COLLEGE RELIGIOUS FERVOR NOT SLACK SAYS E. A. PENICK

Delivers Series of Six Lectures on Religious Questions

3 IMPORTANT REASONS WHY MEN BELIEVE IN GOD

"Eight Out of Every Ten Are Enthusiastic About Religion and Seek After God, While One Is Indifferent and One Antagonistic," Says Penick.

By E. W. BUCHANAN

"I strenuously and indignantly repudiate the statement of one university president that out of every ten college students one is antagonistic to religion, one is enthusiastic, and eight are indifferent," declared Bishop Edward A. Penick of Charlotte in speaking on the subject, "What Is Faith in God?" Monday in his first of a series of lectures.

"On the other hand, eight out of every ten are enthusiastic about religion and seekers after God, while one is indifferent, and one antagonistic," he continued.

"There are three outstanding reasons why men believe in their God, being the things we see without, the handwork of nature, and the things we know exist within," the speaker asserted.

He declared that this is an age of liberty, when men think what they choose; an age of inquiry, when men demand facts and expect frank words. But Christianity does not ask any of its followers to believe anything not substantiated by facts. When a man stops asking questions he stops growing. The educated man bows his head in the presence of truth.

At this first meeting a large number of students were present, and John A. Park, publisher of The Technician, led several songs, while Rev. Milton A. Barber, rector of Christ Church, led in prayer. The meeting was in charge of E. S. King, secretary of the "Y."

"Christ is unescapable, a personality to whom no one can be indifferent," Bishop Penick said in his second lecture, Monday evening, speaking on "What Is Faith in Jesus Christ?"

"And until today one-third of the population of the world acknowledges the Lordship of this despised Jew of the lowly town of Nazareth. There must be some reason for this. Christ was a human being only, a good man, a man of men, and a great prophet. His teaching was ethically pure, morally elevating, and stimulating to men's spirits. He was he—Continued on page 2.

'Y' Secretary Bone Is To Visit College On Lecture Tour

Harry Bone, national secretary of the Y.M.C.A. Student Department, will visit N. C. State College next Tuesday, Wednesday, and Thursday, April 23-25.

Mr. Bone is a graduate of Washburn College and the University of Vermont. For two years he has been a traveling secretary of the National Y. M. C. A. He is the co-author of "Ten Studies in The Sermon on the Mount" and co-author of "The Sex Life of Youth," a book that is just off the press. Already a few State College men have read this book and recommend it highly.

Mr. Bone will be one of the leaders of the State Y.M.C.A. and Y.W.C.A. Officers' Training Conference, to be held at Winston-Salem April 27-29. He will also be one of the leaders at the Blue Ridge Student Conference, June 14-24. State College is exceedingly fortunate in being able to secure three days of Mr. Bone's time. While here he will deliver one or two lectures, hold forums and conduct personal interviews.

Heads of Publications Attend Press Meeting Being Held April 18-20

State College was well represented at the nineteenth semi-annual meeting of the N. C. Collegiate Press Association held in Greensboro, Thursday, Friday, and today. Ninety delegates, representing 45 or more publications in 18 North Carolina colleges, were present.

Each of the publications of this college sent representatives—A. L. Aydtlett and W. R. Dixon for The Technician; T. M. Vernon and W. R. Fitzgerald for The Watauga; and R. P. Shapard and T. A. Grant for The Agromeck.

ROCKY MOUNT BOY WILL EDIT TECHNICIAN

WILLIAM R. DIXON

NEW TECHNICIAN STAFF TAKE OFFICE NEXT WEEK

Appointive Officers To Be Selected by New Editor on Merits of Service

Going into office next week the 1929-1930 staff of THE TECHNICIAN will relieve this year's force after nine months of constant and hard work. As in the past the custom of letting the new staff take over the paper a month before the end of the year, in order to allow them to familiarize themselves with the cogs of newspaper machinery, will be followed.

Next year's appointive offices will be held by men that in the past have shown a spirit of cooperation and who are expected to work hard in their places. This part of the staff, made up of men eligible for the elective office next year, are preparing themselves for future elective positions. These men are to be appointed by the incoming editor.

The two men who were successful in the final election and in whose care the future success of THE TECHNICIAN depends are W. R. Dixon, of Rocky Mount, the new editor, who won out over Francis Tripp, of Massachusetts, and A. L. Weaver, of Lexington, the new business manager, who won over T. G. Smith, of New Bern.

This new staff will get under way with the publishing of the next issue. It is the purpose of the new editor to put out one of the best papers in the history of State College. "This can be done," says Dixon, "with the help of willing associates."

State Is Defeated In Jury System Debate By Birmingham Team

Birmingham-Southern College's team of two debaters won a decision over the State College team, composed of E. W. Buchanan and J. B. Litchfield, at North Carolina College for Women Wednesday night. The query was, "Resolved, 'That jurists, three or five in number, should be substituted for the present system of trial by jury.'" State had the affirmative side of the question.

Judges were G. R. Johnson, of the N. C. C. W. faculty; Andrew Joyner, city attorney, and Alvin T. Hale. Their verdict was in accordance with the opinion of the large audience. According to Professor C. C. Cunningham the fight put up by the State team was the best work of the year, but the work of E. S. Wallace and Ted Highower, of the opposition, won the admiration of the judges.

STATE FOOTBALL STAR WILL PILOT COUNCIL

PAUL CHOPLIN

Eighteen Elected To Phi Kappa Phi At Meet April 15

Eighteen men were elected to membership of Phi Kappa Phi at the meeting of the fraternity April 15.

Phi Kappa Phi, national honor society, with a chapter here, is an honor society organized for the purpose of encouraging scholarship and original study among students. Seniors who make a high average on all subjects during the first three years of their course are eligible if they can meet the requirements as to character and individual initiative as demonstrated by usefulness and prominence in worthy student and college activities. Leadership is given most consideration if the students pass the scholarship requirement.

Third-term men elected to Phi Kappa Phi are listed as follows:

Allwood, A., Tex.Mfg.; Apple, A. D., C.E.; Brown, M. W., Con.Eng.; Evans, W. V. C., Agr.; Eldridge, H. A., Ed. H.S.T.; Harshaw, C. H., E.E.; Hamrick, H. O.; E.E.; Holden, R. B., B.A.D.; Holoman, D., Jr., B.A.; Jurney, C. E., C.E.; Mason, C. P., C.E.; Moore, J. E., Ed.H.S.T.; Parrish, W. C., C.E.; Smith, G. R., Ag.Econ.; Tate, C. B., C.E.; Wilson, R. A., H.S.T.; Williams, J., Agr.Sols.; Zimmerman, J. E., Agr.

All Seniors In Civil Engineering Tour Piedmont Section

All of the twenty-six seniors in the school of Civil Engineering, including those specializing in straight civil, in optional highway engineering, spent most of the week on an inspection tour of the different water plants of the piedmont section.

Leaving the college early Wednesday morning by bus, the group, accompanied by one of the professors in the civil department, first visited the water plant of Durham. From there the tour continued, with stops at Greensboro, High Point, and Charlotte. Each of these places was inspected.

At Charlotte the seniors were the guests of the Engineering Club of that city. The chairman of the club, Mr. Mays, of Mays & Mays, consulting engineering firm, gave a cordial reception to the inspecting seniors. The club also has several of the college alumni as members, which fact made the two groups more intimate.

From Charlotte the tour continued to Badin, where the plant of the Tallahassee Power Company is located. After a thorough inspection of that plant the return to State was made.

COLLEGE'S R. O. T. C. BAND PRESENTS MIXED PROGRAM IN PULLEN MONDAY NIGHT

State College's R. O. T. C. band will give a concert in the auditorium Monday night at 8 o'clock, under the direction of "Daddy" Price. Music will also be furnished by the college vocal quartet and by the string quartet.

The program is complete and it contains a well-rounded selection of worth-while music. First number on the program is "The Wolfpack," written by Price. Following this, a mixture of orchestra, vocal, and string music will be presented that promises entertainment for all present. The small admission charge of 25 cents will be made.

NEWLY SELECTED HEAD OF N. C. STATE "Y"

EDGAR BUCHANAN

Rigid Enforcement Of "Red Cap" Rule For Coming Year

Next year will witness a change in the situation of the freshmen on State College campus in regard to the wearing of the little "Red Cap." Beginning next fall the caps shall be worn by the offender cannot remain in school. This statement was issued by the house of student government at their last meeting.

The house decided Wednesday night that we would have the cap rule next year, and they are asking the administration to cooperate with them in rigidly enforcing this rule. It has also asked the authorities to make it possible for them to dismiss those freshmen from school who will not wear the cap.

"No other question has been more prominent in the discussions on the campus during the past year. The freshman rule has been sadly abused this year, but next year things are to be different," states the house.

