## PHYSICS-ELECTRIC NEW BUILDING IS RECENTLY FINISHED

Additions Made to Single-Story Structure for Physics

GROUNDS ABOUT BUILDING PUT IN SHAPE LAST WEEK

Heck Visits the Best Equipped Plants in United States and Europe to Obtain Ideas for Construction—Civil Engineering Occupies New One-Story Wing of Latest Addition to State's Campus.

By A. L. WEAVER

State College has recently completed the new civil engineering building and expansion of the physics and electrical departments; the two being connected to form a U-type building, one of the most expensive and up-to-date structures on the campus.

Additions to the physics building make it rise four stories, with two stories for the civil building. This latter building is so constructed as to be ready for expansion when necessary. The physics structure has reached its capacity for further expansion. Both buildings are fireproof and of the highest grade of construction.

On the fourth floor the ceiling of the main building is dropped about four feet below the roof, and has a false, felt ceiling, below which the regular ceiling of metal laths and plastering is placed. "This type of construction," says Professor C. M. Heck of the physics department, "is the finest type for keeping a building warm in winter and cool in summer."

On Three Floors

The front of the spacious structure is occupied by the physics department and the electrical engineering department for the first three floors. The fourth level is occupied by the architectural department. This floor has been so piped and wired that it—Continued on page 2.

## FRENCH ORATOR WINS IN INTERNATIONAL CONTEST

Rene Ponthieu Gets First Place; James R. Moore, Kentucky, Places Fourth for U. S.

Rene Ponthieu, of the Lycee Henri IV, Paris, speaking on "French Thought and the Idea of Liberty," won the world championship trophy in the Third International Oratorical Contest before an audience of approximately 7,000 people, in Washington, on the evening of October 13.

His speaking technique was characterized by intense fervor and carrying power in his voice, which was never strained. He was easily heard in all parts of the building, but did not shout or force his words. Hands and face were employed effectively in supplementing his words. A noticeable characteristic was that, while giving the impression of action in speaking, he did not walk around at all. His phrasing was splendid, his tones were rich and varied.

Second place went to Jose de Tomaso of Argentina. His subject was "The Fraternity of the Americas." The winner of the third place was William Fox, Jr., of Canada, who spoke on "Canada's Future." James R. Moore of Kentucky, United States champion, won fourth place, with his oration on "The Development of the Constitution."

The meeting was the most colorful in the history of the contest. The nations represented and their speakers in the order of their appearance on the program were as follows:

Mexico, Efrain Brito Rosado; Argentina, Jose de Tomaso; England, Dudley Raymond Barker; Cuba, Julio Cesar Fernandez; Canada, William—Continued on page 5.

BEST IN THE SOUTH

FRED PIERCE VAUGHAN Photo by T. A. VERNON

The Associated Press's All-Southern football mythical team, recognized as the official eleven as voted upon by 100 sports editors and coaches, has Fred Pierce Vaughan, State's own guard, at left guard. The selection was announced Friday afternoon, and the A. P.'s 1,200 papers throughout the country carried Vaughan's name in the mythical line-up. Also every southern paper member had his picture.

Vaughan's running-mate on the first line-up is Drennon, sophomore of Georgia Tech. Pund, Tech, won the first center, while Harry Schwartz, Vanderbilt, and Hagler of Alabama.

Honorable mention went to some outstanding players, including Duke's lanky end, Frank Goodwin; Odell Sapp, Carolina end; Sam Bule, Duke quarterback; Ray Farris, Carolina guard, and others outside the state.

## Chenoweth Says Working of Honor Systems Focus of Talk

By PROF. C. W. CHENOWETH  
Professor of Philosophy, University of Idaho

Moscow, Idaho—(By Intercollegiate Press and Idaho Argonaut)—The honor system has so many obvious merits that it doubt about it, when doubt exists, is usually based on some defect in the method by which it is proposed to put it into operation. How to make the honor system work should be the focus of all discussion concerning it.

A very little reflection on this problem will make it clear that no plan can succeed unless somebody is willing to take responsibility, not only for himself, but also for those delinquents who are not willing to hold themselves responsible for maintaining that level of conduct on which honor rests. This second aspect of responsibility, is by far more difficult. Many persons who can be relied on to act honorably in any situation will admit no responsibility to see to it that others do the same.

"Why," they ask, "should I concern myself with the business of others?"—Continued on page 2.

## STUDENT SHOOT HOLE IN FLOOR AS INTRUDER ESCAPES

The floor of the living room of the Delta Sigma Phi house carries a gaping hole as a reminder of the unexpected visit of a colored citizen of Raleigh Monday night of this week, and as the unexpected outcome of a welcoming party for the black.

It was the floor rather than the back of the visitor that received a load of shot from a single-barreled gun in the hands of one of the inmates of the house when he stubbed his toe and accidentally pulled the trigger of the firearm in his pursuit of the unwanted caller.

Awakened by an unusual noise the fraternity man grasped his gun and set out on a search for the originator of the disturbance. His accident en route warned the intruder in time to complete his escape without the buckshot that chipped the floor.

## WAKE COUNTY LEADS ROSTER IN NUMBER STUDENTS HERE

Has 194 at State College—Mecklenburg Next With 56—38 Virginia Students

Raleigh, N. C., Dec. 5.—Excepting Wake, home county of the institution, Mecklenburg, Guilford, Forsyth, Sampson, and Buncombe counties have the largest number of students at North Carolina State College here this year.

Wake County, including Raleigh, has 194 students at State, while Mecklenburg leads the outside counties with 56 students, Guilford following with 45; Forsyth, 40; Buncombe and Sampson, 38 each; Iredell, 37; Gaston, 35; Catawba, 30; Robeson, 30; Rowan, 30. Alamance has 29.

Other counties and enrollments include:

Alexander, 5; Alleghany, 3; Anson, 5; Ashe, 5; Avery, 1; Beaufort, 23; Bertie, 9; Bladen, 15; Brunswick, 4; Burke, 2; Cabarrus, 18; Caldwell, 11; Carteret, 4; Chatham, 10; Cherokee, 9; Chowan, 7; Clay, 1; Cleveland, 14; Columbus, 20; Craven, 16; Cumberland, 25; Currituck, 4; Dare, 2; Davidson, 27; Davie, 10; Duplin, 14; Durham, 13; Edgecombe, 19; Franklin, 23; Gates, 4; Granville, 10; Greene, 6; Harnett, 18; Halifax, 23; Haywood, 6; Henderson, 11; Hertford, 6; Hyde, 3; Jackson, 3; Johnston, 13; Jones, 6; Lee, 4; Lenoir, 19; Lincoln, 10; McDowell, 9; Macon, 1; Madison, 3; Martin, 14; Mitchell, 4; Montgomery, 11; Moore, 19; Nash, 26; New Hanover, 13; Northampton, 10; Onslow, 7; Orange, 4; Pamlico, 10; Pasquotank, 11; Pender, 3; Perquimans, 4; Person, 6; Pitt, 20; Polk, 5; Randolph, 21; Richmond, 11; Rockingham, 19; Rutherford, 8; Scotland, 7; Stanly, 20; Surry, 6; Swain, 2; Transylvania, 4; Tyrrell, 1; Union, 16; Vance, 8; Warren, 5; Washington, 13; Watauga, 8; Wayne, 27; Wilkes, 7; Wilson, 8; Yadkin, 6; and Yancey, 1.

Students from other states, include 44 from Virginia; 38 South Carolina; 15, Georgia; 11, Pennsylvania; 10, Massachusetts; New York, 5, and New Jersey, 6.

## BETA, CHI TAU, ENDS CONNECTION WITH THE NATIONAL BODY

Announces That Cause Is Friction In the Council

DUKE CHAPTER DISBANDED FIRST PART OF DECEMBER

Announcement to Pan-Hellenic Council States That Local Chapter Has Disbanded as National and as Local.

By T. A. VERNON

Beta chapter of Chi Tau fraternity, located here, announced its withdrawal from the national organization at a special meeting of the Pan-Hellenic Council yesterday at noon. The reason for withdrawal as given by officials of the local organization was "friction in the national council."

The fraternity declared itself dissolved nationally as well as locally. The members voted individually and collectively in favor of disbanding the fraternity here. The announcement read to the Pan-Hellenic Council stated that the fraternity had disbanded nationally as well as locally.

Alpha Chapter, at Duke University, disbanded on December 4, for the same reason, it is understood here. Chapters were located at Presbyterian College, South Carolina; Columbia University; University of Southern California; Wake Forest; Duke; University of North Carolina; University of Illinois; Wofford, South Carolina, and N. C. State.

Beta chapter was installed here in 1924. The national organization was founded in 1919 at Duke University. The local chapter had 12 members and seven pledges on its rolls at the time of dissolution.

