STATE COLLEGE SUMMER SESSION BEGINS JUNE 11

Wide Variety of Courses To Be Offered This Year

PLAN SPECIAL WORK FOR HIGH SCHOOL TEACHERS

Instruction Includes Usual Technical Courses and Additional Courses in Liberal Arts Field—Dr. J. Henry Highsmith and Professor Pruitt of Columbia University Among the Faculty Members.

State College Summer School, June 11-July 22, offers a wide variety of courses which should appeal not only to the thousands of high school teachers and principals in North Carolina, but to college students, also, who wish to take advantage of these six weeks to get off some of their college work.

Practically all the departments of the college offer subject-matter courses during the summer. Students who wish to shorten their period of college work may attend summer school and get off at least nine term hours each summer. A mature, bright student can, by attending four summers and three regular sessions—attaining points sufficient to justify taking some extra work—graduate in three regular sessions and four summers.

Then, too, the summer school offers a real opportunity for the student who may be irregular or behind with his work.

The courses in the physical sciences, botany, chemistry, and physics are offered not only for the benefit of college students, but from State College and other colleges, but also that the science teachers may get the benefit of the excellent equipment and instruction at State College along with their courses in methods of science teaching.

New courses offered this summer include two courses in pottery by the ceramics department, two courses in surveying by the civil engineering department, and a course in advanced English grammar.

The instruction to be offered in the summer session of 1928 has been considerably broadened, particularly by the offering of additional courses in the liberal arts field. In addition to the usual technical courses, there will be advanced courses in the field of education, dealing with philosophy, history of education, and psychology. Dr. J. Henry Highsmith, state supervisor of high schools, will have charge of the general courses for high school principals and teachers. Professor Clarence M. Pruitt, of Teachers College, Columbia University—Continued on page 2.

VICK MEYERS' ORCHESTRA ENGAGED FOR FINALS

Furnished Music Here For Easter Dances and Finals In 1925

Vick Meyers and his Columbia Recording Orchestra have been engaged by the Pan-Hellenic Council to play for the final dances here in June. These dances will be held in the Frank Thompson gymnasium on June 1, 2, and 4.

This orchestra is one of the favorites of the South, and furnished excellent music here for the Easter dances and finals in 1925. Immediately after playing their engagement here the orchestra will leave for Europe on the S. S. Leviathan. They broadcast several nights a week from Station WSB at Atlanta.

The dances will start with a tea dance on Friday afternoon, the first, and will close with the last one on Monday night. The other dances will come on Friday night, Saturday morning, Saturday night, and Monday morning. The dancers will have Sunday for a day of rest.

Many fraternities are planning house parties and feeds during the week of finals.

Owen In Cleveland For Registrars' Annual Meet

E. B. Owen, registrar of the college, left Tuesday to attend the annual meeting of the American Association of Collegiate Registrars, to be held at Cleveland, Ohio.

This association meets yearly in different parts of the United States to discuss the various things that come up each year in the college registrar's field. This year one of the main topics of discussion is to be some method of helping to eliminate to a certain extent the large number of freshmen falling out from the colleges of the country every year after attending for perhaps a month or so. Mr. Owen has been compiling some data along this line here at State College, and has been making some investigations as to some methods that would help the conditions here.

This is the second time that Mr. Owen has attended this meeting, as he went to it last year in Atlanta.

PRESIDENT STUDENT BODY

W. P. ALBRIGHT

R.O.T.C. PARADE DAY CHANGED TO MONDAY BY MAJOR EARLY

Change Made in Order to Allow Typhoid Vaccination on Thursdays

The weekly military parade put on by the R. O. T. C. of State College has been changed from Thursday to Monday at the regular drill hour, from 12 till 1. It has been announced that this change may be only temporary, but it is known for sure that the present arrangement will continue for at least three weeks. The first Monday parade was held April 16 on "Red" field, when the Hon. Josephus Daniels reviewed the regiment.

The parade Monday, April 23, will be reviewed by Governor A. W. McLean.

This change in parade day has been made in order that those students who are going to camp this summer may be vaccinated for typhoid fever. Dr. Campbell found it best and most suitable to give the vaccination, which consists of three separate treatments, every Thursday at 12 o'clock. If the parade day is changed back to the original day, Thursday, it will be announced later.

FACULTY CLUB RECEIVES CHECKER TABLE AS GIFT OF WOODSHOP FORCE

Members of State College Faculty Club can now play checkers all the time if they desire, since the woodshop this week presented them with a fine checker table.

The table was made by Ralph Wooten, the shop furnishing the materials. And the shop personnel is hoping the faculty will enjoy their checker games when they cannot be disturbed.

There is fine workmanship in the table. The border is in mahogany finish and the center or checkers are natural finish. Individual blocks of walnut and maple were used for the squares and around them is a small band of walnut.

JUNIORS

There will be a Junior Class meeting in Pullen Hall Tuesday, April 24, at 6:30, for the election of senior officers for next year.

TECHNICIAN FINANCIER

J. T. STEPHENSON

EXPERIMENT STATION CELEBRATES BIRTHDAY

Pageant Given As Part of Program on Fiftieth Anniversary

The fiftieth anniversary of the North Carolina Agricultural Experiment Station was celebrated at State College Thursday, April 19.

The program consisted of three big events. The first was a meeting in the Y. M. C. A. auditorium at 10:30 in the morning, the next was luncheon in the dining hall at 1:15, and the last a pageant in the Y. M. C. A. auditorium.

Dr. C. H. Dabney and Dr. H. B. Battle, second and third directors of the station, addressed the first meeting. After the invocation by Dr. W. A. Stanbury, Dr. R. Y. Winters, present director, presided over the meeting. Dr. E. C. Brooks welcomed the visitors and experimental workers from this state and other states, and Hon. W. A. Graham extended greetings. Both former directors spoke on the beginnings and early history of the station.

The station owes its existence to the investigation of some prominent men at Chapel Hill in 1887, such as President Kemp P. Battle, Col. J. M. Heck, and others. The first station was located at Chapel Hill, but was later moved to Raleigh.

Luncheon was presided over by Dr. Z. P. Metcalf, head of the zoology department of the college. I. O. Schaub made the principal speech, after many greetings by visitors from other states and the president of the other colleges and the State University.

There were many distinguished men present who did not speak, but were asked to stand and be recognized.

The pageant in the "Y" auditorium followed the luncheon. It depicted the committee meeting that instigated legislation for establishing the station. Men from the college acted the parts under the direction of Professors Ray and Cunningham of the English department. Below are the men and whom they represent:

Pres. Kemp P. Battle.....F. H. Jeter
Prof. W. C. Kerr.....G. W. Forster
Prof. A. F. Redd.....R. H. Ruffner
Col. L. L. Polk.....C. C. Taylor
Capt. C. B. Benson.....L. G. Williams
Gen. R. F. Hoke.....L. O. Schaub
Dr. Columbus Mills.....O. F. McCrary
Col. J. M. Heck.....F. W. Sherwood
Music was furnished for the occasion by Major P. W. Price and the college orchestra and quartet.

Tebell In New York City For Conference On Basketball Rules

Gus Tebell, head coach of athletics at N. C. State College, is attending a meeting of the National Basketball Rule Committee at the University Club in New York City.

The committee is composed of the leading basketball coaches of America. St. John, coach of Ohio State, is chairman of this committee, which is meeting to go over the rules of basketball and add new ones for use next season.

Gus Tebell is a former Wisconsin football, basketball, and baseball star. He played basketball for Wisconsin for four years and captained his team during his senior year. He was often mentioned in western newspapers as being one of the outstanding basketball players in America. As yet, Gus Tebell's basketball team has never won the Southern Conference title, but has often been a runner-up in the finals. Year before last his team won the state championship.

PRESIDENT Y.M.C.A.

