STUART SELECTED NEW PRESIDENT AT JOINT CONFERENCE

Clarice Bowman of Duke
Elected President
Y. W. C. A.

ELEVEN N. C. COLLEGES
SEND REPRESENTATIVES

Under Leadership of Joe Moore,
Past Conference Was
Proclaimed Best in History of Its
Several Meetings—Joint Con-
ference Meets Annually.

A. D. Stuart, junior in agriculture, Hamer, S. C., one of the most outstanding students on the campus, was given the high honor of being elected president of the Joint Y. M. C. A. Student Officers Training Conference, in session at Salem College, Winston-Salem, from Saturday, April 27, to Monday, April 29, for the year 1929-30, succeeding Joe E. Moore, president of the Y. M. C. A. at this college.

Clarice Bowman of Duke University was made president of the Y. W. C. A. group for the coming year, taking the place of Elizabeth Roper of Salem College.

This joint conference, which meets once each year, is made up of representatives from eleven North Carolina colleges, and purposes to train the new officers in their work for the coming year and to map out the program of the Y. W. and Y. M. C. A.'s at North Carolina colleges for the year 1929-30.

Under the leadership of Joe Moore—Continued on page 2.

J. F. Miller Back From Physical Ed. Session in Chicago

J. F. Miller, head of the department of Physical Education at State College, was present at the four-day session of the Mid-West Sectional Meeting of the National Physical Education Association, which was held in Chicago, April 24 to 27, inclusive.

Mr. Miller chose to take his annual professional trip into the middle west this year because the conditions existing in the mid-western states are very similar to those in North Carolina. Recently Mr. Miller was elected president of the North Carolina Physical Education Association, and is making a study of the physical education programs in other states in order that he may assist the North Carolina schools to organize such programs next year.

The state universities and state colleges of the Middle West are providing four-year courses in physical education and athletic coaching, training teachers and coaches for the schools of their state and section. While on his Chicago trip Mr. Miller visited the University of Illinois and was given the opportunity to make a thorough study of the organization of the work given to their students in the required courses and in the professional courses. Craig Ruby, basketball coach at Illinois for the past six years, is one of the "old boys" of Mr. Miller's when he was coaching at the University of Missouri. The associate professor in charge of all required courses at Illinois, Seward Staley, is an old classmate of Mr. Miller's.

The National Association of Physical Education, of which Mr. Miller is a member, has its meetings divided into four sections: Pacific, Mid-Western, Eastern, and Southern. Each of these sections holds an annual session to which come the directors of physical education from the states in their section. The purpose of these meetings is to present, to those attending, the newest ideas and developments in physical training, and to study the conditions existing in the various cities, in the high schools, and in the colleges. As speakers, the members are privileged to hear men who are acknowledged to be prominent in their fields of work and who can point out the best way in which their work should be carried out.

Y CONFERENCE PRESIDENT

A. D. STUART

HOLLADAY HALL TO BLOSSOM OUT SOON IN NEW SPRING TRIMMING

Holladay Hall, one of the old familiar landmarks on the campus of North Carolina State College, is rapidly nearing completion after a period of reconstruction and remodeling that began last autumn.

The old building will emerge with many new decorative and practical devices, featured by an arched entrance on the west side of the structure which will be used as the main entrance in place of the original one of the east side. This newly constructed doorway will be finished in brown sandstone and a big cartouche bearing the M.C.S. monogram will be erected directly above it.

The interior of the structure has been revised altogether. The stairways are of marble laid on a framework of steel. The basement will have cement floors, and all the old characteristics of the building will be preserved by the use of 350 cubic feet of brown sandstone from the same vein of stone as was used forty years ago when the building was erected.

The basement of the building will be occupied by the military offices and classrooms. The first floor will be taken over by the administration officials, with President Brooks in possession of his original office in the northeast corner of the structure. The registrar and other officers will occupy the second floor, while the third floor will contain numerous rooms that will be made the headquarters of the other campus officials.

It is expected that the building will be completed before the commencement exercises this June, and officials will immediately take up their duties there.

The sandstone used for decorative purposes is similar to that used on many buildings in large cities. T. A. Kennedy, construction engineer in charge of the work, found the stone at a quarry in Sanford, and claims it to be of the best grade of sandstone in the United States.

COUNCILMEN SELECTED AT FRESHMAN CLASS MEETING

Officers Representative of Various Departments; Class Officers To Be Elected Soon

The class of '32 held its election of student government officers on Friday, April 26th, in Pullen Hall. The officers were selected from the various schools in the college. Those elected to hold office in the Student Council were: J. A. Sutton, school of agriculture; G. B. Hobson, school of education; Frank Gorham, school of engineering; C. E. Brake, school of science and business; C. M. Cone, textile school.

Members elected to the House of Student Government were: H. W. Scheid, school of agriculture; J. T. Jackson, school of education; H. Y. Brock and R. LeForte, both from the school of engineering; J. H. Lindville, school of science and business; J. E. Gill, textile school.

The meeting was opened by the president of the class, C. C. Lane, who turned the chair over to W. P. Albright, who presided over the elections. Election of next year's sophomore class officers is scheduled to take place within the next few days.

Red Masquers Club To Present Drama At Raleigh High

The first dramatic offering in the history of N. C. State College is to be presented Saturday night, May 11, at 8 p.m. in the Hugh Morson High School auditorium. The play, "R.U.R."—"Rossum's Universal Robots"—is presented by the "Red Masquers," dramatic club.

"R.U.R." is a four-act play seething with action from start to finish. Thirteen boys and girls of the student body compose the cast. An additional fifteen boys act as mechanical men. Besides these, the production requires the services of a property man, a construction engineer, two advertisers, and several electricians.

Some of the most prominent roles, such as Harry Domain, general of Rossum's Universal Robots, Jr. played by John Litchfield, Poplar Branch; Helena Glory, by Miss Ada Spencer, Raleigh; Dr. Gaul, the famous physiologist, by Milton Vipond, Norfolk, Va.; Helena, the robotess, by Miss Josephine Richards, Raleigh; Dr. Holencen, the renowned psychologist, by C. L. Clark, Winston-Salem; Alquist, the only human being on earth after the great Robot revolution, by G. R. Alexander, Montreat; Radius, the robot with the largest brain on earth, by G. R. Britt, New Bedford, Mass.; Primus, the robotess Helena's lover, by John White, Nashville; Fabry, chief engineer, by T. M. Vernon, Stoneville; Jack Bowman, by W. P. Walker, Asheville; Emma, the maid, by Miss Nancy Kendrick, Raleigh; and Sulla, by Virginia Anderson of Raleigh.

The drama is played on a remota island which contains the factory of Rossum's Universal Robots, from which all the mechanical men come. It is here that the almost human process of making men takes place under the supervision of the world's famous scientists.

For about six weeks the production has progressed under the skill—Continued on page 2.

Local R.O.T.C. Unit Highly Commended By Army Inspectors

The State College R. O. T. C. Regiment was reviewed Monday afternoon by Majors Ralph Holladay and Oliver Allen, U. S. Infantry, who compose the Fourth Corps Area Board of Inspectors. These officers gave State a high rating, and commended the way the cadet officers took command.

According to the inspecting officers, the regiment made an admirable impression by their soldierly appearance, fine physique, cleanliness of uniforms and rifles, and the excellence of infantry drill. The students made satisfactory results on the class tests; the band, as usual, was above par.

Since the rating of distinguished R. O. T. C. colleges has been abolished, it is known that State College unit is one of the outstanding units in the United States.

L. R. Mercer Unanimously Voted Winner In State Oratorical Meet

Lee R. Mercer, sophomore, of Norfolk, majoring in chemical engineering at State, was unanimously awarded first place in the 1929 North Carolina State Oratorical Contest on the Constitution. His is the fourth victory for State in the five years that the contests have been held. As reward for his win he will represent North Carolina in the Southern Regional Contest which will take place in Asheville, May 17.

Joe L. Carlton, the most experienced speaker of the Wake Forest student body, was named as alternate by virtue of his placing second in the results. Third place went to Miss Eloise Lindley, of the Asheville Normal School.

Other speakers were: Keith Harrison, High Point College; Marvin F. Roper, Duke University; Fred Holsinger, Catawba College, and Miss Ruby Ricks Lawson, Atlantic Christian College.

Judges for the contest were: Rev. Henry G. Lane, rector of the Good Shepherd Church; Col. John E. Steadman, vice-president of the Citizens National Bank and district commander of the American Legion of North Carolina; Mrs. T. K. Maupin, chairman of the State Publicity Com-

President Hoover Greets Champion Aircraft Modeler

Thomas C. Hill, freshman in mechanical engineering at State College and National Outdoor Champion of the Aircraft Model League of America, was personally greeted and complimented by President Hoover while on his trip to Washington, where he went at the request of officials of the League, to show his winning model plane.

Hill was sent for to attend a demonstration of model planes in Washington. He met some of the officers of the League in Washington, and was taken to President Hoover, to show him the plane. The chief executive welcomed Hill, but was too busy to see him fly the plane.

After the demonstration the men took Hill to Detroit in a Ford 'Tri-motor' to attend the All-American Aircraft show. He was their guest during the show and was shown every type of present-day aircraft. Most of the important manufacturers of aircraft in the United States had exhibits there, and men on hand to explain them.

Last summer Hill competed against 250 boys from all parts of the United States and insular possessions in flying model aircraft. The boys gathered in Detroit to show their models and fly them. Hill's plane was for outdoor flying, and when he sent it off it stayed in the air 250 seconds, which smashed the existing record and gave him the National Outdoor Championship.

For winning the championship Hill received a trip to Europe, \$200 in cash, and \$150 in clothes. The trip through Europe lasted six weeks, during which Hill and the indoor champion, Albrigton, were guests of the *American Boy Magazine*, sponsor of the League. They visited London, where they held a small meet with British model enthusiasts. After that they went to Paris, Geneva, Venice, Florence, and Rome. From Rome they went back to Paris, and then home.

The plane Hill flew in the meet was a twin plane monoplane, built along the lines set by the A.M.L.A. The League is sponsored by the *American Boy Magazine*, and has as its officers such men as Commander R. E. Byrd and Edsel Ford, both leaders in the aircraft field. The League arranges a meeting each year to determine the National champion.

Hill is seventeen years old and comes from Winston-Salem. He was sent to the meet last summer by the Lions' Club of Winston-Salem, because of the record he had made in building model planes. He is a member of the State College Aeronautical Society.