Prospects Bright For Installation Of Delta Sigma Pi

Efforts of the local business fraternity, Pi Delta Sigma, in petitioning the international fraternity of Delta Sigma Pi for the past year appears in a new light, after the visit here last week of Mr. H. G. Wright, grand secretary-treasurer of the national organization.

Mr. Wright spent most of last Friday looking over the conditions in view of establishing a chapter here. Officers, both new and old, of the local organization, with several faculty members, lunched with Mr. Wright at the Carolina Hotel, after which the qualifications for the securing of a chapter were discussed.

After the luncheon the meeting was adjourned to meet immediately at the library, with the other members and several prospective pledges. Here Mr. Wright was given the floor to outline to the fraternity everything necessary for the installing and carrying on of a national chapter in the event of the acceptance of the petition sent in by the local chapter last month.

At this time there are seven schools petitioning for a chapter, and it all depends on the report of the grand secretary-treasurer as to how the seven men on the national executive committee vote. Hope rose and fell as the conclusions were drawn by the visitor, but according to President A. B. Holden the last words said by Mr. Wright on his departure were, "Get prepared for the installation of a chapter at any time within the next month."

There are forty-six active chapters of Delta Sigma Pi. All of them are at universities except the one at Georgia Tech.

COUNCILMEN ELECTED BY MEMBERS OF CHEMICAL ENGINEERING SOCIETY

The Society of Chemical Engineers met Tuesday night in Winston Hall and elected councilmen for the engineers' council and president of the Society of Chemical Engineers for next year.

Those elected are: President and councilman, Edgar H. Harwood, '30, Winston-Salem; councilman, C. LeRoy Clark, '31, Winston-Salem.

Largest Vote Cast History of College In Heated Election

JUNIOR SELECTION FOR 1930 AGROMECK EDITOR

ELBERT H. ROBERTS

KOONCE ELECTED TO HEAD SENIORS FOR COMING YEAR

Others Elected Include Roberts, Windsor, Smathers, and Westbrook

W. E. Koonce, of Chadbourn, and Elbert H. Roberts, of Asheville, Monday won out in the Class of 1930 election at North Carolina State College. Koonce was elected president by the rising seniors, succeeding Charles E. Hibbard, of New Bern. Roberts was unopposed for the coveted editorship of the college annual, the 1930 Agromeck, which was edited this year by Robert P. Shepard, Jr., of Griffin, Ga.

Koonce defeated William T. Garibaldi, of Charlotte, and J. A. Westbrook, of Portsmouth, Va. J. Boyd Smathers, football guard, was elected vice-president. His home is at Canton. J. A. Westbrook was elected secretary and treasurer.

R. C. Windsor, of Reidsville, polled more class votes than W. Floyd Isom, of Charlotte, for the business management of the college annual. A recent ruling by the faculty-student publication committee of State College requires editors and business managers of the campus publications to maintain a high class average. Beginning next year the editors will receive compensation for their work, and a plan is also being considered to give them credit for their work.

Seven State Students Get Honorable Mention By Design Institution

In the latest national competition of architectural students conducted by the Beaux Arts Institute of Design in New York, seven students of N. C. State College received honorable mention.

The problem was to design an "Aquarium," or building for exhibiting fish and marine life, according to specified requirements.

Students receiving honorable mention were: L. B. Burney, Hunter College, Charles W. Connelly, T. T. Ferec, R. E. Kimble, K. K. Koonce, and M. G. Norman.

This is by far the greatest number of awards in a single competition as yet won by the architectural department of State College. Judgment of the designs submitted from schools all over the United States was made by a jury of practicing architects and artists of New York City.

T. G. Smith Will Head A.S.M.E. for Year 1929; Cooper, Vice-President

The business meeting of the A. S. M. E. was held last Tuesday night for the purpose of electing officers for next year. The following members were elected at the meeting: T. G. Smith, president; E. M. Cooper, vice-president; B. B. Small, secretary; T. H. West, treasurer; and Professor J. M. Foster was elected honorary chairman.

J. P. Choplin, Winston- Salem, Elected as Stu- dent Body Head

NEW METHOD OF VOTING LIKED BY STUDENT HEAD

Steady Stream of Voters Send Choplin, Love, Mast, Mercer, Buchanan, Stuart, Dunham, Stephenson, Dixon, Weaver, Vipond, and Garibaldi Into Office for Coming Year.

By A. L. WEAVER

J. P. Choplin was elected to the presidency of the student body of North Carolina State College in one of the closest races in the history of the school. Beginning early in the morning and closing with the setting sun, 916 men voted to poll the largest vote in history.

This year's election was one of the hottest in years, centering around the vote for J. P. Choplin and H. G. Love for student body president. The race for the Technician staff presented a fine show of political campaigning. Student interest in elections has been on the increase for the past few years, and each year a larger percentage of the student body come to the polls.

J. P. Choplin was elected president of the student body. Choplin is a junior in poultry science and comes from Winston-Salem.

H. G. Love secured the next highest vote to become the vice-president of the student body. Love is from Burlington and is in the school of science and business.

W. T. Mast was elected secretary of the student body. Mast is a sophomore from Valle Crucis and is in the business school.

L. R. Mercer secured the next highest vote on this ticket and becomes treasurer of the student body. Mercer is a sophomore from Norfolk, Va., and is taking chemical engineering.

E. W. Buchanan, the new president of the Y. M. C. A., is a junior from Spruce Pine and is taking business.

For vice-president of the Y. M. C. A. A. D. Stuart received the majority. Stuart, from Hamer, S. C., is a junior in the school of agriculture.

Position as treasurer of the Y. M. C. A. was won by R. S. Dunham, a junior in the school of agriculture, from Bladenboro.

W. D. Stephenson of Swannanoa was elected as secretary of the Y. M. C. A. Stephenson is a sophomore in chemical engineering.

Editor of The Technician for the coming year is W. R. Dixon, a sophomore in the school of business, and he is from Rocky Mount.

A. L. Weaver of Lexington, a junior—Continued on page 2.

State College To Have Meeting of Student Councils

The Southern Federation of College Students will meet here on April 25, 26, 27, to hold its eighth annual convention. Last year the convention was held at the University of Alabama, and there were seventeen colleges in the South represented. This year there will be about twenty colleges represented. Thirty delegates are expected. Registration will be held Thursday, Friday and Saturday will be devoted to the actual business of the conference. All meetings are to be held in the College Library.

The speakers are Dr. Brooks, Dr. Taylor, Dean Cloyd, and Judge N. A. Townsend. Several forums will be held upon the discussion of problems confronting the student bodies of the colleges represented.

Saturday night at 7 o'clock there will be a banquet at the Hotel Carolina.

**STATE COLLEGE ALUMNUS
ELECTED SEED SPECIALIST**

Middleton To Head Newly Created Seed Improvement Division

Election of Gordon K. Middleton, teacher of vocational agriculture at Warsaw, as extension specialist for the newly created Farm Crop Seed Improvement Division of State College was announced by the State Board of Farm Crop Seed Improvement, following a meeting with Governor Gardner.

Mr. Middleton, who was graduated in agriculture at State College in 1917 and later studied certification of seed at Cornell University and taught in the State College school of agriculture, will assume his new duties in the near future, said Dean I. O. Schaub. Professor W. H. Darst, the director of the seed division, and Mr. Middleton will immediately begin their plans for carrying out the work as provided by the recent act of the General Assembly.

The board will employ regulations adopted by the Association of Southern Agricultural Workers for certification of pure-bred seed, these subject to such modification as the board may deem advisable.

The board, which is composed of Governor Gardner, Commissioner W. A. Graham and Dean Schaub, elected Professor Darst as its secretary. It went on record as approving the plan that a reasonable fee be charged to defray cost of inspecting and certifying seed produced by North Carolina farmers desiring to engage in this work. The amount, however, was not determined.

A committee from the State College school of agriculture faculty and extension division will be appointed by Dean Schaub to serve as an advisory body in relation to testing, producing, certifying, and distributing farm crop seed. A similar committee will be appointed by Commissioner Graham to cooperate with the former.

Before teaching vocational agriculture in Duplin County, Mr. Middleton, the new seed specialist, represented the Southern Baptist Convention at Kalfeng, Honan, China, Baptist College.

**Yale Reaches For a Cig
And Grabs Sweet Victory**

Eli Blindfold Testers, Puffing Their Fags With Napoleonic Energy, Defeat Old Harvard's Green But Promising Team at One Fell Swoop.

By R. NUNNALLY JOHNSON

The Evening Post's Roving Reporter. As the red sun sank behind the dim horizon yesterday afternoon, casting giant shadows over Soldier Field, the cigarette smokers of John Harvard went down in glorious defeat in the big cigarette deathmatch, coming out no better than second, while the blue banner of Eli Yale rode high in victory—for Yale was first!