Members

The members were as follows: Tom S. Stuart, Kernersville; Nicholas Loughlin, Wilmington; Larry Haar, Wilmington; Julian Smith, Bethel; Snap Welborn, Statesville; T. C. Robinson; Bob Caviness, Greensboro; Skeet Atkinson, Winston-Salem; T. A. Grant, Wilmington; Henry Atkinson, Winston-Salem, and Basil Melton, Badin. The following were pledges: Jurgen Haar, Wilmington; Audrey Brown, Charlotte; Jack Midyette, Aurora; J. W. Gillis, Asheville; B. A. Bryant, Asheville; Gabe Robinson, Wallace; Horace Stewart, Wallace.

## TWO CONFERENCES SOCIAL CONTROL HELD BY LEAGUE

Chicago and New York Scenes of Activity League for Industrial Democracy

By NORMAN THOMAS

On December 26 to 28 the League for Industrial Democracy is holding simultaneously two student conferences, one in New York and the other in Chicago. Both are on the subject: "Methods and Limits of Social Control."

It is all very well to say that society should control the things we need for our common life. But just what are those things and how should our control be made effective? When you stop to think about it there are a lot of questions that arise. Thus, how adequate is our conventional economics which President-elect Hoover called "rugged individualism"? Assuming that we need public ownership, how can it be brought about? By purchase? At what valuation? How shall publicly owned industry be administered in fairness both to consumers and producers? How can we bring about distribution for use, not profit? What changes, if any, are required in our political machinery if the State is to be a more efficient agent of economic control? These questions, among others, will be dealt with at both conferences.—Continued on page 2.

## Student Council Will Offer Referendum On Campus Rule Tuesday

WILL TALK TO STUDENTS

Reaction of College Men Points To Attitude on Question

THIRTY-SEVEN QUESTIONS TO DETERMINE OUTCOME

President Albright Thinks It Duty of Every State College Man to Fill Out Official Blanks—If Demand Is Made for a Change, the Matter Must Be Taken Before House of Student Government.

By A. L. WEAVER

An official referendum in the form of 37 brief and direct questions, prepared by action of the Student Council, will be submitted to the student body of North Carolina State College next Tuesday at 4:30 as a climax of discussion of the question that for the past few weeks has been uppermost in the minds of students and faculty members of the institution.

"These questions," says President W. P. Albright, "will settle the question of student government, and also answer will give a basis upon which to do some in revising any other." He sees to be revised. How the students react to this referendum will point toward their attitude as to the question of student government.

The questionnaire put out by The Technician several weeks ago was filled out by 835 students. This number represents half of the entire student body. "Unless the students take more interest in the matter, at least enough to fill out the blank, the question at stake will still be far from solved," says Albright.

Students' Duty

"It is the duty of every student of North Carolina State College to fill out one of these blanks," he continues.—Continued on page 2.

## CO-ED GIVES IMPRESSIONS OF SUPERIOR COURT VISIT

Thinks Jury the Most Suffering Group in Battle of Barristers Before Judges

By MRS. A. E. NEAS

To the unaccustomed observer, superior court is very informal in its procedure. Perhaps this is because there is no large audience to impress. It is seldom that more than the raised enclosure is occupied by lawyers, witnesses, reporters, and on-lookers combined, but the acoustics are bad. That may explain this unusual condition. What public is not curiosity-seeking, especially during a scandalous trial? But there is no use going if one can't hear. It will be in the morning paper.

A budding journalist, self-conscious and over-eager to appear professional, watches carefully every move made by newspaper men and the actors in the legal drama. Fearing that something important may happen unbeknown to him or her, the amateur is in a "perplex-complex."

Finally the witness stand proves to be the center of action. For without a witness in the chair, lawyers wrangle aimlessly among themselves and seem to come to no definite decision. Witnesses, obviously drilled to the word, give testimony that cannot be disputed. How so many contradictory statements can be sworn, and yet the swearers have not perjured, is paradoxical. There is a "nigger in the woodpile" somewhere.

If a judge chews gum in public, it must be good taste. He is the "law."

If a veteran reporter takes his daily dozen on the steps mounting to—Continued on page 2.

J. STITT WILSON

## J. STITT WILSON TO LECTURE HERE FOR 3 DAYS NEXT WEEK

Arrangements for J. Stitt Wilson, former mayor of Berkeley, California, and national Y. M. C. A. lecturer, to address the State College student body and guests next week, have been completed by E. S. King, general secretary of the College Y. M. C. A.

Mr. Wilson will arrive here on Sunday and will be complimented at dinner by the College Faculty Club, Major C. C. Early, president, Sunday night. He will speak twice daily on Monday, Tuesday and Wednesday. Mr. King announced. "The Personal and Social Message of Christ to College Men" will be Mr. Wilson's general theme for the series of addresses.

Coming to the College for the fifth consecutive year, Mr. Wilson recently declined invitations to speak at other institutions in the East and South. When he leaves here, he will continue his trip to England, where he is to engage himself for six months in Y. M. C. A. work over there.

## PARSONS CHOSEN TO MAKE MOLD OF NORTH CAROLINA SEAL FOR HIGHWAY GATES

Joseph R. Parsons, a junior in the department of ceramic engineering at North Carolina State College, has been honored by being selected to make a mold of the Great Seal of the State of North Carolina for use in casting bronze plaques to be inserted in the granite gateways erected at the Virginia and Tennessee boundaries on the Boone Trail highway.

## Blue Key Thinks Freshmen to Have Balance of Power

Student government once more came in for discussion this week, this time at the luncheon meeting yesterday of Blue Key national fraternity, when it was suggested by Professor A. F. Greaves-Walker, of the ceramic engineering department here, that the freshman class, through ignorance of the subject, might cause the referendum on next Tuesday to swing against the honor system and throw the whole campus into confusion.

Mention was made of questions submitted classes of first-year men in chemistry, asking whether they would cheat more with the professor in or out of the room during quiz.—Continued on page 2.

## Appointments of Non-Commissioned Cadets Announced

Appointment of 156 students as non-commissioned officers in the Reserved Officers Training Corps of North Carolina State College have been announced by the commander of the unit, Major C. C. Early.

The announcement came in the form of general orders of the War Department, reading: "With the approval of the President, the appointments and assignments of student non-commissioned officers of the R. O. T. C. Regiment, North Carolina State College, are announced."

The appointments included:

W. R. McKracken of Whiteville, first sergeant of band; Sergeants J. M. Regan, Hickory; H. Shachtman, Winston-Salem; L. V. Lowe, Chadbourn; Corporals R. L. Beard, Winston-Salem; F. E. Davis, Raleigh; J. B. Gurley, Rosemary; G. M. Harrell, High Point; J. D. McCall, Jr., Florence, S. C.; R. G. Vick, Rosemary, and T. F. Cooper, Newton, all of band.

J. V. Boyette, Peachland, and M. C. Hutchinson, Wilmington, color bearers, and R. F. Hunter, Derita, and J. R. Hampton, Raeford, color guards.

Company A: John M. Lepo, Youngstown, O., first sergeant; A. B. Sims, Raleigh, and W. H. Jurney, Harmony, platoon sergeants; J. J. Davis, Marshall; E. A. Simkins, Goldsboro; R. C. Tucker, Raleigh, and M. D. Tetterton, Plymouth, sergeants; R. E. L. Green, Rowland, Richfield; W. J. Honeycutt, Franklin; J. D. Welsh, Hobbysville, and J. E. Cooper, Graham, corporals.

Company B: T. C. Keer, Shelby, first sergeant; T. M. Hughes, Lancaster, S. C., and G. E. Sullivan, Raleigh, platoon sergeants; E. Purcell, Wentworth; F. B. Singletary, Greensboro; A. L. Cooke, Winston-Salem; R. E. B. Tucker, Marshallville, and G. E. Pickett, Durham, sergeants; W. M. Johnson, Marshall, Minn.; T. J. Jones, Durham; J. H. Patterson, Manly; H. C. Phillips, Cameron; J. Y. Bass, Birmingham, Ala., and E. R. Harris, Danville, Va., corporals.

Company D: A. B. Hardison, Washington, first sergeant; C. H. Jordan,

## Crop Judging Team Soon To Return As Victors In Contest

The crop judging team, which left a few days before Thanksgiving to compete in the International Grain Judging Contest held at Chicago, Illinois, will soon be back on the campus with their elaborate collection of trophies. This is the fourth year out of six that the team coached by W. H. Darst and J. B. Cotner has won first place. The team was composed of three seniors, E. H. Floyd, J. W. Davis, and J. E. Zimmerman, I. A. McLain, a junior, was alternate.