Noah Branscom Is Selected Assistant County Agent By Buncombe Commissioners

Noah O. Branscom, senior in agricultural administration, Campbell, S. C., has just received word from the county commissioners of Buncombe County that he has been appointed assistant county agent. Branscom is a native of Buncombe County and has been at State College for four years.

AIRPLANE MODELER

THOMAS C. HILL

PERSEVERANCE GETS ANYONE THRU SCHOOL SAYS DEAN TAYLOR

"Any man can work his way through college who has the determination," said Dr. Carl C. Taylor, dean of the Graduate School, in addressing the self-help students of State College Wednesday evening in the Y. M. C. A.

"Few men," said Dr. Taylor, "work their way entirely. They usually have some source of help. Most young people receive help from home or relatives. But as for myself, I got only twenty-five dollars from home. This was paid back when I got a job teaching. I began paying for my education in 1904 and finished paying for it in 1922, after I came to North Carolina State College. I did everything, from cleaning sewers to preaching, while in college, to help meet my expenses.

"A man must learn to work, learn to earn, and in so doing he will learn to live, which," said Dr. Taylor, "is the most important thing a man must learn. Very few people know how to live life to its fullest. A man must not only learn to work, but he must learn how to invest what he earns to obtain greatest dividends."

He told of a young man who had once made the statement to him that money was everything, and how he had shown the young man the many things that could not be bought with money. "You cannot buy appreciation of another man with money. This," he said, "is the cause of a lot of our labor troubles, the employer not appreciating the employe as he should."

"I live but once; the greatest task of my life is to live for the greatest"—Continued on page 2.

COLLEGE EXPERIMENT STATION IS EXAMINED

Dr. W. H. Beal of Washington, D. C., Makes Annual Inspection

North Carolina State Experiment Station received its annual inspection this week by Dr. W. H. Beal, associate of the Experiment Station Administration of the United States Department of Agriculture, Washington, D. C.

North Carolina State Experiment Station receives a large portion of its support from Federal appropriations. The research under these funds and the use of the funds is partially administered through the office of the United States Department of Agriculture. Since the experiment stations receive aid from the Federal department it is necessary that the Federal department send out an official each year to see that all workers in agricultural research are doing their work as it should be done. The records are audited to see that they meet Federal requirements.

These inspectors visit all agricultural experiment stations in the country, and therefore they have a broad education on agricultural research and are prepared to give valuable suggestions in regard to research programs.

At the present time Dr. Beal is making a tour of the South, inspecting experiment stations in the various Southern states. No adverse criticisms were made of any department of the North Carolina Experiment Station. Favorable comments were made on the programs of several departments.

CHOPLIN INSTALLED COUNCIL PRESIDENT AT MEETING MAY 1

Albright Points Out the
Marked Decrease
in Hazing

DR. BROOKS COMMENDS
RETENTION OF COUNCIL

Past Members and Officers of
College Government Retire
With Praise of Students, as
New Leaders Express Desire
to Carry on Good Work.

J. Paul Choplin, junior in poultry, Winston-Salem, took the wheel as the new president of the student body at State College at noon Wednesday, May 1, in Pullen Hall, taking the place of W. P. Albright, 1928-29 president. The new officers, council, and house took the oath of office before the student body, A. B. Holden, retiring vice-president, officiating. Dr. E. C. Brooks, president of State College, discussed two important phases of student government.

W. P. Albright and his associates went out of office with the praise of the student body and faculty ringing in their ears. Holden argued that student government could not be a success at State College unless every student here did his part.

As major improvements, Albright pointed out the marked decrease in hazing during the year; an increase in the efficiency of the honor system, and a more noticeable feeling by the students against law violators.

Dr. Brooks, who is an interested student of government in all its various forms, expressed praise for the students in their retention of student government and for their increasing interest—Continued on page 3.

M. H. Bickham To Make Survey Here Beginning May 12

Dr. Martin H. Bickham, director of research of the Committee on Social Analysis of College Communities, will visit N. C. State College May 12-18, coming under the auspices of the Young Men's Christian Association.

Dr. Bickham is not coming to make an ordinary survey of life at State College. He will not ask that any questionnaires be filled out. On the other hand, Dr. Bickham is not coming to make an official investigation, and his work is in no sense a "snooping expedition."

"Social analysis," writes Dr. Bickham, "endeavors to get at essential life situations. It is making use of the newer social science techniques to arrive at a fundamental understanding of the real life situations of the college community. These are affecting character and personality. Social analysis aims to dig into these basic social conditions and to suggest ways of improvement that will be of value to all."

In endeavoring to make a social analysis of N. C. State College, Dr. Bickham is very anxious to have the cooperation of such organizations as the Blue Key, The Golden Chain, fraternities, and departmental clubs. He also desires the cooperation of the teachers and officers of the college. Every man who wants to see living conditions improved and the welfare of State College men promoted should give Dr. Bickham his hearty cooperation.

Dr. Bickham is well qualified for the work he will undertake to do here. He has been in close touch with college life for about twenty years. At one time he was secretary of the Y. M. C. A. at Iowa State, and later at the University of Chicago. He took his Ph.D. degree in sociology at Chicago, and before going into the work in which he is now engaged worked with the Associated Charities of Chicago.

Alonzo Stagg, the famous football coach, is a member of the committee under which Dr. Bickham works.

N. C. State Host To Federation At Eighth Gathering

North Carolina State College has the honor of having been the meeting place of the eighth annual convention of the Southern Federation of College Students, for 1929. The convention was in session at State during April 25th, 26th, and 27th, at which time 27 delegates met here to discuss the various problems facing the student bodies of the federation. As a result of the discussions the federation arrived at various solutions of the problems, and accordingly adopted such policies for the coming year as would best promote these solutions.

Fifteen colleges were represented at the convention. They were: Birmingham-Southern, Davidson, Emory, Emory and Henry, Georgia Tech, Mississippi A. and M., N. C. State, Washington and Lee, University of Alabama, University of Florida, Maryland, Richmond, North Carolina, Miami, and Hampden-Sydney. The three last-named colleges were admitted to the federation only this year.

Officers elected for coming year are: President, W. D. Duckwall, University of Florida; vice-president, J. P. Choplin, State College; secretary-treasurer, O. B. Locklear, Birmingham-Southern. Outgoing officers were: R. M. Hill, president, Alabama; J. W. Melton, vice-president, Davidson; and L. H. Chester, secretary-treasurer, Richmond. W. P. Albright, president of Student Government at State College, was a member of the executive committee for the past year.

The federation's convention for next year is scheduled to take place at the University of Florida.

Stuart Selected New President at Joint Conference

(Continued from page 1)

This past conference was proclaimed by all to be the best in the history of its several meetings. Approximately fifty student officers and others joined together under the leadership of Mr. Harry Bence, field secretary of the national Y. M. C. A., Miss Connie E. Meares, traveling secretary of the Y. W. C. A., and Mr. C. B. Loomis, traveling secretary of the Y. M. C. A., to seek out and solve the problems facing students on the different campuses.

Meetings were held in large groups during the main discussion period, and then broke up into smaller groups to get the opinions of individuals on the solutions of the different problems. The leaders endeavored to find out just what the officers were up against and to help them to reach a solution so that these student leaders of spiritual activities on the campuses could take the ideas back to their respective associations.

After much discussion it was decided to hold the next conference at Camp Sacaaroot, a "Y" camp near Durham. Stuart, Miss Bowman, and McClardy of Duke University will arrange for the program and the housing of the delegates.

The information and ideas given at these conferences have proven invaluable to the "Y" leaders in the past, and have been a help that is looked forward to by the new leaders each year with a great deal of pleasure.

"Professional College Boy" Is Not Representative Man

Youths Wearing Bright Red Caps and Socks, in Battered Fords Chalked With Antiquated Witticisms, Ogling at Every Girl That Passes, Are Not Representative College Men.

(Intercollegiate Press)

The youth who poses as the typical college boy as a rule never has seen the inside of a college, according to the Washington Evening Star, which recently announced the discovery of the "professional college boy."

The editorial follows:

"We have in our midst the professional college boy. The type is familiar on the streets of Washington. The other day were noted a couple of conspicuous examples—two callow youths wearing bright red hats and socks, in a battered flivver chalked with antiquated witticisms. The car was parked on a busy downtown street where its occupants could ogle the girls as they passed.

They were trying to give the impression that they were college students. They were "made up" according to the popular idea of the collegiate gleaned from comic magazines and vaudeville. Many who passed them with contemptuous smiles probably thought that they were actually what they pretended to be.

It is unfortunate that such a picture has been stamped in the popular mind. It is a false and grotesque representation of the real college student. It subjects the quiet, earnest, ambitious, hard-working, inconspicuous young men who make up the bulk of the university classes to a degree of contempt which they have done nothing to deserve. The sophisticated fellows are few and far between on any campus in the city.

Dean Henry Grattan Doyle, of George Washington University, has rendered a real service to the college world by his study of the actual college type, conducted by means of a questionnaire sent to four hundred American institutions of learning. He finds that the traditional "collegiate" actually makes up less than 2 percent of the student population, enjoys no prestige with his fellows, stands low in his classes, makes no progress in sports, and is looked upon as a "curiosity."

True enough, the type does exist at the colleges. Generally, however, this twentieth century phenomenon is a rank outsider trying desperately to attract attention. He never has been near a college. He had not enough brains to get through high school.

Forward-looking high school boys, with more ambition than intelligence, sometimes adopt the "collegiate" pose and then before they actually enter an institution of higher learning, if they ever do.

Many of these blatant "collegiates" not only are rank frauds, but they are psychopathic borderline cases, youths with pronounced inferiority complexes which drive the unfortunates into making themselves conspicuous at any price.

A few weeks ago a youth with a characteristically decorated flivver was brought to traffic court.

"I guess I'm crazy," he told the judge, with a strained effort at sophisticated witticism.

His honor took the youth at his word, and ordered him held for a mental examination. That judge had some real understanding of human nature.

The professional college boy is about as far from the real student as the professional artist, who dresses grotesquely and cuts queer capers to demonstrate artistic temperament, is from the real artist; as the professional southerner who hammers out in New York songs about his "rose-covered home" in Dixie, is from the real southerner; as the man in the cowboy hat riding across the country on a bet, is from the real cowboy.

