N. C. DAIRY JUDGING TEAM OF 1927 TO GO TO MEMPHIS

Working Steadily To Get In Shape for Contest

HELD IN CONNECTION WITH TRI-STATE FAIR

Council, Orders, White, Pope, Wilson, Shearin Trying for the Team This Year—Expected to Make as Good Record as 1926 Team—State College Placed Sixth Last Year.

The dairy cattle judging team and the dairy products judging team, of State College, have been hard at work since September 15 in final preparation for the National Judging Contests to be held in connection with the National Dairy Exposition at Memphis, Tenn., on October 15.

The students trying out for these teams are all seniors in the dairy department and have had three years preliminary training in judging. The men reporting September 15, a week before college opened, have been kept busy and have devoted every available hour to judging work. This intensive training will continue right up to the time of leaving for the contest.

Aside from working with the fine herd owned by the college, the teams have already visited several large dairy farms in the state. Last week they visited Asheboro and judged Guernseys at the Randolph County Fair. Valuable experience was gained from this trip. On October 7, 8, and 9 the teams will visit the outstanding dairy herds, creameries and ice-cream plants in Guilford County. A member of last year's team who is now manager of a large dairy herd near Greensboro has invited the teams to visit his herd for intensive training. The coaches believe the three days work in Guilford County will put the final touches on the teams.

Prof. F. M. Hals and Prof. R. H. Ruffner are coaching the dairy cattle judging team, and Prof. W. L. Cleveland is coaching the dairy products judging team.

FINISHING OF PHYSICS BUILDING NEXT PROGRAM

Additions to Engineering Building to Cost Approximately \$180,000

The completion of the physics and electrical building and the addition of the third side of the proposed quadrangle is next step in the building program. Plans are now being prepared by Hobart Upjohn and will be submitted to the college at an early date.

The basement and first floor of the physics and electrical building is only half of the building as it will be when completed. Two floors will be added, and these will mark the completion of the building as a unit. The first floor to be added will be given over to the physics department, along with some other department. The top floor will be given over to the architecture department, and will contain up-to-date drafting rooms and other modern conveniences to serve architectural students.

At present the physics and electrical building, with a wing on the southeast end, forms one-half of the proposed quadrangle. The third side, which is to be erected, will face the east and adjoin the wing which now stands. Only two floors will form this side of the building, since the shop buildings, which the new buildings will face, are rather low, and it is necessary to have the buildings conform to each other.

The new portion of the quadrangle will be occupied by the civil, highway, and mechanical engineering departments, with adequate space for engineering research laboratories. These buildings projected will cost approximately \$180,000, while Peele Hall, which is now under construction, will bring the cost of new buildings up to \$300,000, which was appropriated by the last assembly.

It is hoped by college executives that the new building will be well under way by Christmas.

Secretary and Treasurer

Ag Fair Opens Tuesday With Float Parade

The officials of the Students' Agricultural Fair are now rapidly maturing their plans for the big event, which opens next Tuesday, Wednesday, and Thursday.

In the parade, which formally opens the Fair Tuesday morning, there will be, beside the regular departmental floats, the band, officers of the Fair, and marshals, and the addition of a float entered by the military department.

This additional float is expected to add to the effectiveness of the parade. The R. O. T. C. float last year gained much favorable comment. A feature of the exhibits this year will be a number put on by the Agricultural Extension men, primarily for its educational value.

Interest in the Fair is steadily mounting as time for it approaches. Many students have already gone home after exhibits and others are going for theirs this week. Competition promises to be keen for the many valuable prizes offered.

The interest in the Fair is not confined to Raleigh. The Associated Press has taken it up and is wiring stories about it all over the state. The loyal support manifested by everyone concerned promises to make the Fair even a greater success than that of last year.

According to Fred S. Sloan, president of the Fair, the list of premiums has grown in value over last year to where it now has a valuation of about \$1,200. A silver loving cup will be awarded for the best float in the opening parade to be held on Tuesday morning, October 11. Fifteen dollars in cash will be awarded to the best departmental exhibit, but to compete for this prize the department must also have a float in the parade. Mr. Sloan states that eight floats have so far been entered. These will be from the poultry department, agronomy, horticulture, agricultural administration, vocational, education, animal husbandry, and biology departments. The float carrying the minstrel will be the eighth and there will likely be two additional floats, representing the military department and the self-help students working under the direction of the College Y. M. C. A.

HOBART UPJOHN WILL LECTURE IN Y. M. C. A.

Noted New York Architect Comes to State College as Lecturer

Hobart Upjohn, a member of one of the leading architectural firms in New York City, will deliver the first two of a series of lectures on Architecture to be given at State College this year.

The students of architectural, structural, and civil engineering, as well as local and neighboring architects, are cordially invited to attend these lectures.

The first lecture, which is an introduction to the series, will deal with the place architecture has in the field of fine arts, and is to be given in the College Y. M. C. A. auditorium at 9 o'clock, Tuesday, October 11.

Wednesday morning Mr. Upjohn

Check Ruling To Help Men Cash Notes

The House of Student Government in session May 1927, passed a "Bad Check Law." This law is modeled after similar laws in force in other colleges and universities in North Carolina.

There has been much difficulty in students getting checks cashed down town. The law was passed primarily to facilitate the cashing of students checks. It affects no innocent party but aids those who might have difficulty in obtaining cash.

According to the law two forms of letters are sent out, one to the student and the other to his father. They are as follows:

RETURNED CHECK COMMITTEE
26 Holiday
Date.....

Mr. Your check for \$..... to.....

has been returned. You are granted 48 hours in which to make this check good and present it or a receipt to the Dean of Students' office. Unless this is done you shall be suspended from the college without further notice until the check is made good. Unless the check was returned due to circumstances out of your control it places you on strict probation as regards checks. Second offense draws automatic suspension from the college, with right.....

