

Blue Key Honorary Frat Take In Fifteen New Men At Meeting Last Monday

Chas. H. Belvin Chosen
President of State
Chapter

RAY R. SERMON MADE
HONORARY MEMBER

Organization Now Has in the
Region of Fifty-five Active
Chapters in Various Colleges
and is Considered One of High-
est Honors Accorded Students.

Fifteen new men were taken in at the second annual initiation banquet last Monday night of the North Carolina State chapter of Blue Key, and Charles H. Belvin, Raleigh, electrical engineering student from the rising senior class, was chosen president next year of the local chapter of the national honorary fraternity. The organization now has approximately fifty active chapters, mostly in state institutions, and is generally considered the highest honor that can be accorded men on these campuses.

As running mates for Belvin there were chosen: Henry G. Love, Burlington, business junior, vice-president; E. G. Couch, Darlington, S. C., civil engineering, secretary; L. C. Vipond, Norfolk, Va., electrical, treasurer; and W. W. Weltmer, Asheville, electrical, treasurer. Professor A. F. Greaves-Walker of the ceramics department was unanimously selected faculty adviser for the honor group.

Dr. Ray R. Sermon, athletic coach and surgeon, was received as an honorary member in recognition of the untiring efforts on his part toward the betterment of the college and its athletes.

Other new men taken in Monday were: W. T. Mast, Valle Crucis; W. D. Stephenson, Swannanoa; E. H. Harwood, Winston-Salem; M. R. Vipond and L. C. Vipond, Norfolk, Va.; W. W. Weltmer, Asheville; C. L. —Continued on page 5.

ARCHITECTURAL CLUB HAS RECEIVED TWENTY BEAUX-ARTS MENTIONS

The Architectural Club of N. C. State has so far received twenty mentions of recognition from the Beaux-Arts Institute of New York City, in comparison to only two mentions prior to this year, indicating the progress the club has made this year.

Much of the credit for this must be given to Professor J. M. Edwards, who is a graduate of the Yale School of Fine Arts. Although Mr. Edwards has been out of school only one year, he is recognized as one of the foremost designers in the South.

Because of this progress the Architectural Club has been reorganized and will hereafter be known as the Beaux-Arts Club. The newly elected officers are: G. Elias Sullivan, president; T. T. Fere, vice-president; W. S. McIntyre, secretary and treasurer; F. B. Griffin, club reporter.

The club colors are gold and blue. Mr. Sullivan automatically becomes representative of the Architectural Department to the Engineers Council for the coming year, by virtue of being elected president.

The Beaux-Arts Club will have its final "get-together" banquet Monday evening, May 20, at the Meremont Tea Shoppe.

FINALS TICKETS

Stray Greeks, members of locals not in the council, and non-fraternity men who expect to attend the final dances, can secure tickets Wednesday and Thursday, May 29 and 30, ONLY at The Watauga office in the "Y" between the hours of 12-1.

State College Red Masquers Club Premier Performance Is Success

Despite the brilliant performance for the premier public appearance of the Red Masquers, North Carolina State dramatic production organization, in Capek's excellent portrayal of the extinction of the human race by machine-men of their own making in "R.U.R.", one member of the campus English department was disturbed during his nap in the audience, the firing of guns in the attack scene of the play rousing him from his slumber.

The scenery of their own making, and after many hours of tireless labor had been put on the production by the cast and technical men, the baby organization of the local campus began its program with a bang that received considerable favorable comment from many of the fair-aided audience that witnessed the play last Saturday night in the Hugh Morson High School auditorium.

H. J. Oberholzer, instructor in public speaking, with Mrs. Oberholzer as his assistant, directed the play, at times calling into consultation C. C. Cunningham, head of the forensic department here.

Following the lead of Jules Verne, Capek tried his pen at predictions and laid the scene for his drama in 1950, 1960, on Rossom's Island, in the center of some ocean which was never definitely placed.

Here the elder Rossom had experimented with the making of machines in human form and doing human work, but devoid of souls and emotions. At his death the work was carried on by

his son, who so well perfected the idea that Rossom's Universal Robots were in high demand in all quarters of the world.

Agreed by the various national governments, the robots had become familiar with the use of firearms, and through a change in their manufacture had been made more human. A universal revolt and massacre of all the human race inevitably resulted, until all that remained were in the factory on Rossom's Island.

Here genius homo made his last stand, to be overcome finally by the amassed hordes of the machine-men. Of all the group only one was spared, Alquist, general manager of the works, played by George R. Alexander, who gave an excellent portrayal of how it felt to be the last man on earth. From him the robots demanded the secret of their manufacture, and he spent days and nights in experimentation.

Alquist's only hope of reviving humanity lay in Helena and Primus, robots who had been so perfectly made that they had turned entirely human. He sent them out to repopulate the face of the earth. Helena was played by Josephine Richards and Primus by John White.

Henry Domain, manager of the robot plant, was played by John R. Litchfield, who, with his wife, the former Helena Glory, played by Ada Spencer, was killed in the rush of the machine-men on the factory. With them also died Dr. Helman, plant psychologist. —Continued on page 5.

BICKHAM SAYS STATE OPINION ON STUDENT GOVERNMENT IS GOOD

Dr. Martin Hayes Bickham, director of research of the Committee on Social Analysis of College Communities, of Chicago, makes the statement that of all the colleges studied by him in his research work, the attitude regarding student government by the students at N. C. State is in general better than that of any other college he has visited so far.

"Student government is better understood and appreciated here than in any other college I have visited," says Dr. Bickham, "and is a direct result of the recent controversy on that subject which resulted in campus-wide discussions on student government." —Continued on page 2.

STATE ORATORS RANK HIGH IN COLLEGIATE CONTESTS

Lee R. Mercer Will Represent
This School at Meet in Asheville This Year

North Carolina has the right to claim another "first among the states." This time it is her standing in national collegiate oratorical contests.

The fifth annual Southern Interstate Oratorical Contest was held at Asheville Friday night, the winner to represent the South at the national contest in Los Angeles, California, this summer. A check over the records shows southern speakers have placed in the country-wide contests as follows:

1925—Third place, by speaker from St. Edward's College, Tex.

1926—Seventh place, by University of Virginia.

1927—First, H. J. Oberholzer, North Carolina State College. Third by Hardy M. Ray, Raleigh, State College graduate, representing the Central States Region.

1928—Allan Frew, Davidson College, won third place.

With a record of one first and two thirds, North Carolina stands first among the states in this contest, says Professor C. C. Cunningham, head of the public speaking department of State College, who had charge of the contest at Asheville, assisted by Professor A. B. Hoskins, head of the department of psychology and debate coach at Asheville Normal School.

Seven speakers entered the southern contest this year. They are: J. R. Elliott, Emory University, representing Georgia and Florida; William Smith, Centre College, Kentucky; Lee R. Mercer, N. C. State; F. B. Farr, Clemson; Maxwell Lancaster, Howard College; Gordon E. Fogg, University of Virginia; and E. I. Caraway, University of Tennessee.

Golden Chain Fraternity Initiate Twelve Seniors At Annual Tapping Here

DEDICATION

This, the last issue of THE TECHNICIAN, is respectfully dedicated to Professor Cornelius C. Cunningham, who for five years has been a member of the English department of North Carolina State College, serving as head of the forensics department. Under his guidance, public speaking has been placed on a higher plane than it has ever known in the history of this institution. For services rendered, State College can never repay him. This can only show in a small way our appreciation of his work here.

N. C. State Is One of Few Colleges to Have Separate Gym Work

North Carolina State College is one of the few colleges in the South to have a separate and distinct Department of Physical Education. It was started five years ago and in it courses were made elective to juniors and seniors, the object being to give training to those who wished to teach and coach after finishing their work in college.

Last year the classes in the department totaled an enrollment of ninety-six; this year there are one hundred and two. This is quite a number, considering the fact that only those who intend to go out as teachers are allowed to register for the physical training courses. Some of them are minoring in physical education, taking all of their electives in the physical training courses. Although some of these students are making records for themselves as athletes the larger number of students in physical education have never been on any of the athletic teams of the college.

The work of the department of physical education, under Mr. Miller, is just beginning to bear fruit. The professional courses have as a prerequisite the required courses given to all freshmen and sophomores. Because of this it was two years after the department was started before the advanced courses could be given.

Men who complete these courses go out and teach and coach in the smaller schools, and, as a rule, State College men obtain positions above the average. Mr. Miller placed six men last year. Topping the list was Jack McDowell at the city high school in Asheville; another one is Bob Evans who is making a success of his work at Garner High. Five men have been placed this year. Bob Warren will go to V. P. L. Shu Floyd goes to Black Mountain, and Fred Vaughan is expected to get a position at Morehead. Physical training is gradually taking its place in the required curricula of the schools in the State; and Miller, —Continued on page 2.

SILVER TO HEAD MONOGRAM CLUB DURING COMING YEAR

Succeeds Freddie Crum of Goldsboro as President; A. L. Vann Vice-President

At a meeting of the Monogram Club held Wednesday, May 15, G. E. Silver, junior in electrical engineering, of Bandanna, was elected president for the coming year. He succeeds Freddie Crum of Goldsboro, who graduates this year in industrial management. A. L. Vann, junior in vocational agriculture, Salomberg, was elected vice-president. W. F. Ottinger, junior in civil engineering, West Asheville, was elected treasurer. W. W. Weltmer, junior in electrical engineering, Asheville, was elected secretary and reporter.

The officers who have served for the past year are: Freddie Crum, of Goldsboro, president; E. H. "Shoe" Floyd, of Fairmont, senior in agronomy, vice-president; and John Ford, of Greensboro, senior in business administration, secretary-treasurer.

Sermon, Aydtlett, and Anthony Are Named Honorary Members

RAIN PREVENTS HAVING CEREMONIES AT TOWER

Dr. W. L. Potat Enjoined Upon
Incoming Members the Value
in Helping Establish Traditions
on State Campus That
Will Make the Community a
Better Place.

For the fourth consecutive year the Golden Chain, local senior honor society, publicly tapped twelve incoming seniors in the annual formal ceremonies in the Frank Thompson gymnasium; rain preventing it being held at the Memorial Tower, which is the usual place for these ceremonies.

New members tapped for next year are: W. E. Koonza, Wilmington; R. S. Dunham, Bladenboro; E. H. Roberts, Asheville; E. W. Buchanan, Spruce Pine; T. G. Smith, New Bern; W. W. Weltmer, Asheville; C. H. Belvin, Raleigh; W. T. Garibaldi, Charlotte; Henry Love, Burlington; Joe Ellis, Hanesport; J. P. Choplin, Winston-Salem, and A. D. Stuart, Hamer, S. C.

Honorary members named were: Dr. Ray Sermon, athletic coach and trainer; John Anthony, alumnus, and A. Laurance Aydtlett, outstanding journalist and campus leader.

Dr. W. L. Potat, president emeritus of Wake Forest College, gave the address of the evening, after being introduced by Dr. Brooks, president of State College.

Dr. Potat spoke of the various kinds of chains and their many uses. "Some people wear chains on their feet, others wear them on their brain," he said.

He enjoined the incoming members to carry on the work of good citizenship. —Continued on page 2.

COMPANY D WINS FIRST PLACE IN COMPETITIVE DRILL HELD THURSDAY

In the annual State College R.O.T.C. company competitive drill, Company D, under the command of Captain J. W. Black, won first place, Thursday noon on Riddick Field. Company C placed second and Company G third. It was not until all three companies had gone through the drills the second time that the judges finally came to their decision. The judges were Lieutenant Elms, Major Early, and Cadet-Colonel McKinnon.

In winning the company drill Company D has further established its right to be called the champion of the regiment. Only last week the first platoon of Company D won first place in the regiment platoon contest. This company has also turned out the best drilled corporal, the championship rifle squad, and a squad that took third place in the squad drill competition.

