C. B. McCants, Head, Department of Soil Science
J. V. Baird, Extension-Research
E. J. Kamprath, Research
G. F. Peedin, Research
W. G. Woltz, Research

Robert D. Grisso, Field Representative, Test Demonstration Branch TVA, Roanoke, Virginia

PURPOSE OF THIS SCHOOL

To review research data, recommendations and problems in the fields of pesticides, fertilizer and application equipment with:

Manufacturers, Formulators
Dealers, Salesmen
Professional Agricultural Workers
Farm Managers

REGISTRATION

Registration will be held in the lobby of the Sir Walter Hotel, Monday January 10, from 8:15 to 10:00 a.m. The registration fee is $8.00 per person - to include a copy of the manual.

AGRICULTURAL CHEMICALS MANUAL

Printed in Connection with the school and furnished to each registrant is a copy of the North Carolina Agricultural Chemicals manual.

This manual includes recommendations on the control of insects, weeds, plant diseases, rodents, and sections on fertilizer and application equipment. Additional copies are available. See order blank.

HOTEL RESERVATIONS

Make your hotel reservations early. A block of rooms has been reserved at the Sir Walter Hotel, 400 Fayetteville Street. Telephone 832-7711. Other hotels are: Carolina, Park Central and Milner Andrew Johnson. There are several motels within a reasonable distance. If you have difficulty getting reservations, please contact M. E. Starnes, Phone 755-2261, Division of Continuing Education, North Carolina State University.

PARKING

Parking for overnight guest at the Sir Walter is furnished free at the Sir Park Deck. Several parking lots are in the vicinity.

FERTILIZERS

FUNGICIDES

GROWTH REGULATORS

HERBICIDES

INSECTICIDES

HOTEL SIR WALTER
FAYETTEVILLE STREET
RALEIGH, NORTH CAROLINA

Conducted by:

School of Agriculture and Life Sciences

North Carolina State University
At Raleigh

JANUARY 10 – 11, 1972

A Continuing Education Program

PROGRAM 1972 AGRICULTURAL CHEMICALS SCHOOL

MONDAY MORNING, JANUARY 10, 1972

8:15 **Registration** — Lobby, Hotel Sir Walter

GENERAL SESSION

Presiding — *H. E. Duncan*

10:00 **Address of Welcome and Introduction of Guest Speaker** — *J. E. Legates,* Dean, School of Agriculture and Life Sciences, NCSU

10:15 **Recent Federal Pesticide Legislation** — *The Honorable Wilmer D. Mizell,* The House of Representatives, Member, House Agriculture Committee

PLANT PATHOLOGY

Presiding — *D. E. Ellis*

10:45 **Vegetable Disease Control** ..... *C. W. Averre*
10:55 **Fungicide Trials on Trellised Tomatoe** ..... *P. B. Shoemaker*
11:05 **Fungicide Trials on Vegetable Crops** ..... *S. F. Jenkins*
11:15 **Fruit Disease Control**..... *C. N. Clayton*
11:25 **Seed Treatment for Cereals**..... *D. M. Kline*
11:35 **Peanut, Corn, Soybean and Cotton Disease Control**..... *J. C. Wells*
12:00 **Tobacco Disease Control — 1971 Results** ..... *F. A. Todd*
12:20 **Changes in Disease Control Recommendations** ..... *H. E. Duncan*
12:30 **Adjourn**

MONDAY AFTERNOON, JANUARY 10, 1972

ENTOMOLOGY

Presiding — *G. T. Weekman*

Changing Concepts in Insect Control ..... *K. L. Knight*
2:15 **Principles of Insect Pest Management** . *R. L. Rabb*
2:30 **Economic Aspects of Pest Management** ..... *G. A. Carlson*
2:45 **A Training Program in Insect Pest Management** ..... *W. M. Brooks*
3:00 **A Pilot Project on Tobacco**..... *H. C. Ellis*
3:15 **Community Cotton Insect Control** . *J. R. Bradley*
3:30 **Integrated Mite Control** ..... *G. C. Rock*
3:45 **Recess**

