DR. TAYLOR MAKES FIRST OF POPULAR SCIENCE LECTURES

Dean of Graduate School Speaks on Society's Misfits

FIRST OF SERIES PUT ON BY PHI KAPPA PHI

Defines Misfit as a Person Who Varies Too Widely From Sanctioned Forms of Social Behavior or Community Thinking.

"A person who varies too widely from the sanctioned forms of social behavior or community thinking is a misfit," said Dr. Carl C. Taylor, dean of the Graduate School of N. C. State College Friday night, March 28, in the first of the Phi Kappa Phi popular science lectures in the State College Y. M. C. A. auditorium. "He may either lag too far behind and be incarcerated or killed by the masses, or he may lead too fast and far and suffer the same fate," continued Dr. Taylor. The subject of the noted sociologist's speech was, "The Story of Society's Misfits."

Dr. Taylor explained at the very start that he was not speaking on society's unit, but on society's misfits. "The story of society's misfits is the story of those who are out of step with the dominant and dominating modes of behavior and thought of the age in which they are by necessity a physical part," said Dr. Taylor in opening the discussion. He explained that neighborhoods or communities must maintain a degree of unity among its members. He went on to explain that the cosmic universe and biological life maintain a degree of unity, and that the human group had no such simple laws of unity. The results are their many discords and many individuals who are out of harmony, according to Dr. Taylor.

"There is both tragedy and promise in the existence of society's misfits. We always have had them, and—Continued on page 3.

RED FIELD IS SCENE OF ANOTHER CAP BURNING

Annual Event Is Held on Red Field With Appropriate Ceremonies

History repeated itself once again Tuesday night on Red Field when the freshman class saw their "little red caps" go up in smoke, much to their delight. Every year preceding the installation of new officers, this happy event is held with appropriate ceremonies.

The entire freshman class, with the exception of a few truants who had good excuses, thronged to Pullen Hall at six-thirty. There their names were alphabetically called and each required to mount the rostrum and deposit a part of a cap in the waiting barrel. Two hours were needed to collect all the caps from many freshmen, who were anxious to get rid of this identification mark.

At eight-thirty the entire class made a rush to Red Field, each having a load of wood, some even carrying large mortar boards and sills. After all the wood had been placed in a large pile the barrel of caps was placed on top, a match was placed to the shavings, and flames burst forth. Almost simultaneously burst forth the cries of the happy freshmen.

As soon as the fire began to light up the surroundings the freshmen gave several yells, led by the sophomore cheer-leaders, Garibaldi and McCall. One yell was given for the class of '31, and one for the "sophes," to show that they had agreed to bury the hatchet. Then came a snake dance.

A large crowd of upperclassmen were present to witness the joy displayed by the freshmen, also a group of people, including members of the faculty with their families and other out-of-town people.

After the snake dance the crowd quickly dispersed.

C. S. Tucker, U. G. Hodgkin, and A. R. Marley had charge of the ceremony, with Chaplin, Garibaldi, and McCall as assistants.

BEST DRESSED MAN ON STATE CAMPUS

P. W. "DOC" ELAM

P. W. "Doc" Elam, of Statesville, was voted the best dressed man on the campus as a result of a vote of the student body sponsored by Huncy-cutt's London Shop. "Doc" is a member of the Pi Kappa Alpha fraternity and is a junior in the School of Science and Business.

The contest has been in progress for more than two weeks, and ended Friday. Winner Kilgore of Norfolk, Va., and Joe Cobb of Lancaster, S. C. were runners-up in the contest.

Elam was awarded a complete outfit of clothing through the courtesy of W. O. Huncy-cutt, proprietor of the London Shop.

STATE TRACK TEAM TAKES FIRST MEET OF YEAR BY 73-53

The N. C. State tracksters won a signal victory over the Davidson track men last Saturday by a 73-53 score.

The teams halved the first places, but the Techs were stronger in the seconds and thirds.

The Wildcat cinder men took high honors in the first seven events, but in the next five the Techs got five first and five seconds.

Young of State and Whittle of Davidson took off high scoring honors with 11 points each. Brimley of State and Currie of Davidson were right on their heels with 10 markers to their credit.

The summaries follow:
100-yard dash: Currie (D.) first, Whittle (D.), Koontz (S.). Time, 10 seconds. —Continued on page 4.

