

## KINSTON MAN TO DELIVER SERMON TO GRADUATES

Frederick M. Snyder To Give '28 Commencement Address

BOTH SPEAKERS NOTED MEN IN THEIR FIELDS

June 3, 4, 5 Set as Date for Exercises — Orators of Schools Will Speak on Monday Night — Degrees To Be Awarded Tuesday.

Reverend Abram Edward Cory, D.D., LL.D., pastor of the Church of the Disciples of Christ, Kinston, N. C., and a noted man in the religious world, will deliver the baccalaureate sermon Sunday, June 3, according to Dr. T. F. Harrison, chairman of the commencement committee. Frederick M. Snyder, Johns Hopkins University, secretary of the press of the Congress of the World, will deliver the commencement address June 5 at 10:30 o'clock.

Dr. Cory is a well-known man in religious circles of today and has held some very important positions in his life. He is a graduate of Eureka College of Illinois, and has done graduate work there and also at Columbia University and Drake University, Des Moines, Iowa. Fifteen years of his life was spent in China doing missionary work in the secretarial and educational field. He has been doing general work for the Disciples of Christ in America since 1912.

In addition to being the pastor of the church at Kinston, he is now secretary of the Foreign Christian Missionary Society, Men and Millions, the United Christian Missionary Society of the Disciples of Christ, and is associate secretary of the Interchurch World Movement of North America. He also represents the Disciples of Christ Church in the Federal Council of Churches of Christ, and was president of the International Commission of the Disciples of Christ, 1923-24.

During the World War he was overseas with the Y. M. C. A. and achieved a great service there. In 1909 he was chaplain of the First U. S. Infantry in the Philippines. His three books, "Trail to the Hearts of Men," "Think Peace," and "Out Where the World Begins," have been widely read and appreciated. His sermon at State promises to be one of great interest to everyone.

Mr. Snyder is a very prominent man in the educational and international affairs of the United States. In addition to being secretary of the Press of Congress of the World, he is also a member of the board of control of the Walter Hines Page school of international relations of Johns Hopkins University.

The program is somewhat the same as that rendered last year. Sunday morning at 8:30, June 3, the baccalaureate sermon will be delivered. Monday morning at 9:30 the annual meeting of the Alumni Association will be held in the Y. M. C. A. auditorium of the college. At 11:30 the annual meeting of the board of trustees will be held in Holladay Hall.

Eighty-three in the evening will see the orations by members of the graduating class. Following this, the announcement of honors and awarding of medals and prizes will be made. They will be delivered in Pullen Hall as usual.

Tuesday, June 5, at 10:30, Dr. Frederick M. Snyder will deliver the commencement address and the degrees and certificates for meritorious service in agriculture will be awarded. This will close the exercises for the year.

### R. A. WATSON WILL PRESIDE OVER CRAVEN COUNTY MEET

R. A. Watson was elected president of the Craven County Club at a meeting held Friday, May 4. Other officers are T. G. Smith, vice-president, and R. M. Lane, secretary and treasurer. These officers are for the year 1928-29. Watson was also appointed chairman of committee to write up the activities of the members of the club during the past year.

### WILL SPEAK HERE

A. D. MOORE

## A. D. MOORE, UNIVERSITY OF MICHIGAN, TO TALK ON SCHOLARSHIP DAY

A. D. Moore, assistant professor of electrical engineering, University of Michigan, will deliver the scholarship day address at State College, next Wednesday, May 16, with his subject as "The Uses of Scholarship."

For over three years Mr. Moore has been president of Tau Beta Pi, national honorary engineering fraternity, and has been for twelve years with the Michigan institution. He is author of "Fundamentals of Electrical Design," an electrical engineering textbook, and has written several articles for the Electrical Journal and the Bent and Council Bulletin of Tau Beta Pi. He is a native of Pennsylvania.

Mr. Moore is a member of the executive council of the Association of College Honor Societies and is author of Tau Beta Pi's treatise, "The Honor System in the American College," dealing with the honor system in schools having a chapter of the fraternity.

Mr. Moore will arrive in the city early Wednesday morning and will spend the day at State College.

Dr. E. C. Brooks, president of the college, will preside at the exercises next Wednesday. Music by the State College orchestra and invocation by Dr. Milton A. Barber, rector of Christ Episcopal Church, Raleigh, will precede a talk by Henry H. Rogers, president of Pine Burr scholarship society, on the "Purpose of Scholarship Day."

The Michigan University professor will then deliver the chief address of the day. After a few more selections from the college orchestra, Dr. Z. P. Metcalf, member Alpha Zeta honorary agricultural fraternity, will read the names of those receiving honors in scholarship.

Following this will be the awarding of scholarship prizes and the benediction by Dr. Barber. Selections by the orchestra will close the program for the day.

Activities will begin at 11 o'clock Wednesday morning and will close at 1. Classes are to be suspended for that time.

## Hicks, Associate "Y" Secretary, Plans To Return In September

W. N. Hicks, associate secretary of the local Y. M. C. A., who has been on leave of absence this year, will return to the college in September. Mr. Hicks is studying at Oberlin College, Oberlin, Ohio, and will get his Master's degree there in June. During the summer he plans to study in the Y. M. C. A. graduate school at Blue Ridge.