Prof. R. P. Kolb Added To Mechanics Dept. of State College Faculty

Mr. R. P. Kolb, assistant professor of mechanical engineering, has been added to the faculty of State College this year. Mr. Kolb graduated from Rensselaer Polytechnic Institute, the oldest engineering school in the United States, in 1918. Following his graduation he taught at Rensselaer for two years.

Mr. Kolb comes to us from Washington University at St. Louis, where he served as assistant professor of mechanical engineering for two years. He also taught at Lehigh University for three years.

During the World War he served as an ensign in the United States Navy.

Experimental Tests Being Made On Telephone Poles

Many inquiries have been made by students and members of the faculty concerning the large set of poles planted in the ground between the power plant and the new Electrical Engineering and Physics Building.

In order to determine the suitability of poles grown in North Carolina for use in transmission lines, the Engineering Experiment Station of State College has undertaken a series of tests on different species of poles. Poles grown in North Carolina are not being used by the power companies in this state, due to the lack of reliable data concerning their suitability.

These poles are to be pulled over until they are either broken or pulled out of the ground. A wire cable is attached to the pole near the top, where the cross-arm is fastened, and the pull comes against an anchor set in the

'DADDY' G. W. PRICE DIES AFTER BRIEF ILLNESS OF HEART

Forge Instructor Here Since January, 1921

BURIED AT BIRTHPLACE IN GREENVILLE, N. H.

Funeral Services Held at Home of Professor L. L. Vaughn—Instructors of Mechanical Engineering Department Form Escort of Honor to Station.

George W. Price, for the past six years instructor in forge work in State College, died at the home of L. L. Vaughn, Friday afternoon at 5:30 o'clock.

Mr. Price came to Raleigh in January, 1921, and became instructor in the forge shop. Here he won the admiration of students and his associates in the School of Engineering because of his skill in working iron and steel. He took a fatherly interest in the students who came under his instruction and they affectionately called him "Daddy" Price.

Near the close of school last year Mr. Price was taken with severe heart trouble, and was forced to remain in the Mary Elizabeth Hospital for some time. He recovered sufficiently, however, to meet his first three freshman classes this fall, but after that he was forced to give up his work and grew steadily worse until the end.

Mr. Price was born in Greenville, New Hampshire, April 10, 1857. He is survived by his son, Percy W. Price, director of music at State College, and director of the Shrine Band of Raleigh.

Brief funeral services were held Saturday afternoon at the home of Professor Vaughn. The body was sent to Greenville, New Hampshire, for interment.

Professors of the mechanical engineering department acted as an escort of honor from the home to the union station.

COLLEGE LAUNDRY SCENE OF A HOT FISTIC BATTLE

Zip! Spa! Sock! Hard fists flying like trip hammers, smashed into soft flesh with a sickening thud. A woman screamed, men yelled "Part them! Stop them!" as three men fought in the entrance of the college laundry.

The affair was soon brought to a close by the heroic work of a student and some other valiant men who, at the risk of their lives, parted the three men who were fighting like cats and dogs.

The late dean of sanitation started to clean up the gentlemen, but made a mess of it.

The trouble started over one of the boys claiming that his pants were scorched while in the laundry, and proof offered was that they did not smell just right. Mr. Cullins said the pants smelled all right and that the owner's nose told a lie. The fight followed in record time, with the decision going to all three fighters as being first class losers.

Technical Societies to Have Combined Meetings During Year—First on November 1

The Engineers' Council held its first meeting of the year in Page Hall on Friday evening of last week, at which time plans for Engineers' Day were discussed and committees were appointed by G. P. Hall, president of the council.

The council also made plans for holding a series of combined meetings of the technical societies on the campus. These meetings will be held at intervals throughout the college year, and each of the six societies will have charge of the program for one meeting. It is planned to have some of the foremost engineers of the United States to make addresses at the society meetings. By having such gatherings it is anticipated that the students of the various departments of the engineering school will be brought in closer contact with each other.

The date of the first meeting was tentatively set for the first Tuesday in November, with the Student Branch of the American Ceramic Society in charge. The principal address will be on the subject of "Brick Bonds and Brick Construction."

At the close of the meeting President Hall urged all the committeemen to begin making plans for even a more successful day than was enjoyed last year. The men appointed on the various committees are as follows: Engineers' Fair: A. McK. Greaves-Walker, manager; R. M. Rothgeb, assistant manager; D. N. Bordner, assistant manager. Engineers' Parade: P. E. Trevathan, chairman; B. A. Frestar and J. M. Kilgore, assistants. Engineers' Brawl: Jeff. C. Davis, chairman; R. W. Haywood and J. W. Norman, assistants. Advertising: E. D. Hubbard, chairman, and Sam Rowe, assistant. Alumni: R. M. Rothgeb, chairman.

Student Officers Assume Command R. O. T. C. Regiment

NOTICE!
There will be a meeting of The Technician staff in Room 5, Holiday Hall, on Tuesday evening at 6:30. It is very important that every old and new member of the staff be present. Every freshman or upperclassman that has had any experience in journalistic work is cordially invited. We have any kind of job that you want.
—Editor.

ALUMNI NEWS REVIVED AFTER DEMISE OF YEAR

E. B. Owen Will Edit News This Year: Will Be Published Six Times During Period

At a recent meeting of the executive committee, E. B. Owen, of the Class of 1898, was appointed editor of the "Alumni News," with Tal H. Stafford, Class of 1912, E. L. Cloyd, Class of 1915, and A. M. Fountain, Class of 1923, as assistant editors.

The "Alumni News" was first published November 1, 1917. The primary object of the paper was to publish information concerning State College students who were in the World War.

Following the war, the "Alumni News" played an important part in creating a sentiment in favor of the memorial and in raising the necessary funds.