The good record turned in by this company has been made under the leadership of J. W. Black, captain; J. M. Brock, first lieutenant; E. D. Hubbard, second lieutenant, and E. H. Floyd, second lieutenant.

As a reward for having won the drill the men of Company D will turn in their uniforms, rifles, and other equipment as soon as the graduation parade is over Monday.

JUNIORS WILL GIVE SENIORS FREE SHOW

The junior class will entertain the graduating class of N. C. State College at a midnight showing of "The Desert Song" in the Palace Theater on Monday night, May 20, at 11:30 p.m. Paul Choplin suggests that the men all bring their smokes, as the show will be informal.

Faculty Athletic Committee Adopt New Award Ruling

The Faculty Athletic Committee, at its meeting April 16, adopted the rules covering the award of athletic monograms. A few additions and corrections have been made. These rules are published so that every student may see them and have a correct understanding concerning the award of monograms.

Rules for Athletic Awards

1. Right to Modify Rules Reserved.

The Faculty Athletic Committee reserves the right to suspend or modify these rules to cover special cases submitted for its consideration by the members of the Athletic staff.

2. Major and Minor Sports Classified.
(a) The major sports are football, basketball, baseball, and track.
(b) The minor sports are cross-country, wrestling, and rifle team.

Major Sports

3. Football.
(a) To earn a monogram:
A man shall play in at least one full quarter of three (3) different Southern Conference games, or of equal rank.

(b) The award is:
(1) First year: Crimson sweater (coat or slip-on) with 7x6 in. monogram.

(2) Second year: Service stripes (two).
(3) Third year: Service stripes (three)—diploma, monogram key.

4. Basketball.
(a) To earn a monogram:
A man shall play an aggregate of not less than eighty (80) minutes and participate in at least six Southern Conference games or games of equal rank.

(b) The award is:
(1) First year: Crimson sweater, white trim (coat or slip-on), with 6x5 inch monogram.

(2) Second year: Service stripes (two).
(3) Third year: Service stripes (three), diploma, monogram key.

5. Baseball.
(a) To earn a monogram:
A man must play in at least an aggregate of eighteen (18) innings and participate in not less than four different Southern Conference games, or games of equal rank. Pitchers and catchers must play in at least eighteen (18) innings of Southern Conference games, or games of equal rank.

(b) A pinch-hitter who has rendered consistent service for as much as two seasons, may, upon the recommendation of the coach, be considered for a monogram at the conclusion of his college participation in baseball.

(c) The award is:
(1) First year: Crimson sweater (coat or slip-on), with 6x5 inch monogram.

(2) Second year: Service stripes (two).
(3) Third year: Service stripes (three), diploma, monogram key.

6. Track.
(a) To earn a monogram:
A man must take part in a majority of the meets scheduled, and win at least ten (10) points in dual meets with Southern Conference teams, or teams of equal rank; a full three (3) points in the State meet; or one (1) full point in the Southern Conference meet, or one of equal rank. These rules are qualified in that "creditable time or distance must be made."

(b) The award is:
(1) First year: White sweater, crimson trim (coat or slip-on) with 6x5 inch monogram.

(2) Second year: Service stripes (two).
(3) Third year: Service stripes (three), diploma, monogram key.

7. Cross-country.
(a) To earn a monogram:
A man must take part in at least three (3) meets of Southern Conference rank, and must place sixth (6th), or better, in two such meets. Ninth (9th) place in the State meet shall count the same as sixth place in a dual meet.

(b) The award is:
(1) First year: Monogram only (5x4 inches).

(2) Second year: White sweater, crimson trim (coat or slip-on), with 5x4 inch monogram.

HENRY J. YOUNG, JR.

When State College students get ready to select a leader they are known to turn their attention to Henry J. Young, Jr., of 619 West Jones Street, Raleigh, who, in addition to his athletic prominence in two major sports, is a lieutenant and adjutant of the first battalion of the Reserve Officers Training Corps. He is one of the best known and most popular men on the campus.

"Hank" this season captained the winning basketball team, champions of the Southern Conference, and also the varsity track squad. But his athletic honors do not surpass his other leading positions. He is 1929 president of the Pan-Hellenic Council, governing body of the social fraternity, and commander of the Sigma Nu fraternity chapter. He is also a member of the campus cotillion and German clubs, Golden Chain, Junior Order of Saints, and Phi Psi, textile society. He is majoring in textile manufacturing, into which business he will go upon graduation in June.

5x4 inch monogram, and two (two) service stripes.

(3) Third year: Service stripes (three), diploma. Exceptionally meritorious service for three (3) years, at the discretion of the Faculty Athletic Committee, may be rewarded by the award of the monogram key.

8. Wrestling.
(a) To earn a monogram:
A man must compete in a majority of the matches scheduled and win half as many points as are scored against him.

(b) The award is:
(1) First year: Monogram only (5x4 inches).

(2) Second year: Crimson sweater (coat or slip-on) with 5x4 inch monogram and two (2) service stripes.

(3) Third year: Service stripes (three), diploma. Exceptionally meritorious service for three (3) years, at the discretion of the Faculty Athletic Committee, may be rewarded by the award of the monogram key.

9. Rifle Team.
(a) To earn a monogram:
It will be required that each man participate in seventy-five per cent (75%) of the team matches. It is also required that each individual must have participated in the last five (5) matches of the season.

Note 1—Monogram will be awarded to not more than ten (10) men in any one (1) year.

Note 2—All students of State College are eligible for the rifle team (non-R.O.T.C. as well as R.O.T.C. students).

(b) The award is:
(1) First year: Monogram only (5x4 inches).

(2) Second year: White sweater, crimson trim (coat or slip-on), with 5x4 inch monogram.

(3) Three years at a letter man in one sport, or two years as a letter man in two or more sports, constitute the service requirements for the award of the Monogram Key.

12. Numeral Awards (Freshman).
(a) The Faculty Athletic Committee may award the freshman numeral to the players in each sport as recommended by the respective coaches. In formulating their recommendations it is understood that the several coaches will give due consideration to the candidate's punctuality and regularity in attending practice as well as his actual participation in the various contests.

(b) Upon being awarded the numeral, a freshman shall have the privilege of wearing the crimson hat with numeral instead of the regular freshman cap.

(c) Members (numeral winners) of all freshman championship teams in the major sports may be awarded a jersey, with numeral, in the colors of the varsity sweater in that particular sport.

Brummitt Speaks At Phi Kappa Phi Dinner Wednesday

Addressing the Phi Kappa Phi honor society of State College at a dinner given at the Carolina Hotel Wednesday night on the subject "Some Recent Trends in Government," Attorney-General Dennis G. Brummitt declared that the most important trend he presented was that showing concentration of power in the State Government.

Mr. Brummitt, introduced by Dean B. F. Brown, president of the honor society, which corresponds in requirements at a technical institution to that of the Phi Beta Kappa at universities, presented a most interesting address on the recent trends in North Carolina's government, as brought about by legislation.

"Of the conditions discussed," he said, "the most important is that showing concentration of power in the State Government. Apparently the explanation is that the people distrust the ability of local governing bodies to withstand pressure for increasing expenditures. The General Assembly of 1929 was expressive of this state of the public mind. One proposed school measure would very greatly have limited the right to levy taxes voted by special tax or special charter districts."

Importance of Constitutional Officers

If a new Constitution were being written today, said Mr. Brummitt, it is probable that officers other than those named in 1868 would be mentioned, these to have charge of the newly developed functions.

Expansion of governmental activities in the past 60 years and into new fields makes it necessary to create a new mechanism, said the speaker.

"Because of the educational renaissance during the past 30 years the office of Superintendent of Public Instruction has more easily preserved its importance than these others," continued Mr. Brummitt. "But by the creation of the State Board of Equalization in 1927, and the enlargement of its powers in 1929, that department seems also to have reached the point of diminishing importance, as is likewise the case with the State Board of Education itself."

"In 1925 a step was taken toward the creation of a real Department of Justice. An additional assistant was given the Attorney-General and the attorney for the Highway Commission transformed into another assistant. In 1929 the Attorney-General was put upon whole time, his salary substantially increased, but the act was so amended that he was deprived of one of his assistants. However, the Governor has since approved the employment of special counsel by the Highway Commission. The same General Assembly of 1929 created the new position of executive counsel to the Governor."

Breaking Down of Distinctions
The most important illustration of this tendency, said Mr. Brummitt, in discussing the breaking down of distinctions between the legislative, executive, and judicial branches of government, is the power over appropriations given to and exercised by the Governor as director of the budget.

In 1925 the state went on an appropriation basis. Coupled with this was the authorization given to the Governor, as Director of the Budget, to make a horizontal cut in appropriations of all spending agencies if and when it appeared reasonably probable that current revenues would not be sufficient to meet appropriations, said Mr. Brummitt.

"In addition, under the executive budget act a spending agency must make a request of the Budget Bureau for quarterly allotments, specifying the amount and purpose of the expenditures contemplated. Although a sufficient balance in the appropriation made by the General Assembly to the agency may exist, the Budget Bureau, controlled by the Governor, may decline to allow a specific item or items requested."

"It was at this point in the operation of the executive budget act that the *News and Observer* raised the question as to the constitutional right of the General Assembly to grant such powers to an executive officer. The question was decided in favor of the Governor."

In two or more sports, constitute the service requirements for the award of the Monogram Key.

12. Numeral Awards (Freshman).
(a) The Faculty Athletic Committee may award the freshman numeral to the players in each sport as recommended by the respective coaches. In formulating their recommendations it is understood that the several coaches will give due consideration to the candidate's punctuality and regularity in attending practice as well as his actual participation in the various contests.

(b) Upon being awarded the numeral, a freshman shall have the privilege of wearing the crimson hat with numeral instead of the regular freshman cap.

(c) Members (numeral winners) of all freshman championship teams in the major sports may be awarded a jersey, with numeral, in the colors of the varsity sweater in that particular sport.

General Assembly has since convened, and the act has not been disturbed."

Concentration of Power

Indications of the concentration of power in the State Government, especially in the Governor, were pointed out by the Attorney-General, who said that in 1926, because of the need for additional court facilities, the Governor was given authority to select and appoint particular individuals as special judges to hold one or more terms of court.

As to restraints on local authority, the speaker mentioned the creation of the County Government Advisory Commission, the Department of Conservation and Development, the Sinking Fund Commission, and the State Board of Equalization.

"The definite restraints imposed upon local action, deprivation of the exercise of discretion by local bodies, and control by state agencies over such action, are of notable importance," said Mr. Brummitt.

He mentioned the strong moral influence the County Advisory Commission exercises over county affairs; the operation of the law directing the sale of land for tax payments, and the control of the Sinking Fund Commission over issuance of bonds and notes by counties and municipalities, except such as may be approved by a vote of the people.

Brickham Says State Opinion on Student Government is Good

(Continued from page 1)

He further says, "These discussions have challenged the attention of the men here and has made them think. You are now in a state where you can push forward your program as laid down by the officials in student government; you are ready for action."

A new type of approach is being set to the bottom of matters concerning student problems. One year ago in Chicago a group of eminent men used by Dr. Brickham in attempting to interested in the welfare of the college and universities of this country met and made plans for conducting a survey or social exploration of one hundred campuses in the United States. All types of institutions were to be visited and their problems studied—state schools, universities, private colleges, and denominational schools—none were to be excepted.

On the information gained a very intensive study of these schools would be made and remedies for all weaknesses would be suggested. North Carolina State College is number 18 on the list to be so studied.

About one week is spent at each college, during which time Dr. Brickham gets into personal touch with the men on the campus, through their classes, clubs, fraternities, and other groups.

There are four methods of approach in studying the college. The first is the external approach through observation. The men on the campus are observed in their different groups, daily life, and general routine. The second method of study is by student experience records. The student is asked to write on paper his impressions as received since his arrival at college, concerning the college. Such questions as this asked the students have given Dr. Brickham some very interesting and fine replies.

