there is some possibility, as the editor of the Nashville Banner pointed out, for the student editor of the college publication to err.

Most of the larger colleges and universities have absolute freedom of press, but many of the smaller school papers are nothing more than the voice of the faculty, which is due to their close supervision.

There is another point that should be considered along with this and that is the opportunity that mealtime affords students for fellowship.

WISE AND OTHERWISE

Word is received from Davidson that the college is constructing a fraternity court to east in the neighborhood of \$60,000.

It seems that all was not running well at Davidson. We have never heard just what the reasons were for the authorities demanding that the fraternities move back on the campus.

This system is unique. Whether or not it is a system relating specifically to Davidson College, we do not know.

Next week the students of State College will be host to the largest group of boys to ever visit this campus.

The kind of a visit they have will depend upon the spirit of the students. The kind of a name and the number of students we receive will depend upon the feeling of these representatives from practically every community in North Carolina.

To properly entertain a guest is a cardinal point in the manners of every gentleman. The students should go out of their way—cut a few classes if necessary—to see that these boys are made to feel at home.

What has become of the Faculty Club? We are sorry to see an organization with such possibilities fall by the wayside.

Really, the faculty needs such a club. In fact, membership in it should be made compulsory.

Waxes Poetic Over Favorite Tobacco

Student Forum

MORE EATING PLACES!

An army travels on its stomach, and so does a college. Food is the big idea one would think, if he watched the noontime rush of students.

Two boarding houses take care of a small group of boys, who insist on home cooking. One of the fraternity houses is running a table, and about thirty men also enjoy food served with a feminine touch.

To finish up the rest of the students mention must be made of those who eat at the cafes and drug store counters, just as the notion strikes them. Sandwiches, milkshakes, doughnuts, and coffee are their main articles of diet.

In time to come no doubt some enterprising person will see the light and we will have boarding houses and first-class cafes galore.

CORRECTION Scholarships and fellowships in Agricultural Economics are being offered by Texas A. and M. College, instead of University of Texas, as appeared in last week's TECHNICIAN. G. W. FORSTER.

REPORTER SHUFORD IS INFLUENCING PRESS IN MANNER OF SPELLING C. S. Shuford, would-be newspaperman, late of State College and Northwestern University, is about to revolutionize the press bureau and other news-gathering organizations of Raleigh, if opinions of the managers of these branches are to be taken at face value. Reporter Shuford's contribution to journalism in these parts is his own special brand of spelling. It is not only unique in itself, but it is infectious. "I have been reading some of his copy," said Col. W. G. Schroder, general correspondent of the American Press Bureau in Raleigh, and I can't tell now whether I can spell or not. "The trouble with the colleges is that they do not teach spelling, so I

have to use my own system," said Mr. Shuford. "I have no particular desire to be so original in this matter of spelling as I seem to be, but I can't find in our boasted system of higher education in this country a college or university that is willing to teach me the conventional system of grouping letters. I see nothing left for me to do, therefore, but to be myself."

Dr. Anderson, On Leave of Absence in Vienna, Studies Unusual Woods Dr. D. B. Anderson, who is in Vienna on leave of absence from the Botany Department of this college, has recently sent back some wood sections which are very interesting. These sections are made by a process not known in America and are only a tenth as thick as tissue paper and the size of a calling card. Dr. Anderson writes that he will prepare an article for the American Scientist on the European micro-chemical methods which will explain those methods not known in America. Dr. Anderson will return next July to resume his work as a member of the botany faculty. Nearsighted Frosh—That's the ugliest portrait I have ever seen. Soph—Come away, silly. That's a mirror.