Every type to which there is any glamor attached in the public mind has its imitators who, lacking understanding and common sense, carry the characteristic mannerisms to a degree so ridiculous that they reflect discredit on the type itself.

A young man who had been to college returned home and was ushered into the diningroom where his mother had prepared two roast chickens for dinner. Said he, "Father, I can prove that there are four chickens on that platter. There are two to start with. A chicken is a fowl, so therefore there are two fowls. That gives a total of two chickens and two fowls. But these particular fowls happen to be chickens, so the two fowls and two chickens make a total of four chickens."

"Is that so?" asked the father, as he began to serve the meat. "Well, here is one chicken for your mother; I'll take one for myself; and you can have the other two."

RUTHERFORDTONIAN IS CADET CAPTAIN

HENRY O. HAMRICK

Henry O. Hamrick of Rutherfordton and Bath is regimental adjutant, with the title of captain in the Reserve Officers Training Corps at N. C. State College this year.

Hamrick is majoring in electrical engineering this college session, and plans to make that profession his business, following graduation in June. He is active in college athletics, in track and wrestling, besides being chairman of the Student Engineers' Council, American Institute Electrical Engineers, Scabbard and Blade, and Tau Beta Pi societies.

DEAN E. L. CLOYD WRITES OF NEAR EAST MOVEMENT

Does Not Approve Canvassing the Dining Hall for Pledges

All of us are familiar with the fact that for the past thirteen years America has had an organization known as Near-East Relief, which has been caring for and training children left orphans at the close of the World War.

The organization in North Carolina is headed by Mr. J. B. Ivey of Charlotte, and the executive committee is composed of ex-Governor Angus W. McLean, Hon. O. Max Gardner, Dr. David H. Scanton, Mr. W. Henry Bell, Bishop Edwin A. Penick, and Mrs. Cameron Morrison.

A number of times State College has been asked to join other colleges in North Carolina in the support of this work. About half of the universities, colleges, and preparatory schools have shared in the undertaking.

We have explained to the committee more than once that we do not approve of sending a speaker to our dining hall during a meal hour, as has been done in a number of places, and undertaking to secure pledges or contributions to this cause.

We have agreed, however, to extend to a representative of the organization the privilege to present the cause of Near-East Relief at a meeting in Pullen Hall at 12 o'clock, Wednesday, May 8, with the understanding that at that time a collection will be taken for this work.

My purpose in writing this article is to advertise beforehand just what next Wednesday's meeting is about, and to ask State College students and faculty to give the representative of Near-East Relief a hearing next Wednesday.

I am not urging anybody to contribute to Near-East Relief. That is a matter that each man must decide for himself; but I am asking that we, the students and faculty of State College, attend the meeting next Wednesday and judge for ourselves whether we care to contribute. Attending the meeting in no way obligates anyone to contribute any more than attending a church service places everyone present under obligation to contribute when the collection plate is passed.

It is estimated that food, shelter, clothes, and training can be provided a child for one year for \$100. Personally, I should be glad to see State College make provision for at least one child for one year.

My request, however, is not for money, but that we attend next Wednesday's meeting and hear for ourselves what has been said and is being done by Near-East Relief.

E. L. CLOYD, Dean of Students.

Co-ed: You remind me of the wild sea-waves.

Frosh: Oh-h-h—because I'm so restless and unquenched?

Co-ed: No; because you're all wet, and you make me sick.

Judge: "Are you guilty or not guilty?"

Prisoner: "How can I tell when I haven't heard the evidence yet?"

STATE GRADUATE MEN RUN EXTENSION WORK

Half of the Eighty-Four County Agents Are From State College

"The extension work for the Department of Agriculture for North Carolina is carried on mainly by graduates of N. C. State College," stated Dean I. O. Schaub of the School of Agriculture.

The agricultural school is fast becoming the source of extension workers. Many of the men of this college have been placed in the field of extension work in the last few years. This is encouraging to the heads of the agricultural schools in that it proves the research work undertaken by that department is highly successful, not only to the training of the student, but to the farmer for whom this extension work is mapped out.

Dean Schaub has compiled a list of the extension workers of the state, showing the number that are graduates of State College. They are as follows: 42 of the 84 county agents; 2 of the 5 district agents. One of the three not from State College is from Virginia and the other two are from South Carolina. One-half of the specialists in the state are State College men.

A new plan has just been put into action that places a new man with each of the old agents and specialists, in order to give the new man a chance to learn the work, as well as to give the old men a slight rest. This new plan will deal with four new State men that will be placed by the department as assistant county agents by July 1. There is only one man of this four that the department is sure of; this is N. B. Nicholson, better known as "Big Nick," captain of the 1927 State Champion Wolfpack. Nicholson will be placed as assistant county agent of Stanly County, beginning May 1.

The type of bulletins, of which there are about ten each year, has been changed from a technical collection of facts to a more commonsense type of exposition, easily grasped by any person.

CATALYSIS

By PROFESSOR J. L. CUMMINGS

Catalysis is more or less mysterious and little understood, yet catalysis are of far more importance than any layman or even many chemists would think. When you see a bridge painted red, do you realize that the color is applied as a catalytic preventive agent against rusting, and not as an ordinary paint? Does the farmer realize that the cheap ammonium sulphate that he uses on his cotton field was made possible by the Haber process for synthetic ammonia? These are old applications of this process.

More recently the chemists in this field have developed methods of economic importance for the manufacturing and for the extremely efficient purification of hydrogen. This is something that is very important in this locality. We have large quantities of vegetable oils, peanut or cottonseed, which can be hydrogenated into white edible solid fats, so much in demand for shortening and other culinary purposes. This process requires the use of finely divided nickel as a catalyst, and is the result of the classical researches of Paul Sabatier, the greatest student of this field.

There is still more progress in this field. Catalytic prevention of corrosion in metals and alloys is a factor of vast importance. In the manufacture and interconversion of various hydrocarbons, to which class belong important substances as natural gas, gasoline, kerosene, and lubricating oils, the problems involved are fundamentally those of catalysis. The problem of cheap wood alcohol as used as an industrial solvent was solved over a year ago by a catalytic process invented by a German. The researches conducted at the University of London indicate a similar solution for "good-natured alcohol." A catalyst is something the merest trace of which will accomplish the conversion of infinitely large quantities of the substances undergoing reaction, producing the desired products in a most efficient and expeditious manner.

Opinions
With eager heat, from morn till night,
We argue loud and long;
O friend, we cannot both be right,
But we may both be wrong.

Perseverance Gets Anyone Thru School Says Dean Taylor

(Continued from page 1)

causes and values. I want to make the one life count," said Dr. Taylor. "The man who has to work while in college is more fortunate than the man who has two or three times as much money furnished him than he needs to meet his expenses," Dr. Taylor said. "I have lived while in college on one dollar per week for board, doing my own cooking and housekeeping. I worked for fifteen cents per hour at times, and before going away to school had worked for fifty cents and one dollar per day on Iowa farms. The handicapped child is the one who is reared in a mansion and sent to college under the most luxurious conditions and not forced to work. At times in my college life," Dr. Taylor stated, "it seemed

STUDENT ENROLLMENT SHOWS BIG INCREASE

Majority of Students Prefer Engineering As Their Profession

Enrollment by schools at N. C. State shows that the majority of students prefer engineering as their profession, as 674 are entered in the nine engineering departments. There are 201 in agriculture; 205, education; 421, science and business; 138, textile; 89, graduate.

Final enrollment figures as announced today disclosed the fact that a grand total of 7,631 students in all departments, including extension work, are making use of the educational facilities at State College.

An increase of 333 students who are securing college credits is noticed in the 1928-29 enrollment, over the same class of figures for last year. There has been a marked increase in the number of resident students for this year, the number jumping from 1,530 for the year 1927-28 to 1,863 for the year 1928-29, including extension classes in Raleigh. There are 89 graduate students, 184 seniors, 266 juniors, 356 sophomores, 749 freshmen, and 53 special students.

Short-course students, who receive no college credits for their work, number 32 in beekeeping; 54 in electrical metermen, and 61 in poultry. The nonresident students are divided as follows: 129 in correspondence for college credit; 3,117 in practical agriculture; 189 in Johnston, Wilson, and Craven County extension classes.

There were 336 students enrolled in the regular summer school term of six weeks, plus 22 in cotton classing courses. The vocational agriculture teachers attending short courses numbered 110; 1,137 farm men and women; 305 farm girls; 120 farm boys; 30 girl and boy leaders; 185 young farmers, and 96 in soils and fertilizer study.

very hard for me to make it, but now I am glad that I had to work my way through school."

"Extra-curricular activities are the next most important thing to working while in college," said Dr. Taylor. He made his letter in football, basketball, and track, and says that every man should devote some time to activities other than his studies. "The main purpose of college, anyway," he said, "is to learn to live life at its fullest and putting the most into it, thereby receiving the most from it."

Red Masquers' Club To Present Drama At Raleigh High

(Continued from page 1)
ful guidance of Mr. and Mrs. H. J. Oberholzer and Prof. C. C. Cunningham. The scenery is completed and the costumes and props have been secured. "Work has been hard, the characters have been practised every night for the past three weeks. Even though it is our maiden attempt to produce a drama at this technical school, nevertheless we believe we are going to give the public something really worth while. No trouble or expense is being considered. Approximately three hundred dollars is being spent on the production," says Mr. Oberholzer.

An extensive advertising campaign is on and large posters have been placed in the most conspicuous places in Raleigh.

The patronage of some of the most prominent men of the state has been secured. This includes Governor O. Max Gardner, Hon. Josephus Daniels, General Albert Cox, Mayor E. E. Culbreth, Dr. E. C. Brooks, Dean B. F. Brown, and Major C. C. Early.

Tickets are on sale at the California Fruit Store on Fayetteville Street, the Sir Walter Drug Store No. 2 in Hayes-Barton, and the College Court Pharmacy on Hillsboro Street. Price of reserved seats is one dollar; all other tickets sell for fifty cents.

8395 Decisions Favoring This Smoke

Ipswich, S. D., Sept. 4, 1928

Larus & Brother Co., Richmond, Va. Gentlemen:

In answer to the challenge of J. J. Roberts of Columbia, S. D., as printed in the Minneapolis Journal dated Sunday, September 2nd, I have smoked Edgeworth for twenty-three (23) years and for two years previous to that time I smoked Quid, which, I believe, is manufactured by your firm.

