'27 AGRICULTURAL FAIR TO BE HELD HERE OCT. 11-12

Formal Opening Tuesday Morning With Downtown Parade

EXHIBITS STAY IN POLK HALL UNTIL 'DAD'S DAY'

Approximately \$1,200 Awarded in Prizes to Winners of Judges' Decisions on Exhibits and Contests—Freshmen on an Equal Footing With Older Men in Any of Fair Activities.

The State College agricultural students will hold their annual "Ag" Fair this year on October 11 and 12.

The fair will be formally opened Tuesday morning, October 11, with a parade downtown. In the parade will be the departmental floats, the band, a Negro minstrel, the officers of the fair, and marshals.

The afternoon program will be featured by the display of exhibits in Polk Hall, both departmental and individual, and by all kinds of entertainment on the midway. The exhibits will probably be left on display until after the "Dads' Day" program, October 13, for the benefit of out-of-town visitors.

Prizes totaling approximately \$1,200 will be awarded to exhibitors and winners in the various contests. These prizes range anywhere in value from fifty cents to fifty dollars, and the variety of exhibits and contests is so great that there is no reason that every Ag student on the Hill should not be competing for one or more of them.

One man alone last year won over \$100 in prizes. Freshmen stand an equal chance to win these prizes with upperclassmen.

The departmental leaders are as follows: J. D. McColl, agronomy; T. L. Moore, animal husbandry; P. A. Rapier, poultry; Luther Shaw, biology; C. W. Overman, horticulture; W. C. Warner, vocational education; P. R. Turner, agricultural administration.

Each of these departmental leaders desires very much the co-operation of all the students, both new and old men, that are interested in his department, in building floats and putting on exhibits.

Last year the Ag Fair was a great success, one of the biggest events of the year, and so it has been considered for many years past. This year the fair is expected to be bigger and better than ever before. Fred Sloan, president; C. W. Jackson, vice-president; J. B. Britt, secretary, and W. P. Albright, treasurer, are all seasoned men, having taken active part in the student fair for the past three years. The agricultural faculty are solidly behind the fair, and so also are the business men of Raleigh, as they have clearly demonstrated.

'HUB' SULLIVAN TO LEAD FRATERNITY COUNCIL

Fitzgerald Chosen Second in Command and Howard Elected Sec.-Treas. at First Meeting

The Pan-Hellenic Council held its first meeting of the year in the college Y. M. C. A. Wednesday, September 21. Dean E. L. Cloyd presided over the meeting, which was called for the special purpose of electing officers for the coming year.

After a spirited ballot, H. L. "Hub" Sullivan, Sigma Phi Epsilon, was elected to pilot the council through what has proved to be a successful year. Bill Fitzgerald, Lambda Chi Alpha, was elected vice-president, and Buntz Howard, Phi Kappa Tau, is to keep the records of the council and handle the money spent during the year.

Dean Cloyd reminded the new council of the ruling passed last year that requires a six-year existence on the campus before a local fraternity may be recognized by the council. He advised that the present council change this ruling to read four instead of six years. The new president appointed a committee of three to investigate the matter and make a report at a later meeting.

GOES TO CORNELL

H. J. OBERHOLZER

State College loses a valuable man for nine months during Oberholzer's sojourn at the northern university in New York State this year. He expects to return here next September.

The lanky South African distinguished himself on the public platform when he had been in this country less than two years. He won the \$1,500 award of first place in the national oratorical contest on the constitution at Los Angeles last June. The contest is held each year under auspices of the Better American Federation.

Prof. C. C. Cunningham, of this institution, was Oberholzer's instructor in public speaking work.

To Draft New Set Fraternity Rules For State

At a call meeting by Dr. Brooks on Wednesday, five men from each fraternity on the campus met at the "Y," and were addressed by Dr. Brooks, Dean Cloyd, and Dean Schaub. The object of the meeting was to bring about some plan by which all chapters living off the campus would be controlled by a uniform set of house rules. Since the groups have left the campus, they have become more citizens of Raleigh, and less under the college supervision. Since the majority of the boys are not familiar with housekeeping or with the way a house can be run without annoying their neighbors, it was considered feasible to draw up a set of plans by which they can govern themselves, and be welcomed into the community of West Raleigh citizens.

Dr. Brooks asked for suggestions as to how the fraternities might improve their scholastic standing, and several good ones were made. Five fraternities last year made an average above the average of the student body. Since these fraternities all lived off the campus, it is thought that there will be a greater number having this average this year.

A committee will be appointed at the meeting of the Pan-Hellenic council Friday, to draft a set of house rules to be approved of for use by the houses.

SNYDER TALKS TO EUROPEAN CONFERENCE MEN

Dr. L. H. Snyder, assistant professor of zoology and entomology of this institution, has been doing some work of great distinction this summer. He was chosen to go to Europe to deliver an address before the International Eugenics Congress, which met in Amsterdam, Holland.

This is a great honor to fall on any one, and especially as young a man as Dr. Snyder. Only those men who are outstanding in their field are given this invitation.

Dr. Snyder's classes will miss him the first few weeks of this term.

WATAUGAN NOTICE

The first issue of the Wataugan this year will come off the press October 15. The State College magazine can handle material of any sort and from any one who is registered as a student at the college. All copy is acceptable and may be turned in at the office in the Y. M. C. A. building.

A special call is issued for short one-act plays, fiction of any sort, and long poems. Some of you literary men get a hump on and help the staff make this year's magazine one of the best in the State.

—EDITOR.

CREED FOR FROSH AND PERSONALITY SUBJECTS OF TALK

'Why Does a Man Go to College?' Is Topic of Dr. Taylor's Speech

ADVISES FRESHMEN OF AIMS COLLEGE COURSE

Dean of Graduate School Defines Personality As the Art of Living Successfully

"Why Does a Man Go to College?" was the subject of the address delivered by Dr. C. C. Taylor of the graduate school at State College before the student body at the assembly period in Pullen Hall last Wednesday.

In the first place, a man who goes to college, in Dr. Taylor's opinion, wants to be above the average and he wants to be a leader. He "wants to remake his personality through the process of education," as a second consideration.

In defining personality Dr. Taylor said:

"Personality, one's own personality, and its most complete development, is the art of living successfully. It is accomplished by bringing to full fruition all the springs of emotion and other organic capacities with which one is born and inculcating into one's self—i. e., into his personality—the largest quota of the outside world, chiefly the personality of others, which it can without losing the core or balance or integrity of his own inner self.

"The problem involved in developing the highest possible personality is how to inculcate experience, new experience, into one's being without feeling too unlike what you were before. Each day should find you a new person in fact, but not only in the sense that you have actually inculcated into your very self the thing which the day before you could only imagine, but did imagine. If you would not imagine it the day before, you will probably not be able to maintain your integrity of personality after the experience. This would create chaos.

"Don't allow yourself, therefore, to have an experience which you cannot square with your imagination of the road of experience which you want to travel to your own ultimate reality. If it squares with your emotions and does not lead you away from your goal, seek it. Otherwise, shun it."—Continued on page 5.

Eastern Carolina Spinners' Association Met Here Friday

The Textile School was host Friday morning to the Eastern Carolina Spinners' Section of the Southern Textile Association for a one-day meeting, to discuss the relation between growing cotton and manufacturing cotton in Eastern Carolina.