Harvard lost, but Harvard men are still Harvard men, and if their heads are bloody, they are still unbowed. Defeat to Harvard is but a sting, a spur, a flick of the whip that brings out the best. Next year is another year, and the grim tocsin over Cambridge today is, "Watch Harvard next year!"

It was a green team that Harvard threw on the field yesterday, to engage in the grueling blindfold test. "Butch" Nickerson, the giant right wing, who is expected to be a tower of strength next year, was a gum-chewer until this year, when school spirit impelled him to give up peppin and come out for the big blindfold cigarette team. He hadn't hit his stride, it was said; despite a natural aptitude for smoking cigarettes blindfolded, he still lacked experience.

"Next year," he said, "I will smoke all of the cigarettes all of the time, and a cigar, too, because it's for the old school!"

"Butch" Fires the Fans

Even at that "Butch" put up a smoke that had the galleries in a frenzy. Again and again, as the overconfident team of Yale cigarette addicts relaxed a second, he puffed and puffed, and puffed, like an iron man; but time demands its toll, murder will out, youth will tell, and if you want a transfer you'll have to ask the conductor when you pay your fare.

At his right elbow every second of the time was Tizzard—"BJM" Tizzard, '32—a cool and calculating cigarette smoker. "Tiz," as he is known to his frat brothers, is not a spectacular smoker; he has even been accused of

colorlessness; but the stands noted yesterday that when the pinch came, when a man was needed who could keep his head, good old "Tiz," as he is called, was always there.

These two bore the brunt of the battle, and if it was a losing battle, still Harvard asks no pity, no sympathy. Its colors may have been lowered, but its honor, the very name of Harvard, floats like a white silken guidon, whipping in the breeze, untouched, unharmed, immaculate.

Yale won because she had the weight, the experience, and the generalship. Furthermore, the team was "pointed," as they say, for Harvard. As everybody knows, the early season smokes with Rutgers, Maine, Stevens, and the Red Star Billiard Academy are little more than incidental to Yale, whose slogan is, "Smoke Harvard out!"

It was a grizzled collection of veterans that Yale trotted out with their eye bandages yesterday. Under the tutelage of Head Grizzle Coach McNutt, the boys went through a siege of grizzling that left them hard and dry and "set." ON cigarettes for two days prior to the contest, so as not to get stale, they plunged into the tilt in the very pink. The exhibition of the first few minutes was a spectacle rarely equaled in cigarette smoking since Miss Millicent Rogers, society bette; Herbert Bayard Swope, international journalist, and Mrs. Jerome Napoleon Bonaparte reached for a ciggy instead of a Borzoi book.

The tale of the contest was told in those few minutes. Cigarettes flashed like tiny streaks of lightning. Matches fluttered. Smoke rings rose. While the bewildered John Harvards fumbled amateurishly for their coffin-tacks, the New Haven boys took a nice lead, smoke changing, discarding with a speed and brilliance that brought the stands to their feet time and again.

Later it was a little more even. Getting their second wind, the Cambridge boys began to smoke nearer their normal speed, and from then on it was more of a contest.

Watch Harvard Next Year!

Immediately after the contest, a "pep" rally was held in the city hall. Head Coach McNutt spoke at length, and the four class presidents followed. The gist of their remarks may be summed up in a paragraph from an old grad's address:

"Smoke, fellows, smoke! Get the old ciggy habit! You big fellows who are too lazy to come out for the team—get a line on yourselves! Every man who smokes is needed! Fellows, it's the old school who calls, the old 'varsity' that needs you. Is Harvard to call in rain? Are you Harvard men at heart? No, I need no answer. Harvard men are still Harvard men, and watch Harvard in the big cigarette pentathlon next year! Look out, Yale!"

According to Coach McNutt the prospects for next year are great. Two big cigarette smokers from Grotton are entering, and the present freshman team contains no fewer than five men who are rated as four-gal handicap cigarette addicts.

"All we ask is cooperation," the grizzled old coach said. "We've got the men, we've got the cigarettes—if the old school will stand behind us, we've got Yale beaten to a frazzle, though I am against boasting."

**SUMMER SCHOOL INTEREST
AIDED BY HANCOCK BILL,
NOT HURT, SAYS BROWNE**

When the Hancock education bill became a law, there was some evidence of its having the effect of reducing the attendance upon summer schools for teachers and college students this year, said T. E. Browne, director of the N. C. State College summer school; but as the atmosphere begins to clear the public apparently realizes that conditions may not be as bad as they had appeared, he added.

Interest in the State College summer school, said Mr. Browne, has increased, and during the past week inquiries and requests for information have been coming in in larger numbers. Reservations for rooms have been received and there is every reason to believe the attendance will be greater than in 1928. Registration for the summer term will be held at the college on Monday, June 19, with classes to begin the next day and continue through July 19.

The State College summer school faculty has been completed, said Director Browne, with a number of high-grade entertainment features arranged for.

**NEW OFFICERS TAKE OVER
REINS OF GOVERNMENT
LOCAL A.S.C.E. SOCIETY**

Officers were elected at the last meeting of A. S. C. E., which was held Tuesday night, April 16. Besides the election the regular program was presented.

The men selected to run the organization for the coming year are: J. A. Broadwell, president; W. H. Swendell, vice-president; E. H. Proctor, secretary-treasurer; J. M. Johnson, junior council member; A. B. Freeman, reporter, and F. K. Cowhig, sergeant-at-arms. The old officers are: W. C. Parrish, C. P. Mason, A. D. Apple, V. L. Taylor, C. B. Tate, and A. E. Freeman.

for in the business school, is the new business manager of The Technician. The Wataugan has L. C. Vipond for its new editor. Vipond is a sophomore in electrical engineering and he is from Norfolk, Va.

W. T. Garibaldi of Charlotte was elected as business manager of The Wataugan. Garibaldi is a junior in architectural engineering.

Award of the Norris Trophy was made to F. P. Goodwin of Greensboro, a senior in marketing. For the first time in the history of the school the Australian ballot was used. This method of voting, which gives every man a chance to vote the way that he wishes, was introduced by A. L. Ayldett. All voters were required to register, given the ballot, and in the room where selections were made no talking was allowed.

According to the report from President W. P. Albright, the election was run off in fine shape. "This year's election was 100 per cent better than the one last year," says Albright.

Inauguration of all student-body officers takes place on May 1. Technician officers take over their new jobs with the next issue except for the business manager, whose duties run for the entire year. New Y. M. C. A. officers take their offices in a few days.

roic, courageous, and self-sacrificing. We must acknowledge what Christ claimed to be, or He is guilty of self-ordination, blasphemy, a rival deity of God, guilty of gross deception and perjury, unless what He said for Himself was undeniably true; but it is easier to believe than to sustain the others."

At this meeting of the student body music was rendered by the State College orchestra.

Tuesday at noon he continued the series by speaking on "How Shall We Think of Ourselves?"

Tuesday evening his subject was, "How Shall We Read the Bible Today?" Then he declared that people should realize that the Bible is the gradual, progressive revelation of God's children, handed down through the ages until the fullness of time when Christ came, and that the Book of Life's discrepancies or differences are evidence of its genuineness. "The Bible must be interpreted in the light of contemporary standards," he said. "Some things may appear unbelievable to us, but standards change as time passes. Men cannot live their lives in a single day, neither can they read the Bible in a single day. It is a lifetime of study and should be considered as such."

In his closing lecture Wednesday evening, in speaking on one's life work as a Christian, he said that achievement of leadership, independence of thought, responsibility and discipline of one's self are needed by men today in making a success of

their lives. The supreme business of one's life is living, and one must be obedient to the laws of nature and of the spirit. The law of the spirit demands that one do constructive work, and men must achieve to be remembered.

The lecture Wednesday was on "Science and Religion."

At the closing of his final lecture Joe E. Moors presented Bishop Penick with a beautiful Schaefer pen and pencil set as a present from the student body in appreciation of the inspirational thoughts he had brought to them.

Gentlemen:
As a constant user of EDGEWORTH Tobacco for the past four years, I can say I have enjoyed the comforts and pleasure of the World's Finest Tobacco. If EDGEWORTH were running for re-election, here is one sure vote for it. Its uniform quality is the outstanding feature and I recommend it highly. The EDGEWORTH Club hour over WRVA is highly pleasing and helps to form a good combination.

Fraternally yours,
(Signed) Franklin Montgomery

STATE VICTORIOUS OVER V. M. I. IN TRACK MEET

Young Wins for Locals by Capturing Last Event; Score 66 1/2 to 58 1/2

The track team of North Carolina State College registered its second victory of the year by defeating the Virginia Military Institute trackers by a 66 1/2 to 58 1/2 score on Riddick Field last Saturday.