Behind the scenes with Columbus THERE is a forgotten chapter in the life of Columbus which in its way had as much to do with the discovery of America as the voyage itself. We refer to the years spent in preparation before he set sail—years filled with painstaking study, planning his voyage with the aid of what crude maps and geographical data he could procure. In telephony, too, the success of each new development depends on the years of intensive research and careful planning that precede actual construction. Bell telephone men are continually mapping out the course of this great industry for years to come. The true telephone pioneer is he who brings vision and initiative to his work as supervisor, engineer or executive—and who backs this up with the painstaking study needed to crystallize the dream into the reality. BELL SYSTEM A nation-wide system of 18,000,000 inter-connecting telephones "OUR PIONEERING WORK HAS JUST BEGUN"

Featuring Patsy Ruth Miller, "The Red Riders of Canada" is scheduled to unfold its thrills on the screen of the Superba Theatre for two days, beginning next Friday.

The daring and hardships of the Northwest Mounted bringing the law into the frozen wastes of the great northwest are said to be vividly pictured in this thriller adapted from the magazine story, "The Pirates of Muskogee," written by William Byron Mowery and adapted for the screen by Louis Sarecky and Oliver Drake.

"Tea For Three," the new Metro Goldwyn-Mayer film farce coming to the Superba Theatre Wednesday, is a screen version of the once very popular stage farce of the same name. The stage vehicle was written by Roi Cooper Megrue and became a Broadway hit a few years ago.

Later road companies took it all over the civilized world and played to capacity audiences.

F. Hugh Herbert, distinguished British novelist, has prepared the screen version of the stage play and it is presented as the second co-starring vehicle of the new film comedy team, Lew Cody and Aileen Pringle.

Do you like to travel? Would you enjoy a trip in the Pullman from your home town to New York City and the Gay White Way? Would you like to do this if it wouldn't cost you a cent. It can be done!

In fact, no other than the movie star, Johnny Hines, does it in his latest First National Picture, "Home Made," which is scheduled Monday and Tuesday at the Superba Theatre.

What gives promise of being one of the most unusual and appealing film productions of the year is scheduled for showing at the State Theatre here next Monday and Tuesday, along with five excellent acts of Keith Vaudeville, in "Alias the Deacon," the Universal picture starring Jean Hersholt. The story proved a tremendous success in its long stage presentation in

almost every city in America, and with Jean Hersholt, one of the most celebrated actors on the screen, in the rich role of the gambler who covers his real occupation under the benign exterior of a deacon, a very worthwhile picture should be the result.

Unconventional and unusual in every respect, "The Private Life of Helen of Troy," the feature at the State Theatre next Wednesday and Thursday, introduces many innovations into picture production.

After exhaustive tests had been made it was decided to go against all screen precedent and build the sets of sheer white and black walls and floors. This has been considered virtually impossible before because of the impossibility of lighting and photographing such radical, contrasting shades.

By the use of panchromatic film, a highly sensitized stock, however, and by lighting the sets with incandescent lamps instead of the old Klieg lights, the difficulties were overcome.

What would you do if you had an order placed for \$10,000 worth of merchandise, and then your samples stretched in the rain, especially if the buyer was wearing the said sample?

This is the predicament Richard Dix finds himself in in his latest starring vehicle, "Sporting Goods," coming to the State Theatre next Friday and Saturday.

HOSTETLER ATTENDS SOUTHERN LIVESTOCK ASSOCIATION MEETING

Professor Hostetler was a delegate from North Carolina at the Southern Livestock Association, held in Memphis, January 30.

The livestock meeting was followed by a meeting of the southern agricultural workers. This meeting was divided into sections of the members interested in the various phases of agriculture.

It was before one of these sections that Professor Hostetler presented a paper on "Soybean Meal As a Supplement to Corn for Fattening Pigs." Mr. Hostetler was also elected secretary and treasurer of the Southern Livestock Association. This body will meet in Raleigh next year at a date to be set later.

THE AESTHETIC SIDE OF ARCHITECTURE

Professor J. D. Paulson, of the department of architectural engineering, will give an illustrated lecture in the college 'Y' auditorium Wednesday at noon. The lecture will cover the aesthetic side of architecture.