T. W. Muller, superintendent of the Rosemary Manufacturing Company, Rosemary, N. C., presided. The opening session at 10 o'clock was addressed by President E. C. Brooks of State College, who welcomed the spinners, and described the broad program of experimental research that the Textile School is now conducting in the interests of the manufacturers of the State; and he offered the cooperation of the college to the study of any problem in connection with their work that they wish the college to aid in.

The main part of the conference was devoted to active discussion of problems relating to the growing of cotton in such a way as to enable the manufacturer to secure the best results. About seventy-five men were registered for the conference, all of meetings of which were held in Tomkins Hall, the headquarters of the Textile School. Dean Thomas Nelson made provisions for the smooth running of the conference.

The following men attended the meeting: W. C. Taylor, Greensboro; H. S. Rogers, Edenton; D. W. Knight of Rocky Mount; J. W. Cooper of Henderson; C. H. Lawson of Rosemary; B. D. Burns of Durham; O. L. Strickland of Rocky Mount; W. B. Davis of Rocky Mount; C. S. Cozart of Rocky Mount; N. B.

WILLIAMS MEETS DEATH IN ELKIN AUTO ACCIDENT

Suffers Fractured Skull And Concussion of Brain

IN EMPLOY OF ATLANTIC BRIDGE CO., GREENSBORO

Accompanied by Fred Morrison—Collided With Driver of Unknown Truck

The sad and tragic news of the death of Frank J. Williams, a former State College student, has reached the campus. Williams was fatally injured in an automobile accident near Elkin on Friday. He died in a Statesville hospital, Monday night, suffering from a fractured skull and concussion of the brain.

Williams and Fred Morrison of Greensboro were in the employ of the Atlantic Bridge Company of Greensboro, and were on their way to Sparta, near Elkin, when the Essex in which they were riding collided with a truck, driver unknown. The car was completely demolished in the collision.

Mr. Morrison's skull was fractured and his jaw bone broken in two places. He was conscious when taken to the hospital, and indications are that he may recover, but Williams never regained consciousness.

Frank Williams was twenty-three years of age and is the son of Luther Williams of Monroe. He graduated from this college last June in civil engineering and was considered by the student body as one of the best men that ever graduated from State College.

MEDILL HEAD INJURED ON TRIP FOREIGN SHORES

Dr. Harry F. Harrington, director of the Medill School of Journalism, Northwestern University, while directing the writing tour abroad of the floating university, suffered two broken legs. The accident occurred at Oten, Belgium.

A huge motor truck crashed into a bus containing the party of students; Director Harrington was thrown from the automobile, suffering a compound fracture in the leg and a broken left knee cap. The students in the car were only jarred.

Prof. Baker Brownell, in the absence of Dr. Harrington, will act as the director of the Medill School of Journalism, until his chief arrives in this country.

Brooks Formally Opens 39th Year of State College

WOLVES LOSE TO FURMAN 20-0 IN GREENVILLE, S. C.

Wolves Unable to Cope With Strong Furman Defense

OUTEN, McDOWALL AND WARREN WOLF STARS

'Whitey' Rawl Is the Big Gun in 'Purple Hurricane's' 20-0 Win Over Wolves

(By Leased Wire)

Greenville, S. C., Manley Field, Sept. 30.—The Furman "Purple Hurricane" defeated the N. C. State College Wolfpack here today by the score of 20-0. Furman won the State game last year in Raleigh by the score of 31-0.

State was unable to gain any appreciable amount against the strong Furman defense. State's passes were grounded, her line backs were thrown back, and their end runs were nipped in the bud. State had to cope with the mighty White Rawl, sensational halfback. His sensational running scored all three of the Furman goals. Capps caught McDowall's punt on his five-yard line and ran the whole length of the field, but the touch-down did not count. State held the hard-hitting backs scoreless in the second and third quarter.

McDowall showed up well for the Wolves, as did Warren and Outen. Coach Tebell used many of his reserve squad in an attempt to stem the oncoming tide, but they failed.

A brief resume of the game follows:

State won the toss and elected to defend the east goal. Outen kicked off to Furman's 25-yard line and Coble returned to his own 42-yard line. Furman failed to make first down and Rawl punted around right end. State failed to make the first down and McDowall punted to Furman's 25-yard line. Rawl grabbed the ball and ran 45 yards before he was stopped, and on the next play he ran 15 yards through the line for a touchdown. Byrne kicked goal from placement. Score, Furman, 7; State, 0. Furman did not score again in the first quarter. Furman had the ball on the 41-yard line as the quarter closed.

Blount passed 10 yards to Rawl and he ran 65 yards for the second touchdown of the game. Byrne failed to make the kick from placement. Furman kicked off to State on her 20-yard line. The ball changed hands several times during the second quarter. The end of the half found the score 13-0 in Furman's favor.

Furman kicked off to State's 25-yard line. After several changes of punts and after the ball had changed—Continued on page 5.

NOTICE

The congregation of the West Raleigh Presbyterian Church extends a cordial invitation to all other students who are not definitely connected with another church in Raleigh to come to all our services, which for the present are being held in Pullen Hall. Sunday School at 9:45 and preaching at 11:00 o'clock.

Special discussion groups will be organized for State College students as rapidly as numbers justify it.

Our pastor, Rev. Joseph R. Walker, will be with us Sunday. He is a young man, a graduate of Davidson College, and will interest college men.

A warm welcome awaits you. E. L. CLOYD, Clerk of Session. A. S. BROWER, Supt. of Sunday School.

Speaks to Student Body Thursday—Says Registration Efficient

SUMS UP WORK OF PAST YEAR; TALKS OF FUTURE

College Plans to Have Trophy Case in Library—Two Floors to Be Added to Physics Building—Holladay Hall and 1911 Dormitory to Be Remodeled.

Dr. Brooks officially opened the thirty-ninth year of State College by addressing the student body in Pullen Hall on Thursday evening of last week. In his address Dr. Brooks summed up the achievements of the past year and told of the buildings that would be completed and remodeled this year.

The senior class sat in a section by themselves and will continue this tradition at all formal college gatherings.

The president stated that owing to the efficient way of registration of the college was fully two weeks ahead of its schedule, also that the Y. M. C. A. had rendered valuable service in helping the new men to get oriented in their entirely new environment. "The senior class should set up a record," he said. "One that will show the people of North Carolina what State College men consider standards for an educational institution of this kind."

He pointed out the fact that women had been recognized on the campus and that now there was a School of Education for the purpose of training teachers for the rural sections of this state.

Dr. Brooks told of the progress that was being made on the campus in building, and of the achievements of the various schools and departments. "It is the plan of the college to have a cabinet in the library—Continued on page 2

FAIR SEX INCREASE IN NUMBER AT N. C. STATE

Eight Women Join Ranks With Men at West Raleigh Technical School

The number of coeds are increasing at State College. The registration of women at the college, according to Registrar Edwin B. Owen, numbers eight for the coming school term.

Miss Ada Curtis Spencer, who last year entered State as the first full-fledged girl frosh, is back again, a sophomore in the School of Business Administration. She expects to specialize in journalism. Miss Spencer made her freshman year with colors flying, receiving high honors at the end of the term for her work.

Mrs. Jane McKimmon, well known for her home demonstration work, is also a returning coed at State. This year she expects to do graduate work in sociology.

Miss Martha Andrews, too, is an "old girl." Miss Andrews has two years' work in ceramics, but is changing this year to special work in the school of architecture.