During this time I have smoked at least one can each day, and to verify this statement you may address the C & C Cafe of this city, where I make my tobacco purchases.

It may be interesting to know that my purchases of Edgeworth during this period have totaled more than 8395 (eight thousand three hundred ninety-five) cans, representing a total expenditure of more than \$1259 (twelve hundred fifty-nine dollars).

I have never smoked any other brand of tobacco but Edgeworth during the twenty-three years.

Yours very truly,
(Signed) Chas. Bostock

Wolfpack Defeats Old Liners 11-5 In Diamond Meet

State College started off good on their road trip by licking the University of Maryland 11-5 last Monday.

State jumped into the lead in the first inning by counting one run. They duplicated the feat again in the third and counted three in the fourth to take the lead that was never headed by the Marylanders.

Another big cog in the State College victory was Charlie Eaton, diminutive Tech catcher.

Maryland's work afield was ragged, no less than six errors being chalked up against them, while State batted only one ball.

Table with columns: N. C. State, Maryland, McGann, Kay, Bobbitt, Radtke, Higgins, Gaylor, Tansil, Hetsel, Kessler, Jones, Derr, Phipps, Demare, Hess, Lombard. Rows show runs, hits, errors.

Totals: 45 11 18 26 10 1. Maryland: 3 1 0 3 2 0. McGann, c: 3 1 0 3 2 0.

Summary—Two-base hits: Eaton, Kay. Home runs: Averette. Stolen bases: Eaton. Struck out: By Averette, 13; Phipps, 1; Hess, 2. Umpire: White.

COACH GUS K. TEBELL ENDORSER OF SPRING FOOTBALL PRACTICE

Gus K. Tebell, head coach of football at North Carolina State College, is an ardent supporter of the spring football practice custom among Southern Conference teams.

"Six weeks of workouts each spring is absolutely necessary for us," he said last night in commenting upon reports that some coaches are opposing the early training programs.

"Due to the fact that we get so many younger players who are 'green' at the game, we find that early training is essential. It gives us some kind of an idea as to what to expect the following fall.

"When a squad numbers several veterans, in addition to reserves and rising sophomores, the practice of permitting the old men to engage in other activities and devoting full attention to the youngsters has been used successfully by many coaches."

Mrs. Levinsky: "My Rebecca has an A.B." Mrs. Levy: "Well, my Rowena has an Ikey."

For many years John Wards have been the college man's shoe. Here you may select, from a variety of styles, those which particularly suit your individual taste.

Baseball: State Freshmen vs. Campbell College. Riddick Field at 3 p. m.

TECHLETS EASILY TRIM BABY DEACONS 13 TO 3

Cliff Morris and John Medline Feature in Freshmen Victory

By FRED DIXON Showing thirteen hits off three pitchers in the way of an offense and playing steadily behind the pitching of Cliff Morris as defensive contribution, the State College yearlings walked off with a 13-3 victory in their baseball battle with Wake Forest on Riddick Field Monday afternoon.

The Baby Deacons sent first in the third inning, when they counted one run across the plate, but State came back in their half of the third and counted three runs. Not satisfied with this two-run lead, State cracked out seven hits in the fourth frame for the same number of runs. This onslaught sent State to the showers, Wrenn relieving him, but found things just as bad, and he gave up the huriling job in favor of Taylor.

Taylor set the next Tech batters down in order until the seventh and eighth innings, when three more runs were shored across the plate to end State's scoring for the day. Wake Forest brought her total to three in the eighth, when they counted two runs.

Yale University Man Is Selected Winner In College Drama Contest

Leo Bryan Pride, Yale University, has been adjudged the winner of the \$1,000 prize in the college drama contest sponsored by the Graham-Paige Legion, an honorary organization of employees of the motor car company. Pride, who resides at 195 East 36th Street, Los Angeles, completed his course at Yale last June.

Grover A. Whalen, police commissioner of New York City; Zoe Akins, one of America's best-known dramatic writers, and Norman-Bel Geddes, the noted artist and designer, were the judges of the contest, which sought to obtain the best dramatization of the spirit of the Legion, and its ideals of honor, integrity, and unity of purpose.

There were 67 entrants from colleges in America and Europe, and the manuscripts submitted included plays, sketches, pageants, and nearly all other forms of dramatic expression.

The ten additional awards of \$100 each were allotted by the judges to the following students: Baylor University, Waco, Texas—Mrs. Felicia Applewhite, a resident of Canyon, Texas. University of Pittsburgh—Miss Martha Alice Brown, 5373 Beeler St., Squirrel Hill, Pittsburgh, Pa. Southwestern College, Winfield, Kans.—Claude Keltner, 1507 East 2d Avenue, Winfield. Oregon Agricultural College, Corvallis—William King, Corvallis. Marietta College, Marietta, Ohio—Paul E. Sheldon, Marietta. Mount St. Joseph College, Chestnut Hill, Phila.—Miss Marion Spiwack. Northwestern University, Evanston, Ill.—Darrall Ware, 2127 Ridge Avenue, Evanston. Harvard University, Cambridge, Mass.—Robert H. Weatherhead, 13 Holworthy Hall, Cambridge. Rockford College for Women, Rockford, Ill.—Miss Dorothy M. Westphal, 409 Eleventh Street, Sterling, Ill. University of North Carolina, Chapel Hill, N. C.—Miss Mary Margaret Wray, 319 W. Hargett Street, Raleigh.

"What is your brother in college?" "A halfback." "I mean in studies." "Oh, in studies, he's way back."

WILDCATS EAT WOLVES IN FIERCE GAME OF ERRORS

Numerous Mistakes Spell Defeat for State's Bad Bingle Boys

The Davidson Wildcats took advantage of the N. C. State College's erratic fielding in a game on Riddick Field last Friday afternoon and romped off with an easy 7 to 3 victory.

Errors were numerous, nine of them being registered against the Wolfpack during the afternoon. Davidson counted three runs in the eighth on two hits and three errors, to clinch the game.

State counted two tallies in the opening session on singles by Furtado and Hargrove, and a double by Brake. State slipped into the lead in the sixth on Albright's triple and Woodworth's single. The eighth frame proved to be the "Waterloo" for the Pack, when the Wildcats annexed their trio of runs.

Buck Morrow, the Davidson hurler, allowed seven hits during the afternoon, while Allgood was touched for ten.

Line-up: Davidson: Ab. R. H. O. A. E. Ratchford, cf. 4 1 2 2 0 0. Marks, 3b. 5 0 0 4 2 0. Goodson, 2b. 5 0 1 2 3 1. Proctor, rf. 5 2 2 0 1 0. McKinney, lf. 5 2 2 0 0 0. Armfield, c. 5 1 0 4 4 2. STATE FRESHMEN WIN OVER CAMPBELL 5-4 WHEN PITCHER BALKS

A certain young chap by the name of Fred Blount went to sleep out on Riddick Field Wednesday afternoon, forgetting that a balk while pitching a game would send a runner home if located on third base. It was this balk that gave the State Freshmen a 5-4 victory over Campbell College in a ten-inning baseball affair.

It looked like State would have to take defeat for her afternoon's work, as Campbell was leading three to nothing until the seventh, when State sent three runs in the ninth, to tie the count at four all, Campbell having scored one run in the eighth, and then won the game in the tenth on Blount's balk. Blount having relieved Martin, who found rather hard going when the Techlets got their sticks working.

John Medline came in for State honors, his all-around good playing featuring for both teams. Many seeming hits off the State bats were robbed by the fast outfield presented by Campbell College.

Score by innings: R. H. E. Campbell . . . 101 100 010 0-4 8 6. State . . . 000 000 103 1-5 6 5. Batteries: W. Martin, Blount, and Bethune; Jennette, Scott, and Medline. Umpire: Ray Sermon.

DURHAM GOLFERS LICK GREEN STATE LINKERS IN PREMIER CONTEST

State's new golf team met defeat Wednesday at the hands of the Duke linksmen by a score of 16½-1½. This was the first intercollegiate meet in which State has participated, golf having been adopted as a minor sport here recently.

Captain Jennings of Duke came in ahead with a 38-35 for a 73, one over par.

State had three stars in the meet, namely: Murray, Shepard, and Mott. Shepard had a 7 for the best ball of the visitors.

STATE COLLEGE WOLFPACK LOSES TO V. P. I. 6 TO 4

Shore Lets Virginia Poly Down With Nine Hits, But Loses 6-4

The State College Wolfpack dropped its second game on successive days when the Virginia Poly Tech nine nosed out a close 6-4 win on Riddick Field last Saturday afternoon.

State hit safely 13 times to the 9 registered by the Gobblers, but failed to bunch their bingles at the critical moments.

State jumped into the lead in the first session when Woodworth scored on a double by McLawhorn. Tech tied the score in teh third on singles by Mapp and Logan and a sacrifice by Dozier. A triple by McEver and a single by Coffey sent them into the lead in the fourth. They added two more in the next inning when a single by Rule scored Logan and Tomko.

State scored three times in the sixth on hits by Clarke and Furtado, who scored on Shore's double to left field. Woodworth stole home in this frame. The Gobblers' score in this inning came when Dozier's single scored Mapp.

V. P. I. scored again in the eighth when Mapp's single slipped through Woodworth's legs and enabled the runner to make a complete circuit of the sacks.

Line-up: V. P. I.: Rice, ss. 4 0 0 1 4 0. Logan, lf. 5 1 1 1 0 0. Tomko, 3b. 5 1 1 1 0 0. McEver, c. 4 0 1 7 0 0. Rule, cf. 4 0 0 3 0 1. Coffey, lb. 4 0 2 7 0 0. Wood, 2b. 3 0 0 2 2 0. Mapp, lf. 4 3 2 1 0 0. Dozier, p. 3 0 1 0 2 0. Totals: 35 6 9 27 10 1.

Summary—Runs batted in: McLawhorn, Rule (2), Coffey, Logan, Dozier, Furtado, Shore. Two-base hits: McLawhorn, Furtado. Three-base hits: McEver. Stolen bases: Seal (2), Coffey, Clarke, Woodworth, Albright. Sacrifices: Seal, Rule, Dozier. Double play: Mapp and Coffey. Left on bases: V. P. I., 7; State, 8. Bases on balls: Off Shore, 2; Dozier, 3. Struck out: By Shore, 7; Dozier, 4. Wild pitch: Shore. Passed ball: Eaton. Umpire: Dayton, Piedmont. Time of game: 2:04.