J. E. MOORE

PHI KAPPA PHI TAKES 24 MEN WEDNESDAY

Dr. Charles W. Dabney, One of Founders, Speaks At Initiation Dinner

Wednesday night saw an increase by 24 of the members of the State College chapter of Phi Kappa Phi, national honorary society, when initiations of the winter and spring terms were combined to bring the total membership of the society up to 79.

Dr. Charles W. Dabney, one of the three men who organized Phi Kappa Phi Honor Society, which was founded in 1897 at the University of Maine on the basis of scholarship and character, was the principal speaker at the banquet. Dr. Dabney was president of the University of Tennessee at the time he helped organize the society, and is now the guest of the North Carolina State College Experiment Station, of which he was second director, during the period of 1880 to 1887. He was in the city especially to participate in the program celebrating the fiftieth year of the station's existence.

Dr. Dabney's address centered on some of the ideals of education and character. The society at State College has arranged a series of lectures at the college for every Friday evening at 8 o'clock, popular discussions on applied science.

Brief inauguration exercises preceded the dinner at the college Y. M. C. A. building.

The following new members were taken into the society: T. E. Browne, G. R. Snelton, and S. G. Lehman, all State College faculty members, and the following State College students: Z. B. Mangum, P. E. Moore, K. H. Brown, W. P. Phillips, J. C. Tomlinson, Luther Shaw, B. B. Howard, J. M. Dunn, O. J. Williams, D. C. Rankin, C. W. Jackson, W. A. Cox, Jr., F. M. Williams, John J. Morgan, P. E. Trevathan, D. L. Stuckey, J. W. Shuford, J. D. McColl, Chas. J. Noblin, B. A. Preslar, H. H. Rogers. Everet Brown, member of the graduating class and vice-president of the society, conducted the initiation of the twenty-four new members, which included his father, T. E. Browne.

J. Dr. Zeno P. Metcalf is president of the society, and W. A. Anderson is secretary-treasurer.

The fathers of three of the new members—K. H. Brown, F. M. Williams, and H. H. Rogers—were also members of this honor society.

Mechanicals On Inspection Trip At Newport News

Eleven mechanical engineering seniors and two members of the department left yesterday for Newport News to make an inspection of the ship-building plant there. This plant together with its dry-dock, is one of the largest in the country, and it is expected that the students will benefit much from the trip. Some of the students are contemplating working there after graduation, and they will have the opportunity of looking over their future surroundings.

While in Newport News the party will be entertained by the State College alumni chapter of that city.

The following men are making the trip: F. C. Davis, M. J. Polk, D. O. Pike, C. B. Penny, J. P. Darden, Strickland, B. A. Preslar, R. M. Rothgeb, W. F. Metts, F. B. Turner, F. H. Waters, and Professors Vaughan and Foster.

Curricula Expanded In Business School For Year 1928-29

HARRILL CHOSEN HEAD OF COLLEGE SONGSTERS FOR THE COMING YEAR

The North Carolina State College Glee Club held their final meeting Monday night, when the officers for next year were elected. The officers are as follows: President, R. H. Harrill; vice-president, Bob McCrackan; secretary, L. W. Moore; treasurer, Bob Mason; reporter of publicity, Bob Gatlin.

After the election "Dad" expressed his appreciation to the club for their cooperation with him during the past year. The quartet sang a few numbers, after which the club adjourned until next year.

EDITOR OF 1929 AGROMECK

R. P. SHAPARD

NEW STAFF WILL TAKE TECHNICIAN NEXT WEEK

Usual Custom Has Been to Let New Men Familiarize Them- selves With Work

Going into office next week, the 1928-1929 staff of The Technician will relieve this year's force after nine months of steady work. In the past it has been the custom that each new staff of men take over the paper about a month before the close of school in order that they might familiarize themselves with the cogs of newspaper machinery in their new offices.

Because of the spring meeting of the North Carolina Collegiate Press Association in Durham next week-end considerable work in advance of closing time will have to be done so those representing North Carolina State College publications can attend the meeting.

Next year's appointive offices will be held by men who in the past have shown a spirit of cooperation and who are expected to work hard in their new places.

T. A. Vernon, Sharpsburg, present sports editor and college publicity agent, will take over the duties of managing editor. Vernon has been a member of The Technician staff for three years, having worked in various positions. He assumed responsibility this year for the College News Bureau, succeeding in that place E. G. Moore, now at the University of Florida.

W. T. Garibaldi, Charlotte, will occupy the sports desk for the coming year. Garibaldi will be a junior in the engineering school next September. He was assistant sports editor—Continued on page 2.

SENIORS

There will be a very important Senior Class meeting at the Y. M. C. A. building, Saturday, April 21, at 1:15. The secretary of the General Alumni Fund will speak to the class.

Due to the fact that the chief marshal, Dan Hutchinson, will be unable to attend commencement exercises, another junior will be selected at this time to fill the vacancy.

Science and Business To Call for 24 Science Hours, Instead 27

PRE-MED OPPORTUNITIES WILL BE OFFERED HERE

Four New Groups in Business School Will Give Students Choice of Journalism, General Business, Public Administration, and Rural and Industrial Sociology.

The curricula of the School of Science and Business has been considerably revamped, effective with the year 1928-29. Four new groups will be offered in the school, which will give students a choice of majoring in Journalism, General Business, Public Administration, or Rural and Industrial Sociology. A reduction has been made for the School of Science and Business in the number of science hours required from 27 to 24, which will go into effect at the beginning of the next school year.

The School of Science and Business has grown within a period of four years to be one of the largest schools on the campus. Major requirements next year will be not less than 36 hours nor more than 69 in a major subject, and not fewer than 18 in a minor subject.

Provision has now been made for an excellent pre-medical course, as well as for students wishing to go deeper into geological work.

The old group of science has been revised, and separate science curricula appear in the new catalog for the departments of chemistry, physics, and biology. Major groups may be selected in the junior year by those wishing a degree of Bachelor of Science in any of these divisions of the science group.

The curriculum in Business Administration underwent modification to meet the growing needs of more hours of specialized training in this division, especially in the accounting group. Marketing and Banking have been changed slightly to meet the new requirements of higher specialization in those fields.

Courses offered in Industrial Management will remain about the same. Four "social sciences" will be the largest addition to the business school, and degrees for graduates in any of the divisions will read according to the group under which they have registered. Journalism, General Business, Public Administration, and Rural and Industrial Sociology will be the four new groups.

Purpose of the new division of the School is in the two objects of training men for fields in which there is definite evidence of vocational opportunity—Continued on page 2.

N. C. FARMERS RECEIVE VALUABLE INFORMATION

Books and Pamphlets on Soils and Fertilizers Are Among Those Received

The agronomy department of N. C. State College of Agriculture and Engineering is sending out to the farmers of North Carolina information which will be of great value to the farmers.

This information is on the following things:

1. Fertilizer for Important Crops of North Carolina, by C. E. Williams. This bulletin gives the different kinds of fertilizer to be used for different crops so as to get the best results possible.
2. Factors About Improved Cotton Seed for North Carolina. This gives the importance of using improved cotton seed so as to get the greatest returns.
3. Soil Acidity and Lime for North Carolina Soils. This gives the information as to how much lime to use on different soils so as to get best results in different parts of the state.
4. Standard Varieties of Corn for North Carolina—Continued on page 2.

STATE NETMEN IN STATE COLLEGIATE TOURNAMENT

Schafer and Colwell in Doubles; White and Fletcher Still in Singles

State College's newest athletic team, and that the tennis team, went into the runner-up position at the end of the first day, Thursday, of the state tennis tournament now in progress at the University of North Carolina.

The Far Heel netmen were leading at the end of the first day. They did not lose a match in either the doubles or the singles.

The State College team won runner-up position in men qualified, with two doubles and two singles matches yet to play.

The doubles play advanced to the quarter final round, and the team from State College in the race Friday was Schafer and Colwell.

Fletcher and White, of State, were still in the play at the end of the first day.

