SPRING 1987 AFRO-AMERICAN COLLOQUIA

The Provost's Office will resume its  
AFRO-AMERICAN LUNCHEON COLLOQUIA at  
12 Noon in the Faculty Senate Chambers  
of the D. H. Hill Library on alternating  
Wednesdays and Thursdays this semester.

Lecturers scheduled to make presentations  
are: DR. FAHEEM ASHANTI, January 28;  
DR. AMASSA FAUNTLEROY, February 12;  
DR. BILL HARVEY, March 11; and  
DR. CAROLYN LOVE, April 9, 1987.

Faculty, students and staff are  
invited to bring lunch and partici-  
pate. Discussion period to follow  
presentations.

Wednesday, January 14, 1987

## OUTSTANDING TEACHER NOMINATIONS FOR '86-'87 NOW BEING ACCEPTED BY SCHOOL COMMITTEES

School Selection Committees are currently receiving nominations of teaching faculty for recognition as Outstanding Teachers and Alumni Distinguished Professors. All NCSU students, faculty, and alumni are eligible to submit nominations to the appropriate school committee. To be recognized as an Outstanding Teacher a faculty member must have taught a minimum of five semesters at NCSU, be currently teaching not less than half of the normal teaching load in their school, and have demonstrated excellence in teaching. Alumni Distinguished Professors must meet these same criteria and must have been recognized as an Outstanding Teacher in a former year.

Faculty members are encouraged to submit nominations of their peers and should check with the faculty or student co-chairman of their School Selection Committee listed below concerning the form and documentation needed. Unless otherwise indicated by the School Committee, nominations should be submitted by Jan. 20.

Agriculture and Life Sciences: Dr. H. B. Moore, 4315 Gardner, Box 7613, and Mr. Robert W. Luther, 800-C Gorman St., Raleigh 27606;

Design: Prof. Austin Lowrey, 319-C Brooks, Box 7701, and Mr. Bruce Fisher, c/o Design Council, Box 7701;

Education: Dr. J. L. Crow, 510-D Poe, Box 7801, and Mr. Kevin Hodge, c/o School of Education, Box 7801;

Engineering: Dr. E. M. Afify, 3177 Broughton, Box 7910, and Mr. Thad Leister, 3001-B Kings Ct., Raleigh 27606;

Forest Resources: Dr. E. A. Wheeler, 1022 Biltmore, Box 8005, and Mr. James Stuber, 6117 Hillsborough Rd., Raleigh 27606;

Humanities and Social Sciences: Dr. P. N. Reid, 334 1911 Bldg., Box 8107, and Ms. Brenda Flory, 310 Bagwell, Raleigh 27607;

Physical and Mathematical Sciences: Dr. E. J. Dietz, 503-A Cox, Box 8203, and Mr. Jeff Cantrell, 417 W. Horne St., Raleigh 27520;

Textiles: Dr. J. W. Rucker, 209 Clark, Box 8301, and Ms. Martha Lambeth, 4105-D Woodlake Place, Raleigh 27607;

*CME*  
Veterinary Medicine: Dr. D. J. Moncol, Box 8401, and Ms. Meg Sutherland-Smith, SVM Dean's Office, Box 8401.

## INTERNATIONAL CONFERENCE ON QUANTITATIVE GENETICS TO BE HELD AT STATE MAY 31-JUNE 5, 500 TO ATTEND

NCSU will host the Second International Conference on Quantitative Genetics May 31-June 5. About 500 Quantitative Geneticists from 40 countries are expected to attend. Topics to be covered by invited speakers and contributed posters include plant and animal breeding, including the possible role of molecular genetics, human genetics, forestry, evolutionary and ecological genetics. The conference will continue NCSU's longstanding leadership in the field of Quantitative Genetics, according to conference officials. Registration forms are available from the conference secretary, Department of Statistics, Box 8203, Campus.

## PROVOST'S OFFICE TO RESUME AFRO-AMERICAN COLLOQUIA

The Provost's Office will resume its Afro-American Luncheon Colloquia at 12 noon in the Faculty Senate Chambers of the D. H. Hill Library on alternating Wednesdays and Thursdays this semester.

Lecturers scheduled to make presentations are: Dr. Faheem Ashanti, Jan. 28; Dr. Amassa Fauntleroy, Feb. 12; Dr. Bill Harvey, March 11; and Dr. Carolyn Love, April 9.

Faculty, students and staff are invited to bring lunch and participate in the discussion period to follow the presentations.

## DIPLOMA ORDER REQUESTS FOR GRADUATE STUDENTS MUST BE FILED BY JAN. 28 WITH GRADUATE OFFICE

Graduate students anticipating graduation at the end of this semester on May 9, must file a Diploma Order Request card with the Graduate School office, 104 Peele Hall, no later than Wednesday, Jan. 28. Diplomas will be ordered only for those students having a Diploma Order Request card on file with the Graduate School. Students should contact their departments in order to secure the necessary cards.

RETIREMENT LUNCHEON FOR REBECCA STEPHENSON  
JAN. 27; VETERAN OF 22 YEARS WITH ANIMAL SCIENCE

The Department of Animal Science will host a retirement luncheon in honor of Ms. Rebecca A. Stephenson who is retiring after 30 years of service with North Carolina State Government, the last 22 of which were in the Department of Animal Science as departmental budget clerk. Friends and coworkers are invited to attend the luncheon which will be Tuesday, Jan. 27, from 11:30 a.m. to 2:00 p.m. at Balentines Cafeteria in Cameron Village. Call Jackie Riggsbee or Patsy Narron at Ext. 2755 for information regarding reservations prior to Friday, Jan. 23.

AFRO-AMERICAN DAY TO BE SAT., FEB. 7, BEING  
SPONSORED BY ADMISSIONS FOR PROSPECTIVE FRESHMEN

The Admissions Office is sponsoring an Afro-American Visitation Day on Saturday, Feb. 7 beginning at 11:00 a.m. in the University Student Center. All interested Afro-American prospective freshmen have been invited to attend. Interested school and departmental faculty are cordially invited. Faculty planning to attend are asked to advise Assistant Director Sotello Long so they may be recognized.

RECREATIONAL SWIMMING SCHEDULE FOR JANUARY

Lap Swimming (Faculty, Staff, & Students)

Monday-Thursday	7:00 a.m. - 10:00 p.m.
Friday	7:00 a.m. - 8:45 p.m.
Saturday	10:00 a.m. - 4:30 p.m.
Sunday	1:00 p.m. - 4:30 p.m.

General Recreational Swimming (Faculty, Staff, & Students)

Monday-Thursday	7:00 a.m. - 10:00 p.m.
Friday	7:00 p.m. - 8:45 p.m.
Saturday	10:00 a.m. - 4:30 p.m.
Sunday	1:00 p.m. - 4:30 p.m.

Family Swims (For University families; must be accompanied by faculty, staff or student)

Wednesday	7:00 p.m. - 10:00 p.m.
Saturday	10:00 a.m. - 4:30 p.m.
Sunday	1:00 p.m. - 4:30 p.m.

When using the Aquatic Center, please swim only in the areas that are designated as open by the University lifeguard.

Special Events

Jan. 10th - Saturday	NCSU vs. Maryland Swimming
Jan. 17th - Saturday	NCSU vs. University of Virginia Swimming
Jan. 18th - Sunday	NCSU vs. University of Virginia Swimming
Jan. 22 & 29-Thursday	Intramural Swim Meets

(Designated areas of the pool will remain open for recreation swim during all special events.)