STATE COLLEGE LOSES TO VIRGINIA ON TRIP

Ellis Lets Doak's Outfit Down With Three Hits in 7-2 Victory

Chick Doak's baseball team, known as State College, hit their first bump on their road trip last Tuesday, when the University of Virginia won a 7-2 victory over the North Carolinians at Charlottesville, Va.

State found the slants of Ellis, on the mound for the Cavaliers, hard to solve, and when the game was over they were still wondering what he had on the pellet, as they could collect only three hits off his delivery.

State had many chances to score, but lacked the needed punch. In the sixth, with two runners on bases and none out, Ellis fanned Albright, Furtado, and Clark, in succession. Again in the seventh, with the bases full and only one away, a double play killed the hopes of State once more.

Holland, first man to face Sandy Shore in the first inning, slapped a triple into left field and scored when T. Brown hit a single. Virginia scored again in the third and sixth, but found their big inning in the seventh, when four hits, including a double by Lewry, sent three runs across.

The fielding of Clark and Furtado, of State, featured for the Carolinians.

Line-up: N. C. State: Hargrove, lf. 3 0 0 1 0 0. Eaton, c. 3 0 0 0 0 0. Woodward, cf. 1 0 0 0 0 0. Brake, rf. 4 0 0 1 0 0. Albright, 2b. 3 0 0 0 3 1. Furtado, ss. 3 0 0 4 3 1. Clark, lb. 4 0 0 11 1 0. Shore, p. 1 0 0 0 0 0. Hunucker, p. 1 0 0 0 0 0. Seal, 3b. 1 0 0 0 1 0. McLawhorn. 1 0 0 0 0 0. Totals: 30 2 3 24 8 6.

Line-up: Virginia: Ab. R. H. O. A. E. Holland, 2b. 5 1 1 3 1 0. T. Bowen, rf. 3 1 1 1 0 0. Shore, p. 1 1 2 0 1 0. April, c. 3 2 2 4 0 0. Sloan, cf. 3 2 1 1 0 0. Brzd, lb. 2 0 1 0 0 1. Randolph, 3b. 2 0 1 0 0 0. Dent, ss. 3 0 0 1 0 0. Ellis, p. 4 0 0 0 7 0. Totals: 31 7 27 12 2.

Summary—Two-base hit: Lewry. Three-base hit: Holland. Sacrifices: Furtado, Seal. Stolen bases: Seal, T. Bowen, April. Double plays: Ellis, April to Byrd; Furtado to Clark. Struck out: By Shore, 2; Ellis, 4. Bases on balls: Off Shore, 4; Ellis, 8. Hits: Off Shore, 7 in 7 innings; Hunucker, none in 1 inning. Sacrifice fly: Eaton. Hit by pitcher: By Hunucker (Dent); by Grove (T. Bowen). Wild pitch: Ellis. Umpire: Green.

After all's said and done, the pleasure you get in smoking is what counts

CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE Camels are made of the choicest tobaccos grown. The Camel blend of Domestic and Turkish tobaccos has never been equaled. Camels are mild and mellow. They do not tire the taste. They leave no cigaretty after-taste. Camels have a delightful fragrance that is pleasing to everyone.

Our advertisers were solicited with the purpose of putting before you dependable shopping points. Remember this, and feel perfectly safe in guiding your shopping by THE TECHNICIAN.

MEDLEYS

We notice some boners in *The Twig* proudly quoted as being from "some real witty people here in our midst." Anywhere else such people are just plain dumb.

We are wondering why it is that the State "Ag" students are being allowed to "check" the Meredith campus again. We are sure the girls had nothing to do with it.

The work of the new TECHNICIAN staff is indeed encouraging. If it is continued, we hope to see a semi-weekly on the campus next year that will keep twice as large a group of men busy.

The question of abolishing the freshman cap has attracted the notice of quite a few colleges. The general opinion seems to be to "keep them." Outside criticism is usually unbiased, especially when the opinions are unanimous.

Speaking of class-out fines, here's what the *Cornell Daily Sun* says: "This move is not only contrary to the still prevailing standard of higher education, that learning is not to be measured in dollars and cents. It seems quite incapable of producing the results desired."

Pleading for a man's life doesn't seem to do any good these days. The electric chair has taken its ninety-seventh victim in our State. We wonder when electrocutions will be made public. They would be much more effective. It's not such great fun to see a man's life knocked out of him by 1,800 volts of electricity.

POLITICS

In the last elections held on the State College campus the Australian ballot was used. Do the men here know that it is directly against the rules of this ballot to try to influence votes within 50 feet of the polls?

Seemingly they did not. A number of men were openly attempting to secure votes for their candidates, regardless of this rule. They were not freshmen, either. Some of the highest standing men on this campus were doing some fine little bits of "politicking" ten feet from the polls. The men who should be examples for the school surely fell down here.

The greatest vote in the history of State College was polled, it is true, and for this very reason we should make this system of balloting an honorable one. Its very nature is honor—fairness to all. Why start it downhill so soon? Why not let the underclasses do it if it has got to be? Surely it is no record for a senior to have, or a junior. We are asking you to help make the Australian ballot at State College an honorable one.

We are not against "politicking." If there is a man you believe

should be placed in office, get out and work for him, but keep outside of the 50-foot limit while you are working. Give the other fellow as big a chance as you are giving your man. He may deserve the office, also.

Student Forum

TENNIS

One of the greatest evils on this campus is the old practice of robbing Peter to pay Paul. This practice has been going on at school ever since the foundations of Watauga Hall were laid. This seems to me to be an evil that could and by all means should be corrected to some extent. What I refer to is the taking of money from one department to make up for the deficit in another.

That may be all right, but there is no use in robbing one department all of the time. The budget system is used at this college, but is not used discreetly. Especially in athletics has the school been robbing tennis to pay baseball or some other sport.

Each year the school has put a small amount to tennis on the athletic budget. All well and good. When it comes time to use the money toward the betterment of tennis the athletic committee finds that they are losing money on baseball or some other sport. So far as that goes they always will.

Two hundred or more boys that play tennis must suffer because we do not make money on baseball games.

It takes about twenty men to make up the baseball team. At least one hundred men play tennis here, and more would play if they had courts to play on. It seems that these hundred men have to give up their sport so twenty men can have theirs. Baseball will draw a larger crowd, and who wouldn't rather see a baseball game than a tennis match, you say. Maybe so, but the men that want to play tennis are due some consideration.

Can you imagine a school that is not crowded for land, that has an enrollment of 1,700, and does not have a single tennis court that is fit to play on. Such a condition is reflected in the minds that are held up as progressive.

The school may be progressive in some lines, but in others it is just where it started. To be a progressive and well-rounded school all departments should advance together. It seems that the tennis end has been dropped from faculty interest.

A tennis team has been struggling along here for several years with little or no help from the school. The boys on this team have not won many matches—and you may laugh, but there is just as good material here as in any other school. Lack of courts to play on is where the blame lies for the loss of the majority of these matches.

Can't a little interest and cooperation come between the faculty and the tennis department? It is high time to stop taking money from tennis to pay off deficits in other departments. Take it from some other department at least once, rather than from tennis all of the time—and such a meager amount it takes to keep up a few good courts!

SPEAKING OF THE FACULTY

I believe that the whole student body will agree with me when I say that some of the professors here are just as capable as any in the state. On the other hand, I believe that every one will admit we have several teachers who are liabilities to the state and bores to their students. It is not my purpose to attack the character of any one, but I am questioning whether all the instructors here are worthy of a place on the faculty, due to their lack of ability and interest.

There is a professor here who spends at least half of the period talking about how much he can eat, how he deplores getting up to meet an eight o'clock class, how much whiskey his brother can drink without passing out, and other subjects of this nature. The remainder of the period is devoted to the discussion of the lesson. This particular course cannot be mastered in this short time.

The greatest criticism to be brought against these uninspiring professors is that they give very little time to the preparation needed for their classes. If any. Using their lecture notes of by-gone years, they transfer the same knowledge from their notes to the notebooks of their students year after year. It would be much cheaper for the state to record these ancient lectures and give them to the students from a phonograph record. Some of these motivators of sleep use many narratives in their lectures. This is not an unworthy idea except when the same story is told three or four times to the same class. You see what I mean—it loses its freshness.

I am not blaming the professors for everything that goes wrong on the campus, because it is quite obvious that trying to educate some of these students here is a "noble experiment." On the other hand, I am quite sure the reason for many boys making a failure of college life is that the pro-

TICKS & POLITICS

By M. A. SQUARE

We see where they are making a banker out of Al Smith. Can you imagine a leader of the Jeffersonian and Jacksonian democracy at the head of a Hamiltonian bank in New York City?

If in the United States we cannot convict "more than ten million dollars," in this case incarnated in Harry F. Sinclair, of bribery and theft, it now appears that we can send it to jail for three months for contempt of the Senate. We suppose Sinclair wishes that he had tried Stewart's method of deceiving the Senate instead of defying it.

It is very strange that neither political party mentioned finance during the recent campaign, but now the Democrats are in dire need of more finance.

In Argentina the legislature recently passed a law that will keep out \$178,000,000 worth of American-made automobiles, because we have an unjust tariff on their corn, which is used only as bird-food, and it amounts to only \$1,000,000 annually. Seemingly we are cutting off our nose to spite our face. Why lose \$177,000,000 just because of an unfair law?

In a recent election held in Italy, Mussolini got 99 out of 100 votes that were cast. We suggest that Chairman Raskob study the system.

From all reports, the textile strike in North Carolina is serious. But why are the North Carolina Senators and Congressmen opposed to a Senate investigation? Why is the majority of the North Carolina press opposed to such an investigation? Are the conditions so horrible that the Senators, Congressmen, and newspapers do not want the naked truth brought before the eyes of a critical public? In the name of common justice, let's have the truth. Let the wide world know the conditions, and maybe some of the existing evils will be forever banished from our glorious commonwealth.

If the pending farm relief bill is passed, no immediate relief can come to farmers, and no relief can farm under the bill until 1930. Is that farm relief?

We are reminded of an old couplet: "Mother, may I go out to swim? Yes, my darling daughter; Hang your clothes on a hickory limb, But don't go near the water."

We notice that Calvin Coolidge has gone below the average dignity of an ex-President by writing for the Hearst papers, but it is reported that Alfred E. Smith is going to write a series of political articles for the Saturday Evening Post, which to our way of thinking is equally as bad.