State Will Be Represented In Oratory Friday

State College will be represented in two oratorical contests Friday night.

M. C. Finch will represent State in the state oratorical contest on the constitution to be held at Duke University, High Point, Lenoir-Rhyne, Davidson, Duke, Wake Forest, and Carolina will enter the contest.

The winner will represent North Carolina in the southern regional contest to be held in Greenville, S. C., Friday, May 25.

The State Peace Oratorical contest will be held on the same night at Elon, with H. H. Rogers representing N. C. State. He will speak on "Peace Through Fellowship."

H. J. Oberholzer, of State College, won both of these contests last year.

ENROLLMENT SHOWS LOSS OF ONE HUNDRED TWENTY-FOUR FROM FIRST TERM

Enrollment at State College now shows one hundred and twenty-four men less than at the beginning last fall. The enrollment is now 1,323, against 1,447 at the first of the year. The present enrollment is composed of 517 freshmen, 338 sophomores, 204 juniors, 129 seniors, 43 graduates, 39 specials, and 3 two-year men.

Registrar Owen has compiled some interesting data concerning these men who have fallen out. One hundred and sixty men dropped out between fall and winter quarters; of these forty-four were asked to leave because of failure in work. The largest loss was from the freshman class, which had a loss of eighty-four, and the smallest was from the senior class, with a loss of seven. Fifty-five men dropped out between the winter and spring quarters.

Loss from the schools very well divided considering the number enrolled in the different schools. The Engineering School shows the largest loss of any, which began the winter term with sixty men less than it had in the fall. Every department in every school sustained the loss of at least one man. The Department of Business Administration in the School of Science and Business, with a loss of twenty-nine for the fall term, shows the greatest loss of any department.

The total loss for both the fall and winter terms was two hundred and fifteen, but enough new men have been added to the roll during that time to bring the loss down to one hundred and twenty-four.

FRESHMAN FRIENDSHIP COUNCIL PLAN TO HOLD ANNUAL OUTING SUNDAY

The Freshman Friendship Council will hold their annual spring picnic at Lassiter's Mill Sunday afternoon. This occasion is always an enjoyable one, and this year it promises to be of more interest and pleasure to those attending than ever before.

There will be approximately fifty boys in attendance and those in charge have chartered special street cars to take the party out. Supper will consist of roasted wieners, toasted marshmallows, sandwiches, drinks, and other appetizing articles. Part of the time will be devoted to the enjoyment of playground games and stunts. The music committee is preparing a very good musical program, so there will be nothing lacking that goes toward the having of a good time on such occasions.

After the eats and fun have been dispensed with there will be a short business meeting for the purpose of electing officers. The men elected will serve for the rest of this school year and will be the men who will sponsor the organization among next year's freshmen and see that they are properly welcomed to the college at registration time next fall.

They were having a soda when her straw broke. She said to the clerk: "My sucker is broken." "Gosh ding it!" said her escort. "how did you know it?"

NOTICE

Beginning Tuesday, April 24, all freshmen taking rifle marksmanship should report to the range for firing at the following times:
 Tuesday—2 to 5.
 Wednesday—9 to 11.
 Thursday—2 to 5.
 Friday—9 to 1.
 Saturday—9 to 1.
 CAPT. WM. R. WATSON.

State College Summer Session Begins June 11

(Continued from page 1)
 versity, will offer special work for teachers.

One of the features of the summer session will be the County Government Institute, which is to be held for two weeks during the month of July. The purpose of this institute is for the instruction of county officials, and others interested in county government, in the administration of fiscal affairs. The institute will be conducted by the County Government Advisory Commission. The course of instruction will include preparation of budget, closing of accounts, practical application of the laws. In-

struction will be given by Charles M. Johnson and W. Ewart Easterling, C.P.A.

The March issue of the State College Record contains a list of all the courses which will be given during the summer session and other information which would be useful to prospective applicants.

Curricula Expanded in Business School for Year 1928-29

(Continued from page 1)
 opportunity and to offer groups of courses with a minimum major requirement, a strong minor, and possibility of liberal choice of electives.

County government acts, the managerial form of government of municipalities as they stand at present created need of the courses to be offered in Public Administration to fit men for work in offices of federal, state, and local government.

Journalism will remain in the English department as a vocational major. Dean B. F. Brown, Science and Business head, will serve as vocational adviser of the general business and the public administration groups.

The department of sociology will take under its wing administration of the new group in Rural and Industrial Sociology. Students interested in entering any of the new groups next year are asked by the

faculty council to see the vocational adviser of each division.

A course in Real Estate that will give training in elementary surveying, designing, mechanics, economics, land appraisal, and subjects of a related nature is now offered. Although this course has been turned over to the School of Science and Business, certain related subjects will be taught by the civil engineering departments.

N. C. Farmers Receive Valuable Information

(Continued from page 1)
 the Mountain, Piedmont, and Coastal Plain Regions of North Carolina, by G. M. Garren. This one tells what variety of corn to use for different sections so as to get the greatest returns.

5. Use of Commercial Fertilizers by North Carolina Farmers, by C. B. Williams. This emphasizes the value of using commercial fertilizers in North Carolina.

6. Crops and Their Highest Yielding Varieties and Strains for Different Sections of North Carolina, by C. B. Williams.

7. Identification of North Carolina Soil Types, by Wm. Battle Cobb. This one tells how to identify the different types of soils of North Carolina.

8. Results of Cotton Spacing Experiments and Recommendations, by

P. H. Kime. This one enumerates the advantages and disadvantages of putting cotton further apart and when best to put it some distance apart.

9. Methods of Mixing and Using Concrete on the Farm, by D. S. Weaver. Here is a story on how to mix concrete to the best advantage and just how and where to use it.

10. Farm Home Water Supply Systems, by D. S. Weaver. This one explains just how to have a farm home water supply system of great help to the farm home, but still would cost very little.

New Staff Will Take Technician Next Week

(Continued from page 1)
 this year, as well as cheer leader for the college contests.

K. K. Koontz, Raleigh, once again heads the society column. For the past year he has kept up with social activities on the campus and in Raleigh with unusual regularity. He finishes next year in engineering.

H. B. Merriam, Greenville, S. C.,

will be exchange editor next year. He is registered in the School of Science and Business.

T. G. Smith succeeds Jeff C. Davis as circulation manager. For four years Davis has held down the job of seeing that The Technician goes to its subscribers. Smith is from New Bern and will be a junior in the engineering school.

E. W. Buchanan, Spruce Pine, will take over the duties of the new office of news editor. He will be a junior in science and business and has been active in college debating this year. The new office will entail considerable work in keeping in touch with happenings about the campus and will probably require a good bit of time on the part of the man in office.

Several of the men in office this year are seniors and their vacancies will have to be filled later on.

Members of Phi Theta will meet in the "Y" Thursday, April 26, at 6:30, for the election of officers and the bidding of new men. All members are urged to be present. PRESIDENT.

State, Clemson and V.P.I. Clash Today In Triangular Meet

Three Conference Men With Records To Exhibit

OSBORN WILL GIVE HIGH JUMP EXHIBITION TODAY

State Coach Announces Men Who Will Start for State; McDowell to Jump for First Time This Year; State Distance and Weight Men Doing Well.

N. C. State College's first triangular track meet in several years, to be held this afternoon at 2 o'clock, will bring together the greatest galaxy of track stars ever seen on Riddick Field when Clemson, V.P.I., and N. C. State College meet.

Three Southern Conference record holders will be present, and Harold Osborn, world's champion high jumper, will give an exhibition.

Osborn set his world's record for the high jump four years ago, clearing the bar at 6 feet, 8 inches. The Olympic champion is now in training at Virginia Poly for the coming Olympics, will accompany the Gobbler trackmen here.

The meet, in addition to the natural interest because of the fact that it is a tri-state in rivalry, will carry added interest because of the appearance of three Southern Conference track champions, one furnished by each of the competing teams.