Captain Hank Young of the Wolf-pack was the individual star of the meet, with three first places. His jump of 5 feet 10 inches was sufficient to clinch the high jump. He followed this with a heave of 180 feet 5 inches in the javelin throw, to set a new school record. His leap of 21 feet 3 1/2 inches in the broad jump topped his spectacular performance.

The Cadets grabbed an early lead in the track event, although Basil Melton took first in the furlong, with Stouff second, and scored a second place in the hundred.

Patterson tossed the discus 133 feet 1/2 inch, with a new college record in this event. Johnson, of State, topped the mile race, while Redfean and Alexander romped home easy winners in the two-mile event. McGinn, of State ran a good half-mile race to gain top honors.

Summary:
100—Drewer, V.M.I.; Melton, State; Jackson, V.M.I. 10-15 secs.
200—H. Johnson, State; Bond, V.M.I.; Peterson, V.M.I. 4 min., 39-45 secs.
400—Melton, State; Stout, State; Holtzclaw, V.M.I. 23 secs.
800—High hurdles—L. Walker, V.M.I.; Rora-baugh, V.M.I. No third. 18-15 secs.

Officials—Stafford, field judge; Watson, Elena, MacDougall, Miller, Greaves-Walker, Newgard, Drennan, Dana, Sides, Passaluniga, assistants.

HARRIS, RALEIGH YOUTH, THOUGHT BY PROF. LEFLER TO BE COMING CHAMPION

Harvey Harris, 16-year-old Hugh Morson high school student, is setting the pace for the older men in the Raleigh Tennis Club tryouts, preliminary to a match Saturday afternoon at 2:30 o'clock here with the crack University of North Carolina varsity faculty net outfit.

Harris is regarded by Hugh Lefler, boss of the Capital City court game, as one of the coming amateur tennis players of North Carolina. He will enter the state-wide championship series this season at Chapel Hill as a main threat for high honors.

The match with Carolina here Saturday will be run off at Wake Hills, subdivision of Budleigh. Lefler will pick his team for the six rounds of play from the membership players, including J. L. Memory, R. W. Green, R. W. Winstch, Mark Trumble, John Strong, B. S. Weaver, L. W. Gardner, and young Harris. Gardner, a member of the State faculty, recently won the state championship in chess.

The Chapel Hill team will be composed of the best varsity and best professors at the game. These include Sapiro, a sophomore from Balti-

Track: State vs. Carolina, at Chapel Hill, at 3 p.m.

State Cinderpathmen Lose To Fast-Stepping Generals; Close Score

The Washington and Lee University track team went to a 65 1/2 to 60 1/2 victory over "Doc" Sermons North Carolina State track men on the rain-soaked Riddick Field last Monday afternoon. It was State's first defeat of the year, but a cold, steady rain made conditions anything but favorable.

The final outcome was in doubt until the last event, the broad jump, was finished. State had a chance by placing a put and a second, but Sandifer's victory of 20 feet 10 1/2 inches clinched the win for the Generals.

Backus of Washington and Lee nosed out Johnson of State by inches in a thrilling mile race. McGinn of State ran a pretty race in the half, to nose out Simmons, after an exciting duel. Redfean of State ran a strong race in the two-mile event, and after trailing Brock of Washington and Lee for seven laps he opened up strong, to win by a wide margin. Alexander came up strong from third place, to finish hand-in-hand with Redfean.

Mack Stout proved to be State's biggest scorer in the sprints. "Flip" Edmondson won the javelin, while Patterson, Vaughan, and Goodwin carried off all honors in the shot-put. Patterson, Melton, and Goodwin scored all points in the discus. Capt. Young tied for first in the high jump, took second place in the broad jump, and placed third in the javelin throw.

Summary:
100-yard dash—Grant, W. and L.; Stout, State, and Sandifer, W. and L., tied for second; Melton, State, third. Time: 10-5-5 secs.
200—Backus, W. and L.; H. Johnson, State; Segan, State. 4 min., 35-2-5 secs.
400-yard dash—Sheppard, W. and L.; Rizey, W. and L.; Ottinger, State. 52-3-5 secs.
800—High hurdles—Speer, W. and L.; Griffin, State; Dorman, W. and L. 18-5 secs.
1600—Upson, V.M.I.; Ottinger, State; Hoyte, W. and L.; Stout, State. 23-1-5 secs.
Two-mile run—Redfean and Alexander, State, tied for first; Miller, W. and L., third. 10 min., 34-1-5 secs.
4000—Low hurdles—Williams, W. and L.; Wetmer, State; Swain, State. 23 secs.
8000—McGinn, State; Backus, W. and L.; Simmons, W. and L. 2 min., 2-4-5 secs.
Shot-put—Patterson, State; Vaughan, State; Goodwin, State. 40 feet, 7 inches.
High jump—Young, State, and Sandifer, W. and L., tied for first; Herms, W. and L., third. 5 feet, 10 inches.
Discus—Patterson, State; Melton, State; Goodwin, State. 127 feet, 8 inches.
Pole vault—Sanders and Pomeroy, W. and L., tied for first; Johnson and Gaston, State, tied for second; Massey, W. and L., third. 10 feet, 6 inches.
Javelin—Edmondson, State; Janney, W. and L.; Young, State. 180 feet, 11 inches.
Broad jump—Sandifer, W. and L.; Young, State. 20 feet, 10-2 inches.

more, Md., Sonny Graham, and Bill Scott. Louis Graves is also one of the Carolina top-notchers.

N. C. STATE REPRESENTED IN ANNUAL TENNIS MEET ON UNIVERSITY'S COURTS

The annual intercollegiate tennis tournament started Wednesday at Chapel Hill with Carolina, Duke, State, Davidson, and Lenoir-Rhyne as participants.

State was represented by White, Gray, L. Vipond, Shelor, Merriam, and Fletcher. These men were all eliminated in the second round, both in the singles and doubles matches.

State drew byes in the first round of doubles matches, but could not stand against the more experienced players from the other schools.

STATE NETMEN LOSE TO RACKETEERS OF DUKE BY OVERWHELMING SCORES

Friday, April 12, was the initial showing of State's tennis team. The match was played against Duke and was very fatal to Coach Lefler's protégés.

Nine matches were played and Duke won them all. A return match will be played in Raleigh May 1, and Coach Lefler believes that State will take a few matches at that time.

The men playing for State were Stokes, White, Brannon, Gray, Merriam, M. Vipond, L. Vipond, Ashe, and F. Fletcher.

The match between Captain Hargrove, of Duke, and Merriam, of State, was the closest fought of any, the score being 7-5, 6-4. A match is pending with Wake Forest next week.

N. C. STATE COLLEGE NINE LOSE TO DUKE; SCORE 10-5

Jenkins "Big Cog" in Blue Devil Win; State Uses Three Twirlers in Afternoon's Fracas

By FRED DIXON

Some wise chap made the remark that a pitcher should not be allowed to hit when he is pitching a baseball game, for he can't do much at it, but this chap should have seen the Duke-State game last Saturday—he wouldn't say such a thing again.

Two home runs and a single out of three trips to the plate, besides striking out six State batters and walking the same number, this pitcher sent State back to Raleigh with six hits, all coming in three innings. This young chap has a name that reads like Ernie Jenkins, and is pronounced the same way. But further 1's and and's about Jenkins: He is the pitching ace of Duke University and is a native of North Carolina, claiming Gaston County as his home.

But let's get down to the game.

Duke counted four runs in the first two innings. Two errors and a stolen base leading to one in the first inning and a hit, walk, coupled with Jenkins' first home run, counted three in the second.

State did one better in the third inning and counted four runs. It all started on a hit and a walk, putting two men on the sacks. John Snipes, next man up, sent a homer over the center-field fence, giving State three runs. But the fireworks were not over. Clark barked out a triple and come home when Bus Albright cracked out a Texas leaguer.

For that one inning it looked like State would have a share in the victory, but it was a short-lived look. Duke came back in her end of the third stanza and sent a run across the home plate, to give her a one-run lead.

TAR BABIES VICTORIOUS OVER FROSH CINDERMEN

John Black Leads State Scoring, With Ty Reid Heading Carolina

State College Freshmen lost their first dual meet of the season when the crack track squad of Carolina turned them back 85-40. The meet was run off at Carolina.

John Black, curly-haired, good-looking chap from State College, led the Techlets in their scoring. Black tied for first place in the pole vault and high jump. While Black led his team, Ty Reid did the same for Carolina. This chap won first place in the two hurdles, broad jump, and tied for first with Black in the high jump.

The State freshmen found the Baby Tar Heels too good for them and counted only two first places, these being taken by Ricks in the 880 and Floyd in the 440.

