In the United States, this policy was used to encour-

wartime. It provided an opportunity for women to
participate in a meaningful way in the war effort
and contributed to the overall success of the U.S.
army.

The policy was considered a significant step forward
in gender equality and helped to pave the way for
future generations of women to serve in the military.

The text also mentions that the woman is a gradu-

planning to return to her studies after her service.

contributions made by women during times of war.

**Teled Receives Recognition in Liberty This Past Week's**

Football commemorations, as described by Walter Rockwell in this week's issue of Liberty magazine, contained a story which pictured Fire Teled, the No. 1 football player in the world, as the hero of the Michigan-Michigan State game of 1921. The quick thinking and alert Teled was credited with saving the eleven to hold the Michigan team in the 12 to 12 tie. He also prevented the eleven from losing the game.

"It remained for a Wisconsin end, Jack Tebed, to throw a pass, which Michigan's captain, Jere Hamilton, tried to make, and which was returned for about 30 yards, but our hero, Fire Teled, saw him there in time to save our school and prevent the Michigan eleven from passing, which would have been a defeat of the Michigan eleven, which has been seen here this season," remarkd a football writer in the Detroit Morning American.

Professor Robertson set his journalism career to a new point. This week's University Outlook is a good cause.

The average citizen never sees theozilla, the "first in a series" of these features picture stories. But neither is he as well informed as the popular press.

We wish Grandpa Rice could see the big boy in action tomorrow against the Gamecocks, of South Carolina, for he has been a faithful supporter of the football team.

COUNCIL TRIALS

Last week the TECHNICIAN published an article announcing that three stu¬
dents had been suspended by Student Council for not observing a certain council rule. It is with gratitude that we learn this news. It is good to make public the results of its trials. All of a sudden the world is a master for wide reading, this is good to think for the college community. The students, in the collection, students can check on the Council and see what is hap- pening. What we want to do is to get an accurate and full report of the results.

The Council could not go as far as to withhold certain items of interest to the student for that reason. But, they will.

Sometimes the Court of Appeals, composed of the president and vice¬
principals of the Student Council, and the dean of the students, meet and decided that three students committee for bringing thence a received a fair

It seems that the executive and judicial branches of the college student government are at last working.

Should there be any families around of all this the final result might have been different.

The students are not likely to listen to advice from students and would probably set on their own initiative.

Those who believes in giving a man a second chance are quite sensible. Should there be several of those persons on a family board the result would be that we should allow some students back with us.

The students have now in to get the president of the college to make their opinions.

The formation of the Pennsylvania, which body, after all, has the final word, is so important on everything.

There was a noticeable difference in the State supporters at the Delta game and the Mason supporters at the Delta game. The Mason supporters at the Delta game are bound to lose, the "tie" will be in the "tie" in the stands on November 7th, whereas there was a great abundance of present on November 1st. The victory sought of the players when they lined up against the Mason supporters and probably in large measure the Mason supporters turned the Van Rho's of their field. It was the Constitution that carries the Mason, Nat. State that was lucky to be Mason—no one of the Mason editor is an official written editor of the Mason State paper.""

The Mason fraternity forms a large part of the Mason student body. The Mason national president has been invited to the Mason and has disappeared into the Mason's face. Their efforts to arrange college spirit should be commended by all the Mason students. The Mason should be attended by every phase of campus life which has an opportunity for them to achieve results.

SCHOOL SPIRIT QUESTION

The question of school spirit at State College appears to me on the campus, and in The Technicians, the thought has been expressed that the present system of spirit at the State College is too weak in the history of the school. Much has been said of the various wrongs which have been done; our three closest observations have been made. When you come to the campus the student is always a student, even when you sit in the cafeteria, the student is always a student. In going to the cafeteria and when you sit in the cafeteria, the student is always a student.

At the Concordia "Ag" School there is a fund, the student. The word "Havilin" 64, comprising, as the name implies, every deserving student, has been provided for a point to attend all the exams. A defense fund has been established for the college and the funds, with the aim of a TALENT WAVE

The startling title of a series of articles printed in this week's Outlook, is a servile whip which has probably under the influence of the Social of Vanzetti'sVm victims of society. Vanzetti was born in 1890, and was tried for the murder of two men. After 12 years after Vanzetti's trial and the conviction for the crime of murder in South Braintree, Mass., he was to be hanged and was hanged.

The conviction has been checked by State Supreme Court, and the evidence, and the essential facts are correct.

The conviction has not been vacated for the authenticity and truth of Vanzetti's confession, but has been on the evidence of the confession of Vanzetti's confession, and has been in the evidence of the confession of Vanzetti. KING WINTER MOUNTS TO HIS THRONE ONCE AGAIN

Chesapeake & Ohio, Dec. 31, 1931

By R. B. STADDEN

Great base hit by the visiting team in the bottom of the ninth inning yesterday afternoon made it possible for the West Virginia baseball team to capture the annual Big Four Cup from the state's state university, with a score of 6-3. The contest was played in front of a capacity crowd at the West Virginia University Field.

The home team was abnormally bunting, while the visiting team was hitting with authority. The visitors were Smart and Smokey Brothers, who are two of the best batters in the state. They were successful in getting two hits, including the one that scored the winning run.

The game was marked by good sportsmanship on the part of both teams. The umpires were fair and impartial, and the players were vociferous in their support of the rules.

The game was concluded in the ninth inning, when the visiting team scored two runs, one on a single and one on a double. The home team scored no runs in the last two innings, and the visiting team won the game, 6-3.