Where certain trends are significant and more knowledge concerning them is desired, the interview is used. The fourth method used in the survey is the group type of interview. In this interview each group of any size on the campus is visited and studied—fraternities, faculty meetings, student council, dormitories, and such.

The old and the new student councils and the faculty advisory committee met with Dr. Brickham at Powell's Cabin Wednesday night, where a genuine campers' meal was served, Dean Cloyd filling the job of chief cook. An open forum was held after the meal. Dr. Brickham answering many of the questions coming up for discussion in such a manner that many of the problems concerning student government were solved.

On the data so assembled what is known as a "Social Diagnosis" is made, out of which is presented a report to the president of the college and the people who brought the director here.

Dr. Brickham is the only man in the field at present doing this work from the Chicago office. Students have been preached to so much, says Dr. Brickham, that it all rolls off them like water off a duck's back. This method of approach gets next to them in the formative process. It is an understanding and cooperative process.

Seniors Already Receive Jobs in Selective Fields

(Continued from page 1)

graduate last year, and M.S. from Duke this year will teach physics at Pennsylvania State College next autumn.

Very few of the forty graduates in Business have as yet accepted positions. It is expected that representatives from various concerns will visit the campus during the next fortnight and sign up the majority of graduates. Courses in the Business School include accounting, finance, industrial management, and architectural courses.

Twenty-five men will complete their education in the School of Education.

Fourteen of these will graduate from the Vocational Agriculture course, eight from the High School Teachers' course, and three in Industrial Arts. Nearly all have positions, or expect to close contracts in the near future.

In Agriculture twenty-four will graduate. The nine graduates in Animal Husbandry are all placed, as are the six graduates in Poultry. In Dairy Manufacturing the five graduates are all placed. The four graduates and three post-graduates in Soils are placed in responsible positions.

Six men are to be graduated from the Chemistry course, one of whom will receive his M.S. degree. Nearly all of these have opportunities in various fields.

The Textile School will graduate thirty students, all of whom will have several opportunities to choose a position. There are more open positions in this field than there are graduates to fill them.

Golden Chain Fraternity Initiate Twelve Seniors At Annual Tapping Here

(Continued from page 1)

ship and to help establish traditions on the campus that will make this community a better place. "All the virtues for which it stands should induce its members and aspirants to reach for a fuller life of helping others."

When Dr. Poteat had finished speaking the members filed in, wearing red and white robes, and formed a circle around a small table on which was placed a chain of twelve gilded links, which is symbolic of the Golden Chain.

After a brief explanation of the purposes and ideals of the organization by Dan Hutchinson, its president, the incoming members were chosen by a slap on the back. The juniors were seated in a semi-circle near the table.

As each new member rose from the floor on which all were seated, a red and white ribbon bearing a golden link was fastened around his neck by the robed member.

When all active members had been chosen, the honorary members were read. The ceremonies were closed by the new men putting on robes. It was dark when this was over, the constitution having provided that the tapping take place at sunset.

The State College band rendered several selections at the beginning of the ceremonies. The invocation and benediction was given by Rev. M. A. Barber, rector of Christ Church. Members of this year's Golden Chain are: Joe E. Moore, H. J. Young, D. H. Hutchinson, W. A. Outen, W. P. Albright, A. B. Holden, A. M. Greaves-Walker, C. E. Hibbard, R. P. Shapard, A. T. Grant, W. V. C. Evans, and H. H. Burroughs.

State is One of Few Colleges to Have Separate Gym Work

(Continued from page 1)

as president of the Physical Education Association of North Carolina will concentrate on the effort to have a greater number of schools adopt a regular program which will reach every boy and girl in them. Already the schools in the State are calling for State College men equipped to handle their physical training problems.

The men from State accepting such positions are receiving salaries above the average, and it is thought many of the juniors and seniors who are

preparing to teach and coach after graduation will take advantage of the elective courses in the Department of Physical Education.

In the fall are offered two courses: The History and Principles of Physical Education, to familiarize the student with the field of physical training; and the Theory and Practice of Football Coaching. In the winter, Advanced Physical Training is given as a continuation of the required courses taken from the teacher's point of view. The Theory and Practice of Basketball Coaching, and Athletic Training and First Aid are also given. In the spring, Physical Training Programs for the High School, The Theory and Practice of Baseball Coaching, and The Theory and Practice of Track Coaching are given.

Next winter will see the installation of a new and valuable course, Playground and Camp Administration. This course will prove helpful to any one who intends to work with boys and girls in any form of constructive work.

STATE COLLEGE CERAMIC GRADUATES GIVEN NEW OFFICES IN THEIR WORK

David L. Stuckey, graduate in ceramic engineering in 1928, a brother of Prof. J. L. Stuckey of the college faculty, has been promoted just recently to superintendency of the sewer-pipe plant of the Pine Hill Pipe and Brick Company at Pine Hill. Mr. Stuckey has made a splendid record with his company, having been with them not more than a year.

F. Stanton Hardin, another ceramic graduate of last year, has been made vice-president, secretary, and general manager of the Richmond Face Brick Company, Inc., of Richmond, Va.

Carolina Garners Track Points In Greensboro Meet

Greensboro, May 10—"Doc" Sermon's North Carolina State College track men placed third in the N. C. Conference championship meet held in the Memorial Stadium here last Friday and Saturday. University of North Carolina carried off top honors, with 65.9 points, and gained permanent possession of the trophy offered for competition. Davidson College was runner-up to the victors.

McGinn, of State, was one of the four record breakers to perform during the two days of competition, and Saturday he set a new mark of 1:58.3 for the half-mile to erase the past record of 1:59.4, held by Evans of Carolina. Stout placed second in the 100.

"Mack" and Basil Milton placed second and third respectively in the 400. Oettinger was third in the 440. In the field events, Patterson landed third place in the shot, and fourth in the discus. Young and Edmondson were second and third respectively in the javelin. Captain "Hank" Young also placed third in the running broad jump.

The N. C. State Freshman medley relay team, composed of Floyd, Gorham, Ketchie, and Ricks, set a new State record, completing the mile in 3 minutes, 41.4 seconds.

Dupree, of Wake Forest, tossed the javelin 185 feet, 3 inches, to set a new record for this event.

"Puny" Harper, of Carolina, set a new discus mark of 136 feet, 3 inches. A running broad jump record of 23 feet 1/2 inch, was made Friday by Kinsey, of Wake Forest.

The summary—
Scores: N. C. S., 28.5 points; U. N. C., 65.8 points; Davidson, 30.5 points; Duke, 28.3 points; Wake Forest, 11.9 points.

100-yard Dash: Gay, Carolina; Stout, State; J. K. Smith, Carolina; Kinsey, Wake Forest. Time: 10 2-5 seconds.

220-yard Dash: Gay, Carolina; Stout, State; Melton, State; J. K. Smith, Carolina; Kinsey, Wake Forest. Time: 23 1-5 seconds. (Smith and Kinsey tied for fourth place.)

440-yard Dash: Harbord, Davidson; Garrett, Carolina; Oettinger, State; Harrison, Carolina. Time: 52 seconds.

880-yard Run: McGinn, State; Nims, Carolina; Woodward, Duke; Hamer, Carolina. Time: 1 minute, 25 3-5 seconds (new State record).

One-Mile Run: Woodward, Duke; Barkley, Carolina; Ashworth, Wake Forest; Wrenn, Carolina. Time: 4 minutes, 32 seconds.

Two-Mile Run: Simon, Duke; Dosey, Duke; Bascumb, Carolina; Lowery, Carolina. Time: 9 minutes, 57 seconds.

120-yard High Hurdles: Whittle, Davidson; Perry, Carolina; George, Davidson; Stafford, Carolina. Time: 15 4-5 seconds.

220-yard Low Hurdles: Whittle, Davidson; Stafford, Carolina; Perry, Carolina; George, Davidson. Time: 25 2-5 seconds.

Pole Vault: Cowper, Carolina, first, 12 feet; Neiman, Carolina, and Arnold, Carolina, tie for second, 11 feet, 6 inches; Dry, Carolina; Turner, Duke, and Jones, Wake Forest (tie for fourth), 11 feet.

Shot Put: Leftwich, Davidson, 43 feet 1 1-8 inch; Brummitt, Duke, 43 feet, 1 1-4 inch; Patterson, State, 41 feet, 5 3-4 inches; Adkins, Carolina, 40 feet, 6 3-8 inches.

Broad Jump—Kinsey, Wake Forest, 23 feet, 1 1-2 inch; Neiman, Carolina, 22 feet, 1 1-2 inch; Young, State, 21 feet, 6 1-2 inches; Stafford, Carolina, 21 feet, 5 1-2 inches (new State record).

Javelin Throw: Dupree, Wake Forest, 185 feet, 3 inches (new State record); Young, State, 176 feet, 3 inches; Edmondson, State, 171 feet, 2 1-2 inches; McCall, Davidson, 169 feet, 4 inches.

Discus: Harper, Carolina, 136 feet, 3 inches (new State record); Dameron, Carolina, 123 feet, 9 inches; Brummitt, Duke, 121 feet, 11 inches; Patterson, State, 118 feet, 10 1-2 inches.

One-Mile Relay: Carolina, State, Davidson, and Duke. Time: 3 minutes, 22 seconds.

Freshman relays:
Sprint midley (440, 220, 220, 880): North Carolina State, first; Carolina, second, and Duke, third. Time: 3 minutes, 41 4-5 seconds (new State record).

Distance medley (440, 880, 1320 mile): North Carolina State, first; University North Carolina, second, and Davidson, third. Time: 11 minutes, 25 seconds.

880-yard Relay (220, 220, 320, 220): Carolina, first; Duke, second, and State, third. Time: 1 minute, 32 4-5 seconds (new State record).

WAKE FOREST WINS OVER STATE COLLEGE BY 7-1

Deacons Move to Second Place in Big Five State Championship Race

Wake Forest College took a firm hold on second-place standing in the Big Five by defeating Chick Doak's State College nine by a 7-1 score on their home grounds Tuesday. The Wolfpack were held to five hits by Lefty Tom Lanning while he fanned seven batters.

Averette started on the slab for the Pack, but was relieved by Shore in the fourth. The Deacons got to "Sandy" in the fourth and scored two runs on a pass, a wild pitch, and a double by Gillespie. This was followed by a ground ball to Albright and Gillespie scored while the second baseman was tossing out Lanning at first.

In the next frame two singles sent Shore to the showers and Hunsucke relieved him. He walked the next batter and a hit by Gillespie scored a pair of runs. In the eighth Lassiter tripled and scored on a wild pitch. Another score crossed the plate in this same frame when Melton failed to gather in Hord's drive to right, allowing Dowlin to score.

The Wolfpack scored in the fourth when Albright beat out a bunt down third, following Snipes' triple.

Lassiter of Wake Forest and Snipes of State hit triples. Gillespie and Hord were the only players to collect two bingles.

Purtado, State shortstop, was injured when diving after a hard-hit ball in the third and was removed from the game after gamely finishing out his inning.

INTENTIONS OF DR. WARREN WELL RECEIVED BY STATE

The statement that Bob Warren, N. C. State football and basketball star, will return to college in the fall was joyously received by the student body when announced in the newspapers during the past week.

It was also made known that Warren has been offered the position of varsity basketball coach and trainer of athletics at V. P. I. and will in all probability accept this post after the gridiron season next autumn.

The V. P. I. officials saw Warren in action last March, while he was playing brilliantly in the Southern Conference Tournament at Atlanta with the championship N. C. State "Red Terrors." His football ability ranks him among the best of backfield men in the South. He was the main cog in Coach Tebell's Wolfpack last fall.