100-yard dash, Farmer (C); mile, Phoenix (C); 220, Farmer (C); 120-yard high hurdles, Reid (C); 440, Floyd (S); two-miles, Farris (C), and Pierce (C), tied; 880, Ricks (S); 1200 low hurdles, Reid (C); shot-put, Harper (C); discus, McAllister (C); javelin, McAllister (C); pole vault, Parson (C) and Black (S), tied; high jump, Black (S) and Reid (C), tied; broad jump, Reid (C).

Freshman Tennis Tourney Starts Monday With Small Number of Players Entered

Freshman tennis tournament, with only an entry list of ten men, will get under way Monday.

With a tournament of this type Coach Lefler can get an idea of who he will be able to place on his team next year.

The following pairings were made and a chart will be placed outside of C. Lefler's office. As soon as the players finish their matches, they are requested to sign the chart with the score.

Gilbert-Lane, Stafford bye, Patter-

All Campus Leagues Get Under Way Next Week; Post Schedule

The Inter-Fraternity baseball league will get under way during the coming week when sixteen teams will swing into action for the first time.

The league will be run similar to a tournament and the losers in the opening rounds will automatically drop into the consolation series, where a similar elimination will go on. In this way the winner of each round will have to go through the series undefeated.

A silver cup will be awarded to the winner of each division. All games are scheduled for 4:30 on the dates mentioned below. The following schedule is for all games in the opening round of the series.

April 23, Field 1—Beta Sigma Alpha and Theta Pi.

April 24, Field 1—Mechanical Engineering and Alpha Gamma Rho.

April 25, Field 2—De Molay's and Sigma Nu.

April 29, Field 1—Theta Kappa Nu and Lambda Chi Alpha.

April 29, Field 2—Pi Kappa Alpha and Delta Sigma Phi.

April 30, Field 1—Sigma Psi and Antim Husbandry.

April 30, Field 2—Phi Omega and Sigma Pi.

May 1, Field 1—Sigma Tau Beta and Poultry Science.

Here's a challenge to young men who plan to make farming a business

To the serious-minded young man, especially to the graduate or under-graduate of agricultural colleges, there's a challenge in Florida's unbounded agricultural possibilities which offers an opportunity to exercise knowledge and skill for real profit in farming. Business men, you know, expect to make money. If you are one who plans to make farming a business—profitable, full of joy of achievement—you need the story about Florida.

Poultry and citrus fruits are big money producers in Florida

Silver Springs, the world's largest, a year-round scenic attraction. Glass bottom boats ply the crystal-clear waters.

Investigate!

There's no better way of spending your summer vacation than loading up the car for a camping trip to Florida for personal investigation of this state's many agricultural opportunities. You'll enjoy a vacation unlike any you've ever had. It won't cost a lot—but it may mean much to you in planning your future. Be sure to send for facts about agricultural subjects you are most interested in. There's a handy coupon below.

\$1.50 PER COLLEGE YEAR

Our advertisers were solicited with the purpose of putting before you dependable shopping points. Remember this, and feel perfectly safe in guiding your shopping by THE TECHNICIAN.

Elections are over, and the best men won.

It is not too soon to be thinking about those for next year.

We are glad to have a secret ballot, even if some election officials did politic inside the polls.

Bye, bye. Best wishes to the incoming staff next week. May they have all the success in the world.

We suddenly tired of our new type of headlines, and with this issue the old ones come once more into their own.

When we come back in the future we hope to see the streets that now are muddy, paved and well-drained so one can walk about with comfort.

Why not start a movement right now to ask the next legislature for cash to pave the road to the gymnasium, most needed thoroughfare on the campus?

We must have the red caps continued. If we can't punish offenders by the gauntlet, then it is up to the student body to devise some other means. Even if the attorney-general ruled the gauntlet as hazing, we still wonder what interpretation the Supreme Court would put on it as final authority in the State.

SWAN SONG

As we sit down to the typewriter for the closing scene of our act, the weather outside is in perfect accord with our feelings. The slow, drizzling rain and the low-hanging grey clouds correspond to the strange, lonesome feeling with us—a feeling of uncertainty, of regret, of sorrow—at a loss, a loss as of a good and trusted friend.

Now that the time is here for us to turn over this newspaper to the incoming staff and retire from the field, there comes a twang of regret from our heartstrings that brings with it a realization that a pivotal point has been reached in our life. Because we have so thoroughly enjoyed the four years during which we have been a member of THE TECHNICIAN staff in various positions, and because the traditional "kick" of newspapering has been of itself sufficient reward for our efforts, we hate to face the day when our journalistic endeavors come to an end, and a realization that we are more than likely through for good with type, ink, and press.

Friends, we have tried to give you in the past nine months all the campus news we had room for, and we have always endeavored to give it to you from an unbiased outlook. We have had a bit of difficulty in obtaining the facts of many of the articles in the columns of this paper, and there are many more that have never seen the type because the details were so unobtainable.

From the point of many we have been perhaps considered rash, radical, and irrational, while others may have named us weak, biased, and narrowminded. Perhaps we have known of the justness of all of these accusations, and we are always willing to admit what we know

to be the truth. On some things we have been flare-brained; on others we have been prejudiced; but throughout the year we have tried to think through to what we thought right, and then we supported what seemed best for the good of the school and of the student body.

THE TECHNICIAN is a student body newspaper, and without cooperation from the students the new staff is going to have hard sledding. The new editor is well qualified to take over the red pencil and the waste-basket, and we hope he will make a better job of the whole thing than has resulted from our puny efforts. Boys, get behind your paper next year and give the men on the staff all the cooperation they need. From our side, they have all the best wishes for a successful year, and it has taken us a long time to realize what that term means.

"The old order changeth and giveth place to the new." It is well. We have served our time; it has been our hope that when the end is near we could say we have served it usefully and done our work well; but that we should fear to claim. At any rate, we have given you the best that is in us; we hope the new men will do the same, despite the cost and sacrifices they might encounter. Then we warn always to be on the *qui vive*, which we have not done.

The new scenery is set, the performers are ready, the director calls, "Hurry up!" but we prolong this because we hate to write the final words. The men are at their places, the curtains are falling, the lights dimming. Four years pass quickly before us as we stand in a momentary pause—four joyous, happy, unforgettable years at State College, during which we have been glad to be with you. The curtains are upon us, so we make our bow. The act is ended, the scenes are changed, the new men are ready, and we depart into the wings. Good evening.

Student Forum

BLUE RIDGE

Blue Ridge meant six weeks of association with a select group of boys and girls from all over our Southland. The fellowship with great religious leaders enabled me to find myself and build a philosophy of life that integrated my personality and made me conscious of what life at its best means. The towering mountains, the awe-inspiring sunrises and the colorful sunsets gave me a greater appreciation of nature.

In short, Blue Ridge gave me six weeks of intense living close to nature and nearer to God than I had ever before.

JOE MOORE.

REAL CHRISTIANITY

One of the fundamental tests of real Christianity has always been its service to outreach. The question, "How much do we care?" is searching. "And who is my neighbor?" is being asked with real concern by thousands of Christian students today.

In the Community Service Group at Blue Ridge last summer, under Mr. Malcolm Guess, he brought out very clearly the responsibility of the college man to the high school boy, to those boys who yet haven't reached high school, and also those boys who do not attend any school at all. It is the duty of every college man to see that the high school boys come to college in the right attitude of mind, and to try as best he can to help him grasp the real meaning of life and its problems. There are many and varied ways in which we as college men can help the younger boys who are following in our footsteps. It is also the duty of the college man to help other boys with whom he associates, or comes in contact with to get the right outlook on life.

Dr. J. L. Kesler in his group on Science and Religion, also promoted some straight thinking and created a desire in the minds of the students there to seek and to find out the truth. All questions were approached carefully and from one side at a time, instead of jumping into the middle of them and getting lost, and not knowing as much about it as when it was first brought up.

Each group at Blue Ridge last summer was conducted in a manner so that the students there could get the most out of them, and spending ten days at Blue Ridge in the right attitude of mind is worth twenty other days out of any man's life.

C. LEROY CLARK.

A GREAT EXPERIENCE

My first thrill of Blue Ridge came when I was riding on a taxi on the highway between Black Mountain and Blue Ridge. I looked over a valley and saw Robert E. Lee Hall and the surrounding buildings, which looked like white dots in a green nest.

From that moment onward until the end of the tenth day the thrills were without end. The some four hundred

MEN WANTED

To work on THE TECHNICIAN staff as reporters and headline writers. If you are looking for activities to go with your grades in aspiration of Pine Burr, come around. Next year credit is to be given toward graduation, and also the experience will work in well with the class work in Journalism.

Christian boys from all over the South with their ideals and hopes based on Christian principles through their friendship and association gave me inspirations that will always remain with me.

As one stands on the steps of Robert E. Lee Hall on a moonlight night and looks out over the surrounding series of hills, valleys, peaks, all covered by a canopy of blue sky speckled with twinkling stars and flooded by a beautiful golden moonlight, he is conscious of God as no other experience can make him. The babbling streams as they rushed down the hillsides were always a source of supreme joy to me.