FINAL DOCTORAL EXAMINATIONS

Name: Ms. Maryvonne Fuentes  
Date and Time: Jan. 13, 10:00 a.m.  
Room No: 210 Dabney  
Major Field(s): Chemistry  
Major Professor(s): Drs. A. F. Schreiner and M. L. Miles  
Thesis Title: "Characterization of the Excited States of Several Carbonyl Compounds of Chromium, Molybdenum, and Tungsten, and Several Dithiocarbamate Compounds of Titanium and Zirconium"

Name: Mr. Stephen Frank Marsh  
Date and Time: Jan. 16, 1:00 p.m.  
Room No: 3533 Gardner Hall  
Major Field(s): Plant Pathology  
Major Professor(s): Drs. G. A. Payne and K. J. Leonard

Thesis Title: "Amino Acid Metabolism in Relation to Aflatoxin Production by Aspergillus flavus"

Name: Mr. Tahlm Sudaryanto  
Date and Time: Jan. 19, 2:30 p.m.  
Room No: 5 Patterson Hall  
Major Field(s): Economics  
Major Professor(s): Dr. P. R. Johnson  
Thesis Title: "The Potential Impacts of Liberalized Trade Policies in the United States and the European Economic Community on International Markets for Sugar"

Name: Mr. Tom Charles Creswell  
Date and Time: Jan 29, 9:00 a.m.  
Room No: 3533 Gardner Hall  
Major Field(s): Plant Pathology  
Major Professor(s): Dr. R. D. Milholland  
Thesis Title: "Occurrence and Development of Stem Blight of Blueberry in North Carolina caused by Botryosphaeria dothidea"

SINGERS SOUGHT FOR BERLIOZ REQUIEM CHORUS

Any faculty or staff member who would like to sing in the Chorus of the Berlioz Requiem should contact Milton Bliss (Ext. 2981) of the Music Department as soon as possible. Scores will be provided. Performance will take place April 4 in Reynolds Coliseum. The N.C. Symphony under the direction of Gerhard Zimmermann will perform the piece, aided by Brass Players from N.C. State. The event is under the auspices of the Friends of The College.

TIP-OFF CLUB LISTS TENTATIVE DATES FOR MEETINGS

Tentative dates for Tip-Off Club meetings for the rest of the year are as follows: Jan. 20, Feb. 4 and 17, and March 3. All meetings are held at the Faculty Club at 12 noon. Notices of meetings will be published in the Official Bulletin prior to each meeting.

### CAMPUS TELEPHONE REPAIR SERVICES

Effective Jan. 1, the University changed vendors for telephone repair service. The telephone number to be called for reporting telephone equipment repairs is now 481-0006. This number should be noted on the inside front cover of the University Directory, replacing the AT&T number 800-242-2121. Note that this number is to be used for equipment repair requests only, line problems should continue to be reported to Southern Bell at 800-222-8240. Dial "0" for assistance from the campus operator if there is uncertainty about which service is required.

### VAN SERVICE TO RUN BETWEEN VET SCHOOL AND MAIN CAMPUS; TIME SCHEDULE CHANGED

The vanpool will depart from the School of Veterinary Medicine every hour on the half-hour (7:30 a.m. to 5:30 p.m.) and from D. H. Hill Library on the hour (8:00 a.m. to 5:00 p.m.). There will be no intermediate stops. The first and final round trip will take approximately 15 minutes, with approximately 9 minutes for intermediate trips. It will be free of charge this first year to anyone displaying valid NCSU identification.

### CAREER PLANNING AND PLACEMENT CENTER TO OFFER WORKSHOPS ON JOBS, CAREERS, USE OF CENTER

#### For Adult Students and Alumni:

"What Do You Want To Be Now That You've Grown Up?" Saturday, Jan. 24, 9:30 a.m.-1:30 p.m. (Registration required)

"Presenting One's Self During The Job Search And Beyond." Saturday, Feb. 7, 9:30 a.m.-1:30 p.m. (Registration required)

#### For Seniors and Graduate Students:

Orientation sessions for those planning to use placement center. (No registration required) Jan. 14 and 15 from 5-6 p.m. in Room 28, Dabney.

#### Resume Writing Workshops:

Jan. 14	4:30 - 5:30 p.m.	214 Cox
Jan. 20	2:20 - 3:10 p.m.	216 Poe
Jan. 22	5:00 - 6:00 p.m.	206 Cox

#### Interview Technique Workshops:

Jan. 15	4:00 - 5:30 p.m.	206 Cox
Jan. 21	5:30 - 6:30 p.m.	214 Cox
Jan. 28	4:00 - 5:30 p.m.	214 Cox

#### For students who need help planning their occupational goals:

Career Planning Workshop (Registration required) Four part workshop. Jan. 27, 29, Feb. 3, 5 from 11:00 a.m.-12 noon in Room 358, Harrelson.

### PHYSICAL EDUCATION LISTS SPORTS OPPORTUNITIES

Intramural Men's and Women's Open Table Tennis, Handball, Co-Rec Table Tennis, and Men's Open Squash Tournaments - Registration closes Jan. 14.

Women's Lacrosse Club - Persons interested in forming a women's lacrosse club should attend an organizational meeting at 7:00 p.m. on Thursday, Jan. 15 in Room 2037, Carmichael Gymnasium.

The following clubs affiliated with Intramural-Recreational Sports will have organizational meetings at the designated times and places in Carmichael Gymnasium.

<u>Club</u>	<u>Date</u>	<u>Time</u>	<u>Location</u>
Badminton	Fri., Jan. 16	6:00 p.m.	Court 6
Outing	Wed., Jan. 14	7:00 p.m.	Room 2036
Sailing	Wed., Jan 14	7:00 p.m.	Room 104
Snow Ski	Wed., Jan 14	7:00 p.m.	Room 2037
Water Ski	Thurs., Jan 15	7:00 p.m.	Room 2036

Intramural Men's and Women's Open Bowling - Registration closes Jan. 21. All faculty and staff are welcome to participate. For more information, Ext. 3161.

Men's and Women's Open Swim Meet - Registration opens Jan. 19 and closes Jan. 26. The meet will be held Jan. 29.

### MRS. NORDAN RETIRING AFTER 31 YEARS OF SERVICE TO BE HONORED AT LUNCHEON AT FACULTY CLUB

Mrs. Elizabeth (Lib) Nordan, administrative assistant in Biological and Agricultural Engineering, is retiring after 31 years of service. Friends and colleagues are invited to attend a retirement luncheon in her honor at the NCSU Faculty Club Jan. 30, at 12:00 noon. Persons planning to attend should contact Thelma Utley (Ext. 3121) or Brenda Mason (Ext. 3101) for additional information by Jan. 21.

### CHAMBER MUSIC PLAYERS SOUGHT

Those interested in playing chamber music during the Spring Semester should contact Dr. Phyllis Vogel (Price Music Center, Room 212) at Ext. 2981 or 8750. One credit will be given for participation in the Chamber Players (Course number is 495A). Various small ensembles will be organized. Rehearsal times will be arranged according to individual schedules.

### RECEPTION HONORING DR. DAVID M. CATES JAN. 22; VETERAN OF 31 YEARS WITH SCHOOL OF TEXTILES

Dr. David M. Cates, Professor of textile chemistry, is retiring after 31 years with the School of Textiles. A reception in his honor will be held on Jan. 22. Those interested in attending should call Ms. Sharon Thomas in the Textile Chemistry Department, Ext. 2551.

## UNDERGRADUATE COURSE AND CURRICULUM PROPOSALS

The University Courses and Curricula Committee meets each Wednesday from 12:10 to 2:00 p.m. in 206 Mann Hall. Persons who wish to speak concerning a published agenda item should contact the Chairman, Kerry S. Havner, Ext. 2332, in advance of the meeting day.

### Proposed Revisions in Zoology Curriculum:

New requirements will be an additional calculus, statistics, or computer science course; three new zoology core courses; and two additional zoology labs.

### Proposed New Undergraduate Courses:

LAR 494--Internship in Landscape Architecture. 3-6; Preq: 3.0 GPA and Junior standing.

LAR 495--Independent Study in Landscape Architecture. 1-3; Preq: 3.0 GPA and Junior standing.

PD 494--Internship in Product Design. 3-6; Preq: 3.0 GPA and Junior standing.

PD 495--Independent Study in Product Design. 1-3; Preq: 3.0 GPA and Junior Standing.