Warren has been studying chemistry at State and is anxious to complete his course here. He is a graduate osteopath and is now practicing his profession at Mooresville.

His return to the Wolfpack next autumn will help the team through one of the hardest schedules ever played by a State College eleven.

INTERESTING LECTURE BY DR. WILSON FEATURE OF CHEMISTRY MEETING

Dr. A. J. Wilson, chairman of the chemistry department, who recently returned from the convention of the American Society at Columbus, Ohio, gave a very interesting and enjoyable talk on the purposes and the future outlook of the organization at the regular meeting of the Chemical Society last Tuesday night, May 7.

VETERANS OF N. C. STATE COLLEGE BASEBALL CLUB

These veterans of the North Carolina State College Wolfpack at Raleigh have kept their club high in conference standings this season. Averette is a sophomore; Eatman and Shore, juniors, and Allgood a senior.

INTRAMURAL BASEBALL SEASON NEARS CLOSE

DeMolay and Mechanical Engineers to Fight It Out for Title

Intramural playground baseball season is near its close. In the past few weeks it has furnished much fun and

enjoyment to all the fraternities which have entered the league, and has stirred up, in the good-natured rivalry of the games, a new spirit of friendliness among the players.

The sixteen teams represented at the beginning of the season were divided up into two groups. In the first group the following teams were the winners and losers, respectively, of the first series of games: Beta Sigma Alpha, Theta Pi; Mechanical Engineers, Alpha Gamma Rho; Sigma Nu, DeMolay; Theta Kappa Nu,

STATE COLLEGE TEAM DEFEATED BY DUKE 8-3

The 1928 Baseball Championship Pennant Formally Presented Doakmen

Chick Doak's N. C. State College nine fell victims to a heavy-slugging team from Duke University by an 8-3 score on Riddick Field Thursday afternoon in a game featured by hard hitting on the part of both clubs.

Before the game the 1928 championship pennant, presented by the Doak-Connelly Company of Greensboro, was presented to the N. C. State College team, last year's victors.

State opened the scoring in the second when Clark drove one into the left-field stands. In the third Charlie Eatman poled another into the bleachers to score Allgood before him. These were the only scores made by State during the afternoon, although they threatened in the fifth when they loaded the sacks with none out, but failed to score.

Duke's big rally came in the third when they filled the sacks with no outs. Adams hit to Woodward, who threw Farley out at the plate. Eatman pegged to first to catch Adams and Clark dropped the ball, allowing Warren to score. A few moments later Albright dropped Eatman's peg to catch Adams, and Jenkins scored. Werber then poled a homer into the stands to score two more tallies.

They added another in the fifth when Deane reached third with two out, and scored on Kistler's single.

Three more were added in the final frame as a result of a barrage of

Lambda Chi Alpha. The Sigma Nu defeated the Theta Kappa Nu aggregation, and then won out in the group by winning over the Mechanical Engineers, who had won their game with Beta Sigma Alpha.

In the second group, winners and losers: Delta Sigma Phi, Pi Kappa Alpha; Sigma Psi, Animal Husbandry; Phi Omega, Sigma Pi; Sigma Tau Beta, Poultry Science. Phi Omega defeated Sigma Tau Beta and will play the winner of the Delta Sigma Phi-Sigma Psi game, to determine who plays the Sigma Nu team for the championship.

In the Consolation League which is entered by the losers, the DeMolays and the Mechanical Engineers are runners-up for the final game.

BLUE DEVILS DEFEATED BY STATE FRESHMEN 8 TO 6

Cliff Morris in Fine Form to Chalk Up Victory Over Methodists

Remembering the licking the Duke Blue Devils handed them on their own home field, the State College Freshmen journeyed to Duke University Wednesday with revenge stored away in their bats, and when the nine innings of baseball were over State was riding on the big end of the 8-6 score.

Cliff Morris, the freshman star hurler, was on the mound for the Tech-lets and the Blue Imps found his slants puzzling. While Morris was pitching with effect his teammates were giving him good support on the field and at the bat. Many seeming hits off the Duke bats were robbed by the flashy State infield and outer garden sweepers.

State took the lead in the early stages of the game and were never headed by the Dukesters. This game put the two teams on even bases and in a tie for the state title, pending further games with Carolina.

The first came with Farley on base and off the bat of Jenkins. Deane slammed another a few moments later to clinch the state title for the Blue Devils.

MEDLEYS

The new Dean Cullins sure got off to a running start when he thought of that idea of giving some of the students a banquet.

If you like this publication, tell others; if you don't, leave all donations for a new typewriter with Dean Cloyd, and we'll do more and better work.

There has been another dean added to the long line already doing duty on the campus. Anyhow, we noticed Stewart Robertson reading a letter addressed to the Dean of Women at State College.

The tapping ceremonies in the gym provided quite a few surprises, all of them pleasant enough. We are further strengthened in our belief that you can't keep a good man down—if you know what we mean.

It seems that I. Q. Minas took a little too much on himself in his article in the *Watawung* this week when he started jumping on everything in general. Any dumbbell would know better than to ride Daddy Price's crack band.

THE TECHNICIAN congratulates the members of the staff of *The Raleigh Student* on the cup-winning publication they have edited. We understand now why *The Twig* didn't answer that dig *The Student* gave them in its issue of two weeks ago.

This is supposed to be the last issue of this paper, but if the new business staff feels competent, we'll be around next week at the same time. We won't say anything about the editorial side of the question. That side is used to taking things as they come.

We noticed in the papers that the publishers of the *Yellow Journal* were being called before the Student Council of the University for action. Having seen a copy of the *Journal*, we can't understand how the publishers are being tolerated on the campus.

Speaking of honor, which has been mentioned quite frequently this year on the campus of State College, what shall we say of a professor who hides himself in a closet adjoining the classroom of a colleague in order to hear what is being said by his department associate?

We wonder how far the espionage system against which the students of Des Moines University have recently rebelled prevails on this campus?

It should be said in justice to the administration that the practice referred to in the first paragraph is a case of an individual working "on his own." The president of this institution is not like the man in Iowa, a strict fundamentalist, who believes in trampling harshly on all efforts of scientists and students to catch a few glimmers from the light of Truth.

UNNECESSARY RUDENESS

Just how the students at State College ever got into the habit of yelling at every young lady that rides across the campus is a mystery. If it is a tradition, then it is one we can well be ashamed of. It is not only crude, but it is ungentlemanly, and not worthy of students of this institution.

What would you think of a man who turned and yelled some vile remarks at you as you were walking down the street with your mother or your best girl? It amounts to the same thing when not one man but fifty or a hundred students stick their heads out of the dormitory windows and yell all kinds of things at the people passing through the college grounds.

Several of the men around the campus have made the statement that they would not let any of their people ride over this campus for anything in the world. We can hardly blame them for the statements. They are justified when they say such things. Whose fault is it? It is the fault of a few men on this campus who have evidently never been taught how to play the part of a gentleman, have never learned that when any one comes on this campus he or she is a guest of the college while here, and should be treated as such.

All of us can be decent. If we have got to yell, let's go out in the woods and get rid of the spare energy. Do you want your girl the target for hoots and unseemly remarks by about a third of the campus? Of course not. Then don't you place any one else's girl, sister, or mother in such a position? We place the girl first because she usually gets the worst end of the bargain. Such a condition is deplorable, and State College does not want the old gag about this being a hick school to turn out true. If this practice is kept up, we'll sure have the reputation of being such, and more than likely we'll deserve it.

Student Forum

DEAR EDITOR:

The news writer, or rather the headline writer, who handled last week's story of the English department chairmanship, left a very misleading impression. The confusion of Dr. Harrison, of the English department, with Colonel Harrison, of the mathematics department, was evident in the reference to the State Department of Conservation, and needs no further comment.

The idea of the departmental chairmanships, and their purposes and modes of functioning, seems never to have become clear to the student body. In a chairmanship, as applied in that department, there is no change in the rank of any person with any change in the "head of the department," as the students are wont to call the chairman. The chairman merely calls and presides over the departmental meetings, and sees to the transaction of business pertaining to the department.

The idea of departmental chairmen came several years ago, when, with the addition of divisions of journalism, literature, and public speaking, the department was becoming unwieldy, and its work so varied as not to be handled successfully by a faculty member of any one section. It was therefore agreed that there should be a rotating system of chairmanships, in which the professors and associate professors should take turn in holding the office of chairman.

The first chairman under the new system was Mr. Clarke, who was followed, in order, by Mr. Cunningham, Mr. Robertson, and Dr. Harrison. This year, there being no more professors or associate professors in the department, Mr. Clarke automatically became the chairman for the beginning of a second rotation. In doing so he changes in no wise his rank as a teacher, but merely handles the business of the department. Naturally Dr. Harrison retains his connection with the college in exactly the same capacity as heretofore, except that he is no longer burdened with the thankless job of being chairman.

ALVIN M. FOUNTAIN,
Secy. Dept. of English.

THAT AIN'T RIGHT, PAL

I had the pleasure recently to read an article in *The Watawung* entitled "Ain't That Right, Pal?" I said "pleasure," but I'll take that back. It was no pleasure. I admit that the author, one I. Q. Minas, is witty. That is, in spells. His other articles in the same magazine were almost funny. I, for one, enjoyed one of them.

And now, after reading his last spasm (pardon), strange to say, I'm not convulsed with laughter. On the contrary, I feel hurt. Now, understand. I know that the easiest thing in the world for a man to do is to knock another man's work. For that reason I want to apologize for writing this, but I'm doing it, not as my own idea, but because I've heard so much

COMMENCEMENT EXERCISES
TO BE HELD JUNE 2 TO 4

Baccalaureate Sermon To Be Delivered by Rev. Henry Harris Covington of Norfolk, Va.

The annual commencement exercises and alumni meetings at State College will be held June 2, 3, and 4. A large number of trustees, alumni, and parents of students are expected to attend. It is thought that this year's program will be one of the most successful ever had by the college.

Beginning Sunday evening, June 2, the commencement program will continue through the following Tuesday noon.

The program is as follows:
Sunday, 8:30 p.m., baccalaureate sermon by the Rev. Henry Harris Covington, D.D., rector of St. Paul's Episcopal Church, Norfolk, Va., at Pullen Hall.

Monday, 10 a.m., annual meeting of board of trustee at D. H. Hill Library; also 10 a.m., reunion of classes at College Y. M. C. A.; 1 p.m., luncheon for alumni at dining hall as guests of the college; 2:30 p.m., annual meeting of general alumni association, Y. M. C. A. auditorium, John L. Beaton of Wilmington, president, chairman. At 7 o'clock Monday night alumni will attend a smoker at the college building hall. Following this occasion by graduating students, announcement of honors, and awards of medals and prizes will take place at Pullen Hall at 8:30 p.m.

Tuesday morning at 10:30 o'clock, graduation exercises will be held, with the address by Dr. Arthur M. Greene, Jr., dean of the school of engineering of Princeton University.

Dr. T. P. Harrison, of the college faculty, is chairman of the committee on commencement.

unfavorable criticism about that article that I can't help but add to the din. I hope Bill Dixon will be kind enough to publish this for me, but let me say right now that I refuse to allow him to take any credit for the article, if credit is what it calls for. Good evening, Bill.

Here's the idea: Laughter is the spice of life, but laughter at the expense of others sometimes does not come under the head of humor, and I believe the above mentioned article was supposed to be humorous. Our friend Minas ('32), in his article (I admit it was a very clever and well written article), proceeds to poke fun at almost every good thing left on the campus, or anywhere else within a radius of a hundred miles. He jabs at scholarship day, laughs at the senior class (with one very obvious lowering remark), and then to top that he brings up the age-old laundry fracas again. Yes, I, Q. I admit that it's always good for a big laugh. I take my hat off to you for finding something to set the whole student body atwitter, perhaps even some members of the faculty.