The team won a great honor for themselves and for their institution. Their score was much higher than any record that has ever been made by a State team before. E. H. Floyd was the highest individual in the contest and was awarded the International champion honor. W. L. Adams, a member of the 1924 team, now holds the Grand Champion place, for he established a record that no man has ever bettered. Professor Darst stated that Adams' record would likely stand for some time as Grand Champion, due to his most efficient and accurate work.

J. E. Zimmerman won second individual honors with a score of only four points less than Floyd. J. W. Davis won fifth place.

This contest is a gigantic national undertaking for a southern team, and North Carolina State College is the only southern college that enters a contest of this kind, for the competition is strictly limited to the western and northern universities of the United States with very high standing.

The excellent record made by these young men is highly appreciated by the faculty and student body of the institution.

## PHI KAPPA PHI GROUP PLANNING SELECTIONS SPRING TERM LECTURES

Phi Kappa Phi honorary fraternity has a committee working to formulate plans for lectures to be given next spring.

The lectures given last year by prominent men in their profession were very interesting and attracted many listeners.

The committee in working out plans for the coming lectures is expected to select very good men.

Yale, before giving his ideas to Hoxworth fifty years.

"This makes it probably one of the best designed departments for its size in the country," says Professor Heck.

## Ultra-Modern Design

"Physics is changing so rapidly that to design rooms and electrical connections so that they will take care of any possible development in the broad field of physics is quite a problem," he continued.

The new buildings were opened for use a few weeks ago, and with plenty of room available for both classes and laboratories. The new development is a great improvement, especially for the civil engineering department.

Finishing touches have been put on the grounds about the building within the last week. Topsoil covers the former red clay and is graded from the building level to the roadway about the structure.

## Two Conferences Social Control Held By League

(Continued from page 1)

Among the leaders at Chicago will be Professor Paul H. Douglas, of the University of Chicago, Professor John R. Commons, of the University of Wisconsin, and Dr. L. L. Laidler, of the University of Kansas. Dr. Harry W. Laidler, of the L.I.D., and Mr. Carl D. Thompson of the Public Ownership League of America.

The place of the meeting in Chicago is Hull House, which is itself ought to be an attraction to students.

Among the leaders in New York City will be Paul Blanchard of the Nation, Walter Hadden of the Port of New York Authority, A. J. Muste of Brookwood College, H. S. Raushenbush of the Committee on Coal and Power, Dr. I. N. Rubinow, one of the chief authorities on social insurance, J. St. L. Strachey of the English Socialist Review, George Soule of the New Republic, and Norman Thomas of the L.I.D. The place of the meeting is Barnard College.

Students, both graduate and undergraduate, and members of the Faculty are urged to write for programs and fuller information to the L.I.D., 70 Fifth Avenue, New York City.

## Blue Key Thinks Freshmen To Have Balance of Power

(Continued from page 1)

or examination. Results showed most of them to favor more cheating with the instructor absent.

This ignorance of the question and unacquaintance of freshmen with the idea of student government was suggested as a possible potential overthrow of the existing system when put to a vote, since the first-year men make up almost half the student body. Appeal was made to the members of Blue Key to instruct men on the campus in the time intervening before the official referendum on student government is offered next week.

That members of the graduating class this year wear colors designating their schools in the college was suggested, to be brought to the attention of the senior class when it holds its next meeting. A. M. Greaves-Walker told of attending Ohio State commencement last year, where, he said, the multi-color gowns of the seniors considerably brightened the affair.

A. B. Holden, vice-president of student government, made an appeal for aid in helping put across the proposition next Tuesday of the 37 questions to determine whether students here will govern themselves, or whether the faculty will be reinstated to the position it held some years ago.

## Student Council Will Offer Referendum on Campus Rule Tuesday

(Continued from page 1)

ued, "And if he is really interested in his alma mater he will want to voice his opinion in the matter of her government." Much information will be gathered, but especially the opinion of the individual student and what he thinks about this question is of the most vital importance.

Student government is at stake, and the will of the majority will decide what shall be the future in government at this institution. If the students demand through this referendum that a change be made in the present system of government here, it must be carried before the house. The house has the power to change any by-law by a vote of the majority, if it is definitely known that the people want such a change. If, however, the student body demands that there be a change in the constitution, it is a different matter, and one which must be taken up before the board of trustees of the college. This body alone has the supreme power of changing the articles of the constitution.

This all-important meeting, which will decide the future of student government at State College, will be held Tuesday afternoon at four-thirty. Freshmen are to meet in Pullen Hall, sophomores in the auditorium of the "Y," juniors in the classrooms on the first floor of Pullen, and seniors in the library. The Student Council will officiate.

## Chenoweth Says Working of Honor Systems Focus of Talk

(Continued from page 1)

What they do is their personal affair, what I do is mine. Certainly, if someone is disposed to be dishonorable, he should be restrained. But to have this done is mainly the reason for employing a faculty."

This reasoning is exceedingly superficial. The theory which excuses one excuses the other also. If it is true that each is responsible for himself and no one else, buy what logic is it proved that a faculty member is responsible for himself and delinquent students? And if the theory which excuses a student from the exercise of that responsibility which will make the honor system work, also excuses the professor from the exercise of that responsibility which will make a supervised system work, is it not high time to overhaul the theory? If there is one plague more intolerable than the others it is an argument that proves too much.

The theory is refuted by the fact that the evolutionary process has moved at an unequal rate. While it has carried some along on a rapid current, it has left others water-logged in Neanderthal back-washes. Representatives of these extremes, with all grades in between, must live side by side. It becomes very important, then, that those in the advance see to it that the Neanderthal characteristics do not dominate and set the nature of group practices.

The theory is refuted by the attitudes assumed by men toward each other with respect to the things in which they are interested. Upper classmen in the group houses tell their freshmen what to do and do not hesitate to violate their persons with a paddle in order to impress the edict. A fraternity brother or a sorority sister will shield a delinquent right up to the point of self-stultification. This can mean nothing else than that responsibility for others is gladly assumed when the matter in question is sufficiently interesting. If responsibility is rejected with respect to the honor system, it must be that the honor system does not appeal to the interests of those involved in it. If this is true it must not be taken, necessarily, as a commentary on the system.

The social enlightenment of the individual can be pretty adequately gauged by the size of the unit to which his loyalty attaches. If he is a citizen of the United States, but acknowledges allegiance to but one of its 48 units, his political enlighten-

ment antedates '65. If he is a member of a commonwealth, but has nothing but local loyalty, he is back in the era of the Greek city state. If he belongs to a whole university, but assumes to act only in the behalf of some isolated portion of it, he is but little removed from the call of the bloodhound.

The extent of one's loyalty will determine the extent to which he is willing to assume responsibility.

## GEO. ROEWE, ENGINEER, LECTURES TO A. I. E. E. ON TREATMENT OF POLES

George J. Rowe, distribution engineer of the Carolina Power and Light Co., gave a very interesting talk on the treatment of poles last Tuesday evening, December 5th, at the regular meeting of the N. C. State branch of the A. I. E. E.

He pointed out that the problem of pole treatment was an important question now confronting the electric industry, because over 55 billions of dollars are spent annually in adding and replacing poles. Since 1878, different oiling processes have been used in trying to ward off the decay of poles due to a low stage of living matter known as fungi.

Up to date, creosote has been used most successfully in poisoning the food of the fungi. The creosote treatment increases the life of the poles from about three years to approximately thirty-five years.

After his talk he opened the question for discussion. Many questions were asked and answered, and much benefit was derived from his splendid talk.

## Co-ed Gives Impressions Of Superior Court Visit

(Continued from page 1)

the judge's bench, it must be good newspaper etiquette.

I feel for the jury. The defendant has more liberty, unless he is a murderer or without bond. The judge may look bored at times, and reporters may appear to be suffering from ennui, but the jury has it on them in either case. They are the superlative of bored.

Some take the time for cat-napping; others, obviously accustomed to loafing, are at perfect ease. But it is plain that they have heard more interesting talk than that which they are at the time listening to.

The public must have its news, and the law must take its course, so court proceedings are enacted and recorded, that posterity may have history.

## 17 say "Merry Xmas" with same Gift

Evansville, Ill.  
Dec. 31, 1927

Lewis & Rex Co.  
Evansville, Ill.

I happen to be blessed with a host of very fine friends, mostly "highbrows"—professors, scientists, etc. Generally at Christmas time they show their remembrance and all that with some little gift—a box of cigars, fishing tackle, a book—all that sort of thing.

Well, this Christmas many seemed to centre on tobacco. Now, mark you, these fellows have no communication with each other. They live in widely separated parts of the country, so it was no "put-up" joke on me or anything like that. But here came seven boxes of tobacco, and sixteen of them the familiar blue "Edgeworth!"