The new coeds to enter this year number five, which more than doubles their number of last year. Miss Elizabeth Bowden, who is a 1927 Peace graduate, enters the college this year as an irregular sophomore in the School of Science and Business. She will specialize in chemistry. Her work at State College is to be pre-medical in preparation for her expected future entrance to the Women's Medical College in Philadelphia.

Miss Cicely C. Browne, daughter of Prof. William Hand Browne, Jr., comes to take a special course in horticulture as graduate work.

The other new coeds are Miss L. P. Wallace, who is thus far the only woman to enter the new School of Education, which has been opened to women; Miss Elizabeth Thomas, who will do graduate work in sociology; and Mrs. Virginia F. Harris, who also expects to take graduate work in sociology.

Frosh Pigskin Candidates In Keen Rivalry

Freshman football practice started with light workouts on last Wednesday. Coaches Passalacqua and Drennan started the Frosh in Monday with good stiff workouts, and the Yearlings are hard at it. The lads are showing good form at this early

date and much is expected of them. Many faces that once graced some of the best high school teams in the state are to be found on the freshman field. Competition is very keen and at this time no one is sure of a place on the first team.

About sixty men reported for practice the first day and many new men are applying for uniforms. The Frosh show that they mean business by the consistent way that they are coming out for practice. The coaches are very gratified at the good spirit that is shown.

The frosh are scheduled for five games, two are to be played here and three away from home. The initial tilt takes place on Riddick Field with the V. M. I. frosh on October 22. The Duke yearlings will journey here for their game and the Wolflets will engage the Carolina, Davidson, and Wake Forest frosh on their respective fields.

Among those showing up well at this early date are: Atkinson, H. D., Maushek, Sikes, Betha, Burdell, Wright, Stout, McNeil, Huneycutt, Rudder, McLawhorn, Hargrove, Edmundson, Elliott, Atkinson, H. E., and Kerr.

campus for the purpose of showing the people of North Carolina what State College is doing in the fields of engineering." He assured the student body that in addition to the new science and business building, now under construction, there would be two floors added to the electrical building, and that Holladay Hall and 1911 would be remodeled in the near future.

"It is my desire to see another outstanding building on this campus," he said, "so planned and designed as to preserve the progressive spirit of this state and the ideals of this institution. This is State College. And I hope we shall see some day one building occupying the most commanding position on the campus, symbolic of our history and interpreting our social and industrial progress. It may be an assembly hall or some administration building, so planned and designed that what is good in our history shall be so ordered as to pass chronologically in review before those who enter. It should capture the imagination and thrill the understanding with a sublime purpose; for nature and art are our great educators.

"Such a building would be most appropriate here at State College—the institution that touches so vitally agriculture, engineering, science, business, textile manufacturing, and vocational education. Such a building would exhibit social, industrial, and commercial progress and human relationships in a corporate capacity, as well as individual relationships in the larger free social intercourse.

"Art, to be interpreted of such progress, calls for the combined genius of painter and sculptor and architect. As I enter this imaginary building this evening I see standing out in bold relief the progress of agriculture from the wooden plow and the small clearing and the rough pioneer life to the great rolling fields cultivated by modern machinery. My eye can trace the rise of the landlord and his control of politics and business and commerce. Then he begins to decline gradually and the control shifts to captains of finance and industry and a new agriculture appears, interlocked somehow with finance and industry, and there stand the images of those who have guided the progress of agriculture for more than two hundred years. But one panel is partly unfinished, on which may be recorded some time what progress or what pathetic decline the future has in store for this great industry.

"My eye moves on to a new panel.

Undiscovered country in industry

THE globe's surface no longer holds much undiscovered country, but the pioneer-minded man can still find plenty of it in industry—particularly in the industry.

In the Bell telephone companies throughout the entire country, men are now exploring the 1930's and

40's and 50's, charting the probable trend of population and the requirements for service.

In research and development, and in telephone manufacture as well, the Bell System takes seriously its responsibility to give adequate service now and to gird itself for a long future.

BELL SYSTEM

A nation-wide system of 18,000,000 inter-connecting telephones

"OUR PIONEERING WORK HAS JUST BEGUN"

I see the beginnings of the rise of industry and commerce. First, the sailboat and simple handicraft, then rivers and canals, the industrial revolution, and railroads and great hard-surface highways connecting all sections of the state. We pass from the iron age to the oil age and see rising at Kitty Hawk the beginning of the conquest of the air. Along these great arteries of trade, our natural resources appear. At first they seem to be very clear, then they fade into indefinite quantities and values. But paralleling them we may see the evolution of finance and industry, at first indistinct, then occupying positions with a tendency to become even more commanding as they emerge into a vast epic, still unfinished, but ever broadening toward infinity, and I see in that sweep of more than two hundred years images of those engineers and scientists and financiers and manufacturers and captains of industry pointing toward a vaster, but indistinct, future.

"I move on, and my eye is arrested again and this time held by what appears to be a great drama enacted before me—social changes of more than two hundred years, in dress, manners, and customs, and standards of living. Even the habits of people change. The duel is seen and then disappears. Government at first is little interested in the great masses, then it seems to be increasing its efforts in the interests of the governed and there is a suggestion of a co-operation among people, but it is not yet keeping pace with the growing complexity of finance and industry that are knitting people together in spite of their individual or institutional selfishness. The school appears at the beginning, but so indistinct as hardly to be seen, and then it looms large in the background. But there is strife between the school and the church, then between churches, then between schools, and men and women for the most part at times seem to be afraid, as they grope toward the light, which is undoubtedly increasing as truth is brought to the understanding of people.

"But I see standards rising, culture is increasing. The thoughts of men are widening with the process of the sun. The individual is becoming more human and less brutal and the future—there is an upward extension of the artist's lines, giving hope, and the picture fades, but its lines seem to fall across the future of agriculture and finance and industry. Where these lines fade into the future they leave a call for the master farmer, master teacher, master

engineer, master scientist, master business man, master manufacturer

architect to interpret the present, forecast the future, and find our direction. "My imagination is not quite sufficient for the task, but such a building is needed in our educational scheme. It might give State College a higher aim to complete a part of the picture for the benefit of mankind. With the combined genius of students and faculty and friends, we shall be painter and sculptor and

PACK RUNS WILD; DEFEATS CHRISTIANS

Backfield and Line Looked Fine in Season's Opener; Students Well Pleased

With attacks and counter-attacks, forward passes, line bucks, end runs, and the like, in profusion last Friday afternoon on Riddick Field the N. C. State College Wolfpack ran true to prediction and won from the Elon Christians, 39-0.

The "Big Four" in the State backfield tore the opposing players into shreds before the game was over. Their terrific onslaught was not to be stopped. Each time the Christians would drop back and wait, Warren was going like wildfire. "Sparky" Adams rolled out signals like a veteran. McDowell's accurate passes dropped right into the hands of the waiting Outen, Goodwin, and Childress. The Tech line held up wonderfully during the entire thirty minutes.

Coach Tebell used almost his entire squad in the game. He saw what he wanted to see. His ambition was almost realized on that day. For three years he has worked for a winning team. This year he has hit the combination as far as the game last Friday was concerned. The students were pleased at the showing made this year.

The Gridgraph shows everything as is. Nice contraption, eh, what? Patronize the Gridgraph—it is the next best thing to seeing the real thing and lots cheaper.