State will offer as its Dixie champ Jack McDowell, who holds the Conference record for the high jump, at 6 feet, 1 3/4 inches. Odell, of Clemson, is Southern king in the pole vault. His record is 13 feet, and in 1926 he tied for national honors in this event.

The third Conference champion participating is Lunt, of Virginia Poly, champion in the discus throw. His official record for the throw is 136 feet, while he has turned in a mark of 142 feet in unofficial competition.

Dr. Sermon announced that the following men would be in the race, representing State College: 100-yard dash—Jordan, Hoyle. 220-yard dash—Jordan, Hoyle. 440-yard dash—Crum, Ottinger, Morgan.

880-yard run—Truesdell, Brimley, Baker. Mile run—Brimley, Ford, Mason. 2-mile run—Alexander, Redfern, Stall.

High hurdles—Griffin, Swain, Gorham. Low hurdles—Gorham, Swain, Welter. High jump—Young, McDowell, Vinson. Broad jump—Young, McDowell, Vinson, Parkerson.

Pole vault—Johnson, Gaston, Vinson. Shot-put—Patterson, Vaughn, Rush. Discus—Patterson, King. Javelin—Kilgore, Young, Patterson.

There is style in the prices, too! No longer need the well-shod man pay the price of out-of-date production methods. John Ward Men's Shoes. Honeycutt's London Shop.

TEBELL'S TECHLETS LOSE TO DUKE BLUE IMPERS 8-7

Yearlings Make 8 of 15 Errors For the Day; Averette Gives Up Eleven Hits

In a poor diamond exhibition, marked by 15 errors, the Blue Imps of Duke University scored an 8-7 victory over the State College freshmen on Riddick Field Wednesday. The Techlets made eight bobbles and these had a big part in the victory of the Durham lads.

The contest was a sorry exhibition, and players on both teams seemed to have all sorts of ideas as to where first base was located. Most of the throws to that bag went elsewhere.

Averette, State pitcher, hurled a good game, allowing the Imps but 11 scattered hits, which should not have counted for but five runs. Tucker, pitching for Duke, was less lenient with his hits, but several of them went for extra bases with runners on.

All the Duke hits were singles. The Dukemen led off with a score in the first and the Techlets came back in their half and scored two runs. Two more State runners crossed the plate in the third, to give them what seemed a safe lead.

The Duke yearlings combined hits and errors in the fifth to score five runs. State came back and made two in their half of the same frame. Another Duke run was scored in the sixth and State scored another. The winning run was made in the seventh when the Imps collected three hits.

Furtado, McLawhorne, and Brake starred at the bat for the Techs with two hits each.

Table with 2 columns: Player Name and Score. Includes Duke Fresh, State Fresh, and Totals.

x—Hit for Meade in 5th. xx—Hit for Rudestall in 5th. Score by innings: 100 051 100-8. State Fresh 202 021 000-7.

Summary—Two-base hits: Furtado (2), Meade. Three-base hit: Brake. Sacrifice hits: Averette, Dorsey (2). Base on balls: Off Tucker, 2; Averette, 8. Struck out: By Tucker, 2; Averette, Harroves, Dorsey (2), Harrington (3), Harris (2), Alford, Stanton. Hit by pitcher: Bonnette (by Averette). Left on base: Duke Fresh, 10; State Fresh, 6; Drunken.

Umpires: Sermon, Outen, and Drunken.

Tech Cindermen Win and Lose One in Meets on Virginia Trip

Lexington, Va., April 18—North Carolina State, closing its two-day invasion of Virginia, downed Washington and Lee in track here today, 68 to 68, clinching victory when Young leaped 21 feet 7 3/4 inches to take first place in the broad jump, final event.

The General took second and third in this event, losing first by a fraction of an inch, and if he had taken all three places would have tied the State team, 68-111.

Young, of State, was high scorer with 14 points. Taking first in the broad jump and javelin, and tying with his teammate, Vinson, for first in the high jump.

Table listing track events and participants: 100-yard dash—Sandifer, W. and L. Jordan; High hurdles—Patterson, W. and L. Reardon; Mile—Brimley, N.C.S.; 440-yard dash—Buckus, W. and L. Olin; 220-yard dash—Buckus, W. and L. Olin; Two-mile—Alexander, N.C.S.; Nance, W. and L. Butler, W. and L. 100-100; Low hurdles—Gorham, N.C.S.; Patterson, W. and L. V. M. I. Meet Lexington, Va., April 14—Gordon Walker, versatile V.M.I. track star, led Fresh team wins 13-5 GAME FROM BLACKSTONE

McLahorne Allows Nine Hits As Techs Get Thirteen Hits and Runs The State freshmen romped on the offerings of Waddell for thirteen hits and thirteen runs Tuesday afternoon to take a 13-5 slugging match from the Blackstone nine.

Blackstone opened the game with two marksmen, but the Tech fresh came back in their half of the same inning to make four. The visitors made two more in their half of the second and the State team got one. The Techs added other scores in the third, fifth, and sixth. Five men crossed the plate in the sixth on three hits and two walks and two errors.

The invaders came across in the ninth with another run, when McLahorne went wild and walked two men, after Adams had reached first through an error. Deberry's single scored the run.

Table listing players and scores for the Blackstone team. Includes names like Phillips, Wooten, Waddell, Deberry, Connelly, Green, Marr, McGuire, Adams, Moore, and Totals.

THE HOMER BOYS table listing players and scores: Eatom, Outen, McDowell, Mayfield.

SHORE AND WILLIAMSON HOLD FURMAN TEAM 12-0 Outen Lines Out Over Green Fence For His First Homer Of Season

The varsity sluggers added another victory Monday afternoon when Furman invaded Riddick Field. The Hurricane was very confident of victory, but when Sandy Shore, the latest find of the season, got through letting them down with one hit in the first seven frames, they went away with another hit and no runs.

Elrod and Davis pitched for the Hurricane, but they were unable to cope with the State batsmen, and as a result, there were 12 runs scored and 11 hits made for State.

Lefty Williamson got his first big chance in the eighth inning of the contest when he was sent to the mound to relieve Shore, who had done a day's work. Lefty allowed the visitors one hit in the two frames he stayed in the box.

Captain Outen collected his first home run of the season in the first inning. It was over the green fence at the end of the field. Charlie Eatom hit one into the left-center bleachers in the seventh inning.

Score by innings table for Furman vs State. Totals: 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0.

x—Batted for Davis in 9th. Score by innings: 000 000 000-12. Summary—Two-base hit: Dedmon. Three-base hit: Soltes. Home runs: Outen, Eatom, Sacrifice: Seal. Base on balls: Off Elrod, 4; Williamson, 1; Struck out: By Shore, 3; Williamson, 1; Davis, 2; Stolen bases: Wester, Outen, Eatom. Hit by pitcher: By Elrod, 1; Soltes, 1; Hit: Off Elrod, 6 hits, runs in 3-1-3 innings; Shore, 1 hit in 7 innings; Williamson, 6 runs, 5 hits in 4-2-3 innings; Williamson, 1 in 2 innings. Winning pitcher: Shore. Losing pitcher: Elrod. Left on bases: Furman, 2; State, 6; Time: 1:40. Umpire: Walker (Friedmont).

innings: Allgood, 5 and 3 runs; Thomas, 5 and 1 run in 3 innings. Winning pitcher: Allgood. Left on base: State, 6; Duke, 6; Time: game of 1:55. Umpire: Walker (Friedmont).

State Nine Wins Over Blue Devil Ball Team 8 to 4

Kidd and Allgood kept the Blue Devils at bay last Saturday while the Wolfpack attacked Belue, Jenkins, and Tompacs for fifteen hits to give State College an 8 to 4 win over Duke University. It was the second upset staged within a week by the Wolfpack which bested Wake Forest Easter Monday with the same Allgood pitching.