State Graduate Gets High Honor As Railway Head

W. D. Faucette, of the class of 1921, now chief engineer of the Seaboard Air Line Railway, at Savannah, Ga., was elected president of the American Railway Engineering Association on March 6 at the time of the twenty-ninth annual meeting held in Chicago. Mr. Faucette received the highest tribute that can be paid one of their number by the railway engineers of the country.

This is a distinct honor to Mr. Faucette and the Seaboard Railway. In the years that he has been with the Seaboard he has been successfully assistant engineer in the chief engineer's department, engineering assistant to the president in New York, and also chief engineer.

Mr. Faucette received his Bachelor's degree in civil engineering here in 1921, and received a C.E. degree in 1920.

OFFICERS INSPECT R. O. T. C. REGIMENT FOR HIGHER RATING

Seek Distinguished Rating in Military Training For Local Unit

PARADE ON RED FIELD CLIMAX OF INSPECTION

Lieut.-Col. Henry C. Merriam and Maj. William J. McCaughey Observe Drill and Military Classes—Outcome of Inspection Not To Be Known for a Month.

The State College R.O.T.C. regiment was inspected Monday and Tuesday by Lieutenant-Colonel Henry C. Merriam, General Staff Corps Area, and Major William J. McCaughey, Ninth Infantry, Fort Monrille, for the purpose of deciding whether or not State College will secure distinguished rating in military training.

The inspection began Monday morning with all the military classes being visited and inspected by the visiting officers. On the class the officers were privileged to ask the students any questions relating to previous work. On the drill field the three battalions were closely inspected as to appearance, discipline, and maneuvering.

Tuesday the same routine was followed, reaching a climax with the parade held on Red Field with the inspecting officers observing each unit closely. The entire army passed in review and besides the officers there were present a number of the members of the faculty, their families and friends, and other people from the city.

Lieutenant-Colonel Merriam and Major McCaughey are visiting a number of military colleges and prep schools for the purpose of awarding them distinguished military rating. Only a few schools will be able to make the grade, due to the rigid requirements.

Major Early says he believes State College stands a better chance than ever before to be ranked as a distinguished military college. The outcome of the inspection will not be known for at least a month yet.

Orders for senior invitations must be placed with C. A. Hendon, Bill Metts, or B. B. Howard before April 15.

State Nine Loses Second Event To Maryland, 10-6

Both Teams Get Seven Hits, But Maryland Made Ten Runs to Win Contest

The University of Maryland Old Liners invaded Riddick Field yesterday afternoon and went off with the long end of a 10-6 score at the end of an 8-inning contest, which was called by agreement.

Credit for the visitors' victory went to George Phipps, a lanky youngster, who went to the mound to relieve De Marco, who had passed Outen and let McDowall hit a double before he found his stride.

The fourth inning found the score tied at four-all. A homer by Eatman, State catcher, and a double by Wilson, of Maryland, featured the early inning plays.

The work of the Old Limer chunker was equaled by that of Eatman, State, who performed behind the bat for the Techs in his first season's varsity play. His catching was up to the best and his pegs to second made the invading base runners "keep away." At bat he starred, getting a homer, two doubles, and a single out of as many times to the plate.

Leschinsky, Maryland, did the best for his team, getting a homer into the left-field bleachers in the fifth inning with two men on the paths, and figured in the final straw that sent Allgood, State's star hurler, to the bench.

Afield, Kessler, Old Limer center-fielder, robbed Albright of a would-be Texas leaguer in the eighth inning, when he raced into left field

GOVERNOR AL. SMITH

Received plurality in straw vote here Tuesday.

DEAN NELSON SAYS TEXTILE INSTITUTE WAS BIG SUCCESS

"The Textile Institute which was held at the N. C. State Textile School March 27, 28, and 29, proved to be a great success," said Dean Nelson.

The first two and a half days were given over to lectures by prominent mill men.

The textile men who participated in the institute were L. L. Langley, chief cost accountant, Consolidated Textile Corporation, Lynchburg, Va.; W. S. Dean, cotton buyer, Roanoke Mills and Rosemary Manufacturing Company, Roanoke Rapids; Dr. W. R. Catheart, technical director, Corn Products Refining Company, New York; H. M. Hunter, purchasing agent, Prximity, White Oak, and other mills, Greensboro; William B. Hodge, vice-president Parks-Cramer Company, Charlotte; John T. Holmes, southern office Celanese Corporation, Charlotte; E. C. Morse, chairman New Uses Section, Cotton Textile Institute, New York.