The hours spent in listening to the great speakers such as Dr. Tallafero Thompson, Dr. Alexander, Dr. Elliott, and many others, gave me some things that will always remain with me. The discussion groups in which important problems of life were taken up helped me in solving many of my problems.

The afternoons spent in sports such as swimming, hiking, boating, tennis, etc., were high spots in those ten days. The most enjoyable afternoon was one on which I with a number of State fellows hiked to High Top, accompanied by a group of Meredith girls.

In summing up I may say that I gained great inspiration, enthusiasm, resolution, and determination to more fully dedicate my life to the better things and also try to inculcate into my character some of the things that I grasped at the wonderful Blue Ridge Conference.

W. B. CALLIHAN.

COURSE IN WORK WITH BOYS TO BE GIVEN AT BLUE RIDGE IN SUMMER

An orientation course in the purpose, methods, and skill of modern character-building work with boys for boys' club leaders, Sunday School teachers and superintendents, parents, Scout masters, social workers, students, teachers and supervisors, is planned for the summer quarter at Blue Ridge.

This course is designed to fill a real need in community and family life. The problems of boyhood are a challenge to our best thought and preparation. In the opinion of great leaders all who contact with boys need to study them if real results are to be obtained. Building Christian citizens is a cooperative job. Boys' work leaders cannot do it alone or even partially succeed along the old methods of lecture, authority, and the divine right of adulthood.

Dr. Weatherford says: "We are living in a changing world, dealing with developing personalities, and we have to learn a growing technique of work with boys if we want to succeed in the task of helping boys develop Christian character."

It is the plan of this course to devote two hours each morning to a lecture presentation, followed by discussion of such subjects as History and Principles and Philosophy of Boys' Work, the Boy and Modern Psychology, Boys' Work Agencies and their programs, Educational Sociology and the Boy, Religious Education of the Boy, and Methods of Boys' Work.

The afternoon will be spent in two hours of participation in and demonstration of modern boy activity, and will cover social and recreational leadership of boys in such activities as archery, astronomy, campcraft, nature lore, craft work, story-telling, Indian lore, woodcraft, athletics, group games, swimming, etc. Experts in these various lines, at both morning and afternoon sessions, will outline and direct the study and discussion of the students.

NO HOPE FOR MONAZITE INDUSTRY IN N. C., SAYS PROF. GREAVES-WALKER

There is no hope for a revival of the monazite industry in Cleveland and adjoining counties, in the opinion of Professor A. F. Greaves-Walker, head of the ceramic and mining engineering departments of North Carolina State College.

The expert made this statement recently in reference to reports that citizens of Shelby, Lincoln, and vicinity had organized for a fight to have a tariff placed on monazite shipped from Brazil, in order to develop the deposits of that part of North Carolina.

"This mineral is valuable for its content of thorium, which is used largely in the manufacture of incandescent gas mantles, and in years past North Carolina was one of the principal sources of supply," said Professor Greaves-Walker. The North Carolina deposits are alluvial or stream-bed deposits, and the mineral was formerly obtained by washing stream-bed gravels.

"Florida monazite and not the Brazilian mineral rules North Carolina from the market," continued the State College professor. "Since the

Caught In His Own Trap!

Great War, Pablo Beach, near Jacksonville, has furnished this country with monazite. The Florida beach deposits are among the largest in the world and appear to be inexhaustible. The mineral is recovered by washing the beach sands, which are much richer than the North Carolina gravels.

The Brazilian beach deposits are controlled by German interests and furnish the European market principally, added Professor Greaves-Walker.

With rich, inexhaustible deposits in Florida, Brazil, and also in India, it would be economically unsound for North Carolina to invest capital

in her low-grade deposits, according to Greaves-Walker

Educative Wanderlust

They gave the express rider a good start

Henry Wells, developing the mail and express business of Wells Fargo, knew the necessity of careful preparation and alert management. Communication was more than the picturesque racing of pony express riders; behind the scenes there was always the systematic planning of routes, the watchful inspection of outposts and men. Communication today is immeasurably faster

than it was then, thanks to electricity. And to a vastly greater degree has the work of preparation behind the scenes become important.

In the Bell System, management must constantly look ahead to provide the sinews of service against growing public demand—material and men must be mobilized to extend and keep open the lines of communication.

"OUR PIONEERING WORK HAS JUST BEGUN"

Wake Forest Frosh Defeat State Frosh

Baby Deacon Ball Club Trim the State College Yearlings by Score of 8 to 5

Thursday, April 11, the "Little Deacons" played a home game with the visiting State yearlings in baseball. The freshmen of Wake Forest were victorious—8-5.

The State team outthrew the Wake Forest team, 9-4, but errors contributed to the scoring of the home club. Newsome pitched a winning game, and was given good support by his team-mates. State used two pitchers—Santer and Morris. They gave up few hits, but they were miserably wild.

Ed Williams and Ab Martin collected all four of the Baby Deacons' hits. Williams connected for a terrific three-bagger to centerfield, while Martin's timely hitting accounted for four of the home team's runs.

Vitaphone Vaudeville Acts

"Caught in the Fog," a Warner Bros. Vitaphone Picture, comes to the State Theatre next Friday and Saturday. May McAvoy and Conrad Nagel are starred and the cast includes Mack Swain, Charles Gerrard, Ruth Cherrington, Emil Shautard, and Hugh Herbert. The piece is based on a Jerome Kingston story which was adapted by Charles R. Condon. Howard Bretherton directed.

Vitaphone is used for symphonic accompaniment and in high moments of the action the players speak their lines, the fast and furious pace of the play being thus immeasurably augmented.

The locale is a millionaire's household off the Florida coast. A lady and a sheik bandit, arriving to steal a string of pearls, are confronted by the owner, Conrad Nagel. The owner at once beats up the sheik and pardons the lady—May McAvoy. Both are then thrown headlong into an onslaught of crooks and cops that make more fun and funnier than a barrel of monkeys.

In addition to the feature will be shown a news reel, comedy "Early to Bed," and three acts of vitaphone vaudeville. The acts are: Albert Spalding, "Violinist and Composer," "Coffee Dance," a musical revue, and The Crooners, singing "Familiar Airs."

Richard Barthelmess plus sound, music and talking!

This is the treat awaiting motion picture fans who attend the opening of this first National star's newest vehicle, "Weary River," at the State Theatre next Monday, Tuesday, Wednesday, and Thursday.

"Weary River" is a spectacularly modern story in which underworld life is combined with the radio. It is based on a short story by Courtney Ryley Cooper and was adapted to the screen by Bradley King. It relates the story of a singing convict whose voice over the radio won him a parole and the love of a girl.

For the second time Betty Compson appears as Barthelmess's leading lady having been last seen in the feminine lead in "Scarlet Seas." Frank Lloyd, whose "Sea Hawk" made screen history, directed "Weary River."

The cast includes Raymond Turner, the prominent colored actor who appeared with Barthelmess as the sparring partner in "The Patent Leather Kid."

On the same program will be seen a Fox Movietone News, a novelty, "Two Little Chinese Maids," and a movietone vaudeville act, Miller and Lyles, well-known comedians.

GREENSBORO BOY VOTED WINNER NORRIS TROPHY

FRANK P. GOODWIN

TWO WAYS TO OBTAIN SEX RELEASE, SAYS DR. ELLIOTT

Speaks at Blue Ridge Meet on "Petting" and Effect of Habit on Personality

In leading the discussion group at Blue Ridge last June on Men and Women relations Dr. Harrison Elliott created an interest that was scarcely found in any of the other groups.

Dr. Elliott with his profound knowledge of the subject and his congenial personality kept the interest of the boys at a high pitch throughout the meetings.

On the first day a list of the relations between men and women were compiled by the members of the group and put on the board by Dr. Elliott. The following day he took this list of problems and swung into methods of solving them.

The subject of petting was the first delved into. After giving several reasons why people engage in petting he told of the effects of the habit on personality. He seemed to think that petting was the expression of only one phase of a person's personality, whereas in the normal relations between young men and women many phases of the personality should be expressed. For example, they should play together, read together and work together some if possible. By entering into many experiences of life with each other men and women can determine whether it is possible for them to adjust themselves to each other.

The leader said that a mother was a boy's first sweetheart and a father is the girl's first sweetheart. "The chief reason that boys often fall in love young is that something comes between them and their mothers," he said, "consequently the boy lavishes his affections on someone else. People have love needs, and they must be satisfied."

"There are two ways of obtaining sex release. One is for the young boy or girl to be pals with their father or mother as the case may be. Another way is to use one's surplus energy in his work."