Beginning next year, Mr. Hicks will offer courses in religious education for which the college will allow credit. During the first quarter he will give a course on the "Life and Teachings of Jesus." The second quarter he will give a course which he calls "Introduction to Religion." The third quarter will be a repeat for one of these courses for which there is most demand.

Mr. Hicks has had a good deal of experience as a teacher and as a result of his special study this year will be well prepared to give the courses he is offering.

In addition to this work, Mr. Hicks will teach twelve hours in the Department of sociology. He will also have a part in directing the work of the Y. M. C. A.

## Engineering Was Ahead Of History Says W.H. Browne

Tells of Electrical Accomplishments in Lecture of Phi Kappa Phi Series

"The beginning of engineering started a long time before history," stated Professor Wm. Hand Browne, in delivering one of the series of Phi Kappa Phi lectures in the Y.M.C.A. auditorium on "The History of Engineering" Friday night.

He went back into history for a short while and told how the profession of engineering originated as a single profession and followed it down to the present day when it is divided into dozens of different branches.

He brought out the fact that the Panama Canal was the great spectacular engineering feat that had been accomplished in the last few years.

The most interesting part of the lecture to many of those who heard it was the description of many inventions made by the engineering profession which have made possible our advanced mechanical civilization. Mr. Browne went into detail in explaining the large turbines, the motors, dynamos, and engines that are the source of the power in the industrial world today.

He explained the fact that engineers and industry are now working toward a vast unification of power in order to connect the power system of the country into one large cooperative unit. Telegraph and telephone systems were mentioned as examples of such cooperation.

Some of the problems of the engineering profession which Mr. Browne mentioned are the transmission of power, lighting of highways, railroad crossings, efficiency of engines, reduction of the danger of mechanical flights, and the elimination of hazards in landing airplanes.

"The mission of the engineer is not to make man the servant of machines, but to acquire knowledge till the machine is the servant of man," stated Mr. Browne, as he closed.

## ELLIOTT TAKES FIRST PLACE IN NET TOURNAY

Bob Elliott, a freshman, won the Wake County tennis tournament when he defeated Professor Ralph Green Thursday afternoon in three straight sets, the scores being — Hugh Luff and Green won from Elliott and his youthful partner, Harvey Harris, in the doubles play by taking three straight sets.

The state tournament will start here Monday. Entries are being received daily by the club, and the drawings will be made Sunday, so that play can start Monday.

## SIXTY-THREE ARMY AIR SCOUTS HOLD LOCAL ATTENTION SATURDAY

Citizens of Raleigh were treated to an unusual sight Saturday at 3:30 o'clock when sixty-three army airplanes bound from Langley Field, Va., to Fort Bragg, passed over this city in military formation.

The pursuit and attack planes, flying at several thousand feet, made three complete circles above the city, then headed south for Fort Bragg. At a distance they looked like a swarm of bees high in the sky.

Due to a thirty-mile head wind, which cut down the speed of the bombing planes to less than sixty miles an hour, these planes flew direct to Fort Bragg. The planes took part in a program of mock aerial combat last Monday. Thousands of people visited Fort Bragg to see the performance.

## GOLDEN CHAIN TAPPING TO BE HELD ON MAY 14

Speculation is rife on the campus as to who the twelve members of the junior class are who will be tapped at the Golden Chain tapping to be held this year on May 18.

Tapping, as in the past, will be held at the base of the memorial tower and around the sun-dial. The order was organized three years ago, when a group of students trying to find some way to promote scholarship, athletics, leadership, and good will, formed the Golden Chain.

The tapping this year will be the third, and plans have been made to have a speaker for the occasion. The name of the speaker could not be learned at the time of publication.

## POWDER BLAST BENEATH CHAIR STARTLES BURNEY

Unhurt but startled for a time to a considerable extent, L. B. Burney, Watkins dormitory, had recovered last Saturday morning from the effects of a surprise explosion of a quantity of powder placed under the chair in which he was sitting before his radio set and which had in some way become ignited.

The slight sizzling noise that for a few seconds preceded the explosion Burney thought came from the receiving set on the table, but the fuse soon reached the powder, estimated at about three ounces, and a bright, flaring flame encircled his chair. Only the fact that the fire was instantaneous saved Burney's clothes from destruction.

It is not known how the powder came to be under the chair nor how it became ignited.

## FOURTH CORPS AREA STANDS FIRST IN R. O. T. C. TRAINING

Figures Prepared by War Department Show Eight Southeast in Lead

Figures just made available by the War Department show that the eight states of the Southeast comprising the Fourth Corps area lead all the others in the United States in percentage of R. O. T. C. students to the total number of students enrolled in the institutions maintaining military training.

The data furnished is based upon enrollments for the first semester of the present school year. Of the total 124,833 Reserve Officers Training Corps students in the entire United States and Hawaii, 19,256 were enrolled in the Fourth Corps Area. In this Corps Area the state of Georgia stood first with an enrollment of 5,952, while Tennessee was second with 3,503, and Alabama third with 3,065.

Not only does this section of the country stand first in the manner stated, but the figures reveal, as in past years, that it also leads all other Corps Areas in the total number of educational institutions that maintain Reserve Officers Training Corps units.

The total number of such institutions in the United States and Hawaii is 323 and 62 of these are to be found in Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee, the states of the Fourth Corps Area.