GROWTH REGULATORS

Presiding — *C. W. Donoho*

4:00 **The Use of Kylar on Peanuts** ..... *A. Perry*
4:10 **New Growth Regulators for Floricultural Crops** ..... *R. A. Larson*
4:20 **Growth Regulators for Vegetable Crops** ..... *C. H. Miller*
4:30 **The Use of Ethephon and Other Growth Regulators on Apples** ..... *C. R. Unrath*
4:40 **Growth Regulators for Blueberries**. *C. M. Mainland*
5:00 **Adjourn**

TUESDAY MORNING, JANUARY 11, 1972

GENERAL SESSION

Presiding — *C. R. Unrath*

8:30 **North Carolina Pesticide Law - 1971** — *W. B. Buffaloe,* Pesticide Chemist, N. C. Department of Agriculture
9:00 **Extension's Plans for Pesticide Training** — *T. C. Blalock,* Assistant Director, Agricultural Extension Service
9:30 **Pine Mouse Control** — *D. E. Davis,* Head, Department of Zoology
9:45 **Recess**

WEED SCIENCE

Presiding — *P. H. Harvey*

10:00 **New Developments in No-Tillage**. . *A. D. Worsham*
10:10 **Herbicide Injury as Related to the Environment** ..... *J. W. Schrader*
10:20 **Movement of Herbicides in Surface Water** ..... *T. J. Sheets*
10:30 **Effects of Herbicides on Weed Populations** ..... *J. B. Weber*
10:40 **Pesticide Interactions**..... *F. T. Corbin*
10:50 **Identification of Weedy Grasses in Agronomic Crops** ..... *W. M. Lewis*
11:00 **Control of Weedy Grasses in Agronomic Crops** ..... *H. D. Coble*
11:10 **Post Directed Sprays in Soybeans** . . . *H. D. Coble*
11:20 **Herbicide Lable Changes and Additions in Agronomic Crops** ..... *W. M. Lewis*
11:30 **Herbicide Developments in Vegetable Crops** ..... *T. J. Monaco*
11:40 **Azide as a Broad Spectrum Fumigant** ..... *W. A. Skroch*
11:50 **New Ideas for Weed Control in Ornamentals** ..... *R. L. Spangler*
12:00 **Adjourn**

TUESDAY AFTERNOON, JANUARY 11, 1972

SOIL FERTILITY

Presiding — *C. B. McCants*

1:30 **Advances in Fertilizer Technology**. . . *R. D. Grisso*
2:00 **Soybean on-Farm-Fertilizer Tests** . . . *J. G. Clapp*
2:20 **Foliar Nutrients for Tobacco and Soybeans** ..... *G. F. Peedin*
2:40 **Good Forage Management Means Increased Fertilizer Uses** ..... *S. H. Dobson*
3:00 **Recess**
3:15 **Magnesium as a Nutrient for Tobacco** .*W. G. Woltz*
3:35 **Magnesium Use on Soybeans, Cotton and Corn** ..... *E. J. Kamprath*
3:55 **Sources of Magnesium and Levels Found in North Carolina Soils** ..... *J. V. Baird*
4:15 **Discussion**
4:30 **Adjourn**

Attention: Mr. Eugene Starnes

December 14, 1971

The Honorable Wilmer D. Mizell
Member of Congress
429 Cannon House Office Building
Washington, D. C. 20515

Dear Honorable Mizell:

I am extremely pleased that you were able to accept our invitation to speak to the annual Agricultural Chemicals School in Raleigh on January 10, 1972.

I am enclosing five copies of the program for the 1972 School. You will notice that on Tuesday morning we are going to have Mr. W. B. Buffaloe speak on the "North Carolina Pesticide Law of 1971" and Dr. T. C. Blalock speak on the subject of "Extension's Plans for Pesticide Training" in North Carolina. Under the North Carolina Pesticide Law of 1971, the North Carolina Agricultural Extension Service was given the responsibility of conducting the necessary training program. I mention these points because I believe that if you explain the major points in the proposed Federal bill, it would help to set the stage for the two talks mentioned above. Also, there is a great deal of interest in pesticide legislation at this time and the effects it will have on the many small farmers here in North Carolina.