The last few days that the group met Dr. Elliott listed about twenty-five activities of the husband and wife, including furnishing the home, caring for the children, evenings at home, entertaining and handling of salary and income, in which he emphasized the fact that they should work together.

"Courtship and marriage," he declared, "must be put on a more sensible basis, and instead of the sex elements in life being played up to enormous heights, there should be a mutual sharing in all walks of life between men and women."

In closing his series of discussions he contrasted that interest group with the first he attended. In that first one the boys were shy and a feeling of restraint permeated the whole group as if they feared they were rushing in where angels feared to tread.

"Now," he said, "the students are frank and realize that they must face the facts if their sex life is to bring them the maximum of happiness."

Why the Camel Has the Hump
An elderly man approached one of the attendants in the traveling menagerie.

"Can you tell me what that hump on the camel's back is for?" he asked.

The keeper scratched his ear.

"What is it for?" he murmured.

"Yes; what use has it?"

"Well, it's pretty useful, sir. The old camel wouldn't be much use without it, you know?"

"But why not?"

"Why not!" exclaimed the keeper in surprise. "Well, you don't suppose people would pay to see 'im if 'e 'adn't got an 'ump, do you?"—Tit-Bits.

NATURE LOVER'S PARADISE, SAYS COLLEGE DELEGATES

Camp Offers Rare Opportunity for Study in Botany and Bird Life

In the opinion of every State College delegate to Blue Ridge, if there ever was a paradise for the nature lover it can be found at Blue Ridge, which, nestled among the towering Blue Ridge Mountains gives any man a chance to live near to God in nature's paradise.

Flowers! Flowers! Flowers! Few places in North Carolina offer the flower lover a more numerous collection of the common as well as the rare type of flowers. The hillsides are covered with Azalea, Laurel, Rhododendron, Oswego, Queen Ann's Lace, Columbine, Indian Pipes, Touch-me-not, and many others.

On almost any spot one can count as many as ten different species of wild flowers within as many feet of where he is standing.

The lover of trees can find a place that will satisfy his most enthusiastic desires, for probably no where in North Carolina does one find a greater range of all kinds of trees than upon the mountains surrounding Blue Ridge.

They range from the towering oaks upon the lowlands to the sturdy Balsam that crowns the topmost peaks of the peaks of that beautifully wooded country.

The bird lover can spend many a happy day searching the woods and forest for rare specimens of the bird group. The forest and fields around the Blue Ridge grounds afford homes for many different kinds of birds.

While at Blue Ridge during the past summer one of the State delegates alone identified thirty-three different varieties of birds in one day, and that without glasses. Many of the college boys reported spending many happy early morning hours on hikes in quest of their feathered friends.

Some of the most interesting found, in their opinion, were the Oven bird, the Wood Thrush, the Scarlet Tanager, the Pileated Woodpecker, the Cuckoo, the Oriole and the Quail.

Then, too, in the opinion of many who have been there, Blue Ridge offers a great opportunity to the collector of insects. It offers an opportunity for a rich and happy life for the boy that enjoys sallying forth to collect any insect life. A person can find many beautiful moths, of the great family of Lepidoptera, such as the Luna, the Monarch, the Telega Polypheum and the Yellow Emperor.

"The mountains beckon you to Blue Ridge, where you too can find something to fill every hour of the day with happiness and joy. Nature invites you to come and learn from her that your life may too be filled with a greater appreciation of life," are the words of Joe E. Moore, president of the local Y. M. C. A.

Photo Collection Of Politicians Is Abernethy's Pride

Milton Abernethy, better known as "Al Smith" on the State College campus, is the possessor of a rare collection of photographs and pictures of famous politicians throughout the country. "It's just a hobby of mine," said young Abernethy as he very proudly displayed the pictures and signatures of half-a-hundred well-known politicians.

Among the collection is the autographed photographs of Al Smith, Governor Ritchie of Maryland, Governor Byrd of Virginia, Franklin T. Roosevelt of New York, and Senator Walsh. These are a few of the better known men of political affairs in the United States that compose the collection.

Abernethy claims he has only been collecting since the recent election. "In the future I hope to add the picture or signature of every great man of politics to my collection, for now daily there comes one or more letters and pictures in my mail," said Abernethy.

On being asked his method of collecting these valuable portraits, young Abernethy explained that if he desired a picture from, say, Governor Ritchie, he would write him a letter explaining that he was a booster of the Smith campaign and desired his picture along with a collection of other boosters. Abernethy stated that almost without fail he would receive a letter or a picture by return mail.

Every man has a hobby. Among those that the public knows best are: Woodrow Wilson's, which was reading detective stories in his few leisure moments; King George's, which is collecting old and rare stamps; and only recently it was learned that Major H. O. D. Seagraves' hobby is making miniature trains and bridges.

Unique Boys' Camp At Blue Ridge Offering Unusual Advantages

SCY Camp, located at Blue Ridge, N. C., is a unique camp for boys in several particulars. In the opinion of conference leaders. In the first place the leaders of this camp are all mature men, who are majoring in Boys' Work and making character-building work with boys a life profession. They are not just boy workers for the summer camp season.

In the second place the camp is unique in that its purpose is to give boys every opportunity to work, play, and worship in fellowship with consecrated leaders of Christian character in the great outdoors, and the entire camp, leaders and boys, go forward together on the great adventure of quest of the best.

The program at SCY Camp is flexible, adaptable to the needs and interests of boys. The second objective of the camp is to give boys certain skills and vocational interests in woodcraft, nature lore, athletics, water sports, handicraft and campcraft that will be of increasing value to them in their use of leisure time.

The leadership and management of SCY Camp believe that boys are to be what they are now becoming, and every effort at this camp is put forward to help boys become self-controlled, self-directing, all-round men. The activities of the camp include boating, swimming, life-saving, hiking, woodcraft, leatherwork, dramatics, campfires, star-study, corrective exercises, archery, horseback riding, track meets, discussion groups, chapel activities, etc.

SEY Camp is not interested in turning out "stars" or "champions," but boys who can live, play, and enjoy a variety of activities correctly and happily, getting and giving the best all the time.

The location of SCY Camp and its access to all of the fine activities and interests of the Blue Ridge grounds makes it a unique place for a boys' camp and gives it unusual advantages. It is adjacent to the Blue Ridge equipment, yet it has an adequate equipment and facilities of all kinds of its own, and it is just as secluded as if it were many miles away.

White Spades Dance

The White Spades will give their annual dance tonight at the Frank Thompson Gymnasium.

Sigma Nu Informal Dance

In collaboration with the initiation pledges, the Sigma Nu fraternity entertained informally last Saturday evening at the Lashley-Busbee Studio from 9 to 12 o'clock.

Eleven pledges to the fraternity were centers of entertainment throughout the evening, acting as footmen in assisting guests to alight from their cars on arrival, as butlers in receiving wraps in the studio, and as waiters in serving refreshments to the guests. During the evening pledges were called upon for impromptu stunts and acts, affording the guests unique entertainment. Pledge Bill Woodard pleased the guests with his songs and banjo, while Pledge Duffey amused them with his wrestle with temptation. Cadet Flannigan of V. M. I. was the feature of the evening with his exhibition

dance. The Negro orchestra that played for the dance was one of the warm attractions and they added color to the dance.

Two hundred members of the city's younger and collegiate society and the track team of V.M.I. were guests of the Sigma Nu fraternity for the evening.

Chaperones were Mrs. R. G. Sherrill, Mrs. J. N. Mason, Mrs. O. R. Browne, Mrs. F. H. McGill, and Mr. and Mrs. George Thompson.

A committee, composed of Mr. Fred Forbes, chairman; Mr. John Sherrill, and Mr. John Gammon supervised the affair.

The following pledges participated: John Walton, of Columbus, Ga.; Bill Woodard, of Washington, D. C.; Pat Duffey, of Rochester, N. Y.; Henry Burrus, of Columbus, Ga.; Ed. Crow, of Monroe; Joe Ellington, of Raleigh; Alex Brown, of Gastonia; York Bass, of Birmingham, Ala.; Frank Cooper, of Newton; Bud Rose, of Marshall, Minn., and John Forbes, of Greenville.

Personals

F. S. McCoy, 27 Business, now with Liberty Mutual Life, former business manager of this newspaper, visited the campus for a few hours last Monday.

A. L. Aydtette and W. R. Dixon spent last week-end in Elizabeth City. Mr. Reginald Bell attended the S. A. E. fraternity dance in Durham on the 12th of April.

Mr. "Ken" Duffy of Rochester, N. Y., is visiting his brother, Pat Duffy, a freshman at this college.

Mr. Fred Forbes attended the Sigma Chi fraternity dance in Durham last evening.

Mr. Charles Connally left Thursday for his home in Charlotte to see about securing a position with an architect after graduation.