I seem to be straying from my point. Let us continue our review of the article. Friend Minas next hops on the dances, which were the best that State College has seen, and low-rites them. (I hope you will pardon my use of this slang expression, but it seems to fit, if you know what I mean.) It content with this, he steps out in very bold print with the subtle insinuation that drinking is on the decrease on the campus, but that the fraternity men are doing more imbibing than ever. He also says a few other things about fraternities which I won't bother to mention. I'm not trying to argue any question, either pro or con. I'm no reformer, neither have I made a study of the drinking question. But it does seem that the fraternities are always being made the butt of some slighting remark or jab. I'm off the subject again. I'm not trying to defend the fraternities, nor am I trying to leg my way into one.

I don't know what "Daddy" Price thinks of the remarks made about him, but remarks like that sometimes hurt. I'm sure, "Daddy," that Little Minas meant nothing but fun in those words against you. Keep right on with your band concerts, because anyone with an aesthetic ear will enjoy a concert by the best band in North Carolina.

Before I end, allow me to defend myself. You may think I'm a "narrow-minded old bigot," or a Menie Weenie, for writing this. Well, perhaps I am, but I have been down here a pretty good while, and I like it. Therefore I hate to see fun poked at the institution in such a way. I know it was all in fun, but—oh, well, it doesn't go over so big with outsiders who read the magazine. They might not take it as a joke. This is kind of a "What will the neighbors say?" attitude, I guess, but you know what I mean. Anyway, for any humorous reading on my part from now on, I'll pick somebody like Mark Twain or Bill Nye. No, I didn't say Will Rogers. Mister Minas. More power to you.

One more thing. I just want to say that the author of "Hell Cat" did not write this. I have never heard of one Milton A. Abernathy before, but I gather from his article that he got his hair cut. More power to him. Until something turns up I'll lay low, under an assumed name.

JAY GEE.

TICKS & POLITICS

By M. A. SQUARE

One of the most interesting things that the mill-strike at Elizabethton, Tenn., showed the world was this: Our tariff walls are too high. They are so high that the German manufacturers of rayon cannot compete with American rayon, so they have to come to America; use our cheap Anglo-Saxon labor, protected by the high walls of the tariff, then take the hard-earned money of the American buying public. Are such tariff laws just to the average American?

Did you ever wonder what would happen to the three Negro boys appointed by Congressman Oscar De Priest, Republican, of Chicago, to the United States Military Academy at West Point?

From time to time we have criticized Senator J. Thomas Hefflin, and perhaps we have been a little too hard on the Senator, but now we find ourselves agreeing with him—once.

When Harry F. Sinclair began to serve his 90-day sentence for contempt of the Senate the warden ordered the newspaper reporters to leave Sinclair alone. Then Senator Hefflin told the Senate that Sinclair did not deserve any special privileges. Sinclair doesn't! But just let a poor boy be sent to jail for some petty crime, and would he have a shield thrown around him? Let's have "equal privileges to all; special favors to none" in our prisons.

Respect for law is a good thing when the laws and lawmakers are worthy of respect.

President Hoover can promise farm relief until doomsday; Congress can talk until the end of time; and the people may praise the wizards of politics; but until the financial conditions are changed the poor will grow poorer and the rich grow richer.

Norman Thomas, a great socialist, a scholar, and a student of government, makes an interesting statement about military training in colleges and universities: "Our R. O. T. C.'s and Citizens' Training Camp don't make real soldiers. Civilian colleges and universities, who transact sales on the strength of the inspection reports.

"The cornerstone of liberty has been reduced to dust," says William Randolph Hearst.

We have found something interesting about Governor O. Max Gardner. When he was only 16 years of age he joined the American Army in the Spanish-American War, and, like Mr. Britling, saw it through. He was too young to shoot Spaniards; he was not old enough to march to the beat of the drum, but he was old enough to drive mules—and he did. Can you picture our Governor driving a team of mules across the sands of Cuba?

William Randolph Hearst says: "The Jones Act destroys the American ideals of liberty which have been our boast and our boon, and imposes upon our people the European idea of governmental tyranny which our forefathers came to this country to avoid."

We are signing off until next September. We wish to thank Professors Leffer, Robertson, Cunningham, Garrison, and Clarke, for their valuable and helpful suggestions. We are indebted to Harmon Linville of Kernersville, Richard E. Yates of Mocksville, and Fred Dixon of Raleigh for corrections and suggestions. We ask the readers—if there have been any—of the review if we have been unfair or prejudiced. We are wishing everybody a real enjoyable vacation. Au revoir!

Al Smith was almost kicked out of the famous Tammany Hall—his candidature for the head was defeated. Undoubtedly Tammany had a reason for the act. One thing that we are sure of—Smith can look the tiger of Tammany and all East Side in the face and, without fear of receiving an affirmative answer, ask these questions: Has my name ever hindered you like yours hindered me during the last campaign? Have you ever had to apologize for my membership as I have for being a member?

The attention of the nation has been called to several things pertaining to the enforcement of the Eighteenth Amendment. To start with the sinking of the Canadian schooner, "Im Alone," was very unusual, but it was termed "piracy" by many. The charges against the captain have been formally dropped—the Coast Guard is lucky. The question will not rest. Mrs. De King, of Chicago, was killed in cold blood by a prohibition "snooter." Then, the fusillade of shots turned upon the city of Miami by a cutter which was attempting to capture another likely rum-runner in the Miami river. These incidents tend to put the prohibition enforcement in the unfavorable light of civilized people.

PROFESSOR POOLE WRITES
ON VEGETABLE INDUSTRY

Fruit Business in the South Has Greatly Increased, Says Writer

By PROF. R. F. POOLE

During the period following the World War the fruit and vegetable industry in the South has been greatly enlarged, so that the car-load shipments of perishable produce, to say nothing of the large amounts moved by truck, have brought about a very important stimulation of southern agriculture. Fruit and vegetable growing represents a highly specialized type of agriculture. As a rule it requires greater attention, heavier fertilization, and a keener business instinct than general farming. The fruit and vegetable industry embodies the greatest risk. On the other hand it may produce the greatest net return when one is capable of producing quality produce, and placing it on the market when competition is less keen.

Quality is governed by several factors. The soil type is of greatest importance, since it has much to do with the size, shape, and color of produce demanded by both merchant and consumer. Secondly, quality depends upon disease and insect control. Shipments of berries, peaches, Irish and sweet potatoes to northern markets from time to time have been rejected at the destination because of heavy loss from decay, resulting from packing diseased and good produce together. In any new undertaking, quality is not at first clearly understood, and requires much instruction among uneducated growers before it is attained.

In recent years the Federal and State departments of agriculture have organized an inspection service which functions at the point of shipment and at the destination. The aim of this service is to classify the produce. The classification is governed by the size and shape of the produce and the amount of disease, insect, and physiological defects. It is not compulsory, but demanded by growers and shippers alike. The influence of this service is perhaps the most important in the fruit and vegetable industry, who transact sales on the strength of the inspection reports.

For the inspection work, students trained in market, disease, and insect subjects, especially in the identification of factors pertaining to the development and maintenance of quality are selected. Besides obtaining employment and pay for their time during the summer recess the students are greatly benefited by obtaining a broad experience in fruit and vegetable production which will be of value to them in any agricultural pursuit selected for a vocation after graduation. Some students are assigned to potato inspection, others to peaches, strawberries, cabbages, and beans. Some are stationed throughout the summer in one locality, and others are transferred to other points as the crops come to maturity. This enables them to visit several states, where the methods of producing and handling the crops are learned.

R. B. Etheridge, a State graduate, with the department of agriculture, has charge of this work in this state. Along with trained inspectors he has made tremendous progress in teaching growers the advantages of growing, packing, and shipping quality produce.

The students accepted as inspectors have improved their training from year to year with courses in the subjects bearing on quality.

Samuel L. Patterson's
Portrait To Be Placed
In Agricultural Hall

Mrs. A. H. Patterson, prominent leader at Chapel Hill, has presented to North Carolina State College a large portrait of the late Samuel L. Patterson, in whose honor Patterson Hall is named.

As soon as adequate space is secured in Patterson Hall the portrait will be hung there. Patterson Hall is occupied by the departments of Agronomy, Botany, and the Agricultural Experiment Station.

In spite of the fact that they voted dry in the last election, Common Justice abhors such enforcement! God forbid this wholesale murdering enforcement!

Ralph F. Lozier sends the following definition of political parties:

"Political parties are the agencies and instrumentalities by which the American voters work their will and express their approval or disapproval of legislative and economic policies. A political party is composed of millions of men and women who are in complete or substantial agreement as to governmental policies and methods by which social and economic justice may be promoted. And political parties are organized and maintained to curb, restrain, and rebuke individuals and parties who make merchandise of patriotism and use the agencies and instrumentalities of the Government to promote their selfish and sordid ends."

JOINT OUTDOOR MEETING
OF Y. M. C. A. AT U. N. C.

Outlook for College Y's in South Is Getting Brighter, Says Mr. E. S. King

A joint outdoor meeting of the Y. M. C. A. cabinets from the University of North Carolina, Duke University, and N. C. State College was held last Wednesday evening at Powell's Cabin, Riffraff Manor, located just west of the Raleigh city limits. Supper was served after which a subject of extreme importance to all three schools was discussed, namely, means of financing the delegates from this Y. M. C. A. district for the coming New York conference to be held later in the year.

The outlook for the future of the college "Y's" of the South is becoming better with each succeeding year, according to Mr. E. S. King of State College "Y." The principal speaker of the evening. "It is up to the larger schools such as Carolina, Duke, and State, to lend all support possible to the 'Y' work in the district until the smaller colleges have become sufficiently strong to take over their part of the work unaided," said Mr. King. No small measure of the success of the outing was due to Mr. E. L. Cloyd, dean of students at State. Mr. Cloyd took an active part in the arrangement of the outing and in the affair itself. The dean is acknowledged the best amateur cook in North Carolina, and proved it beyond a doubt with his coffee at the cabin. Mr. Cloyd encouraged every Cabinet member present at the conference to attend the meeting to be held at Blue Ridge this summer, and a large number is expected to need his advice.

A group from Carolina, consisting of Jack Connolly, Wofford Humphries, Steve Lynch, Bill Biles, and Grady Leonard, rendered several popular songs at the beginning of the evening.

Those representing the various schools were: Carolina—Grady Leonard, H. T. Taylor, Luther Brannon, Jimmy Williams, J. A. Lang, Aubrey Perkins, and boys who did the singing. From Duke there were: Tom Ennes, Chisman Hanes, Albert Stanton, Moody Smith, Norman Huffman, Emmet McLarty, Charles Honeycutt, Emerson Jones, Charles Clay, Liston Pope. The State College boys—E. W. Buchanan, W. D. Stephenson, E. M. Overton, W. B. McKenzie, R. S. Dunham, N. Gross, W. B. Callihan, M. L. Shepherd, A. D. Stuart, H. Y. Brock, Jr., E. C. Conrad, and J. C. Whitehurst. J. Paul Choplin, president of the student body at State for 1929-30, and R. S. Jivatone were present. A visitor from Norfolk, Va., was also present in the person of Mr. H. Y. Brock, Sr., father of State College's fast freshman track star, Henry Brock.

Next year's tri-conference is to be held at the University of North Carolina.

PLACE CHEMICAL SENIORS
IN MANY BIG COMPANIES

Juniors Also Get Positions for Summer Months, All But Two Being Placed

Seniors in chemical engineering have all been placed in companies throughout this section of the country. J. G. Staunton has received a fellowship at this school; J. W. Perry, who receives his M.S. degree in chemical engineering, will be an assistant in the chemical engineering department at Massachusetts Institute of Technology, Cambridge, Mass. The two other graduate students have also secured positions: F. E. Israel will be placed by the Meade Paper Co., Chillicothe, Ohio, and D. Y. Brannon will go to the Johnston Rayon Co. at Burlington.