Major General Richmond P. Davis, Fourth Corps Area Commander, in commenting upon this excellent showing, said: "This reveals a gratifying record for the entire country and particularly for the states of the Southeast. It indicates the great popularity of R. O. T. C. training among the youth of this section of the country. It shows appreciation of the worth of such training by heads of institutions and their faculties to whom great credit is due for such an enviable record. This part of the United States has always been in the forefront when the question is one of public service, and here again we have another illustration to further establish that as a fact."

General Davis declared, "This indicates a definite sign of discredit to the efforts of various invidious organizations which have in some institutions attempted to poison the minds of our youth towards this valuable democratic training."

In conclusion he said: "The Organized Reserve which will constitute the bulk of our army in another National emergency are dependent upon the R. O. T. C. first, and the C. M. T. C. second, for keeping up their commissions and strength. As the years go on and age and other causes take from the rolls of the Organized Reserve those officers who saw service in the World War, the bulk of our army must be officered from the product of these two valuable reservoirs, the R. O. T. C. and the C. M. T. C."

## CLOYD ATTENDS MEETING OF DEANS IN COLORADO

E. L. Cloyd, dean of students at State College, left Monday for the University of Colorado, Denver, Col., to attend the meeting of the Associations of Deans of Men Students, in session there this week and part of next. Mr. Cloyd expected to be gone about ten days and will return about next Thursday.

## September Registration In One School Made Easier By Scheduling Courses Now

BLUE RIDGE CONFERENCE TO BE HELD JUNE 15-25

Cost After Arrival Will Be \$32 As the Only Necessary Expense

From all indications the Blue Ridge Student Conference, to be held June 15-25, will be the best from the standpoint of program that has been held within the last ten years, local "Y" secretary E. S. King said today. Under the direction of O. R. Magill and C. B. Loomis, the two efficient regional Y. M. C. A. secretaries, the conference has been very carefully planned and some of the very best leaders in America have been secured.

Among the speakers and leaders who will be there are Reinhold Niebuhr, Arthur Rugh, W. W. Alexander, Harrison Elliott, S. C. Mitchell, Bishop F. J. McConnell, Taliaferro Thompson, and W. L. Potest.

There will be a special section of the conference on vocational guidance, under the leadership of Dr. Henry W. Chase, president of U. N. C. Any student who attends the conference may have, if he desires, the advantage of expert counseling.

The daily schedule has been carefully planned. The devotional period each morning will be under the leadership of Dr. Taliaferro Thompson. This will be followed by the biblical research period under Dr. Harrison Elliott. Then comes a free period which can be used for personal interviews and group meetings. The last period in the morning the conference will divide into groups, which will study modern problems. Some of these will be science and religion, men and women relationships, the church, industry, race, nations, citizenship.

The whole afternoon is devoted to recreation and sports of all kinds. Recreation will be under the direction of Dr. Messing, director of physical education at the Y. M. C. A. graduate school.

After supper comes a song-fest, an hour on the technique of college Y. M. C. A. work, and then an address by one of the outstanding speakers.

A number of State College people have already decided to go. Among these are Dean Schaub, Dean Cloyd, J. E. Moore, and R. H. Gattlin. A number of others are considering it. State should have at least twenty-five men there, it is said. Those interested in going should talk with Joe Moore, W. P. Albright, or a member of the Y. M. C. A. staff.

Actual cost after arriving at Blue Ridge is \$32, twenty-five of which is for room and board and seven of which is for program fee.

## MAX GARDNER WATCHES THE CADETS PARADE IN USUAL MONDAY REVIEW

The State College R. O. T. C. Regiment was reviewed Monday, May 7, at 12 to 1 p.m. by the Honorable O. Max Gardner, alumnus of State College and unopposed democratic candidate for governor of North Carolina.

A large crowd witnessed the parade, and among those present were members of the faculty and their families. Many students were also present, and a large number of citizens of Raleigh. After the parade the senior cadet officers were introduced to Mr. Gardner by Major Early.

The R. O. T. C. parade is held on "red" field each Monday, a date which was selected after Thursday was found to be unsuitable because of a conflict.

During the year the R. O. T. C. parades have been reviewed by some outstanding men of North Carolina. Among them were Angus W. McLean, Governor of North Carolina; General Bowley, of Fort Bragg; J. Van B. Metts, adjutant general of North Carolina, and Dr. E. C. Brooks, president of North Carolina State College. The last parade of the year, to be held May 21, will be reviewed by the senior R. O. T. C. officers.

## Science and Business Students Will Sign Up in Spring

PAYING FEE AND GETTING CARD LEFT UNTIL FALL

Success of Plan Depends on Cooperation of Students, Says Schedule Committee Chairman — Advisers to Take Charge.

Students will designate the courses they will take next year before they leave college this spring, according to Professor Mayer, chairman of the schedule committee. This is something new in State College history, as it has never been tried before. It is not a registration, but an attempt to obtain some method by which the schedule for next year can be arranged without so much trouble as has heretofore been the case.

Registration next year will consist of making changes necessitated by students desiring to change from one course to another. The only registration of those students who take the courses they sign up for next fall will be simply paying the fee and receiving their registration card.