The paper was published monthly for about nine years. Its first editor was E. B. Owen, registrar of the college, and later the management and editing was turned over to Tal H. Stafford, who was alumni secretary.

Nothing the college has ever done had as much to do with binding the alumni close to each other and to their alma mater as did this paper.

ENGINEERING COMMITTEES APPOINTED BY COUNCIL

Technical Societies to Have Combined Meetings During Year—First on November 1

The Engineers' Council held its first meeting of the year in Page Hall on Friday evening of last week, at which time plans for Engineers' Day were discussed and committees were appointed by G. P. Hall, president of the council.

The council also made plans for holding a series of combined meetings of the technical societies on the campus. These meetings will be held at intervals throughout the college year, and each of the six societies will have charge of the program for one meeting. It is planned to have some of the foremost engineers of the United States to make addresses at the society meetings. By having such gatherings it is anticipated that the students of the various departments of the engineering school will be brought in closer contact with each other.

The date of the first meeting was tentatively set for the first Tuesday in November, with the Student Branch of the American Ceramic Society in charge. The principal address will be on the subject of "Brick Bonds and Brick Construction."

At the close of the meeting President Hall urged all the committeemen to begin making plans for even a more successful day than was enjoyed last year. The men appointed on the various committees are as follows: Engineers' Fair: A. McK. Greaves-Walker, manager; R. M. Rothgeb, assistant manager; D. N. Bordner, assistant manager. Engineers' Parade: P. E. Trevathan, chairman; B. A. Frestar and J. M. Kilgore, assistants. Engineers' Brawl: Jeff. C. Davis, chairman; R. W. Haywood and J. W. Norman, assistants. Advertising: E. D. Hubbard, chairman, and Sam Rowe, assistant. Alumni: R. M. Rothgeb, chairman.

Majors Harris, Howard and McCain View the Work of Corps

PREPARATIONS BEING MADE FOR 'BIG PARADE'

Regiment Will Participate in Armistice Day Celebrations—Attention Being Given to Appearance of Corps in First Public Inspection—Military Department Reported Pleased With Progress of the Unit.

The State College R. O. T. C. Regiment is now in full swing under the command of student officers. For the past two weeks the freshmen and sophomore battalions could be seen on their respective drill fields drilling in a most militaristic manner.

Cadet-Major J. S. Harris, supported by capable student officers, has been putting the sophomores through a complete review of drills and squad movements which they had last year.

The freshmen battalions, under the command of Cadet-Major B. B. Howard and J. H. McCain, are rapidly being changed from recruits to well-drilled soldiers.

All of this is preparatory drill for the "big parade" in which the State College Regiment, commanded by Cadet-Colonel C. H. White and Cadet-Lieutenant-Colonel S. V. King, will participate on Armistice Day.

Inspections are being made by the field staff and Regimental Adjutant H. H. Rogers is making notations on corrections in dress of the student soldier which will improve the appearance of the regiment on the first inspection by Raleigh citizens.

According to statements given out by Major C. C. Early in an interview, the military department is highly pleased with rapid progress and condition of the military units this year.

"The military training of the unit, as a whole, is far advanced over what it has been this early in the season heretofore," said Major Early.

The rapid advancement and good showing of the unit is in all probability due to the extra hour drill period and to the initiative, good spirit, and efficiency of the new officers in charge.

The new officers and non-commissioned officers have taken over their positions of leadership with energy and efficiency. Through the hearty cooperation of these officers and the unit as a whole the good spirit and pride within this unit for which Major Early has so earnestly worked is at last coming into its own.

The sophomores are to be highly commended for their alertness and competent handling of the freshman squads and the general standing and efficiency of the junior officers is well above the average.

This year the roll-collar blouse will replace the old standing-collar blouse. This much needed and long looked for change of the uniform will not only make the regulation uniform more neat, but it will also add greatly to the comfort of the men.

It is expected that the State College R. O. T. C. unit will present a splendid appearance in this new style of roll-collar uniforms.

Permanent appointments will not be made until about November 1.

LARGE NUMBER OF NEW MEN CHOSEN FOR GLEE CLUB

Forty-two Respond to Price's Call—Tours Will Be Made of Several Towns in State

Forty-two new men responded to Major Price's call for new material for the Glee Club. All of this number have been given try-outs and assigned to sections in the club.

Daddy Price will keep sixty men as a permanent club. The best out of this number will be selected for the tours. Early in November the club will make a week's tour, playing several towns in the State.

All indications point toward one of the best years in the history of the Glee Club.—Continued on page 2.

DR. L. M. SNYDER RETURNS FROM TRIP TO EUROPE

State College Professor Reads Paper to International Gathering

Dr. L. M. Snyder has just returned from Europe, where he read papers before the International Eugenics Congress and the International Congress for the Study of Heredity.

Dr. Snyder was invited to present a paper before the International Eugenics Congress, which was held at Amsterdam, by the Royal Dutch Academy of Science.

While in Europe he availed himself of the opportunity to visit all the Genetic laboratories in that country and also visited the University of Berlin, the University of Amsterdam, the Sanborn, in Paris, the University of Vienna, Austria, and the Colonial Institute, Amsterdam.

Dr. Snyder received the honor of being elected a member of two foreign scientific societies, the Deutsche Gesell-

schaft für Vererbungswissenschaft, a German scientific society, and the Österreichische Gesellschaft für Blutforschung, an Austrian scientific society.

At the meeting of the International Congress for the Study of Heredity, held at Berlin, there were over two thousand present, representing all nations of the world. Dr. Snyder was loud in his praise of the entertainment given the visiting members of the Congress. "They gave us a banquet in a wing of the Kaiser's palace. Excursions down the river and over the country. Took us to the best operas and shows. The German Republic spent thousands of dollars on entertaining the visitors," states Dr. Snyder.