The School is attended by pesticide dealers, salesmen and formulators throughout the State and by many representatives of the larger chemical companies from throughout the United States. Many of our County Extension Agents will also attend this School. Thus, the majority of the people that attend the School are vitally concerned with pesticides and pesticide legislation.

If you plan to fly to Raleigh, I will be most happy to meet you at the airport. Also, if there is anything else that I can do to help make your visit here enjoyable, please let me know.

It would be most helpful to us if you could send me a short biographical sketch to forward to Dean Legates to aid him in his introductury remarks.

I am looking forward to seeing you on January 10 and am very anxious to hear your comments concerning pesticides.

Sincerely,

H. E. Duncan, In Charge
Plant Pathology Extension

Enclosures

NORTH CAROLINA STATE UNIVERSITY | AT RALEIGH

SCHOOL OF AGRICULTURE AND LIFE SCIENCES

OFFICE OF THE DEAN AND DIRECTORS
BOX 5847 ZIP 27607

September 9, 1971

Mr. William D. Ruckelshaus, Administrator
Environmental Protection Agency
Washington, D. C. 20460

Dear Mr. Ruckelshaus:

We would like to extend an invitation to you to speak to the annual Agricultural Chemicals School in Raleigh on January 10, 1972.

Each year during the month of January, the School of Agriculture and Life Sciences of North Carolina State University conducts an Agricultural Chemicals School to review research data, recommendations and problems in the fields of pesticides, fertilizers, growth regulators and application equipment. The school is conducted primarily for manufacturers, formulators, dealers, salesmen, professional agricultural workers and farm managers. The school is a two-day affair and we usually have approximately 450 registrants.

Because of the important role that the Environmental Protection Agency has in the use of pesticides, we would like for you to speak for 30-40 minutes on the subject "Responsibilities of the Environmental Protection Agency in Safe Use of Pesticides," or some related topic. The scheduled time for your address is 10:15 A.M. on January 10, 1972. We earnestly hope that you will be able to fit this into your busy schedule. Please let me know at your earliest convenience if you can appear on the program and advise me if you prefer a change in the title of the presentation.

We look forward to hearing from you.

Sincerely,

J. E. Legates, Dean

Sincerely

H. E. Duncan, Chairman
Program Committee

No!
10-5-71. (Telephone)

THE UNIVERSITY OF NORTH CAROLINA, William Friday, President, comprises: *North Carolina State University at Raleigh, the University of North Carolina at Chapel Hill, the University of North Carolina at Greensboro, the University of North Carolina at Charlotte, the University of North Carolina at Asheville, and the University of North Carolina at Wilmington.*

October 20, 1971

Honorable Wilbur D. Mizell
Member of Congress
1228 House Office Building
Washington, D. C. 20515

Dear Honorable Mizell,

We would like to extend an invitation to you to speak to the Annual Agricultural Chemicals School in Raleigh on January 10, 1972.

Each year during the month of January, the School of Agriculture and Life Sciences of North Carolina State University conducts an Agricultural Chemicals School to review research data, recommendations and problems in the fields of pesticides, fertilizers, growth regulators and application equipment. The school is conducted primarily for manufacturers, formulators, dealers, salesmen, professional agricultural workers and farm managers. The school is a two-day affair and we usually have approximately 450 registrants.

Because of the important role that you have had in recent pesticide legislation, the program committee would like to have you speak for 25-30 minutes on the subject "Recent Pesticide Legislation," or some related topic. The scheduled time for your address is 10:15 A.M. on Monday, January 10, 1972. We earnestly hope that you will be able to fit this into your busy schedule. Please let me know at your earliest convenience if you can appear on the program and advise me if you prefer a change in the title of the presentation.

We look forward to hearing from you at your earliest convenience.