"The success of our plan," the schedule committee writes to the student advisers, "for an advance designation of courses for next year by each student will depend largely upon the adviser and the student, carefully considering both the past record of the student and the advance requirements. We are therefore asking that each adviser exercise the utmost care in making the student's plan correct. An opportunity will be given in June for changes due to failures this term."

"We are somewhat handicapped because the new catalog is not available, but a list of new electives will be provided and the required courses will be on the cards. This year's catalog will be your guide except where more recent information is provided."

"The advisers should be very frank in their discussion with the student about next year's work. If the student plans to change to another curriculum now is the time to plan with the new adviser for the change."

### Student Advisers

Under the new system the whole college is divided into divisions of a certain number of men with an adviser over them. Each school will have several advisers, and each student will have a certain adviser assigned him who will aid and assist him in making decisions and changes. It is hoped by the men heading the system that this will eliminate to some extent the promiscuous changing students have been making from one course or one school to another.

In the school of engineering Dean Riddick has charge of the advisers, who are the heads of the departments in that school. The heads of the different departments will divide the students into sections and assign the different sections to instructors in those departments.

Dr. Metcalf has complete charge of the advisory system in the school of agriculture and in turn will have advisers under him in the different departments of the school of agriculture.

In the textile school Professor Hart has charge. He will divide the students into sections and handle them himself, as he sees fit.

Those in the school of education will go to the office of Mr. Mayer for arranging their work for next year.

The school of business and science has offered the greatest problem, as it has a larger number of different courses and departments than any of the other schools, with a wider range of electives.

Dean Brown has divided the departments under the following men as advisers:

Those majoring in science: Chemistry, Dr. Wilson; physics, Professor Heck; biology, Dr. Wells.

Industrial management, Professor Hennings.

In the school of business administration — Continued on page 2.

Paragraphics

As we worked on this issue of the paper there seemed to be an invasion of the campus by several carloads of girls with cries of praise for Meredith. Did you hear them?

We are glad to have the speaker-visitors on our campus during the rest of the month at the different ceremonies. They will perhaps give us a slant on the life of other college communities.

One of the professors has possibly adopted a little yellow dog that frequently runs to his office for shelter on rainy days. The pup evidently thinks he is in good company when he flops on the floor in front of the radiator.

COOPERATION

Now that there is a possibility of changing the system of registration so the students will not have so much to go through in the fall opening of school, there has at last appeared one of the things looked forward to by many for quite a while.

If this system works it will mean the having of quite a bit of time for all the student body next September, as well as that of the professors. If it doesn't work we suppose there will be a return to the old system of standing in line until the faculty adviser can o.k. one's roster.

By this change, it is said, registration time for each student will be cut down to about ten minutes, in the opinion of some who have discussed it. At once this appears much more desirable than the old method of standing in line until one or two hours have slipped by—sometimes even more than that.

Chairman Mayer, of the schedule committee, calls on the student body for cooperation in putting this new system across to such an extent that it can be established here for good. If the help of the students will enable the faculty to cut down our registration time, let's all get behind the movement and work for the new system. Come on boys with your support to the new plan the faculty council is offering us.

WISE AND OTHERWISE

Turnmoll! That is the word that most fittingly describes the state of mind of the thinking college student. The attitude and philosophy of some regarding such a state of intellect may be summed up in any of the philosophical phrases: "If winter comes spring cannot be far behind," or "It's always darkest before dawn."

It is quite probable that the average student passes through something of a quasi-millennium on the high road to knowledge. That is quite natural. The intricate problems of life cannot be circumscribed in their full breadth with one measuring. But how much more is the gruelling for the college man.

The philosophy taught in a course in literature is quite different from that taught in a sociology course. Not that the philosophy of life is different in its application to English or social-

ogy. The difference is to be found in those teaching it. Every professor cherishes his own ideals and tries to strengthen them by imparting them to his students.

The same conflict will be found in courses of history and economics. One professor will teach that a high tariff is a necessary protection for home industry; another will teach that it has come to be a protection and has become a monopoly. And so on down the line through the various courses of study.

Is there any wonder that the college student can't reach a decision in after life? Not at all. In school he had never been allowed to reach one. Some of them may survive, but they are the exceptional ones. They are the ones who will be the greatest successes. In school they were hard-headed or dumb. In this light is dumbness a virtue or a sin? Pity the poor student who takes to heart everything he hears. The chances are that his constitution is not strong enough to throw it off. Turnmoll!

September Registration In One School Is Made Easier By Scheduling Courses Now

(Continued from page 1)  
tion: Juniors and seniors under Professors Moen, Stretcher, and Wood; sophomores under Professors Anderson, Green, Harrelson, and freshmen under Professors Stuckey, Clark, and Lefler.

It is understood that the classes mentioned are those of incoming students. In the department of social science the advisers are: Journalism, major, Professor Robertson; general business, major, Dean Brown; public administration, major, Professor Moen; rural and industrial sociology, Professor Anderson; special students of all kinds, Dean Brown.

Changes in Curricula  
In addition to the changes in the registration system there will be quite a few changes in courses for next year. In engineering the freshmen and sophomore years have been made identical for all engineering students. Previous to this time they have been very much alike except some difference in the lecture courses. Now they have been made substantially the same, in order to take care of changes from one school to another. The idea behind it all is to make it as easy as possible for a student to make the changes they seem inevitable to make with a minimum loss of work, and with least irregularity.