"I enjoyed the meeting at Amsterdam just as much," said Dr. Snyder, when interviewed. At the meeting of the International Eugenics Congress he was made a member of the committee to arrange for the next meeting, which will be held in the United States.

He ended his trip in Europe by taking a trip from Amsterdam, Holland, to London, by means of airplane.

"The inside of the passenger plane looked like the inside of a parlor car. It held twenty seats, with an aisle passengers were permitted to walk around, lean out the window, and make themselves at home," said Dr. Snyder.

The trip was made at a speed of 150 miles an hour, a half-mile from the earth.

Engineering Committees Appointed By Council

(Continued from page 1)
and it was with great reluctance that the alumni finally consented to the suspension of publication of the paper in the spring of 1926 because of financial difficulties.

After doing without the "Alumni News" something more than a year, the executive committee of the general alumni association, after securing the promise of financial assistance

STUDENT TICKETS FOR WAKE FOREST GAME

Reserved seat tickets for the State-Wake Forest game will be issued from the office of the Graduate Manager at the Frank Thompson Gymnasium beginning at 9 o'clock Monday morning, October 10. A numbered reserved seat will be exchanged for the proper coupon in each student's coupon book.

Students will be permitted to purchase for friends and relatives reserved seats adjoining their own. The price of these extra seats will be \$2.00 each. Be prepared to purchase your extra tickets when you apply for your own.

The distribution of reserved seats to students will end at 10 o'clock Thursday morning, October 13, the day of the game. **POSITIVELY NO TICKETS WILL BE ISSUED TO STUDENTS AFTER 10 O'CLOCK ON THURSDAY.** Make your plans accordingly.

It is understood, of course, that the only ticket honored for admission to the Wake Forest game is the numbered reserved seat ticket.

T. H. STAFFORD,
Graduate Manager.

THREE HUNDRED FRESHMEN ENROLL FOR BIBLE STUDY

Vital Questions of First-Year College Life to Be Discussed at Meetings

Twenty-seven freshmen discussion groups met in the dormitory sections on the State College campus Wednesday night at 6:20. Over three hundred freshmen were enrolled in these groups, which will meet at this time each week for ten weeks. These discussion groups will be led by more than fifty upperclassmen and members of the faculty. Some of the vital problems which stand facing during his first year of college life will be discussed and an effort made to solve them.

This is the second year that these discussion groups have been conducted by the college "Y" for the benefit of the freshmen. For several years the "Y" has been putting on very successful Bible study programs for the student body in general; but last year the plan of having special groups for the freshmen only, during the fall term, was inaugurated. The plan proved so successful that it was adopted permanently.

The work is to be considered a part of the Bible study program, and the principles of Christ as laid down in the New Testament will be the guide and standard used in solving the problems which are to be discussed. The work will be led by C. L. Straughan, who is chairman of Bible study in the "Y" cabinet. The fine work of organizing these three hundred freshmen into twenty-seven groups was led by A. B. Holden, who is chairman of the New Student committee. He was assisted by his committee and the men who are to lead the groups.

The "Y" staff has arraigned to have some prominent and able speaker to speak each week at the regular assembly period on the problem to be discussed that week. Dr. C. C. Taylor, dean of the graduate school gave the first of these talks Wednesday at noon. He had for his subject the question, "Why Am I in College?" Last week's program gave his audience something to think about, and his talk made the discussions on Wednesday much more interesting and successful than they would have been otherwise.

The problem as stated to the groups for discussion was, "What Are We in College For?" The discussion of this very important question comes at a very opportune time and should help a large number of the freshmen to see college life in a more serious way than they had seen it before. It is the main purpose of the discussion groups to help the first-year men to get the correct view of college life at the very start, so that they may better use their time and ability.

Dr. Brooks recently made the statement that there were fewer casualties in last year's freshman class than ever before, so far as he was able to ascertain. He attributed much of the credit for this to the discussion or orientation groups last year. This year there are a larger number of freshmen enrolled than last year, and the results are expected to be even greater than they were last year.

Large Number of New Men Chosen for Glee Club

(Continued from page 1)
The following of the last year's club are back this year: John Cole, pianist; C. W. Overman, Howard Harrell, T. C. Byrum, T. E. Moore, Robert Selby, E. W. Tyson, C. M. Britt, Harry Wescott, Earle Nesbitt, W. L. Stinson, E. F. Fowler, B. C. Cronos, E. V. Vestal, W. R. McRakin, C. R. Ammonds, B. S. Linville, C. C. Oldham, D. P. Stinson.

The new men out for places in the club are: H. C. Phillips, E. M. Davis, Bob Gatlin, A. O. Dixon, S. M. Servicegood, Fred Fletcher, W. E. Swain, E. R. Rhodes, M. L. Shepard, D. L. Stucky, J. O. Satter, Frank Fletcher, Horace Campbell, A. O. Dixon, E. C. Wilkerson, John Gamon, D. W. Johnston, B. A. Buff, E. J. Carter, N. B. Callahan, R. A. Watson, J. H. Brown, C. L. Broadway, R. E. Bird, H. T. Prydes, M. R. Rowland, C. G. Lawrence, C. M. Smith, Bob Wilson, W. G. Maddrey, O. J. Mulaney, R. E. Truesdale, J. H. Mauney, J. W. Harrell.

Check Ruling to Help Men Cash Notes

(Continued from page 1)
appeal to the Student Council Check Committee.

THE CHECK COMMITTEE.
Note—Office hours: 2:15 to 3:15 p.m. from Monday through Friday. Saturday, 9:00 to 10:00 a.m.
(Report all clerical errors to office without delay.)
Additional checks:
OFFICE OF DEAN OF STUDENTS
(Returned Check Department)

Dear Sir:
Your son has just had a check of his returned unpaid. Notice is being sent to him on a form like the enclosed, simultaneously with the sending of this to you.