This lecture is being sponsored by the English department of the college, and all students in the department will be required to attend the lecture. Members of the faculty, students, and the public are cordially invited.

DR. DERIEUX SPEAKS TO HIGH SCHOOL CLUB ON SUBJECT OF TELEVISION

Speaking before the Science Club of the Hugh Morson High School, Professor J. B. Derieux, of the Physics Department of State College, speculated that television would in the course of years be used on all telephones and radios.

Professor Derieux in discussing the subject of television used a small machine to illustrate the principles involved. He stated that the use of television would be of special service in broadcasting athletic games and expected it to find its greatest use in this field.

Cultural Course Now Being Offered By Chemistry Dept'

A cultural course, called the "Romance of Chemistry," which stresses the applications to every-day life instead of so much theory, is being tried as an experiment in the chemistry department by Prof. G. H. Satterfield.

The experiment is working out satisfactorily and the course will continue to be given. It is designed for students that do not need so much of the highly technical theory which is given in other textbooks. It does not stress mathematics and equations, but applications to every-day activities.

This is a new course and State College is a pioneer in this work. It is rather a coincidence that at the same time Professor Satterfield was making this experiment that Professor Foster at Princeton was making the same one, and using the same books.

Professor Satterfield thinks that this kind of course will gradually replace the old ones given to students not specializing in chemistry.

University of California men earn money by caring for babies while mothers are absent.

Judging Course To Be Taught By Haig During Third Term

Although the International Annual Husbandry Judging Contest of America does not come off until next fall, work begins in preparing men to enter this contest the third term or quarter of this college year.

This work begins in the course on judging of farm animals. It covers all phases of judging all kinds of farm animals. It is very interesting and instructive to those interested in judging work.

This course on judging farm animals is a three-hour course, and is taught by Prof. Fred M. Haig of the animal husbandry department. Professor Haig expects to have a number of men take this course, so that he will be able to select from the group four men that will be capable of representing N. C. State College in the International Animal Husbandry Judging Contest next fall.

resenting N. C. State College in the International Animal Husbandry Judging Contest next fall.

Doctor—Do you ever talk in your sleep?
Patient—No, but I often talk in other people's sleep.
Doctor—But how can that be?
Patient—I'm a college professor.

William T. Tilden 2nd to protect his throat, smokes Luckies

"The voice is essential to stage work and its care one of the actor's greatest worries. During the course of some of my stage appearances, I am called upon at intervals to smoke a cigarette and naturally I have to be careful about my choice. I smoke Lucky Strikes and have yet to feel the slightest effect upon my throat. I understand that toasting frees this cigarette from any throat irritants. They're 100% with me." *William T. Tilden 2nd*

Prominent Tobacco Buyer says
"The Cream of the Tobacco Crop" goes into Lucky Strikes
"Buying tobacco for Lucky Strike Cigarettes is a matter of selecting the finest grown. It is my duty and instruction to buy 'The Cream of the Tobacco Crop' for this brand. Nothing is omitted or spared in making my purchase just a little better. Quality always tells."
W. L. Orval

"Smart Apparel for Men"

Preparations for Easter Dance
Elaborate and extensive preparations are being made for the Easter dances now that the mid-winter social season has come to an end with the beginning of Lent.

The executives of the German Club are negotiating with some of the leading orchestras, namely: Southland Serenaders, Weidemeyer, "Red" Nichols and His Five Pennies, and Waring's Pennsylvanians, who are prospective orchestras for the German Club dances.

The Pi Kappa Alpha Fraternity is planning to make their annual Easter dance as good as usual, and the leading clubs of Raleigh, including the Terpsichorean, Sphinx, Colonial, and Junior Guild clubs, are planning to give their annual Easter dances. And with a number of fraternities entertaining at home parties, tea dances, and banquets, the week of Easter will stand out as the most brilliant social event of the season for the collegiate set.