VD 495--Independent Study in Visual Design. 1-3; Preq: 3.0 GPA and Junior standing.

ZO 205--Introduction to Cellular and Developmental Zoology. 4(4-0); Preq: BS 100.

ZO 208--Introduction to Organismal and Evolutional Zoology. 4(4-0); Preq: BS 100.

LAR 400--Landscape Architecture Studio. 6(0-9); Proposed change in title, prerequisite, and description.

LAR 430--Site Planning. 3(2-2); Proposed change in content, prefix, contact hours, prerequisite, and description.

LAR 443--Landscape History. 3(3-0); Proposed change in prefix, title, prerequisite, and description.

LAR 444--History of Landscape Architecture. 3(3-0); Proposed change in prefix, prerequisite, and description.

LAR 457--Landscape Construction: Materials, Methods and Documentation. 3(2-3); Proposed change in content, prefix, title, contact hours, prerequisite and description.

PD 255--Contemporary Manufacturing Processes I. 3(3-0); Proposed change in prefix and description.

PD 256--Contemporary Manufacturing Processes II. 3(3-0); Proposed change in prefix, title, and description.

PD 400--Product Design Studio. 6(0-9); Proposed change in title and description.

VD 255--Visual Design Materials and Processes I. 3(2-2); Proposed change in prefix, number.

VD 256--Visual Design Materials and Processes II. 3(2-2); Proposed change in prefix, number, and description.

VD 400--Visual Design Studio. 6(0-9); Proposed change in title.

ZO 305--Cellular and Animal Physiology Laboratory. 2(0-5); Proposed change in number, prerequisite, and description.

Course Reviews: LAR 400, LAE 430, LAR 443, LAR 444, LAR 457, PD 255, PD 256, PD 400, VD 255, VD 256, VD 400.

## SPRINGBOARD DIVING CLASSES TO BE OFFERED

Weekend beginner or intermediate springboard diving classes will be offered for school age youngsters (age 7 through teens). Instruction will be under the direction of Mr. John Candler, NCSU Diving Coach, and will take place in the Carmichael Gym Natatorium. Sessions will be held for 10 weeks beginning Saturday, Feb. 7. Course Fee - \$20.00. Contact the Division for Lifelong Education, Ext. 2265.

## GRANTS

PROF. JEROME KOHL, nuclear engineering, \$50,000, NC Division of Health Services, Educating and Assisting the Small Hazardous Waste Generators of North Carolina.

DR. WENDY F. BOSS, botany, \$20,000, US Army, Membrane Fusion: The Role of Polyphosphatidylinositol.

DR. THOMAS J. SHEETS, entomology, \$20,000, University of Florida, IR-4 Southern Region Leader Laboratory Cooperative Research for Minor Use Pesticides and Biologics Registration.

DR. BRUCE HAMMERBERG, microbiology, pathology & parasitology, \$44,384, World Health Organization, Pathogenic Mechanisms of Symphadenopathy in Lymphatic Filariasis.

MS. VICKI L. MARMAROSE, Stewart Theatre, \$4,250, Southern Arts Federation, Acting Company Residency.

MS. VICKI L. MARMAROSE, Stewart Theatre, \$1,800, Southern Arts Federation, Asolo State Theatre Residency.

Dr. William Grant is a Professor of Zoology at North Carolina State University. He came to the University in 1966 as a graduate student and pursued his Master's and Doctorate degree here receiving the Ph.D. in 1972.

After working at State University in New York from 1971-1974 he returned to North Carolina State University in 1974.

He is a native of South Carolina and he did his undergraduate work at Livingston College in Salisbury, North Carolina. He is an outstanding teacher, researcher and public servant.

Will you join me in welcoming Dr. Grant as he speaks to us on "The Role of Eosinophils in Parasitic Infections" .

**CIVIC AND COMMUNITY ACTIVITIES:**

(List with dates and location, the names of organizations, and leadership posts, if any.)

The location of each organization listed below is Raleigh, NC.

Rush Metropolitan African Methodist Episcopal (A.M.E.) Zion Church (1976 - present).  
Sunday School Teacher, Member of Men's Chorus, President of Laymen's Council.  
Treasurer, Raleigh District Laymen's Council of the A.M.E. Zion Church (1982 - present).  
Vice President, Phi Lambda Chapter, Alpha Phi Alpha Fraternity, Inc. (January 1983-December 1984).  
Den Leader, Webelos Scouts, Pack 193 (1981-85).  
Member, Raleigh-Wake Chapter, Livingstone College Alumni Association (1969-71 and 1974-present).  
Member, North Carolina State University Alumni Association (1984-present).

**BACKGROUND:**

(Include a brief summary of your background through high school. Information about your family, education, employment, and service activities may be listed.)

I was born in a small rural community (Zion) near Mullins, SC on December 13, 1943 and am the youngest of three brothers. My parents, Mrs. Blanche Grant and the late Mr. Paul Grant, Sr., completed the ninth and sixth grades, respectively, in spite of severe economic situations and limited access to educational opportunities. They encouraged their sons to strive for excellence.

I completed both Zion Elementary School, Zion, SC (1956) and Palmetto High School, Mullins, SC (1961) with highest honors. Both were small, all-Black schools, and the teachers at those institutions provided a sound educational background and an

Grant, William Cullen

PROFESSIONAL HISTORY (continued from page 1):

Responsibilities and Major Accomplishments

North Carolina State University (1974-present)

I have engaged in teaching, research, academic advising, and health career advising at this institution since 1974. In addition, I have worked on more than 25 university, school, and departmental committees, having served as chairman or an officer of several of them. Some of my accomplishments are described below:

1. As a result of my efforts in teaching, I was named to the North Carolina State University Academy of Outstanding Teachers on two occasions (1980-81 and 1984-85). Among the courses that I have taught are General Biology, General Zoology, Basic Anatomy and Physiology, Comparative Anatomy, and Ultrastructure of Parasites (a special graduate level course). I have also been a guest lecturer in graduate level courses in Helminthology and in Advanced Parasitology. In addition, I have supervised about 30 students in independent study projects and an honors teaching course.
2. A health career advising program was instituted that consists of my acquiring specialization to counsel students interested in the primary health sciences and allied health sciences. About 100 students are served annually. In addition, I have held numerous health career seminars that featured invited speakers, thus enabling students to confer with health educators and practitioners in their areas of interest.

I have been a member of the University Preprofessional Health Sciences Review Committee since its inception in 1975 and chairman since 1978. Sixty to seventy-five of our students are admitted annually to medical, dental, and optometry schools.

3. In addition to health career advising, I have been involved heavily in academic advising, my advisees ranging from 29 during my first year at this institution to 94 in 1978, and currently being 65 in number. I have served as a member and/or chairman of numerous Graduate Advisory Committees and serve currently as co-chairman of one Ph.D. committee and a member of five Ph.D. committees and three Master's committees.
4. Since 1983, a portion of my time has been devoted to recruitment and retention of Afro-American students in the School of Agriculture and Life Sciences (SALS). I work with the Associate Dean of SALS, and my recruitment efforts include contacting students through letters, telephone calls, and visits to public schools. Retention efforts include individual counseling and referrals and the monitoring of students' progress. Emphasis is placed on promoting interaction between students and their advisors and professors. Progress has been made both in recruitment and retention.

Grant, William Cullen

5. My research is in parasitology, with emphasis on the ultrastructure and cytochemistry of parasitic worms and cellular aspects of the host-parasite relationship. Most of my efforts have been directed toward schistosomiasis, a major world health problem. Several publications have resulted from this work and are listed on a separate page.