Thursday afternoon, March 29, was given to an exposition of the Textile School and a style show. The dresses were made of cloth designed and woven by students in the Textile School. Miss Anna Bell Noel, of Dunn, a student at Meredith, won first prize for the most attractively made dress in the style show. Miss Beulah Byrd, of Broadway, won second place, and Miss Jane Griffin, of Raleigh, was awarded third place. Honorary mention was given to Misses Byrd, Green, and Louise Craven, of Greensboro. Each continued on page 4.

Straw Vote Gives Smith a Plurality At State College

ENGINEER OF NEW YORK EDISON CO. SPEAKS HERE

George A. Orrak, Consulting Engineer of International Prominence, Talks to Mechanicals

Mr. George A. Orrak, consulting engineer of the New York Edison Company and internationally known engineer on the subject of power plants, spoke before the mechanical engineering students March 25 in Page Hall.

In his talk Mr. Orrak traced the development of steam power plants from the old reciprocating engine units to the modern turbo-generator sets. He brought out the fact that England used seven and a half million kilowatt hours a year, which is a little less than the amount used by the city of New York.

In discussing this phase of the subject the speaker showed the economic relations involved and pointed out that the wages of the employees was about proportional to the amount of horsepower available.

Mr. Orrak states that the South was particularly fortunate in the respect of natural power sources, but that all of them have been developed that could be at a reasonable cost. Therefore, in the future, with the increase of power, steam stations must be built to take care of increased consumption.

Glee Club and Orchestra Make Successful Tour

The Glee Club and Orchestra of N. C. State College returned to Raleigh Saturday morning, after completing what has proved to be the most successful tour ever made by the two musical organizations.

The tour opened at St. Pauls Tuesday night, playing to a packed house. Many encores were necessary to satisfy the appreciative audience. After the concert the club was given a reception and dance at the home of Dr. and Mrs. J. F. Nash.

Playing at Raeford Wednesday night the Glee Club and Orchestra were compelled to return to the stage time and again by another large audience.

With an entirely new program this season the quartet and jazz orchestra completely carried away the packed auditorium in Aberdeen Thursday evening.

Thursday afternoon the members of the Glee Club and Orchestra enjoyed visiting the two winter resorts, Pinehurst and Southern Pines.

Friday night the last concert of the tour was given at Siler City.

The audience at this city was well pleased with the yodeling of Harry Westcott and the songs rendered by a quartet composed of Bob McCracken, Fred Fletcher, C. R. Overman, and Harry Westcott.

People who have heard many of the N. C. College Glee Clubs complimented "Daddy" Price on having the best musical organization they have heard in years.

George M. McCowan, Jr., is president of the Orchestra, and Harry Westcott is president of the Glee Club. The successful tour was made in one of the Carolina Coach Company's comfortable buses.

"Daddy" Price, director of the two musical organizations is well pleased with the tour and he and the members of the Glee Club and Orchestra are looking forward to a bigger and better tour next fall.

POSTPONED

The second popular science lecture, scheduled for Friday night, has been postponed on account of Easter holidays. The next lecture will be a week from Friday, April 13, when Professor A. F. Greaves-Walker will speak on "The Story of Clay-Working Arts."

W. P. Albright and J. E. Moore To Run For Student President

A. B. HOLDEN OR MASON TO BE VICE-PRESIDENT

Chopin and Bass Are Candidates for Secretary—Liles or Love Will Be Treasurer—Herbert Hoover Leading Republican Candidate for President.

Al Smith received a plurality in a straw vote of students and faculty here Tuesday. The vote was taken in connection with the student primary.

The governor of New York polled 269 votes, while his closest competitors, Wood, Reed of Missouri, and Hoover of California, commanded a vote of 135 and 133 respectively.

W. P. Albright and J. E. Moore will run for president of the student body in the election to be held Friday, April 13, by virtue of their ranking in the primary. J. T. Mason and A. B. Holden won the right to go to the finals for vice-president. J. P. Chopin and E. P. Bass are still in the race for secretary, while D. M. Liles and H. G. Love will fight it out for Treasurer.