The best thing that the present administration has done, so far, was to back the Federal Government of Mexico.

According to Norman Thomas, the Democratic party may be dead, but it won't be buried until a strong Socialist party forces a coalition of the two conservative parties.

President Hoover has said a great deal about law and lawlessness. Law is ideal. Lawlessness corrupts politics and eats like a gnawing cancer upon the very vitals of our government.

Before the election Governor O. Max Gardner was in a very peculiar situation, and he reminds us of the fact in an interesting manner: "I have been somewhat in the condition of the fellow in Georgia who swallowed an egg. He swallowed it whole. He was afraid to move for fear it would break, and afraid to sit still for fear the thing would hatch." Your columnist is in a similar situation when it comes to this writing.

Professors do not take enough personal interest in them. I know of a boy's attitude toward college work being changed entirely because a professor gave him some individual assistance. Unless these professors about whom I have been talking improve themselves by going to summer school and by studying, I believe personally that the college would achieve just as much without them. What do you think?

H. C. GREEN.

MILLER PRAISES JUNIORS

I am happy to see the junior class of this year adopt a "blazer" for the next year's senior class. It is the first step in a much-needed direction—that is, class pride and spirit. This pride has been sadly lacking for the past few years, not only in the classes, but in other organizations on the campus. Spirit and loyalty in an or-

Now is the time

ganization will spread itself into competition in college affairs. It is this friendly but spirited rivalry which in the end spells efficiency and progress.

I am looking for the same senior class to "light" the way next year to a class spirit which takes a lead by the example set, that carries a kick and a get somewhere in it.

J. F. MILLER.

Sophomore: "Would you marry for money?"

Freshman: "I don't know, but I have a sacred wish that Cupid would shoot me with a Pierce-Arrow."

ELECTRICITY—
the modern prospector

A STOUT heart; a burro laden with pick, shovel, and the bare necessities of life; and the prospector was ready for the gold rush—Sutter's Mill, the Pike's Peak country, Cripple Creek, Klondyke. A scattered trail of half-worked claims marked his sacrifices.

To-day mining is a business, with electricity replacing wasteful brawn in mine and mill.

The deep mine, with electric lights, hoists, and locomotives; the surface mine with huge electric shovels scooping up tons of ore in a single bite; the concentrating mill with its batteries of electrically driven machines; the steel mill with its constant electric heat—here are but a few of electricity's contributions to the mineral industries.

So in every industry, electricity increases production and cuts costs. It is the modern prospector, leading the way into wider fields and tapping undeveloped resources—that we may enjoy a finer civilization and a richer, fuller life.

GE

You will find this monogram on powerful motors that drive heavy mining machinery and on tiny motors that drive sewing machines. Both in industry and in the home it is the mark of an organization that is dedicated to electrical progress.

GENERAL ELECTRIC
GENERAL ELECTRIC COMPANY, SCHENECTADY, NEW YORK

WELTMER PRESIDENT ENGINEERS COUNCIL FOR YEAR 1929-1930

W. W. Weltmer, Asheville, junior in electrical engineering, was elected president of the Engineers' Council, and "St. Pat." for the year 1929-30, at a very enjoyable banquet held in the Carolina Hotel on the evening of Friday, April 26, in honor of the members of the new and retiring council.

T. G. Smith, New Bern, junior in mechanical engineering, was elected to fill the vice-president's chair, with J. A. Broadwell, Selma, C.E., handling the secretary's position, and E. G. Couch, Darlington, S. C., treasurer.

A. McK. Greaves-Walker acted as toastmaster and introduced the speakers of the evening, including Dr. E. C. Brooks, who reviewed the progress of the School of Engineering during the last forty years; Dr. W. C. Riddick, dean of engineering; Professor A. F. Greaves-Walker of the department of ceramic engineering, and Professor W. J. Dana of the department of mechanical engineering.

The following members of the faculty were elected as faculty advisers: Professor A. F. Greaves-Walker; W. J. Dana; E. E. Randolph, chemical engineering; L. E. Wooten, civil engineering; R. S. Fouraker, electrical engineering, and J. D. Paulson, architectural engineering.

The Engineers' Council is made up of outstanding students in their respective departments, as follows:

- Architectural Engineering: D. C. Abe, '31, Hickory; G. E. Sullivan, '30, Raleigh.
- Ceramic Engineering: J. R. Parsons, '30, Hendersonville; E. G. Couch, Jr., '31, Darlington, S. C.
- Chemical Engineering: E. H. Harwood, '30, Winston-Salem; C. L. Clark, '31, Winston-Salem.
- Civil Engineering: J. M. Johnson, Jr., '31, Raleigh; J. A. Broadwell, '30, Selma.
- Electrical Engineering: W. W. Weltmer, '30, Asheville; H. W. Horney, '30, High Point.
- Mechanical Engineering: T. G. Smith, '30, New Bern; J. W. Halstead, '31, Norfolk, Va.

Hell hath no fury like a man misquoted.

Don't miss "Eternal Love." John Barrymore's long-awaited United Artists triumph is coming to the STATE next Monday, Tuesday, and Wednesday.

Rich in romance, stark drama, humor, and spectacle, "Eternal Love" easily ranks among the finest pictures ever made. Barrymore gives a flawless performance in his character of the untamed mountaineer whose amorous adventures leave tragedy in their wake. He is surrounded by a brilliant cast—Camilla Horn, Mona Rico, Victor Varconi, Hobart Bosworth, Bodil Rosing, Evelyn Selbie—that consistently maintains in supporting portrayals the high standard set by the acting of Barrymore and the direction of Lubitsch.

The story is laid in Switzerland, high in the Alps, among the towering peaks, where the characters constantly battle the forces of Nature and their own primitive passions. Barrymore, the village ne'er-do-well, loves a spiritual wife of girl who becomes the wife of another man. The mountain code forces him into a loveless marriage with a girl who in America would be classified as a gold-digger. His heart still belongs to his first sweetheart, whose jealous mate plots against the life of the man he believes is breaking up his home.

Screen story traditions are shattered in the way Lubitsch builds up the daring story to an unexpected ending after the mountaineer has left his own wife, slain the husband of his sweetheart in a duel, and escaped with her into the wilderness.

The beautiful yet tragic tale is relieved by many touches of comedy and gaiety, especially in the carnival scene, one of the highlights of "Eternal Love."

A Fox movietone, news, and three acts of vaudeville will be presented on the same program.

"The Carnation Kid," starring Douglas MacLean, is the first motion picture with talking sequences running throughout to have a typical movie action. By that it is meant the picture is featured with thrilling action from the very first sequence, keeping at a high pitch on the final fade out, according to the Christie Corporation, producers of the picture. This talking comedy-drama will open at the STATE Theater on Thursday, continuing as the feature attraction for the remainder of the week.

Action is the by-word of "The Carnation Kid," the producers point out, for the comedy is based on a melodramatic background in which the plot moves breezily forward through all kinds of thrilling action, with suspense held all the way through. As proof of this, it is pointed out that the action of the story takes place in forty-three different settings.

Douglas MacLean is supported in his latest film effort by Frances Lee, Lorraine Eddy, William Davidson, Francis McDonald, and other well-known film players. Alfred A. Cohn prepared the story. It's a Paramount picture.

A Paramount news reel, comedy entitled "Fight Pest" and "Sovereigns," a color classic, will be presented on the same program.

Mother: "Daughter, is that young man of yours getting anxious?"
Daughter: "I think he is, mother. When he first called, he sat all evening with a postcard album on his knees. Next time he took the French poodle on his lap, and last night little brother sat on his knee. I'm hoping it will soon be my turn."

SOIL STUDENTS RETURN AFTER TRIP TO VIRGINIA

Seven Seniors and Graduate Students Make Trip as Course of Study

The soils department of State College reports a very enjoyable trip through Virginia and the District of Columbia on an inspection tour of fertilizer plants and offices.

Seven seniors and graduate students interested in soils left April 10, in charge of Dr. W. B. Cobb and F. L. Davis, heads of the soils department, for Petersburg, Va., the first stop en route to Washington, D. C. Here they were shown through a fertilizer plant and its offices.

From Petersburg they went to Richmond, where they visited the plant and offices of the Virginia-Carolina Chemical Company. Here they saw how the different fertilizer materials were handled from the time they arrived at the factory until they were bagged and ready for shipment to market.

After visiting this plant they journeyed on to Washington. While there they visited several places of interest, among them being the laboratories of the Bureau of Chemistry and Soils, drafting room of the U. S. Soil Survey where they saw how soil maps for the county soil survey reports were prepared for the lithographer and corrected), U. S. D. A. Experiment Farm and Laboratories at Arlington, Va., and several of the important buildings in Washington.

The party started on the return trip Sunday, convinced they understood more about fertilizer plants and fertilizer works in general than when they began the trip.

RESURRECTION

The following poem, written by the famous columnist, Nell Battle Lewis, appeared in the Incidentally column on Sunday, March 31. Since then there has been much comment on this poem, and several have predicted that it will rank with the world's best and most famous poems:

The earth wheels on its mighty course around the sun, And Spring returns. Man creeps from out his cave into the welcome warmth; Sees the retreat of winter, sees new life In branches, bare so long, now tipped with buds, The reinvigoration of the soil— Promise of harvest; And lest the sun should not fulfill its pledge, Propitiates his gods with magic rites To bring fertility.

Beside the Nile Osiris, lord of Justice, love and light, Sealed in the tomb by Set, the god of darkness, Rises victorious over death, Ascends to heaven, And lives eternally.

In Greece a pine tree bears The image of dead Attis, smeared with blood. The tomb in which the effigy is laid, After a mournful night, Is empty in the dawn.

Orpheus and Mithra, slain by evil powers, Krishna and Dionysus, ancient sun-gods, All have their resurrection from the grave With the returning Spring.

And from the door of that dark sepulchre Hard by Jerusalem The stone is rolled away— A new fact in the old, recurrent figure: The immortal triumph of a matchless life

Lived among men and wholly for their sake.

So life perennially renews itself—and something more Than life which courses in the veins And with the sap; Some strange assurance of eternity To which all men respond, Expressing their response in various creeds.

All symbols of one bright, persistent truth. In vain denied by witnesses of sense: That death is swallowed up In victory.