The school of science and business has, without doubt, made the greatest changes of all. Under the present system there is opportunity for any one of eleven different majors in that school: in science, chemistry, physics, and biology; in business administration, accounting, marketing, and banking and finance; in the social science curricula, journalism, general business, public administration, rural and industrial sociology; and the degree in industrial management.

These new courses have been made with the idea of taking care of the demand that has arisen for wider specialization or for some that want a more liberal education than would be offered in the specialized accounting, marketing, or finance courses.

Must Meet Advisers  
Dean Brown met this year's freshmen Wednesday afternoon when he explained the different courses to be had in the school of science and business and the steps to take under the new system. The sophomores were met Friday afternoon.

In all the schools the plans are to have the designation of courses completed by May 19. During next week the advisers of the business school will meet with students in that school to arrange rosters for the coming year.

The hours at which the advisers may be seen for this purpose will be posted on the doors of their offices for the benefit of the students, and they have asked that the students take advantage of this service.

JOHN A. PARK SPEAKS TO JOURNALISM CLASSES ON NEWSPAPER ESSENTIALS

Journalism classes were given the privilege of hearing a very instructive lecture last Saturday at 9 o'clock, when John A. Park of the Raleigh Times spoke to a room well-filled with students and visitors. This lecture took the place of the regular class for that day.

Mr. Park talked on the management and financial side of newspaper work. He stated that the young man expecting to enter the field of journalism as a profession was beset with many difficulties, and if he were wise would think well about this before making a definite decision. He briefly outlined the essentials of newspaper publication, explaining the various departments and branches. Mr. Park also gave some interesting facts pertaining to the Times and the growth of the newspaper business. It was interesting to learn that there are only about five hundred fewer evening papers sold in Raleigh than there are homes. This means that the majority of the families of Raleigh are reached by the paper.

Mr. Park is a former State College man and has had wide experience in the field of journalism. He has been the owner of several North Carolina newspapers, and is now publisher of the Raleigh Times.

This lecture was both interesting and instructive and gave the students in journalism some sound logical facts to think about.

Speaking of ancestors:  
Percy: "You know, the King of England tapped my great-grandfather on the shoulder with his sword and made him a knight."

Johnny: "Humph! That's nothing. An Indian tapped my great-grandfather on the neck with a tomahawk and made him an angel."

Smart boy at Dartmouth refused a Phi Beta Key because it isn't any indication of ability. I suppose next fall some fellow up there is going to turn down a football letter because it don't prove he's a grand opera star.

Blindfolded . . . in scientific test of leading Cigarettes, Mrs. Reginald C. Vanderbilt selects OLD GOLD

MRS. REGINALD C. VANDERBILT

"I wonder if one can really tell the difference, when blindfolded, was my first thought when invited to make this test.

"After smoking the four brands, as they were handed to me one after another, I discovered there was one that was noticeably smoother than the others and richer in taste.

"This proved to be an OLD GOLD. I hope I shall be able to buy them in Paris . . . they are surprisingly free from any trace of throat irritation and have a delightful aroma which to me is very important."

Reginald C. Vanderbilt

How

Test Was Made

Mrs. Vanderbilt was blindfolded, and, in the presence of two responsible witnesses, was given one each of the four leading cigarettes to smoke . . . To clear the taste, coffee was served before each cigarette . . . Mrs. Vanderbilt was unaware of the identity of these cigarettes during test . . . After smoking the four cigarettes, Mrs. Vanderbilt was asked to designate by number her choice . . . She immediately replied: "Number 3" . . . which was OLD GOLD.

SMOOTHER AND BETTER - NOT A COUGH IN A CARLOAD

# Virginia Team Defeated 6-4 By Local Ball Squad

Cavaliers of the University of Virginia Thursday were sent away after suffering a 6 to 4 defeat at the hands of the State College Wolfpack, in the shape of nine diamond artists whose hits were well jumbled with the visitors' errors, to bring down the final score.

Sammy Rowe was first sent to the mound by Coach Chick Doak, but was later replaced by Larry Allgood, whose close pitching in several tight places spelled another win for the local team.

A walk scored the first Virginia victory while they pulled in two more in the second.

The renowned and fateful seventh inning rally of the State College ball team was again prominent Thursday.

Shopper: "Give me a pound of green tea, please."

Clerk: "Sorry, ma'am, but all the tea we have is dried."

when the winning runs were added to the score.

Hits: Off Rowe, 4 in 2 innings; Kidd, 3 in 4; Allgood, 0 in 2; Meliner, 5 in 5; Atkinson, 3 in 5. Winning pitcher: Kidd. Losing pitcher: Meliner. Wild pitch: Kidd. Time: 1:45. Umpire: White.

## "Y" CABINET GOES INTO OFFICE WITH ADDRESS BY PASTOR JACK ELLIS

Installation service of the newly elected Y.M.C.A. officers was held in the Y.M.C.A. auditorium Sunday afternoon at 1:30.

The address was delivered by Dr. Jack Ellis, pastor of Pullen Memorial Baptist church. He pointed out to the new president and his cabinet the great responsibility they now have in directing the religious life on the campus.