W. P. Albright, of Greensboro, is a junior in the School of Agriculture; J. E. Moore, of Lenoir, is ensconced in Vocational Education; J. T. Mason, of Greenville, is registered in Electrical Engineering; A. B. Holden, of Wilmington, is a candidate for a degree in the School of Science and Business next year; J. P. Chopin, of Winston-Salem, is registered for Poultry; E. P. Bass, of Goldsboro, is registered in Vocational Education; Liles, of Wilson Mills, is a junior in Textile Manufacturing, and H. G. Love, of Burlington, is in the School of Science and Business. All these men are candidates for a degree next year.

A coincidence in the presidential vote was the fact that every faculty member who voted for a Republican voted for Herbert Hoover. However, Al Smith was the favorite by three votes among the faculty of the college. Smith, Donahy, Reed, Walsh, and Ritchie were candidates on the Democratic ticket, while Lowden, Dawes, Hoover, Curtis, and Robinson were the Republican candidates.

All was quiet throughout the entire day, since there was no real issue, as was the case last year. A steady stream, with the exception of noon and sunset, went to the polls and cast their vote. However, approximately five hundred students failed to exercise their privilege as citizens of the college community.

On Friday, April 13, the final vote will be taken to determine the student officers for the coming year, including the editors of the Technician and Wa-ta-yan, Y.M.C.A. officers, student government officers, and winner of the Norris athletic trophy.

PLANS BEING MADE FOR N.C.C.P.A. MEET AT DUKE

Expect Meeting April 26 To Be One of the Best Ever Held

Durham, March 26—(CP)—Plans are now being matured for the fifteenth semi-annual meeting of the North Carolina College Press Association, which will convene at Duke University on April 26 and continue for three days. Committees have been appointed, and it is expected that a complete program will be announced by the middle of April. The program is entirely in the hands of B. B. Carstarphen, editor of the Archivist, and J. N. Truesdale, editor of the Chanticleer, is arranging the social events.

Editors of newspapers have been notified to mail their files to the Winston-Salem Journal, which offers a cup for the best newspapers, and the six most representative editorials are to be sent to Miss Frances G. Gibson, of N.C.C.W., to be judged by the Greensboro Daily News.

Wise and Unwise

Hang the reporter!

A news reporter on a modern daily is inefficiency personified. He gets everything messed up. He goes to report a speech and imagines he is sitting on the grandstands at a baseball game. There is no acceptable reason why he should make such a mess of his job.

Every speaker plans and delivers his speech for the convenience of the reporter. How glad is every speaker to show the newspaper man a copy of his address, explaining in detail, if explanation be necessary. However, in this day when every speech delivered is as scientifically constructed as a skyscraper it is true that even the any explanation.

A reporter goes to a fire. Acting like a madman he rushes about inquiring: "Whose house? What is the extent of the damage?" How perfectly absurd. He should know that the house belongs to Mr. Jones, and the damage is \$5,000. Then after everyone, including the owner, has given him a different version of the fire, he goes to the office and misspells the owner's name and overestimates the damage done. How absurd!

It is not everyone that works under the ideal conditions of the reporter. His is the path of least resistance. Everyone, not barring the city edi-

tor, is willing to help him. He is furnished a car, a pencil, and a pad. All he has to do is ride around to Professor Jones and get his notes on a forthcoming speech and he has a story that will make the city editor pull off his glasses in admiration.

The reporter's assignments are always posted on his office door. He knows several days in advance what he is expected to contribute to the make-up of a certain issue of the paper. Time and routine schedule are his middle name. Still he makes mistakes. Of course doctors, lawyers, and even judges make mistakes. But their case is different.

The high salary of the reporter is another thing I may mention. The war is over, and with it profiteering. Why doesn't the government appoint a commission to investigate the high salaries made by reporters? They are grafters on the public's generosity.

In China they haven't had a bank failure in over 200 years—they hang the officials of the failed bank. Why not hang the reporters for their inefficiency?

TROPHY RESULTS

As a result of the student primary Tuesday, Jack McDowell, Bob Warren, and W. A. "Chink" Outen will be the three candidates for the Norris Athletic Trophy in the final election to be held April 13.

The college assembly will meet on Wednesday, April 11. At this time all the candidates for student offices will be introduced to the student body. President Tucker urges that every student be present.

ready signed up to enter a team. Play will start immediately after the Easter holidays. Very little equipment is needed to play this game and the games may be played on different parts of the campus. A diamond may be located on the old Fair Grounds and the

fraternities housed in that area can play there. The physical education classes will go in for swimming, track, and baseball this term. At the end of the year they will stage a track meet to complete the year's program.