Sincerely,

H. E. Duncan, Chairman
Program Committee - SALS, A.C.S.
and Specialist In Charge
Plant Pathology Extension

Representative Wilmer D. Mizell
U. S. House of Representatives
Congressional Office Building
Washington, D. C. 20001

Dear Representative Mizell:

It was a pleasure having you with us on January 10 to speak to the participants of the "Agricultural Chemicals School." All comments which I received from those who heard your talk were most complimentary, and felt that your discussion was a big plus to the program.

As indicated to you by Dr. Harry Duncan we would be glad to reimburse you for your expenses incurred in appearing on this program. Attached you will find forms which are used by the university. If it is not possible for you to attach your plane ticket, I would suggest that you request a reimbursement on a mileage basis for sufficient coverage to cover your plane ticket.

Thanks again for assistance with this program.

Sincerely yours,

Eugene Starnes
Assistant Director

The Honorable Wilmer D. Mizell
Member of Congress
Route 5
Winston Salem, N. C. 27107

My dear Mr. Mizell:

It was a genuine personal privilege and pleasure to meet you and to present you to our Agricultural Chemicals School on January 10. Your keynote address set a high level for the conference deliberations. The content was excellent and the delivery forceful.

We do appreciate your honoring us by being present for this occasion. If our School can be of assistance to you in your legislative endeavors, we certainly stand ready to help.

With best personal wishes,

Sincerely yours,

J. E. Legates, Dean

THE UNIVERSITY OF NORTH CAROLINA, William Friday, President, comprises: *North Carolina State University at Raleigh, the University of North Carolina at Chapel Hill, the University of North Carolina at Greensboro, the University of North Carolina at Charlotte, the University of North Carolina at Asheville, and the University of North Carolina at Wilmington.*

BIOGRAPHY OF HONORABLE WILMER D. MIZELL
UNITED STATES REPRESENTATIVE OF THE FIFTH
CONGRESSIONAL DISTRICT OF NORTH CAROLINA

Congressman Wilmer (Vinegar Bend) Mizell, now serving his second term in the United States Congress as representative of the Fifth Congressional District of North Carolina, was first elected to Congress in 1968 after one of the most colorful careers of any legislator in American history.

Born on August 13, 1930, near Vinegar Bend, Alabama (population 37), Wilmer Mizell became known throughout the nation as "Vinegar Bend" Mizell during his ten years as a major league baseball pitcher.

During his career with the St. Louis Cardinals and Pittsburgh Pirates, Mizell proved to be a consistently valuable performed and was named to the National League All-Star team in 1959. In 1960, he helped pitch the Pirates to a National League championship and a World Series victory over the New York Yankees.

Mizell retired from baseball after the 1962 season, which he spent with the New York Mets, when arm trouble began to curtail his effectiveness. "By the time I quit the game," he says, "there were still only two batters I had trouble with -- right-handers and left-handers."

After retiring from his baseball career, Mizell worked in sales management and public relations for the Pepsi-Cola Company in Winston-Salem, North Carolina, where he had once pitched in the minor leagues.

Turning his attention to politics, Mizell was elected in 1966 to the Davidson County (N. C.) Board of Commissioners and served as chairman of the board.

He won election to the United States Congress in November, 1968, as a Republican, and was re-elected in 1970 by more than twice the margin of his 1968 victory.

Since coming to Washington, Mizell has been active in such areas as rural development, efficiency in government, spending (winning a "Watchdog of the Treasury" award in 1970), local control of schools, textile import policy, social security benefits, the prisoner-of-war issue, and tobacco legislation.

The congressman is a member of the House Committees on Public Works and Agriculture. His subcommittee assignments on Public Works include economic development, roads, flood control and internal development, public buildings and grounds, and investigation and oversight.

In the Agriculture Committee, he is a member of the sub-committees on tobacco, cotton, and oilseeds and rice.

Mizell is a second term member of the executive committee of the Republican Congressional Committee, which oversees campaign policies and operations, and conducts a public information program on Republican activities.

He is also a member of the House Republican Research Committee's Task Force on Rural Development, and the National Advisory Council of Teen-age Republicans.