ABOUT RESERVED SEATS

Student reserved seat tickets will be issued from the office of the graduate manager of athletics, according to Tal H. Stafford.

Issues will be made five days prior to the day of the game, but no tickets will be given out after 10 o'clock of the day of the game. Students can purchase seats next to theirs for friends or relatives. When applying for reserved seat tickets bring the membership tickets, so that the proper tickets can be removed. The reserved seat games are Wake Forest, Carolina, and Michigan. The price for reserved seats at all three of the games will be \$2 each.

SPORT STUFF
By T. AVERNON

The Wolfpack certainly ran rings around Elon last Friday. They made nearly four times as many points as they did last year.

We welcome Mr. A. T. Spurlock, a promising youngster, to our midst, and hope that he will receive material benefits from his time spent here. He is registered as a graduate student and experts say that he will be eligible for all sports except football. That's fine, is it not? Look out, opponents!

Coach Gus Tebell is an optimistic cuss. He and Monk Younger, of Davidson, should organize a "Krazy Kat Klub" and restrict membership to coaches who say that their teams do not have a chance. Gus is one of the kind that look one way one day and another the next. Ask the press agent.

Ye sports editor was asked to accompany the team to Greenville, but on account of the invitation being from the wrong source he did not accept.

If we have injured anybody's feelings or dignity in the above lines we will be in our office in Room 5, Holladay Hall, Thursday night. Send all

FORMER LENOIR-RHYNE STAR IN SCHOOL HERE

May Be Eligible for All Sports Except Football; Coaching at Raleigh High

A. T. Spurlock, all-round athlete, has registered at State College in the Graduate School. Spurlock will be remembered as the student at Lenoir-Rhyne College that cut such big circles in athletics in the state. He is the personnel of the only one-man track team to ever exhibit in the state. His prowess on the gridiron was also remarkable.

It is probable that Spurlock can be used on the track team, basketball team, and baseball team here. Football is the only sport in which he would be ineligible at State.

Spurlock was the leading scorer in the state last fall in football, and was named on practically all the all-state teams.

The News and Observer says that he is assisting Coach Peele Johnson in coaching the Hugh Morson High School football team.

He challenges for duels to the editor. Thank you.

The Wolfpack did fine work in the Furman game today—probably the best they could.

NEW MORAL SUPPORT FOR STATE WOLFPACK

A new moral support has sprung up for the growling Wolfpack of 1927. Every student on the campus seems to be highly optimistic about the coming season, and seems to have his heart and soul behind the team. The old discouraging remark, "I'll be glad when the Carolina and Davidson games are over," is heard no more. In its place is "I wonder how bad we'll beat Carolina? We'll run away with Furman and Wake Forest, because we've really got a team that can't be stopped."

The members of the squad certainly appreciate this attitude, and there is no doubt that it will make them break through any line to bring the bacon to old State College.

THE TECHNICIAN will be mailed to the student body just as soon as the present condition at the postoffice is straightened. In the meantime, all students who do not receive their mail through the college postoffice are asked to give us their correct addresses.

We will be glad to send any student's TECHNICIAN to any person or address without extra charge. Please co-operate with us in this by having any change you wish made in the TECHNICIAN office (Room 5, basement of Holliday Hall) during the next week.

A short note giving your name as the college has it, and the name and address to which you want the paper sent, is all that is necessary.
JEFF. C. DAVIS,
Circulation Manager.

SCHAUB TALKS TO MEN OF AGRICULTURAL CLUB ON EUROPEAN EXPERIENCES

The first meeting of the Agricultural Club was held Tuesday, the 27th of September, in Ricks Hall. The feature of the meeting was a talk by Dean Schaub on his experiences on a recent trip to Europe.

He described briefly the voyage across, and gave some amusing insights into Danish life. The party spent the greater part of their time in Denmark, and spoke highly of the courtesy and hospitality extended to them by the Danes.

Dean Schaub was much impressed by the co-operative spirit developed by the Danes, but expressed himself as rather disappointed with their general agriculture. He stated that the majority of fields sown to small grains were half weeds and presented a very unattractive appearance. The chickens were of very inferior class, while the cows seldom produced more than 6,000 pounds of milk per annum.

At the close of Dean Schaub's speech a short discussion followed on the Agricultural Fair. Sheets were presented to those present, showing the various classes of exhibits, and all agricultural students were urged, if possible, to bring some exhibit to the fair.

AUDITORIUM TO BE SCENE OF CHAMPIONSHIP FIGHT

Frankie Genaro Will Defend His Title Against Marty Gold on October 7

Raleigh boxing fans will be treated to a special world championship fight Friday night in the city auditorium. This fight attraction is under the promotion of Jack Laken. The main bout will be between Frankie Genaro, flyweight champion of the world, and Marty Gold, of Philadelphia.

Promoter Laken is known over the United States as a promoter of good fights. He secured the permission of Mr. Busbee, chairman of the local boxing commission, to stage the fight. The auditorium, with its capacity of 5,000, will be the scene of the first world championship fight to be held in North Carolina.

The challenger is one of the hardest hitting flyweights in the world. He is sometimes called the miniature Dempsey.

Local talent will be used in some of the 42 rounds of fighting offered.

Laken was turned down on a \$25,000 offer to defend his title against Marty Gold. Blake, the champion's manager, refused to consider the offer.

Tickets will be on sale soon, and State College students are cordially invited to attend.

SMOKES AND CANDY ON PROGRAM FIRST MEETING IN PULLEN SOCIETY HALL

Pullen Literary Society held its first meeting of the year Friday night, September 23, at 6:30. The president, Mr. H. M. Stott, made a few introductory remarks, stating some of the aims of the society for the year 1927-28, and that he especially desired to see the walls of the society hall painted and a platform built for the speakers.

Brief remarks were made by each officer of the society. Mr. J. E. Moore, the vice-president, told how literary society work had benefited him and made an appeal to the new men to take part in this type of student activities.

Prof. C. C. Cunningham addressed the society, telling of the high stand-

ard that State College held in oratorical and debating work. He appealed to the students to maintain this standard, and requested that freshmen attach themselves to literary society work. He also stated that the meetings should be improved and the internal work of the society brought up to a higher standard.

Mr. R. H. Rogers, the critic, gave some interesting suggestions on society work and pointers in speech delivery. This was followed by an address by Mr. C. L. Straughn, who discussed society work in particular. Smokes and candy were then served the members and visitors present, after which Prof. C. C. Cunningham again addressed the society, entertaining the audience with several humorous readings.

Pullen Literary Society extends a cordial invitation to the first-year men to take part in its activities and all other men that can possibly do so.

PI KA'S TO BE FIRST TO HAVE OWN DINING HALL

Alpha Epsilon Chapter of Pi Kappa Alpha is to be the first fraternity at State College to have its own dining room.

The fraternity has obtained the services of Mrs. Honeycutt, who will have charge of the meals, and also act as house mother to the boys. There has been a long-felt need of having such a lady in fraternity houses, who can make a home for boys coming into college from their homes.

Mrs. Honeycutt comes highly recommended by college officials and others.

Paragraphics

It seems that the freshmen are being given their daily workouts at night. They have been initiated into the art of erasing 31's with bricks.

Rushing season is on in full blast. It has been rumored that some freshmen have been locked up in cellars for their safe-keeping.

We wonder what the little building at the south end of Riddick Field will house. One of Professor Robinson's journalism students stated that it was a co-ed dormitory.

The Pi Kappa Alpha's will run a table in their home this year. This is something new at State College and will be watched with keen interest by other fraternities as to its success.

College students need have no fear for being arrested for spooning on the streets. The recent suit in which a woman received several thousand dollars damages should be enough to dispel that fear from every man's heart.

Within the next week or two, there will be a column in this paper by the librarian. This column will give a list of the new books that come in each week, thereby giving the students first-hand information on the new arrivals. We are heartily in favor of this column, and hope that the student body will take advantage of it.

C. F. Shuford, co-ed irritant and campus journalist extraordinary, in a recent communication to The Technician presents himself as happily but perilously esconced in the junior class of the Medill School of Journalism, Northwestern University. He requests that the faithful brethren on the State College campus remember him in their prayers. Singularly enough, he takes no cracks at the co-eds in his recent communication. He has evidently either been over-awed or suppressed.

PROGRESS

Every student of State College, as well as the citizens of this state who have visited this college recently, will verify the statement that North Carolina State is in the march of progress.

As the year begins, we feel that it is an opportune time to review the many improvements and changes that have been made since the close of college last June.

At present there is under construction a new Liberal Arts building, which will be occupied by the departments of English and mathematics when completed. This building is being erected on the same ground that old Mechanical building occupied. Already the excavation has been completed and the foundation for the new structure—Peele Hall—has begun. A noteworthy fact about the plans of the building is that they are being drawn up by the faculty and the seniors of the Architecture Department.

Another school has been added, which brings the total up to six. The School of Education was established for the purpose of preparing

teachers and principals for the rural graded schools of North Carolina. It will also give women the advantage of the broad opportunities afforded by the teaching, research, and extension service of the college. At last women have been recognized on the campus, and are offered courses that will appeal to them.

The School of Science and Business has introduced a three-hour course in mathematics with the view of making it a prerequisite for the courses in accounting and statistics. At last a home for the president of the college is under construction. After waiting four years, the Legislature appropriated \$30,000 for his home, which is being built directly across the street from College Court Pharmacy. This is a very wise step, because he will be able to keep in close touch with the college at all times.

Two floors and another wing are to be added to the physics and electrical building, which will call for an expenditure of \$180,000. Winston Hall and South Dormitory have been remodeled during the summer. In addition to these improvements, new walks and driveways have been constructed during the summer months; also, twelve new tennis courts will be ready for use within the next few days. There has been a long-felt need for these courts, and lovers of that sport will welcome them.

These changes and improvements go to show that State College is in the march of progress that is so obvious in most every educational institution in North Carolina.

ABOUT CAMPUS ACTIVITIES

An article appeared in the Saturday Evening Post not long ago entitled, "Starting Careers on the Campus." It was nothing more than an interview between a representative of a large company that manufactures scientific and technical products and a reporter. The representative had just completed a trip to the various colleges of the country for the purpose of signing up seniors for sales work—seniors that would soon become sales managers in that company.

In his conversation with the reporter he gave some very valuable information that should be of interest to every college man, because he tells of the kind of college men that the industrial plants of today are wanting. The men that this particular man sought were men who had taken part in campus activities as well as kept up with their routine work.

When asked if it was hard for him to pick his men—those that had the ability to sell, he said, "Not a bit. The boys stand out from the rest like new roadsters in a fleet of motor trucks." The men that were signed up had gained the commercial point of view through activities on the campus or experiences such as: selling aluminum ware during the summer or carrying papers during spare time while in college. That is, they were able to meet new people without being self-conscious and being able to sell themselves and their wares without being egotistical.

One of the most unfortunate things that he found while visiting the colleges was the fact that the faculty gave him a list of the men graduating and their respective grades, and based the recommendations entirely upon the way the men looked from the platform in the classroom, and did not take into consideration any outside activities that furnish valuable business training. Does not this show that extracurricular activities are worth while and should be given more consideration by the members of the faculty at any college?

"Some of our division managers are training right now on the campuses of a dozen different colleges."

said the representative. He also went further and said that although classroom work was basic and important, the things that get one promoted faster than the average are those things that are done outside of the routine work.

Judging from the substance of this article, the industrial heads today want men who have not only kept up with their regular work in college, but have taken part in some outside activities. If this is true, should not every man try to do some specific thing in activities that will make him better qualified for a position?

State College offers many opportunities in activities that are worth while and educative. Publication work, student government positions, and various other activities on the campus offer splendid training for those men who are interested.

WISE AND OTHERWISE

The other evening the Raleigh Times carried a story to the effect that no less than two hundred boys in State College were earning their way through school. The basis of the material was furnished by the secretary of the Y. M. C. A., who has charge of the department finding employment for those students who so desire.

In this day when so many pseudo-educators are becoming alarmed over the possible motive of many students in coming to college, such instances as the above-cited seem to be of a healthy nature. When a student is willing to come to college and do manual labor that he may continue in school, there is little doubt concerning his sincerity. Of course many people will argue that it is not best for a student to devote his spare time to working. Some go so far as to say that it is best for a boy to stay out of college altogether if he is forced to work his way. But their arguments are without substantiation and are evidently not cognizant of the fact that many of our ablest leaders are men who were forced to work their way through college.

It may be interesting to take a look around State College campus and observe some of the tendencies of the men who are working their way through school, or who at the least are self-help students. Almost invariably the man who works is a student who ranks in the upper half of his class; he is of the moral caliber that makes him a respected man on the campus and a credit to his school. The above conclusions apply to State College, as they are based upon local observations and opinion, but there is no reason for not believing that they would apply elsewhere.

In this day of rumble seats and road houses, to see a student who is willing to work and go to school at the same time should be enough to pep up the most chronic pessimist. State College has much to be proud of along its several lines, but nothing should give it more satisfaction and pride than the fact that it has several hundred students who think enough of it that they are willing to sacrifice much of their joy for work in order that they may benefit from its teachings.

OPEN LETTER ADVISES BAPTIST STUDENTS OF STATE-WIDE MEETING

With the opening of the schools and colleges in North Carolina there comes a distinct challenge to Baptist students throughout the state.

On October 28-30, next, there is to be held at Pullen Hall, N. C. State College, Raleigh, North Carolina's State-wide Baptist Student Conference for the year '27-'28.

The eyes of over three thousand Baptist students throughout the state are being focused with intense interest on this approaching conference, as they turn, one by one, from the summer's vacation to assume the duties and responsibilities of the campus and the class-room.

Last year when the great south-wide Baptist student conference met at Birmingham, Ala., it was agreed upon that each of this year's states should have their individual state conference for the next few years, thus allowing the state-wide organization of B. S. U. to be nurtured more fully by their own resources until it should develop more completely into the true beauty of purpose encompassed by it, that of making "Christ Master of My Generation."

Since that day in Birmingham, when each state received the glowing challenge, the conference leaders have felt in deep sincerity the magnitude of the task, and in turn have been imploring, almost constantly, the guidance, wisdom and power of the Holy Spirit, that the conference might be the greatest yet in the history of the Baptist Students' Union.

In the light of this vision and beneath the hand of His guidance, plans have been made to promote this series of conferences that will affect not only North Carolina students, but those throughout the southland.

First, the state leaders met in Memphis, Tenn., last January for a whole day's session, thereby agreeing in joint conference on a general theme of program. As a result, each state leader has in his hand a program based in theme upon the consideration allowed in that joint conference, and each state is looking forward with plans and preparations to its conference this fall.

In North Carolina our challenge is exceedingly great, our resources in the field of Christian youth is scarcely surpassed. Our talent of student life is not latent, but rather, in the words of Henry W. Grady, "breathing, giving, growing every hour."

There is scattered throughout the state from the mountains to the sea a host of Baptist students who are bent

When burning the midnight oil smoke Edgeworth

upon that which is highest; who are seeking to culminate their forces into a powerhouse for God; who will correlate their campus relationship into one mighty force for Him who is the "Truth and the Light"; who will seek to maintain a citizenship on the campus of the proper high ideals, and above all to carry the Spirit of the Master "into the uttermost parts" of the campus.

There will be a B. S. U. roll-call in October at Raleigh. Will your campus answer? The success or failure of the conference depends upon you. As the student is, so shall the conference be. As the conference, so in a measure shall the campus be.

Shall we count upon you and your

campus to be a part of this great meeting in the history of North Carolina Baptist students?

CARR WILL EDIT STUDENT DIRECTORY THIS SEASON

H. J. Carr, well-known student, will edit this year's Student Directory. The announcement came after several students had applied for permission to edit the directory.

The directory is one of the most valuable handbooks that is issued on the campus. Permission is given some worthy student each year to handle the book.

I. O. O. F. BUILDING RALEIGH, N. C.

"IF"

AUDACIOUS ENGINEERS are filling our popular publications with descriptions of the cities of the future. We have all seen their prophetic pictures: tiers of gigantic buildings rising one hundred, two hundred, three hundred stories above four or five levels of street.

All the ingenuity of these prophets is required to explain away, even theoretically, certain problems of construction. IF this material can be made to bear so much more strain; IF means can be devised to ensure a solid foundation — IF, IF.

One important detail, however, is always taken for granted. "There will be express elevators," they say, "from the various street levels to the hundredth and two hundredth floor." THERE WILL BE! We find no "if" in connection with the elevators.

For all builders have come to expect a perfect solution of every interior transportation problem, no matter how audacious. As the cities of the future are being planned, the OTIS COMPANY expects that dependable vertical transportation will continue to be taken for granted by architects, engineers, and the public.

Mr. Hugh Ferriss has visioned many outstanding gigantic "buildings of the future." This reproduction is particularly appropriate at this time and special permission has been granted to use this illustration in college publications.

INDIVIDUAL PICTURES OF FROSH IN 1928 AGROMECK

Several Staff Appointments May Yet Be Had By Anyone Interested in Annual

Work on the 1928 Agromeck is progressing rapidly. The Agromeck photographer will start making the individual pictures Saturday, October 31, and this year, for the first time, the freshmen will have individual pictures in the book.

The track and baseball pictures were made last spring, and the football pictures will be made within the next few weeks.

The theme or art motif will be entirely different from the one used last year, and this year's book will be different in many respects.

The following staff appointments have been made: R. P. Shepard, Jr., managing editor; Kenneth Brown, senior editor; Albert Alwood, junior editor; Paul Choplin, sophomore editor; A. N. Greene, fraternity editor; J. O. Foll, society editor; H. L. Sullivan, sport editor; C. H. White, military editor.

Several positions are still open on the staff, and anyone interested in this kind of work is asked to see the editor.

Wolves Lose to Furman 20-0 In Greenville, S. C.

(Continued from page 1) hands several times, the quarter ended with the score still 13-0.

Furman failed to make first down after Blount had carried the ball 12 yards. State got the ball on her own

17-yard line. McDowell punted, and after Furman tried several plays and failed to make the first down, State got the ball on her own 21-yard line. McDowell was thrown for 18-yard loss and ball was on 9-yard line.

McDowell punted to his 45-yard line. Furman brings the ball up to State's 2-yard line, and Rawl went through for his third touchdown of the day. Byrne made the extra point from a place kick. Score: Furman, 20; State, 0. Byrne kicked to State's 5-yard line, and it was returned 21 yards. 0. Byrne kicked to State's 5-yard line and it was returned 21 yards. A ten-yard penalty puts the ball on State's 37-yard line.

McDowell passed to Jordan for twelve yards and the ball is in mid-field. McDowell loses five yards around end. McDowell punted 40 yards to Capps, who ran the length of the field for a touchdown, but it was recalled and Furman was penalized 5 yards. State has the ball on Furman's 49-yard line. McDowell punted to Furman's 34-yard line and Lancy made four yards as the game ended. Score: Furman, 20; State, 0.

The lineup:

State	Position	Furman	
Goodwin	Coble	
Evans	Left Guard	Pulley
Vaughan	Left Tackle	Perry
Metts	Left Guard	Clary
Nicholson	Center	Carson
Floyd	Right Guard	Lemmonds
Childress	Right Tackle	Byrne
Adams	Right End	Rawl
McDowell	Quarterback	Capps
Warren	Left Halfback	Blount
Outen	Right Halfback	Pipkins
	Fullback	

Pi Kappa Phi Gives Dance

The Pi Kappa Phi fraternity entertained at their house on Hillsboro Street, Tuesday afternoon at a tea dance, the first of a series of dances to be given by the fraternity. The house was beautifully decorated with flowers. Many popular young college girls from Raleigh, Durham, and Greensboro, as well as freshmen and other fraternity men, attended the dance from four to six-thirty o'clock. Mrs. John Coffey, Mrs. O. R. Browne, and Mrs. David Cox acted as chaperones.

Would you call snoring "sheet music"?—Ex.

EXCAVATIONS COMPLETE FOUNDATION PEELE HALL

New Liberal Arts Building to Be "One of Prettiest on Campus" When Finished

Old mechanical building is now history, excavation for Peele Hall has been practically finished, and the work of pouring concrete foundations has started.

Out of the big hole in the ground, made by recent excavation, will arise what is expected to be one of the prettiest buildings on the campus. The south side of the building has been emphasized by a beautiful Georgian and colonial style entrance, which will be made of ortholithic limestone. Limestone will also be used for belt moldings and the cornice. The windows on the first and second floors will be placed in slightly recessed arches, which at intervals will be elaborated by fancy wrought-iron designs similar to those used on Seventh Dormitory.

The basement floor walls will be of brick with a limestone veneering, while the upper portion of the building will be made of a beautiful shade of red brick. The hip-roof will rise several feet above the walls and will have a chimney at each end, giving to the building the finishing touches of Georgian and colonial style architecture. The roof will be finished with slate and copper.

The east elevation will be the second most prominent elevation, architecturally. The entrance will not be as elaborate as the entrance on the south side, but it will contain many elements similar to that entrance.

Peele Hall is a creation by the department of architecture of N. C. State College, and marks the advance of the importance of that department to the college. The cost per cubic foot is lower than any building of its type previously built on the campus.

This building will be occupied by the School of Science and Business along with the department of mathematics.

Creed for Frosh and Personally Subjects of Talk

(Continued from page 1)

Each freshman, Dr. Taylor said, should have a definite creed. This is his view of what it should be:

The Creed of a College Freshman

"(1) I am resolved, first, that I will know myself; second, that I will live up to the fullest capacity of that

self; and, third, that I will create a new self out of what I now am and out of the experiences which I can make mine during this year.

"If I am to know myself I must be absolutely honest and frank, not only in my thoughts, but in my relationships with at least one sincere friend and as many others as my best judgment will permit. Not to do this will always leave me in doubt concerning my own thoughts and lead me too much toward the attitudes that I am not understood by others, whereas the fault is likely to be that I don't understand either myself or others.

"If I live up to the fullest capacity of my clearly understood self, I know that I shall accomplish more than during any previous year of my life. I already know things about myself that no one else knows. Some of these things constitute the greatest weaknesses of myself. Some of them constitute the strongest elements in my personality. If I understand my physical self thoroughly I will reverse it and dedicate it to its tasks, in keeping with its natural impulses. If I understand my mind I will know that its capacity for growth and understanding is restricted only by my failure to apply it, and by my unwillingness to allow it to seek truth. If I know my spirit I know, also, that it is a natural part of myself. It is the enthusiasm of buoyancy of my blood and mind. By its flame I walk swiftly and live abundantly, provided I do not let it get out of step with or do violence to my body and mind.

"If I would create of myself a new self, I know that I cannot do it by repudiating my old self altogether, but by taking the core of my natural personality and making it the basis of my finer self, the magnet for all of the fine influences which will come my way in the future, and the radiant point by which I shall present myself to others.

"In order to do these things I

know that I must have more knowledge of life and a more abiding faith in that better self which I know I can be. I, therefore, dedicate myself to a pursuit of knowledge, knowledge that will convert my impulses into purposes and my dreams into life goals. I must drink deeply of frank and full personal experiences, sit willing at the feet of knowledge, and search anxiously for truth; but in all these things I must never allow new experience, strong personalities, or glimpses of new truths to cause me to accept any of them as ends in themselves, but only as materials out of which to have creative experience—the experience and the creation both to be mine and the created to be myself one year from now."

FROSH SCRUB 31'S ON PEACE WALKS

Numbers certainly mean something to freshmen. They probably thought all numbers meant work in the head, but now number 31 means elbow-greast in a squat position.

Monday night saw a ghostly string of red-capped, shirt-tailed boys traveling in the general direction of Peace. Somebody had been fresh enough to paint some green 31's on the sidewalks in front of that illustrious school.

Cool, brisk mornings this year have found a group of men around a

They're Different "CHICAGO" Rubber Tire Roller Skates

FREE--Write Now!

Chicago Roller Skate Co. Established over 20 Years 4141 W. Lake Street Chicago, Ill.

huddled bunch of freshmen, practicing for Monday night's work. Practice makes perfect. No State College man wants a freshman to strut before the public without some preparation. A week of practice culminated in the labor at Peace.

COLLEGE COURT PHARMACY

"Nuff Said"

C. Rhodes Proprietor

Zonite
For pyorrhea

For prevention against gum infections, use Zonite, the new powerful antiseptic. Also guards against colds, coughs and more serious diseases of nose and throat.

Many a man is doing work day after day that an electric motor can do for less than a cent an hour

College men and women recognize electricity as one of the principal aids to progress in the factory, on the farm, and in the home.

Guided by human intelligence, electricity can do almost any job a man can do. From stirring to grinding, from lifting to pulling, there is a G-E motor specially adapted to any task.

to Amateur Ad-writers

Find the missing Factor!
Write a Parker Pen Ad and Win a Prize!

[You do not have to own a pen to enter this contest]

- First Prize . . . \$100**
Second Prize . . . 75
Third Prize . . . 25
- Seven Equal Prizes**
(fourth to tenth)
Choice of Parker Duofold Junior Pen or Lady Duofold Pen
- CONDITIONS OF CONTEST**
1. Contestants must be duly registered students of a University, College, or High School. Only one entry permitted from each contestant.
 2. Entries are to be mailed before October 25th, 1927, to—Contest Judges, The Parker Pen Company, Janesville, Wisconsin.
 3. Judges will be: R. B. Henry, Mgr. Stationery and Book Dept., Carson Pirie Scott & Co., Chicago; H. B. Fairchild, Adv.
 4. Prizes will be awarded to the ten having highest merit. In the event of a tie, equal prizes will be awarded to both or all contestants tied.
 5. All contributions submitted become the property of The Parker Pen Company, and no entries will be returned to the sender.

Improvements unknown until recently are introduced in the New Model Parker Duofold—Non-Breakable Barrel, and Pressureless Point by means of capillary flow, combined with gravity feed. We spent 35 years on 47 improvements—made 16,000,000 pens—own 32 Pen Patents besides 12 on Pencils and Desk Sets.

How would you advertise this pen? Give us your ideas. Write an ad and win a prize.

Seven well known advantages of the Parker Duofold are told here. The new one—announced April 1st—Factor number 8—is missing. If you find it—if you write an advertisement including it with the following seven—you may win as much as \$100 cash or one of nine smaller prizes.

Here Are 7 Factors!
Can you find number 8?

1. Pressureless Point—starts and writes at feather-weight touch—extra strong because of extra thick gold. But tempered so it yields to any hand yet never loses shape.

2. Non-Breakable Barrel—now made of Parker Permanent—28% lighter than rubber formerly used—hand sized, and perfectly balanced.
3. Instant Ink Flow—tip always moist. Capillary attraction combines with gravity to produce pressureless writing.
4. Over-Size Ink Capacity—writes longer on one filling.
5. Duo-Sleeve Cap—a positive safeguard against leakage when cap is kept on tight.
6. Press-Button Filler—concealed inside the barrel out of sight, out of harm's way.
7. Beauty Rivalling Colorful Jewels—lustrous Black-tipped barrels in Jade, Lapis Lazuli, Mandarin Yellow, or Lacquer-Red. Also plain Black and Gold.
8. The Missing Factor! . . . What is it?

Try Parker Duofold at your dealer's and ask him about the missing factor. You do not have to buy unless you can't resist. Either way—write an Ad and win a prize. Note conditions of contest.

SOCIAL ACTIVITIES

Tau Rho Alpha Entertains
Tau Rho Alpha fraternity entertained last Tuesday evening in honor of the new men at State College. A smoker was given at their house on Forest Road. Some of those present enjoyed games of cards, while the rest were entertained by jokes. The menu consisted of sandwiches, drinks and smokes. A few of the alumni gathered for the evening to enjoy the merriment of those present.

Theta Kappa Nu Smoker
North Carolina Alpha chapter of Theta Kappa Nu fraternity entertained twenty men at their home on Hillsboro Street Wednesday evening at 8 o'clock. Lunch was served at 9 o'clock. The guests departed at eleven. A good time was had by all present.

Rushing Season
The Pan-Hellenic Council has proclaimed that the Rushing Season of 1927 is on its way to a successful year. The Greek-letter organizations have their big guns bursting forth with the announcement that they are scouting for big and better freshmen with sharp shooters and sharpers here and there to obtain others. After ten days of silence, in which

the fraternities prepared their strongholds and made ready for the ordeal, the freshmen were made acquainted with the social life at State College. For three more weeks the battle is expected to rage on, but on October 23 the smoke and dust of the battle will be cleared away (let's hope that much damage is not done), and the different fraternities will be exhibiting the scalps that they captured and the quality of them.

Sigma Nu Entertains Freshmen
On the night of September 30, the oldest fraternity in North Carolina State College threw open the doors of its new home and welcomed into it the men of the class of '30. It was an occasion where you obtained a man's heart by the best way in offering to him tables filled and heaped with the best of food. Thus it proved to be an evening with everybody satisfied, as they blew rings of smoke out into the clear evening air.