State University of New York, College at Old Westbury (1971-74)

I participated in teaching, advising, and committee activities at the College at Old Westbury. Research facilities were unavailable during the first two years due to relocation and construction of a new campus. Specialized equipment needed for my research in electron microscopy was unavailable. In addition to construction of a new physical plant, new curricula were developed in all programs. Some of my accomplishments are listed below:

1. As Chairman of the Biology Curriculum Planning Committee, I assisted my colleagues to develop a new four-year curriculum in biology.
2. I taught introductory biology courses that provided a basis for students' further study of the life sciences. Many of the students enrolled subsequently in graduate schools or health professional schools.
3. I served as a member of a planning committee that negotiated a transfer agreement between the College at Old Westbury and the School of Nursing, State University of New York at Stony Brook.

EDUCATION (graduate and undergraduate):

	Institutions	Field(s) of Concentration	Dates	Degree
3	North Carolina State University, Raleigh, NC	Zoology	1969-1972	Ph.D.
2	North Carolina State University	Zoology	1966-1969	M.S.
	University of Iowa, Iowa City, IA	Zoology	1965-1966	
1	Livingstone College, Salisbury, NC	Biology	1961-1965	B.S.

PROFESSIONAL HO  
(List with dates)  
Honors and  
ETC.

Honors, Fellowships, etc. Who's Who among Students in American Universities and Colleges (1963-65). Student trainee grant (Summer 1964) and research assistantship (Summer 1965) at Oak Ridge National Laboratory, Oak Ridge, TN. Summa Cum Laude, Livingstone College (1965). Danforth Foundation Graduate Fellowship (1965-72).

**PUBLICATIONS:**

(Attach a list of books, documents and monographs, articles, book reviews, compositions and abstracted works.)

Announcing  
the  
FALL 1986 AFRO-AMERICAN COLLOQUIA

The Provost's Office is pleased to resume its  
AFRO-AMERICAN LUNCHEON COLLOQUIA at 12 Noon in the  
Erdahl-Cloyd Wing of the D. H. Hill Library on  
Wednesday, SEPTEMBER 24, 1986.

Mr. Gerald Barrax, Associate Professor of  
English, School of Humanities and Social Science  
will present Poetry Readings from selected works.

Faculty, staff, students and "poets-at-heart"  
are invited to bring lunch and join this gathering.  
Discussion period to follow.

Other lecturers scheduled for the Fall  
semester are Dr. Don Locke, Dr. Pamela Banks-Lee  
and Dr. Clyde Chesney.

The Afro-American Colloquia series will be held on  
alternating Wednesdays and Thursdays of each month.

THE AFRO-AMERICAN COLLOQUIUM SERIES

- January 22 Dr. William C. Grant  
The Role of Eosinophils in Parasitic Infections
- February 13 Dr. Thoyd Melton  
Mastering the Gene
- March 12 Dr. Winsor Alexander  
Algorithms and Computer Architecture for High Speed  
Signal Processing
- April 10 Dr. Wilma C. Peebles-Wilkins
- May 14
- June 12
- July 9
- August 14
- September 10 *Ms. Gerald Barrow Aug. 27*
- October 9 Dr. Don Locke *Univ. Educ. Sept 25*
- November 12 *Dr. Pamela Danks-Lee, Septiles 3481*
- December 11 *Dr. Clyde Cherry, Ag. & Life Sci.*

Announcing  
the  
SPRING 1987 AFRO-AMERICAN COLLOQUIA

The Provost's Office will resume its  
AFRO-AMERICAN LUNCHEON COLLOQUIA at  
12 Noon in the Faculty Senate Chambers  
of the D. H. Hill Library on alternating  
Wednesdays and Thursdays this semester.

Lecturers scheduled to make presentations  
are: DR. FAHEEM ASHANTI, January 28;  
DR. AMASSA FAUNTLEROY, February 12;  
DR. BILL HARVEY, March 11; and  
DR. CAROLYN LOVE, April 9, 1987.

Faculty, students and staff are  
invited to bring lunch and partici-  
pate. Discussion period to follow  
presentations.

## MEMORANDUM

To: Dr. Faheem Ashanti

From: Regelyn W. Edwards for Dr. Lawrence M. Clark

Subject: The Spring 1987 Afro-American Colloquia

Thank you for consenting to participate in the Spring 1987 Afro-American Colloquia. Attached is the announcement sent to Black faculty and staff. Please provide your topic at least two weeks before your presentation.

The purpose of the Colloquia is twofold: to afford Black faculty and staff an opportunity to make a presentation in their field of expertise or interest and to give the audience a better understanding of the topic and the faculty member's contribution to his/her field.

Each presenter is asked to prepare a 20-minute presentation followed by a discussion period. Since this is the lunch hour, attendees are encouraged to bring lunch to fully utilize this time together.

We look forward to your presentation. Please contact Dr. Clark's office (3148/3409) if you have any questions or if you have need of audio-visual aids for your presentation.

Dear Chandra and Charles:

You are invited to do a presentation for the Afro-American Colloquium which is held monthly on alternating Wednesdays and Thursdays from 12 noon until 1 p.m. in the Senate Chambers of the Erdahl-Cloyd Wing of D. H. Hill Library.

The purpose of the Colloquium is two-fold: it affords Black faculty members an opportunity to make a presentation in their field of expertise and gives the audience a better understanding of their topic and the faculty member's contribution to his/her field.

We are very proud of the contribution you make to this University and would like to have you share during a lunch hour presentation with fellow faculty members and staff. We hope December 11 is available on your calendar for you to be with us. If not, please let us know another date. If you have any questions, please call me at 737-2688 or 3148.

We hope you can participate in this endeavor.

Sincerely,

*Regelyn W. Edwards*

From: Regelyn Wilder  
Provost's Office

Re: Article for the OFFICIAL BULLETIN

Would you please place the following in the upcoming OFFICIAL BULLETIN.

DR. WILLIAM C. GRANT TO ADDRESS THE SPRING 1986 AFRO-AMERICAN COLLOQUIUM

The Spring 1986 Afro-American Colloquium Series will begin Wednesday, January 22, 1986 from 12-1 p.m. in the Faculty Senate Chambers of the D.H. Hill Library. Dr. William C. Grant, Professor of Zoology will be discussing "The Role of Eosinophils in Parasitic Infections," A question-answer period will follow the discussion.

*should be colloquia*

The Afro-American Colloquium Series will be held monthly on alternating Wednesdays and Thursdays with guest lecturers from the University community.

Interested students, faculty and staff are invited to attend this lunch hour session.

The Afro-American Colloquium Series is sponsored by the Office of the Provost.

## MAINTENANCE OF FIRE EXTINGUISHERS NOW HANDLED BY CENTRAL STORES

As of February 1, Central Stores began maintenance of campus fire extinguishers previously handled by Public Safety.

When Public Safety inspects a building, they will at this point advise the department whether extinguishers need recharging. It is the department's responsibility to deliver the extinguisher(s) to Central Stores. Central Stores will make an exchange if they have an extinguisher identical or equivalent to the departments. The department will be billed for the recharge at the vendor's price.

If a new extinguisher is needed departments will be sold a new extinguisher from one of the vendors on state contract.

A department does not need to deliver extinguishers to Central Stores when the entire building is checked during hydrostatic testing. This service will be performed by Floyd Sellers and billed to departments by Central Stores. If an extinguisher is located in a corridor, departments within that building should check with Public Safety (Floyd Sellers at ext. 2568) to determine the department to be billed for services.

For further information, please contact Ext. 7238 or 2197.

## RCE PROFESSOR TO SPEAK AT COLLOQUIUM

Dr. Winsor Alexander, professor of electrical and computer engineering, will be the featured speaker of the Afro-American Colloquium, Wednesday, March 12, from 12-1 p.m. in the Faculty Senate Chambers of the D. H. Hill Library. His topic of discussion will be "Algorithms and Computer Architecture for High Speed Signal Processing." All faculty, staff and students are invited to attend. A question and answer period will follow the presentation.

## TIPOFF CLUB LUNCHEON

The Faculty and Staff Tipoff Club will hold a luncheon meeting on March 11 at 12:00 noon in the Faculty Club. The Coaches will discuss past and upcoming games. All faculty and staff are invited.