Mizell has received numerous awards, and was named Distinguished Citizen of 1969 by the George Washington

University, and was the Southern Baptist Christian Athlete of the Year in 1951.

The congressman served in the U. S. Army in 1953-54, and is a member of the American Legion.

Mizell is married to the former Nancy Ruth McAlpine of Davidson County, North Carolina. The Mizells have two sons, Wilmer David, Jr. (Dave), 15, and James Daniel (Danny), age 9.

Mizell is a deacon in the Christian and Missionary Alliance Church, and frequently serves as a lay speaker.

December 21, 1971

MEMO TO: Dr. J. R. Bradley, Mr. John Glover, Dr. J. W. Schrader, Dr. J. V. Baird, Dr. D. E. Davis and Dr. C. R. Unrath

FROM: H. E. Duncan, Chairman, 1972 Agricultural Chemicals School Program Committee HED

SUBJECT: Minutes of Meeting Held on December 20, 1971

The Program Committee for the 1972 Agricultural Chemicals School meet in Room 2515, Gardner Hall at 1:30 P.M. on December 20, 1971. The following points were agreed upon:

1. A request will be made to Mr. J. E. Foil, Assistant Director, N. C. Agricultural Extension Service, that 4 to 5 agents per District be authorized to attend the 1972 Agricultural Chemicals School.

2. It was decided that each committee member should encourage their respective Departments to prepare handouts for the 1972 School. If possible, these handouts should include tables that are presented as slides during the presentation. Each Department's reports will be prepared on different colored paper. The following format will be followed:

Entomology - White
Plant Pathology - Blue
Growth Regulators - Pink
Weed Science - Yellow
Soil Fertility - Green

Each Department should prepare 550 copies of each handout. These are due in Mr. Starnes' office by January 5, 1972. Mr. Starnes requests that if the handouts are longer than one page, that the pages not be stapled together. Mr. Starnes will collate the handouts and arrange them according to the way the sections will be presented (Plant Pathology first and Soil Fertility at the end).

3. The committee urges that a practice session be held in each Department in an effort to assure good visuals being presented at the School. The committee urges that each speaker consider the suggestions for preparing slides that are outlined

in the J. Econ. Ent. 44 (1). A summary of these suggestions were duplicated by the Program Committee for the 1970 School and may be available in the various Departments. Only a carousel projector will be available for showing slides (2"x 2").

4. It was decided that this year the number of the paper being presented will not be displayed. Therefore, the presiding offices of each session, or a committee member from that section, will be responsible for making an announcement five (5) minutes before the session begins. Also, the same person is responsible for having someone to work the lights during the session.

5. It was decided that a room at the hotel will be reserved for Mr. Mizell for the night of January 9 and be available for his use during the day (January 10).

Preparation and Use of Slides at Annual

Pesticide-Fertilizer Schools

The following suggestions, after J. Econ. Ent. 44 (1), have been prepared by the program committee of the 1970 Pesticide-Fertilizer School to help school participants prepare top quality visuals. The part on spacing, which is italicized, represents minimum standards and school participants are expected to follow these explicitly.

LEGIBILITY OF SLIDES

Spacing:

Crowded letters or words reduce legibility.
Use not more than 30 letters and spaces horizontally.
Use not more than 10 lines vertically.
Leave ample space around words, figures, and characters.

Style of lettering:

Plain, bold, block hand lettering in black can be more easily read than italic, script, or fancy types.

Gummed black letters can be substituted.

Typing for use in making slides will not stand reduction and then the necessary enlargement.

Weight of letters and trend lines:

In making 1/4-inch letters, use number 3 or 4 Leroy or number 2 or 3 Wico pen.

Use comparable or heavier weight lines for trend lines in graphs.

COMPOSITION OF SLIDES--TABLES, CHARTS, PICTURES, AND DRAWINGS

Tables:

Should contain only essential data. Preferably one or two main items.

Summaries are sufficient in most cases.

Limit headings to four words.

Include only one general thought in heading.

Repeat subheads on continuing slide if additional slides are needed to complete the table.

Do not shift position of any columns of figures on succeeding slides.