The other seniors and the companies with which they will work are: P. C. Ellis, Meade Paper Co., Lynchburg, Va.; F. P. Winkle, Meade Paper Co., Sylva; F. E. Lee, J. R. Lawton, J. W. Norman, Jr., DuPont Rayon Co., Richmond, Va.; W. T. Maxwell, Johnson Rayon Co., Burlington; E. C. Conrad, Aluminum Company of America, Baden; P. C. Colette, Feldspar Milling Co., Burnsville; O. L. Miller, Memphis Cigar, Memphis, Tenn.; W. V. Williams, Proctor-Gamble Co., Cincinnati, Ohio.

With all the seniors placed, there remains only two juniors who have not definitely secured summer employment. "Positions for these and many sophomores and freshmen are practically assured," said Dr. E. E. Randolph of the chemical engineering department.

AGRICULTURE CLUB MEETS

The weekly meeting of the Agriculture Club was held Tuesday evening, May 14, at 6:30, in Patterson Hall.

It was decided to change the method of securing officers from the old way of having the retiring officers appoint the new officers to a new method of election by popular vote. It was decided to use this method of election in this year's choice of leaders.

FACULTY MEMBERS GO TO MEETING SCIENTISTS HELD IN GREENSBORO

A number of the faculty members left yesterday for the twenty-eighth annual session of the N. C. Academy of Science, held in connection with the spring meeting of the N. C. Section of the American Chemical Society. This meeting will be held at N. C. W., Greensboro, May 10 and 11.

At these meetings the men present scientific papers on various subjects in which they have done research work. The men from State College and the papers they will present are as follows:

Dr. I. V. Shunk, assistant professor of botany, "Nitrogen Fixation in a Grass Sedge Bog"; Dr. D. B. Anderson, assistant professor of botany, "Growth Habit of *Diplocarpus Rosei* in Relation to the Structure of the Epidermal Cell Walls of *Rose Leaves*"; Dr. B. W. Wells, professor of botany, "The 'Open Grounds' of Carteret County, N. C."; T. A. Whitford, instructor in botany, "The Algae of Lake Raleigh, an Ecological Study"; Dr. R. F. Poole, associate professor of plant pathology, "Dissemination Activities of *Monilochaetes Infuscanus*"; Dr. E. E. Randolph, professor of chemical engineering, "Some Factors Governing the Rate of Penetration of Pulp Liquor"; Dr. Jasper L. Stucky, associate professor of geology, "Water Supplies From Crystalline Rocks of North Carolina"; H. H. Barney, "The Intensity of the Magnetic Field Within an Ocular Current at Points Not at Center"; Dr. L. F. Williams, professor of organic chemistry, and J. R. Piliand, graduate in chemistry, "The Occurrence of Calcium in Some North Carolina Crops"; Dr. G. P. Shelton, associate professor of ceramic engineering, "Volcanic Ash as an Earthenware Body Ingredient"; F. E. Rice, professor of chemistry, L. F. Williams, professor of organic chemistry, and H. M. Thompson, "Lipolytic Action With Reference to the Influence of Various Preservatives."

This Academy of Science is composed of outstanding men in the field of science in general. By presenting these papers these men are able to exchange ideas and be of great help to each other in their research work.

1-2 P.M. EVERY DAY

STATE—THURS., FRI., SAT.

Youth has its fling in "Hot Stuff," a youthful, peppy, and effervescent comedy of the films, that comes to the State Theatre next Thursday, Friday, and Saturday.

This gay First National college story stars Alice White, youngest of the stars, in her first talking picture, and was directed by Mervyn LeRoy, youngest of the directors. Almost without exception, the cast is composed of youngsters.

"Hot Stuff" was adapted from the college romance, "Bluffers," written by Robert S. Carr, the high school author. It provides an ideal role for Miss White, whose work in the youthful "Harold Teen" will long be remembered.

William Bakewell plays opposite the star, and Louise Fazenda and Doris Dawson head a big cast of capable players.

"Hot Stuff" is said to be one of the finest stories of college life yet filmed. Its coming is awaited eagerly by the local youngsters from five to eighty-five years of age.

On the same program will be seen a Paramount news reel, a Billy Dooley comedy, "Oriental Hugs," and two acts of vaudeville: Johnny Marvin and his uncle, well known radio and recording artist, and Lerdo's Orchestra.

STATE—MON., TUES., AND WED.

Grappling with wild tigers and gorillas and the still more dangerous human emotions, Lon Chaney

Lon Chaney and Lupe Velez in "WHERE EAST IS EAST"

STATE—Mon-Tues-Weds

gives the screen one of his most bizarre, thrilling, and powerful dramatic portrayals in "Where East Is East," Metro-Goldwyn-Meyer's grim drama, of an Oriental jungle, coming to the State Theatre, as a sound synchronized film, next Monday, Tuesday, and Wednesday.

Chaney, in the role of "Tiger" Haynes, jungle animal trapper, rides at the head of herds of elephants, battles with a ferocious tiger, and actually traps one of the great beasts. His death struggle with a gorilla is a sensational highlight. Underlying the thrills is a gorgeous love romance.

Tod Browning, responsible for many Chaney hits, directed Chaney's portrayal is grippingly convincing, and his make-up a new and remarkable instance of his uncanny skill at disguise. Lupe Velez, as his half-native daughter, is a fiery little creature in a vivid role, and Estelle Taylor, as the exotic Oriental vampire, is compellingly beautiful. Louis Stern, as the priest, and Mrs. Wong Wing, as the Chinese grandmother, are cleverly cast. Lloyd Hughes scores a triumph as the romantic lead.

The great river scene and the jungle episodes, including the trapping of the tiger, are spectacular backgrounds for the swift-moving action.

On the same program will be seen a Fox movietone news, Octavius Roy Cohen's "Melancholy Dame," and two

BETA DELTA CHAPTER OF DELTA SIGMA PI INSTALLATION HERE

Installation of Beta Delta chapter of Delta Sigma Pi, international professional fraternity, at this institution, will be effected Wednesday afternoon in the college library. Final arrangements are being completed and 41 men are ready to be initiated. This number includes 30 student members of the local organization of Delta Sigma Pi, business fraternity, four of the business faculty, and seven alumni of the business school.

State College will constitute the 49th chapter, there being at the present 48 located in the leading universities of the United States, and 15 alumni chapters. An installation team will come from Chapel Hill, and headed by H. G. Wright, grand secretary-treasurer of the national organization, will conduct the ceremony.

The initiation will be held in the afternoon in the library; in the evening a banquet in the Carolina Hotel will be given. Officers to be initiated with the chapter are: A. B. Holden, head master; J. T. Humble, senior warden; T. M. Vernon, junior warden; Dallas Holoman, scribe, and H. G. Love, treasurer. New officers have been elected for next year and they will not be installed until after the installation of the chapter.

State College Business Club of Delta Sigma Pi petitioned the national organization last year, but it was not accepted until several weeks ago after a visit here by Mr. Wright.

vaudeville acts: Frash Orth in "Meet the Wife" and Hughes and Pam in a comedy skit, "The Fall Guy."

UNUSUAL SHOW HERE TWO DAYS NEXT WEEK

"Deliverance," a motion picture that has been hailed by critics throughout the country as one of the best of the time, is to be given at State College Y. M. C. A. Monday and Tuesday, 8:30 and 10:00 p.m. The picture will be given free to State students.

The picture is the story of a fight between a newspaper and the bootleggers of a great city when the publisher seeks to find out the real activities of the bootleggers in the city. His daughter, a cub reporter, is assigned to cover the young people's side of the situation. There are many interesting and exciting situations arising from the activities of the reporter covering the story. The racketeers try to ruin the publisher and keep him from printing what he finds.

Real drama, love, and all the other things which go to make up a really great picture are shown in the six reels. Besides being very entertaining the picture gives a real insight into the activities of the racketeers of our present-day cities.

BANQUET WILL BE GIVEN HONOR SELF-HELP CLUB

A banquet will be given in honor of the Self-Help Club by Nathan Cullins, new proprietor of the college laundry, at 8 o'clock tonight in the Mansion Park Hotel.

Mr. Cullins states that he is giving the banquet to show his appreciation of the boys who are trying to work their way through college. Plates have been reserved for all members of the club and their lady friends.

State College Red Masquers' Club Premier Performance Is Success

(Continued from page 1)

played by C. L. Clark; Fabry, chief engineer, played by Thomas M. Vernon; Berman, managing director, played by W. P. Walker; Dr. Gall, head of the physiological department, played by M. R. Vipond.

Other characters were: Emma, a maid, played by Nancy Kendrick; Sulla, a roboter, played by Virginia Andrews; Marius, a robot, played by W. P. Seagraves.

Radius, the character played by J. D. Britt, was leader of the final revolt on the factory grounds.

Waxing sometimes oratorical, Do-main carried his part well, but his voice was excelled by that of Dr. Helman, who seemed to have almost perfect control of a conversational manner. Helena Glory and the other women characters were almost human, sometimes very much so, while the chief accountant, Berman, was good in his eccentricities, keeping his mind always on his business affairs.

At the opening of the second act a clock on the mantel over the fireplace showed the time to be exactly eleven-thirty, and the hands remained fixed in that position through that and the next act, despite the lapse of time in the play.

Many compliments have been given the Red Masquers on their work, and they will appear tonight with the same play in Winston-Salem, under the sponsorship of the parent-teacher association of the Camel city. Another local performance is under consideration, to be given at the State Theatre during commencement week this year.

N.C.S. CAPTAIN WILL FACE MAJOR RIVALS

LARRY ALLGOOD

Captain Larry Allgood, veteran pitcher for Doak's N. C. State College baseball squad, will try to be all good when he undertakes to hurl the Wolf-pack to victory over the University of North Carolina team. Wake Forest was met at Wake Forest on May 14, and Carolina comes to Raleigh on May 20 for a return engagement with State.

ELECTION OF OFFICERS FEATURES AT PULLEN'S MEETING FRIDAY NIGHT

Pullen Literary Society held its election of officers for the fall term of next year at its regular meeting May 10th.

The following were given office in the society: J. A. Broadwell, president; J. B. Litchfield, vice-president; R. R. Small, secretary; J. T. Wilkins, treasurer; R. H. Bright, critic, and D. C. Rogers, sergeant-at-arms.

The election came after the ending of a very interesting debate, the subject of which was "Resolved, That military training should be abolished in state-supported institutions." G. R. Smith and R. J. Lyday, representing the affirmative, were defeated by H. F. Anderson and R. H. Bright, who represented the negative side of the argument. Anderson was judged to be the best individual speaker.

During the meeting it was decided to postpone the awarding of individual pennants for the contestants in inter-society contests until next year. At that time it is hoped to impress on the new men the value of the work in a literary society.

OLD DOMINION CLUB ELECT OFFICERS FOR NEXT YEAR

James Seal Elected President of Club Consisting of Virginia Boys

The Old Dominion Club, reorganized on Wednesday night, May 15, elected the following officers for the coming year: James Seal, president; Arthur D. Thomas, vice-president; Milton R. Vipond, secretary, and Jas. Halstead, Jr., treasurer. The club chose as its motto, "Si Semper Tyrannus."

Orange and blue were selected for the club's colors and the American beauty rose for its flower. An elaborate social program was adopted for the coming year. The membership of the club is forty-five, consisting of students from the state of Virginia.

CIVIC PRIDE AT STATE COLLEGE

Is there such a thing as civic pride at N. C. State? Judging from the appearance of things there doesn't seem to be much. For the past few years the college has taken rapid steps forward in beautifying its campus, and for the past few years the students have been making paths where they weren't wanted. Fellows, don't get the idea that the administration is trying to pull something over on you, but let's cooperate with the landscape architect in making State College a place of beauty as well as a place of education. We can do it with very little trouble to ourselves by keeping on the paths. There seems to be plenty of paths on the campus, and these lead to the important places by the shortest routes. It requires quite a bit of work to keep the grounds in shape, and when some person, whether because of laziness or because he doesn't care, steps in the middle of a newly-prepared flower-bed or grass plot, it just makes you want to go and say to him: "Damn it! stay off that grass!"