This note is sent without any sort of assumption as to how your son's check came to be returned. We merely wish to inform you what hap-

Edgeworth makes your pipe "do its stuff"

opened and ask your help in a matter which can best be worked out by enlisting your assistance.

We are making every reasonable effort to educate our students in the careful use of checking privileges and invite your cooperation. Especially do we urge two minimum precautions for your son to use:

1. Keep check stubs and keep them accurately.
2. Never draw on a deposit until absolutely sure it has been made.

Very few cases of dishonesty occur, but most well-intentioned carelessness in this matter costs merchants and banks much wastage and sometimes makes them unwilling to cash checks.
Cordially yours,
E. L. CLOYD,
Dean of Students.

Dairy Judging Team 1927 To Go To Memphis

(Continued from page 1)
enger is coaching the dairy products judging team. It will be remembered that last year's dairy team, competing with forty of the leading colleges in the United States and Canada, won sixth place, defeating such teams as Wisconsin, Iowa, Missouri, Kansas, Texas, and Michigan. The men who are working for the team this year are A. M. Council, W. A. Orders, J. H. Pope, G. H. White, C. S. Wilson, A. E. Shearlin.

Robert Upjohn Will Lecture In Y. M. C. A.

(Continued from page 1)
will discuss style in architecture, giving theory, background, and various factors that govern the style of one of the most beautiful arts. He will give the law of style and explain how exposure, expediency, climate, and customs of country, etc., influence style. Mr. Upjohn will also point out the relation of style in architecture to style in dress.

Robert Upjohn is the third generation of architects in direct line. The firm having been started by Richard Upjohn in Boston in 1833. Richard Upjohn is known in North Carolina as the designer of Christ Church in Raleigh.

The present Mr. Upjohn, of New York, has done work in this state for the last twenty-one years. He designed the D. H. Hill library at State College, the village chapel at Pinehurst, and the Chapel of the Cross at Chapel Hill. On these three buildings he won the diploma of merit at the International Exposition at Turin, Italy, in 1926. Mr. Upjohn is the designer of the President's home which is now being constructed opposite College Court.

The newly created Department of Architecture, of which Mr. Ross Shumaker is head, and the college in general is to be congratulated in se-

Why God Made Hell

Do you know why? If you don't, you should learn NOW—at once. One reviewer has said: "When Dante went to Hell he must have steered clear of the roasting apparatus... it remained for Dr. Saubrah to interestingly and fearlessly describe the nether regions." Over 2,000,000 have read it. Why not you? One Dollar postage paid.

STATE COLLEGE TO HAVE INITIAL NET TOURNAMENT SOON

Twelve New Courts To Be Ready First of Next Week

SQUAD WILL BE PICKED FROM WINNERS IN MEET

Separate Tournament for Freshmen and Upperclassmen is Plan of Coach; Meets With Teams From Other Colleges Also Planned.

Twelve new tennis courts, now under construction, will be available to students next week. The supports to hold the wire are already in place ready for the wire to be put on. The surface has been put on the courts and will be in first class shape as soon as it has had time to harden.

Professor H. T. Lefler, State doubles champion with Jasper Memory, has volunteered to coach a tennis team, provided he has support from the students. He has plans for a tournament, or rather two tournaments. One for the upperclassmen and one for the freshmen. The winners and the runners-up will be the nucleus for the squad from which he will train a team. All students wishing to enter the tournament that will be held next week are asked to see either Professor Lefler or Professor Green at their office, 111 Rick's Hall, Stokes White, Bob Litcher, and Hank Young will also take entries for the tournament. The freshmen are asked to see Coach Charles G. Doak at the gymnasium. The Athletic Association has been promising State College some suitable

By T. AVERNON

We have received no challenges for duels. We rest assured that nobody had their feelings hurt.

My, but didn't that Whity Rawl strut his stuff. His operations made greased lightning look like a turtle in a snow storm.

Tebell and Slaughter like the looks of the Clemson team—that is when they are playing some other team. So do we.

The Wolves will meet the Tigers this afternoon. The Wolves will twist the Tiger's tail and send it meowing back to South Carolina on the train. The harrier the twist the louder the meow. Twist 'em, Wolfpack!

We are making arrangements for the sports editor to go to Durham to see the Duke game, and he might also go to Greensboro, that is if the special train runs.

How is this column? A lot of bunk, I am told. We are acquainted with the Honorable Ben Dixon MacNeill, and are trying to be exactly opposite from what that weeping gentleman is. Write us a letter and let us know how it is going across. Don't crowd the postoffice with Irish confetti.

Let's get back to the original subject—sports. Coach Drennen has about seventy-five freshmen out for his yearling team. This squad is as hefty as has been seen this year. They were giving Mr. Tebell's varsity hall-columbia this week. This young 200-pound tackle-back-end protege of Dr. Sermon's is the stuff. He plays everywhere except center.

At last! We should hire Dr. Brooks' Pullen Hall and have a meeting of thanks. Twelve new tennis courts are about to be completed. But let's don't count the quantity of our young poultry before it has completely finished the process of incubation. Something might turn out wrong. A big rain storm might come along and wash off the hill on which they are located. These courts are distinctive. They are terraced.

We wish to thank the football players who posed for the pictures that are in the paper this week.

tennis courts for the last five years. Heretofore the few tennis courts have been on "Ag Hill." When the Physics Building was erected building material was placed on them and they were rendered unfit for use.

Professor Lefler announces that two or three matches would probably be arranged with Duke, Carolina, and others.

1927 STATE COLLEGE FOOTBALL TEAM

TEAMS READY TO MEET THIS AFTERNOON AT 3:00

Wolfpack Out to Revenge Game Lost to Clemson Last Year By 7-3 Score

The Tiger meets the Wolf in the latter's lair this afternoon on Riddick Field, Clemson College is sending its football team down to invade the gridiron of State College.