Home runs by McDowell, Mayfield, and Eatom with a man on base each time clinched the outcome for the West Raleigh aggregation. Werber, Duke shortstop, also got a run with one on base.

Kidd walked three men in the fourth, when Allgood took the mound for State and turned Duke back for the rest of the game with five scattered hits.

Jean Belue lasted three innings against the State attack. Ernest Jenkins fared just as bad for two, their left-handed offerings proving a healthy diet for the home team. Thomas then took up the burden in the sixth inning, his right-handed offerings proving more effective, but coming too late.

Score by innings table for State vs Duke. Totals: 32 4 6 2 4 8. Summary—Errors: Farley, Werber, Woodworth, White, Two-base hits: Outen, 2; Mayfield, McDowell, Mayfield, Eatom, Sacrifice: Adams, Seal. Double play: Woodworth to McDowell. Base on balls: Off Kidd, 5; Belue, 1; Jenkins, none. Struck out: By Kidd, 1; Allgood, 3; Belue, 2. Stolen bases: Mayfield, Kidd, Murray, Seal. Hits: Off Kidd, 1 and 1 run in 3-1-1 innings; Belue, 2 and 3 runs in 3-1-1 innings; Jenkins, 5 and 3 runs in 2-1-1 innings. Winning pitcher: Belue. Losing pitcher: Allgood. Left on bases: State, 6; Duke, 6; Time: game of 1:55. Umpire: Walker (Friedmont).

Paragraphics

An rever; best wishes to the incoming staff. May they have a most successful year.

Will there be another Scholarship Day? It seems that it is about time for such a day to be planned here.

There are two things we should like to see at State College. First, a fraternity row, and second, credit given for work on publications.

Many students of the School of Science and Business School will rejoice to learn the science requirements have been reduced from 37 points to 24.

Judging from the teams we have seen play in the collegiate athletic circle of this state, we predict that Chick Doak's nine will cop the 1928 championship honors.

The reasons for making the changes in the curricula are based on sound facts. It is being done in order that men may secure vocational training in work that unquestionably offers excellent opportunities in this state.

Some of our walks are worse than none during rainy weather. The ones which get into such a bad condition are those that are made of a mixture of stone and clay. Why not replace these with concrete walks? Their constant use merits such action.

According to all reports excellent plans are being made at Duke University for the fifteenth semi-annual press meeting, to be held the last of next week. For many of the delegates it will terminate their career in college journalism, while for others it will be the formal beginning of work as editors and business managers.

SWAN SONG

With this issue the old staff will back off the stage and permit the newly elected editor and his staff to assume the reins of the sheet for the remainder of the year, as has been a custom heretofore.

To express it in the words of a former editor, "Our reaction is, frankly, one of relief from the rather strenuous editorial duties that have been ours since this time last year. But there is also a feeling of regret, of envy, and of sympathy."

It has been our policy, although it may have been expressed in a humble way, to back every movement for the best interest of this college. We have strived to give the student body the campus news. Whether or not we have accomplished this end remains for the student body to pass judgment. At least, we have made an earnest effort toward that common end.

To the staff that has aided us in the publication of this paper we wish to take the opportunity at this time to express our sincere appreci-

ation for their cooperation during the year; and to the new staff we wish to extend the wish for a bigger and better TECHNICIAN for the coming year.

A. L. Aydlett, the newly elected editor of the paper, is well qualified to do the work, but for him or any other editor of a college paper to make a successful publication, he must have cooperation from the student body. He must have men upon whom he can place some responsibility with the assurance that it will be cheerfully assumed.

So, as we make our final bow and new men move up for the next act, we trust that the faculty and student body will give the new staff their wholehearted support toward making this publication accomplish its purpose, and that is, make it the voice of the student body and the news medium of the college. Good evening!

COMMENCEMENT

From year to year the seniors hear complaints from the faculty about the lack of interest taken in commencement exercises, which is displayed by their conspicuous absence. There is one question that arises, and that is whether or not the faculty, or whoever has charge of the exercises, make them interesting enough to make the men desire to stay.

It must be admitted that the seniors are making a mistake by not attending in full numbers. They owe that much to the men who are invited as speakers. But does this college have men who are really known and of national prominence as commencement speakers. Evidently this college does not. If it did there would be no problem of how to have the graduating class here one hundred per cent.

By outstanding speakers we mean men that are wide awake to the problems of current interest. If the faculty commencement committee misses the opportunity to extend an invitation to one of the most likely presidential nominees, it is making a great mistake. Somebody may raise the objection that it is impossible to get such men, but if this matter is looked after in ample time such will not be the case. Here again the old adage, "The early bird gets the worm," may be used advantageously.

This may be proved by a case in North Carolina. One of the smallest junior colleges in this state will have Alfred E. Smith, governor of New York, and likely Democratic nominee for president, as its commencement speaker.

It is believed that if such speakers were obtained there would be no such problem confronting the faculty from year to year. At least such a plan is worth trying once.

A RESUME OF PROGRESS

North Carolina State College has been in the march of progress both intellectually and materially during the past four years, and everything points to a similar trend during the next few years. Progress in building and beautifying the campus has been gradual, beginning in the fall of 1924, and is in its height at the present writing. Our intellectual achievements have been correspondingly something to which every student of this institution may point with pride.

It is true that improvements have to take place in any state institution by a gradual process. Every college and university does not have the money available to undertake such a program that is being inaugurated at Duke University. In a few years Duke will have the finest and best-equipped university in America, but with the colleges that are state supported or denominational, they must be satisfied with a gradual but sure trend toward progress. State College stands out to the people in North Carolina as one of the colleges that has kept in the march both intellectually and in material ways.

During the fall of 1924 the campus was in the process of being thrown into chaos, due to the program of building and construction that was instituted at that time. Mud was an ever-present commodity, due to the fact that a new power plant and heating system was being installed, which required extensive tunneling to every building on the campus. Not only did the power plant serve to replace the old and unmodern one then in use, but it now furnishes the electrical and mechanical students of this institution an opportunity to study one of the best power plants and heating systems in the South today.

Seeing that State College was badly in need of a library, the legislators of the state appropriated money for the erection of the Dan-

EDITOR OF WATAUGAN

W. V. C. EVANS

Hill Library, which is unsurpassed in beauty and architecture. It was given a high ranking in an art exhibit held in Italy not long after its completion. Not only does it possess beauty, but volumes of books that would be comparable with any other state college in the country.

Equipment for athletics has been provided for during the course of our stay at this institution of higher learning. Hampered with ill-equipped quarters and equipment, the athletic situation was greatly handicapped, but, like most other colleges and universities, athletics has come to the foreground at this college. A gymnasium and swimming pool unequalled anywhere in the South was built and is now known as the Frank Thompson Gymnasium. Along with this came the program of physical training, which is such a vital part in every individual's education. This program embraces every phase of athletics among the various groups on the campus. Under the direction of the physical education department, an annual high school basketball tournament is held here, in which more than seven hundred high school boys of this state participate. This is unquestionably one of the best undertakings made by the college. Along with the introduction of new and modern equipment, the athletic teams of this college have been successful, having been basketball champions of the state one year, football champions this year, at present the prospects are bright for being state champions in baseball.

Due to the increased enrollment, more dormitory facilities had to be provided, and, as a result, Seventh Dormitory, a modern and up-to-date building was erected. Watauga, Fourth, South, and First have been remodeled and modernized. Polk Hall, for the School of Agriculture, has been erected at a cost of \$300,000. A similar building is now being completed for the Electrical Engineering, Physics, and Architecture departments. Peele Hall, which will house the Science and Business, will be soon completed, at a cost of approximately \$300,000. During the summer months Holladay Hall will be completely renovated.

Probably a fitting climax for the building program for the present was the erection of a \$30,000 home for the president of the college on the east side of the campus in front of the College Court. Many improvements have been made in the way of widened streets and paved walks. At present the college is hiring a landscape gardener to look after the beautification of the college grounds.