If first slide carries check plot information on left, use this order on continuing slides.

Leave ample space for emphasis.

Inclusion of many data makes essential material less obvious.

Charts: Graphs, columns, pies, bars

Keep them simple.
Use least lettering possible.
Select kind most appropriate to subject.

Graphs

Do not exceed three trend lines per graph.
Make trend lines distinct and contrasting by using solid lines, dots and dashes, or different-colored lines.
Trend lines need not pass through all variable points.

Columns, pies and bars

In color slides, alternate colors add to clarity and attractiveness.
Use black, red, blue, orange, green, or purple and in that order.
Shading by various patterns gives contrast to the different units when using black and white.

Pictures of objects:

Items photographed to clarify talk should be plainly visible.
Use no more than two or three typical samples.
When taking pictures, use a contrasting background.
Be careful of strong lights and shadows.
Omit meaningless foreground subjects.
Leave out unrelated material, such as posts, steam pipes, automobiles, and irrelevant equipment.
Posing should show action related to subject matter.
Leave portraits for your album.
Mask out all except the points to be stressed when copying photographs for use in slides.

Drawings and sketches:

Drawings may illustrate some items better than photographs.
Sketches of objects being discussed help others to visualize points being stressed.

USING SLIDES

Examine each slide before going to meeting.
Make sure there is no error in subject matter.
Make sure slide is properly marked for lantern operator. To do this, hold the slide in the correct position for reading when the maker looks through it, then place the tab on the lower left-hand corner next to him.
Stand to one side of the screen.
Talk to audience, not to screen.
Explain general lay-out.
Place pointer on each feature referred to.
Use more slides rather than too much on one side.
Do not dwell too long on one slide.

Dear Dr. Duncan:

Thank you for inviting Mr. Ruckelshaus to speak at the annual Agricultural Chemicals School in Raleigh on January 10, 1972.

As you know from your conversation with Mrs. Corbitt, previous commitments during January prevent the Administrator from accepting your invitation.

Mr. Ruckelshaus joins me in sending best wishes and sincerely regrets he cannot speak in Raleigh on January 10.

Sincerely,

A. James Barnes

MEMORANDUM

TO: Dr. Harry Duncan

FROM: Jack V. Baird

SUBJECT: Program for 1972 Agricultural Chemicals School

I am proposing the program which is enclosed for the "Soil Fertility Portion of the 1972 Ag-Chemicals School." I have proposed some times and I realize that you may want to make a slight adjustment in the scheduled time. I wouldn't object to the changes in time but I would like for the allocated time to be kept the same unless you should want to call me and discuss the need for making some adjustments. Please call me as soon as you have agreed to this program. At that time, I will write these people and give them some instructions and simply confirm their verbal agreement to participate at this time with the subject assigned.

I will also include a bit of information about these men so that it can be entered on the program for information sake.

SUBJECT: Minutes of Meeting of Program Committee for the 1972 Agricultural Chemicals School

The Program Committee for the 1972 Agricultural Chemicals School met on June 2 in Room 2515, Gardner Hall. All members of the Committee were present and the following points were agreed on:

1. The dates for the School are January 10-11, 1972. The School will be held at the Sir Walter Hotel.

2. It was decided to have two guest speakers again this year. Mr. William B. Buffaloe, N. C. Dept. of Agriculture, will be invited to speak to the group on the N. C. Pesticide Law, and its enforcement. Mr. Buffaloe's talk, if he accepts the invitation, will be on the morning of January 11, 1972. Mr. William D. Ruckelshaus, Administrator, Environmental Protection Agency, will be invited to give the main address on the morning of January 10, 1972. If he is unable to appear but suggests an alternate, the Committee will be polled by telephone before a decision is reached. Dean J. E. Legates will be asked to co-sign the letter of invitation to Mr. W. D. Ruckelshaus.

   If someone from EPA is not invited, Dr. Ed Smith of New York will be invited to speak on the subject of National Affairs of Pest Management. If Dr. Smith is unable to attend the School, Rep. Mizzell will be asked to address the group since he is on the House Agriculture Committee.