## FACULTY SENATE MEETING

The Faculty Senate will meet on Tuesday, March 11, at 3:10 p.m. in the Faculty Lounge and Senate Chambers, 2320 D. H. Hill Library. The agenda:

1. Approval of minutes from the previous meeting
2. Communications and Announcements - Remarks from Vice Chairman Ed Smallwood
3. New and Continuing Business
  - A. Pre-admission Certification for Hospital Admissions - Fran Weston, Supervisor, Payroll and Benefits
  - B. Third Reading: Professional Responsibilities - Elizabeth Suval, Chairman, Ad Hoc Committee for Women's Concerns
  - C. Second Reading: Departmental Leadership - Joe Marlin, Chairman, Personnel Policy Committee
  - D. First Reading: Faculty Senate Support of the Honors Convocation - Tom Honeycutt, Chairman, Academic Policy Committee
  - E. Issues of Concern to Senators
4. Reports
  - A. Informal Reports from Senate Standing Committees
  - B. Informal Reports from Senate Liaison to University Standing Committees
  - C. Informal Reports from Senate Liaison to School Administrative Committees
5. Adjournment

All members of the General Faculty and the elected officers of the Student Government are invited to attend meetings of the Faculty Senate.

## NEW HEALTH INSURANCE PROCEDURE REQUIRES AUTHORIZATIONS FOR HOSPITAL ADMISSIONS; SEMINARS ON COVERAGE PLANNED FOR MARCH

The State Comprehensive Health Plan has established a new program which requires prior authorization for all inpatient hospital admissions. The new program is called Pre-Admission Certification (PAC). Blue Cross/Blue Shield of North Carolina will administer the PAC program beginning March 1, 1986.

When a doctor suggests that insured persons and covered dependents be admitted to the hospital, the insured must advise the doctor that the hospital admission and length of stay must be certified by Blue Cross/Blue Shield of North Carolina

prior to admission. Emergency and maternity admissions must be certified within 48 hours or on the next working day. The doctor's office should contact Blue Cross and Blue Shield of North Carolina by telephone between 8:00 a.m. and 5:00 p.m. Monday through Friday at 1-800-672-7897. The PAC representative will determine certification within one hour in most instances.

If hospital admission and lengths of stay are not authorized by PAC after July 1, 1986, the insured individuals will be responsible for 50 percent of any in-hospital expenses up to a maximum of \$1,000 per fiscal year. The doctor's fees will be paid at the allowable and customary rates.

The Payroll and Benefits Office is presenting seminars to explain the new PAC program. The State Health Plan seminars will cover established benefits, premiums, claims procedures and the new preadmission certification program (PAC). Representatives from both EDS and Blue Cross/Blue Shield of North Carolina will be available. The seminars will be held in the auditorium in the Erdahl-Cloyd wing of the library on the following schedule.

<u>March 11, 1986</u>	<u>March 12, 1986</u>
8:00 a.m.- 9:00 a.m.	9:30 a.m.-10:30 a.m.
9:30 a.m.-10:30 a.m.	11:00 a.m.-12:30 noon

STEVE ROSS with his film "The Old Forest" (Southern Circuit '86), Erdahl-Cloyd Theatre, 8 p.m. FREE.

THURSDAY, 13th  
Film

THE SOUND OF MUSIC (Classic Hollywood Musicals Series), Stewart Theatre, 8 p.m. \$1.00/1.50. 737-3104.

## FINAL DOCTORAL EXAMINATIONS SCHEDULED

NAME: Mr. Fabiano R. Do Vale  
DATE: March 10  
HOUR: 1:30 p.m.  
ROOM NO: 3220 Williams Hall  
MAJOR FIELD(S): Soil Science  
MAJOR PROFESSOR(S): Dr. W. A. Jackson  
THESIS TITLE: "Ammonium-Potassium Interactions During Influx by Corn (Zea mays L.) Root Systems as Affected by Nitrogen and Potassium Status of the Roots"

NAME: Mr. Michael Craig Teague  
DATE: March 11  
HOUR: 2:00 p.m.  
ROOM NO: 500 Poe Hall  
MAJOR FIELD(S): Psychology  
MAJOR PROFESSOR(S): Dr. H. G. Miller  
THESIS TITLE: "Predictors of Organizational Diagnosis Entry"

NAME: Mr. Marty Ray Jacobson  
DATE: March 17  
HOUR: 1:00 p.m.  
ROOM NO: 4514 Gardner Hall  
MAJOR FIELD(S): Microbiology  
MAJOR PROFESSOR(S): Dr. P. E. Bishop  
THESIS TITLE: "Transcriptional Regulation of Nitrogen Fixation in *Azotobacter vinelandii* by Molybdenum"

NAME: Mr. Gregory Stanley Allgood  
DATE: March 17  
HOUR: 10:00 a.m.  
ROOM NO: 3533 Gardner Hall  
MAJOR FIELD(S): Toxicology  
MAJOR PROFESSOR(S): Dr. J. J. Perry  
THESIS TITLE: "Oxygen Toxicity in Thermophilic Bacteria"

## FILES AND FILING WORKSHOP

The Records Services Branch of the N.C. Division of Archives and History will conduct a Files and Filing Workshop on March 11, in Room 2, Patterson Hall.

The workshop aims at faster retrieval of information and cost savings through better use of equipment, supplies and staff time.

Call University Archives at Ext. 2273 to make reservations to attend either the morning session (9:00-11:30) or the afternoon session (1:00-3:30).

## "THE COLOR PURPLE: A DIALOGUE" SCHEDULED AT MCKIMMON MONDAY, MARCH 10 BY LIFELONG LEARNING

The Division for Lifelong Education has scheduled "The Color Purple: A Dialogue". Monday Evening, March 10, from 7:00 to 10:00 p.m., in the McKimmon Center.

SEMINAR-IBM 3090 WITH VECTOR FACILITY  
TO BE GIVEN AT TUCC, MARCH 19

A seminar on "IBM 3090 With Vector Facility" is scheduled for Wednesday, March 19, at 3:15 p.m. (coffee and discussion afterwards at 4:30 p.m. in the conference room at the front entrance to the Triangle Universities Computation Center, Research Triangle Park). The presentation by Maria Brumbaugh will begin with an overview of the IBM 3090 with emphasis on the Vector Facility and engineering/scientific support products. These will include references to FORTRAN with Interactive Debug, the FORTRAN Language Conversion Program (providing automatic conversion to VS FORTRAN LANGLVL77), and the engineering scientific subroutine library.

The Early Support Program (ESP) for the 3090 provided both users and IBM an opportunity to gain experience with the machine before general availability. Information gathered from both internal and external sources will be reviewed, providing attendees an opportunity to estimate benefits that would result in particular application areas as follows:

- Seismic (signal processing, wave propagation, reservoir modeling)
- Aerospace (structured analysis, fluid dynamics)
- Crystal Growth
- Molecular Modeling
- Dynamic Structural Analysis
- Circuit Simulation

Ms. Brumbaugh is a Senior Associate Engineer with the Scientific and Engineering Processor Products group of IBM's Data Systems Division in Kingston, N. Y.

CHEMICAL ENGINEERING SCHOLARSHIP ESTABLISHED  
BY DEAN EMERITUS HENRY SMITH AND WIFE

by Mary N. Yionoulis

Dr. Henry B. Smith, dean emeritus for University research and professor emeritus of chemical engineering, and his wife, Virginia, have contributed \$10,000 to the Department of Chemical Engineering to endow a scholarship program for undergraduates.

The endowment fund has been established through the Engineering Foundation. The scholarship will be named the Henry B. and Virginia T. Smith Scholarship in Chemical Engineering.

A 1938 chemical engineering graduate who joined the NCSU faculty in 1965, Henry Smith recalled that when he enrolled in 1934, it was at the height of the Great Depression years.

"At that time I found N.C. State very helpful to students like me who had no money but wanted an engineering education very badly," he said. "The engineering school and my department, especially,

worked hard and with a great deal of patience to provide me with student-type jobs."