J. W. Norman is spending the week-end at his home in Plymouth.

County Club Entertained

The Nash-Edgecombe County Club was delightfully entertained Saturday night at the home of Mr. and Mrs. L. C. Yeargan of Garner.

A number of games, led by P. E. Trevathan, president of the club, were played. Music was furnished by various members of the party from Meredith.

Toward the latter part of the evening refreshments consisting of ice cream, cake, fruit salad, and punch were served.

Phi Omega Dance

Phi Omega fraternity entertained at a dance at their home on Chamberlain Street Friday night from nine until twelve o'clock.

Those attending were Miss Anne Robertson with Mr. Phil Mast, Miss Ade Spencer with Mr. Homer Miller, Miss Shelton Twiddy with Mr. John Henry Highsmith, Miss Sadie Rae Barnes with Mr. Charley Thrift, Miss Elsie Whitehurst with Mr. Chreston Holloman, Miss Ruth Spivey with Mr. N. O. Branscom, Miss Pauline Buffalo with Mr. Paul Poole, Miss Alesse Partin with Mr. Sam Taylor, Miss Louise Guess with Mr. F. R. Le Baron, Miss Dot Hayes with Mr. Gordon Taylor, Miss Elizabeth Buffalo with Mr. Richardson, Miss Dot Weston with Mr. John Riley. The chaperones were Mr. and Mrs. Zack H. Bacon.

Others attending were F. S. Hardee, Andy Vinson, W. L. Mast, Frank

Major F. W. Price has been asked by the local American Legion Post to direct one number of the Army Band's concert here tonight.

This number will be Sousa's "Field Artillery," which is to State College, "State College, Keep Fighting Along."

Major Price asks that all State College students who are present at that time rise and sing the song.

Baird, John Thompson, and Wade Miller.

Punch was served during the evening.

Fraternity Dance

The Chi Alpha Sigma Fraternity entertained at a dance last Saturday evening at their home on Clark avenue from nine until twelve o'clock. This marks the second dance given by the fraternity in the last two weeks.

Refreshments, consisting of ice cream and cake were served during intermission.

Those present were: Miss Florence Briggs with Mr. Henry Rogers, Miss Maudie Hughes with Mr. Kenneth Brown, Miss Annie Laura Underwood with Mr. Bill Garibaldi, Miss Virginia Rogers with Mr. Edgar W. Buchanan, Miss Margaret Hughes with Mr. Chas. Mitchell, Miss Marie Jones with Mr. Laurence Aydlett, Miss Louise Dick with Mr. Melton Holjes, Miss Ray McKinney with Mr. Claire Edwards, Miss Zonia Reeves with Mr. J. Yarn Ferguson, Miss Elsie Mason Underwood with Mr. Earl Meacham, Miss Martha Medlin with Mr. Oscar Crotts; Messrs. J. Boyd Smathers, W. M. Gaston, P. V. Conant, C. L. Straughan, F. L. Straughan, J. W. Norman, N. J. Sherrill, Dick Lewis, Jimmy Barnes, William A. Hunt, Dale Borden, S. B. Shore, H. H. Burroughs, Garland Stout, H. S. Scott, C. Roscoe Taylor, Prof. S. E. Rodgers.

Chaperones were Mr. and Mrs. William Reid and Professor and Mrs. W. E. Jordan.

Hennessee-Edwards

Mr. Brevard Hennessee, of Shelby, and Miss Elizabeth Edwards, of Scotland Neck, were married on February 11th.

Mr. Hennessee attended school here last year and was a member of the 1926 Wolfpack, and is also a member of the Sigma Nu Fraternity.

Miss Edwards was a student at Meredith last year.

Sigma Pi Dance

The Sigma Pi Fraternity will entertain at a dance tonight, from nine till twelve o'clock at the Woman's Club. This will be the first dance to be given at the Woman's Club since it has been remodeled, with the ballroom enlarged and improved.

"Peanut" Ridenhour, Vordell Williamson, Fred Latimer, and John Lepo left by motor Thursday for Atlanta, to witness the Southern Basketball Tournament.