After the installation address J. B. Britt, retiring president, delivered his last address. He thanked his cabinet and the student body for the cooperation that they had given him in carrying out the Y.M.C.A. program.

The new officers were installed by Dean Cloyd.

J. E. Moore, the newly-elected president, then delivered an address, with the main theme of his talk as the religious life of the students on State College campus.

## NEXT WEEK IN BASEBALL

Monday, Duke at Durham (F); Wake Forest, there (V).  
Wednesday, Carolina, there (F).  
Thursday, Duke, there (V).  
Saturday, Wake Forest, here (V).

# Sports!

By BILL

Well, the old team looked pretty good against Virginia last Thursday. Things looked pretty bad 'long about the fourth inning. Woodworth's homer at the start was the one bright spot in the first few innings. We meet Davidson today and then we shall see. Let's get in there and put the old pepper into the affair. We are still on top in the state championship race, and that's that.

As this goes to press we are still in the dark as to whether Jack McDowall will go to Birmingham for the Southern Conference track meet or not. A man who can jump 6 feet 3 inches should be down there.

The team will journey over to Wake Forest Monday to play the Deacons and we certainly hope they will add this coveted scap to their belt.

The freshmen won two out of the three relays held at the state track meet. Some of the freshmen look like good track material for next year.

## E COMPANY WINS SWIM CONTEST, WITH G SECOND

### Physical Education Department Pleased With Showing in First Meet of the Kind Here

The intermural swimming meet went off in fine style Wednesday night, with E Company the winner by a small margin. G Company followed up the winners 2½ points. This is the first meet of this kind held here and the Department of Physical Education is well pleased with the showing made. Nine companies participated in seven events.

The summary: 50-yard dash: (1) Dixon, W. R., Co. G; (2) Westbrook, Co. F; (3) Fitzgerald, Co. I. Time: .30 1-5 seconds.

Back-stroke for form: (1) Person, Co. B; (2) Dixon, W. R., Co. G; (3) Cashwell, Co. E.

Plunge for distance: (1) Cashwell, Co. E; (2) McNeill, Co. D; (3) Easton, Co. E. Distance, 37 1-2 feet.

200-yard swim: (1) Westbrook, Co. F; (2) Whaley, Co. C; (3) Dew, Co. G. Time: 3 min., 1 sec.

Diving: (1) Fitzgerald, Co. I; (2) Dixon, W. R., Co. G; (3) Westbrook, Co. F; Cashwell, Co. E.

Breast stroke for form: (1) Purnell, Co. E; (2) Whaley, Co. C; (3) Sims, Co. A.

50-yard dash back, free style: (1) Sims, Co. A; (2) Purnell, Co. E; (3) Dixon, E. F., Co. G.

Won by E Co.: E Co., 15 1-2 points; G Co., 13 points; F Co., 8 1-2 points; C Co., 6 points; A Co., 6 points; I Co., 6 points; B Co., 5 points; D Co., 3 points; H Co., 0 points.

High scorers: Dixon, W. R., 11 points; Westbrook, 8 1-2 points; Purnell, 8 points; Cashwell, 6 1-2 points; Whaley, 6 points; Sims, 6 points; Person, 5 points.

### THREE FRATERNITIES TIE FOR TOP BASEBALL PLACE IN INTRAMURAL LEAGUE

Rainy weather of the past week put a temporary check on the inter-

Typical of the spirit of service among telephone personnel.

## Commerce, too, has its Raleighs

RALEIGH'S definition of courtesy was apparently to care for the needs of the other person. Today the same practice is observed by the telephone business; but we call it service.

To men in telephone work, service is a matter of looking ahead and preparing ahead—and when a need arises, to be ready. This point of view inspires the research engineer, the

supervisor of production, the director of personnel and the executive responsible for all these activities and more.

With the increasing telephone requirements of the nation, this is a work of increasing complexity.

Through years to come Bell System men will find an even greater opportunity of service.

## BELL SYSTEM

A nation-wide system of 18,500,000 inter-connecting telephones

"OUR PIONEERING WORK HAS JUST BEGUN"

## Will Anyone Accept This Challenge?

Columbia, S. D. Sept. 9, 1926

Larus & Bro. Co. Richmond, Va. Gentlemen:

I am a veteran of the Edgeworth army, still in active service.

I make this claim, challenging all comers, to have smoked Edgeworth and nothing else but Edgeworth (when it was possible to get it) for a longer period than any other person within the scope of your territory.

I have smoked Edgeworth for twenty-one years and will soon start on the twenty-second.

I'll admit to having tried other brands, including so-called high-class, high-priced blends and mixtures, enough to appreciate and satisfy myself of the superiority of Edgeworth.

In all these years I have never had one can of Edgeworth that varied in flavor or otherwise.

Yours very truly,

(signed) J. J. Roberts

## What Shakespeare says about Coca-Cola

Drink Coca-Cola Delicious and Refreshing

"Nature's above art in that respect"

King Lear may have looked like a walking florist shop, but he certainly talked a full-meaning headline for this Coca-Cola ad: A pure drink of natural flavors—produced before the day of synthetic and artificial drinks, and still made from the same pure products of nature.

The Coca-Cola Company, Atlanta, Ga.

8 million a day ~ IT HAD TO BE GOOD TO GET WHERE IT IS

fraternity baseball activities. Nevertheless, two of the games were played inside the gym, showing that fraternity pep is still high. Besides being an enjoyable source of recreation for the boys, these games are great stimulants to the good feeling between the fraternities.

The latest standings are as follows:

### Section One

Alpha Lambda Tau	Won	Lost
Theta Kappa Nu	4	0
Pi Kappa Phi	4	0
Alpha Gamma Rho	2	2
Pi Kappa Alpha	1	3
Phi Pi Phi	1	3
Tau Rho Alpha	0	4

### Section Two

Sigma Tau Beta	4	0
Lambda Chi Alpha	2	0
Sigma Phi Epsilon	2	0
Phi Omega	1	1
Delta Sigma Phi	1	1
Chi Alpha Sigma	0	2
Sigma Pi	0	3

## MECHANICAL JUNIORS VISIT HIGHWAY SHOPS ON INSPECTION TOUR

The junior class of mechanical engineers at State College has at last been able to go on an inspection tour of the highway shops.

The trip was made last Tuesday afternoon, May 1. Leaving the college about two o'clock, they soon arrived at the shops and were met at the gate by the superintendent.

Professors Foster and Wheeler accompanied the class and everything about the shops was thoroughly inspected. From the comments that were made, the class has a better conception of what the highway shops are for.

Beginning with the machine shop, the class saw various kinds of lathes, cutting machines, grinders, presses, and a gang of machines for making screws. From there they passed into the assembly room. There the trucks are assembled, motors broken in, and cars made new in general. The wood shop is also included in this department.

The highway department builds their trucks complete except the radiators, motors, and rear axle, and the motors would be built if they could get some one to cast the blocks for them.

The trip was thoroughly enjoyed and a better understanding was had of the highway department.

**SOCIAL ACTIVITIES**

**President and Mrs. E. C. Brooks To Entertain Senior Class**  
Seniors have received the following invitation: "President and Mrs. E. C. Brooks invite the members of the Graduating Class to be their guests at dinner in the West Dining Room of the College Hall, Thursday evening, May 17, at six-thirty o'clock."

**Faculty Luncheon**  
The Faculty Club of State College entertained last Monday in the Y. M. C. A. banquet hall at a luncheon, with the guest of honor being O. Max Gardner, unopposed democratic nominee for governor.

**Attend Installation**  
Six members of the local Xi Chapter of the Phi Pi Phi fraternity attended the installation of the Pi Chapter at the University of South Carolina last Saturday.

Pi Chapter is the sixteenth group in Phi Pi Phi, which was founded in 1915 at the University of Chicago. Those from the Xi Chapter attending the installation were W. V. Ellis, W. P. Chesnut, W. D. Miller, Bert

**Fancy Dress Ball**  
The annual Cottillion Club fancy-dress ball was given last night in the Frank Thompson gymnasium from 9 to 12. Prizes were given to the couple wearing the best costume.

**Delta Sig Dances**  
Rho, Alpha Epsilon and Alpha Delta chapters of Delta Sigma Phi fraternities entertained at two dances last week-end. The dance Friday night was given in the Washington Duke Hotel, Durham, with Jelly Lettwitch and his orchestra playing. The dance Saturday night was given in the Carolina Inn at Chapel Hill, with the University Club orchestra playing.  
The favors which were presented to the girls in Durham Friday were little necklaces with large, jade-colored stones in front with the Delta Sigma Phi crest on them.  
Alpha Delta Chapter at U. N. C. had a house party during the week-end. This also added to the pleasures of the Delta Sigs. Girls from many towns in North and South Carolina were present. This was one of the biggest week-ends in recent years that the Delta Sigs of these three chapters have witnessed.

**Personals**  
—Mr. Frank Mering Williams left Thursday for Columbia, S. C., where he will take part in the revival of the Delta Chapter of the Sigma Nu fraternity.  
—Mr. John McNair will attend the junior-senior prom at Salem College tonight.  
—Mr. Haltiwanger is visiting his parents in Columbia, S. C., this week-end.  
—Messrs. Fred Forbes, George Fowler, George Trask, and Ned Ball are attending the installation of Sigma Nu Chapter at the University of South Carolina.  
—Mr. Charles Connolly motored to Fayetteville last Monday to witness the aerial exhibition.  
—C. L. Straughn and Earl Meacham are spending the week-end in Charlotte and Statesville.

**ELAM ELECTED TO PRESIDENCY LOS HIDALGOS**

P. W. Elam was elected to succeed himself as president of Los Hidalgos, local Spanish fraternity, Tuesday night. C. H. Brannon was elected secretary and treasurer, to succeed Ted Leary; S. T. Ballenger was unanimously elected corresponding secretary.  
Captain Dale M. Hoagland, of Fort Bragg, gave a very interesting talk on his trip to South America, where he visited the important towns on the west coast. His talk was very instructive to the members of the club who are striving towards the advancement of Spanish.

**GAMMA SIGMA EPSILON INITIATES THREE MEN AT ITS ANNUAL BANQUET**

Good fellowship and enthusiasm were very much in evidence at the annual banquet of the local Alpha Beta Chapter of Gamma Sigma Epsilon chemical fraternity last Wednesday night, May 9, at the Meremont Tea Shoppe.  
J. R. Sechrest, grand alchemist, was toastmaster for the occasion. Dr. A. J. Wilson, Dr. L. F. Williams, and Professor Jordan, all of the chemistry department, were called upon, and each gave a short and enthusiastic talk on the past achievements and future plans of the organization. Dr. O. H. Browne, professor of textile chemistry and dyeing, was called on for a few words also. Plans for future activities of the organization were made at this time.  
Before the banquet three chemical students were initiated into the fraternity. These men were Alex Redfern, R. N. Jeffery, and A. C. Ruggles. Those present at the banquet included Dr. A. J. Wilson, Dr. L. F. Williams, Dr. O. H. Browne, Prof. W. E. Jordan, E. F. Monroe, J. R. Sechrest, R. W. Hayward, R. N. Jeffery, Alex Redfern, and A. C. Ruggles.

**SIGMA KAPPA ALPHA GIVES INFORMAL SMOKER IN HONOR NEW MEMBERS**

Sigma Kappa Alpha fraternity held an important meeting and smoker at the Y.M.C.A. Tuesday evening, at 7:30, in honor of the new honorary members and the new pledges taken in from the present juniors in the accounting group. The new members are chosen for their character, scholastic rating, and ability for leadership.

A. N. Green, president, explained the purpose of the fraternity to the new men, and welcomed them into the organization.  
R. C. Barnes, vice-president, also made a short talk on choosing the proper leader to carry on the work after the old members graduate.  
Suggestions were made by Professors Henninger and Yoehring as to how the fraternity should be run, and the problems that they should try to solve, so that the new members should be benefited and be more able to go out into accounting work after their graduation.

**SIGMA IOTA CHI TAKES 15 SIX-FOOT MEN INTO N. C. ALPHA CHAPTER**

Thursday night saw the banding together into North Carolina Alpha of Sigma Iota Chi of 15 men on the campus of State College who tower into the air six feet or more under formal initiation ceremonies of the fraternity directed by Harry Rappard, formerly with the University of Georgia, Joe Foil, and Henry Stokes.  
The fraternity is 26 years old, having been organized at Vanderbilt in 1902. There are now five active chapters in the United States. They are as follows: University of Georgia, University of Alabama, University of Arkansas, Vanderbilt, and North Carolina State. Only fraternity men are eligible for this organization.

The following men accepted bids and were initiated:  
A. P. Baggett, Pi Kappa Alpha; Pete Burnham, Phi Kappa Tau; Walter Clement, Pi Kappa Alpha; J. G. Exum, Sigma Pi; C. D. Forney, Delta Sigma Phi; "Alex" Grant, Chi Tau; Larry Haar, Chi Tau; Fred MacKenzie, Pi Kappa Alpha; Marshall Pemberton, Sigma Chi; Henry Ratchford, W. L. Roberts, Lambda Chi Alpha; Thad Russell, Phi Kappa Tau; Bob Shepard, Sigma Nu; Ed Speir, Pi Kappa Alpha; and Jim Sumner, Phi Kappa Tau. Joe Foil and Henry Stokes of Phi Gamma Delta and Harry Rappard, Phi Delta Theta, were the founders of the chapter here.

"Did that new play have a happy ending?"  
"Sure. Everybody was glad when it was over."  
Oculist: "Can you read that third line?"  
Patient: "Sure, I can read it. Doc, but I'm damned if I can pronounce it."  
Professor: "Have you ever done any public speaking?"  
Student: "Well, proposed to a girl over the phone in my home town once."

**Your Attention is Called to These ANNOUNCEMENTS**

**540 Rooms**  
have been signed up for to date, May 10. Next week will begin the assignment to the incoming freshman class. Those who have not yet chosen their rooms will please see Mr. Wellons in his office in Holladay Hall before all rooms are signed away.

**Phi Kappa Phi Lecture**  
next week will be given by Dr. Thomas Nelson on textile development. It will be held at 8 o'clock Friday night in the Y. M. C. A.

**For Courses**  
to be taken next year, and to understand the new system, the juniors in science and business will meet Tuesday at 5 o'clock in Ricks 208. Educational freshmen in Ricks 205 at 4:30 Monday, and sophomores and juniors of the same school will meet at the same place and time on Tuesday. Engineering students will report to the head of their departments. Textile men will see Professor Hart. Agricultural students will report to Dr. Metcalf in the following order: Monday, A to F; Tuesday, G to L; Wednesday, M to Q; Thursday, R to Z. All must be completed before May 19.

**Flowers**  
Mother's Day roses will be given to students at Pullen Memorial Baptist Church tomorrow morning. Come and get one and hear Gilbert Stephenson.

**FINALS**  
Money is due the 18th. Treasurers of all fraternities are urged to get in touch with Jimmy Mayfield by that time.

**HIGH SCHOOL MAY DAY FETE HELD ON RED FIELD**  
The annual May Day festival of the Hugh Morson school was held in Pullen Park Thursday afternoon at 4 o'clock.  
The program began with costume dances by the elementary school chil-

dren and ended with a dance by a number of the high school girls.  
The most interesting part of the program was an exhibition by the girls' gymnasium class. They did various acrobatic stunts which would do credit to professionals.  
Music was furnished by the Hugh Morson High School orchestra, directed by Mr. Potter.