In other words, gentlemen, civic pride is cooperation in trying to make the community a better place to live in. We are all at college to learn to be better citizens, and there is no better way to begin than to have pride in the place where you live. So remember this and keep on the paths, and you will be able to point with

WILSON RETURNS FROM CHEMICAL MEET HELD AT OHIO STATE UNIVERSITY

Dr. J. A. Wilson, chairman of the chemistry department, returned Friday, May 3, from the spring meeting of the American Chemical Society at Ohio State University, Columbus, O.

From 1,700 to 1,800 men were registered, and approximately 900 articles read, covering all phases of chemistry. The meetings were divided into eleven divisions, which were all in progress at the same time.

One of the surprises of the convention was a chemical education "talkie" picture which attracted much attention. This is the first talking picture to be used for educational purposes and embraces many new methods. It was presented by Dr. Irving Longmuir, president of the society, who was also the teacher in the film. It is possible that some day in the future these sound pictures will be developed to such an extent that they may perhaps replace instructors' lectures.

Louis J. Taber spoke on "What Agriculture Needs of Modern Chemistry." He declared that chemistry was of more aid to agriculture than legislation. Charles H. MacDowell, president of the Armour Fertilizer Works of Chicago, also gave an interesting paper on agriculture. He stated that although the farmer must concern himself with capital, labor, and instruments of production, the soil is his primary storehouse of raw materials.

During the course of the convention the Priestly medal, the highest honor in American chemistry, was awarded to Francis P. Gorvon, New York commercial lawyer, as the greatest lay patron of chemistry in the United States. Gorvon is president of the American Chemical Foundation, Inc., New York, which has donated \$30,000 as prizes to be awarded during the 1929-30 essay contest in chemistry. This contest is open to all schools from high schools to universities.

Many aspects of the scientific study of cellulose with its commercial and industrial uses were discussed before the cellulose chemistry division. Dr. C. H. Henty, past president of the society, gave an address on the fundamental research in this particular phase of science.

A new science was established to develop a certain mol and is to be known as microbiological chemistry. The product is to be used in medicine in a form known as calcium glucoate, formerly a laboratory curiosity produced at \$150 per pound, and now produced from sugar by Dr. F. T. Herrick and Dr. O. E. May of the Department of Agriculture, at 30 to 50 cents a pound. Extensive application of the and its compounds is thought to be of great importance by specialists. Dr. P. M. Leech, director of the chemical laboratories of the American Medical Association, said: "American doctors are too slow in accepting new practices which come out of a chemical laboratory to make rapid progress in this country in pharmacology."

A critical summary of the latest comer in the vitamin family, known as vitamin C and D, was given by biological chemists. Active preparation of vitamin C has been made from lemon juice.

Dr. Wilson was primarily interested

in the campus and exclaim, "Is it not beautiful?"

W. T. CLEMENT.

ed in the division of chemical education and attended many of the lectures of this division.

Atlanta was selected for the 1930 spring meeting of the society, Cincinnati for the fall meeting, and Indianapolis for the 1931 spring meeting.

George H. McGinn To Represent State At Conference Meeting

George H. McGinn, State College half-miler, who copied the State title by romping over the distance in 1:58 2/5 at Greensboro recently, represented N. C. State at the Southern Conference meet at Birmingham, Alabama, yesterday and today.

McGinn is the only State College athlete who will compete at the meet this year. Last year Jack McDowell was the lone entry and set up a new high-jump mark of 6 feet 1 1/2 inches. McGinn is an exceptionally brilliant performer in his event and is expected to land a place in the competition.

MECHANICAL ENGINEERS HEAR ABOUT ICELESS REFRIGERATOR CARS

Interesting topics were discussed at the regular meeting of the A. S. M. E. Tuesday night.

I. W. Leggett explained the principle of the iceless refrigerator car now being introduced into the railway industry. J. H. Douthitt spoke on Elastic and Fatigue Failure of Metals.

An interesting account of the senior inspection trip was given by T. A. Grant.

Professor J. M. Foster, recently elected honorary chairman, complimented the society on the improvement made during the past year, and offered some suggestions for future progress.

J. M. EDWARDS IS LEAVING ARCHITECTURAL FACULTY FOR PRIVATE BUSINESS

Professor J. M. Edwards, of the architectural department, has resigned his post at State College, effective at the end of the present school year.

Professor Edwards has accepted a position with an architect in New York City, and plans to go to work at his new position immediately after taking his vacation.

Blue Key Honorary Frat Takes In Fifteen New Men At Meeting Last Monday

(Continued from page 1)

Clark, Winston-Salem; R. S. Dunham, Bladenboro; A. L. Weaver, Lexington; R. H. Gatlin, Raeford; E. G. Couch, Darlington, S. C.; J. B. Litchfield, Poplar Branch; W. E. Koonce, Chadbourn; W. R. Dixon, Rocky Mount.

Old members are: Professor A. F. Greaves-Walker, Hardy M. Ray, Frank Capps, P. W. Elam, H. H. Burroughs, A. B. Holden, A. McK. Greaves-Walker, D. H. Hutchinson, A. L. Ayldett, J. E. Moore, W. P. Albright, C. E. Hibbard, R. P. Shapard, W. R. Fitzgerald, C. H. Harshaw, P. H. Mast, R. W. Shoffner, H. C. Green, A. D. Stuart, E. W. Buchanan, H. G. Love, J. P. Choplin, E. H. Roberts, C. H. Belvin.

The banquet was held at the Meremont Tea Room on Fairview Road, and the menu consisted of fruit cocktail, celery and olives, chicken, green peas, white potatoes, cheese, salad, strawberry shortcake, coffee, cigars, and cigarettes.

PALACE

RALEIGH ALL WEEK—
N. C. STARTS APRIL 30

SOCIAL ACTIVITIES

Final Dances

The final dances for 1929, sponsored by the Pan-Hellenic Council, will be held in the gymnasium May 31, June 1 and 3.

There will be six dances: Friday, 4-6 and 9-1; Saturday, 11-1 and 9-12; Monday, 11-2 and 9-1.

All dances will start promptly on time.

Hal Kemp and his Brunswick recording orchestra of New York will furnish music. The Junior Guild of Raleigh will decorate the gymnasium.

The grand march will be led by Henry Young, Sigma Nu, of Raleigh, and William Fitzgerald, Lambda Chi Alpha, of Asheville, with Miss Mary Coleman Parrish of Portsmouth, Va.

Fraternity members may secure complimentary tickets from Dean Cloyd on Friday morning, May 31, by presenting their own ticket with a list of the guests they are inviting.

Beta and Delta Chapters Entertain

The N. C. Beta and N. C. Delta chapters of Sigma Phi Epsilon fraternity entertained last Friday evening, May 17, at a dance at the Washington Duke Hotel in Durham.

The dance was a scene of most enjoyable festivity. A very colorful figure led by Birney Finn of the Delta chapter, assisted by Gordon Norman of the Beta chapter, was the outstanding attraction of the evening.

The members attending the dance from the Beta chapter at State College were M. L. Barnhart with Miss Dorothy Gunn, Alex Saint Amand with Miss Frances Handy, M. G. Norman with Miss Margaret Ross, J. W. Norman with Miss Celia Wren, Richard Lewis with Miss Ida Plinner, Robert McCracken with Miss Ruth Leary, Jack De Witt with Miss Priscilla Regory, Warner Gillis with Miss Uldine Rogers, C. Faircloth with Miss Mary Lou Coffey, Marion Finch with Miss Blanna Mathews, Frank Freeze with Whit Spoon, Stanley Clarke, J. B. Meacham, Norwood May, D. H. Hutchinson, Neal Bellamy, and Hunter Colgin. The chaperones were: Mrs. J. E. Wearn, Mr. and Mrs. W. O. Huneycutt, Professor L. E. Wooten, Mr. and Mrs. T. M. Hazel, Dr. and Mrs. Galloway, Mr. and Mrs. Handy, Major and Mrs. Price, Lieut. and Mrs. Passalacqua, Major and Mrs. C. Early, and Lieut. and Mrs. Elmer.

Dean and Mrs. Nelson Entertain

The members of the graduating class of the textile school were entertained by Dean and Mrs. Thomas Nelson at their home on Wednesday evening at 7 o'clock.

The guests were ushered into the dining room, where they were treated

to a rare feast. The dinner consisted of five courses.

Miss Mary Nelson and Miss Mary Cromartie assisted in the serving.

Cox-Marshall

Characterized by simplicity was the marriage of Miss Catherine Holt Cox and Charles K. Marshall, Jr., which was solemnized yesterday afternoon at the First Presbyterian Church here, the Rev. J. R. Walker, the bride's pastor, officiating, using the Episcopal service.

The church was attractively decorated with palms, ferns, and a standard filled with Madonna lilies, white lilies, and roses. Mrs. Paul P. Brown rendered several selections on the organ. Warner Gillis of Asheville, violinist, played Rubenstein's Melody in F.

Ushers were William B. Duncan and Frank H. Jeter of Raleigh, E. Hubert Floyd of Fairmont, and Robert P. Shepard, Jr., of Griffin, Ga.

Miss Nancy Cox, sister of the bride, attended her. She wore a frock of delicate pink made with a short cape and uneven hemline and picture hat.

The bride, entering with her brother, David S. Cox, Jr., wore a flowing model of powder blue chiffon, made with petal-like silk braid. She carried a bouquet of Claudius Pezet roses, showered with blue ribbons.

Mr. Marshall was accompanied by Ernest R. Warren, of Gastonia, as best man.

The bride is the attractive young daughter of Mr. and Mrs. David Samuel Cox of Raleigh. She attended Meredith College and is a member of the young social set here. Mr. Marshall is the son of Mr. and Mrs. C. K. Marshall of Gastonia. He attended Davidson College and the University of the South and is a member of the Sigma Nu fraternity. He is director of public information at State College having served previously with state dailies and the Associated Press.

Persons

Among recent visitors on the campus were: L. L. Pittman, B.E. '08, of Whitakers; R. E. Mewborne, Kinston; Professor John E. Ivey, '17, teaching at Alabama Polytechnic Institute; J. H. Roller, principal of the school of Hoffman, and Guy Yates Hoger, B.E. '28, of Dupont Engineering Corporation at Richmond, Virginia.

Paul K. Cowbig, Delta Sigma Phi, spent last week-end with his parents in Charlotte.

Robert H. Grimes, Jr., Kappa Alpha, spent the past week-end in Greensboro.

Marshals' Ball of the N. C. I. E.

The marshals' ball of last Monday evening, given by the North Carolina Industrial Exposition, proved to be an outstanding event in the realm of society.

The feature of the evening was the marshals' figure, led by Roscoe Cowper with Miss Margaret Sherrill. Many of the marshals were members of State College fraternities. Among them were the following: From Kappa Alpha, H. E. Atkinson with Miss

A. E. TUCKER

A. E. Tucker, of Danville, Va., is cadet captain of Company H, Reserve Officers Training Corps at North Carolina State College, Raleigh, this year. He is a member of the senior class, a director of the students' agricultural fair, member of Seaboard and Blade, honorary military society, and is majoring in agronomy.

Martha Galloway, Stokes White with Miss Mary Helen Keller; Sigma Nu, George Fowler with Miss Frances Fulghum; Kappa Sigma, Henry Rankin with Miss Celia Brown; Phi Kappa Tau, James Summey with Miss Sarah Busbee.