Paragraphics

Gone are the "little red" caps, but the freshmen must remember that they are still freshmen.

Easter vacation begins tomorrow and the thoughts of the college set turns toward home and corsages.

Al Smith is the man, according to a vote taken here Tuesday among the students and faculty members.

Judging from the numerous congratulatory remarks that has been made about the All-Fools Technician it is believed it served its purpose.

There is one great advantage in a college being denominational and that is it gets on the front page of the newspapers more often than state institutions when there is an issue.

The political situation is warming up among the politicians of the campus. A number that almost approached that of last year registered and voted in the primary; however, the others should take advantage of their opportunity as citizens of a college community and vote. You'll have to hand it to the Engineers that they stimulated the interest in students elections here last year and the greater part of that stimuli has been carried over till this year.

A MINOR FACTOR

Elections at this college are minus one political factor, and that is an issue each year. This has been the case for the past few years, with the exception of the year, when there was a real issue and as a result the student body evinced more interest in campus politics than ever before in the history of the college.

In years gone by men were nominated for office, a few men on the campus took an interest in the political situation and capitalized it and put into office those men which they favored.

Although it is a policy of the 1928 candidates for national offices to remain silent, we believe that it is for the best interests of the college that each candidate for office have a platform which he will be expected to carry out if put into office.

It would be an utter impossibility to have a student election under these conditions, without a big political battle and that is what is most needed at the present time.

The student body should resolve itself into at least two political factions. This could be accomplished by the candidates making known to the student body what they expected to do while in office. If such a plan were adopted it would not be necessary to urge students to vote. School antagonism should by all means never be allowed to enter into campus elections.

In succeeding primaries and elections we hope to see "stump" speeches made and platforms drawn up. It is believed that such a plan will eliminate underhanded politics and make them public, which will be for the best interests of the college and student body.

not a bark in a bowl-ful!
(and of course, "not a cough in a carload")

Still another leading tobacconist in Raleigh, N. C., says:

"The growth of OLD GOLD Cigarettes' popularity here has been amazing to me, but what interests me most is the way students stick to the brand after they start smoking it. OLD GOLD smokers don't switch."

C. Rhodes, Prop.

College Court Pharmacy
At College Court—Opp. the Campus

AT LEADING COLLEGES.. This is an Old Gold year

For a most refreshing change:

"Follow your friends and smoke this smoother and better cigarette"

"Wolf Fangs," the second of a series of fascinating dog stories, written for Fox Films to star "Thunder," the champion Police Dog, comes to the Palace Theatre Saturday. Thunder is supported by a complete canine cast as well as an exceptional human one in this story, a gripping tale of the life on the open ranges

of the North. Charles Morton and Caryl Lincoln have the human leads. —A.A.R.—
Said to be one of the most dramatic pictures produced in years, "Chicago," a De Mille screen version of Maurice Watkins' successful stage play, will be shown at the Palace Theatre on Monday, Tuesday, and Wednesday next. Phyllis Haver and Victor Varconi are featured in the principal rôles.

—A.A.R.—
"Anna Karenina," Tolstol's famous novel, which formed the basis of Metro-Goldwyn-Mayer's "Love," coming Wednesday and Thursday to the State Theatre, is not only one of the

most read books in the world, but, as a stage play, has furnished a vehicle for many famous stars.

—A.A.R.—
Leatrice Joy's latest star vehicle, "The Angel of Broadway," will be received with every manifestation of approval by large audiences at the State Theatre Monday and Tuesday, with five fine acts of Keith Vaudeville. Presenting in an admirable manner scenes and characters in a gay night club in New York and affording contrasting views of life in a Salvation Army Mission, this De Mille production is one of the finest type.

—A.A.R.—
Everyone who has walked up to the cashier's desk in a restaurant, only to discover the ever-needed pocketbook has been left at home, will sympathize with Larry Kent, in Colleen Moore's new First National feature, "Her Wild Oat," coming Wednesday and Thursday to the Superba Theatre.

—A.A.R.—
In one respect, at least, the rôle of "Helen of Troy" is an impossible one to enact.

So declares Maria Corda, noted European dancer and actress, who is introduced to the American screen in the title rôle of First National's spectacular picturization of "The Private Life of Helen of Troy," coming to the Superba Theatre on Monday and Tuesday.