   Dean J. E. Legates will be invited to welcome the group.

3. The deadline for the Departmental representatives to have the program for the respective Departments prepared was set at September 15, 1971.

4. Soil Fertility prefers to have the afternoon of January 11 for their portion of the program. This was agreeable to everyone.

The other portion of the program will probably be as follows:

Plant Pathology	1.5 hours
Weed Science	2.25 hours
Entomology	1.66 hours
Growth Regulators	0.5 hours
Zoology	10 minutes on pine mouse control

We will also try to have a talk on residues in meat sometime during the morning of January 11.

The Committee recommends that all Departmental presentations be limited to not more than 10 minutes.

I will keep you informed as developments occur on the above items.

Thank you very much for your help during the meeting on Wednesday, June 4, 1971.

1. The dates for the School are January 10-11, 1972. The School will be held at the Sir Walter Hotel.

2. It was decided to have two guest speakers again this year. Mr. William B. Buffaloe, N. C. Dept. of Agriculture, will be invited to speak to the group on the N. C. Pesticide Law, and its enforcement. Mr. Buffaloe's talk, if he accepts the invitation, will be on the morning of January 11, 1972. Mr. William D. Ruckelshaus, Administrator, Environmental Protection Agency, will be invited to give the main address on the morning of January 10, 1972. If he is unable to appear but suggests an alternate, the Committee will be polled by telephone before a decision is reached. Dean J. E. Legates will be asked to co-sign the letter of invitation to Mr. W. D. Ruckelshaus.

   If someone from EPA is not invited, Dr. Ed Smith of New York will be invited to speak on the subject of National Affairs of Pest Management. If Dr. Smith is unable to attend the School, Rep. Mizzell will be asked to address the group since he is on the House Agriculture Committee.

   Dean J. E. Legates will be invited to welcome the group.

3. The deadline for the Departmental representatives to have the program for the respective Departments prepared was set at September 15, 1971.

4. Soil Fertility prefers to have the afternoon of January 11 for their portion of the program. This was agreeable to everyone.

COOPERATIVE EXTENSION WORK IN AGRICULTURE AND HOME ECONOMICS. NORTH CAROLINA STATE UNIVERSITY AT RALEIGH, 100 COUNTIES AND U. S. DEPARTMENT OF AGRICULTURE COOPERATING

The other portion of the program will probably be as follows:

Plant Pathology	1.5 hours
Weed Science	2.25 hours
Entomology	1.66 hours
Growth Regulators	0.5 hours
Zoology	10 minutes on pine mouse control

We will also try to have a talk on residues in meat sometime during the morning of January 11.

The Committee recommends that all Departmental presentations be limited to not more than 10 minutes.

I will keep you informed as developments occur on the above items.

Thank you very much for your help during the meeting on Wednesday, June 4, 1971.

DATE: May 19, 1971

SUBJECT: Meeting of the N. C. Agriculture Chemicals School Program Committee

Since the date of Wednesday, June 2, was agreeable with most of you, we would like to have a short Program Committee meeting at 8:30 A.M. in Room 2515, Gardner Hall (Conference Room next to Plant Pathology's main office). There will also be a short meeting of the Editorial Committee following the meeting of the Program Committee. Please be prepared to suggest who we should get for the main speaker, etc., for the school this year.

Thank you very much.

MEMORANDUM

TO: Members of Editorial Committee of N. C. Agric. Chemicals Manual
H. E. Scott, John Glover, H. D. Coble, Jack Baird, David E. Davis
Walter Skroch

FROM: C. N. Clayton, Chairman, Editorial Committee of N. C. Agricultural Chemicals Manual CNC

SUBJECT: Quarterly Revisions of Agricultural Chemicals Manual

The looseleaf editions of the Agricultural Chemicals Manual, which the county agents now have can be revised and brought up to date if there are important and necessary changes that should be made. The dates for such changes are April 23, July 1, and October 1.

Please check with the specialists in your department for any essential and necessary mid-year changes. The material in its final form should be sent to me by these dates.