He added that N.C. State provided him with a foundation of quality education that has served him well in both his industrial and academic careers.

"I have worked along with engineers who received their degrees from some of the nation's best technological universities, and I never felt my NCSU education was inferior in any way to theirs," he said.

During his industrial career Smith rose from research engineer to a corporate vice president of research. During his academic career he rose from assistant professor to full professor of chemical engineering and, administratively, from associate dean of engineering for research and graduate programs, to vice provost and dean of university research.

Smith earned his master's degree from Virginia Polytechnic Institute and State University (VPI) and his doctorate at the University of Cincinnati.

Mrs. Smith, whose father was a VPI professor, is a bacteriologist. She and her sister, Dawn Porter, have established a similar scholarship at VPI in pomology in memory of their parents, Prof. and Mrs. A. H. Teske.

AG AND LIFE SCIENCES RECEIVES  
GRANTS FROM REYNOLDS COMPANIES

The School of Agriculture and Life Sciences has recently received a \$308,000 grant from the R. J. Reynolds Tobacco Co. and an \$81,400 grant from R. J. Reynolds Industries. Dr. Durward F. Bateman, dean of the school, said the money would be used for 10 different programs. Included are funds to support scholarships, apprenticeships, assistantships and fellowships for students, plus a training and awards program for county agents of the Agricultural Extension Service. Also getting support are executive development seminars for tobacco farm men and women, software development for microcomputers, NCSU's "Tobacco Day" and a mobile information center being used in student recruitment.

The funds are partial fulfillment of Reynolds' commitment of \$1 million to the University in 1986 through the State of the Future Campaign.

THOUGHT FOR THE DAY

The following thought is from ECONNEWS, the economics and business departmental newsletter. It is attributed to Doug Larson of United Features Syndicate. How true the parts of the "thought" are, it deserves repeating: "The world is full of people looking for spectacular happiness while they snub contentment."

CHEMICAL ENGINEER APPOINTED UNIVERSITY  
DISTINGUISHED PROFESSOR; MEMBER OF ACADEMY

Dr. Alan S. Michaels, whose work in applied chemistry and membrane science has led to important advances in medicine and engineering, has been appointed in chemical engineering.

Michaels will fill one of four distinguished research positions created at NCSU through a special legislative appropriation to North Carolina's public research universities. One other position has been filled by biotechnologist Dr. Clement Markert, formerly of Yale University.

He will hold the title of Distinguished University Professor. An independent industrial consultant and former member of the faculty of the Massachusetts Institute of Technology, he will join the Department of Chemical Engineering Aug. 16.

A \$5-million legislative appropriation made by the 1984 N.C. General Assembly to the state's research universities enables NCSU to pay the competitive salaries needed to attract top researchers for the "distinguished professor" positions.

Michaels made major contributions while a professor at MIT from 1951 to 1966 in developing intensive teaching and research programs in the fields of surface, colloid and polymer science. He is prominent as a technological entrepreneur, having served as president of two companies designed to provide innovative products and processes to private industry and government.

Early in 1977 Michaels resigned from ALZA, a company he founded, to accept an appointment as adjunct professor of chemical engineering and Medicine at Stanford University. He holds more than 50 patents, authored or co-authored more than 130 technical papers and has been a contributing editor for eight textbooks.

He is a member of the National Academy of Engineering, a fellow of both the American Institute of Chemical Engineers and the New York Academy of Sciences.

ADDITIONAL INFORMATION ON HARRY C. KELLY FUND

A report in the February 21st edition of the Official Bulletin, no mention was made of the important contribution being made by a group of Japanese scientists. They have pledged \$50,000 from the Japanese Radioisotope Association in Tokyo. The Kelly Memorial Fund for U.S.-Japan Scientific Cooperation honors Kelly's important contributions to the cooperation during the occupation after the war and continuing throughout his later career including the period while he was provost at NCSU.

Managers say they are most productive before or after the usual business day.

## GRANTS

DR. D. H. MOREAU, Water Resources Research Institute, \$15,000, Orange Water & Sewer Authority, Reduction in Nutrients in Wastewaters Discharged into Nutrient-Sensitive Waters (NC Urban Water Consortium)

DR. K. L. MURTY, nuclear engineering, \$20,500, Duke Power Company, Nuclear Engineering Graduate Traineeship Program.

DR. H. M. ECKERLIN, mechanical and aerospace engineering and industrial extension service, \$17,894, N. C. Department of Commerce, Presentation of Improving Boiler Efficiency Workshops.

MR. R. WAYNE FREDRICH, industrial extension service, and MR. ROBERT E. FULENWIDER, industrial extension service and industrial engineering, \$5,700, Plastic Engineering Corporation, Glue/Ink Delivery Investigation.

DRS. M. K. DEARMOND, K. W. HANCK and D. W. WERTZ, chemistry, \$70,000, US Army Research Office, Charge Storage and Switching Phenomena in Metal Complexes.

DR. YEVONNE S. BRANNON, Center for Urban Affairs and Community Services, \$26,722, N.C. Department of Administration, Assessment of Service Needs of Small Businesses.

DR. JAMES F. SELGRADE, mathematics, \$82,987, US Department of Agriculture-Forest Service, Genetic Analysis of Forest Ecosystems.

DR. S. E. ELMAGHRABY, Operations Research, \$86,000, US Army Research Office, Development of a Methodology for Quality Control and Enhancement in Manufacturing.

DR. R. P. GARDNER, nuclear engineering, \$10,000, Mobil Research & Development, Center for Engineering Applications of Radioisotopes Associates Program - Oil Well Logging.

DR. ANN C. HOWE, math and science education, \$9,013, UNC-Chapel Hill (HHS) Math and Science in your Future - A Slide/Tape Presentation.

DR. D. H. MOREAU, Water Resources Research Institute, \$19,000, City of Durham, Reduction in Nutrients in Wastewaters Discharged into Nutrient-Sensitive Waters (North Carolina Urban Water Consortium).

DR. T. A. DOW, mechanical and aerospace engineering, \$75,000, Estman Kodak Company, Precision Engineering Center - Membership.

A microwave oven uses a third of the electricity needed for a conventional oven.

"FUTURE OF THE BLACK FAMILY"

A DISCUSSION WITH

DR. JOYCE LADNER

Dr. Joyce Ladner has a Ph.D. in Sociology and is a member of the faculty at Howard University. Her books include: Tomorrow's Tomorrow: The Black Woman (1971), The Death of White Sociology - an important critique of racism in the social sciences and Mixed Families: Adopting Across Racial Boundaries.

MONDAY, NOVEMBER 4TH

11:00 A.M.

SPONSORED BY THE PROVOST'S OFFICE AND THE DEPARTMENT OF SOCIOLOGY  
AND ANTHROPOLOGY

*400 printed*

# ALFRED B. PASTEUR

Psychologist and Educator

LECTURE SERIES

*Copy to be made of all books*

Speaking On:  
AN ORIGINAL THEORY OF BLACK EXPRESSIVENESS  
THAT REVEALS AND ANALYZES THE ARTISTIC AND  
CREATIVE EXPERIENCES OF BLACK LIFE

ALFRED B. PASTEUR, who holds a Ph.D. degree from Northwestern University, is a native of Ocala, Florida. He has worked as a teacher, counselor, and psychologist in many schools and agencies. Dr. Pasteur is a noted lecturer and group facilitator and currently is a professor at Hunter College of the City University of New York.

By examining emotionalism, spontaneity, and rhythm, the threads that run through the fabric of black culture, THE ROOTS OF SOUL presents a holistic overview of what black expressiveness is and where it comes from. These invisible threads linking music, dance, poetry, drama, oratory, folklore, sculpture, and other forms of the black community are the key to understanding how the culture developed and, in turn, influenced world culture as a whole. This theory is expanded to include practical applications enabling one to learn how to utilize the popular forms of contemporary black expression positively, and thus improve the chances of leading happier and more satisfying lives in our modern world.