The Wolfpack waits in readiness and the Tigers arrived this morning and are in the Y. M. C. A. resting, after their short workout this morning on Riddick Field. The Wolves are out for revenge. They lost last year by the score of 7-3.

Both teams are stronger than they were last year. The South Carolina Techs are much improved since their new coach, Josh Cody, has "remodeled" the team. The Wolfpack is better this year than it has been in the last few years.

For the past two days the Wolves have been taking it easy in their workouts. Thursday the varsity only went through a dummy scrimmage, while the second team was scrimmaging Coach Drennen's freshmen.

When the whistle blows to open the game the Wolfpack will probably line us as follows:

Childres, left end; Lepo, left tackle; Vaughn, left guard; Metts, center; Nicholson, right guard; Evans, right tackle; Goodwin, right end; Adams, quarter; Outen, right halfback; McDowell, left halfback; Warren, fullback.

Traffic Cop (to Cause of Jam):

"What are you, a farmer?"
Cause: "No, but if I ever get out of here I'm going to be one."
Wet Hen.

UNDERGRADUATES BE TAKEN INTO ELECTRICAL SOCIETY

Freshmen and Sophomores Received as Associate Members of A. I. E. E.

The A. I. E. E. held its initial meeting Monday night, and unless all signs fail this year will see the most active group of electrical engineering students that have ever had charge of the society.

Some of the advantages to the student which result from relationship with these A. I. E. E. are the honor, benefit, and stimulation resulting from direct relationship with the national organization and association with those prominent in the electrical industry.

This year the freshmen and sophomores will be taken into the society as associate members of the student branch. Juniors are eligible for membership in the student branch, as has been the custom heretofore.

Graduates who were members realize the value of student branches more than present members. One says, "The branch is a means of bringing out and presenting the originality of the men, affording students an opportunity for discussion among themselves; giving a man a chance to put forth his ideas to his friends, where he is not afraid or sensitive."

"UNDER THE LID" NEW FEATURE ON EDITORIAL PAGE

The Column is coming more and more to be one of the main cogs in the publication of the modern newspaper; and in keeping with its policy of endeavoring to keep up with the times and to give its readers the best that it can obtain in news and other features.

It will be the policy of the contributor of the column to endeavor to carry out the policy of the paper, and to give its readers something of interest in human interest stories and general observations and opinions of the columnist.

That Jack Mulhall is rapidly becoming one of the most popular light comedians on the screen is the assertion of exhibitors all over the country.

Formerly seen only in dramatic roles, Mulhall has been featured in lighter parts by First National in his recent pictures with great success.

His latest role of this type is in "Smile, Brother, Smile," the picture which comes to the Superba Theatre Monday and Tuesday.

Dorothy Mackaill is featured with Mulhall in the picture.

Had Eddie Gribbon, one of the most prominent "heavy" comedians on the screen, followed his natural trend fight ans would by now undoubtedly be paying a handsome price to see him slaughter an opponent in the rosin ring.

Appearing in "Cheating Cheaters," which is to be the attraction at the Superba Theatre Wednesday and Thursday, as a gun-toting crook, Eddie does one of the best character roles of his career.

Betty Compton, the petite blonde beauty, plays the leading feminine role, with Kenneth Harlan appearing opposite her.

screen's most beautiful women, not only by the public but by some of the most famous artists as well.

During the making of "The Stolen Bride," her latest picture, which is at the State Theatre Monday and Tuesday, Miss Dove was sketched by James Montgomery Flagg and Arthur William Brown.

It's great to be famous. Ask Buster Keaton.

Shortly after the frozen-faced comedy star completed his first United Artists picture, "The General," feature photoplay at the State Theatre Thursday and Friday, he made a trip back East.

While speeding across the continent Buster planted himself on the observation platform of the limited and was enjoying the scenery when a girl began to eye him suspiciously. As Buster tells it:

"I was wondering whether to give myself up to the authorities when the young lady suddenly inquired, 'Aren't you Buster Keaton?'"

"The third degree unnerved me and I confessed. 'Will you do me a favor?' she asked. 'Yes,' I heroically exclaimed. Anything—absolutely anything but diving off the Washington monument.

"Well," she giggled, "when you get back to Hollywood, see if you can get an introduction to Constance Talmadge and ask for a picture of herself for me."

What Hit Him? A Topeka millman tells about a tin roof of a Kansas store that was torn off and rolled into a compact bundle by a cyclone. Having a sense of humor, the owner wrapped a few

strands of baling wire around the ruin and shipped it to Henry Ford. In due time came a communication saying:

"It will cost you \$48.50 to have your car repaired. For heaven's sake, tell us what hit you."—Ex.

The fool marries the girl he loves; the wise man loves the girl he marries.—Princeton Tiger.

CHEERS OF HISTORY

"They shall not pass!" may sound like a professor's defiant battle-cry after a harrowing day's work in checking exam papers. . . . but even the youngest "frosh" knows what the slogan really stands for.

"Hold 'em, Yale!" . . . seemed battle-worn and slightly impotent last year. . . . but those who know what's what say there's still a world of pep in it. . . . and maybe this year will prove it!

"Check that Crimson Tide!" was the frantic yell inspired by Alabama's ruthlessness in piling up points with the rapidity of an adding machine. Certainly, a yell worthy of the inspiration!

But as you will notice, all these, and other famous cheers, are defensive. . . . uttered with a prayer on the lips instead of a smile. So when a new cheer is born that

fellows actually yell with exultation. . . . It makes an interesting bit of news. . . . And particularly to smokers this new cheer sounds the Marsellaise of freedom from tongue-bite and throat irritation.

"You can enjoy them morning noon and night" may sound a trifle long, but it is certainly short and sweet to the man who likes to smoke two or three packs a day without having his tongue and throat remind him of it.