"Bud" Bridger, '17, visited fraternity brothers last Wednesday and Thursday.

John McNair and George Trask are spending the week-end in Richmond.

John Gammon accompanied David Cutler to his home in Goldsboro today.

A number of State College students attended the Carolina mid-winter dances last week-end.

RUFFNER AND CLEVINGER AT MILK INSPECTORS' MEET

Professor R. H. Ruffner and W. L. Clevenger, of the animal husbandry department, appeared on the program at the annual meeting of the North Carolina Milk Inspectors and Food Officials, held Monday at the Washington Duke Hotel, Durham.

Professor Clevenger spoke on "The Cost of Economically Handling Milk" and Professor Ruffner on "The Relation of the Milk Producer to the Inspector."

Foster Addresses A.S.M.E. Aspirants

Professor J. M. Foster, of the mechanical engineering department, spoke to the sophomores in that department Tuesday night in Page Hall on the benefits to be derived from the student branch of A.S.M.E. and its connection with the parent society. The second-year men were the guests of the student members of the society.

The purpose of this meeting was to acquaint the sophomores with the work carried on by the student branch before they become eligible for initiation. These men will become eligible for initiation at the beginning of next year.

A moving picture was presented from the Babcock & Wilcox Company, entitled "Steam," which proved to be very interesting and instructive. This picture gave a good insight into the manufacture of the modern boilers, especially the design and construction of the high-pressure drums designed for twelve and fourteen hundred pounds steam pressure.

Kampus Komics

"Billy, do you know what happens to little boys that tell lies?"
"Yes; they ride for half fare."

Joke Editor—I turned this joke down once before. Why do you send it in again?
Humorist—I thought maybe your taste had improved.

"How's life as a freshman?"
"I've only a hazy idea."

OWLISH

First Negro—Whaffo' yo' lookin' so unnecessary. Gluttonous?
Second Negro—Ah feels like a dumb owl, Predicament.

"Reveal yo' meanin', man."
"Ah jes don't give a hoot."

She—What are you doing?
He—Shut up. I'm adding up figures in my head and every time I think of you I add a zero.

"I see we are having war with Central America."
"What newspaper is sponsoring it?"

He—Do you know the difference between a taxi and a trolley?
She—No.
He—Good. Then we'll take a trolley.

A wristwatch was invented by a Scotchman. A Scotchman always hates to take anything out of his pocket.

Storekeeper—I don't like the ring of this half-dollar.
Customer—What do you want for fifty cents—a peal of bells?

"My girl got her nose broken in three places."
"That'll teach her to keep out of those places."

He—Do you know why I won't marry you?
Co-ed—I can't think.
He—You guessed it.

"Man, look at her. Don't she think she has IT?"
"It? Boy, that girl has THEY."

"I hear your son's at college."
"Yep."
"How's he doing?"
"Pretty good, I guess. He's taking three courses. I've just paid out ten

dollars for Latin, ten dollars for Greek, and a hundred dollars for Scotch."

Frosh—Where are ukes made?
Soph—Why, in Yukon, of course.

Professor Beshart—Mr. Manushak, why are you looking at your watch so much?

Manushak—I am so afraid you won't have time to finish your most interesting lecture, Professor.

SEEK YE NO FURTHER, DIOGENES . . .

This jobbie Diogenes was a Greek who left his fruit stand for the commendable purpose of questing for honesty by good old-fashioned lamp-light. And now, loud and ever clearer, rings the cry from the housetops: "Diogenes—throw away your lantern . . . here's an honest cigarette! Have a Camel!"

Camels have but one raison d'être—to pack the smoke-spots of the world with the "fill-fulment" every experienced smoker seeks. Fill your own smoke-spot with a cool cloud of Camel smoke, and hear it sing out—"Eureka!" (from the Greek, "Eureka," meaning—"Oboy, here 'tis!").