Tuesday, March 29, 1983

MEMORANDUM

TO

FROM Lawrence M. Clark

RE 1986 Fall Afro-American Colloquium

Thank you for agreeing to participate in the 1986 Fall Afro-American Colloquium. This Colloquium series will be held on alternating Wednesdays and Thursdays each month from 12 noon until 1 p.m. in the Senate Chambers of the Erdahl-Cloyd Wing of the D. H. Hill Library.

The purpose of the Colloquium is two-fold: to afford Black faculty members an opportunity to make a presentation in their field of expertise and to give the audience a better understanding of their topic and the faculty members contribution to his/her field.

Each presenter is asked to prepare a 20-minute presentation followed by a time for discussion. Since this is the lunch hour, everyone is encouraged to bring their lunches to fully utilize this time together.

You are asked to provide the title of your presentation *two weeks in advance* for us to prepare flyers for campus faculty and staff.

*of your presentation*  
We look forward to your participation this Fall. If you have any questions or comments, contact Regelyn W. Edwards, 2268 or 3148.

Thank you.

## MEMORANDUM

To Hardy Berry  
Asst. Chancellor, Communications

From Lawrence Clark

Re Article for the BULLETIN

Would you please place the following announcement in the upcoming BULLETIN.

Dr. Thoyd Melton, Associate Professor of Microbiology will be the featured speaker at the Afro-American Colloquium, Thursday, February 13, 1986 from 12-1 p.m. in the Faculty Senate Chambers Erdahl-Cloyd Wing of the D. H. Hill Library. His topic of discussion is "Mastering the Gene." A question-answer period will follow the presentation. Faculty and staff are invited to bring their lunches and participate in this Colloquium.

For more information, contact Lawrence Clark at 3148.

Thank you.

## MEMORANDUM

TO Black Faculty  
FROM Lawrence M. Clark  
RE Afro-American Colloquium

You are invited to attend the 1986 Spring Afro-American Colloquium series to be held on alternating Wednesdays and Thursdays each month from 12 noon until 1 p.m. in the Senate Chambers of the Erdahl-Cloyd Wing of the D. H. Hill Library.

The purpose of the Colloquium is two fold: to afford Black faculty members an opportunity to make a presentation in their field of expertise and to give the audience a better understanding of the field.

The Spring 1986 Afro-American presentors are:

# The Afro-American Colloquium

Wednesday, March 12, 1986

12 Noon - 1 p.m.

Faculty Senate Chambers

Erdahl-Cloyd Wing

D. H. HILL LIBRARY

featuring

DR. WINSER ALEXANDER

Professor

Electrical and Computer Engineering

discussing

"ALGORITHMS AND COMPUTER ARCHITECTURE FOR HIGH SPEED SIGNAL  
PROCESSING"

Bring your lunch and participate in this session. A Question-Answer Period  
will follow.

Sponsored by the Office of the Provost

The Afro-American Colloquium Series will be held monthly on alternating  
Wednesdays and Thursdays with Guest Lecturers from the University community.

## PREPARATIONS FOR AFRO-AMERICAN COLLOQUIUM

1. Make room reservation (Faculty Senate Chambers) and check availability (on calendar) with Rose Autry, 2279.
2. Contact possible speakers. (Dr. Clark usually wants them from teaching areas but you can ask others on staff)
3. Send thank you letter that explains the purpose and asks that they inform you of the topic at least two weeks in advance of the presentation.
4. Once you get the topic, prepare flyers (attached). (Dr. Clark likes goldenrod paper) for everyone listed on the Black faculty/staff list.
5. Prepare announcement notices for campus publications: Crier of the Technician, Official Bulletin and Calendar (Hardy Berry), Student Affairs Bulletin (Green Sheet) and NCSU Seminars and Lectures and Bulletin (Information Serv.) They all have deadlines, check closely well in advance for publishing.
6. In your letter to those scheduled to lecture, ask if they need any audio-visual aids (Dr. Clark usually reserves from Pam Fleming, Media Center Office 2977).

## ON THE DAY OF THE COLLOQUIUM (alternating Wednesdays and Thursdays Fall and Spring Semesters only)

1. Check to see if speaker needs AV equipment.
2. Arrive by 11:30 or 11:45 at the latest to help set up the room. People start arriving by noon.
3. After a 20 minute presentation, time is allowed for questions and discussion.

Announcing  
the  
SPRING 1987 AFRO-AMERICAN COLLOQUIA

The Provost's Office will resume its  
AFRO-AMERICAN LUNCHEON COLLOQUIA at  
12 Noon in the Faculty Senate Chambers  
of the D. H. Hill Library on alternating  
Wednesdays and Thursdays this semester.

Lecturers scheduled to make presentations  
are: DR. FAHEEM ASHANTI, January 28;  
DR. AMASSA FAUNTLEROY, February 12;  
DR. BILL HARVEY, March 11; and  
DR. CAROLYN LOVE, April 9, 1987.

Faculty, students and staff are  
invited to bring lunch and partici-  
pate. Discussion period to follow  
presentations.

## TRUSTEES TOUR ENGINEERING, DEAN REVIEWS PLANS

### Editorial Comment:

### CAMPUS NEEDS TO BE WELL INFORMED ON AIDS: OPEN FORUM SCHEDULED WED., FEB. 19

All University personnel, administrators, faculty, staff, and students, need to be highly informed on AIDS, Acquired Immunity Deficiency Syndrome. The disease is now considered to be of epidemic proportions in the nation. No cure is known. Serious problems have developed elsewhere in the nation when individuals have been identified with AIDS and have continued their activities in public--schools, workplaces, etc.

To prevent needless and unreasoning fears developing in institutions in the University system, UNC officials are launching a substantial educational program about the disease. NCSU health and administrative officials have started the program on this campus.

Chancellor Poulton has appointed a Task Force, under the leadership of Dean Carl Dolce, to carry it out. A panel discussion is scheduled as one of the first steps for N.C. State. The announcement of that program follows, along with a portion of a newsstory from The New York Times. The Times article summarizes recent findings as reported in The New England Journal of Medicine. Neither reports of or the presence of an AIDS victim at the University should cause any real concern or disturb normal ongoing University activities. The Editor.

### "AIDS: MYTHS VS. FACTS"

An open forum on AIDS for NCSU students, faculty, and staff is scheduled for Wednesday, February 19, in Harrelson Hall (Room 107) from 7:30 to 8:30 p.m. The panel speakers include Dr. Robert Moseley, staff physician, Student Health Services; Ms. Judy Owen, Wake County Public Health Dept.; Dr. Clauston Jenkins, Jr., University counsel; and Dr. Thomas Stafford (moderator) vice chancellor for Student Affairs.

Two recent issues of the Official Bulletin have published summaries of University policies concerning AIDS. These should be kept as

continued on page 3.

Members of the NCSU Board of Trustees toured facilities in the School of Engineering Friday afternoon (February 7) and heard Dean Larry Monteith and other school administrators discuss long range facilities and program plans for the school.

The 13-member board met Friday and Saturday on the campus for a regular quarterly meeting. The tour was the first of a series of schools tours planned for the trustees at future meetings.

Speaking in addition to Dean Monteith were Dean George Bland, undergraduate programs; Dr. James Ferrell, graduate programs, and Dr. Thomas Elleman, research.

Launching a tour of laboratories and space renovations was a 5 1/2 minute videotape presentation produced by Lee Collins, director of the School's Television Production Facilities in the school's extension education division.

A tour of laboratory facilities and space renovations included the Industrial Engineering's flexible manufacturing project facility in Park Shops; the solid state laboratories in Daniels Hall (largely devoted to researching materials for microelectronic devices); Electrical and Computer Engineering's undergraduate computing lab; the Precision Engineering Laboratory in Mechanical and Aerospace Engineering; the Nuclear Engineering's renovations in the old reactor bay area; and the undergraduate computing facilities in chemical engineering. (See photos on page 2.)