Order of DeMolay Host

H. Atwood with Virginia Rogers, Ed Bass with Barbara Moore, John Monie with Louise Bridges, Milton Vipond with Ada Spencer, Louis Wilson with Elsie Williamson of Durham, Sam Hicks with Pat Batts, H. H. Naylor with Elizabeth Green, W. D. McKoy, William Hunt, Sam Taylor, Harry Guirkin, John Ashe, Jr., Robert Mason, William Richardson, Laurance Aydtlett, Chas. Goodwin, Bob Wilson, Jack Bagby,

Your Attention is Called to These ANNOUNCEMENTS

Seniors

a maximum of three reserved seat tickets for graduation exercises in Pullen Hall, June 4, 1929, will be issued by Dean Cloyd to each senior for his parents and friends, from Monday, May 27, until Sunday, June 2, 1929. No tickets will be issued after June 2, 1929, or before May 27. All of the seats of the main auditorium will be reserved for the seniors, their parents and friends, but admission will be by ticket only. The balcony will be open to the public.

Band Concert

will be given by the North Carolina State College band on the lawn in front of the monument at 3:30 Sunday afternoon.

A.S.C.E. Banquet

will be held at the Carolina Hotel on Tuesday evening, May 21, at 8 o'clock.

Chemistry Club

will hold important meeting Tuesday evening, May 21, at 6:30 o'clock, in Winston Hall. All members as well as visitors are asked to come, as this will be the last meeting of the year.

A.S.M.E. Meeting

will be held Tuesday afternoon at 1:30 o'clock in Page Hall. All members are urged to be present.

Cheer Leaders

and all men interested in leading cheers will meet with "Skip" Merriam in Pullen Hall on Tuesday evening, May 21, at 6:30 o'clock.

A.I.E.E. Meeting

Tuesday, May 21, at 7:00 p.m. Program will consist of talks by W. W. Hammond and C. H. Belvin on "Lighting of Airways and Airports" and "How the Movies Are Talking and Singing." All electrical students, and visitors, are cordially invited.

Howard Simmerson, Dallas Holoman, Jr., Henry Brock, Leslie Vipond, John Litchfield.

State College "Grandsons' Club" entertained last Wednesday night at a banquet in the college cafeteria, at which nine members and Dean I. O. Schaub and Registrar E. B. Owen were present. This was the first real meeting of the newly organized club, composed of sons and daughters of State College.

The institution as it was in the early nineties was pictured by Mr. Owen, who said that in '94 the school was composed of several buildings which were heated by stoves and lighted by oil lamps. Interesting happenings of the day were related, in which he said he could tell those who had the trick, but he would not. For instance, he said that one fellow was coming to Raleigh on the train for the first time and that when the train went through Garner some one yelled Raleigh and the fellow jumped off the train.

Dean I. O. Schaub, a graduate of State about 1900, and who had the first daughter enrolled at State, gave the club some history concerning the athletics of the college, and told of the first round dance ever held here and the result.

Twenty-nine boys and one girl are eligible for membership at the present time. Those present at the banquet were: R. G. Vick, A. A. Jackson, E. G. Couch, E. H. Meacham, A. L. Weaver, A. H. Tucker, and Professors W. M. Hicks, F. B. Meacham, and Dean I. O. Schaub and Miss Schaub and Registrar E. B. Owen.

Plans Being Made For Receiving Next Year Freshmen By Cabinet

Joe E. Moore, president of the Y. M. C. A., led the Freshman Friendship Council in a discussion Tuesday evening, May 13. Arrangements for next year's incoming freshman class were made. Plans are now being made for the New Student Committee, which will be composed largely of members of the present Friendship Council.

The New Student Committee, which also includes the Y. M. C. A. Cabinet, will return the day before the new freshman class arrives, and will welcome the new students to the campus. The Friendship Council is backing a movement to make the "Y" more homelike for new men. More games will be provided, new records are to be furnished for the Victrola, and many other improvements to the "Y" are to be made.

AGRICULTURAL ENGINEERS ELECT WEAVER CHAIRMAN

Succeeds Professor S. P. Lyles as Chairman of Southern Section

At a recent meeting of the Southern Section of the American Society of Agricultural Engineers, held at Atlanta, Professor D. S. Weaver, of the agriculture engineering department of State College, was elected chairman of the Southern Section, succeeding Professor S. P. Lyles of the University of Georgia.

Professor Weaver has served the section as chairman of its program committee for two years and as secretary-treasurer for the past year, and has taken an active part in the development of the society. This society is composed of the teaching, extension, and research divisions of the various state colleges, field and factory representatives of companies manufacturing farm machinery, roofing material, cement, and related products; and agricultural engineers from development projects as well as consulting agricultural engineers and those with the United States Department of Agriculture, Division of Public Roads.

The colleges in this section are as follows: V. P. L. N. C. State, Clemson, Universities of Georgia, Florida, Arkansas, Tennessee, and Kentucky, Alabama Polytech Institute, Mississippi A. and M., and Louisiana State University.

Other officers of the Southern Section of the American Society of Agricultural Engineers are: First vice-president, E. R. Raney, of Texas A. and M., formerly of N. C. State; second vice-president, J. W. Carpenter, of Mississippi A. and M.; secretary-treasurer, E. C. Easter, of the Alabama Power Company.

State Debaters Send Adopted Resolutions Dixie Debate League

In order to have better understanding in southern intercollegiate forensic contests, the Forensic Council of this institution this week sent the following letter to members of the Dixie Debating League, of which State College is a member:

"The Forensic Council of the North Carolina State College submits for your consideration and vote the following resolution:

"Whereas it would seem that intercollegiate debate should be an undergraduate, amateur activity, comparable in the field of mental development and training to football, baseball, basketball, track, etc., in the field of athletics; and

"Whereas the rules for all intercollegiate contests in athletics, oratory, and essays are strict in demanding postgraduates and professionals;

"Therefore, be it resolved, That the Dixie Debating League adopt the following eligibility rules for participants in the contests held under the auspices of the league and for the league championship:

"1. That no speaker shall represent a member institution in a league contest who holds a baccalaureate degree of any kind.

"2. No speaker shall represent a member institution who has had more than three years experience in intercollegiate debating above the freshman year, and that if a student in his freshman year is a member of a regular college debate team, he shall not have more than two years additional experience.

"3. That no speaker shall represent a member institution who has ever received pay for instructing classes in any phase of public speaking, for coaching debate teams, for work as an ordained or licensed minister of the gospel, or for work as an attorney-at-law.

"Signed: C. C. Cunningham, chairman; E. W. Buchanan, H. H. Burroughs, A. L. Aydtlett, J. B. Litchfield, W. R. Dixon, L. R. Mercer, J. H. McKinnon, L. P. London.

"Each member institution is asked to vote on the above resolution, in whole or in part, and to send your vote either to the president, Hubert C. Hayes, of the University of Alabama, or to the secretary-treasurer, A. E. Garrett, College of William and Mary."

ALUMNI DAY WILL BE HELD AT STATE COLLEGE JUNE 3

Monday, June 3, will be Alumni Day at North Carolina State College, when classes of 1899, 1900, 1901, and 1902, 1918, 1919, 1920, and 1921 will hold reunions in connection with commencement exercises.

In addition to these eight classes, Dean E. L. Cloyd, who is secretary of the general alumni association, has announced, the class of 1904 will return to the campus for its twenty-fifth anniversary. E. C. Bagwell, of Savannah, Ga., general manager for the Seaboard Air Line Railway system, is president of the class.

Dean Cloyd and John L. Becton of Wilmington, alumni association president, are making every effort to have the largest number of alumni at the commencement exercises, June 2, 3, and 4.

Lawn Party For Regiment Given By Major Early

The State College campus was the scene of a most delightful lawn party Monday afternoon. The fête was given by the State College R.O.T.C. regiment by Major C. C. Early. The Meredith, St. Mary's, and Peace College girls were present.

Ever since Major Early has been at State he has given the State regiment a lawn fête every spring, and the college girls are always invited to review the students on parade and indulge in the fête afterwards. Monday's parade and entertainment was declared by all present to be superior to any before given.

Following the parade the entertainment committee, consisting of Wm. T. Garibaldi as chairman, Bernard Crocker, H. E. Atkinson, and Everett Couch, ushered the guests to the tables located under the tree, where they were served ice cream, cake, and cold drinks by the Y. M. C. A. cabinet.

The girls, wearing their bright colored spring dresses, and the young R. O. T. C. students forming a background of brown, while the non-military students stood by and looked on, was indeed a sight that is seldom seen on the State campus—in fact, it only comes once a year.

The regiment has been reviewed by distinguished generals, governors, and various other notables, but to be reviewed by beautiful college girls delighted the students far more than the notables; and to prove it, they stepped by in the best formation they have given this year.

As an added feature during the drill the first platoon of Company D, under the direction of Lieutenant J. M. Brock, winner of the recent competitive drill, executed special maneuvers.

Announcement was made to the effect that Monday would be the last parade day and the feature will be the graduation parade of the seniors.

Dr. W. P. Few, president of Duke University, and Dr. E. C. Brooks will be honor guests.

TWO STATE STUDENTS GIVEN POSITIONS BY A. F. GREAVES-WALKER

Two State College students, one a senior in ceramic engineering and the other a senior in mining engineering, have been offered fellowships at Rutgers University, New Brunswick, N. J. These fellowships pay \$800 per year and cover two years, with time for attaining the M.S. degree. The students are: A. McK. Greaves-Walker, ceramic engineering, and G. K. Miner, mining. Neither one of the students has definitely accepted the positions.

Seniors in this branch of engineering are being placed rapidly, and most of the juniors have been placed for the summer, states Prof. A. F. Greaves-Walker, head of the department of ceramic engineering.

J. J. MORGAN PROMOTED IN STATE DEPARTMENT

G. W. Forster, head of the department of agricultural economics, has received notice that Mr. J. J. Morgan, of Spring Hope, who majored in agricultural administration in the class of 1928, has been appointed assistant statistician in the State Department of Agriculture. Mr. Morgan made an excellent scholastic record while at State College, making the Phi Kappa Phi honorary fraternity.

Free Trial "Sells" Man This Smoke

Chicago, Illinois, July 12, 1928

Larus & Bro. Co., Richmond, Va. Gentlemen:

Replying to your circular letter of June 29, be informed that your sample packages were received. With them I received the pamphlet describing your product, which I was able to enjoy reading because there was not in the circular matter the usual distasteful sales talk which makes the recipient of a sample package feel obligated or uncomfortable.

I believe your practice of giving your prospect a sample and then letting him make up his own mind will gain you many more customers than will the usual modern sales practice of pushing the product down the prospect's throat. As a matter of fact, since receiving your sample and your advertising matter I smoked up the sample package and have since purchased a number of cans from neighborhood dealers, all of whom carry this tobacco in a city of this size.

I have found Edgeworth to be a satisfactory blend at a very reasonable price, and although my past acquaintance is brief, I look forward to a long membership in the Edgeworth Club.

Yours very truly,

Jeff Corydon

Edgeworth Extra High Grade Smoking Tobacco

Drink Coca-Cola Delicious and Refreshing

PAUSE AND REFRESH YOURSELF

WHOA! HOLD EVERYTHING HERE'S A LITTLE EXTRA-CURRICULAR DEMONSTRATION OF A PAUSE THAT'S GOING TO NEED PLENTY REFRESHMENT.

But you don't have to fall off a polony to demonstrate the pause that refreshes. Every day in the year 8 million people, at work and at play, find it in an ice-cold Coca-Cola—the best served drink in the world—the pure drink of natural flavors that makes a little minute long enough for a big rest.

OVER 8 MILLION A DAY

The Coca-Cola Co., Atlanta, Ga.

YOU CAN'T BEAT THE PAUSE THAT REFRESHES

IT HAD TO BE GOOD TO GET WHERE IT IS
