4H project manuals have been developed in a wide variety of areas to allow you to "learn by doing" an activity that interests you. The title, recommended age group, and publication code for all North Carolina 4H manuals are listed below.

You are encouraged to develop your project from a manual recommended for your age group; however, you can start a project in an area recommended for older 4H'ers if you have completed the projects suggested in the manual for your age group. And, you can complete a project designed for younger 4H members if you have no background in that project area.

You are also encouraged to complete *The North Carolina 4H Plan and Record* for each project you select. Planning your project and recording your progress and accomplishments are important elements in the 4H learning process.

After you check the projects you are interested in, sign the sheet and have your parent sign it also. Then, return it to your 4H leader. Your leader will get the manuals you have selected from your local 4H agent.

4H membership, activities, and events are open to all eligible-age youth, regardless of race, color, sex, or national origin.

As a 4H member, I agree to do my best to complete the projects which I have selected.

Signed: _____, 4H Member.

As a 4H parent, I (we) agree to support my (our) youngster in his or her efforts to grow through 4H projects, which have been selected with my (our) consent.

Signed: _____, 4H Parent/Guardian