Helping to solve the crowded dormitory facilities, fraternities at this institution have gradually, one by one, moved off the campus to homes.

Two new schools and at least two new departments have been opened during the past four years. Realizing that the textile industry of the South was becoming more and more important, it was converted from a department into a school of its own, and has continued to show rapid growth. This year the School of Education was opened in order to prepare teachers for rural and high schools of this state. The departments of ceramic engineering and construction engineering have been installed here in the course of the past four years. The department of ceramics has made exceptionally good progress since its installation at this college, and now graduates men every year that are well qualified to fill positions in that particular work which North Carolina offers.

As for the intellectual achievements of this institution, they have been many and varied. Public speaking at this college has become nationally known under the direction of Professor Cunningham. Last year H. J. Oberholzer won the national oratorical contest held at Los

Angeles, and all the debating teams have made good records.

In the field of agriculture many honors have come to this college through teams. State College has had national stock judging champions, winners at poultry shows at Madison Square Garden, New York, horticulture champions of the South, national grain judging champions.

State College has the honor of being the first college east of the Mississippi to have Engineers' Day.

It is hoped that this march of progress will continue and bring more honor to this great institution. As a last word, may this college continue to utilize the facilities to graduate men from year to year who will make greater and better citizens of this state and country.

WISE AND OTHERWISE

This is the last issue of The Technician to be turned out by this year's staff. We do not know whether or not the paper has been a success. One can never accurately judge his own work. However, we feel that this an opportune time to point out a few facts concerning publications in general and The Technician in particular. First let us turn to the faculty and its relation to The Technician. The members of the faculty have greatly helped in furnishing the paper with a certain variety of news. Various speeches and pieces of research which should have been published have been given to us by the several members of the faculty. News of this type is usually substantial and contributes to the excellence of the paper.

But the usual attitude of most of the faculty is one of indifference. Unless it is a personal piece of publicity he is securing his interest does not permit him to do more than take the publication out of the mail box. We venture further to say that some of the faculty actually look upon The Technician with contempt. They consider the staff a bunch of morons nosing around in somebody's business. Of course in making these statements we do so with reservations, for some of the faculty are more than willing to lend their whole-hearted assistance at any time.

To the students we have cause to lay the greatest charge. Any college paper should be representative of the students. If there is anything in bad taste, it is the stereotyped college newspaper. In such a case the publication becomes unfavorably marked and eventually uninteresting. If such should be the case it is not the fault of the staff, but of the students. Most students read their publications, but do not have a personal interest in them. They look upon the staff as a group apart from themselves who are getting something great out of what they are doing.

The same attitude students and faculty hold toward our athletic teams should be exercised in regard to the publications. From both of these sources the school receives a tremendous volume of advertising. The advertising is of two different types, however. A sorry team does not necessarily cast a reflection upon its alma mater; a sorry publication does.

We are not making any assumptions. We think that our publications are above the average for this size school, but they are at the expense and sacrifice of a very small group. The editors on this campus have to do too much work; they have to make too much sacrifice. This business of student newspapers and magazines is becoming too much of a one-man job.

Student Forum

THE HONOR SYSTEM

Mid-terms are upon us again! Just as sure as winter brings cold weather, periods of exams bring the "Honor System" to the front. The students and faculty should bring the present code out of the mire of dishonesty and attempt something clean and effective. In the past the student body has been appealed to, cajoled, and threatened to better observance of honor under the present system. But this essay is directed at a new quarter (however, no less responsibility for the present status of the "Honor System"), the faculty.

The faculty seem to have as many varied and different opinion of the "Honor System" as there are members of the administration. Further, they express their views to each of their respective classes (with a few exceptions) until the students are befuddled as to what they should respect and what they should not. The faculty are unanimous on one point—honesty. But their advice on how to regard the "Honor System is in no manner similar. For example, some instructors de-

liver a sermon to their classes on honesty, then retire from the room, leaving the students on their honor. Other instructors give alternate questions, scatter the classes, and sit in with them with eagle eyes to watch during the examinations. Others appoint class members to maintain order during their absence. And on—and on.

Faculty of State! put up a solid front to the students, either for or against the present system, and either enforce or abolish it.

—M. J. POLK.

PAYING ATHLETES

The primary reason of young men for entering a college is to obtain an education—at least it should be. They enter college of their own accord, or they go because their parents send them. Either reason may be detrimental to the student.

However, is the student being given justice to himself if he is enticed to go to some particular college because he is an outstanding athlete? The college is not treating the student in the manner that he should be treated. The college is also hurting itself by allowing men to attend its courses on account of free admission.

First let us consider the student's case. What will be his attitude toward striving for a thorough education? The psychological effect will probably be detrimental. He is likely to assume an athletic attitude—that is

considering athletics more than his primary object—namely, classroom work.

He reasonably assures himself that if he is good enough in athletics to get his admission paid by the college, that they will also give him the edge in classroom work. But in reality what will he get out of his course for a future foundation? Very little, because while in college he devotes his time to athletics—chiefly, however, he was brought to the institution and given his admission free in order to participate in athletic events. Naturally, he will put out all he has in order to bring honor to the college on account of his athletic prowess.

Second, is the college endangering its good name when it takes steps toward paying for its athletics? The recent action taken against the University of West Virginia by the North Central Association of Colleges may answer the above question. Look at the penalty they paid for such demeanor! It is a black spot they cannot erase.

Therefore it is a good example of what may happen to all colleges and institutions which allow this action to exist. Let the primary function of the college take root a little deeper, and the secondary ones as secondary.

The Archduke Leopold of the Imperial family of Austria is seen in the rôle of Chief of Detectives in the Tiffany production, "Night Life," which will be the feature picture attraction coming to the State Theatre next Monday and Tuesday, with five acts of Keith Vaudeville.

"The Dove," Willard Mack's successful stage play, had the honor of being Norma Talmadge's choice for her first production for United Artists. It is coming to the State Theatre Wednesday, Thursday, and Friday. The play was produced by David Belasco, on February 11, 1925, at the Empire Theatre, New York City. It proved to be another Belasco sensation and made a star of Judith Anderson, who played the rôle Norma Talmadge has on the screen.

J. Farrell Macdonald play the leading rôles in Allan Dwan's picture based on Felix Riesenbergs novel, "East Side, West Side," which shows at the State Theatre next Saturday, only.

What small boy has not had the thrill of seeing the Big Top of the circus rise like magic early in the morning on the home town lot when the big show comes around? The boy who missed that sight, which is becoming less and less frequent, has missed a lot, but he will see it—and the whole bag of tricks—in "Tillie's Punctured Romance," which will be at the Capitol Theatre next Monday and Tuesday.

Announcement emanates from Hollywood to the effect that "The Cruel Truth," which is scheduled to run at the Capitol Theatre next Wednesday only, has aroused much discussion in intimate motion picture studio circles, due to the especially fine quality of its dramatic sequences.

One of the most thrilling pictures of the screen season is promised at the Capitol Theatre Thursday and Friday, when "The Shield of Honor" opens its engagement there. "The Shield of Honor" is a Universal production directed by Emory Johnson and was written especially for the screen by his mother, Emilie Johnson, author of numerous successful pictures directed by him. It deals with the inside workings of a metropolitan police force.

"Whirlwind" Wally Wales, Western star par excellence, will be the featured attraction next Saturday at the Capitol Theatre in "Twisted Triggers," an absorbing drama of the West crammed full of action, thrills and romance.

Ruth Taylor, who plays the rôle of the blonde in "Gentlemen Prefer Blondes," Anita Loos' epic comedy of the American gold-digger as put in motion picture form by Paramount, is hailed in Hollywood as the greatest screen "discovery" of the year. Patrons of the Superba Theatre, where "Gentlemen Prefer Blondes" is playing next Monday and Tuesday, may remember her as leading woman in several Mack Sennett comedies, but for most people she is practically an "unknown."