### CHEMICAL ENGINEERING RECEIVES \$25,000 FROM ATLANTIC RICHFIELD

The Department of Chemical Engineering has received a \$25,000 grant from the Atlantic Richfield Foundation. The grant will be used to purchase equipment and provide other support for the department's polymer research program. Money from the grant will be used to support three programs in polymer research.

Dr. Harold B. Hopfenberg and Dr. Vivian T. Stannett, Camille Dreyfus, professors of chemical engineering, have been studying high polymers, plastic films and other permeable materials through which gases and water vapor can pass. Hopfenberg also serves as head of the department.

Dean Monteith presented an overview of the School of Engineering's present status and development plans for the Trustees.

Industrial Engineering--(l. to r.) Alan T. Dickson, Chairman James Hackney III, Dean Monteith, Dr. Thom Hodgson (IE), Edward Weisiger, Troy A. Doby, and Daniel C. Gunter.

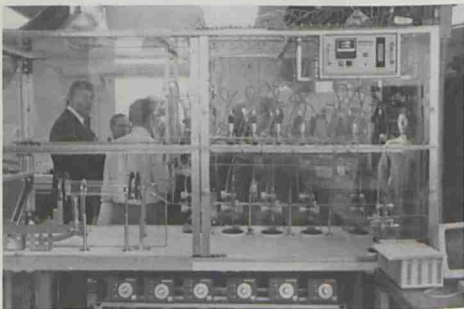

Dr. James Ferrell described engineering's TV broadcasting information (credit courses, extension, etc.) in the studio in Park Shops.

An undergraduate computing lab was one stop on the tour. Dr. Tom Miller (left) and Dr. Nino Masnari, ECE head, described the lab.

Precision Engineering--(l. to r.) Ed Weisiger, Alan Dickson, Dr. Thomas Dow (checkered shirt), Troy Doby, Mrs. Jemma Rayfield, Chairman James Hackney III, Chancellor Poulton, Dan Gunter and Elizabeth Lee.

Laboratory apparatus in Electrical and Computer Engineerin's "solid state" lab obscures the trustees.

Continued from page 1

reference. It is suggested that school and departmental newsletters should reprint the information to achieve maximum understanding on the campus.

The portion of the Times' newsstory is as follows:

"The largest and most thorough study of members of the families of AIDS victims completed to date provides "conclusive" evidence that the fatal disease does not spread through close, day-to-day personal contact, according to the leader of the research team.

"The study examined in more detail than ever before the extent to which family members hugged and kissed AIDS patients and shared toothbrushes, drinking glasses, beds, towels and toilets with them.

"Together with other evidence, it indicates that the risk of transmitting acquired immune deficiency syndrome through household contact is "virtually nonexistent," said the senior author of the report, Dr. Gerald H. Friedland of the Montefiore Medical Center in the Bronx.

#### 17,001 Cases Reported Nationwide

"In blood tests conducted in the study, only a 5-year-old girl, out of 101 people who shared homes with AIDS patients, showed signs of infection with the AIDS virus. The child, whose mother had the disease, had suffered related disorders since she was an infant and almost certainly was born with the infection, the doctors concluded.

"As of Monday, 17001 cases of AIDS nationwide had been reported to the Federal authorities. Half the victims have already died and none have been cured. Homosexual men and users of intravenously administered drugs have been hit hardest by the disease, which scientists believe is caused by a virus, designated HTLV-III or LAV.

"Scientists say the virus had been known to spread from person to person only through intimate sexual contact or direct transfers of blood, for instance in the sharing of hypodermic needles or from women to babies at birth. But only a minority of those infected with the virus have developed the fatal destruction of the body's immune system.

"The new report, published today in The New England Journal of Medicine, adds force to the assertions of the Federal Centers for Disease Control that the spread of the AIDS virus through nonsexual personal contact has never been documented and is extremely unlikely. The study was conducted in cooperation with the Federal agency.

"This is a strong piece of additional evidence that casual transmission does not occur,"

said Dr. Harold Jaffe, chief epidemiologist of the centers' AIDS branch. He added that no family member of any victim of the disease had been known to develop the disease apart from those who became infected by sexual intercourse with a virus carrier, abuse of intravenous drugs of other recognized modes of infection."

#### NOBEL LAUREATE TO GIVE PHYSICS LECTURE FEB. 17; LECTURE NAMED AFTER DISTINGUISHED NCSU PHYSICIST

Dr. T. D. Lee, who shared the Nobel Prize in Physics in 1958, will give the Llewellyn Hilleth Thomas Lecture in Physics Monday, Feb. 17, at 4 p.m. The lecture will be in Room 2215, Williams Hall.

Dr. Lee is Enrico Fermi Professor of Physics at Columbia University.

Dr. Thomas, after whom the lecture is named, is famed for discoveries in atomic physics. A statistical model of the atom which he developed is called the Thomas-Fermi model because both were developing the model concurrently. Thomas came to NCSU as a University Professor in 1968 and is a professor emeritus.

Dr. Lee, a native of Shanghai, fled the Japanese invasion during World War II, eventually reaching the U.S. where he earned his doctorate at the University of Chicago in 1950. Dr. Lee and Dr. Chen Ning Yang, a young Chinese he had known in Kun-ming, Yunnan, and who had come to the U.S., in 1945-46, published a paper in 1956 challenging a basic "law" of physics, "conservation of parity," which earned them the Nobel Prize.

The lecture will be "Symmetry Principles of Physics." A tea at 3:30 p.m. in the Cox Hall Lounge will precede the lecture.

#### ISRAELI JOURNALIST TO SPEAK TO INTERNATIONAL FACULTY FORUM

Gideon Lowy, a senior reporter and news editor of Ha'aretz, a daily Israeli newspaper, will speak to the International Faculty Forum on "The Palestinian Problem and Possible Solutions," at 2 p.m. on Friday, February 14, in Link 212. Lowy, who holds degrees in political science and international relations from Tel Aviv University, has previously served as a personal aide to Shimon Peres and as a spokesperson for the Israeli Labor Party. He has written and spoken extensively on major political issues confronting Israel, such as freedom of the press, the divisions within the Israeli political party system, and the Palestinian problem. Open to the public.

#### RED CROSS BLOODMOBILE TO BE AT STUDENT CENTER TODAY, FEB. 12

The Red Cross Bloodmobile will be at the Student Center to get blood donations from 10 a.m. to 3:30 today, Wednesday, February 12. The sponsors today are Air Force ROTC and Delta Sigma Phi.

DR. MELTON TO SPEAK AT "AFRO-AMERICAN COLLOQUIUM  
ON GENETICS IN FACULTY SENATE CHAMBERS

Dr. Thoyd Melton, associate professor of microbiology, will speak at the Afro-American Colloquium, Thursday, February 13 from 12-1 p.m. in the Faculty Senate Chambers, D. H. Hill Library. His topic of discussion will be "Mastering the Gene." A question-answer period will follow the presentation. Faculty and staff are invited to bring lunches and participate, according to Dr. Lawrence Clark, associate provost.

COMMON EXAM REQUESTS DUE FOR '86-'87

On May 10, 1982, Provost Winstead and Vice Chancellor Talley issued a policy on common examinations (see policy below). Requests for common examinations for the 1986-87 academic year are now due.

Requests must be written and sent to Registrations and Records by Friday, February 14, 1986. The request must include each of the following items:

1. Name of Department
2. Course Number
3. Total Enrollment (1985 fall and/or 1986 spring)
4. Total number of sections (1985 fall/or 1986 spring)
5. State if request is for common evening examination or common final examination or both.
6. If course does not meet minimum requirements (500 or more students and sections scheduled at more than two times), additional justification needs to be included.
7. A suggested time for the common examination should be included.
8. Signatures on the request are needed from the person originating the request and/or department head and the School Dean.

For further information, contact James Bundy, Ext. 2572.

PROPOSED UNDERGRADUATE COURSE REVISIONS:
