## SIX STATE BOYS OFFER BLOOD TO SAVE DYING LAD

### Blood of L. W. Moore Used by Surgeons in Transfusion

#### VOLUNTEERS WITNESSED KNEE-CAP OPERATION

#### Lack of a Means of Conveyance Caused One of the Earliest Volunteers to Withdraw As "Not Interested" If He Had To Ride Street Car To Hospital.

By A. LAURANCE AYBLETT

The lie was given to the idea that college men take life so easy when Thursday of this week six State College boys, one of whom went for the second time and one of whom had returned to school emaciated from an attack of influenza, answered the call of Drs. Neal and Thompson at Rex Hospital for volunteers to undergo the ordeal of a blood transfusion to save the life of Steven Tedder of Wilson.

A white swelling on the hip of Tedder, who is about 25 years of age, followed by hemorrhages, had left the sick man in a very weak state, pale and wan, and at 2 o'clock it was decided necessary to inject new blood into his veins.

Take 500 c.c.

Over 500 cubic centimeters of blood was taken from the arm of L. W. Moore, agricultural junior, of Portsmouth, Va., by the indirect method and poured into the body of the youth whose life was at stake.

Sooner than expected was the blood of the two on the operating tables that almost immediately the transfusion was made the color began to return to the cheeks of the Wilson man, and his pulse, which a moment before had been almost uncountable to the attending nurse, quickly approached normal.

Lack of means of conveyance had caused one of the earliest volunteers to withdraw as "not interested" if he had to ride the street car to the hospital. Six other students had already offered themselves for the demand of mercy and made all possible haste to the operating room.

Six Volunteers

Volunteering with Moore, whose blood was used, were: K. Adenholt, ceramics major, Sanford; H. C. Green, senior in vocational education, Elberfeld;—Continued on page 2.

## FROSH BASKETEERS OPEN SEASON MONDAY NIGHT

### Eleven Games Scheduled for "Doc" Sermon's Baby Bolsheviks

The freshman basketball squad is gradually being rounded into shape by Coach "Doc" Sermon, in preparation for the opening game against the yearlings from Wake Forest College, scheduled for the auditorium next Monday night.

From the hundred candidates that reported before the Christmas holidays but twenty-five remain. Sermon is now busy teaching the squad new plays. In the opening game Wood and Brown will probably start at the forward posts, Avery will be at the pivot post, with Hogan and Rose at the guard positions.

The schedule includes a list of eleven contests, with the usual games against Carolina, Duke, and Wake Forest.

The schedule is as follows: Jan. 14—Wake Forest at Wake Forest. Jan. 15—Greensboro High at Raleigh. Jan. 22—University of North Carolina at Chapel Hill.

Jan. 25—Oak Ridge at Raleigh. Jan. 26—Duke at Raleigh.

Feb. 1—Wake Forest Junior College at Raleigh.

Feb. 2—Leaksville High at Raleigh. Feb. 8—Asheville High at Raleigh. Feb. 9—Duke at Durham.

Feb. 13—University of North Carolina at Raleigh.

Feb. 18—Wake Forest at Raleigh.

## WINS HIGHEST PLACE IN JUDGING OF CROPS

E. H. FLOYD

When the crops judging team representing the North Carolina State College won its fourth national intercollegiate crops judging contest at the International Livestock and Grain Exposition at Chicago last week, the work of this young man was outstanding in its brilliance. Not only did Floyd win the highest place in identification of all farm crops of economic importance, but he also made the highest average score of any student in the contest.

Floyd is a senior at State College this year, and because of his accomplishment at Chicago won a scholarship for advanced study at any college or university of his choosing. He is from Fairmont, in Robeson County, and is a member of the Alpha Gamma Rho fraternity at State College. His team-mate, J. E. Zimmerman, of Lexington, was second high man in the international contest, and J. W. Dawes, the third of the team, was sixth highest. The team was trained and coached by W. H. Darst, professor of farm crops in the school of agriculture.

Winning a place on this crops judging team is considered one of the highest honors in the school of agriculture, and is hotly contested each fall term. State College has won first honors in this event in four of the six years that it has been held.

## Y. M. C. A. PLANNING BIBLE STUDY IN SPRING

### Groups Will Meet Every Wednesday Evening From 6:30 to 7:30

The Y.M.C.A. is now planning to put on a campus-wide Bible study program next term.

The "Y" has been sponsoring programs of this nature for several years and in most cases they have been successful.

The purpose in putting on this program is to study the life and teachings of Jesus. In this study we shall endeavor to find the true nature of Christ and the principles which He taught.

The program will not be arranged in such a way as to uphold some doctrine or creed, but will attempt to portray the New Testament in an up-to-date manner. We hope to interpret the teaching of Jesus in terms of our individual problems and also campus problems.

Someone has said that Jesus is the most talked of and least known about of any man who has ever lived. This statement is perhaps true, for much of the talk we hear about him tends to obscure his real personality. Therefore, the Bible study groups will try to remove all the misunderstanding and misconceptions about Him, in order to see Him as He is.

In these groups the "Y" hopes each member will feel free to express himself. If someone disagrees with the remainder of the group it will be all the better, for it is by disagreement that we come to satisfactory conclusions many times.

The tentative plans of the Bible study committee is to use Bruce Curry's book, "Jesus and His Cause," as a basis for the Bible study program. This book gives an outline and also asks questions on the book of Mark.

A canvass of the dormitories will be made in a few days to give students an opportunity to sign up to take part in this program. We hope every man on the campus will take part in this work.

These groups will not only be the means of learning more about the

## Alumnus of State Formally Made Governor Yesterday

### Students Register For Winter Quarter In Gymnasium Today

Registration of State College students began this morning at 9 o'clock, in the Frank Thompson gymnasium, when rosters were signed and accepted for work to be taken during winter term.

Because of the sudden shortening of the fall quarter by an epidemic of influenza the scheduled date for registration and the opening of the second term was postponed from Thursday, January 3.

## COUNCIL APPOINTS HONOR COMMITTEE AT LAST MEETING

H. H. Burroughs, R. I. Mize, and E. W. Buchanan were appointed from the student body Friday last week by the Student Council to serve on the Honor Committee with Dean E. L. Floyd and Professor J. D. Clark, in conjunction with campus opinion as expressed in a questionnaire submitted to the students some time ago.

The 37 questions were answered by 850 men, and showed a desire for such a committee, to sit as a grand jury in cases of dishonesty. The questionnaire was the second submitted to the students during the course of discussion over the honor system and campus rule that has been in effect for the past few weeks.

First of these was the unofficial ballot submitted by THE TECHNICIAN in an attempt to get a consensus of student opinion, and this was followed by the official query of the Student Council.

Ballots are printed in this week's TECHNICIAN by the counting of which it is hoped to determine how much dishonesty was prevalent during the recent examination period last Thursday.

Members of the student body have been requested by President W. P. Albright to attend the council in gathering this data by filling out one of the forms on the society page and dropping it in the box provided for that purpose in the Y.M.C.A.

## RHO CHAPTER SIGMA PI SENT 4 DELEGATES TO BIENNIAL CONVENTION

During the Christmas holidays the Sigma Pi fraternity held its 1928 biennial convention at the Atlanta-Biltmore Hotel, Atlanta. Rho Chapter of N. C. State was represented by four delegates, A. M. Greaves-Walker, Robert M. Tyson, Robert Evans, and Professor A. T. Graves-Walker.

The hall given by members of the various national fraternities living in Atlanta in honor of the Sigma Pi delegates was the high light of the Christmas social season in that city, approximately 500 of the younger set being in attendance.

## Red Terrors Take Game From Lenoir-Rhyne Quintet 36 - 22

By "HOP" WILSON

The State College "Red Terrors" took their second consecutive game here last night from the Lenoir-Rhyne quint by a score of 36 to 22.

Both teams played a fast game, but the score indicates the superlative. State basketballers played a much smoother game than was witnessed at the Farm game. Johnson and Warren kept the visitors in a state of confusion during the entire second half by parading the floor at leisure.

Locals grabbed the lead early and held it. Haar led Terrors' scoring with twelve points; Goodwin came second with eight.

Lenoir-Rhyne put up a hard, clean fight. Ritchie, for visitors, led his team with eight points.

During the second half the State quint seemed to gain more life, and kept the Lenoir-Rhyne loopers on the defense. But for occasional spurts from the visitors, the game was played

## Gardner Gets Great Ovation As Takes Reins of Office

The marching lines of military, the thronged sidewalks, applauding hands, and a grey sky ushered into office yesterday noon North Carolina's new Chief Executive, O. Max Gardner, Shelby, duly elected by the people of the State as their servant for four years, and proudly acclaimed by his Alma Mater, State College.

Chief Justice W. P. Stacy, of the Supreme Court of North Carolina, administered the oath of office to the Governor-elect after he had been presented to the crowded city auditorium by Angus W. McLean, Lambertson, retiring head of the State's administrative forces.

Senate and House of the General Assembly were present in joint meeting, and occupied the center section of the auditorium floor space directly in front of the rostrum, and to these representatives of the people the inaugural address of the new Governor was directed.

State's Platform

Standing four-square for the Australian ballot, reduction of county taxes on property, for road maintenance through the addition of one cent a gallon on gasoline, better public health, more efficient law enforcement, more advantageous agricultural systems, and support of eight months rural schools for those counties desiring such, Gardner drew applause from all sections of the auditorium.

Approximately 600 students of the Guilford County schools filled the top balcony on the speaker's right, and looked down upon him in gladness, as he extolled the advantages of education to the children of the industrial, agricultural, and commercial interests of the State.

Other officers of the State of North Carolina were sworn in, before the Governor took his oath, by Associate Justices Brogden, Connor, and Adams of the State Supreme Court. After adjournment of the joint meeting of the two houses of the Legislature, the gubernatorial party repaired to a revolving stand in front of Gilmer's Store on Fayetteville Street to witness the inaugural parade.