William Haines just can't seem to get away from football. In "Brown of Harvard" he made one of the biggest hits of his career in a strenuous football contest, and now, in "West Point," his new Metro-Goldwyn-Mayer vehicle, coming Wednesday and Thursday to the Superba Theatre, he again contributes thrills of the gridiron—this

SOPHOMORES

There will be a very important meeting of the Sophomore Class in Pullen Hall next Wednesday evening, at 6:30 o'clock. All Sophomores are urged to be present, as the class officers for next year will be elected.

PRESIDENT.

time in the annual Army-Navy game between West Point and Annapolis.

Rex, the King of Wild Horses, the star of "Wild Beauty," which will come to the Superba Theatre, starting Friday and Saturday, was born in captivity, but escaped and lived 11 years with a wild horse herd in Texas before he was recaptured.

William Boyd, who is starred in "The Night Flyer" and who had refused to allow a double to take his place in the cabin, leaped at just the right moment as had been previously arranged. Two cameramen's hats were blown from their heads, but neither man was scratched. This scene is excitingly pictured and it will be on view at the Palace Theatre Saturday next.

Had there been a single miscalculation, according to Cruze, lives might have been lost. As it was, the only injury sustained was by Boyd, whose leap from the train bruised him considerably.

In "The Night Flyer," Mr. Boyd is seen as a railroad engineer on the Rocky Mountains in the early nineties. He becomes the rival in a love affair of another engineer, played by Philo McCullough, and it is this that adds vastly to the interest. Jobyna Ralston is the girl. There are many thrilling scenes in the picture, including a railroad wreck, said to be one of the most thrilling ever screened. Ann Schaeffer heads a competent working cast. The picture is a screen version of Frank H. Spearman's story, "Held For Orders."

One of the most difficult scenes photographed for motion pictures was obtained during the making of "Feel My Pulse," Bebe Daniels' latest starring vehicle for Paramount, which plays at the Palace Theatre next Monday, Tuesday, and Wednesday.

And, strangely enough, it appears to be the simplest obtainable.

It consists merely of several "shots" of the star in a speedboat that is moving through the water at a rate of 40 miles per hour and the speedboat, combined with a heavy sea, was responsible for all the trouble.

You'll all remember Karl Dame and Geo. K. Arthur in their fun rollicking story of the old army game, "Rookies." Good news! This famous comedy team has released a still better side-splitter, "Circus Rookies," which shows at the Palace next Thursday and Friday, and promises funny-bone ticklers from beginning to end.

NELSON LECTURES ON WORK IN TEXTILES AT GOLDSBORO EXHIBIT

The Textile School was well represented at the Eastern Carolina Automobile Exhibition, held in Goldsboro last week.

The whole of the exhibit sent for display was taken from the exhibition room at State College. The exhibits were the same shown during the Textile show.

Of added interest to the people of Goldsboro were small Jacquard pictures of Dr. E. C. Brooks.

This was due to the fact that Dr. Brooks was at one time superintendent of schools for Goldsboro.

During the week Dean Nelson gave a talk on textiles, also Mr. E. C. Morse, of New York, gave his talk on the "New Uses of Cotton," which was greatly appreciated when given at the Textile Show held at N. C. State College.

Contests Are Planned As Third Term's Work In Physical Education

The Department of Physical Education has arranged this term's work in contest form. According to the plan, there is to be a track meet at the end of the term, with teams representing each of the instructors.

Each instructor is to select thirty men from his four classes to take part in this meet. Ten of them are to take part in track events, including long-distance runs, dashes, broad and high jumps, discus throw, and shot-put.

The second ten men will constitute an indoor baseball team. The four teams thus formed will play for the championship.

The last set of tens will compete in a swimming meet. This has been made possible by the reopening of the pool.

There are four instructors, and if each selects thirty men, making 120 in all, this meet should create quite a bit of interest. Not only is such a plan helpful to those who actually take part, but it should create interest among the students in general, as does the freshman cross-country.

At the beginning of the year Professor Johnnie Miller announced that the physical education department hoped to make the classes in physical culture more interesting, as well as more helpful, by introducing games and competition.

This contest is directly in line with that plan, and seems to have met with favor from the students in that course.

McCOWN AND FITZGERALD WRITE BEST ARTICLES IN APRIL FOOL NUMBER

The committee appointed by THE TECHNICIAN for choosing the prize-winning article in the April Fool issue held quite a divergence of opinion concerning the relative merits of the different stories.

The men on the committee each ranked the eligible articles according to the manner in which they touched his own particular funny-bone.

After totaling the results it was found that George M. McCowan, Jr., senior in the School of Science and Business, had won first prize for the second year in succession and Bill Fitzgerald, junior in the School of Science and Business, second prize.

Prizes were passed to the State Theatre and were given through the courtesy of Mr. W. G. Enloe, manager

of the playhouse. It is deemed best not to disclose the title of the articles written by these men.

Stories written by the staff were not eligible for competition.

WILSON GOES TO ST. LOUIS FOR CHEMICAL MEETING

Dr. A. J. Wilson, head of the department of chemistry here and professor of analytical chemistry, left Raleigh Sunday morning to attend

the meeting of the American Chemical Society in St. Louis, Mo. The meeting began Monday and lasted through Thursday. However, Dr. Wilson will be away the entire week.

During the meeting papers were read on practically all phases of chemistry by eminent American chemists. The Division of Chemical Education devoted two days to a discussion of the teaching of qualitative analysis. This is one of the subjects taught by Dr. Wilson here.

What Shakespeare says about Coca-Cola

"Fill full. I drink to the general joy o' the whole table"

Certainly Macbeth meant the same thing as when we say:

Refresh Yourself!

The Coca-Cola Company, Atlanta, Ga.

8 million a day - IT HAD TO BE GOOD TO GET WHERE IT IS

Oberholzer's Engagement Announced

H. J. Oberholzer, of Orange Free State, South Africa, and former student at State College, was the cause of a pleasant surprise to his fellow countrymen when the news of his engagement to Emily Harless Wenborne was received here.

Miss Wenborne is the daughter of Mr. and Mrs. Chas. W. Wenborne, of Lake Erie, New York State. She graduates from Cornell this term and is a member of the Alpha Phi (sorority).

It is the intention of Mr. Oberholzer and Miss Wenborne to be married in the beginning of August. The honeymoon will be spent by visiting various states by automobile.

Mr. Oberholzer was an agricultural student at State College last year, but under instructions from the South African Government he proceeded to Cornell, where he had to take certain subjects during this year.

"Obie" has decided to come back next year to graduate from State College, and during that time the couple will make their home in Raleigh.

Alpha Lambda Tau Dance

The Beta chapter of Alpha Lambda Tau entertained at a dance in the Frank Thompson gymnasium last evening. The Panther Pack Orchestra of High Point College furnished the music for the joyful social event. The gymnasium was beautifully decorated with the fraternity colors. Members of the fraternity and their guests were as follows: C. U. Rogers with Miss Sara Whitaker, Raleigh; P. V. Rush with Jewel Moore, Wilson; Jimmie White with Edna Jones Nixon, Hertford; Pittz Davis with Frances Busbee, Raleigh; Harry Burgess with Diana Linthicum, Raleigh; Vance Adams with Helen Foster, Raleigh; Carroll Oldham with Margaret Foster, Raleigh; Ashley Murphy with Virginia Campbell, Wallace; E. T. Barwick with Madeline Barnes, Raleigh; Fred Singletary with Ruth Abbey, Farmville, Va.; Dal Williams with Rith Shively, Roanoke, Va.; Bill Henry with Eloise Shearin, Raleigh; and Bill Taylor with Elyn Eskridge, Raleigh.