It is a slogan that expresses the

SOCIAL ACTIVITIES

Lambda Chi Alpha Dance
Saturday night Gamma Upsilon of Lambda Chi Alpha entertained with an informal dance at their home in Fairmont. The guests began arriving at eight, and after four hours of merriment wended their weary ways homeward, tired but regretful that Sunday morning's advent had stopped the merriment. Delicious refreshments helped make the occasion more enjoyable.

The following young ladies were present: Susanne Tucker, Melissa Brown, Martha Galloway, Bianna Matthews, Louise White, Sarah Whitaker, Hannah Flint, Elsie Underwood, Annie Laurie Underwood, and Marlon Cobb. Twenty freshmen and Mr. Roy Gay, an alumnus of the chapter, were among those present. Dean and Mrs. E. L. Cloyd chaperoned the party for the evening.

S.P.E. Dance
The members of N. C. Beta Chapter of Sigma Phi Epsilon fraternity entertained at their home on Chamberlain Street on Tuesday evening, October 4.

Those attending the dance were: Misses Latecin Mason, Katherine White, Annie Moore Parker, Nancy B. Hardin, Katherine Hardin, Louise White, Sarah Whitaker, Ann White,

Alma Willis, Alice Ball, Frances Handy, Anne Elizabeth Hairston, Louise Gatling, Martha Galloway, Ada Spencer, Sara Brooks, Virginia Graham, Bianna Matthews, Margaret Raney, Alice Brogden, Melissa Brown, and Margaret Sherrill. The chaperones were Dean and Mrs. E. L. Cloyd, Mr. and Mrs. W. B. Duncan, Mrs. Barbee, Mrs. Mason, Mrs. Browne, Mr. and Mrs. Ernest Randolph, Mr. and Mrs. Bason, and Captain and Mrs. Newgartner.

The home was beautifully decorated in the fraternity colors. Punch was served during the evening.

Theta Kappa Nu Reception
The members of the Alpha Chapter of Theta Kappa Nu fraternity were hosts at an informal reception at their home on Hillsboro Street Monday evening, October 3.

Dancing and bridge were enjoyed throughout the evening.

Including chapter members and other boys, those attending were Lib Ward, Sarah Denison, Katherine Raney, Sarah Whitaker, Annie Laurie Underwood, Elsie Mason Underwood, Frances Busbee, Katherine Carter, Ada Spencer, Hannah Rentrow, Louise White, Mary Bryan, Octavia Bryan, Reid Watkins, Hannah Flint, and Julia Venters. The chaperones were Mrs. O. W. Mason, Mr. and Mrs. Drennen, Mr. and Mrs. L. N. Davis, and Mr. and Mrs. Jack McDowell.

Mints, cakes and punch were served during the evening, and later an ice course with cake was served.

Phi Kappa Tau
The Phi Kappa Tau fraternity will entertain at a dance Saturday evening, October 8, at their home in Cameron Park. A number of guests have been invited and many out-of-town guests are expected.

De Molay Club
The Masonic and De Molay Club of N. C. State College, which was founded last year for the purpose of promoting closer fellowship of the Masons and all De Molays on the campus, held its first meeting last week.

The club expects a most successful year, as six bids have already been accepted for this year. Plans are now being made for the initiation of the new men.

Following the initiation, there will be a banquet at which several of the leading Masons of State College faculty will be present.

All De Molays and Masons connected with the college are cordially invited to visit the chapter room in 103 Seventh Dormitory.

State-Clemson Dance
There will be a dance Saturday evening at 9 o'clock in the Yarrow-Hotel ballroom. This dance takes place the night following the State-Clemson football game.

Kappa Alpha Entertainment
The Kappa Alpha fraternity entertained a number of freshmen last Saturday evening in a most delightful and colorful way at their attractive home on Vanderbilt Avenue.

After everyone had feasted to his heart's desire, a number of fair maidens were brought forth, adding more color to a most attractive scene and enjoyable evening.

Terpsichorean Club
The Terpsichorean Club members were rounded up Wednesday evening

and gathered together for the first time since their dance given in honor of the 1927 debutantes.

Officers for the fall season were elected to succeed "Pop" Williams, president; Dick Telfair, vice-president; Jew Ellington, secretary and treasurer; and Warner Chamblee, business manager. The members elected were: Hank Young, president; Hubert Parker, vice-president; Irwin Bailey, secretary and treasurer, and a number of others were chosen for various purposes.

Plans are now being prepared for a successful fall season of dances and will be presented at the next meeting.

The Terpsichorean Club was organized by a group of Raleigh boys in 1925, and is now widely known all over the state for its social functions.

Messrs. John Warlick, Ralph Gregg, "Sheeny" Gardner, and Zeb Plonk spent the past week out of town.

"Pop" Williams, "Jimmie" Dandy, and "Hank" Young attended the Carolina-Tennessee football game.

Mr. Eugene Kimball, accompanied by several Meredith girls, motored to Enfield Friday.

Sigma Pi Supper
The Sigma Pi fraternity was host at a supper given for the freshmen Sunday night at their home on Clark Avenue.

All flowers were arranged throughout the house, and a lighting effect in the form of the Sigma Pi pin illuminated the living room.

Bill Swain was an apt entertainer, and gave a most amusing imitation of a circus Barker. Professor and Mrs. Greaves-Walker were guests, and Misses Martha Galloway, Caroline Tucker, and Elsie Mason Underwood served the supper.

Three Seminoles from Charlotte visited their fellow Indian, Sam Alexander, '28. The visitors were Harry Shaw, Fred Wiggins, and Dick Watts.

'POP' WILLIAMS NEW PRESIDENT OF GERMAN CLUB

The State College German Club, oldest organization of its kind on the campus, held the annual election of officers Tuesday night at the "Y." Joe Cobb, retiring president, presided over the gathering, and after declaring the meeting open for nominations, names called thick and fast.

