1974-75 (Interim) Affirmative Action Update Report

In June, 1973, North Carolina State University submitted its Affirmative Action Plan to the HEW District Office in Atlanta, Georgia, and in mid-February, 1974, submitted a revised and expanded Plan for this University. In the original and revised edition, the first year of the goals and timetables was July 1, 1973 to June 30, 1974. Overall, the Affirmative Action Plan is based on a three-year period from July 1, 1973 to June 30, 1976. At the end of each year (June 30), a brief yearly report will be made on the progress and/or lack of progress toward the affirmative action goals.

The NCSU Affirmative Action Plan follows the regular pattern of organization and administration of the University and is divided into 13 planning units which include the eight degree-granting Schools, Student Affairs, Library, Business Affairs, University Extension, and Special Units. Each unit established a planning committee which developed plans applicable to that unit. In combination with the general statement on policy and description of procedure, these 13 plans constituted the Affirmative Action Plan for NCSU.

With the conclusion of the second year each unit reported on the results of the good faith efforts made within that unit on the following groups of personnel:

EPA Nonfaculty

Employees exempt from the State Personnel Act without faculty rank (example: librarian)

EPA Faculty	Employees exempt Act with faculty professor).		

-2-

SPA EI

Employees subject to the State Personnel Act (example: secretary).

The Departments of Adult and Community College Education and Sociology and Anthropology are housed jointly in two Schools; data from these two Departments was included twice in last year's interim report. Corrections in last year's data are reflected in this report. In addition, some employees under the classification of Internationals and Foreign Nationals were included in the other race category (American Indians, American Orientals, and Spanish Surnames) in some of the units' reports this year. Corrections have been made in the overall University summary by taking these counts and adding them under Internations and Foreign Nationals, and White category.

Attached are tables from each of the 13 units plus a University total on race and sex on the three categories listed above.

A summary of the tables indicates the following:

### Race Summary

EPA Nonfaculty Blacks increased from 27 to 29 over last year with a goal of 38 by June, 1976. Increases of three Blacks in the officials and managers classification (2 Administrators in the School of Agriculture and 1 Assistant Provost) coupled with a loss of one black in the professional classification resulted in a net gain of two blacks. Under the other race category (American Indians, American Orientals, Spanish surnames), there was no change over last year.

EPA Faculty

Blacks increased from 12 to 16 over last year with a goal of 44 by June, 1976. Increases in the Associate Professors (+1), Assistant Professors (+3), and Instructors (+1) classifications coupled with a loss of one (-1) in the other classification resulted in a net gain of 4 blacks. Under the other race category, the increase was from 15 to 17.

Blacks decreased from 554 to 543 with a goal of 636 by June, 1976. Decreases of blacks in the clerical (-4), craftman (-5), operations (-4), and laborers (-9) classifications coupled with gains in the professionals (+2), technicians (+1), and service workers (+8) classifications resulted in a net loss of 11. Under other race, there was no change over last year.

Looking at the total University employees, the number of employees increased from 3684 to 3751 (+67) with blacks decreasing in number by -5 [EPA faculty and Nonfaculty (+6), SPA (-11)]; other races increasing by +2 and whites increasing by +70.

Sex Summary

SPA

EPA Nonfaculty

Females increased from 86 to 88 over last year with a goal of 90 by June, 1976. Increases in the officials and managers (+1), and pro-

-3-

fessionals (+2) classifications coupled with a loss of one (-1) in the technicians classification resulted in a net gain of two females over last year.

EPA Faculty Females increased from 63 to 78 over last year withagoal of 118 by June, 1976. Gains occurred in the dept.head (+1), Associate Professors (+5), Assistant Professors (+2), Instructors (+6) and other (+1) classifications.

SPA Females increased from 1151 to 1170 over last year. Under the classification of officials and managers (+1), professionals (+17), technicians (+14), clerical (+5), craftsman (+3), laborers (+1) were noted. Under the classification of operations (-3), service workers (-6), slight decreases were noted. (Some employees in the sales classification have been reclassified.)

It is very clear after the first two years of the three-year period the University as a whole has a long way to go in meeting the goals set forth two years ago for blacks and females, particularly in the EPA faculty area. The two years were expected to be the least productive of the three as the various departments, Schools, and divisions expanded their efforts in the attempted recruitment of minorities and females.

An Affirmative Action form that accompanies each regular University appointment form was used during the year to review

-4-

the good faith efforts made on each new EPA faculty and nonfaculty appointment prior to the official offer being made. In cases where the effort appeared to be too limited in scope for the position or not enough good faith effort was made to publicize the open position, the EEO Officer contacted the responsible persons and either received additional information on the efforts made or asked that the opening be further publicized or additional efforts be made before being approved. A copy of this Affirmative Action Report Form is attached.

Although the second year results are not as dramatic as hoped for, there were several encouraging reports. During the year a black was appointed Assistant Provost, a female was appointed Head of the Department of Instruction and Curriculum, and a black was appointed Assistant Football Coach. Appointments which already have been made effective after June 30, 1975, which are not reflected in this report included six black faculty members and seven female faculty members. In addition, a female pharmacist and a female basketball coach have been appointed effective after June 30, 1975.

Two blacks and two females were promoted from Assistant Professor to Associate Professor, and one female was promoted from Instructor to Assistant Professor. These promotions will be reflected in next year's report.

The Equal Employment Opportunity Officer chaired the Affirmative Action Committee consisting of one representative from each of the 13 units of the University and two at large members. This Committee met several times during the year to discuss affirmative action and equal employment. In addition,

-5-

a Panel Discussion entitled "The Impact of Federal Regulations on Higher Education" was held and was well attended by both Faculty and Staff. Also, a two-day Race Relations Seminar for key administrators was held. The Seminar was conducted by Urban Crisis, Inc. of Atlanta, Ga.

During the year the EEO Officer met and reported on the University Plan to the University Board of Trustees, University Good Neighbor Council, the Chancellor's Administrative Council, and various schools and departments