Military Units Parade

The Fifth Field Artillery band headed the procession on the "Main Street of North Carolina," followed by units of infantry, field artillery, coast artillery, and medical corps of the North Carolina National Guard, cadet corps from the Reserve Officers Training Corps units at North Carolina State College and Oak Ridge Military Institute.

Adjutant-General J. Van B. Metts had charge of the military operations of the day.

Governor and Mrs. Gardner received visitors at night at a check at a reception at the Governor's Mansion on Blount Street.

The distinguished alumnus is now by virtue of his office chairman of the Board of Trustees of North Carolina State College.

## RED SPRINGS BOY R. O. T. C. LEADER

Col. J. H. McKinnon

John Henderson McKinnon, son of Neill McKinnon, Red Springs merchant, is the cadet colonel and regimental commander of the Reserve Officers Training Corps at North Carolina State College, Raleigh, this year, having entered that institution from Red Springs high school.

McKinnon is an outstanding student leader at State College and plans to enter the United States army after being graduated in June, he says. His various college activities include membership on the R.O.T.C. rifle team for three years, captain of that team this year, president of the Leazar Literary Society, and attorney for defense in the students' Court of Customs. He is a member of the Pi Delta Sigma business society, and the national society of Scabbard and Blade. He is majoring in finance in the State College school of business.

## CHINK OUTEN WILL JOIN NEW YORK YANKEES FOR ST. PETERSBURG TRIAL

By FRANCIS TRIPP

"Chink" Outen, N. C. State College athlete and a member of the senior class, will join the New York Yankees at St. Petersburg, Florida, next month and receive a trial as an outfielder by the world's champions.

It was announced in a story from New York last week that Outen will be taken along with two other candidates from minor league teams. It has previously been rumored that Outen was to have reported to the Charlotte club for the 1928 campaign.

"Chink" gained fame in the baseball world because of his ability to hit. He is one of the heaviest sluggers in the South, and is also noted for his all-around ability as a ball player. He can catch, play the infield, and cover any outfield post.

Outen has played for N. C. State for the past two years, and also is a gridiron star. He has played summer ball at Concord for several seasons. His home is in Mount Holly.

## Stuckey Writes Report On Pyrophyllite Deposits In State of North Carolina

M. R. MERRIAM

The first complete report on the pyrophyllite deposits in North Carolina has been prepared by Dr. Jasper L. Stuckey, professor of geology.

Pyrophyllite is very similar to talc in physical properties. It is sometimes crystallized. Pyrophyllite is found in acid volcanic rocks, mostly in the normal coarse-grained tuff.

Some deposits of pyrophyllite are over one hundred years old. The deposits found in this State, as far as known, are the only deposits in the United States.

Pyrophyllite deposits are found in Moore County and Chatham County near Heap, Glendon, Toy, Staley, and Stom. The oldest deposit is at Glendon. All of the deposits are in the Deep River region.

When pyrophyllite was first found it was used for fireplaces, gravestones, and chimneys. Since its development it is being used for textile manufacturing, bleaching industries, asbestos industry, soap manufacturing, sheet asphalt, paint manufacturing, toilet preparations, pottery, and porcelain, and crayons and pencils. Pyrophyllite may be used as a ceramic material.

Those who desire more information on pyrophyllite deposits in North Carolina may get the information at Dr. Stuckey's office in the Chemistry building.

## X-RAY DISCLOSES SHOT IN BRAIN OF DIXON POOLE, JR.

### Former Student Unable To Attend Trial of Case This Week

#### MILLER CO-DEFENDANT WITH NEGRO EMPLOYEE

#### Search for Apples in College Orchard Ended Disastrously for South Carolina Boy Last October, When He Was Shot By Marshall Hoover, a Negro Watchman—Nonsuit is Unexpected Outcome of Case.

By A. LAURANCE AYBLETT

Serious aftermath unexpectedly resulted from what was supposed to be a closed incident of the shooting of Dixon L. Poole, Spartanburg, S. C., freshman, by Marshall Hoover, Negro watchman of the college apple orchard, with a shotgun during a foraging expedition among the trees about the third of last October, it was learned here Thursday when trial of the case, State of North Carolina vs. Hoover and Miller, came up on the docket of the Wake County Superior Court.

Released from the local hospital as practically well, and as suffering no extremely severe dangers of his accident, Poole returned to his parents, Mr. and Mrs. Dixon L. Poole, Sr., to his home in the Palmetto state.

Recent X-ray photographs of the boy's brain showed several shot lodged there, with the result that the former

## PLANS ARE COMPLETED FOR EARLY BASEBALL

### Eight Lettermen, Nine Reserves, and Thirteen '28 Freshmen Form Material

Coach Charles G. (Chick) Doak has completed his plans for opening early baseball training for his 1929 North Carolina State College varsity, he said today in announcing that practice in doors would get under way on January 15. Outdoor workouts will begin as soon as the weather permits.

Eight letter men veterans, nine reserves, and 13 players from Gus Tebbell's 1928 freshman squad are expected to be available for the varsity mentor. Five veterans of the 1928 varsity have been graduated, these being Jack McDowell, first baseman, who is now coaching at Asheville high school; John Kittle, of Newton, utility fielder; Sam Rows, of Newton, pitcher; Joe Mathews, of Raleigh, and J. E. Wester, of Mapleville, outfielders. Avery, freshman pitcher, has not returned.

State will play about the same schedule Doak arranged for last season, opening in March with Springfield, Mass., Y.M.C.A. College, here, and later playing state teams as well as Southern Conference members in both upper and lower sections.

Letter men available include: G. K. Woodworth, of Erwin, shortstop; Chas. Estman, Thomasville, catcher; Larry Aldox, Roxboro, pitcher and captain; Jimmy Mayfield, Norlina, outfielder; catcher; Sandy Shore, Booneville, pitcher; J. B. Snipes, Bryann, outfielder; Chink Outen, Mount Holly, second base, and Charles Seal, Franklin, Va., third baseman.

Last season's bench warmers include: Dexter Albright, Spencer; G. Harris, Elmwood; Slim Williamson, Raleigh; P. Morgan, Spring Hope; Clarke Freeman, Colerain; Zeb Plonk, Kings Mountain; Louise Taylor, Rosemary, and George Hunsucker, Hamlet.

Sophomores: J. Meade, Glenwood; Tom Kerr, Shelby; J. Edmondson, Rosemary; Tony Furtado, New Bedford, Mass.; W. Brake, Rocky Mount; Pearce, Wendell; Harvey McLahorn, Vanceboro; G. Booker, Rocky Mount; Turner, of Dedmon; Willis Hargrove, Greensboro; H. Atkinson, Winston-Salem; White, and others.

Kenneth Badgett, of Jackson Hill, is varsity manager.

SUBSCRIPTION PRICE: \$1.50 PER COLLEGE YEAR

Our advertisers were solicited with the purpose of putting before you dependable shopping points. Remember this, and feel perfectly safe in guiding your shopping by THIS TECHNICIAN.

Max, State is proud of you.

Have you passed all your exams, boys?

The strenuous week the campus has been subjected to is one reason why there isn't much news this time.

We certainly have to hand it to the boys from Oak Ridge. They put it all over the rest of the militarists in the parade, even going our unit one better. The lines of the National Guard were regrettable.

We announce with regret the temporary leave of absence of our managing editor, T. A. Vernon, who has gone to the News and Observer for a few months. It is our hope that he will be back before the end of the school year.

THE TECHNICIAN wishes to extend sincere congratulations to O. Max Gardner, erstwhile student of this institution and now Governor of North Carolina, on his inauguration yesterday. He has all our best wishes for a successful administration. Why not? He's a State College man.

FIT OUT THE BAND

Some time ago we were talking with Major P. W. Price, director of the college musical organizations, when the subject of the band being absent from the gridiron at the Thanksgiving game came to the fore.

Mention was made of the advertising feature of this organization and its snappy appearance when parading in the open space between the bleachers between halves of the contests.

Recognition was taken of the drawing card it seems to be to the people of the city and state, with the prancing professor of public speaking at its head in his snappy uniform.

How much the band was missed was easily seen from the comment on and off the campus. The college dining hall had closed and the boys would have had to pay for their keep outside if they remained on the campus instead of going home for the brief holiday.

The uniform the band now wears is one that was paid for entirely by personal subscriptions of the band members themselves, and it is a distinctive one that can be recognized anywhere on the campus. In fact, the band blazer has been adopted by the faculty council as standard equipment for the organization, and no other persons on the campus are to be allowed to wear coats of exactly the same pattern.

The college colors of red and white are one of the best combinations obtainable to make a snappy and handsome uniform, and are colors that would be especially suited to any college band.

Now, the thing that came in for most discussion was whether or not the student body of this institution would get behind the band and give it the boost it deserves in appreciation of the boosts it has time and again given the school. If the plan suggested by Major Price can be followed it will make the local musicians what is termed in campus parlance, a wow.

If a contribution from the students of State College in the amount of one dollar from each student can

be taken freely and willingly, there will be a tidy sum of about \$1,500. With this amount as a nucleus and to be used to show State College is really behind its greatest advertising asset, Major Price can go to business men and organizations in the city of Raleigh and the surrounding territory for contributions that will swell the entire sum to four or five thousand dollars.

This amount, he said, would be entirely sufficient to fit the band out in the best uniforms obtainable and to enable it to hold its own when pushed up against the bands of the other large institutions of this state.

Now that Carolina Tech has taken the lead in bringing its band out on the field during an athletic contest, which it did several years ago, and was followed by the University, Duke, and Wake Forest, it must continue to keep the lead or give its place in the sun to some aspiring school.

If the University, if Duke, if Wake Forest, or Davidson, happen to be the first North Carolina school to give its band a worthwhile uniform, then North Carolina State will lose all the work of years in getting its own organization recognized as the best in this section. If we take the lead again we shall have a jump on the others that will be very difficult to overcome.

And Major Price says the business men of Raleigh are interested in our band almost as much as we are. They invite it on the yearly tour of the State Fair special, to play at the towns on the route. What better aid could they want, and what better advertising could we ask?

Give us a snappy State College band parading the streets of those host towns and we shall have a bigger and better school; the band will bring folks here to see what the rest of the school is like. It pays to advertise.

If the merchants of Raleigh are willing to subscribe four or five times as much as the student body, then we show ourselves as slackers if we do not meet our obligations to ourselves.

Let's have a voluntary contribution of one dollar from each student of the college to carry to the business men of the city for their ten or a hundred dollars each. Come on, men; show the school and its band you are proud of both. Let's get the faculty council to authorize the treasurer's office to take charge of the money each student turns over.

The best time would be at registration, but since we sign up today, it is now too late. There is plenty of time yet to get this done before school closes. Let's have your sentiment. Will you do it, boys?

STUMP SPEECHES

Time draws near when campus elections will be foremost in the minds of the student body. Already it is not too soon to take notice of aspiring candidates for office; the time will seem shorter than it really is.

Now that things are in a way towards lining up for next year's campus leaders, there ought to be some way to get them and their plans and platforms before the student body.

What better method could be used than that of the traditional stump speeches of the national and state politicians and office-seekers to swing public sentiment in their favor?

Why not have each State College man who expects to be a candidate for an elective office next year submit himself and his record to the student body for its approval?

Why not have certain days of the week set aside during which at certain hours speakers will extol their excellence for the positions they desire or are desired for them by their fellow students?

If such a custom is started at this institution and kept alive through several years, there will in the future develop a technique on the local campus that will give as servants of the students the best material available from the ranks and from those that already are honored by some minor office and aspire to a higher one.

If the students can know by these means how their candidates stand on the various issues before the group and its problems as well, they can go to the polls on election day with much greater surety of their ballot and much greater ease as to the outcome of the voting and its results.

Let's get busy right away, boys; let's have stump and soapbox orators stationed all over the campus, spouting to the four-winds their aims in their possible office-to-be and how they intend to use it for the benefit of the student body.

What do you say? Shall we start the ball rolling?

Headlines in Old Gold and Black: SENIOR CLASS VOTES TO DISCONTINUE THE "LOLLY-POP" SECTION  
Note: Fewer SUCKERS at Wake Forest.

Slogan of the Cullouhee Yodel: "Neighborly Call from the Hills to Kindred Spirits Everywhere."  
Note: The call of one bootlegger to another, no doubt.

The old year has passed; but how about the student body?

Be not like the foolish virgins; buy your booze now, for the legislature is in session.

Headline in News and Observer: POOLE HAS BILL  
Therefore he couldn't be a mcnkey.

Oh, The Twig is easily bent. Did your headlines grow that way, or did you drop them on the floor?

Headlines in The Twig: FACULTY MEMBERS OF MUSIC DEPARTMENT TO GIVE SCHUBERT PROGRAM  
Note: I know Schubert will appreciate this.

How can you expect the collyth boy to follow the "straight and narrow path" after a rain? "Where the pavement ends" the mud begins.

O. MAX GARDNER thou art. What you sow, that shall ye also reap.

Granting that the president of the Glee Club is a fast man, the band drummer "beats time."

To the Observer the Times is hard.

Professor Barnhart (while grading exams): "And they say 'History repeats itself.'"

"Red" Clark: "Was she a chorus girl?"  
Dr. "Tommy": "Yes; very coarse!"

Six State Boys Offer Blood to Save Dying Lad

(Continued from page 1)

R. S. Dunham, vocational agriculture, junior, Bladenboro; W. B. Callihan, freshman, agriculture, Whiteville, and Alva Tatum, business administration, freshman.

After the transfer of blood had been made the college students were permitted to watch an operation on the kneecap of a patient as a reward for their interest in Tedder. Moore received \$25 for the 500 c.c. of life fluid taken from his body for that of the Wilson man.

Hot towels were kept around the calorimeter of blood, while the fluid was stirred to prevent coagulation as it was carried from one room to the other in which the weak man lay on the operating table.

8395 Decisions Favoring This Smoke

Ipswich, S. D., Sept. 4, 1923  
Larus & Brother Co., Richmond, Va.  
Gentlemen:

In answer to the challenge of J. J. Roberts of Columbia, S. D., as printed in the Minneapolis Journal dated Sunday, September 2nd, I have smoked Edgeworth for twenty-three (23) years and for two years previous to that time I smoked Q'boid, which, I believe, is manufactured by your firm.

During this time I have smoked at least one can each day, and to verify this statement you may address the C & C Cafe of this city, where I make my tobacco purchases.

It may be interesting to know that my purchases of Edgeworth during this period have totaled more than 8395 (eight thousand three hundred ninety-five) cans, representing a total expenditure of more than \$1259 (twelve hundred fifty-nine dollars).

I have never smoked any other brand of tobacco but Edgeworth during the twenty-three years.

Yours very truly,  
(Signed) Chas. Bostock  
Justice of the Peace

Edgeworth Extra High Grade Smoking Tobacco

Bible, but they will afford an opportunity for fellowship and will be the means of our getting better acquainted with each other. Furthermore, they will make it possible for us to discuss

the worthwhile topics of life without being afraid that someone will laugh at us.

The groups will meet every Wednesday evening from 6:30-7:30. As there are no other meetings at this time, we feel that it will be a very convenient time to meet.

The "Y" will announce in a few days just when the canvass will be con-

ducted. We extend to everyone a cordial invitation to join one of these groups, and we promise you that we will make the program as interesting and instructive as possible.

Some students go to school, you know, To study French or Greek, While others go to billiard rooms For "English"—so to speak.

Aerial view of Dallas, Texas

Dallas—A Skyscraper City of the Southwest

A GREAT change in the skylines of this country has taken place in recent years, especially in the West. Where formerly great expanses of open range were the rule, now the West is dotted with rapidly growing cities and towns, and where one and two-story buildings were ample for the commercial needs of these cities, today the tall building is necessary.

More and more, as the center of population moves steadily westward, our cities beyond the Mississippi are growing upward, and Otis equipment and Otis service, instantly available anywhere, are doing their part in the vast development program.

All skyscrapers, East or West, were made possible by the elevator—and the world's first safe elevator was an Otis.

OTIS ELEVATOR COMPANY

## Furman Loses To State Basketeers By 43-34 Score

By FRANCIS TRIPP

The collegiate hoop season got underway last Tuesday evening when Gus Tebell's Red Terrors defeated Furman University by a 43-34 score in the Frank Thompson gymnasium before an audience of 2,500.

The game was closely contested for three periods and kept the crowd on edge. During the closing period State sent an avalanche of shots into the net and when the final whistle sounded nine points separated the teams.

Outstanding in the victors' lineup was the lanky Frank Goodwin, whose ability to toss in baskets played no little part in the Terrors' win. The lanky pivot netted an even dozen shots from the floor and two from free throws for a total of twenty-six points. It must be mentioned that "Johnny" Johnson, State's right guard, gave a dazzling exhibition of floor work and time after time carried the ball into the enemy's territory only to pass to a team-mate under the hoop. Johnson had the ball in his possession for nearly three-quarters of the evening and proved to be the speediest and most elusive player on the court.

Captain Charley Burts was the South Carolinian's best bet. He netted six field baskets and one foul during the evening for a total of thirteen points.

Play during the first half was exciting and extremely close. Furman evened the score several times, but couldn't forge ahead. Goodwin was the big gun in State's offense, and his baskets went a long way towards keeping the Terrors in the lead. The

half ended with Furman trailing by a 24-20 margin. During the second half, through the great floor work of Johnson, State managed to pull ahead to gain a comfortable lead before the final whistle sounded.

## Ten-Mile Flares Are To Solve Problem Of Iceberg Menace

Montreal—(IP)—Conquest of the iceberg menace, long the concern of steamships in the North Atlantic, has been approached by scientific research, a product of which is a system of flares that have been demonstrated in the harbor of Montreal.

Although dangers of striking these floating islands of ice have been considerably minimized, vessels still encounter delay through stoppages in fog within the icebergs zone.

Professor Hoard T. Barnes, of McGill University, an authority on ice and its formations, will soon embark on a new scientific adventure to Newfoundland, Labrador, and Greenland, utilizing flare projection to solve his problem, and make of the St. Lawrence a more efficient water route.

Some eight or ten vivid flares were fired some 250 feet into the air around 5:30 o'clock recently, when Dr. Barnes' yacht had reached a dark area in the harbor.

It was explained that flares could be fired ahead of a steamer and anything in its track would be illuminated, not by direct light, but by means of the silhouettes.

Those fired from a pistol rose 250 feet, when a parachute opened and allowed the flare to fall slowly towards the water, the while shedding a brilliant light.

These had a candle power of 50,000 and the same flares could be fired a distance of a mile or a mile and a half, thereby giving an effective silhouette

of anything that might lie between them and the ship.

These lights could be seen for a distance of ten miles.

## RARE NEW FRENCH STAMP

Paris—(IP)—The rarest postage stamp in France is due to the carelessness of a government printer who tore a roll of blank stamp paper.

To avoid explanations, he mended the paper with a strip of red paper, and when the green 20-centime stamps came out of the machine ten of them were printed on a red background.

## FLU EXTENDS HOLIDAYS

Elyria, Ohio—(IP)—Practically 50 per cent of the colleges and universities in the East and South extended their Christmas holidays because of the influenza epidemic. The epidemic, which closed many educational institutions in the far and mid-west before the Christmas season, is now rapidly sweeping eastward and losing itself in the Atlantic.

## X-Ray Discloses Shot In Brain of Dixon Poole

(Continued from page 1)

State College student will be permanently incapacitated, Poole, Sr., stated on his return to this city for trial of the case.

## Poole Not Here

The younger Poole was unable to return to Raleigh, because of his condition resulting from the wounding and the more recent illness of an attack of influenza, from which he has not yet completely recovered.

According to the evidence brought out at the Superior Court trial of the case last Thursday afternoon, Poole, accompanied by Joe Harris, 20, Oriental, and a junior at the college, and F. J. Hodges, junior, from Lexington, Va., left a fraternity house for the orchard about 7:00 or 7:30 o'clock on the night of October 3.

Climbing over the fence surrounding the orchard on Hillsboro Street, the three boys repaired to some distance among the trees, close to the railroad tracks bordering the property on the southern side. There all three were diligently searching a small tree for fruit when a shot rang out.

Harris and Hodges dropped to the ground, while Poole stood for a few moments slightly moaning before he, too, became prone. From the darkness the negro, Hoover, appeared, raised the wounded boy by his armpits, placed him again on the ground and pointed his gun at Hodges with the words: "You boys get up and get the hell out of here, and get this boy out."

Parrish then rushed to the street and then the fraternity house, where he telephoned the hospital for an ambulance. He testified, Hoover, he said, ran up the road on the farther side of the orchard when he called to him for aid in getting Poole out of the orchard.

## Nothing Said

Nothing was said by the negro until after the gun was fired. Harris told the court and jury while he was in the chair. Poole, wearing a white linen cap, carried a laundry bag in which to put the apples.

Hodges followed. Harris on the stand and testified that Hoover told him to "drop that laundry bag" when he picked it up as he started to leave. Neither of the other two boys knew at first Poole was hurt, they said.

Richard E. Moore, employed at the State License Bureau, testified he went to the orchard when he learned of the tragedy, and after calling the police. In company with the officers he went to the home of the negro and as they stood outside the watchman was overheard to say to a negro girl at his home: "Think I got one tonight."

## LEARN THE PIANO IN TEN LESSONS

### Tenor-Banjo or Mandolin in Five Lessons

Without nerve-racking, heart-breaking scales and exercises. You are taught to play by note in regular professional chord style. In your very first lesson you will be able to play a popular number by note.

#### SEND FOR IT ON APPROVAL

The "Hallmark Self-Instructor" is the title of this method. Eight years were required to perfect this great work. The entire course, with the necessary examination sheets, is bound in one volume. The first lesson is unsealed, which the student may examine and be his own "JUDGE and JURY." The later part of the "Hallmark Self-Instructor" is sealed. Upon the student returning any copy of the "Hallmark Self-Instructor" with the seal unbroken, we will refund in full all money paid.

This amazing Self-Instructor will be sent anywhere. You do not need to send us any money. When you receive this new method of teaching music, deposit with the postman the sum of ten dollars. If you are not entirely satisfied, the money paid will be returned in full upon written request. The publishers are anxious to place this "Self-Instructor" in the hands of music lovers all over the country, and is in a position to make an attractive proposition to agents. Send for your copy today. Address The "Hallmark Self-Instructor," Station G, Postoffice Box 111, New York, N. Y.

Lights that Fill the Skies with Commerce

THE air map of America is now in the making—on the ground.

Ten years ago, there were 218 miles of air mail routes with two station stops; to-day, a network of sky roads bridges the country from the Atlantic to the Pacific and from Canada to the Gulf of Mexico.

Can you imagine this growth without electricity—without illuminated airports—without trunk lines studded with electric beacons?

Men of vision are building for increasing traffic of the air. Soon, the skies will be filled with commerce.

Just as electricity is helping to conquer the air, the land, and the sea to-day, so to-morrow it will lead to greater accomplishments in aviation and in every human activity.

A majority of the beacon lights used in airport and airway illumination have been designed and manufactured by the General Electric Company, whose specialists have the benefit of a generation's experience in the solution of lighting problems.

GENERAL ELECTRIC COMPANY, SCHENECTADY, NEW YORK

officers, Moore testified Hoover said in his hearing that he "didn't know he had shot or killed anybody," and that when asked why, the negro answered, because his "boss told him to."

The "boss" referred to was H. A. Miller, superintendent of the orchard and co-defendant with Hoover, who is alleged to have supplied the shells used in the gun for guarding the orchard, from college money.

## No! Pros. Case

An unexpected outcome to the case developed late Thursday when R. N. Simms, of defense for H. A. Miller, lodged a motion for nonsuit, which was granted by Judge Henry A. Grady.

The case against Hoover was held over until the February term of court and the defendant held under \$300 bond.

Since it is a state institution the college cannot be sued for civil damages, but it is bearing all medical expense for the care of Poole, Dr. E. C. Brooks, president of the school, said. This amount has already reached a sum of about \$700, and the college will continue its policy, he continued.

Dance, which was a most brilliant affair. The Frank Thompson gymnasium was an attractive scene for the large assemblage of young people.

Pines and cedars banked the walls and streamers in the fraternity colors of crimson and gold formed a canopy overhead. The central chandelier, shaded in fraternity colors, shed a soft illumination over the dancers.

At one end of the ballroom the fraternity pin was electrically arranged. The music, furnished by Joe Nesbit and his Pennsylvanians, was a special feature of the evening, being as much enjoyed as the dance itself. Several musical numbers were given by various members of the orchestra in solo or duet, which attracted the couples from their dancing to gather around the orchestra in delighted appreciation.

Prior to intermission, Miss Elizabeth Page of Augusta, Ga., talented toe dancer, gave an exhibition of her accomplishment, which was an entertaining feature of the evening.

The cotillon figure was held at the close of intermission, with members of the fraternity and their partners forming the Greek letters of the fraternity and presenting unique slave bracelets bearing the seal of the fraternity to the fair ones. The figure was led by Mr. Thad Russell, president of the fraternity, with Miss Dorothy Furr of Raleigh and assisted by

**Roberts-Honeycutt**  
Miss Mary Honeycutt, secretary to Dean B. F. Brown of the School of Science and Business, was married to Mr. Otis A. Roberts last Thanksgiving at the First Presbyterian Church in Graham, N. C.

Mr. Otis Roberts is a graduate of Georgia Tech, and at the present time is sales manager of the Sir Walter Chevrolet Company.

The wedding was kept a secret until recently.

Mr. John Anthony, '27, visited his fraternity brothers while he attended the inauguration of the governor.

Mr. H. B. Merriam visited Mr. Gaither Calvin Lassiter during the holidays.

**Phi Kappa Tau Dance**  
Phi Kappa Tau fraternity began the social activities of the college for the winter at the annual New Year

### Student Body Ballot

The Student Council wishes to get the honest opinion of the student body on the following questions regarding the recent examinations:

On classes where students accepted the responsibility of conducting the examinations, was honor maintained?

Yes.....; No.....

How many examinations were conducted honorably?.....

On how many examinations did you observe cheating?.....

How many cases of cheating did you observe altogether?.....

(Please drop these answers in the box at the entrance to the Y.M.C.A.)

Mr. Fred Crum with Miss Alice Musgrove of Goldsboro.

Those taking part in the figure were Mr. James Summey and Miss Sarah Busbee, Mr. Charles Connolly with Miss Caroline Tucker, Mr. Ralph Grigg with Miss Celia Weara, Mr. James Ayers with Miss Julia Andrews, Mr. Dick Godfrey with Miss Margaret Nichols of Washington, Mr. W. A. Pardee, Jr., with Miss Elizabeth Page of Augusta, Ga., Mr. Geo. Howard with Miss Olivia Renfrow, Mr. Joe Croxton with Miss Anne Vaughn, Mr. Herbert Jenkins with Miss Eva Hackney of Washington, Mr. Walter Rand with Miss Anne Sutton of Richlands, Mr. Champ Martin with Miss Mary Lou Coffey, Mr. Carl Boggs with Miss Martha Galloway, Mr. W. J. Shuford with Miss Mary Madora of New Bern, Mr. Earl Cooper with Miss Emily Storr, Mr. Ed Rudisill with Miss Shelton Shaw, Mr. Clifton Morris with Miss Martha Tillery, Mr. William Ferguson with Miss Dorothy Davis, Mr. Fred Plonk with Miss Letitia Mason, Mr. Luther McDowell with Miss Ethel Roland, Mr. Harold Miller with Miss Davetta Levine, Mr. Freeman Clutts with Miss Mary Lawrence of Lumberton, Mr. Thomas Nelson with Miss Billie Freeman, and Mr. and Mrs. Gordon Thomas.

Chaperoning the dance were Dr. and Mrs. E. C. Brooks, Dean and Mrs. Thomas Nelson, Dean and Mrs. B. F. Brown, Mr. and Mrs. John Foster, Major and Mrs. C. C. Early, Mr. and Mrs. R. S. Busbee, Mrs. Pattie K. Furr, Mrs. H. A. Underwood, Mrs. J. N. Mason, Mrs. E. S. Freeman, and Mrs. O. R. Browne.

Following the dance the fraternity entertained at their home on Groveland Road.

"When Harold proposed to you did he go down on his knees?"  
"Of course not."  
"Why didn't he?"  
"Well—probably because they were occupied at the time."

### PROHIBITION SUBJECT TABOO AMONG PREXIES

Eugene, Ore.—(IP)—College presidents may think this, and college presidents may think that about the prohibition question and what should be done about it in college, but are bashful about saying it for publication.

Recently the Oregon Emerald, undergraduate daily at the University of Oregon, sent out eight letters to college and university prexies on the

coast, requesting their opinions. Only one replied with a statement.—F. J. Kelly of the University of Idaho.

"America has already gone much too far in undertaking to govern her people by prohibition," he said in part. "Our chief concern is to keep alive such social agencies as will make people cease to wish for alcoholic drinks, rather than to pass laws which prevent their getting alcoholic liquors when they wish them."

### WOULD SAVE WHALES

Baltimore—(IP)—International action to save the whale from extermination is the plan of the American Society of Mammalogists.

Dr. A. Brazier Howell, of Johns Hopkins University, secretary of the society, says that the demand for whales is greater today than it has ever been, and some species are threatened with being wiped out.

On their way to here!

780,000 Chesterfield cigarettes are now sailing South-Polewards with the Byrd Antarctic Expedition. We are officially informed that the selection of Chesterfield resulted from the individually expressed preferences of a majority of the expedition's members. When it is recalled that these are—in superlative sense—picked men... selected not only for bravery, ability and experience, but also by searching tests of physical fitness... we may be forgiven for our considerable pride in their vote. And something of this pride, we believe, will be shared by all Chesterfield smokers.

It is another of the many proofs piling up that the surest way to earn popularity is to deserve it!