After the smoke had cleared away the following men were declared to be victorious: "Pop" Williams, president; Roy Arthur, vice-president, and "Doc" Elam, secretary and guardian of the coffers. Since the newly elected president for some reason was not present, the "assistant head man" took charge.

A telegram was read from Weidemeyer's Orchestra in regard to playing for the Thanksgiving dances. It is hoped that this popular band may be secured for these dances, as they are an old favorite with State men.

All members of the club are urged to see Doc Elam as soon as possible, in order that their membership in the club may be certified.

A dance will probably be given in a short while, as soon as the club officials can confer with the social functions committee.

DAVIS CHOSEN TO LEAD CRAVEN COUNTY CLUB FOR SCHOLASTIC YEAR

The Craven County Club held its first meeting Friday night, September 30, with ten members present and five absent, the absence due to misunderstanding as to date of meeting. This being the first meeting of the year, the following officers were elected: Jeff. C. Davis, president; T. G. Smith, vice-president; Raymond A. Watson, secretary and treasurer; J. Van Lancaster, reporter.

After the election of officers the club agreed to have a smoker in the near future in order to get better acquainted. The members seem to be very enthusiastic over the club, and believe that with the loyal support of each member it will be a most profitable and successful club throughout the scholastic year.

It was further agreed that the reporter should report all incidents of interest concerning each individual and the club as a whole to the Technician and to the New Bern papers.

POULTRY CLUB HEARS OF THIRD WORLD CONGRESS FROM DR. R. S. DEARSTYNE

The Poultry Club held a meeting Thursday evening, September 29, immediately following the send-off of the Wolfpack for Greenville, S. C.

The meeting was opened by singing "Old Black Joe" and "Hail, Hail, the Gang's All Here." The singing was led by Freshman Watson.

Dr. B. F. Kaupp gave a warm and hearty welcome to the new men. He stated that there was no place in life for the mediocre man, and that one of the best places to develop real men who will mean something for State College is in such organizations as the Poultry Science Club.

Dr. R. S. Dearstyne presented an interesting report on the third World

CERAMIC SOCIETY HOLDS FIRST MEETING OF YEAR

President Appoints Committees and Receives New Members Into Society

The student branch of the American Ceramic Society met Tuesday evening in the Ceramic Building with an attendance of almost one hundred percent of the old members. Plans were made for the year and some interesting programs are in prospect.

President "Mac" Greaves-Walker appointed P. E. Trevathan as chairman of the program committee. The society's committees for Engineers' Day were also appointed and instructed to begin work. The following members were appointed:

Fair—D. L. Stuckey and F. S. Hardee.

Parade—W. L. Stafford and J. E. Boyd.

"Brawl"—R. B. Stamey and E. M. Fennel.

The first named of each committee was designated as chairman. S. F. Hardee was appointed chairman of the attendance committee.

The Ceramic Society will be the host at the first combined meeting of the campus technical societies, to be held under the auspices of the Engineers' Council, Tuesday, November 1. This meeting will be held in the Electrical Building.

Following the regular business meeting four new members were initiated. These included H. H. Hutchinson, J. E. Rankin, F. W. Sunrell, and E. G. Couch. The ceremony was concluded with the presentation of the society's badge to each initiate.

Poultry Congress, which was held July 27, 1927, at Ottawa, Canada. The first World Poultry Congress was held in Holland and the second in Spain. Forty countries and 5,000 delegates were represented at the third congress. The Canadian Government spent \$500,000 to make possible this meeting of the world leaders in the poultry industry. Dr. Dearstyne reported on some of the more important papers that were presented at this congress.

Professor H. S. Wilfong gave a short talk on "The Value of Training in Poultry Science."

H. C. Ganger, a graduate student from Connecticut, was elected critic for the club.

STATE COLLEGE WILL CELEBRATE DAD'S DAY

Dads Will See State-Wake Forest Game and Students' Agricultural Fair

State College will celebrate its annual "Dad's Day" on Thursday, October 13. This is the day of the State-Wake Forest grid classic, which is expected to be a strong drawing card in North Carolina. An added attraction will be that the Agricultural Students' Fair will be open on this day. This is the second time that a day has been set aside to be devoted to the Dads.

The college administration is strongly in favor of the plan and believes it will do much good to both father and son. It will give the Dads a chance to visit their sons and become better acquainted with the college to which they are sending them.

Letters will be distributed among the students prior to the Big Day. The students will be expected to send these letters home, inviting their Dads to come up and spend the day with them. Many of the fathers do not visit their sons while in college, and it is hoped that they will take

advantage of this invitation and come to see them.

The students are asked to co-operate with the college authorities in making this one of the biggest days of the college year.

Mr. Fred Forbes left by motor for Greenville, where he will spend the week-end with his parents.

Dr. Arthur John Wilson, B.S., 1907, is professor of analytical chemistry and chairman of the Chemistry Department of N. C. State College.

P.A.
is some little cheer-leader
EVERY pipe is a Sunny Jimmy-pipe when it's packed with P.A. The tidy red tin chases the blues—and how! Why, you feel better—the instant you open the tin and get that marvelous P.A. aroma. Every chore becomes a cheer, and you're sitting on top of the world.
Then you load up and light up. That taste—that never-to-be-forgotten, can't-get-too-much-of-it taste! Cool as a cut-in from the stag-line. Sweet as retaliation. Mild and mellow and long-burning, with a balanced body that satisfies, right to the bottom of the bowl.
You find that P.A. never bites your tongue or parches your throat, no matter how often you stoke and smoke. Get on the sunny side of life with a pipe and P.A. Buy a tidy red tin today and make the personal test. Pipes were born for tobacco like this.
P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and punch reserved by the Prince Albert process.
PRINCE ALBERT
—the national joy smoke!