SIREN SONG

Coach (between halves): "Say, you! What's the matter with you? Didn't I tell you to kick over the side-lines so their quarterback couldn't run the ball back? I been tellin' you that all week, but no—you gotta boot it straight down the field right in his arms, you maw-head!"

Punter: "Aw, listen, coach; I ain't got a chance. I kicked the ball the way you said every time, but that old pigskin 'ud curve in, that's all."

Coach: "Oh, I see. It was the wind, huh?"

Punter: "No, it's that quarterback. Didn't you hear him yell every time I kicked that pigskin? Don't you know he's the champion hog-caller in Iowa?"—Life.

NORFOLK BOY CADET CAPTAIN AT STATE

W. TILFORD SMITH

Smith is cadet captain of Company G of the Reserve Officers Training Corps at North Carolina State College.

His home is at Norfolk, Va., and he is a member of the senior class, majoring in civil engineering. He won scholastic honors in 1927-28, holds membership in Tau Rho Alpha, Theta Tau and Scabbard and Blade societies, and engages in intramural football, basketball, and baseball.

Laffs, Maybe--

Colonel: "The password is 'Sax'. Now, don't forget it."

Irishman: "No, I won't."
Sentinel: "Who goes there?"
Pat: "Bugs, your honor."

No wonder the little duckling Wears on its face a frown, For it has just discovered Its first pair of pants are down.

"What made you a millionaire?"
"My wife."

"Ah, her tasteful help—"
"Nothing like that. I was simply curious to know if there was any income she couldn't live beyond."

"You say he made a complete confession? What did he get—five years?"
"No, fifty dollars. He confesses to magazines."

"My son's home from college."
"How do you know?"
"I haven't had a letter from him for three weeks."

"That certainly was a timely address we had this morning."
"What do you mean?"
"All the people kept looking at their watches."

She (reading)—Is it really true that sheep are the dumbest of all animals?
He (absent-mindedly)—Yes, my lamb.

An Irishman, while walking down the street, was stopped by a gentleman who asked him for a match.

"Thank you," responded the gentleman. "You know, I am a man of importance at home. I am Sir John Bally-Burley, Knight of the Garter, Knight of the Iron Cross, Knight of the Golden Fleece, and Knight of the Eagle. And what's your name, my man?"

"My name's Michael Murphy, night before last, last night, tonight and tomorrow night, and every other night."

She (playing piano): That was Siegfried's Death."
He: I am not surprised.

Judge: What possible excuse did you fellows have for acquitting that murderer?
Jurymen: Insanity.

Judge: What, the whole twelve of you?
"Do you know Miss Bibber?"
"Certainly, for years. We used to be the same age when we were children."

"What is the greatest acrobatic feat?"
"Football, I guess."
"No. Wheeling, West Virginia, across the Ohio."

"I heard Tom was hurt. How did it happen?"
"Well, do you see that ditch over there?"
"Yes."
"Well, he didn't."

Great aches from little toe-corns grow
A dumb freshman wants to know who is this guy "Ike" that so many songs are written about—"Ike can't give you anything but love, baby," and "Ike can be good, Ike can be bad."

COURSES ANNOUNCED FOR '29 SUMMER SCHOOL TERM

Under Direction of Prof. T. E. Browne; Mrs. R. R. Smithwick Will Be Dean of Women

A full gamut of courses in the English department are being offered in the coming summer school. The courses available this summer are: Rhetoric and composition, business English, technical writing, advertising English writing, essays, short stories, Shakespeare, Victorian poetry, history and principles of journalism, magazine and feature writing, industrial news writing, public speaking, and two courses in teaching English and literature. Certain courses, such as advertising grammar, are not taught in regular sessions.

The college is offering more courses in liberal arts than ever before, along with the more technical subjects. All people attending summer school will have an opportunity to take almost any courses desired. The well-equipped laboratories will be open to all in charge of each dormitory. The cafeteria will be open for those desiring to stay on the campus.

Students planning to come to summer school are advised to consult the professors this term. The summer school bulletin is now available.

Mrs. R. R. Smithwick will act as dean of women. Accommodations for women have been made in Fifth and Sixth dormitories, with a matron in charge of each dormitory. The cafeteria will be open for those desiring to stay on the campus.

Some are class, With a racing chassis, And some are a real damned puzzle: From the shape you'd swear That they still wear The good old-fashioned bustle.

Yes, some are hot, And some are not, And some are cold as ice; And some are free As T.N.T., And others are damn nice.

But, lank and tall, Or stumpy and small, Whatever they may be, 'Tho' they're the world To their mother, They don't mean a damn thing to me!

Dean of Women (6:30 a.m.): "Young man, what do you mean by bringing this girl in at this time in the morning?"
Freshman (returning the lady friend from the Junior Prom): "Well, I got a lecture at 8:30."

Choplin Installed Council President at Meeting May 1

(Continued from page 1) interest in making a success of their system of self-government.

Choplin complimented the retiring student officers on their excellent work the past year and expressed his desire to do all in his power to carry on their fine work and to give his wholehearted support to whatever will build a better and stronger student body.

Members of the new council and house of student government are: J. P. Choplin, Winston-Salem, president; H. G. Love, Burlington, vice-president; Lee Mercer, Norfolk, secretary; W. T. Mast, Valle Crucis, treasurer; J. A. Westbrook, Norfolk; A. L. Vann, Salem; D. E. James, Laurinburg; Joe Ellis, Jr., Rameaux; H. E. Singletary, Tarheel; H. D. Pinkston, Jr., Winston-Salem; T. H. West, Seven Springs; W. F. Ottinger, Asheville; W. J. Pippin, Jr., Washington; J. B. Smathers, Canton; E. H. Roberts, Asheville; D. S. Rion, Tryon; G. H. McGinn, Charlotte; H. T. Bryder, Stoney Point; D. M. Paul, Pantejo; J. W. Crawford, Statesville; W. H. Brake, Rocky Mount; W. D. Stephenson, Swannanoa; J. B. Gurley, Rosemary; W. E. Lawrence, Scotland Neck; L. B. Brown, Pineville; J. A. Sutton, Goldsboro; G. B. Hobson, Booneville; Frank Gorham, Raleigh; C. E. Brake, Rocky Mount; C. N. Cone, Greensboro; H. W. Scheld, West Orange, N. J.; J. T. Jackson, Salem; H. Y. Brock, Norfolk; Romeo LePort, Greensboro; J. H. Linville, Kernersville, and J. E. Gill, Henderson.

The freshmen council members will be elected in the fall.

"When you go to the banquet, be sure and don't make any errors."
"Then how am I going to know when I've eaten enough?"
"Easy. I'll just make a full bow."

SOCIAL ACTIVITIES

DeMolay Dance

Raleigh chapter, Order of DeMolay, will entertain at the Woman's Club Friday of next week, with a dance as the special order of the evening.

Sigma Pi Dance

The newly-elected members and pledges of the Sigma Pi fraternity were honored at a dance given by the fraternity at their house on Chamberlain Street Friday night.

Cottillon Club Entertains

The Cottillon Club of N. C. State College entertained the younger and collegiate sets of the city Friday night and Saturday afternoon in the Frank Thompson Gymnasium.

Mr. Thad Russell, Phi Kappa Tau, is president, and Mr. Burgess Perry, Tau Rho Alpha, is secretary and treasurer of the organization, which was formed for the purpose of giving dances of high standing.

Chaperones for the dances of Friday evening and Saturday afternoon were: Dr. and Mrs. E. C. Brooks, Dean and Mrs. E. L. Cloyd, Lieutenant and Mrs. E. P. Passalunig, Dean and Mrs. Thomas Nelson, Mrs. John N. Mason, Mr. and Mrs. Ollie R. Browne, Mr. and Mrs. H. A. Underwood, Mr. and Mrs. E. S. Freeman, Mr. and Mrs. R. S. Busbee, Mr. A. F. Bowen, Mr. and Mrs. Tal Stafford, Mrs. Pattie K. Furr, Mr. and Mrs. J. F. Miller, Mr. and Mrs. J. M. Foster, Mr. and Mrs. G. H. Satterfield, Mrs. J. E. Wear, Mr. and Mrs. T. B. Crowder, and Mr. and Mrs. W. O. Honeycutt.

the gym. Jack Wardlaw and his orchestra from the University furnished the music for the three dances.

Major Early Entertains

Major C. C. Early was host to the members of the faculty and cadet officers at a smoker Monday afternoon at 4 o'clock at the college Y. M. C. A., held in honor of Majors Ralph C. Holliday and Oliver Allen, inspectors for the Fourth Corps Area of R. O. T. C. colleges.

C. C. Harrington, "Lige" Daughtridge, Reese Shore, and Henry Ricks spent the past week-end at Rocky Mount.

Fernor Hobbs, Delta Sigma Phi, a former student of State College, spent the past week-end in Raleigh.

H. P. Merriam left Friday for Winston-Salem, where he will attend to the advertising for the play "R. U. R."

Textile Fraternity Sends Many Students To Meet at Charlotte

State College was well represented at the convention of the Phi Psi textile fraternity held in Charlotte recently. Forty of the hundred and ten registered attendants of the convention were State College students and alumni.

The three southern chapters, one being the Eta Chapter of State College, were hosts at the convention. Members of the Eta Chapter of State College who attended the convention are: R. A. Fields, C. D. Forney, H. K. Houser, G. R. Howard, W. F. Isom, K. C. Loughlin, H. W. Rogers, H. W. Radisill, E. G. Spier, Henry Stokes, and Vardell Williamson.

ASSISTANTSHIP AWARDED STATE COLLEGE GRADUATE BY CORNELL UNIVERSITY

T. A. White, of Aulander, who will receive his M.S. degree in Agricultural Education this spring, was awarded an assistantship in the department of rural education at Cornell University. In winning this award Mr. White had to compete with students from almost every college in the United States.

Mr. White graduated with the class of '24. Since graduation he has been teaching school at Spring Hope, South Edgecombe, and at Craven County Farm-High School.

Your Attention is Called to These ANNOUNCEMENTS

Class Blazers

may be ordered by juniors at Student Supply Store.

Mining Engineers'

meeting will be held in the Ceramics Building, to organize a mining society, on Friday, May 10, at 7 p. m.

Civil Engineers'

spring initiation for A.S.C.E. will be held in the C. E. building Tuesday, May 7, at 7 p. m. All seniors, juniors, and sophomores desiring membership must be present. Initiation fee will be \$1. Bring a towel.