Chaperones: Mr. and Mrs. H. A. Underwood, Mr. and Mrs. T. E. Wooten, Mr. and Mrs. Tal Stafford, Lieutenant and Mrs. E. P. Passallaigue, Mr. and Mrs. J. H. Miller, Mr. and Mrs. J. M. Foster, Mr. and Mrs. W. B. Cobb, Mr. and Mrs. W. J. Dana, Mr. and Mrs. G. H. Satterfield, Mr. and Mrs. T. B. Wheeler, Mr. and Mrs. L. S. Wooten, Mr. and Mrs. F. M. Haig, Mr. and Mrs. E. L. Cloyd.

A number of State College boys will attend the Sigma Nu dance in Chapel Hill Friday.

Dances Next Week-end

The Phi Phi Phi fraternity will entertain at their annual dances in the Frank Thompson gymnasium next Friday and Saturday, respectively.

White Spades Dance

The White Spades, an organization composed of men from every fraternity on the campus, and whose purpose is to promote better fellowship among the members of the twenty fraternities on the campus, will entertain at a dance in the Frank Thompson gymnasium from 9 till 12 tonight in honor of the newly initiated members. The following men tonight were initiated Thursday night: Bert Flowers, Phi Phi Phi; Homer Day, Alpha Gamma Rho; J. E. Cooper, Sigma Tau Beta; L. L. Froeberger, Chi Tau; Fred Singletary, Alpha Lambda Tau; H. M. Luck, Sigma Tau Beta; A. R. Jackson, Sigma Tau; H. H. Burroughs, Chi Alpha Sigma; Bobby Grimes, Kappa Alpha; T. M. Hughes, Kappa Sigma; Jim Summey, Phi Kappa Tau; Jimmy Westbrook, Delta Sigma Phi; W. E. Koonce, Theta Kappa Nu; Bud Thomas, Theta Kappa Nu; Bunny Wimbish, Phi Kappa Phi; Billy Lovell, Pi Kappa Alpha; I. N. Ipock, Sigma Psi; N. C. Branscombe, Phi Omega; L. Pemberton, Sigma Chi; Hugh Scott, Lambda Chi Alpha; P. F. Winkler, Theta Kappa Nu; Charles Forney, Delta Sigma Phi; and W. E. Cooper, Tau Rho Alpha.

Sigma Nu Chapter's Annual Entertainment

The Beta Tau Chapter of North Carolina State and the Psi Chapter of the University of North Carolina gave their annual ball Friday, April 20, from 9 to 1 at the Carolina Inn in Chapel Hill. The figure was led by Mr. Dave Blanton of the Psi chapter with his partner and by Mr. "Pop" Williams of the Beta Tau chapter with Miss Margaret Sherrill of Raleigh. Attractive favors of silk shawls were presented to each Sigma Nu girl. The ballroom was attractively decorated in white roses, the flower of Sigma Nu. Refreshments were served during the evening.

The annual ball was the feature of the week-end at Chapel Hill, where a Phi Delta Theta tea dance was given Saturday afternoon and a Thirteen Club dance that night.

The two chapters of the Sigma Nu fraternity are also entertaining at their annual house party at the attractive home of the Psi chapter and the annual banquet will be held in the Carolina Inn tonight.

This annual affair will be given in Raleigh next year, as it was last.

C. L. Straughan and Hubert Burroughs will spend the week-end in Chapel Hill, N. C.

Mr. George Fowler and "Pop" Williams motored to Chapel Hill and back Tuesday.

Mr. R. E. Kimball is spending the week-end at his home in Enfield.

Mr. C. Z. Bailey is in New York on business.

Mr. George Trask spent the past week-end in Greensboro.

WOOTEN CALLED HOME BY DEATH OF FATHER

R. L. Wooten, graduate student in Industrial Management and instructor in workshop, was called to his home in Kinston Saturday night because of the death of his father. Mr. Wooten's father had been in bad health for some time. Funeral services were held Sunday afternoon. Wooten returned Tuesday to the campus to resume his work. Ralph, as he is known, is well known and liked by all the students who come in contact with him.

CURTAINS FOR WINDOWS OF Y. M. C. A. LOBBY ADD TO COMFORT AND BEAUTY

The lobby of the Y.M.C.A. has again been improved and given a more home-like appearance. This change is in the form of restful green curtains for the windows. These curtains were supplied from the general operating fund of the "Y," which fund is contributed by the students and faculty each year. The work was done by Royal & Borden, furniture dealers, of Raleigh. The "Y" staff and officers have made a fine effort this year to improve the appearance of the building and to make it more home-like for the boys. The building has been remodeled, pictures put on the walls, rugs on the floor, flowers in corners, and the curtains recently added give the finishing touch to the already restful and popular lobby.

"Did my father leave an order with you this morning for a load of wood?" asked a strange but attractive young lady of a well-known planing mill man.
"I don't know, miss," he replied.
"There was a gentleman in who said to deliver a load to a driver who would call and said it was for Mr. Zell."
"Very well! Thank you," said she, "I'm Gladys Zell."
"Eh, what?" gulped the millman.
"I'm Gladys Zell," she replied.
"Oh, yes, of course," he replied, "So'm I."

Alpha Gamma Rho To Give Third Annual House Party April 27

The week-end of April 27 and 28 Alpha Gamma Rho will have their third annual house party and dance. Friday night the annual banquet will be held for the alumni and active members, and their guests, at the Meremont Tea Shoppe. Following the banquet, the alumni and actives will be guests to the Pi Phi Pi at a dance in the gymnasium.

The gymnasium on Saturday night will be the scene of the fraternities' third dance in as many years.

This dance has been one of the best given at State for the past few years, and is looked forward to with much interest.

There will be quite a number of State College alumni back, and a large number of girls from out of town will be here for the house party.

PI KAPPA DELTA WILL HOLD INITIATION AND BANQUET ON MAY 3

State College Chapter of Pi Kappa Delta, national honorary forensic fraternity meeting in the cafeteria Wednesday at 12:30, decided to have the initiation of new members May 3. Neophytes to be initiated are A. L. Aylett, H. H. Burroughs, E. W. Buchanan, and Roy R. Pearson. These men have done all the debating for State College this year and have won four debates and lost two, each team winning two and losing one.

After the initiation there will be a banquet of the old and new members at the New Tea Room in Raleigh, followed by a theatre party. At this banquet the officers for the coming year will be elected.

Professor H. M. Ray reported on the national convention of Pi Kappa Delta, which was held in Tiffin, Ohio, last week, and made recommendations for improving the State College chapter.

He mentioned that Farmville State Teachers College had been granted a chapter of the organization, which would be known as the Alpha Chapter of Virginia. Professor C. C. Cunningham has charge of installing this chapter and he, with the assistance of several local Pi Kappa Delta members, will go to Farmville to perform this ceremony on May 19.

Bell: "Have you had a radio long?"
Bill: "I've had one so long I remember when we used candles instead of bulbs."

Greaves-Walker To Be Next President Of Tau Beta Pi

At the annual meeting of North Carolina Alpha Chapter of Tau Beta Pi, national engineering honor fraternity, held on Tuesday evening, A. McK. Greaves-Walker, Ceramic Engineering '29, was elected president; Wilson Kilgore, Electrical Engineering '29, vice-president; W. V. M. Williams, Chemical Engineering '29, recording secretary; K. F. Haywood, Electrical Engineering '29, corresponding secretary, and Professor J. W. Harrelson, treasurer.

During the past college year twenty students, eleven juniors and nine seniors, have received the key, the badge of merit of the engineering schools.

The chapter at State College is the only one in North Carolina, the charter being granted only to engineering schools of the highest rank.

FIRST LAP TENNIS MEETS SHOW FLETCHER'S ABILITY

First rounds of the tennis tournament, started the first of this week, have been played off. Many of the entrants are showing up in good form, better than could be expected, since they have practically no courts to play on except private ones. Bob Fletcher seems to be one of the brightest stars of local talent.
