Mr. J. H. Rand, President
Remington Rand, Inc.
315 4th Avenue
New York 10, New York

Dear Mr. Rand:

For over a week I have been learning to use the Remington 60 Deluxe Electric Shaver you very kindly sent to me. I take great pleasure in participating in your plan to signalize the manufacture of your 15,000,000th typewriter.

I have not had any opportunity to play any part in the outstanding achievements of your company but know a great deal about them.

I know that the Shaver will be used with much satisfaction for many months to come and wish to thank you again for your kindness in sending it to me.

With every good wish for a continued success of Remington Rand, Inc.,

Sincerely yours,

Carey H. Bostian
Chancellor

IN SEPTEMBER 1954, we celebrated a production milestone—the manufacture of our 15,000,000th typewriter—achieved after producing the first practical typewriter in 1873. This anniversary gives us an opportunity to acknowledge the part played by friends and associates in this achievement. We are therefore sending you, as a representative American leader, the enclosed new Remington 60 DeLuxe Electric Shaver with our appreciation and best wishes.

IN REPLY REFER TO:

Dear Sir:

We appreciate the recent efforts made by members of your staff to help the Raleigh office of the Bureau of Census locate used equipment for use in this office. Through the courtesy of Mr. Gibson and Mr. Parrish we were furnished 2 3x6 ft. tables, 2 wooden arm chairs, and one bookcase. These items were secured due to the remodeling of the old Library Building. I was informed that they need not be returned but passed on to some other institution which might utilize them.

We appreciate sincerely your cooperation with the Bureau of Census and your efforts to save the taxpayers unnecessary expense. If you later decide any manner in which you prefer that this equipment should be disposed of, please notify this office during November of this year.

Sincerely yours,

Robert M. Reams