Pi Delta Sigma

to hold important meeting Tuesday night at 7 o'clock in Peele Hall, room 6.

Monogram Club

meeting Tuesday, 1:15, in Y. M. C. A. Plans for initiation to be discussed. Initiation of new men will be held at the gym Wednesday night at 7:15 o'clock. Bring \$1 and a towel.

Yellow Slicker

lost in the library on the night of April 25. Had black diamond and N. C. State sticker on back. Finder please return to THE TECHNICIAN office.

Engineer's Kit

found in the College Co-op store about a month ago. Owner may get the same by calling at Primrose Hall and identifying it.

Blue Key Banquet

date has been changed from next Friday to Monday, May 13, at the Meremont Tea Shoppe.

Chemistry Club

holds its regular meeting Tuesday night at 6:30 in Winston Hall. Everybody come and bring a visitor.

Plans For Coming Year Are Discussed By Students At Chemistry Meeting Monday

Last Monday night the Chemistry Club held a short business meeting, during which the plans for the coming year were discussed. This club was founded in the fall of 1928 by the faculty of the chemistry department and the leading chemistry students. The purpose of the club is to promote and create interest among the students of State College in chemistry.

HINKLE TELLS ST. MARY'S GIRLS OF POSSIBILITIES

Must Do the Right Thing by Their Homes as Well as by Their Societies

Prof. L. E. Hinkle, State College, delivered the chapel address at Saint Mary's School last Wednesday morning. His talk was on the present-day status of women in society, as compared with that of former generations.

Professor Hinkle pointed out the fact that woman has risen above the old idea that her appointed task was the making of a good home. He told the girls that women had gained a new freedom and had risen to a level where they could and do compete with the men of today.

Knowledge, character, and individuality have lifted her from her former state of industry, fidelity, and ignorance, said Mr. Hinkle. Responsibility and opportunities have made her come out of her retirement and take her place in the world.

The greatest problem woman has before her today, said Mr. Hinkle, is to strike a balance between her duty towards her family and towards society.

Positions Accepted By Civil Engineers Graduating In June

Practically all of the civil engineering graduating class have accepted, or have under consideration, positions when they finish. Contrary to custom, most of these men are going with the big companies. In preceding years Prof. C. L. Mann, head of the department, has placed a large number of men with the State Highway and municipal work.

R. I. Mintz, Bell Telephone Company of Pennsylvania at Philadelphia; E. B. Tate, E. D. Hubbard, and G. L. Owens, Bethlehem Steel Company at Bethlehem, Penn.; H. M. Ellis, Dougherty Training School at Batesville, Okla.; M. W. Brown, a scholarship with N. C. General Contractors Association; W. T. Smith, M. L. Barnhardt, Phoenix Bridge Co., Pennsylvania; C. P. Mason and W. C. Parish, Tennessee State Highway Commission; V. L. Taylor and S. L. Hoyle, Sanborn Map Co., Norfolk, Va.; C. E. Hibbard, probably with Southern Underwriters; A. D. Apple and W. F. Fowler, Engineering Department of U. S. Government; C. K. Little, Mississippi Flood Control.

P. E. Bragg, W. H. Jurney, T. J. Byrum, E. P. Mitchem, G. R. Alexander, H. E. Shaw, and B. F. Williams have positions under consideration, but as yet have not accepted.

Officers Elected At Society of Chemical Engineers Tuesday

E. H. Harwood, junior in chemical engineering, Winston-Salem, was elected president of the Chemical Engineering Society for the year 1929-30 at the regular meeting held in Winston Hall last Tuesday evening, April 30. G. C. Holoman was elected to fill the position of vice-president, with J. T. Thompson as secretary, J. D. Welch as treasurer, and Francis Tripp, reporter.

After some discussion on the question of the annual social, it was decided to hold it on the evening of May 16. President-elect Harwood announced the last meeting of the year would be held on Tuesday, May 14.

Wayne Co. 4-H Clubs Achievement Day Meet At Goldsboro, April 26

Led by L. R. Harrill, extension specialist in boys' and girls' club work, the 4-H clubs of Wayne County, represented by over 500 members from some 26 communities, carried out a very interesting program at their second annual "Achievement Day" exercises in Goldsboro, Thursday, April 26.

Exhibits of work done by members of the clubs were shown in the Goldsboro gymnasium throughout the day, including sewing, food posters, illustrating appropriate breakfasts, school lunches, and suppers. Prizes were awarded to clubs having the best exhibits, as well as prizes for individual exhibits.

INTER-SOCIETY DEBATE HELD FRIDAY EVENING

Stallings, Norsworthy, Gill, and Vinson Are Successful in Tryouts

R. D. Stallings, journalism student, Raleigh, and A. C. Norsworthy, chemical engineering, Battery Park, Va., were selected to represent Learner Literary Society in the annual freshman inter-society debate to be held in Pullen Literary Society hall on the night of May 3 at 8 o'clock.

J. E. Gill, textile, Henderson, and W. E. Vinson, electrical engineering, Union Ridge, were the winners in the Pullen Society tryouts and will meet the Learner freshmen.

The query for debate will be, "Resolved, That the Philippines should be immediately granted their absolute independence."

These preliminaries were some of the most hotly contested seen on the campus for a long time, and it was with some difficulty that the judges reached a decision.

Mechanical Seniors Visit Newport News And Airplane Plant

At the invitation of the Tidewater Alumni Association the seniors and members of the faculty in the Mechanical Engineering School at State College paid a visit to Newport News Shipbuilding and Drydock Company at Newport News, Va.

Langley Field was visited Saturday afternoon, where the party was shown how planes were tested for strength in construction, and how planes were assembled. In this inspection, the party had the privilege of inspecting two of the largest new passenger ships built by the company. Mr. Miller, research engineer, was the director of this inspecting tour.

Side trips were made to Yorktown, Williamstown, Jamestown, and Petersburg. The boys enjoyed a banquet given in their honor at the Chamberlain-Vanderbilt Hotel, Old Point Comfort. Mr. Sterling, superintendent of the shipbuilding shops, was the chief speaker. Many things of vital interest were discussed, especially interesting to the young college graduate who is going out into the world to take up some practical work.

Composing the group were: Prof. L. L. Vaughn, dean of the School of Mechanical Engineering; W. J. Dana, E. H. Shands, W. C. Voll. The students were: F. W. Williamson, C. H. Jourdan, B. F. Walton, W. Nixon, W. M. Pollock, T. A. Grant, P. E. Thomas, E. W. Worth, W. P. Matthews, and Geo. L. Johnson.

Too Late To Alter Plans In Commencement Exercises As Desired By the Senior Class

The Committee on Commencement regrets that the suggestion of the Golden Chain and the senior class for out-of-door exercises came too late to be put into effect at this commencement. President Brooks says that the College Board of Trustees determines the order of these exercises, and that the time is too short to allow the Trustees to act on the change to go into effect this year.

To insure the visiting relatives and friends of the graduating class getting seats in Pullen Hall, cards to the exercises Tuesday, June 4, will be issued to the members of the graduating class. Dean Cloyd will have the cards for distribution on May 27.

The open-air commencement has much to commend it. The committee advises members of the junior class, if they wish the change for next year, that they take action at once and petition the Trustees.

GAMMA SIGMA MEETING

Wednesday night the Gamma Sigma Epsilon, honorary chemical fraternity, held a short business meeting. Plans for the "hike" were completed, and it was decided to have it Wednesday, May 8, at 4:30 p. m. Also plans for the coming year were discussed, and a program was outlined.

Making love is the same as making pie. All you need is some crust and applesauce.

Architecture Dept. Holds Meeting For Beaux Arts Club

The second meeting of the N. C. State College Beaux Arts Club was held in the architectural department at 1:30 p. m. May 2, for the purpose of solving certain problems which have arisen. G. Elias Sullivan, president of the club, presided.

It was decided that the juniors and seniors shall be the regular members, the sophomores associate members, and the freshmen pledge members.

COLLEGE BAND OFFERS PROGRAM OF REQUESTS FOR WEEKLY PERIOD

Thursday evening's program of the State College Wolfpack band over radio station WPTF was in the nature of a request program, Director P. W. Price announced.

The program included numbers requested by Mr. and Mrs. Vick, of Rosemary; Mrs. C. R. Crofts, Ashboro; J. E. McGee, Rosemary, and H. D. Walker, of Frankfort, Ky., who have written they have enjoyed the programs in the past.

The program included: "The Wolfpack," "Washington Post," "Poet and Peasant," "Princess of India," "Thunderer," and "Old North State."

NORTH CAROLINA FOUND AMONG EIGHT STATES RULED BY ENGINEERS

In the United States, eight of the forty-eight governors are engineers or received their training at an engineering school.

The professional engineers are: Clayton D. Buck, of Delaware; George H. Dern, of Utah; F. C. Emerson, of Wyoming; and Morgan F. Larson, of New Jersey.

The following governors received their training at engineering schools: O. Max Gardner of North Carolina, John H. Trumbull of Connecticut, Bibbs Graves of Alabama, and Harry S. Leslie of Indiana.

In the U. S. Senate there are five men with engineering training, namely: R. B. Howell, of Nebraska; H. W. Keyes, of New Hampshire; Tasker L. Oddie, of Nevada, and Millard E. Tydings, of Maryland.

Style Hints

for the WELL-DRESSED MAN

At Pinehurst last week we noticed all the well-dressed golfers wearing the plain-colored crew neck sweater and plain-colored golf hose.

We are showing these same sweaters and hose in all the new colors.

Drink Coca-Cola Delicious and Refreshing

PAUSE AND REFRESH YOURSELF

OF COURSE IT'S NO FAIR PLAYING THE PROCTOR AND SPYING OUT SUCH A DELICATE SITUATION AS THIS. BUT THEN, WE'RE NO PROCTOR. AND WE CAN RESIST ANYTHING BUT TEMPTATION.

All of which goes to prove (if we may be excused for saying so) that the pause that refreshes is the sanest temptation which millions ever succumbed to. And to these same millions the pause that refreshes has come to mean an ice-cold Coca-Cola. Its tingling, delicious taste and cool after-sense of refreshment have proved that a little minute is long enough for a big rest any time.

The Coca-Cola Co., Atlanta, Ga.

OVER 8 MILLION A DAY

YOU CAN'T BEAT THE PAUSE THAT REFRESHES

IT HAD TO BE GOOD TO GET WHERE IT IS