"Helen has always been accepted as the ideal—the epitome of beauty," Miss Corda says. "From our earliest schooldays we have read and studied of Helen and her matchless beauty."

"Consequently it is impossible for any woman to play the rôle of Helen in an entirely satisfactory manner."

—A.A.R.—
If you were clean broke, without a dollar to your name, and you found yourself the sole protector of a four-year-old child, what would you do? See Buffalo Bill, Jr., in the thunderbolt thriller, "Speedy Spurs," and figure out just how Bill ought to go about it. He will appear at the Superba Theatre next Friday and Saturday.

Dr. Taylor Makes First of Popular Science Lectures

(Continued from page 1)
always should have them," said Dr. Taylor in the second main topic of his speech. He explained that if he were discussing the unit that he would talk about the criminals, the mentally deficient, the insane, and the paupers. "But some of society's misfits are her most valuable members. They are superior to the normal run of persons as the normal person is superior to the moron. The misfits are those who are deficient and those who have launched out ahead of the others," continued Dr. Taylor. Societies get their unity by cooperation among their members; social unities are model unities, never dead uniformities such as are characteristic of machines.

Dr. Taylor took up the examples of historic adaptations and utilizations of human beings. Along this line he discussed "man" from the Trilini man, living 500,000 years ago, to the present-day man who has only been on the earth possibly 25,000 years, giving the years each stage was present on earth. There were four groups. He told of the ancient civilizations and said that any of them would be a misfit in the present time. He drew four conclusions on the misfits of great races and civilizations of the past. The chief of those was that primitive man had to learn to live in harmony with the physical environment.

Society's misfits are almost wholly made up of those who lag behind or those who desire to move faster than the pace of the masses. "Those who lag behind are the defective, the dependent, and the delinquent members of the group. Those who lead too fast are the radicals, the agitators, sometimes the inventors, the discov-

SKILL

THE twist of the wrist, the "throw" of the arm, the shifting of the weight—these are among the many little points which make the skill that you admire in the javelin thrower as he hurls the shaft two hundred feet or more.

As on the track or the football field, in the gymnasium or on the water, so in industry progress is the result of fine improvements—a thousandth

of an inch here—a minute variation in a curve there—slight changes foreseen by engineers and carried out by skilled workmen.

It is this attention to detail that is constantly improving General Electric apparatus and contributing to the electrical industry, which, though still young, is already a dominant force, increasing profit and promoting success in every walk of life.

Whether you find this monogram on an electric refrigerator for the home or on a 200,000-horsepower turbine-generator for a power station, you can be sure that it stands for skilled engineering and high manufacturing quality.

GENERAL ELECTRIC
GENERAL ELECTRIC COMPANY, SCHENECTADY, NEW YORK

ers, the scientists, artists and geniuses," said Dr. Taylor.

Institutional or social misfits was the next main issue taken up by Dr. Taylor. Under this head the speaker discussed the institutional misfits, saying that our present gamut of social institutions—schools, churches, governments, etc.—are not God-given. "They are co-adaptations of men in their struggle for existence, crystallized, incrustated, stultified forms of human cooperation," said Dr. Taylor. He then discussed the social forms, customs, traditions, creeds, and constitutions and said that they are the symbols and essence of our present social unity.

"The more rapidly social institutions change the greater is the number who can't keep pace. They become misfit not because they are different in and of themselves, but because they lag behind the new ways of life," said Dr. Taylor in concluding this section of the speech.

In a general conclusion, Dr. Taylor informed the audience that if "we all

tuned in perfectly on things as they are life would be such a uniformity of behavior and thinking that it would get on the nerves of the most conservative."

"My final conclusion is that every-thing approaching an understanding

of the processes I have attempted to depict should leave intelligent persons with a broad tolerance for the misfits who are out in front and an intelligent sympathy for those who get caught in the new machinery of society," said Dean Taylor.

SOCIAL ACTIVITIES

Fraternity Dances in Durham
Durham will be a center of interest this week to members of the younger set of the Capital City and State College students, as it is the first to open the series of entertainments to be given during the Easter season.

Duke University will be host during the week with several of its fraternities entertaining at dances. Wednesday evening, from 9:00 until 1:00 o'clock, the Sigma Phi Epsilon fraternity of Duke University will entertain at a dance at the Washington-Duke Hotel. Thursday afternoon

from 4:00 until 7:00 o'clock the Alpha Tau Omega fraternity of Duke will give a dance, and will be followed in the evening at the Washington-Duke by a dance given by the Kappa Sigma fraternity. The series of dances will come to a close Friday evening, when the Lambda Chi Alpha fraternity entertains.

A number of boys and girls from the city will attend the dances.

Sigma Nu House Party
The Sigma Nu fraternity will present an enjoyable program to the following girls during the Easter dances: Misses Isabelle Dunn, Kingston; Jule Fowler, Stateville; Sara Kincaid, Stateville; Sallie Levister, Stateville; Mary Lynn Giles, Chapel Hill; Katherine Clayton, Asheville; Eva Hackney, Washington; Sybil Flowers, Durham; Mary Love White, Greenville; Nan Godley, Savannah; Barbara Wheeler, New York, and a number of Raleigh girls.

Kappa Sigma House Party
The Kappa Sigma fraternity will entertain at a house party during Easter at their home on Enterprise Street, with the following girls present: Misses Argie Ray Bryant, Orangeburg, S. C.; Elizabeth Lee, Baltimore, Md.; Elaine Goode, Rocky Mount; Mary Gardner, Rocky Mount; Eva Weldons, Smithfield; Elizabeth Glasscock, Greensboro, and Evelyn Jonson, Converse.

Easter Egg Hunt
The Prowlers of North Carolina State College will give their annual Easter Egg Hunt at Hubert Jones' farm Monday. A prize will be given to the boy and girl that lead in the Easter Egg Hunt. The following boys will participate in this, with many fair ones from o'er the country accompanying them: Pop Williams, Ray Arthur, Dick Telfair, Karl Kooz, "Sophie" Merritt, Bill Ward, Kenneth Byers, Allen Smith, and others.

Colonial Dames Dance
A dance that will be of universal interest, not only in the Capital City, but in the state, is to be given by the Colonial Dames of Wake County in the City Auditorium on the evening of Friday, April 13, to raise funds for the purchase of the Lane House. There will be ample entertainment, with historical pageants and with intermissions of fancy dancing, which will be given in the early part of the evening. Costumes will be worn by those taking part in the pageant and colonial figure, while the dancers are not requested to wear costumes.

The following girls will represent the different counties: Misses Eta Cates, Washington; Betsy Warren, New Bern; Eleanor Lily, Fayetteville; Emily Pemberton, Durham; Daisy Cooper, Oxford; Hulda Hardy, Kingston; Margaret Montgomery, Charlotte; Charlotte Thorpe, Rocky Mount; Elizabeth Rose, Henderson; Sara Busbee, Raleigh; Annie Battle Miller, Goldsboro; Elizabeth Parsley, Wilmington.

Marshals will be invited from various towns of the state and are young debutantes.

State Nine Loses Second Event To Maryland, 10-6

(Continued from page 1)

North Carolina, Virginia, or Maryland, will be Tri-State League games.

Dean Nelson Says Textile Institute Was Big Success

(Continued from page 1)

testant made two dresses, one of which was worn by a friend.

The annual textile banquet Thursday night in the college hall concluded the exposition. Major C. C. Early, commandant of the R.O.T.C. at State College, was toastmaster, and E. C. Morse, of the Cotton Textile Institute, New York, made the principal address.

"The textile industry has lots to do

to help itself," said Mr. Morse. He commended the designing of the students and the cooperation of the Meredith young ladies in their efforts to get cotton accepted again in other than the house-dress class.

Brief talks were made by Joe Cobb, superintendent of the student textile exhibition, and the following alumni of the Textile School: I. L. Langley, of Lynchburg, Va.; G. W. Bowers, Lexington; John Cosby, C. L. Leigh, L. C. Atkinson, W. M. Long, and Mike Stough.

Some call it mellowness . . .

SOME say that Camel is the mellowest cigarette ever made. Some that it's mild and smooth. It's really all good things in one, and that is why it is supreme upon the pinnacle of modern favor. Camel's popularity today is the largest that any cigarette ever had.

And, it costs something to make this kind of a smoke. It costs the choicest tobaccos that money can buy, and a blending that spares neither time nor expense. Each Camel cigarette is as full of value as the world of tobacco can give.

You can be sure of smoking pleasure, serene and full, in these quality cigarettes. Smoke all of them you want; they simply never tire the taste.

“Have a Camel!”

R. J. REYNOLDS TOBACCO COMPANY, WINSTON-SALEM, N. C.