The seventeenth was a very flowery walnut, brass-trimmed box, but if you know tobacco, the contents were Edgeworth with a little perique in it.

Just coincidence, perhaps, but a queer one. Am not an habitual smoker of Edgeworth, so they weren't catering to any especial taste of mine. Looks like a consensus of opinion among the "highbrows"—or quite a batch of 'em—that Edgeworth is the stuff, the proper caper for a gift.

Sincerely yours,  
F. A. Fitzpatrick

## SNYDER WRITES BOOKLET ABOUT BIRDS OF NORTH CAROLINA FOR FARMERS

"Common Birds of North Carolina" is the title of a technical booklet by Dr. Laurence H. Snyder, associate professor of zoology at State College, which has been recently published under auspices of this institution, the U. S. Department of Agriculture, and the N. C. Agricultural Extension Service. These pamphlets can now be obtained at the office of F. H. Jeter, agriculture extension director.

The publication fills a long-felt need of North Carolina farmers, supplying information about garden, farm, and orchard birds. Illustrations of the members of each family are shown, listed under biological orders.

Carry Ball to Gamecock One-  
yard Line.**

By FRANCIS TRIPP

The North Carolina State College Wolfpack closed a successful season in a blaze of glory by defeating the University of South Carolina Gamecocks 18-7 on Riddick Field Thanksgiving afternoon.

## Pack Drives Hard

The hard driving attack of the Pack and its successful aerial thrusts swept the fighting Gamecocks before them. "Chink" Outen, Basil Melton, and Captain Warren were outstanding on the offense. The whole Pack line resembled a stone wall, with the work of Mack Stout and Fred Vaughan scintillating.

Eddie Zobel, the Gamecock's backfield ace, was effectively handled by the Wolf defense and he failed to break loose. Bob Wimberly, Gamecock left halfback, provided the thrill of the afternoon when he raced 50 yards to score, after receiving a long pass from Beall.

After many unsuccessful attempts to penetrate the Wolves' line, the Gamecocks resorted to the air and before the final whistle sounded the Birds had launched thirty passes, nine being successful. The State defense covered the aerial thrusts exceptionally well after the second-period avalanche had subsided, and for the remainder of the game Level's charges were literally helpless, offensively.

## Both Scoreless

Both elevens went scoreless in the first period, when Bob Warren and Boineau were engaged in a kicking duel. Towards the close State started a drive from its own 25-yard line, and when the period closed the ball rested on the 34-yard line.

Outen made first down on the next play. A pass, Warren to Melton, was completed for 18 yards. After two unsuccessful attempts to gain, Warren tossed a long pass to Melton, who crossed the goal for the first score. Adams failed to kick the goal.

In this same period the elusive Bob Wimberly took a pass from Carlisle Beall and after a neat pivot that evaded the dives of two Wolfpack tacklers, he sidestepped his way through the second defense 50 yards for a score. Edens placekicked the extra point.

## Warren Scores

Captain Warren added another touchdown in the third quarter, after a driving attack had advanced the ball to the seven-yard line. After four plunges into the Gamecocks' line Bob went over for the score. Adams missed the goal.

During the final period the Gamecocks advanced the ball to the Wolves' 15-yard line. A pass, Beall to Wimberly, missed completion by inches, and was grounded in the end zone to finish the threat. State got the ball on the Birds' 26-yard line, near the finish, when Floyd retrieved a pass Goodwin knocked down. Outen fumbled after

## ANNUAL FRESHMAN RUN BETWEEN STATE, DUKE AND CAROLINA TODAY

State, Carolina, and Duke will meet today in the annual freshman cross-country run between these three teams. A close race is expected. The event will take place at Duke University in Durham.

The freshman team of State is stronger this year than in many years. They have lost but one meet, and that was early in the season. Since then they have defeated this team, which is none other than Carolina. However, in this run, Carolina's star runner, Phenix, could not run, and Brock, State's best hope, is anxious to run again with this fellow. In the first race, Phenix finished only two yards ahead of Brock and a close race is expected between these two men. Other good State runners are, Barrier, Korig, Meade, and Gillian. All of these men are capable of placing.

Carolina also has a good runner in Pierce besides Phenix. Duke has several fast steppers. All in all the race this afternoon is going to be close and exciting.

## SCHOOL FOR BASKETBALL COACHES BEGUN ON CAMPUS

**Tebell Assisted by Chuck Taylor  
in Training Hardwood Aspi-  
rants Near Raleigh**

A school for basketball coaches and players residing within a radius of fifty miles of Raleigh was opened here Monday night.

Coach Gus Tebell was assisted by Chuck Taylor, formerly a forward playing with Wabash College, Buffalo Germans, the world-champion New York Celtics, and later with the Converse All-Stars.

Tebell, himself an old Conference guard at the University of Wisconsin, is now a member of the national basketball rules committee.

The purpose of the school was not to teach Tebell's famous short-pass system; however, the principles of offensive and defensive play of the leading teams, including practice formations, positions, dribble, and pivot, were thoroughly taken up.

Principal changes in the rules were explained, and may be summed up as follows:

### Changes in Rules

1. A maximum size is recommended for the thickness of the metal in the ring of the basket.

2. An unguarded player may hold the ball indefinitely in the court, but as soon as an opponent takes a position close to, "or within three feet of," the player, he must put the ball in play.

3. A player shall not tap and catch the ball on the second of two successive jump balls if he tapped and caught it on the first of the two jump balls.

Intention of this rule was to prevent a tall man from incessantly catching the ball, as had happened previously in close games where the time was about up.

4. The burden in dribbling has always been on the offensive player; fast dribblers would charge in fast and make contact, causing rough play with a foul called on the defensive man. The burden has now been shifted to the dribbler. If a defensive man is standing still, moving laterally across the court, or backward, and plays the ball, the contact resulting will be a foul on the dribbler.

The aim of the rules committee was to make the dribbler stop and pass or shoot instead of driving into the defensive man.

Harry Brown, a former North Carolina State College basketball star, is getting ready for his second season as amateur independent court sports with the Charlotte Y. M. C. A. Monograms. He played forward for the "Y" in 1927.

## Four State Players On Mythical Eleven Of Charlotte Paper

The Charlotte Observer's all-North Carolina team for the season just closed is made up of four State, three Carolina, two Duke, and one each from Davidson and Wake Forest players.

The selection: Sapp, Carolina, and Jordan, State, ends; Lepo, State, and Weir, Wake Forest, tackles; Vaughan, State, and Farris, Carolina, guards; Schwartz, Carolina, center; Bule, Duke, quarter; Kell, Davidson, and Warren, State, halfbacks, and Janowski, Duke, fullback.

The selection was commented upon, in part, as follows:

"I had to scratch my head a long time before I put Bule in ahead of little Sparky Adams of State."

"I never saw such sad tackling as was done this year in this State. Lepo was the best of the lot easily, and he was just a fair tackler alongside men like Wolfe and Drennan."

### Florida Names Lepo

Florida students, in voting on the stars on teams playing the 'Gators' this past season, favored Pressley, Clemson center; Lepo, State tackle; Leutenstiner, Dudley, Hooks and McCrary, all of Georgia.

## BRIETZ SAYS VAUGHAN AS GUARD SHOULD RATE ALL SOUTHERN GRIDIRON TEAM

In naming State College's big guard, Fred Vaughan, on The Charlotte Observer's All-Southern Conference team, Eddie Brietz, sports editor, said Sunday: "My only comment is that I will put this Vaughan against any guard in the South. If he had played games in Atlanta or Birmingham the experts down there would have gone wild about him. If he doesn't rate All-Southern, it is time to hit this correspondent on the head with a big club."

Brietz, well known as a sports writer of several years experience, placed Abernethy of Vanderbilt, and Vansickle, Florida, as his ends; Speer, Georgia Tech, and Wolfe, South Carolina, tackles; Vaughan, N. C. State, and Drennan, Georgia Tech, guards; Pressley, Clemson, center; Crabtree, Florida, quarter; Mizell and Thompson, both of Georgia Tech, halfbacks, and Snyder, Maryland, fullback.

Frank Spencer, sports writer on the Winston-Salem Journal, says, in commenting upon All-American and All-Southern selections:

"We might also state that if Metts (of Wake Forest) had a fine chance of getting the award of All-American center."

## Cross-Country Men Gather For Meet At Duke Univ. Today

Harriers of all North Carolina colleges will gather at Duke University today to compete in the annual state meet for cross-country teams. This classic will close the season.

The runners from the University of North Carolina, who won the championship competition last, and which was held here at State College, will try to repeat their feat of last year. State College's long-distance runners, after a somewhat unsuccessful season to date, will strive to redeem themselves.

After the victor is crowned, all teams will be the guests of the Duke squad at the Carolina-Duke football game at Chapel Hill.

## Annual Freshman Run To Be Held Wednesday Afternoon Four-Thirty

After weeks of partial training, the class of thirty-two is ready for its annual cross-country run of two and one-fourth miles.

Athletic Director Miller has been putting his classes through drills, aided by runs around the track in preparation for this annual event.

Around five hundred freshmen will take part. The first fifteen men to place will receive medals. Every man will be graded for his term work on the required time it takes him to cover the course. Mr. Miller states that every freshman should come in within around sixteen minutes.

The best kind  
of  
Roommate

Rooming with a Remington Portable adds to the enjoyment of college life. It is always ready to help with your work. Long reports and theses can be turned out in far less time, as compared with laborious long-hand methods.

Then, too, think of the greater neatness and legibility of type-written work! Any prof, being human, will have a

tendency to give this kind of work better marks.

Remington Portable is the recognized leader in sales and popularity. Smallest, lightest, most dependable, most compact standard keyboard portable. Weighs only 8½ pounds, net. Carrying case only 4 inches high.

You can buy it on easy payments.

May Your Christmas  
be as MERRY  
as you have made  
OLD GOLD'S

A year ago OLD GOLD'S holiday message to its many friends was entitled . . . "OLD GOLD'S first Christmas." OLD GOLD was then just the infant prodigy among cigarettes. But, thanks to its three million new friends, and its countless old ones, OLD GOLD has grown four hundred per cent. The infant has become a strapping young giant. OLD GOLD is America's fastest growing cigarette. You have given OLD GOLD a wonderful Christmas by your kind patronage and cordial good-will. And in deepest appreciation we say to all our friends . . . "May your Christmas be as merry as you have made OLD GOLD'S."

We thank you.

Remington-Rand Company

Our advertisers are solicited with the purpose of putting before you dependable shopping points. Remember this, and feel perfectly safe in guiding your shopping by THE TECHNICIAN.

We think the managing editor did a pretty good job last week, but just the same we're glad to be back at work again.

N.C.S.

Remember, boys, we hate to put out a four-page paper, but we can't run six pages unless the advertising will pay for it.

N.C.S.

We understand Professor Ladu thinks Professor Robertson should have an upstairs classroom, and has offered to swap. That's what we call real generosity.

N.C.S.

Thanks are now in order to the Wolfpack for what they have done during this term. We wish a happy success to those who will appear no more in grid uniform.

N.C.S.

We wish personally to thank all those who cooperated so nicely with us week before last in getting together the compilation of campus opinion on student government.

N.C.S.

Some weeks ago Blue Key asked the president to take charge of negotiations to place towels of some sort in washrooms on the campus. We haven't yet seen the results of this action. Wonder when it will be.

N.C.S.

Remember, boys, if this referendum is unfavorable to student government it means that we don't have any say-so in campus control. Think about what you are doing when you have it before you next Tuesday.

N.C.S.

We see by the Forum space in the Tar Heel that members of the University campus feel that since the Legislature has prohibited leg shows within three miles of Chapel Hill, the campus co-eds are violating the rule. Sorry for you, boys.

N.C.S.

Everybody else is roasting the band for its absence at the Thanksgiving game. Now, you see what an asset this organization is to State College, and how you miss it when it's not there. Give 'em a better hand when we do have them. We think they deserved a rest, and don't blame them a bit for taking a holiday.

## THE REFERENDUM

This editorial is addressed mainly to the members of the freshman class, although it possibly has some bearing on the rest of the student body.

Listen, boys: Tuesday of next week has been designated as the day when you will have in your power to destroy or retain the institution that has been five years in the building—student government at this institution.

Some of the freshmen may not know exactly what this means. It is the system whereby campus residents have charge of their affairs, are held responsible for their welfare, and make and unmake their own laws.

To abolish it means to do away with all voice in campus affairs; to retain it means that you govern yourselves, that you are democratic, that you oppose the oligarchical supervision of the faculty.

In the Blue Key meeting yesterday a suggestion was made that might be well worth listening to. If the present system is abolished en-

them the sentiment of the majority of the students. When they feel this way there will be no chance of returning to the present freedom, because they will be unwilling to let go of the control they hold. Thus, it means that there will be no return to as free a system of student government in the future if we should tire of faculty control after abolishing the existing order.

Think, men, before you fill out these questionnaires. Don't burn your bridges behind you, lest you should wish to make a retreat. Leave yourselves a loophole for escape. Next Tuesday will determine the life or the death of democratic government at State College. What will you do with it?

## THE SOCIAL ATTITUDE

We believe the time has come when we can afford to lay our finger on the spot we have long felt is the chief cause of campus disruption and lack of support for the system of student government.

Whether or not such a condition exists here merely because this is a technical school, we do not know. It is possible that the very nature of the studies pursued by members of this college community bring about this factor.

The chief sore spot in the whole question we have believed for some time to be the fact that there are too many students here who care little about the other fellow. In other words, State College students have not developed a social attitude.

This does not mean they care nothing for dating, dancing, and parties, and other things of like nature. It means that they have not been subjected to the necessary forces that will automatically bring about socialization, or, if you prefer, they have not yet received the correct influences to make them socially self-conscious.

One has only to look on all sides with an unbiased eye to discover the factor of which we speak. In the dormitories there are students who are continually raising hell in some form or another. They mean it in a good way. The trouble is they have not learned the necessity for cooperation and they are still ignorant of the fact they are a part of a large group that exists for certain purposes.

Residents of the dormitories they imbibed this system and carried it with them when they entered houses of their own off the campus. To listen to the conversations of their members, one gets the opinion that there is too much disregard for the other fellow and his rights. The same applies to other campus groups not of a social nature. Members of each forget most of the time that they have banded together for the good of the group and not to enable individuals to have something that will put a larger force behind the club they wield.

This factor is nothing new at State College. Those who have been here for several years say the attitude has existed for ages, not only in the student body but in the faculty. And it is in the faculty possibly because of an absorption of the student attitude.

Is this attitude, then, caused by the fact that interest of local students is confined mainly to the narrow and limited fields of their chosen professions? Would it be true that the broader education of a liberal arts school tends to develop a social attitude and a spirit of cooperation among students? It is our belief that these two questions can be answered in the affirmative.

Then what remains to be done? What remedy can be taken? It seems to us that there is only one course open, and that is the proper training of incoming students to lead them toward the correct attitudes.

We cannot help it if school spirit is lacking at State College; we cannot kick if there is little support of the student government; we can say nothing if all remedies to the present condition fail. Why? Merely because the whole thing is tied up in a psychological factor, and to change the psychic makeup of a single individual, let alone sixteen hundred of them, is one of the most difficult tasks assignable.

From this it is evident that the problem before State College is to train its students in the right ways that will lead eventually to the development of socialization, that will bring about in each student a realization of his connection with the whole group, a social self-consciousness. How this is to be done we are not capable of suggesting. It is a problem for those who already are trained in these lines.

## GIVE THIS A TRY

There is a continual cry on the campus for something that will lead to more and better spirit at State College. One thing we might suggest is a return to the compulsory chapel attendance of a few years ago.

This will bring together different sections of the student body for a few times, once or twice a week, and they will come to learn in time the group needs.

When the compulsory system was abolished the senior class promised to attend assembly exercises of their own accord, and to see that the rest of the student body did likewise. That is, all but the freshmen, who were to be forced to attend.

What do we have today? Only a small group of freshmen at each chapel exercise and practically no upperclassmen. With regular meetings two or three times each week the student body would come to know itself better.

Then, as far as spirit at the athletic contests go, there is still another resort that might be tried. That is the parade of the college regiment before the game and between the halves, together with the band.

Some similar stunt to that pulled by the cadets of West Point and Annapolis will be another way to lead the State College student body toward a State College attitude.

Of course there will come the objection that the military uniforms in use here are very poor for such work. Little can be seen of these at a distance, and even that will be made up for in the snap and pep of the drill. There might even be a possibility of obtaining a better type of uniform for cadets here.

When there is need for cheering in that case, the cheer-leaders will have a solid block of students to put on the air the yells of Carolina Tech. A voluntary procedure like this would not work; it would have to come as an order from the military department. The students, of course, would not like it at first, but they would soon come to enjoy the parade on the field.

The greatest objection to this plan would possibly be that only a small proportion of the student body would be reached in this way. If every student on the campus were a member of the college regiment, then it would be a beautiful sight.

Now can a man, who retires in a warm room and gets up in a warm room, tell whether or not students in another section of the city need heat or not? Should not this be left to the better judgment of men who stay

was cold and foggy. It is true there were but few students on the campus at that time, but those who were there almost shivered to pieces. It happened that there was no heat on in the dormitories until after the noon hour, and then it was turned on only after repeated requests from various members of the power plant staff. We would like to ask whether or not the college authorities will allow this event to happen again. It is entirely avoidable and should not occur again.

Without light, how can strangers on the campus find their way around? Even if students are expected to do so, it is not fair to impose on visitors. That is another thing we wish to see corrected.

We do not wish the college to take the attitude that we are trying to take the administration of affairs from their hands, as one prominent member of the engineering faculty suggests we do, but we are trying to create a better community for the students who have to live here.

T. A. VERNON.

## AN APPRECIATION

Fred Vaughan has just been declared a member of The Associated Press's All-Southern mythical football team, an honor ranking next to All-America. Vaughan's power as a gridiron performer has been appreciated and recognized by the 100 sports editors and coaches in the southern states who voted for the selections.

In passing, THE TECHNICIAN suggests that faculty and students, in appreciating the good publicity brought to State's team and to a North Carolina player, express their thanks to the newspapermen whom they happen to know. It is known that writers on State papers backed Vaughan 100 per cent, and others in states in the region did likewise.

Such sports experts as A. J. McKelvin, of The News and Observer; Irving Check, Raleigh Times; Eddie Wagg, Jr., Rocky Mount Telegram; L. F. Cates, Wilmington Star; Henry Belk, Goldsboro News; Nat Gooding, New Bern Newbernian; Ed. V. Mitchell, Charlotte News; Eddie Brietz, Charlotte Observer; Frank Spence, Winston-Salem Journal; Dick Sarsfield, Asheville Citizen; Geo. Netherwood, Greensboro News; J. J. Wade, Greensboro Record; Bill Cox, Durham Herald; Mr. Stephenson, Montgomery (Ala.) Journal, as well as the Associated Press experts who saw State play, are due a vote of appreciation.

## Student Forum

### HEAT PROBLEM

Sunday morning of this week we were rudely awakened by the cold. That was no one's fault but ours. But when we attempted to get up and take the customary morning ablutions we were forced to abandon this procedure on account of the cold. That was the fault of others.

The powers that be had issued orders that the heat be cut off from the dormitories on that morning, which

## UP TO MA NOW

awake all night at the power plant? Anyway we request the authorities to see that students get heat on cold days and that on warm days the heat be cut off.

There is another problem that confronts the students at this college. On some nights, when the moon is shining brightly, the campus lights are on in full force. Then again when the skies are black with clouds there is no sign of light on the campus, except for that in the buildings.

State College is no Utopia, where students can wander around in the dark without running into hidden obstacles, but is an overgrown country village, where the streets are laid off in irregular shapes and forms.

Without light, how can strangers on the campus find their way around? Even if students are expected to do so, it is not fair to impose on visitors. That is another thing we wish to see corrected.

We do not wish the college to take the attitude that we are trying to take the administration of affairs from their hands, as one prominent member of the engineering faculty suggests we do, but we are trying to create a better community for the students who have to live here.

### Dramatic Club Started, Play After Christmas; Appeals For Members

A few months ago a small group of students met at this institution for the purpose of organizing a dramatic club.

Other colleges and universities, not any greater than State College, have dramatic clubs which give enjoyment and publicity to the college or university.

The students that met to organize a dramatic club had the same views in mind: to give State College students enjoyment and to present State College and the public a dramatic club.

The students organized and took the name of "Red Masquers." A play was put before them, tryouts were held, and the cast selected. Rehearsals were held, but on account of time and lack of cooperation, the play was not presented. The club became disorganized.

Again the spirit of dramatization arose and the "Red Masquers" re-organized. Meetings were held, suggestions made, good programs were given at each meeting, but still the "Red Masquers" did not function properly.

Now the "Red Masquers" have the proper spirit, and with a little more encouragement they will present a dramatic club and a play worthy of its name.

No organization can be made in a short time. This club will need the support of the student body and faculty. It is going to be some time before the best dramatic club can be formed, but the small group which is now working to put a dramatic club across forms the beginning. Who will take up and carry on the work?

This is seen, in the opinion of officers of the club, a few years hence: Red Masquers Dramatic Club of North Carolina State College gives to the professional ranks three great actors who, it is believed, will be leaders in their chosen profession.

The "Red Masquers" request the presence of each student at one meeting, at least.

Meeting is held every Friday at 12 o'clock on second floor of Y. M. C. A., in Leazar room.

Support is asked for State College and its activities.

Little Charlie had a habit of coming to the table with a dirty face and dirty hands; and, of course, was sent away each time.

One day his mother lost patience. "Charlie," she said, "why do you always come to the table without washing, when you know I send you away?" "Yes," said Charlie, meekly, "but you forgot once."

### Exam Schedule Fall Term Announced By Schedule Committee

The following examination schedule has been announced by the committee, Professor Mayer, chairman:

Classes having a recitation on	Will take their examinations on
Tuesday, at 9 a.m.—	Saturday, Dec. 15, 9-12
Wednesday, at 9 a.m.—	Saturday, Dec. 15, 2-5
Tuesday, at 8 a.m.—	Monday, Dec. 17, 9-12
Wednesday, at 8 a.m.—	Monday, Dec. 17, 2-5
Tuesday, at 11 a.m.—	Tuesday, Dec. 18, 9-12
Wednesday, at 11 a.m.—	Tuesday, Dec. 18, 2-5
Tuesday, at 10 a.m.—	Wednesday, Dec. 19, 9-12
Wednesday, at 10 a.m.—	Wednesday, Dec. 19, 2-5
Arranged Examinations—	
Thursday, Dec. 20	

1. Examinations will begin Saturday, December 15, at 9 a.m.
2. No examinations will be scheduled or held by any member of the faculty before Saturday, December 15.
3. The examinations will be held in the rooms where the classes have their recitations.
4. Thursday, December 20, is reserved for all examinations not provided for in this schedule which cannot be scheduled without conflict in any of the above periods. All arranged examinations should be reported to the Schedule Committee for approval.
5. All examinations will be given in accordance with this schedule. No change will be approved except for the purpose of combining or eliminating entire sections.

W. L. MAYER,  
Chairman Schedule Committee.

### CLOYD GIVES FRESHMAN CLASS STATISTICS ON STUDENT SCHOLARSHIP

The following statistics were delivered by Dean Cloyd to the freshman class Wednesday morning. The purpose of this was to impress on them the necessity of hard studying for the rapidly approaching examinations.

Number of students failing in one course, 362; in two courses, 153; in three courses, 44; in four courses, 13; in five courses, 2.

There are quite a number of students doing excellent work, as the following data will testify:

Number of students making 90 per cent on one course, 238; 90 per cent on two courses, 78; 90 per cent on three courses, 22; 90 per cent on four courses, 2; 90 per cent on five courses, 1.

Of the 44 students failing in three courses, 22 are freshmen.

Of the 13 students failing in four courses, 9 are freshmen.

Of the 238 students making 90 per cent on one course, 75 are freshmen.

Of the 78 students making 90 per cent on two courses, 22 are freshmen.

Of the 22 students making 90 per cent on three courses, 5 are freshmen.

Not a freshman made 90 per cent on as many as four courses.

### French Orator Wins In International Contest

(Continued from page 1)

Fox, Jr.; France, Rene Ponthieu; United States, James R. Moore; and Germany, Heinz Barth.

The audience listened with enthusiasm to all of the speeches, in spite of the fact that five of them were in foreign languages. Each speaker was introduced by the singing of his national anthem by a chorus of 300 voices. The chairman of the meeting was Randolph Leigh, director-general of the contest. Ambassador Tellez of Mexico made the address.

The judges were Dr. Richard Henry Wilson, University of Virginia; Dr. Guillermo Rivera, Harvard University; Prof. W. A. Nitze, University of Chicago; Dr. Louis J. A. Mercier, of Harvard University, and Prof. Jules Bois, of Paris, France.

### Jury Trials To Be Debate Question For School Teams

At noon, on Wednesday, December 12, there will be a meeting in Room 109, Pullen Hall, of all men who are interested in intercollegiate debate and oratory.

At this meeting Professor C. C. Cunningham, coach of the college forensic artists, will tell in detail about the plans for the year's competition.

The proposition chosen for the regular contests of the year is a difficult one in itself, and especially so for students in a technical school. It is, "Resolved, That a substitute for trial by jury should be adopted." This proposition has been selected as the national question of Pi Kappa Delta, the largest forensic honor society in the United States; and it is also one of the official questions of the newly-organized Dixie Debating League.

Thus far arrangements have been made to use this proposition in contests with Rutgers University, Davidson College, Emory University, the University of Florida, the University of Mississippi, Birmingham Southern College, Mercer University, the University of Georgia, Virginia Polytechnic Institute, Virginia State Teachers College, and Wake Forest College.

The most important trip to be made by State College debaters this year will be one into Virginia and New Jersey. The week of March 25. Three contests are being arranged in Virginia for Monday, Tuesday and Wednesday, and the team will then go by boat to New York City and thence to New Brunswick, N. J., for the most important debate of the year—with Rutgers University, the State University of New Jersey. Rutgers, with a clever, highly-experienced team of law students, defeated State last year in Raleigh; and the local debaters will go North with the hope of making the contests "one all."

Professor Cunningham is none too optimistic regarding the outcome of this year's debate competition. In view of the nature of the subject to be used and the fact that our opponents are the strongest yet encountered, he says that he will be well satisfied if the State team breaks even for the year. More men than ever before will be used on the college teams this year.

### VESTRIS DISASTER IS SUBJECT OF TALK BY PULLEN SOCIETY GROUP

A few facts concerning the recent disaster of the Vestris were presented by J. H. Sherrill to Pullen Literary Society at its regular meeting Friday night, November 23. This was followed by a talk on "A First-Class Literary Society" by J. A. Broadwell. The flight of the Graf Zeppelin was described by H. E. Karig.

A debate followed this discussion of news topics. The question was: "Resolved, That engineering offers a greater future to the student than business administration." The affirmative was upheld by D. E. Jones and H. P. Anderson, while the negative was presented by C. Beck and W. B. Callihan.

The judges gave the decision to the affirmative, with H. F. Anderson as best speaker. A criticism was made by M. A. Parker on the finer points of the debate and he complimented the society on its improvement in programs.

### T. C. Andrews, A. E. Tucker Ag. Club Presidents For Winter and Spring Terms

The Agriculture Club met Tuesday night for the last meeting of the term. The meeting was taken up with business affairs that are necessary to be discussed before the end of the term.

The following men were elected as officers of the club for the winter and spring terms:

Winter Term: President, T. C. Andrews; vice-president, A. D. Stuart; secretary, W. K. Bailey; treasurer, C. E. Craver.

Spring Term: President, A. E. Tucker; vice-president, R. W. Shoffner; secretary, E. V. Vestal; treasurer, E. P. Story. After the election, cigars were passed around, and the club spent the rest of the time in social conversation.

### FRATERNITY LEAGUE

Section winners in the Inter-Fraternity Touch Football League have been determined by recent games. Tau Rho Alpha annexed the honors in section one with three wins and no defeats.

Sigma Pi fraternity won the section two laurels with two wins and one tie.

Sigma Nu scored three successive wins to claim the honors of section three, while Theta Kappa Nu won the honors of section four with two victories and no losses.

Wednesday, Theta Kappa Nu defeated Tau Rho Alpha by a 6-0 score in the first semi-final game.

Sigma Pi and Sigma Nu will meet Monday in the other semi-final, and the winner will play Theta Kappa Nu for the championship on Tuesday.

### PROF. HICKS OFFERS COURSE IN RELIGIOUS EDUCATION NEXT TERM

A great many students have been wanting to know when W. N. Hicks will offer courses in religious education. Those who are planning to elect some of these courses will be glad to learn that the first one will be offered next term. The name of this course is "Introduction to Religion."

The catalog gives the following description of this course: "An inductive study of typical forms of religion in their origin, development, and function; consideration being given to their sociological, psychological, and philosophical groundings. The work will conclude with a brief survey of the outstanding religions that are vital in society today."

For the third term the courses offered will be "The Life and Teachings of Jesus."

Mr. Hicks spent last year at Oberlin College preparing to give these courses, and received his M.A. degree in Philosophy of Religion from that institution.

These courses will be of value to any State College man in any school. Those whose schedules permit would do well to elect them, it is said.

### STUDENTS WILL COMPETE IN ESSAY CONTESTS ON EFFECT OF ARMED FORCES

"What is the Psychological Effect on the National Mind of Great Armed Forces Maintained? Ostensibly for National Defense?" is the topic for the 1929 essay contest of the Brooks-Bright Foundation, according to announcement by John E. J. Fanshawe, Director General of the Foundation, on the eve of his departure for England, where he will attend the annual meeting of the British Committee of Brooks-Bright Foundation.

Before returning from Europe Mr. Fanshawe will go to Paris, where he plans to organize a committee to sponsor the essay contests in France.

Some hundreds of thousands of students in United States, England and France will this year write essays on this topic in competition for the prize scholarships affording a year's resident study in a foreign university.

### Freshmen Not Alone In Habit of Upperclassmen Walking Dr. Brooks' Office

If any one wishes to make a call on Dr. Brooks get an appointment with him and find out where to go. This may sound like an order, but

it is only a warning. "Look before you leap."

Recently a few of our students entered Dr. Brooks' office and were greeted with a smile and a pleasant, "Good morning, gentlemen." But to their astonishment they found they had entered the wrong portal.

It is not believed the same mistake will happen again soon, but others

will bear in mind the watchword given above, because in later life they will not want to be walking through doors which might lead into unknown interiors.

He—I have never seen such dreamy eyes.

She—You never stayed so late before.

**Avera-Royle**

The following invitation was received by friends of "Nick" Avera, who finished college here in '26 and is a member of the Pi Kappa Alpha fraternity: "Mrs. Heber Royle announces the marriage of her daughter, Edna Malcolm, to Mr. Charles Nicholas Allen Avera, on Saturday, the tenth of November, one thousand nine hundred and twenty-eight, Patterson, N. J."

Mr. and Mrs. Avera are now living in Washington, N. C., where Mr. Avera is a representative for the R. J. Reynolds Tobacco Company.

**Accept Bids**

Six men have accepted bids to Greek fraternities since Pledge Day. The neophytes are:

Pi Kappa Phi: R. C. Noblin, Kingston, H. E. Moore, Clinton; Pi Kappa Alpha: H. C. Carter, Wallace.

Sigma Phi Epsilon: C. M. Faircloth, Clinton; Wm. Tighe, Raleigh; S. Clarke, Savannah, Ga.

Chi Alpha Sigma: Frank Clarke, Mooresville.

**Pi Delta Sigma Smoker**

Pi Delta Sigma (the Business Club) entertained its membership and several invited guests at an informal smoker in the Y. M. C. A. last Thursday evening.

The invited guests were W. A. Hunt, Dick Little, Crawford Beck, C. C. Green, C. Edwards, A. L. Weaver, P. D. Morgan, and Professor M. C. Leager.

Members present were A. B. Holden, J. T. Humble, E. H. Roberts, A. L. Aydtlett, E. W. Buchanan, L. R. LaBruce, K. Byers, T. M. Vernon, W. V. Sawyer, H. G. Love, J. H. McKinnon, E. H. Roberts, D. Holoman, Jr., and Professors R. O. Moen, E. E. Goehring, C. B. Schulenberg, and Dean B. F. Brown.

**Lambda Chi Dance**

Lambda Chi Alpha entertained with a dance Friday night at their new home on Clarke Avenue.

Those present were: Miss Frances Barbee with Mr. Wm. Fitzgerald; Miss Margaret Hughes with Mr. R. B. Trogden; Miss Ada Spencer with Mr. J. P. Cranmer; Miss Dell Foley with Mr. Clifford George; Miss Ruth Penny of High Point with Mr. H. B. Merriam; Miss Carolyn Tucker with Mr. A. B. Sims; Miss Louis Kennedy with Mr. C. Davis; Miss Sara Whitaker with Mr. E. Mewborn; Miss Davetta Levine with Mr. H. T. Smith; Miss Margaret Ellington with Mr. G. C. Creighton; Miss Louise White with Mr. J. L. Fitzgerald; Miss Cleo Ashby with Mr. J. W. Johnston; Miss Clarice Mitchell with Mr. G. N. Todd;

Miss Edythe Holloway with Mr. J. Messick; Messrs. W. W. Workman, W. R. Shore, W. H. Britt, P. D. Morgan, J. K. Dixon.

**Thanksgiving Dance**

Climaxing affairs of the Thanksgiving season was the final fling of the young and collegiate contingents when the Intercollegiate Club entertained at a dance Thanksgiving evening, from 9 until 1 o'clock, at the Woman's Club. Sponsors were selected for this event, which was attended by the many young women visiting in the city on Thanksgiving day, including the attractive array of co-educational students of the University of South Carolina, who were enthusiastic supporters of their athletic teams and hence were in the city in large numbers for the Thanksgiving game.

The dance Thanksgiving evening was long anticipated as one of the largest and most cosmopolitan entertainments of the fall season, because of the football games being the most attractive feature in North Carolina on Thanksgiving. This was a fitting close to the fall season in the city, as far as the collegians were concerned, it being the last entertainment of the fall in which they figured.

Sponsors for the dance were: Misses Billy Freeman, Susan Tucker, Dorothy Furr, Letitia Mason, Martha Galloway, Arabella McGill, Margaret Crowder, Davetta Levine, Louise White, Anne Louise and Elsie Mason Underwood, Eulabeth Warner, Anne Vaughn, Margaret Hughes, Anne Hoover, and Melissa Browne, Margaret Sherrill, Adele Toley of Columbus, Ga.; Madeleine Taylor of Morehead, Emily Pollock of New Bern, Frances Fulghum of Wilson, Marie Anderson of Wilson, and Rolline Torrence of Lynchburg, Va.

Chaperoning the dance were Mrs. Henry McKee Tucker, Mrs. E. S. Freeman, Mrs. John N. Mason, Mrs. Pattie K. Furr, and Mrs. O. R. Browne.

**Personals**

Messrs. Robert P. Shapard, John Gammon, Floyd Isom, and John Walton, visited Atlanta during the holidays.

Mr. Henry Burrus and Mr. Thomas James spent the Thanksgiving holidays on a hunting expedition in Virginia.

Mr. "Red" Lassiter and Mr. "Dutch" Holland, former members of the Wolfpack and baseball teams, witnessed the South Carolina-State football game.

Mr. Alex Grant represented the electrical engineers at the A. I. E. E. convention in New York.

Mr. Bill Woodward spent the Thanksgiving holidays at his home in Washington, D. C.

Mr. Hailtwarger, who attended school here last year and is now at the University of South Carolina, motored over to see the Thanksgiving game.

Jack—How is it you're out whenever I call?  
Jill—Just luck, I suppose.

**Your Attention is Called to These ANNOUNCEMENTS**

**Those Interested**

in intercollegiate debate and oratory are asked to meet in Room 109, Pullen Hall, at noon of next Wednesday, December 12th.

**A Slide Rule**

belonging to some unknown person was found in Professor Boshart's classroom, 311 Ricks Hall. The owner may secure the slide rule by calling on Professor Boshart.

**Group Pictures**

that have not been made will be made Wednesday at noon in front of the library. The photographer will be there until 1 o'clock.

**Senior Write-Ups**

must be in by December 12 in order to be in the book. The editor advises that they be sent in immediately.

**Monogram Club**

will meet Monday at 1:15 o'clock in the Y. M. C. A. All members are requested to be present. Plans for initiation on Tuesday night will be discussed.

**Letter Men**

who are not members of the Monogram Club may be initiated Tuesday night at 7 o'clock in the gymnasium. By taking the initiation then, new members can get in the picture to be taken Wednesday at 12:30 o'clock.

**Pi Delta Sigma**

will have its regular meeting on Tuesday, December 11, at 7 p. m. in Room 5, Peele Hall.

**Prof. H. L. Whitesell**

will give an illustrated lecture in natural colors on trees and shrubs to the Horticultural Society in Room 308, Polk Hall, at 6:30 Monday night.

**All Students Who**

have not received their Wataugan, stop at the office in the Y. M. C. A. Monday, Tuesday, or Wednesday between 12 and 1 o'clock.—Business Manager.

**A Typographical Error**

appeared in the report of expenditures of the dance committee in last week's Technician. The sum received by members of the committee should have read \$288, instead of \$28, as it appeared. Surplus of \$400 will go toward final expenses, and has been deposited by J. W. Black on savings account in the Citizens National Bank.

**Student Volunteers**

are requested to report to A. D. Stuart at 201 Watauga as soon as possible.

**Barn Warming**

pictures may be secured from E. V. Vestal at 216 Watauga.

**OXFORD DEGREE COURSE INVOLVES CONSIDERABLE SURVEY OF ITS SUBJECTS**

The course in Oxford University which leads to a B.A. with honors in the English Language and Literature, involves probably the most thorough undergraduate survey of its subject offered in an university at the present time. Although the final examination allows the individual considerable freedom of choice, it demands in any case a broad general knowledge of British literature from Beowulf to the present time, a good understanding of the chief rules of philology and their application in the history of the English language, a reading knowledge of Anglo-Saxon and Middle English, and a specialist knowledge of certain periods considerably deeper than those demanded by the average American college degree.

Such requirements permit few real gaps in the student's knowledge of English, and many an American holder of an M.A. in English finds his knowledge woefully piecemeal and chaotic when faced with the exactions of Oxford final hours exams. But no holder of a M.A. in English from an American university or college of good standing need feel unduly discouraged by the Oxford requirements—provided, of course, he is prepared to work diligently and without dismay for two or three years in preparation for his degree at Oxford! He will find that, by intelligently planned work, he has but to fill in the gaps of his knowledge of literature to master the requirements in philology, which can be reduced to a minimum and almost memorized—and he is ready for the Oxford "schools"!

Gloria—Summer marriages are the best.  
Olga—And summer not.

**CHEMICAL SOCIETY HEARS MATHEWSON AND MILLER AT MEETING ON TUESDAY**

The Chemical Engineering Society held an interesting meeting Tuesday night, at which time E. H. Miller, engineer of the State Board of Health, and Parks Mathewson, statistician of the Department of Conservation and Development, addressed the society.

Mr. Miller discussed the improvements in the water purification and sanitary systems of North Carolina cities within the past ten years. All of the cities and larger towns in the State now have modern waterworks systems, which are in charge of trained men, some of whom are chemical engineering graduates from State College. All of the larger cities now have trained men in charge of their waste disposal systems. Within the past few years so much progress has been made in this State along these lines that North Carolina is among the best states in the Union in regard to modern water purification and sewage disposal systems.

Mr. Mathewson gave statistics to show the rapid growth of industries in North Carolina and pointed out the lines which most wholesome industries of the State may pursue. Nearly one-fourth of the annual production of the State is chemical products. The total manufactured products of the State amount to over \$1,100,000,000 annually. He explained in his talk why these enormous manufacturing interests in the State are requiring especially trained men for their organizations.

**"Separating Facts From Opinion" Seen by ASME Courtesy Studebaker Co.**

A one-reel picture, "Separating Facts From Opinion," sent out by the Studebaker Company, was the program at the regular meeting of the student branch of the A. S. M. E. Tuesday night. This picture was of great interest to all the members because of the mechanical features brought out.

After this program the business of the society was transacted. E. W. Worth, Jr., was in charge of the meeting in the absence of T. A. Grant, president, who is attending the National Convention and Power Show in New York this week. The main topic for discussion was the float for the engineers' parade. It was decided to start at once on the idea brought up at the last meeting, and a committee was appointed for this purpose.

**TEXTILE PROFESSORS AT ANNUAL MEET AMERICAN CHEMISTS AND COLORISTS**

Professor Albert H. Grimshaw and Dean Thomas Nelson of the textile school left Raleigh Tuesday to attend the annual meeting of the American Chemists and Colorists at Providence, R. I., December 8. They are making the trip by automobile, and plan to return on Tuesday.

On December 8 Professor Grimshaw will be one of the principal speakers of the evening. His subject will be, "Dyeing in the South." Mr. Grimshaw in this lecture will endeavor to show how the south has advanced in the dyeing industry. He will display a large variety of dyed goods which he has collected from the various mills of the section, which include samples of dyed raw stock, skeins, piece goods, rayon and celanese goods, two-color effects, celanese and cotton mixtures, prints, discharges, and samples of dyed goods from the direct colors through the most complicated vat colors.

Professor Grimshaw has taken along his noted "movie camera," and he will show pictures of State College, various dyeing machines which make up the large assortment of dyeing apparatus of the textile school, cotton growing in the south, noted dyeing mills of the south, and machinery of the various southern mills.

Mr. Grimshaw is widely known throughout the eastern part of Massachusetts and Rhode Island, and for many years was professor of dyeing at the New Bedford, Mass., Textile School.

**LITERARY SOCIETIES ARE SHOWING GOOD PROSPECTS FOR LAST TWO QUARTERS**

Prospects are good for an increased interest in the two literary societies—Pullen and Leazar—during the second and third terms. The societies have been handicapped during the first term by a late start and by the many weekend activities which have cut into their regular meeting night, Friday.

The work of the second term will begin with the annual inter-society Declaration Contest, which has been scheduled for Friday, January 4. The preliminaries will be held in the afternoon, and the two best speakers in each society will compete for college honors that night. Some excellent modern speeches have been chosen by the contestants, and there will be keen competition between the representatives of the two societies.

The second event on the inter-society program will be the Senior Debate, which will also be held during January. For this contest the proposition that will be used for the inter-collegiate debates this year has been chosen: Resolved, That a substitute for trial by jury should be adopted. It is expected that the affirmative, to be upheld by Leazar, will propose a committee of three expert jurists as the substitute for the jury.

The membership of each society is larger this year than ever before, and efforts will be made to improve the regular weekly programs by dividing the members into groups which will compete with one another for society honors.