Weaver, President Sigma Alpha Kappa For Coming Year

Organized on the campus last year, the Sigma Alpha Kappa, local honorary accounting fraternity, has attempted to rise to success from a specialized field that is limited in membership. Much has been accomplished by the department, and more students are specializing. The coming year promises a new light on the scene of rising C. P. A's.

At the monthly business meeting of the organization, held Tuesday in the library, the following officers were elected for the coming year: A. L. Weaver, president; W. F. Bowers, vice-president; M. E. Stroud, treasurer; W. C. Rockett, secretary, and Professor C. B. Shulenberger, faculty adviser.

Pass the Glycerin

Tears were streaming down the movie actress's face. Reverses had come—she was in a pawnshop. Slowly, silently she drew from her pocket a little package and laid it down on the counter before the eyes of the hardened pawnbroker. "How much?" she asked, and wiped her eyes with a tiny handkerchief. She was pawing her six wedding rings.—Life.

HONORARY MILITARY SOCIETY

N. C. STATE COLLEGE CHAPTER OF SCABBARD AND BLADE

Above is latest photograph of the chapter of Scabbard and Blade, national honorary military order, at North Carolina State College at Raleigh. The chapter has announced plans for an elaborate dance to be given at the Country Club of the Capital City on April 25, with Governor and Mrs. Gardner as honor guests.

The chapter roll includes, left to right, front row: G. G. Fornes of Arapahoe; J. H. Barnes, Barnesville; O. M. Carpenter, Charlotte; Bernard Crocker, Raleigh; J. H. McKinnon, Red Springs; W. V. Sawyer, Johnston, S. C.; Frank Goodwin, Greensboro; J. F. Moore, Lenoir.

Second row: J. S. Armstrong, Spen-

cer; C. H. Belvin, Jr., Raleigh; R. B. Stamey, Newton; W. M. White, Hertford; F. M. Johnson, West Asheville; W. W. Weltmer, Asheville; J. F. Rhodes, Comfort; J. M. Lepo, Youngstown, Ohio.

Third row: John Brock, Winston-Salem; J. A. Westbrook, Portsmouth; P. H. Meese, Biltmore; H. G. Love, Burlington; C. D. Fournay, Jr., Lawndale; W. Tilford Smith, Norfolk; A. L. Cooke, Winston-Salem.

Fourth row: Wm. T. Garibaldi, Charlotte; J. O. Branch, Kittrell; M. M. Alexander, Concord; J. W. Workman, Burlington; V. E. Koonce, Chadbourn; M. D. Tetterton, Plymouth.

Fifth row: Zeb Plonk, Kings Moun-

tain; J. B. Smathers, Canton; C. H. Jourdan, Durham; R. A. Shelor, Sumter, S. C.; J. J. Davis, Marshall; T. H. West, Seven Springs; A. B. Worth, Raleigh; R. C. Tucker, Raleigh.

Sixth row: E. H. Floyd, Fairmont; D. G. McFayden, Raeford; J. W. Summey, Dallas; A. B. Freeman, Columbia; W. H. Journey, Harmony; H. E. Pearce, Jr., Franklinton; B. H. Bell, Raleigh.

Seventh row: G. J. Albright, Spencer; T. M. Hughes, Lancaster, S. C.; A. B. Sims, Raleigh; Thomas Kerr, Shelby; W. R. McRackan, Whiteville; J. G. Adams, Youngstown, O.; J. L. Wilkes, Dillon, S. C.; Joe Ellis, Jr., Ramseur, and J. W. Doshier, Southport.

SELF-HELP CLUB ELECTS WOODALL AS PRESIDENT AT SATURDAY'S MEETING

The annual election of officers for the Self-Help Club was held Saturday night at Lassiter's Mill.

Over twenty-five self-supporting boys met at the mill to decide who should guide their club through another successful year. Herbert Green, the retiring president, was in charge of the meeting. He spoke briefly to the members on the accomplishments during the year and the value of the club to working boys.

Preceding the business meeting, a wener roast was enjoyed by the merry boys. Swimming, boating, and singing added to their fun.

Officers elected for the coming year are as follows: President, G. Raymond Woodall; Clayton; vice-president, L. Guy Matthes, Ingold; secretary, W. D. "Jiggs" Spence, Hamlet; treasurer, Raymond R. Rich, Tomahawk; historian, Melvin R. McKenzie, Candor; assistant historian, Gordon N. Owen, Parkersburg; reporter, Edgar H. Harwood.

Attendance at Election Points Toward Success For Future E.E. Society

Interest shown by the members of A.I.E.E. at the business meeting held Tuesday night by the large attendance of the junior class and the heated election of officers points toward a success of the organization for the coming year.

The A.I.E.E. extends a cordial invitation to the sophomores and freshmen in electrical engineering to attend their meetings on the first and third Tuesday nights of next month. The old members are urged to be present in order that all old business may be cleared before the end of the year.

Officers to head the organization for the coming year are: H. W. Horney, chairman; D. E. Jones, vice-chairman; E. R. Price, secretary-treasurer; W. W. Weltmer, representing the society in the engineering council; and T. S. Ellington, reporter.

Your Attention is Called to These ANNOUNCEMENTS

Pi Delta Sigma meets Wednesday night, April 24, 7:45, at the home of Professor R. C. Moen, 2715 Hillsboro.

Saints' Meeting will be held next Tuesday night at 7 o'clock in the "Y" for the purpose of electing officers for next year.

Woman's Gold ring with onyx setting lost, bearing the initial "P" and the name Keller scratched inside. Finder will please return to C. C. Cutts, 311 Watauga.

Los Hidalgos will hold their spring initiation Tuesday night, April 23, at 7 o'clock, in Peele Hall, in Room 211. All candidates will wear the white duck pants, white shirts, and red sash that they have worn during the day.

Sigma Alpha Kappa holds a smoker Tuesday night, April 23, at 7:30, in the reception room of the Y. M. C. A.

Sophomore class meeting Monday at 1:15 in "Y" for the purpose of nominating candidates for next year's officers, and a meeting Wednesday at 1:15 in the "Y" to elect officers.

Seniors

On Wednesday, the 24th of April, at 1:15, in the Y. M. C. A., the senior class will meet for the purpose of deciding what was will leave as our gift to State College. At our last meeting the proposition of subscribing to the Alumni Loyalty Fund was put before the class for consideration. The president hopes that every member of the class has given this question some serious thought and is ready to express his opinion at this meeting. It is imperative that we have a large crowd at the meeting on the 24th; so please remind your fellow-classmates. There are some other important questions to come before the meeting, and every member of the class with any class spirit should be there. Seniors, the Class of '29 is your class, its problems are your problems. You have a voice in whatever decision it makes. Come out and exercise this privilege next Wednesday at 1:15.—Charlie Hibbard, Pres. Class '29.

"When I was in China I saw a woman hanging in a tree."
"Shanghai?"
"Oh, about ten feet."

Miss Sims (or Mrs. Smith): "Tom-om-ee, what was Washington's 'Farewell Address'?"
Tommy (very sweetly): "Heaven, ma'am."

Gamma Sigma Epsilon Welcome 10 New Men At Banquet April 17th

Gamma Sigma Epsilon, national honorary chemical fraternity, second oldest chapter in the United States, gave a banquet at the Meremont Tea Room Wednesday night in honor of the new members of the order.

New members taken into the fraternity this year are the following: Professor J. L. Cummings, Professor A. D. Jones, Messrs. M. R. Vipond, W. J. Pippin, J. D. Welch, W. E. Koonce, B. A. Pearcey, J. Geohagan, L. T. Richardson, G. N. Owen, and E. H. Harwood. Old members are Dr. A. J. Wilson, Dr. L. P. Williams, Professor W. E. Jordan, Professor H. L. Caviness, Professor J. A. Ogg, Messrs. W. V. M. Williams, J. R. Lawton, J. R. Pilond, W. T. Maxwell, Alec Redfean, A. C. Ruggles, and R. N. Jeffrey.

Membership to this fraternity is based on scholarship, character, personality, and leadership.

Drink **Coca-Cola**
Delicious and Refreshing

PAUSE AND REFRESH YOURSELF

IT WON'T BE LONG NOW. AND THE PAUSE THAT'S COMING MAY NOT BE SO REFRESHING AS SOME OTHERS WE KNOW OF.

The moral is to avoid situations where it is impossible to pause and refresh yourself—because whenever you can't is when you most wish you could. Fortunately, in normal affairs there's always a soda fountain or refreshment stand around the corner from anywhere with plenty of ice-cold Coca-Cola ready. And every day in the year 8 million people stop a minute, refresh themselves with this pure drink of natural flavors and are off again with the zest of a fresh start.

OVER 8 MILLION A DAY

YOU CAN'T BEAT THE PAUSE THAT REFRESHES

IT HAD TO BE GOOD TO GET WHERE IT IS