Kappa Sigma Banquet
The new home of the Kappa Sigma fraternity at 21 Enterprise Street was the scene of a delightful banquet, given Wednesday evening, honoring a group of new men and a few friends. The entire first floor was beautifully decorated, and the colors of the fraternity, scarlet, white and green, were artificially blended into a collection of cut flowers. The banquet was very informal and was opened with the display of a heavily loaded table, whose contents were readily enjoyed by all present. Among those in attendance were Coach Gus Tebell, Don Childress, Prof. F. A. Lee, and Dean I. O. Schaub.

Dana at Salisbury
Professor W. J. Dana of the Mechanical Engineering Department spent last week at the Buck Steam Station of the Southern Power Company, on the Yadkin River, near Salisbury. Professor Dana was running some performance tests on the large 54,000 sq. ft. surface condensers built by the Elliott Company at Jeannette, Pa. He has spent the last three summers with the Elliott Company on experimental and research work. The Buck Steam Station is one of the most modern power plants in operation anywhere. It uses pulverized coal and produces electrical power very economically. The two 35,000 K. W. turbo-generators at this station have been almost continuously on the line since starting up last November.

S.P.E. Dinner Hosts
Members of the freshman class and faculty were entertained at a dinner and smoker given at the college cafeteria on Monday night by Sigma Phi Epsilon. Members of the faculty present were Professor Harry Tucker and Captain Watson. Those present outside the college were Mr. Thomas Creekmore, of Raleigh; Mr. Linwood Pridden, of Dunn, and Mr. L. E. Gabriel, of St. Louis. Short talks were made by the last-named guest, which added materially to the success of the dinner.

Mr. Claude Matthews and Karl Koertz will take a motor trip to Tarboro Sunday.

The "vampiest" vamp of all the vamps was the name she had in the movie camps—but now she is one of the screen's most charming leading women! Such is the romance of Julia Faye's rise from "other woman" roles to a position of distinct prominence in the ranks of the film's leading feminine players. Miss Faye has the leading woman's role opposite Joseph Schildkraut in "His Dog," which comes to the SUPERBA Theatre Monday and Tuesday. It was directed by Karl Brown from the script of Olga Printzlau, an adaptation of Albert Payson Terhune's famous story. Walter Woods supervised the production. Robert Edeson and Sally Rand also are featured.

Paris, glittering, full of lure—and equally full of whimsical comedy on occasion, is the scene of the latest activities of Lew Cody, whimsical delineator of fanciful characters, in "On Ze Boulevard," Metro-Goldwyn-Mayer's new French farce playing at the SUPERBA Theatre Wednesday and Thursday. It is a French farce in its purest sense—a potpourri of comic complications and laughable trivialities—with some clever acting, some pretty women—a little froth and frippery, and a deal of enjoyment.

"The Covered Wagon," a Paramount super-production directed by James Cruze, the man who has since made "The Pony Express" and "Old Ironsides," comes to the SUPERBA next Friday and Saturday for a special request showing. The tale is one of the '49 gold rush—a thrilling love story. A young army officer is unjustly accused of theft while in the service, but is brave enough to bear this false accusation though it means the loss of the girl he loves. Seeing a second time, "The Covered Wagon" proves to be better than ever!

Cecil de Mille's "Three Faces East" comes to the CAPITOL Theatre next Monday and Tuesday.

Featured in this famous De Mille production is the triangular cast—Zeta Tondal, Henry B. Walthall and Cline Brook.

Churches are acclaiming this picture, so are ex-liquor dealers et al. One of the most remarkable features accompanying the presentation of this great picture, "Ten Nights in a Bar-room," which will be shown at the CAPITOL Theatre on Wednesday and Thursday, is the interest which has aroused amongst religious teachers all over the United States of America. It appears they agreed to forget their differences and tell the people to go and see "Ten Nights" and what it did in the past; what it would continue to do in the present if the old condition of things which lead to the passage of the Eighteenth Amendment remained in force.

"Take me out to the ball game" can be changed to "Take me to the CAPITOL Theatre" next Friday to see William Haynes and Sally O'Neal in "Slide, Kelly, Slide." Generally acclaimed as the greatest triumph of the speaking stage's foremost actresses, notably Sarah Bernhardt and Eleanor Duse, "Camille," modernized for the screen, now becomes Norma Talmadge's crowning achievement.

"The finest screen performance of all time" is the tribute paid to Miss Talmadge by motion picture critics. Produced by Joseph M. Schenck for First National, and directed by Fred Niblo, the modern "Camille" has an unusually strong cast in support of the star.

Gilbert Roland, a young Spanish actor, whose portrayal of "Armand" has created a sensation in filmdom, is Miss Talmadge's new leading man. Other players in "Camille" include Alice B. Francis, Rose Dione, Lillian Tashman, Helen Jerome Eddy, Carmelita Geraghty, Harvey Clark, and Tom Ricketts.

The feature, which is at the STATE Theatre Monday, Tuesday and Wednesday, of course, is invested with all the lavishness which always marks a Norma Talmadge vehicle. The gowns worn by the star are extremely dazzling.

Annie Laurie—beloved in song and romance through the centuries—whose name is one to call up visions of the romantic Highlands and the delicate sentiment of Robert Burns and the ancient bards—Annie Laurie has come to life again. She has held big audiences enthralled with her charm, and the charm of the romantic land of her birth; the mighty romance of Scotland, "Annie Laurie," coming to the STATE Theatre next Thursday for three days. This is Lillian Gish's new vehicle.

Lillian Gish literally is Annie Laurie. Those who imagined her as a myth or legend will be amazed at the actual woman—for Miss Gish is a faithful portrayal of the real Annie Laurie, who lived centuries ago—whose love and whose heroism turned the tide of Scottish history in a real life drama more powerful than any

To smoke wisely and well, choose Camels

THERE'S an irresistible reason for choosing this famous cigarette. Not for its popularity alone, but for that superior quality that produces it. Camel wins its prestige with modern smokers by forthright value. It is rolled of the choicest tobaccos that money can buy, and its blending is the taste and fragrance triumph of tobacco science.

The Camel smoker is tobacco fit. He has the best, with no scrimping or denial of cost. There are no four-wheel brakes on Camel; no brakes at all. It is full speed ahead, straight for quality. Select Camel for smoking pleasure, and you'll join distinguished company. Particular, modern smokers have elected it on the principle of superiority. "Have a Camel!"

R. J. REYNOLDS TOBACCO COMPANY, WINSTON-SALEM, N. C.

JUNIORS and SENIORS!
IF You are looking for a pleasant and very profitable work that will enable you, in your spare time, to earn your way through college. You are interested in becoming the exclusive representative, in your college, for a quality line of Tailored-to-Measure Collegiate Clothes that is built up to a standard and not down to a price. You would enjoy the sincere cooperation of a great tailoring concern that furnishes you with complete equipment for doing business, and supplies you with an effective advertising campaign—FREE.

The Athlete's Friend

ITS strenuous business for the athlete to keep up with his work and at the same time get the sleep the coaches demand. Many have discovered a way to do it. They use a Remington Portable for all their writing. It helps them get better marks because of the neatness and legibility of the type-written reports; and the great saving of time as compared with the drudgery of writing by hand is a welcome relief. Remington Portable is the smallest, lightest, most compact and most dependable portable with standard keyboard. Weighs only 8½ pounds, net. Carrying case only 4 inches high.
